1. GENERAL DESCRIPTION OF THE OFFERING PROGRAMME

The following description constitutes a general description of the Programme for the purposes of Article 25 (1) of the Commission Delegated Regulation (EU) No 2019/980, as amended, implementing the Prospectus Regulation.

Under the programme, SG Issuer (the "**Issuer**") may, in its sole discretion, publicly offer and/or list on a regulated market in the European Economic Area the Leveraged Exchange Traded Notes (ETNs) or Leveraged Exchange Traded Commodities (ETCs) described in this Base Prospectus (the "**Leveraged Exchange Traded Products**", "**Leveraged ETPs**" or "**Securities**").

General information on this Base Prospectus can be found in section 3.

1.1. Overview of the Issuer

The Issuer is a public limited liability company (*société anonyme*) established under Luxembourgian law with its registered office in Esch-sur-Alzette, Grand Duchy of Luxembourg. The business address is: 10, porte de France, 4360 Esch-sur-Alzette, Grand Duchy of Luxembourg.

The Issuer's legal entity identifier (LEI) is 549300QNMDBVTHX8H127.

Further information on the Issuer can be found in particular in section 4. Specific risks related to the Issuer can be found in the section 2.2.

1.2. Overview of the Guarantor

The Securities are unconditionally and irrevocably guaranteed by Société Générale, Paris, French Republic (the "**Guarantor**" or "**Société Générale**") in accordance with the guarantee issued as of 20 November 2026 (the "**Guarantee**"). The Guarantor is a public limited company (*société anonyme*) under French law and has the status of a bank. The registered office of the Guarantor is 29 boulevard Haussmann, 75009 Paris, French Republic, and the administrative office is 7 cours Valmy, 92972 Paris-La Défense, French Republic.

The Guarantor's legal entity identifier (LEI) is O2RNE8IBXP4R0TD8PU41.

Further information on the Guarantor can be found in particular in section 5.2. Specific risks relating to the Guarantor can be found in section 2.2.

For more information about the Guarantee, see section 5.1.

1.3. Overview of the Securities

The Securities are non-equity securities. The content of the Securities and the rights and duties arising therefrom shall be governed by the laws of the Federal Republic of Germany.

The Securities grant the investor, subject to the occurrence of a particular event, the right to require the Issuer to pay a Redemption Amount.

In this context, the payment or occurrence of certain events depends to a large extent on an underlying to which the Securities relate. Under this programme, the following assets are considered as underlyings: shares, ETF shares, indices, futures contracts and currency exchange rates.

The Securities differ in their structure and functioning. In this context, the following product types are covered:

- Leveraged ETPs Long and
- Leveraged ETPs Short.

The Securities could be issued with limited term (the "**Limited Leveraged ETPs**") or unlimited term (the "**Unlimited Leveraged ETPs**").

Although the product types have special features in their structure, both product types have in common that the so-called leverage effect is one of the essential characteristics of the Securities. The leverage effect describes the phenomenon that price changes of the underlying asset result in **disproportionately strong** changes in the price of the Securities. The market value, level or price of the relevant underlying of the Securities is the factor that mainly influences the value of the Securities.

In principle, Securityholders participate during the term of the Securities in positive as well as negative price developments of the respective underlying.

In particular, the Redemption Amount of the Securities depends on the market value, level or price of the relevant underlying on the relevant Valuation Date. Depending on the performance of the underlying, an investor may lose all or part of its Capital Amount.

The occurrence of certain events may result in an early termination of the Security and a partial or total loss to the investor.

There is no interest on the Securities. In any case, the Securities will be paid out in cash. There is no physical delivery of the Underlying.

The conditions applicable to a Security on a case-by-case basis shall be determined by the Issuer in the Final Terms of the Securities.

Further information on the Securities can be found in section 6. and, specifically, on their functioning, in section 7. Specific risks related to the securities can be found in section 2.3 Risks arising from the nature of the Securities.

An investment in these Securities is only suitable for investors if they are familiar with the nature of those Securities. Interested investors should be aware of all the risks associated with the purchase of the Securities. Investors should therefore have sufficient knowledge and/or experience with the Securities, their functioning and dependence on the Underlying.

1.4. Overview of the Offer and Trading

The Securities issued by the Issuer will be underwritten by Société Générale (the "**Offeror**") based on a general underwriting agreement. The Offeror will offer the Securities to potential investors.

For the Securities, admission to trading on a regulated market and/or a multilateral trading facility within the European Economic Area may be applied for. However, the Securities may also be offered without being admitted to trading.

Further information on the offer can be found in particular in section 6.7.; more information on trading the Securities can be found in section 6.8.

2. RISK FACTORS	2. RISIKOFAKTOREN
	This German translation is provided for convenience only.
The following section is divided into risk factors related to the Group (section 2.1.), risk factors related to the Issuer and the Guarantor (section 2.2.) and risks arising from the nature of the Securities (section 2.3.). Each of these sections lists the risk factors in categories and subcategories.	Der nachfolgende Abschnitt ist in Risikofaktoren im Zusammenhang mit der Gruppe (Abschnitt 2.1.) Risiken im Zusammenhang mit der Emittentin und der Garantin (Abschnitt 2.2.) und Risiken, die sich aus der Art der Wertpapiere ergeben (Abschnitt 2.3.), unterteilt. In jedem dieser Abschnitte sind die Risikofaktoren in Kategorien und Unterkategorien aufgeführt.
The Issuer assessed each risk taking into account the negative effects and the likelihood of occurrence and used this assessment as a measure of the materiality of the risks.	Die Emittentin hat hierbei jedes Risiko unter Berücksichtigung der negativen Auswirkungen und der Wahrscheinlichkeit des Eintretens bewertet und diese Bewertung als Maßstab für die Wesentlichkeit der Risiken herangezogen.
The two most important risks for each category are highlighted by a grey frame. The risk factors listed below in a category are not listed according to their materiality.	Die beiden wesentlichsten Risiken für jede Kategorie sind durch einen grau unterlegten Rahmen besonders hervorgehoben. Die im Weiteren in einer Kategorie aufgeführten Risikofaktoren sind nicht nach ihrer Wesentlichkeit aufgeführt.
The measure of the materiality of the risks in relation to the Issuer and the Guarantor is set out accordingly in the Registration Document of the Guarantor incorporated by reference into this Base Prospectus. For the risks associated with the Security, materiality depends to a large extent on the parameters set out in the Final Terms. Examples of such parameters are the underlying, the Redemption Date the Calculation Fee and the Collateral Fee. These parameters determine both the probability of occurrence of a particular event and the associated risk, as well as the extent of the impact on the security upon occurrence of the risk. In each case, the Issuer makes a statement below, which puts the probability of occurrence in relation to possible effects. The probability of occurrence is compared to the respective risk event in the individual risk factors (e.g., the greater... the more likely it is). The impact of the occurrence of the described risk is then assessed by the Issuer, for example, by describing a possible partial or even total loss of the capital amount used by the investor or an expiration of the Security.	Der Maßstab für die Wesentlichkeit der Risiken in Bezug auf die Emittentin sowie der Garantin sind in dem in diesen Basisprospekt einbezogenen Registrierungsformular der Garantin entsprechend ausgeführt. Für die mit dem Wertpapier verbundenen Risiken hängt die Wesentlichkeit maßgeblich von den in den Endgültigen Bedingungen festgelegten Parametern ab. Beispiele für solche Parameter sind der Basiswert, der Einlösungstag, die Berechnungsgebühr und die Besicherungsgebühr. Diese Parameter bestimmen sowohl die Höhe der Eintrittswahrscheinlichkeit eines bestimmten Ereignisses und das damit verbundene Risiko sowie den Umfang der Auswirkungen auf das Wertpapier bei Eintritt des Risikos. Die Emittentin trifft hierzu im Folgenden jeweils eine Aussage, welche die Eintrittswahrscheinlichkeit ins Verhältnis zu möglichen Auswirkungen setzt. Die Eintrittswahrscheinlichkeit wird dabei in den einzelnen Risikofaktoren ins Verhältnis zum jeweiligen Risikoereignis gesetzt (z.B. je größer… desto wahrscheinlicher). Die Auswirkungen des Eintritts des beschriebenen Risikos wird so dann von der Emittentin bewertet, indem beispielsweise ein möglicher Teil- oder sogar Totalverlust des vom Anleger eingesetzten Kapitalbetrages oder ein Verfall des Wertpapiers beschrieben wird.
The risks described below may occur individually or together. They can mutually reinforce their effects.	Die nachstehend beschriebenen Risiken können einzeln oder auch zusammen auftreten. Sie

	können sich in ihren Auswirkungen wechselseitig verstärken
Important Note: Both here and in the following sections, the "**Capital Amount**" (purchase price) paid for the purchase includes all other costs associated with the purchase.	**Wichtiger Hinweis**: Der für den Kauf bezahlte "**Kapitalbetrag**" (Kaufpreis) schließt hier und im Folgenden alle sonstigen mit dem Kauf verbundenen Kosten ein.
2.1. Risk Factors relating to the Group	**2.1 Risikofaktoren im Zusammenhang mit der Gruppe**
The risks relating to the Société Générale Group are incorporated by reference and form part of this Base Prospectus (see section "3.7.2. Guarantor").	Die Risiken, die in Bezug auf die Société Générale Group bestehen, werden per Verweis einbezogen und bilden einen Teil dieses Basisprospektes (siehe Abschnitt "3.7.2. Garantin").

These risks are detailed on page 22 of the Registration Document Société Générale incorporated by reference.	Diese Risiken sind auf der Seite 22 des Registrierungsformular Société Générale zu finden, das per Verweis einbezogen wurde.
2.2. Risk Factors relating to the Issuer and the Guarantor	**2.2. Risikofaktoren in Bezug auf die Emittentin und die Garantin**
2.2.1. Factors that may affect SG Issuer's ability, as Issuer, to fulfil its obligations under the Securities	**2.2.1. Faktoren, die die Fähigkeit der SG Issuer als Emittentin zur Erfüllung ihrer Verpflichtungen aus den Wertpapieren beeinträchtigen könnten**
SG Issuer's activity consists inter alia in issuing debt securities and the funds collected are systematically deposited with Société Générale in the form of either term loans or swap contracts and pursuant to which SG Issuer will receive from Société Générale the amounts due under the Securities. SG Issuer's ability to make payments under the Securities will therefore depend primarily on the performance of its obligations by Société Générale under such hedging transactions entered into between SG Issuer and Société Générale.	Die Geschäftstätigkeit der SG Issuer besteht u.a. in der Emission von Schuldtiteln und die vereinnahmten Mittel werden systematisch bei der Société Générale in Form von Tilgungsdarlehen oder Swap-Kontrakten hinterlegt, aus denen die SG Issuer die im Rahmen der Wertpapiere fälligen Beträge von der Société Générale erhält. Die Fähigkeit der SG Issuer zur Leistung von Zahlungen im Rahmen der Wertpapiere ist daher primär von der Erfüllung ihrer Verpflichtungen durch die Société Générale aus diesen zwischen der SG Issuer und der Société Générale abgeschlossenen Absicherungsgeschäften abhängig.
If SG Issuer defaults or goes bankrupt, as a result of the limited recourse clause on SG Issuer included in the terms and conditions of the Securities, the Securityholders have no recourse against SG Issuer and any amount due and unpaid by SG Issuer must be claimed against Société Générale as Guarantor.	Im Falle eines Ausfalls oder der Insolvenz der SG Issuer haben die Wertpapierinhaber aufgrund der in den Emissionsbedingungen der Wertpapiere enthaltenen Rückgriffsbeschränkung zugunsten der SG Issuer keinen Rückgriff gegen die SG Issuer und müssen von der SG Issuer geschuldete und nicht gezahlte Beträge gegenüber der Société Générale als Garantin geltend gemacht werden.
If the resolution authorities take structural bail-in measures in accordance with the regulations relating to the recovery and resolution of credit institutions and investment firms, against securities issued by SG Issuer (statutory bail-in) then the investment of the Securityholders may be reduced to 0 (zero), converted into equity (shares) or debt securities or be subject to a maturity postponement and in such case the obligations of Société Générale as Guarantor shall be adjusted to such reduction, conversion or postponement. Their investment is not covered by any guarantee or indemnity system. Investors in the Securities may therefore lose parts of their investment or their entire investment (risk of total loss).	Falls die Abwicklungsbehörden strukturelle Bail-in-Maßnahmen gemäß den Vorschriften zur Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen gegen die SG Issuer ergreifen (gesetzlicher Bail-in), könnte die Anlage der Wertpapierinhaber auf 0 (null) reduziert werden, in Eigenkapital (Aktien) oder Schuldtitel umgewandelt werden oder einer Verschiebung der Fälligkeit unterworfen werden, woraufhin die Verpflichtungen der Société Générale als Garantin an die entsprechende Herabsetzung, Umwandlung oder Verschiebung angepasst würden. Ihre Anlage ist nicht durch ein Sicherungs- oder Entschädigungssystem abgedeckt. Anleger in die Wertpapiere können daher Teile ihrer Anlage oder ihre gesamte Anlage verlieren (Risiko des Totalverlusts).

2.2.2. Risks resulting from the Issuer's dependency on Société Générale	**2.2.2. Risiken aus der Abhängigkeit der Emittentin von der Société Générale**
Société Générale will act as the Guarantor of the Securities issued by SG Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of Société Générale but also to operational risks arising from the lack of independence of Société Générale, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments. Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Guarantor, the possibility of conflicts of interest arising cannot be wholly eliminated.	Die Société Générale handelt als Garantin der von der SG Issuer begebenen Wertpapiere und auch als Anbieter von Sicherungsinstrumenten für die Emittentin. Infolgedessen sind Anleger nicht nur dem Kreditrisiko in Bezug auf die Société Générale ausgesetzt, sondern auch den operativen Risiken aus der fehlenden Unabhängigkeit der Société Générale bei der Erfüllung ihrer Pflichten und Verpflichtungen als Garantin und Anbieter von Sicherungsinstrumenten. Auch wenn Compliance-Verfahren eine wirksame Trennung der Pflichten und Verantwortlichkeiten zwischen den maßgeblichen Abteilungen innerhalb der Garantin vorschreiben, kann die Möglichkeit des Auftretens von Interessenkonflikten nicht vollständig ausgeschlossen werden.
The Group provides a full array of capital market products and advisory services worldwide including the issuance of "structured securities" where the amounts due under the Securities are linked to the performance of underlying assets, and may possess or acquire material and/or confidential information about the underlying assets and/or the reference entities which is not public knowledge and which are or could be important to the Securities.	Die Gruppe bietet weltweit eine umfassende Palette an Kapitalmarktprodukten und Beratungsleistungen an, wozu auch die Begebung von "strukturierten Wertpapieren" zählt, bei denen die im Rahmen der Wertpapiere geschuldeten Beträge von der Wertentwicklung von Basiswerten abhängig sind. Daher könnte sie wesentliche und/oder vertrauliche Informationen über die Basiswerte und/oder Referenzschuldner besitzen oder erlangen, die nicht öffentlich bekannt sind und für die Wertpapiere von Bedeutung sein könnten.
Such business activities and such material and/or confidential information may cause consequences adverse to the Securityholders. The Issuers, the Guarantor and any other member of the Group have no obligation to disclose such information about such underlying assets or the obligors to which they relate or the reference entities.	Entsprechende geschäftliche Aktivitäten und entsprechende wesentliche und/oder vertrauliche Informationen können für die Wertpapierinhaber nachteilige Folgen haben. Die Emittenten, die Garantin und andere Mitglieder der Gruppe sind nicht verpflichtet, solche Informationen über Basiswerte oder die Schuldner, auf die sie sich beziehen, oder über Referenzschuldner offenzulegen.
The Calculation Agent and the Paying Agents may be all part of the Group. A deterioration of Société Générale's credit risk would have a negative impact on the obligations of each of the entities listed above in relation to the Securities. If one of these entities does not respect its obligations towards the relevant Issuer and/or the Guarantor, this could have a negative impact on the Securityholders.	Sowohl die Berechnungsstelle als auch die Zahlstellen können Teil der Gruppe sein. Eine Verschlechterung des Kreditrisikos der Société Générale hätte nachteilige Auswirkungen auf die Verpflichtungen aller der vorstehend genannten Gesellschaften im Zusammenhang mit den Wertpapieren. Sollte eine dieser Gesellschaften ihren Verpflichtungen gegenüber der maßgeblichen Emittentin und/oder der Garantin nicht nachkommen, könnte dies nachteilige Auswirkungen auf die Wertpapierinhaber haben.

2.2.3. Factors that may affect Société Générale's ability as Guarantor to fulfil its obligations under the Securities	**2.2.3. Faktoren, die die Fähigkeit der Société Générale als Garantin zur Erfüllung ihrer Verpflichtungen aus den Wertpapieren beeinträchtigen könnten**
Société Générale unconditionally and irrevocably guarantees the payment of all amounts due under the Securities by SG Issuer and as a result the Securityholders are exposed to the credit risk of Société Générale as Guarantor. Société Générale's credit ratings are an assessment of its ability to honour its commitments. Consequently, any actual or anticipated downgrades of Société Générale's credit ratings may affect the market value of the Securities.	Die Société Générale garantiert unbedingt und unwiderruflich die Zahlung aller im Rahmen der Wertpapiere fälligen Beträge durch die SG Issuer. Infolgedessen sind die Wertpapierinhaber dem Kreditrisiko in Bezug auf die Société Générale als Garantin ausgesetzt. Die Ratings der Société Générale sind eine Beurteilung ihrer Fähigkeit zur Erfüllung ihrer Verpflichtungen. Demzufolge kann jede tatsächliche oder erwartete Herabstufung der Ratings der Société Générale den Marktwert der Wertpapiere beeinträchtigen.
2.2.4. Risk relating to the Issuer substitution	**2.2.4. Risiko im Zusammenhang mit der Ersetzung einer Emittentin**
Société Générale or SG Issuer may be replaced by each other or by any subsidiary or any other third party as principal obligor in respect of the Securities without the consent of the relevant Securityholders; provided certain conditions are satisfied (inter alia no withholding tax triggered by the substitution, guarantee by Société Générale to be maintained as the case may be). Any such substitution may impact the value of the Securities.	Die Société Générale oder die SG Issuer können ohne die Zustimmung der maßgeblichen Wertpapierinhaber voneinander oder von einer Tochtergesellschaft oder einem Dritten als Hauptschuldner in Bezug auf die Wertpapiere abgelöst werden, sofern bestimmte Voraussetzungen erfüllt sind (u. a. keine Auslösung von Quellensteuern durch die Ersetzung, gegebenenfalls Aufrechterhaltung der Garantie durch die Société Générale). Eine entsprechende Ersetzung kann den Wert der Wertpapiere beeinträchtigen.
2.3. Risks arising from the nature of the Securities	**2.3. Risiken, die sich aus der Art der Wertpapiere ergeben**
2.3.1. Risks relating directly to the structure of the Securities	**2.3.1. Risiken, die unmittelbar mit der Struktur der Wertpapiere verbunden sind**
This section sets out the specific risks associated with the purchase of Securities.	In diesem Abschnitt werden die spezifischen Risiken dargestellt, die mit dem Kauf der Wertpapiere verbunden sind.
A feature common to all of the Securities issued under this Base Prospectus is that the Securityholder may incur a **total loss** of the purchase price paid. The Securityholders of all Securities also bear the **risk of loss**, because the Securities are **not capital-protected** and do **provide for no or only a small minimum repayment**.	Allen unter diesem Basisprospekt ausgegebenen Wertpapieren ist gemeinsam, dass dem Wertpapierinhaber ein Totalverlust bezüglich des bezahlten Kaufbetrags entstehen kann. Außerdem tragen Wertpapierinhaber aller Wertpapiere ein **Verlustrisiko**, da die Wertpapiere **nicht kapitalgeschützt** sind und **keine Mindestrückzahlung bzw. nur eine geringe Mindestrückzahlung** (Option mit Mindestauszahlungsbetrag) vorsehen.
(a) Risk factors relating to the Factor (Leverage Component)	***(a) Risiken in Zusammenhang mit dem Faktor (Hebelkomponente)***
(1) Leveraged ETPs Long	*(1) Leveraged ETPs Long*

Investors should note in particular that the daily changes in the Underlying of the Leveraged ETP Long (meaning the change between two immediately consecutive Reference Prices of the Underlying) influence the Leverage Component and thus the net present value (the "**NPV**") and the value of the Security, i.e. the stronger the price of an Underlying falls on a trading day, the lower the NPV on that trading day and vice versa, whereby the daily changes in the NPV are reinforced in both directions caused by the possibly multiple leverage. Due to this leverage effect, falling prices of the Underlying may possibly have a **disproportionately** negative effect on the Redemption Amount. The risk of loss is largely determined by the level of the Factor: **the higher the Factor, the higher the risk**.	Anleger sollten besonders beachten, dass die täglichen Veränderungen des dem Leveraged ETP Long zugrunde liegende Basiswerts (gemeint ist die Veränderung zwischen zwei unmittelbar aufeinander folgenden Referenzpreisen des Basiswerts) die Hebelkomponente und damit den Kapitalwert und den Wert des Wertpapiers beeinflussen, d.h. je stärker der Kurs des Basiswerts an einem Handelstag fällt, desto niedriger ist der Kapitalwert am entsprechenden Handelstag, und umgekehrt, wobei die täglichen Veränderungen im Kapitalwert durch den u.U. mehrfachen Hebel in beide Richtungen verstärkt werden. Aufgrund dieses Hebeleffekts wirken sich fallende Kurse des Basiswerts u.U. **überproportional** negativ auf den Auszahlungsbetrag aus. Das Verlustrisiko wird wesentlich durch die Höhe des Faktors bestimmt: **je höher der Faktor, desto höher das Risiko**.
If the price of the Underlying of the Security falls significantly (possibly even triggering an Intraday Adjustment), the value of the Leverage Component and thus the NPV fall to a very low value. Even though all subsequent price gains of the Underlying result in price gains in respect of the Leverage Component and thus in an increase of the NPV by a corresponding multiple percentage, the investor must bear in mind that the price gains due to the meanwhile very low NPV, only have a minor impact on the absolute recovery of the NPV compared to the initial value. This can lead to **losses** for the investor.	Fällt der Kurs des dem Wertpapier zugrundeliegenden Basiswerts erheblich (gegebenenfalls sogar unter Anwendung einer Untertägigen Anpassung), so fällt der Wert der Hebelkomponente und damit der Kapitalwert auf einen sehr geringen Wert. Zwar führen dann alle späteren Kursgewinne des Basiswerts zu Kursgewinnen bei der Hebelkomponente und damit beim Kapitalwert in entsprechend mehrfacher prozentualer Höhe; der Anleger muss allerdings beachten, dass sich die Kursgewinne aufgrund des inzwischen sehr geringen Kapitalwerts nur geringfügig auf die absolute Erholung des Kapitalwerts im Vergleich zum Ausgangswert auswirken. Dies kann zu **Verlusten** beim Anleger führen.
(2) Leveraged ETPs Short	*(2) Leveraged ETPs Short*
Investors should note in particular that the daily changes in the Underlying of the Leveraged ETP Short (meaning the change between two immediately consecutive Reference Prices of the Underlying) influence the Leverage Component and thus the NPV and the value of the Security. **A special feature of Leveraged ETPs Short is the fact that the daily price changes of the Underlying, the NPV and thus the value of the Security correlate negatively**, i.e. the stronger the price of the Underlying rises on a trading day, the lower the NPV on that trading day and vice versa, whereby the daily changes in the NPV are reinforced in both directions caused by the possibly multiple leverage. Due to this leverage effect, rising prices of the Underlying may possibly have a disproportionately negative effect on the Redemption Amount. The risk of loss is largely determined by the level of the Factor**: the higher the Factor, the higher the risk**.	Anleger sollten besonders beachten, dass die täglichen Veränderungen des dem Leveraged ETP Short zugrunde liegende Basiswerts (gemeint ist die Veränderung zwischen zwei unmittelbar aufeinander folgenden Referenzpreisen des Basiswerts) die Hebelkomponente und damit den Kapitalwert und den Wert des Wertpapiers beeinflussen. **Eine Besonderheit bei Leveraged ETPs Short besteht darin, dass die täglichen Kursveränderungen des Basiswerts und der Kapitalwert und damit der Wert des Wertpapiers negativ korrelieren**, d.h. je stärker der Kurs des Basiswerts an einem Handelstag steigt, desto niedriger ist der Kapitalwert am entsprechenden Handelstag, und umgekehrt, wobei die täglichen Veränderungen im Kapitalwert durch den u.U. mehrfachen Hebel in beide Richtungen verstärkt werden. Aufgrund dieses Hebeleffekts wirken sich steigende Kurse

	des Basiswerts u.U. überproportional negativ auf den Auszahlungsbetrag aus. Das Verlustrisiko wird wesentlich durch die Höhe des Faktors bestimmt: **je höher der Faktor, desto höher das Risiko**.
If the price of the Underlying of the Security rises significantly (possibly even triggering an Intraday Adjustment), the value of the Leverage Component and thus the NPV fall to a very low value. Even though all subsequent price losses in respect of the Underlying result in price gains in respect of the Leverage Component and thus in an increase of the NPV by a corresponding multiple percentage, the investor must bear in mind that the price losses due to the meanwhile decreased NPV, only have a minor impact on the absolute recovery of the NPV compared to the initial value. This can lead to **losses** for the investor.	Steigt der Kurs des dem Wertpapier zugrundeliegenden Basiswerts signifikant an (gegebenenfalls sogar unter Anwendung einer Untertägigen Anpassung), so fällt der Wert der Hebelkomponente und damit der Kapitalwert auf einen sehr geringen Wert. Zwar führen dann alle späteren Kursverluste des Basiswerts zu Kursgewinnen bei der Hebelkomponente und damit beim Kapitalwert in entsprechend mehrfacher prozentualer Höhe; der Anleger muss allerdings beachten, dass sich die Kursverluste aufgrund des inzwischen sehr geringen Kapitalwerts nur geringfügig auf die absolute Erholung des Kapitalwerts im Vergleich zum Ausgangswert auswirken. Dies kann zu **Verlusten** beim Anleger führen.
(b) Worthless expiry of Securities	***(b) Wertloser Verfall von Wertpapieren***
If the Redemption Amount of a Security is rounded to 0 (zero) on the Valuation Date, the Security expires **worthless**. The stronger the Reference Prices fluctuate during the life of the Securities and the higher the Factor, the greater is the probability of a total loss.	Wenn bei einem Wertpapier am Bewertungstag der Auszahlungsbetrag gerundet gleich 0 (null) ist, verfällt das Wertpapier **wertlos**. Je stärker sich die Referenzpreise während der Laufzeit bewegen und je höher der Faktor, desto höher ist die Wahrscheinlichkeit eines solchen Totalverlusts.
(c) Risks relating to the Reference Interest Rate (Interest or Financing Component)	***(c) Risiken in Zusammenhang mit dem Referenz-Zinssatz (Zins- bzw. Finanzierungkomponente)***
In addition, the investor must bear in mind that, in the case of Leveraged ETPs, in addition to the Leverage Component, an Interest or Financing Component also influences the amount of the NPV. Both, the Interest and the Financing Component contain an interest rate that is subject to certain fluctuations that can have a negative effect on the NPV. In particular, in respect of the Interest Component, a negative interest can lead to interest losses instead of expected interest gains and **the NPV and thus the value of the Securities is also reduced**.	Zusätzlich muss der Anleger beachten, dass bei Leveraged ETPs neben der Hebelkomponente auch eine Zins- bzw. Finanzierungskomponente die Höhe des Kapitalwerts beeinflusst. Sowohl die Zins- wie auch die Finanzierungskomponente enthält einen Zinssatz, der gewissen Schwankungen unterliegt, die sich negativ auf den Wert des Kapitalwerts auswirken können. Insbesondere kann, bezüglich der Zinskomponente, ein negativer Zins dazu führen, dass anstatt von erwarteten Zinsgewinnen Zinsverluste eintreten und **der Kapitalwert und damit auch der Wert des Wertpapiers reduziert wird**.
(d) Intraday Adjustment	***(d) Untertägige Anpassung***
If the Observation Price is equal to or falls below (Long) or exceeds (Short) the Adjustment Threshold, this will result in an Intraday Adjustment as described in the Final Terms; falling below or exceeding the Adjustment Threshold is generally possible at any time when the market for the Underlying is open. The opening hours of the market for the Securities	Sollte der Beobachtungskurs die Anpassungsschwelle erreichen oder unterschreiten (Long) bzw. überschreiten (Short), so führt dies zu einer in den Endgültigen Bedingungen beschriebenen Untertägigen Anpassung; ein Unter- bzw. Überschreiten der Anpassungsschwelle ist grundsätzlich immer möglich, wenn der Markt für den Basiswert

may differ from the opening hours of the market for the respective Underlying. In the event of such falling below or exceeding of the Adjustment Threshold, an Adjustment Underlying Price will be determined as described in the Final Terms, which will then be used as the new or adjusted Underlying Price for the purpose of determining the adjusted NPV (the "**$NPV_t^{adjusted}$**"). The $NPV_{t\ adjusted}$ is always significantly lower than the previously determined NPV due to the unfavourable price development of the Underlying. In the event of high fluctuations in the underlying, several Intraday Adjustments may also be necessary on one NPV Calculation Day. Consequently, an Intraday Adjustment of the NPV has a disproportionately negative effect on the value of the Security; this can lead to **losses** for the investor. In addition, the adjustment mechanism **cannot prevent** a possible **total loss**.	geöffnet ist. Die Öffnungszeiten des Marktes für die Wertpapiere können von den Öffnungszeiten des Marktes für den jeweiligen Basiswert abweichen. Kommt es zu einem solchen Unter- bzw. Überschreiten wird, wie in den Endgültigen Bedingungen beschrieben, ein Anpassungskurs des Basiswerts ermittelt, der dann als neuer bzw. angepasster Kurs des Basiswerts für die Zwecke der Bestimmung des angepassten Kapitalwerts (der "**$NPV_t^{adjusted}$**") verwendet wird. Der $NPV_{t\ adjusted}$ hat immer einen deutlich geringeren Wert als der zuvor ermittelte Kapitalwert aufgrund der ungünstigen Kursentwicklung des Basiswertes. Bei sehr starken Bewegungen des Basiswerts kann es auch an einem Kapitalwert-Berechnungstag zu mehreren Untertägigen Anpassungen kommen. Demzufolge wirkt sich eine Untertägige Anpassung des Kapitalwerts überproportional nachteilig auf den Wert des Wertpapiers aus; dies kann zu **Verlusten** beim Anleger führen. Zudem kann der Anpassungsmechanismus einen möglichen **Totalverlust nicht verhindern**.
(e) Risks relating to the call for redemption	***(e) Risiken in Bezug auf die Einlösung***
The Securities have the special feature that the Securities may only be called for redemption on each Business Day **with a specific notice period**. The particular implication of this is that if the Securityholder calls for redemption his Security in due time, he bears the risk that the Security depreciates sharply due to an adverse movement in the Underlying until the Redemption Date, which may in the worst-case scenario result in a **total loss**.	Bei den Wertpapieren gilt die Besonderheit, dass sie zu jedem Geschäftstag **mit einer bestimmten Frist** eingelöst werden können. Hieraus ergibt sich die Besonderheit, dass wenn der Wertpapierinhaber sein Wertpapier fristgemäß ausübt, er das Risiko trägt, dass das Wertpapier bis zum Einlösungstag wegen einer nachteiligen Bewegung des Basiswerts stark an Wert verliert und es im ungünstigsten Fall zu einem **Totalverlust** kommt.
(f) Risks relating to a missing term in the case of Unlimited Leveraged ETPs	***(f) Risiken durch fehlende Laufzeit bei Unlimited Leveraged ETPs***
Additional risks arise from the fact that the Unlimited Leveraged ETPs do not have a limited term. Securityholders must therefore sell or call for redemption their Securities in order to realise their financial value. This involves bearing the risk of an unexpected adverse movement of the Underlying resulting in a great or even **total loss** of the purchase price paid. Again, the more the Reference Prices fluctuate during the term, the more likely such a loss is to occur.	Ein zusätzliches Risiko ergibt sich daraus, dass die Unlimited Leveraged ETPs keine begrenzte Laufzeit haben. Wertpapierinhaber müssen deshalb ihre Wertpapiere verkaufen oder einlösen, um ihren wirtschaftlichen Wert zu realisieren. Dabei tragen sie das Risiko, dass sie von einer nachteiligen Bewegung des Basiswerts überrascht werden, was zu einem **hohen Verlust** bzw. einem sogar zu einem Totalverlust des von ihnen bezahlten Kaufbetrags führt. Auch hier gilt, dass, je stärker sich die Referenzpreise während der Laufzeit bewegen, desto wahrscheinlicher tritt ein solcher **Verlust** ein.
(g) Price Event	***(g) Kursereignis***
A day on which the Underlying Price rises sharply (for Long) or falls sharply (for Short) compared with the last Price Level determined and where therefore a Price Event occurs, is not considered to be an NPV Calculation Day, i.e. no NPV is determined on such a day. As a result, the NPV	Ein Tag, an dem der Basiswertkurs im Vergleich zum letzten festgestellten Kurslevel stark steigt (Long) bzw. stark fällt (Short) und somit ein Kursereignis eintritt, ist kein Kapitalwert-Berechnungstag, d.h. dass an einem solchen Tag kein Kapitalwert festgestellt wird. In der

may develop worse than it would have done if the day on which the Price Event occurred had been an NPV Calculation Day. In this case the investor may suffer a **loss**.	Folge kann sich der Kapitalwert bis zum nächsten Kapitalwert-Berechnungszeitpunkt schlechter entwickeln als er es getan hätte, falls der Tag, an dem das Kursereignis eingetreten ist, ein Kapitalwert-Berechnungstag gewesen wäre. In diesem Fall kann der Anleger einen **Verlust** erleiden.
(h) Costs and Fees	***(h) Kosten und Gebühren***
The IC Rate reflects the hypothetical costs that would be incurred in tracking the performance of the NPV. The Calculation Agent may, in its reasonable discretion (§ 317 BGB (German Civil Code)), apply an IC Rate which is lower than the IC Rate specified in the Terms and Conditions with effect from the Launch Date or each ICR Adjustment Date. Even if the Calculation Agent decided to apply a lower IC Rate, the investor must expect that at any time, an IC Rate so reduced will be revoked with effect from the next ICR Adjustment Date. In this case, from that ICR Adjustment Date, the IC Rate specified in the Terms and Conditions or an IC Rate reduced in the reasonable discretion of the Calculation Agent will apply. As **the IC Rate reduces the NPV and thus the value of the Securities**, investors should regularly review the publications of the Calculation Agent in this regard.	Der IK-Satz berücksichtigt die hypothetischen Kosten, die bei der Nachbildung der Wertentwicklung des Kapitalwerts anfallen würden. Die Berechnungsstelle kann nach billigem Ermessen (§ 317 BGB) von dem Ausgabetag oder von jedem IKS-Anpassungstermin an einen geringeren als den in den Emissionsbedingungen ausgewiesenen IK-Satz zur Anwendung bringen. Auch wenn die Berechnungsstelle entschieden hat, einen geringeren IK-Satz anzuwenden, muss der Anleger jederzeit damit rechnen, dass ein so reduzierter IK-Satz zum nächsten IKS-Anpassungstermin zurückgenommen wird. In diesem Fall gilt ab diesem IKS-Anpassungstermin wieder der in den Emissionsbedingungen genannte IK-Satz bzw. ein dann in billigem Ermessen der Berechnungsstelle reduzierter IK-Satz. Da **der IK-Satz den Kapitalwert und somit auch den Wert der Wertpapiere reduziert**, sollte der Anleger regelmäßig die diesbezüglichen Veröffentlichungen der Berechnungsstelle einsehen.
The Collateral Fee reflects the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets. The Collateral Fee shall be determined by the Calculation Agent in its reasonable discretion (§ 317 BGB (German Civil Code)). The Collateral Fee is deducted from the value of the NPV when calculating the NPV. In general, **the deduction of the Collateral Fee reduces the NPV and thus also the value of the Securities**.	Die Besicherungsgebühr entspricht den Kosten, die der Emittentin (und/oder ihren verbundenen Unternehmen) entstehen würden, wenn sie die Sicherungswerte leihen würde. Die Besicherungsgebühr wird von der Berechnungsstelle nach billigem Ermessen (§ 317 BGB) bestimmt. Die Besicherungsgebühr wird bei der Berechnung des Kapitalwerts von diesem abgezogen. Im Allgemeinen **führt der Abzug der Besicherungsgebühr dazu, dass der Kapitalwert und damit auch der Wert der Wertpapiere reduziert wird**.
The investor should note, that a Calculation Fee for the administration and calculation of the NPV for each calendar day is deducted from the value of the NPV when calculating the NPV. **In general, the deduction of the Calculation Fee reduces the NPV and thus also the value of the Securities**.	Der Anleger muss beachten, dass bei der Kapitalwert-Berechnung eine Berechnungsgebühr für die Verwaltung und Berechnung des Kapitalwerts pro Kalendertag vom Stand des Kapitalwerts abgezogen wird. **Generell führt der Abzug der Berechnungsgebühr dazu, dass der Kapitalwert und damit auch der Wert der Wertpapiere reduziert wird**.

(i) Discontinuation of the calculation in the case of Leveraged ETPs relating to Futures Contracts	***(i) Einstellung der Berechnung bei Leveraged ETPs bezogen auf Futures-Kontrakte***
The calculation of the NPV is discontinued if an Observation Price of the relevant futures contract falls to or below 0 (zero). The **lower** an Observation Price, the greater the probability that the calculation will be discontinued. In the case of a Leveraged ETP Long, the NPV is 0 (zero) and the investor suffers a total loss. In the case of a Leveraged ETP Short, the NPV is determined according to the formula set out in the Terms and Conditions, and any additional yield that could result from a negative Underlying Price is not possible.	Die Berechnung des Kapitalwertes wird eingestellt, wenn ein Beobachtungskurs des Futures-Kontraktes auf 0 (null) fällt bzw. unterschreitet. Je **niedriger** ein Beobachtungskurs ist, desto **größer** ist die Wahrscheinlichkeit, dass die Berechnung eingestellt wird. Bei einem Leveraged ETP Long entspricht der Kapitalwert in diesem Fall 0 (null) und der Anleger erleidet einen **Totalverlust**. Bei einem Leveraged ETP Short wird der Kapitalwert nach der in den Emissionsbedingungen festgelegten Formel bestimmt und darüberhinausgehende Ertragsmöglichkeiten, die sich durch einen negativen Basiswert ergeben könnten, sind **nicht** möglich.
2.3.2. Exchange rate risks in connection with the Securities	**2.3.2. Wechselkursrisiken im Zusammenhang mit den Wertpapieren**
(a) Impairment of the Security due to exchange rate changes	***(a) Wertminderung des Wertpapiers durch Wechselkursveränderungen***
Securityholders may face currency risks if the price or the Underlying is expressed in a different currency than the Issue Currency and the amounts payable have to be converted into the Issue Currency on an exchange rate which is not already predetermined at issuance (non quanto). Exchange rates are determined by supply and demand on the international foreign exchange markets. Exchange rates are affected by general economic factors, speculative activity and actions by governments and central banks. These may even include legal controls and restrictions on foreign exchange transactions. Exchange rates are therefore subject to significant fluctuations. Securityholders bear the risk, where applicable, that unfavourable developments on the foreign exchange market may reduce the value of the Securities and increase the **risk of loss** for the investor.	Wertpapierinhaber können Währungsrisiken ausgesetzt sein, wenn der Kurs des Basiswertes in einer anderen Währung als der Emissionswährung ausgedrückt wird und die zu zahlenden Beträge zu einem Wechselkurs in die Emissionswährung umgerechnet werden müssen, der bei der Emission nicht bereits festgesetzt wurde (non quanto). Wechselkurse von Währungen werden durch Angebot und Nachfrage auf den internationalen Devisenmärkten bestimmt. Wechselkurse sind volkswirtschaftlichen Faktoren, Spekulationen und Maßnahmen von Regierungen und Zentralbanken ausgesetzt. Unter anderem können sogar devisenrechtliche Kontrollen und Einschränkungen bestehen. Wechselkurse unterliegen deshalb erheblichen Schwankungen. Wertpapierinhaber tragen gegebenenfalls das Risiko, dass ungünstige Entwicklungen am Devisenmarkt den Wert der Wertpapiere mindern und das **Verlustrisiko** für den Anleger erhöhen können.
(b) Impairment of the price of the Underlying due to exchange rate changes	***(b) Wertminderung des Kurses des Basiswertes durch Wechselkursänderungen***
Securityholders may also be exposed to currency risks if the price of the Underlying is expressed in a currency (the "**Foreign Currency**") other than the Issue Currency and then converted into the Issue Currency. Thus, the Reference Price is subject not only to the price risk of the Underlying, but also to exchange rate risk. Thus, an unfavourable performance of the Foreign Currency against the Issue Currency could	Wertpapierinhaber können des Weiteren Währungsrisiken ausgesetzt sein, wenn der Kurs des Basiswertes in einer anderen Währung (die "**Fremdwährung**") als der Emissionswährung ausgedrückt und dann in die Emissionswährung umgerechnet wird. Damit unterliegt der Referenzpreis nicht nur dem Kursrisiko des Basiswertes, sondern auch dem Wechselkursrisiko. So kann eine ungünstige

cancel out a positive performance of the Underlying. Result: Although the price of the Underlying in the Foreign Currency has risen, the value of the price of the Underlying in the Issue Currency decreases and thus also the value of the Security due to an unfavourable development on the foreign exchange market. The more negative the currency ratio develops, the greater the investor's loss (assuming that the Underlying does not change in the exchange rate in Foreign Currency). This can lead to losses **up to total losses** at the investor.	Wertentwicklung der Fremdwährung gegenüber der Emissionswährung eine positive Wertentwicklung des Basiswertes aufheben. Ergebnis: Obwohl der Preis des Basiswertes in der Fremdwährung gestiegen ist, sinkt der Wert des Preises des Basiswertes in der Emissionswährung und damit auch der Wert des Wertpapieres aufgrund einer ungünstigen Entwicklung am Devisenmarkt. Je negativer sich das Währungsverhältnis entwickelt, desto größer ist der Verlust des Anlegers (unter der Annahme, dass der Basiswert sich im Kurs in der Fremdwährung nicht verändert). Dies kann zu Verlusten bis hin zum **Totalverlust** beim Anleger führen.
2.3.3. Risks relating to the collateralization	**2.3.3. Risiken im Zusammenhang mit der Besicherung**
(a) Risks relating to the Collateral Assets	***(a) Risiken im Zusammenhang mit den Sicherungswerten***
(1) No guarantee that the Collateral Assets will be sufficient	*(1) Keine Garantie, dass die Sicherungswerte ausreichend sein werden*
There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered will be sufficient to pay all amounts due to Securityholders in respect of the relevant Securities. In addition, Collateral Percentage may be lower than 100%. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Es kann nicht garantiert werden, dass die Sicherungswerte nach der Verwertung eines Verpfändungsvertrags ausreichend sein werden, um sicherzustellen, dass der für eine Ausschüttung verfügbare Betrag oder der Wert der zu liefernden Sicherungswerte ausreichen wird, um alle den Wertpapierinhabern in Bezug auf die maßgeblichen Wertpapiere geschuldeten Beträge zu zahlen. Darüber hinaus kann die Besicherungsquote niedriger als 100% sein. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(2) Value of assets lower than required collateral value	*(2) Wert der Vermögenswerte niedriger als erforderlicher Sicherheitenwert*
The value of the assets used as collateral value can be three per cent lower than the required collateral value. This tolerance threshold amplifies most of the risks associated with Securities described herein and in particular the risk that following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee or the Security Agent will not be sufficient to pay all amounts due to Securityholders in respect of the relevant Securities. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Der Wert der als Sicherheitenwert gehaltenen Vermögenswerte kann drei Prozent niedriger sein als der erforderliche Sicherheitenwert. Diese Toleranzschwelle verstärkt die meisten der mit den Wertpapieren verbundenen Risiken, die in diesem Abschnitt beschrieben sind. Dies gilt insbesondere für das Risiko, dass nach der Verwertung eines Verpfändungsvertrags der für eine Ausschüttung verfügbare Betrag oder der Wert der verfügbaren, vom Sicherheitentreuhänder oder der Sicherheitenverwaltungsstelle zu liefernden Sicherheiten nicht ausreichend ist, um alle den Wertpapierinhabern in Bezug auf die maßgeblichen Wertpapiere geschuldeten Beträge zu zahlen. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch

	gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(3) Lack of diversification of the Collateral Assets	*(3) Mangelnde Diversifikation der Sicherungswerte*
In case of low diversification of the Collateral Assets in a Collateral Pool pursuant to the Eligibility Criteria and the Collateral Rules, any depreciation in the value of such assets in the period between the most recent Collateral Test Date and the realisation of the Collateral Assets will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller range of Collateral Assets. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Im Falle einer niedrigen Diversifikation der Sicherungswerte in einem Sicherheitenpool gemäß den Eignungskriterien und den Sicherheitenbestimmungen hat eine Abnahme des Werts dieser Vermögenswerte in dem Zeitraum zwischen dem letzten Sicherheitentest-Termin und der Verwertung der Sicherungswerte verhältnismäßig stärkere Auswirkungen auf einen etwaigen Fehlbetrag, da der für die Sicherungswerte bei ihrem Verkauf erlangte Betrag von dem aktuellen Marktwert einer schmaleren Bandbreite von Sicherungswerten abhängig ist. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(4) "Haircut" applied to Collateral Assets	*(4) Anwendung eines "Preisabschlag" auf Sicherungswerte*
The level(s) of Haircut specified in the applicable Final Terms is intended to reflect the risk of a depreciation in the value of Collateral Assets in the period between the most recent Collateral Test Date and the date on which such Collateral Assets may be realised. Investors should note that the value of a Collateral Asset may change over time and the Haircut applied to the Collateral Assets may become outdated and may not provide suitable protection against a potential depreciation in value of the relevant Collateral Asset. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Mit der in den anwendbaren Endgültigen Bedingungen angegebenen Höhe des Preisabschlags soll dem Risiko einer Abnahme des Werts von Sicherungswerten im Zeitraum zwischen dem letzten Sicherheitentest-Termin und dem Tag einer möglichen Verwertung der Sicherungswerte Rechnung getragen werden. Anleger sollten berücksichtigen, dass sich der Wert eines Sicherungswerts im Laufe der Zeit ändern kann und dass der auf die Sicherungswerte angewendete Preisabschlag nicht mehr aktuell sein kann und möglicherweise keinen angemessenen Schutz vor einer möglichen Abnahme des Werts des maßgeblichen Sicherungswerts mehr bietet. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(5) Illiquid Collateral Assets	*(5) Illiquide Sicherungswerte*
Certain of the Collateral Assets may be illiquid and not easily or not at all realisable in certain market circumstances or can only be sold at a discounted value. In that case, investors may receive the delivery of the Collateral Assets as if Physical Delivery of Collateral Assets were applicable in relation thereto. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Einige der Sicherungswerte können illiquide und unter bestimmten Marktbedingungen nicht ohne Schwierigkeiten oder überhaupt verwertbar oder möglicherweise nur mit einem Wertabschlag veräußerbar sein. In diesem Fall erhalten Anleger möglicherweise eine Lieferung der Sicherungswerte, als wäre Physische Lieferung von Sicherungswerten auf diese anwendbar. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch

	gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(b) Risk of Acceleration Event and Enforcement of Security	***(b) Risiko im Zusammenhang mit einem Kündigungsereignis und einer Verwertung von Sicherheiten***
A Securityholder is only entitled to send a Collateral Enforcement Notice if neither SG Issuer nor the Guarantor has paid all amounts due to such Securityholder within a period of three Collateral Business Days following the occurrence of the relevant Securities Acceleration Event.	Ein Wertpapierinhaber ist nur dann zur Abgabe einer Sicherheitenverwertungsmitteilung berechtigt, wenn weder die SG Issuer noch die Garantin innerhalb eines Zeitraums von drei Sicherheitengeschäftstagen nach dem Eintritt eines Kündigungsereignisses in Bezug auf die maßgeblichen Wertpapiere alle ihm geschuldeten Beträge gezahlt haben.
During the three Collateral Business Days period there may be a depreciation in the value of the relevant Collateral Assets, thus reducing the amount available to satisfy the claims of Securityholders upon realisation of the Collateral Assets. In addition, the Collateral Assets may suffer a fall in value between the time at which the Collateral Enforcement Notice is sent by a Securityholder and the time at which the Collateral Assets are realised in full or, where Physical Delivery of Collateral Assets is applicable, delivered. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Während dieses Zeitraums von drei Sicherheitengeschäftstagen kann es zu einer Abnahme des Werts der maßgeblichen Sicherungswerte kommen, wodurch der für die Befriedigung der Ansprüche der Wertpapierinhaber bei einer Verwertung der Sicherungswerte zur Verfügung stehende Betrag sinkt. Darüber hinaus können die Sicherungswerte im Zeitraum zwischen der Übersendung einer Sicherheitenverwertungsmitteilung durch einen Wertpapierinhaber und dem Zeitpunkt der vollständigen Verwertung der Sicherungswerte - oder, falls Physische Lieferung von Sicherungswerten anwendbar ist, ihrer Lieferung - einen Wertverlust erleiden. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(c) Risk arising of the frequency of Collateral Test Dates	***(c) Risiko im Zusammenhang mit der Häufigkeit von Sicherheitentest-Terminen***
The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time between each such periodic Collateral Test Date (or even in the absence of any Collateral Test Date) the more likely it is that upon enforcement of the relevant Pledge Agreement, the proceeds of enforcement that a Securityholder will receive or, where Physical Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Securityholders in respect of the relevant Securities. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Je niedriger die in den anwendbaren Endgültigen Bedingungen angegebene Häufigkeit der regelmäßigen Sicherheitentest-Termine und somit je größer der Zeitraum zwischen den einzelnen entsprechenden regelmäßigen Sicherheitentest-Terminen ist (oder falls sogar gar kein Sicherheitentest-Termin existiert), umso wahrscheinlicher ist es, dass nach einer Verwertung des maßgeblichen Verpfändungsvertrags der Erlös aus der Verwertung, den ein Wertpapierinhaber erhält, oder, falls Physische Lieferung von Sicherungswerten anwendbar ist, der Wert der gelieferten Sicherungswerte niedriger ist als die den Wertpapierinhabern in Bezug auf die maßgeblichen Wertpapiere geschuldeten Beträge. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber

	weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(d) Risk arising of the correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor	***(d) Risiko infolge der Korrelation zwischen dem Wert der Sicherungswerte und der Bonität der SG Issuer und der Garantin***
In the event that there is a positive correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor, the value of the Collateral Assets may vary in the same way as the creditworthiness of SG Issuer and the Guarantor.	Im Fall einer positiven Korrelation zwischen dem Wert der Sicherungswerte und der Bonität der SG Issuer und der Garantin kann sich der Wert der Sicherungswerte in derselben Weise ändern wie die Bonität der SG Issuer und der Garantin.
A default by SG Issuer and/or the Guarantor in relation to their obligations under the Securities may be associated with a fall in the value of Collateral Assets securing such Securities.	Ein Ausfall der SG Issuer und/oder der Garantin im Hinblick auf ihre Verpflichtungen aus den Wertpapieren könnte mit einem Fall des Werts der Sicherungswerte, mit denen diese Wertpapiere besichert werden, einhergehen.
The value of Collateral Assets required to be posted in the Collateral Pool will be based on the Security Market Value which takes into account SG Issuer's and the Guarantor's creditworthiness whereas, following an Event of Default, the Market Value determined by the Calculation Agent (which determines the claim that a holder of Non-Waived Securities has on SG Issuer and/or the Guarantor), will not take into account SG Issuer's or the Guarantor's creditworthiness and will not decrease following such Event of Default. As a result, the claim of the Securityholders against the Issuer/Guarantor may be significantly higher than the value of the Collateral Assets. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Der Wert der Sicherungswerte, die in den Sicherheitenpool eingestellt werden müssen, basiert auf dem Marktwert je Wertpapier, in den die Bonität der SG Issuer und der Garantin einfließen, wohingegen der nach dem Eintritt eines Kündigungsgrunds von der Berechnungsstelle bestimmte Marktwert (nach dem sich der Anspruch eines Inhabers von Nicht Verzichtsgegenständlichen Wertpapieren gegen die SG Issuer und/oder die Garantin richtet) von der Bonität der SG Issuer oder der Garantin unabhängig ist und nach dem Eintritt des betreffenden Kündigungsgrunds nicht abnimmt. Infolgedessen kann der Anspruch der Wertpapierinhaber gegen die Emittentin/Garantin deutlich höher sein als der Wert der Sicherungswerte. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(e) Risk due to the difference between the aggregate nominal value of the Non-Waived-Securities and Market Value following an event of default for the Nominal Value Type of Collateralisation	***(e) Risiko infolge der Differenz zwischen dem Gesamtnennbetrag der Nicht Verzichtsgegenständlichen Wertpapiere und dem Marktwert nach Eintritt eines Kündigungsgrunds bei einer Besicherung auf Basis des Nennwerts***
When pursuant to the applicable Final Terms the value of the Collateral Assets required to be posted in the Collateral Pool is based on the aggregate nominal value of the Securities, the value of such Collateral Assets will not follow the Market Value of the Securities, consequently following the occurrence of an Event of Default, the amount of Collateral Assets may be significantly lower than the claim on SG Issuer and/or the Guarantor. In that case (i.e. shortfall,	Falls gemäß den anwendbaren Endgültigen Bedingungen der Wert der Sicherungswerte, die in den Sicherheitenpool eingestellt werden müssen, auf dem Gesamtnennwert der Wertpapiere basiert, folgt der Wert dieser Sicherungswerte nicht dem Marktwert der Wertpapiere; infolgedessen kann nach dem Eintritt eines Kündigungsgrunds die Höhe der Sicherungswerte deutlich niedriger sein als der Anspruch der Wertpapierinhaber gegen die SG

Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(f) Risk due to the subordination of Securityholders to payment of expenses and other payments	***(f) Risiko infolge der Nachrangigkeit der Wertpapierinhaber gegenüber der Zahlung von Aufwendungen und anderen Zahlungen***
Following the enforcement of security, the rights of holders of Non-Waived Securities to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets or, where Physical Delivery of Collateral Assets is applicable, to be delivered Collateral Assets, will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the holders of Non-Waived Securities in accordance with the relevant order of priority and any rights of preference existing by operation of law. In that case (i.e. shortfall, outdated haircut, physical delivery etc.), the Securityholders will still have a claim against the Guarantor for any unpaid amounts.	Nach der Vollstreckung von Sicherheiten sind die Rechte der Inhaber Nicht Verzichtsgegenständlicher Wertpapiere auf Zahlung von Beträgen aus dem Erlös der Vollstreckung und der Verwertung der dazugehörigen Sicherungswerte oder, falls Physische Lieferung von Sicherungswerten anwendbar ist, auf Lieferung der Sicherungswerte gegenüber den Ansprüchen auf Beträge, die an Besicherte Parteien zu zahlen sind, die gemäß der maßgeblichen Rangfolge gegenüber den Inhabern Nicht Verzichtsgegenständlicher Wertpapiere vorrangig sind, sowie gegenüber allen gesetzlichen Vorrechten nachrangig. In diesem Fall (d. h. Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
(g) Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of the Issuer, the Security Trustee, the Security Agent and/or the Collateral Custodian	***(g) Risiko einer Verzögerung der Verwertung der Sicherungswerte im Fall der Insolvenz der Emittentin, des Sicherheitentreuhänders, der Sicherheitenverwaltungsstelle und/oder des Sicherheitenverwahrers***
In the event of the insolvency of SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian, the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian or by measures ordered by a competent court. Such delay could adversely affect the position of the Securityholders in the event of a depreciation in the value of the Collateral Assets during such period.	Im Fall der Insolvenz der SG Issuer, des Sicherheitentreuhänders, der Sicherheitenverwaltungsstelle oder des Sicherheitenverwahrers könnte sich die Verwertung der Sicherungswerte entweder durch die Bestellung eines Insolvenzverwalters oder einer anderen für Insolvenzen zuständigen Amtsperson in Bezug auf die SG Issuer, den Sicherheitentreuhänder, die Sicherheitenverwaltungsstelle oder den Sicherheitenverwahrer oder durch andere von einem zuständigen Gericht angeordnete Maßnahmen verzögern. Eine entsprechende Verzögerung könnte sich nachteilig auf die Position der Wertpapierinhaber auswirken, falls es in diesem Zeitraum zu einer Wertminderung der Sicherungswerte kommt.

Fehlbetrag, nicht mehr aktueller Preisabschlag, physische Lieferung usw.) haben die Wertpapierinhaber weiterhin einen Anspruch gegen die Garantin im Hinblick auf die ungezahlten Beträge.
2.3.4. Risks arising from the Underlying to which the Securities are linked	**2.3.4. Risiken, die sich aus dem Basiswert ergeben, auf den sich die Wertpapiere beziehen**
The performance of the Securities depends to a large degree on the expected and actual performance of the Underlying.	Die Kursentwicklung der Wertpapiere hängt in hohem Maße von der erwarteten und tatsächlichen Wertentwicklung des Basiswerts ab.
The link to an Underlying entails risks that may have an adverse effect on the value of the Securities. In particular, the choice of Underlying by the Issuer is not based on its estimates of the future performance of the Underlying selected.	Mit der Bezugnahme auf einen Basiswert sind Risiken verbunden, die sich nachteilig auf den Wert der Wertpapiere auswirken können. Insbesondere basiert die Auswahl des Basiswerts durch die Emittentin nicht auf ihren Einschätzungen bezüglich der zukünftigen Wertentwicklung des ausgewählten Basiswerts .
(a) Risk of fluctuations in the value of the Underlying	***(a) Risiko von Wertschwankungen des Basiswerts***
(aa) Dependence of payments under the security on the Underlying	*(aa) Abhängigkeit der Zahlungen unter dem Wertpapier vom Basiswert*
Securityholders are affected by fluctuations in the value of the Underlying. These may have an adverse impact on the value of the Securities.	Wertpapierinhaber sind von den Wertschwankungen des Basiswerts abhängig. Diese können sich nachteilig auf den Wert der Wertpapiere auswirken.
If investors purchase a Security with an Underlying, they also bear the risks associated with the Underlying as Securityholders. In particular, they bear the risk of fluctuations in the value of the Underlying. The fluctuations in the value of the Underlying depend on a variety of factors: Corporate actions or economic events relating to the business of the Underlying (e.g., deterioration of the results of a stock corporation), general economic factors and speculative activities. It is therefore not possible to make reliable statements about the future performance of the Underlying for the Securities. In particular, the performance of an Underlying in the past does not represent a guarantee of its future performance. The selection of an Underlying is not based on the expectations or estimates of the Issuer with respect to the future performance of	Wenn Anleger ein Wertpapier mit einem Basiswert kaufen, tragen sie als Wertpapierinhaber auch die mit dem Basiswert verbundenen Risiken. Insbesondere tragen sie das Risiko von Wertschwankungen des Basiswerts. Die Wertschwankungen hängen dabei von einer Vielzahl von Faktoren ab: Kapitalmaßnahmen oder betriebswirtschaftliche Ereignisse beim Basiswert (z.B. Verschlechterung des Unternehmensergebnisses einer Aktiengesellschaft), volkswirtschaftliche Faktoren und Spekulationen. Es ist deshalb nicht möglich, zuverlässige Aussagen über die künftige Wertentwicklung des Basiswerts der Wertpapiere zu treffen. Insbesondere stellt die Wertentwicklung eines Basiswerts in der Vergangenheit keine Garantie für dessen

the Underlying selected. Securityholders are therefore not able to predict in advance the repayment for the Securities that they can expect in the future.	zukünftige Wertentwicklung dar. Die Auswahl eines Basiswerts beruht auch nicht auf den Erwartungen oder Einschätzungen der Emittentin bezüglich der zukünftigen Wertentwicklung des ausgewählten Basiswerts. Wertpapierinhaber können deshalb nicht vorhersehen, welche Rückzahlung sie in der Zukunft für die Wertpapiere erwarten können.
Securityholders may suffer substantial losses on the repayment of the Securities if the NPV has fallen.	Wertpapierinhabern können bei der Rückzahlung der Wertpapiere erhebliche Verluste entstehen, wenn der Kapitalwert gefallen ist.
In each case, each daily change in the Reference Price between purchase and redemption is significant. As the performance of a Security with respect to a period of more than one day is calculated on the basis of the daily performances of the Underlying (i.e., changes between a Reference Price and the consecutive Reference Price) leveraged by the Factor and the Interest or Financing Component, the performance of the Security may significantly deviate from the total performance of the Underlying for the same period. These deviations can occur in the case of constantly falling or rising as well as fluctuating prices of the Underlying and can result in the performance of the Security lagging significantly behind the performance of the Underlying over the same period. In particular, if the price of the Underlying underlying the Security develops in different directions after the purchase by the investor (i.e. price gains and losses alternate) and the price of the Underlying returns to the level at purchase, the NPV at that point in time does not also correspond to its initial value, but is - reinforced by the effect of the daily constant multiple leverage which may be considerable - below its initial value. As a result, the Security may lose value even if, at the end of the period, the Underlying should regain its original level from the beginning of the period. Securityholders **may** incur substantial losses when redeeming the Securities if the NPV has fallen. If the NPV at the time of redemption of the Security is rounded below the minimum payout, if any, Securityholders even incur a **total loss** or a **loss approaching a total loss**.	In jedem Fall ist jede tägliche Veränderung des Referenzpreises zwischen Kauf und Einlösung entscheidend. Da die Wertentwicklung eines Wertpapiers bezogen auf einen Zeitraum von mehr als einem Tag auf Basis der täglichen, mit dem Faktor gehebelten Wertentwicklungen des Basiswerts (also Veränderungen zwischen einem Referenzpreis und dem nachfolgenden Referenzpreis) sowie der Finanzierungs- bzw. Zinskomponente berechnet wird, kann die Wertentwicklung des Wertpapiers erheblich von der Gesamtentwicklung des Basiswerts über den gleichen Zeitraum abweichen. Diese Abweichungen können sowohl bei konstant fallenden oder steigenden als auch bei schwankenden Kursen des Basiswerts auftreten und dazu führen, dass über den gleichen Zeitraum die Wertentwicklung des Wertpapiers deutlich hinter der Wertentwicklung des Basiswerts zurückbleibt. Insbesondere falls sich der Kurs des dem Wertpapier zugrundeliegenden Basiswerts nach Kauf durch den Anleger in unterschiedliche Richtungen entwickelt (wechseln sich also Kursgewinne und Kursverluste ab) und der Kurs des Basiswerts zum Stand bei Kauf zurückkehrt, entspricht der Kapitalwert zu diesem Zeitpunkt nicht ebenfalls seinem Ausgangswert, sondern liegt - verstärkt durch die Wirkung des täglich konstanten mehrfachen Hebels unter Umständen erheblich - unter seinem Ausgangswert. Demzufolge kann das Wertpapier an Wert verlieren, auch wenn der Basiswert am Ende des Zeitraums wieder seinen ursprünglichen Stand vom Beginn des Zeitraums erreichen sollte. Wertpapierinhabern können bei der Einlösung der Wertpapiere erhebliche Verluste entstehen, wenn der Kapitalwert gefallen ist. Ist der Kapitalwert bei der Einlösung des Wertpapiers gerundet unterhalb der Minimalauszahlung, sofern vorhanden, entsteht den Wertpapierinhabern sogar ein **Totalverlust bzw. ein nahezu Totalverlust**.
(bb) Dependence of the value of the security on the underlying (in the case of a sale)	*(bb) Abhängigkeit des Werts des Wertpapiers vom Basiswert (bei Verkauf)*
The same applies to sales of the Securities. The critical factor in this case is the value of the NPV	Das Gleiche gilt beim Verkauf der Wertpapiere. In diesem Fall ist nicht nur der Kapitalwert zum

at the time of sale. If the NPV has fallen due to fluctuations of the Underlying between the purchase and sale of the Securities, the Securityholders may incur a significant loss. If the NPV is worthless on the sale of the Security, the Securityholders of a Leveraged ETP Long may even suffer a **total loss or almost a total loss**.	Zeitpunkt des Verkaufs der Wertpapiere entscheidend. Ist der Kapitalwert durch Schwankungen des Basiswerts zwischen Kauf und Verkauf gesunken, so entsteht den Wertpapierinhabern möglicherweise ein erheblicher Verlust. Ist der Kapitalwert bei Verkauf des Wertpapiers wertlos, entsteht den Wertpapierinhabern eines Leveraged ETPs Long sogar ein **Totalverlust bzw. ein nahezu Totalverlust**.
(cc) Risks relating to limited information with respect to the Underlying	*(cc) Risiken aufgrund begrenzter Informationen über den Basiswert*
Information about the Underlying may not be publicly available or available only to a limited extent. Securityholders may therefore have no access or only limited access to detailed information about the respective Underlying. This may apply to the current price of the Underlying as well as the past and future performance of the Underlying and of its volatility. Due to such a lack of information, investors may anticipate negative developments too late or not at all. The less information an investor has about an Underlying, the higher the probability that this risk will materialise. For Securityholders, this can lead to a **total or partial loss** of the Capital Amount invested.	Informationen über den Basiswert können gegebenenfalls nicht oder nur in begrenztem Ausmaß öffentlich verfügbar sein. Daher haben Wertpapierinhaber möglicherweise keinen oder nur begrenzten Zugang zu detaillierten Informationen über den jeweiligen Basiswert. Dies kann sowohl für den aktuellen Kurs des Basiswerts als auch die vergangene und zukünftige Wertentwicklung des Basiswerts sowie der Volatilität gelten. Durch solche fehlenden Informationen werden negative Entwicklungen vom Anleger womöglich zu spät oder überhaupt nicht antizipiert. Je weniger Informationen ein Anleger über einen Basiswert besitzt, desto höher ist die Wahrscheinlichkeit, dass dieses Risiko eintritt. Dies kann für Wertpapierinhaber zum **Total- oder Teilverlust** des jeweils investierten Kapitalbetrages führen.
(b) Risks relating to Shares as the Underlying	***(b) Risiken im Zusammenhang mit Aktien als Basiswert***
(aa) Dependence on the company's share price	*(aa) Abhängigkeit vom Aktienkurs des Unternehmens*
If investors invest in Securities with a Share as the Underlying, they bear similar risks as in the case of a direct investment in that Share.	Investieren Anleger in Wertpapiere mit einer Aktie als Basiswert, tragen sie ähnliche Risiken wie bei einer Direktanlage in diese Aktie.
These include risks arising from the fluctuations in the company's share price. This includes the risk of the company becoming insolvent and of insolvency proceedings or a similar proceeding according to the applicable law of the company, being initiated with respect to the company's assets. The risk exists for the Securityholders in all cases that the relevant share may become **worthless** as the Underlying of their Security, thereby realising the risks presented in section 2.3.1. resulting from the nature of the security. The Securityholders of a Leveraged ETP Long will then suffer a **total loss**.	Hierzu gehören die Risiken, die sich aus den Schwankungen des Aktienkurses des Unternehmens ergeben. Dies beinhaltet das Risiko, dass das Unternehmen zahlungsunfähig wird und über das Vermögen des Unternehmens ein Insolvenzverfahren bzw. eines nach dem für die Gesellschaft anwendbaren Recht vergleichbaren Verfahren eröffnet wird. In allen Fällen besteht für Wertpapierinhaber das Risiko, dass die betreffende Aktie als Basiswert ihres Wertpapiers **wertlos** wird und sich damit die in Abschnitt 2.3.1. dargelegten Risiken, die sich aus der Art des Wertpapiers ergeben, entsprechend realisieren. Die Wertpapierinhaber eines Leveraged ETPs Long erleiden dann einen **Totalverlust**.

(bb) Lower level of legal stability in the country of the registered office of the company	*(bb) Geringe Rechtssicherheit im Land des Geschäftssitzes des Unternehmens*
Additional risks apply to shares of companies with a registered office or business activity in countries with a low level of legal stability. The risk could consist, for example, of governments taking unpredictable measures or of nationalisation. This could result in a total or partial loss of the value of the share. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.	Zusätzliche Risiken bestehen bei Aktien von Unternehmen mit einem Geschäftssitz oder einer Betriebstätigkeit in Ländern mit geringer Rechtssicherheit. Dabei kann das Risiko z.B. in der Durchführung von nicht vorhersehbaren Regierungsmaßnahmen oder in der Verstaatlichung bestehen. Dies kann zu einem Gesamt- oder Teilverlust des Wertes der Aktie führen. Sollten sich solche Risiken realisieren, kann dies für Wertpapierinhaber zum **Total- oder Teilverlust** des jeweils investierten Kapitalbetrags führen.
(cc) Risks relating to dividend payments or distributions	*(cc) Risiken im Hinblick auf Dividendenzahlungen und Ausschüttungen*
Unlike direct investments in shares, investors in Securities with Shares as Underlying will not receive a dividend or other distributions. Accordingly, an investor in the Securities bears the risk that the more the success of a company is reflected in dividends or distributions, the Securities with shares of that entity as Underlying do not or only insufficiently reflect that company's success. This can lead to a **loss** in relation to the Securities.	Im Gegensatz zu einer Direktinvestition in Aktien erhalten Anleger in Wertpapiere mit einer Aktie als Basiswert keine Dividenden oder andere Ausschüttungen. Demnach trägt ein Anleger in die Wertpapiere das Risiko, dass je stärker sich der Erfolg eines Unternehmens in Dividenden oder Ausschüttungen zeigt, die Wertpapiere mit Aktien dieses Unternehmens als Basiswert diesen Unternehmenserfolg nicht oder nur unzureichend abbilden. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(dd) Volatility and Illiquidity of the Share	*(dd) Volatilität und Illiquidität von Aktien*
Shares of companies with a low to medium market capitalisation may be subject to greater risks than the shares of larger companies. Such risks relate in particular to the volatility of the shares and the possible insolvency of the companies. In addition, shares of companies with a low market capitalisation may be highly illiquid due to low trading volumes. This volatility and illiquidity may have a negative impact on the share price and therefore the risks associated with the securities and shown in section 2.3.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.	Aktien von Unternehmen mit einer niedrigen bis mittleren Marktkapitalisierung unterliegen möglicherweise höheren Risiken als Aktien von größeren Unternehmen. Die Risiken bestehen dabei insbesondere in Hinblick auf die Volatilität der Aktien und einer möglichen Insolvenz der Unternehmen. Darüber hinaus können Aktien von Unternehmen mit niedriger Marktkapitalisierung aufgrund niedriger Handelsvolumina extrem illiquide sein. Diese Volatilität und Illiquidität kann sich negativ auf den Aktienkurs auswirken und somit können die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(ee) Adjustment measures in the case of Shares	*(ee) Anpassungsmaßnahmen* bei Aktien
Securities with a share as the Underlying are also subject to adjustment measures, that may arise as a result of events relating to the company issuing the shares. Such adjustment measures become necessary in the event of corporate actions (e.g., capital increases) by the company concerned. The possibility cannot be ruled out that an adjustment measure may subsequently	Wertpapiere mit einer Aktie als Basiswert unterliegen darüber hinaus Anpassungsmaßnahmen, die sich aufgrund von Ereignissen in Bezug auf das die Aktien ausgebende Unternehmen ergeben können. Solche Anpassungsmaßnahmen werden im Falle von Kapitalmaßnahmen (z.B. Kapitalerhöhungen) des betroffenen

prove to be inappropriate or disadvantageous for the Securityholders. It may also be the case that an adjustment measure places a Securityholder in a worse financial position than before the adjustment measure was carried out. In such cases, there is a risk that the risks associated with the securities and identified in section 2.3.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.	Unternehmens erforderlich. Dabei ist es nicht ausgeschlossen, dass sich eine Anpassungsmaßnahme später als unzutreffend oder für die Wertpapierinhaber als unvorteilhaft erweist. Es kann auch sein, dass ein Wertpapierinhaber durch die Anpassungsmaßnahme wirtschaftlich schlechter als vor einer solchen Anpassungsmaßnahme gestellt wird. In diesen Fällen besteht das Risiko, dass die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten können. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(ff) Shares in the form of depositary receipts	*(ff) Aktien in der Form von Hinterlegungsscheinen*
If the Underlying consists of depositary receipts rather than shares (e.g., American depositary receipts ("**ADRs**") or global depositary receipts ("**GDRs**"), referred to together as "**Depositary Receipts**"), additional risks may arise. Each Depositary Receipt represents one or more shares or a fraction of a security of a foreign company. For Depositary Receipt, the legal owner of the underlying shares is the depositary bank of the Depositary Receipts, which also acts as the issuing agent.	Wenn der Basiswert aus Hinterlegungsscheinen anstelle von Aktien (z.B. Amerikanische Hinterlegungsscheine (*American Depositary Receipts*) ("**ADRs**") oder Globalhinterlegungsscheine (*Global Depositary Receipts*) ("**GDRs**"), zusammen "**Hinterlegungsscheine**") besteht, können zusätzliche Risiken auftreten. Jeder Hinterlegungsschein repräsentiert eine oder mehrere Aktien oder einen Bruchteil eines Wertpapiers einer ausländischen Gesellschaft. Bei den Hinterlegungsscheinen ist die Depotbank, welche auch als Ausgabestelle der Hinterlegungsscheine fungiert, die rechtmäßige Eigentümerin der zugrunde liegenden Aktien.
In the event of the insolvency of the depositary bank and/or the initiation of enforcement proceedings with respect to it, the underlying shares in question may be subject to restrictions on their disposal and/or their economic value may be realised in connection with enforcement measures against the depositary bank. This means that the Depositary Receipt will lose its value as an Underlying and the Securities linked to the Depositary Receipt could become worthless. The investor will be faced with a risk of total loss in such a scenario.	Im Falle einer Insolvenz der Depotbank und/ oder der Einleitung eines Vollstreckungsverfahrens in Bezug auf diese können die entsprechenden zugrunde liegenden Aktien Verfügungsbeschränkungen unterliegen und/oder im Zusammenhang mit Zwangsvollstreckungsmaßnahmen gegen die Depotbank wirtschaftlich verwertet werden. Dies bedeutet, dass der Hinterlegungsschein als Basiswert entwertet wird und das ausgegebene Wertpapier mit einem Hinterlegungsschein als Basiswert wertlos werden kann. In einem solchen Szenario besteht für den Anleger ein **Totalverlustrisiko**.
(c) Risks relating to ETF Shares as the Underlying	***(c) Risiken im Zusammenhang mit ETF-Anteilen als Basiswert***
(aa) Dependence on the performance of an index, basket or specific individual assets	*(aa) Abhängigkeit von der Wertentwicklung eines Index, Baskets oder Einzelwertes*
The purpose of an index-based ETF (Exchange Traded Fund) is to replicate the performance of an index, a basket or specific individual assets as closely as possible. The value of the ETF therefore depends in particular on the price performance of the individual index or basket constituents or of the individual asset. If the ETF	Ziel eines indexbasierten ETFs (Exchange Traded Fund) ist die möglichst exakte Nachbildung der Wertentwicklung eines Index, eines Baskets oder bestimmter Einzelwerte. Der Wert des ETFs ist daher insbesondere abhängig von der Kursentwicklung der einzelnen Index- oder Basket-Bestandteile bzw. der Einzelwerte.

or the index, basket or specific individual asset underlying the ETF falls in value, there is therefore, in the case of a Leveraged ETP Long, the risk of an unlimited fall in the price of the ETF, which may have an adverse effect on the value of the Securities. If the ETF or the index, basket or specific individual asset underlying the ETF rises in value, there is therefore, in the case of a Leveraged ETP Short, the risk of an unlimited rise in the price of the ETF, which may have an adverse effect on the value of the Securities. Consequently, the risks identified in section 2.3.1. may be more likely to occur. This may result in a **loss** in relation to the Securities.	Bei einem Wertverlust des ETFs bzw. des dem ETF zugrunde liegenden Index, Baskets oder Einzelwerts besteht daher bei einem Leveraged ETP Long ein uneingeschränktes Kursverlustrisiko in Bezug auf den ETF, was sich negativ auf den Wert der Wertpapiere auswirken kann. Bei einem Wertqewinn des ETFs bzw. des dem ETF zugrunde liegenden Index, Baskets oder Einzelwerts besteht daher bei einem Leveraged ETP Short ein uneingeschränktes Kursverlustrisiko in Bezug auf den ETF, was sich negativ auf den Wert der Wertpapiere auswirken kann. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(bb) Use of derivative financial instruments	*(bb) Einsatz von derivativen Finanzinstrumenten*
Index-based ETFs whose performance is linked to an index or basket will normally invest in securities that are not included in the index or basket. In addition, derivative financial instruments and techniques are used in order to link the value of the ETF Share to the performance of the index or basket. The use of these derivative financial instruments and techniques involves risks for the ETF which may be greater in certain cases than the risks of traditional forms of investment. The ETF may also incur losses due to the default of the counterparty in a transaction involving the use of derivatives, e.g., in the case of OTC swap transactions. This may then negatively affect the value of the ETF Share and thus on the Securities. Consequently, the risks identified in section 2.3.1. may be more likely to occur. This may result in a **loss** in relation to the Securities.	Indexbasierte ETFs, deren Wertentwicklung an einen Index oder Basket gekoppelt ist, werden in der Regel in nicht im Index oder Basket enthaltene Wertpapiere investieren. Ergänzend werden derivative Finanzinstrumente und Techniken eingesetzt, um den Wert der Anteile am ETF an die Wertentwicklung des Index oder Basket zu koppeln. Der Einsatz dieser derivativen Finanzinstrumente und Techniken birgt Risiken auf Ebene des ETF, die in bestimmten Fällen größer sein können als die Risiken traditioneller Anlageformen. Der ETF kann auch Verluste erleiden, wenn die Gegenpartei bei einer Transaktion unter Einsatz von Derivaten ausfällt, z.B. bei OTC-Swap Transaktionen. Dies kann sich dann negativ auf den Wert des ETF-Anteils und damit der Wertpapiere auswirken. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(cc) Liquidation risks for collateral provided	*(cc) Verwendungsrisiken im Falle der Stellung von Sicherheiten*
The statutory and regulatory provisions apply to collateral provided by counterparties to the investment company for index-based ETFs in connection with securities lending, repurchase and OTC transactions for the purpose of minimising the risk of counterparty default. However, the possibility cannot be ruled out that individual items of collateral may be worthless when the liquidation event occurs or may lose all of their value by the date of liquidation. Consequently, the risks identified in section 2.3.1. may be more likely to occur. To that extent, there is a risk that the ETF Share may lose all of its value and therefore a risk of **total loss** in respect of the Securities	Für Sicherheiten, die der Investmentgesellschaft für indexbasierte ETFs von Kontrahenten im Zusammenhang mit Wertpapierleih-, Pensions- und OTC-Geschäften zur Minimierung des Adressenausfallrisikos gestellt werden, gelten die gesetzlichen und regulatorischen Bestimmungen. Es kann dennoch nicht ausgeschlossen werden, dass einzelne Sicherheiten beim Eintritt des Verwertungsfalls wertlos sein können bzw. bis zum Zeitpunkt der Verwertung ihren Wert vollständig verlieren können. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Es besteht insofern das Risiko eines totalen Wertverlustes in Bezug

	auf den ETF-Anteil und damit das Risiko eines **Totalverlustes** in Bezug auf die Wertpapiere.
(dd) Risk of replacement of the index	*(dd) Risiken eines Indexaustauschs*
In certain circumstances (e.g., there are no exchange prices available for the components), the calculation or publication of the index replicated by the index-based ETF or basket may be suspended or even discontinued. Furthermore, the index constituents or basket constituents may be changed, or the index or basket may be replaced by a different index or basket. The investor therefore faces the risk that the index or individual constituents may be replaced. This may have a negative impact on the value of the ETF share and, consequently, the risks identified in section 2.3.1. may be more likely to occur. Should such risks materialise, this may result in a **total or partial loss** of the Capital Amount invested in each case for Securityholders. This can lead to a **loss** in relation to the Securities.	Unter bestimmten Umständen (z.B. für die Bestandteile stehen keine Börsenpreise zur Verfügung) kann die Berechnung oder Veröffentlichung des vom indexbasierten ETF abgebildeten Index oder des Baskets ausgesetzt oder sogar eingestellt werden. Ferner können die Indexkomponenten oder Basketkomponenten geändert oder der Index bzw. Basket durch einen anderen Index bzw. Basket ersetzt werden. Insoweit ist der Anleger dem Risiko eines Austausches des Index bzw. einzelner Komponente ausgesetzt. Dies kann sich negativ auf den Wert des ETF-Anteils auswirken und folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(ee) Costs of an ETF	*(ee) Kosten des ETF*
The performance of the ETF whose shares form the Underlying for the Securities is affected among other things by costs charged to the ETF directly or indirectly. Investors are exposed to the risk that these costs may have a negative impact on the performance of the ETF. Consequently, the risks identified in section 2.3.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.	Die Wertentwicklung des ETF, dessen Anteile den Wertpapieren zugrunde liegt, wird unter anderem durch Kosten, die das Fondsvermögen mittelbar oder unmittelbar belasten, beeinflusst. Anleger sind dem Risiko ausgesetzt, dass sich diese Kosten negativ auf die Wertentwicklung des ETF auswirken. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(ff) Market risk	*(ff) Marktrisiken*
Since price falls or losses of value in the securities acquired by the ETF or its other investments are reflected in the price of the individual ETF Shares, there is a general risk that ETF Share prices may fall. Even if the ETF investments are widely spread and highly diversified, the risk exists that a general downward trend on particular markets or exchanges could be reflected in a decline in ETF Share prices. Consequently, the risks identified in section 2.3.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.	Da sich außerdem Kursrückgänge oder Wertverluste bei den durch den ETF erworbenen Wertpapieren oder seinen sonstigen Anlagen im Preis der einzelnen ETF-Anteile widerspiegeln, besteht grundsätzlich das Risiko sinkender Anteilspreise. Auch bei einer breiten Streuung und starken Diversifizierung der Fondsanlagen besteht das Risiko, dass sich eine rückläufige Gesamtentwicklung an bestimmten Märkten oder Börsenplätzen in einem Rückgang von Anteilspreisen niederschlägt. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(gg) Illiquid investments	*(gg) Illiquide Anlagen*
The ETF may invest in assets that are illiquid or subject to a minimum holding period. For this reason, it may be difficult for the ETF to sell the relevant assets at an appropriate price or at all, if	Der ETF kann in Vermögenswerte investieren, die illiquide sind oder einer Mindesthaltefrist unterliegen. Aus diesem Grund ist es für den ETF möglicherweise schwierig, die betreffenden

it is forced to do so in order to generate liquidity. The ETF may suffer significant losses if it has to sell illiquid assets to enable it to redeem ETF Shares, and it may be that the illiquid assets can only be sold at a low price. This may have an adverse effect on the value of the ETF and therefore on the value of the Securities. Investments in illiquid assets may also result in difficulties in calculating the net asset value of the ETF. This may in turn lead to delays affecting payments to investors in connection with the Securities. Consequently, the risks identified in section 2.3.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.	Vermögenswerte überhaupt oder zu einem angemessenen Preis zu verkaufen, wenn er hierzu gezwungen ist, um Liquidität zu generieren. Der ETF erleidet möglicherweise erhebliche Verluste, falls er illiquide Vermögenswerte verkaufen muss, um ETF-Anteile zurücknehmen zu können und der Verkauf der illiquiden Vermögenswerte nur zu einem niedrigen Preis möglich ist. Dies kann sich nachteilig auf den Wert des ETF und damit auf den Wert der Wertpapiere auswirken. Anlagen in illiquiden Vermögenswerten können auch zu Schwierigkeiten bei der Berechnung des Nettoinventarwerts des ETF führen. Dies wiederum kann zu Verzögerungen in Bezug auf Auszahlungen im Zusammenhang mit den Wertpapieren führen. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(hh) Delayed publication of the net asset value	*(hh) Verzögerte Veröffentlichung des Nettoinventarwerts*
In certain circumstances (e.g., exchange prices for the components are not or not available in time), it may be the case that an ETF is late in publishing its net asset value. This may result in a delay in redeeming the Securities and, if there is a negative movement in the market for example, may have an adverse impact on the value of the Securities. Consequently, the risks identified in section 2.3.1. may be more likely to occur. In the event of a delay in the redemption of the Securities, investors also bear the risk that their reinvestment of the relevant proceeds will firstly be delayed and may only be possible on less favourable terms. This can lead to a **loss** in relation to the Securities.	In bestimmten Situationen (z.B. für die Bestandteile stehen keine Börsenpreise zur Verfügung oder nicht rechtzeitig zur Verfügung) kann es vorkommen, dass ein ETF den Nettoinventarwert verspätet veröffentlicht. Dies kann zu einer Verzögerung der Einlösung der Wertpapiere führen und sich, z.B. bei einer negativen Marktentwicklung, nachteilig auf den Wert der Wertpapiere auswirken. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Darüber hinaus tragen Anleger das Risiko, bei einer verspäteten Einlösung der Wertpapiere die entsprechenden Erlöse erst verzögert und unter Umständen zu negativeren Konditionen wiederanlegen zu können. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
(ii) Liquidation of a fund	*(ii) Auflösung eines Fonds*
The possibility that an ETF may be liquidated during the term of the Securities cannot be ruled out. In this event, the Issuer is entitled, subject to the respective terms and conditions, to make adjustments with respect to the Securities. Adjustments of this nature may provide in particular for the replacement of the relevant ETF by a different ETF. In such cases, the possibility also exists that the Issuer may terminate the Securities prematurely. The Redemption Amount to be paid as a result may be less than the investor's Capital Amount and may result in losses, up to and end with a **total loss**, with the investor.	Es ist nicht auszuschließen, dass ein ETF während der Laufzeit der Wertpapiere aufgelöst wird. In diesem Fall ist die Emittentin berechtigt, nach Maßgabe der jeweiligen Emissionsbedingungen Anpassungen hinsichtlich der Wertpapiere vorzunehmen. Derartige Anpassungen können insbesondere eine Ersetzung des jeweiligen Fonds durch einen anderen Fonds vorsehen. Darüber hinaus besteht in einem solchen Fall auch die Möglichkeit einer vorzeitigen Kündigung der Wertpapiere durch die Emittentin. Der daraufhin zu zahlende Rückzahlungsbetrag kann geringer als der eingesetzte Kapitalbetrag des Anlegers ausfallen und zu Verlusten, bis hin zum **Totalverlust**, beim Anleger führen.

(d) Risks relating to Indices as the Underlying	***(d) Risiken im Zusammenhang mit Indizes als Basiswert***
(aa) Dependence of the value fluctuation of the Index	*(aa) Abhängigkeit von Wertschwankungen des Index*
If investors invest in Securities with an Index as the Underlying, they bear similar risks as in the case of a direct investment in that Index or a direct investment in the constituents of the relevant Index.	Investieren Anleger in Wertpapiere mit einem Index als Basiswert, tragen sie ähnliche Risiken wie bei einer Direktanlage in diesen Index bzw. wie bei einer Direktanlage in die Bestandteile des betreffenden Index.
The value of an index is calculated on the basis of the value of its constituents. Changes in the prices of the index constituents, the composition of the index and other factors affecting the index constituents are reflected in the level of the index. Changes in the level of the index in turn directly affect the value of the Securities. Securityholders therefore bear the risk that changes in the index level may have an adverse impact on the return on an investment in these Securities. Fluctuations in the value of one index constituent may be reinforced by fluctuations in the value of other index constituents. This may trigger or intensify a for the investor negative development in the level of the index. In such cases, there is a risk that the risks associated with the securities and identified in section 2.3.1. may be more likely to occur. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.	Der Wert eines Index wird auf Grundlage des Wertes seiner Bestandteile berechnet. Veränderungen der Preise der Indexbestandteile, der Indexzusammensetzung sowie andere Faktoren mit Auswirkung auf die Indexbestandteile beeinflussen den Indexstand. Veränderungen des Indexstandes wirken sich wiederum unmittelbar auf den Wert der Wertpapiere aus. Deshalb tragen Wertpapierinhaber das Risiko, dass Veränderungen des Indexstandes den Ertrag einer Anlage in diesen Wertpapieren negativ beeinflussen können. Schwankungen des Werts eines Indexbestandteils können durch Schwankungen des Werts anderer Indexbestandteile verstärkt werden. Dadurch kann eine für den Anleger nachteilige Entwicklung des Indexstandes ausgelöst oder verstärkt werden. In diesen Fällen besteht das Risiko, dass die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten können. Sollten sich solche Risiken realisieren, kann dies für Wertpapierinhaber zum **Total- oder Teilverlust** des jeweils investierten Kapitalbetrages führen.
(bb) Termination of an Index	*(bb) Einstellung des Index*
An Index used as an Underlying may not be available for the entire term of the Securities. The Securityholder therefore bears the risk, that the index may be discontinued, replaced or may be calculated in future by the Calculation Agent. In these or other circumstances specified in the Final Terms, the Securities may also be terminated by the Issuer. In such cases, the Redemption Amount may be less than the capital invested and a **risk of loss** for investors may arise.	Ein als Basiswert eingesetzter Index steht möglicherweise nicht für die gesamte Laufzeit der Wertpapiere zur Verfügung. Der Wertpapierinhaber trägt deshalb das Risiko, dass der Index unter Umständen eingestellt, ausgetauscht oder von der Berechnungsstelle weiterberechnet wird. In diesen oder anderen in den Endgültigen Bedingungen genannten Fällen können die Wertpapiere von der Emittentin gegebenenfalls gekündigt werden. In diesen Fällen kann der Rückzahlungsbetrag geringer als das eingesetzte Kapital ausfallen und sich ein **Verlustrisiko** für die Anleger verwirklichen.
(cc) Concentration risk	*(cc) Konzentrationsrisiko*
The index serving as the Underlying may only replicate the performance of assets in particular countries or particular sectors. In this event, Securityholders are exposed to concentration risk. This will be the case, for example, if the	Der als Basiswert verwendete Index bildet möglicherweise nur die Wertentwicklung von Vermögenswerten bestimmter Länder oder bestimmter Branchen ab. In diesem Fall sind Wertpapierinhaber einem Konzentrationsrisiko

constituents of an index consist solely of shares from a particular country. Generally, unfavourable (Long) or favourable (Short) economic performance in that country may have a negative (Long) or positive (Short) impact on the level of the index. The same applies if an index is composed of shares of companies in the same industry sector. In such cases, there is a risk that the risks associated with the securities and identified in section 2.3.1. may be more likely to occur. Depending on the structure and type of the Securities, the Securityholder may incur substantial losses or even **total loss** if the index does not perform as expected.	ausgesetzt. Dies ist beispielsweise der Fall, wenn die Indexbestandteile eines Index allein aus Aktien aus einem bestimmten Land bestehen. Im Falle einer allgemein ungünstigen (Long) bzw. günstigen (Short) wirtschaftlichen Entwicklung in diesem Land kann sich diese Entwicklung nachteilig (Long) bzw. vorteilig (Short) auf den Indexstand auswirken. Das Gleiche gilt, wenn sich ein Index aus Aktien von Unternehmen derselben Branche zusammensetzt. In diesen Fällen besteht das Risiko, dass die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten können. Je nach Struktur und Typ der Wertpapiere können dem Wertpapierinhaber erhebliche Verluste bis hin zum **Totalverlust** entstehen, wenn der Index nicht die erwartete Wertentwicklung erzielt.
(dd) No influence of the Issuer on the Index	*(dd) Kein Einfluss der Emittentin auf den Index*
The Issuer has no influence on the index serving as the Underlying for the Securities issued by the Issuer. The index is compiled and calculated by the respective Index Administrator regardless of the Securities. The Issuer therefore has no influence on the method of calculating, determining and publishing the index. It is also not involved in decisions about possible changes in the index or on a possible cessation of the index. The Securityholder bears the risk that the methods of calculation applied to the index may be altered or modified by the index administrator in a way which (unfavourably) affects the payment to the Securityholders. In addition, the issuer may make adjustments in accordance with the terms and conditions or, if necessary, terminate the Securities in an extraordinary manner. The Securityholder is at risk that the measures described may disadvantageously affect the value of the securities and that the risks associated with the securities and indicated in section 2.3.1. may occur with a higher probability. This can lead to a **loss** in relation to the Securities.	Die Emittentin hat keinen Einfluss auf den Index, welcher der Basiswert der von der Emittentin ausgegebenen Wertpapiere ist. Der Index wird vom jeweiligen Index-Administrator unabhängig von den Wertpapieren zusammengestellt und berechnet. Die Emittentin hat also keinen Einfluss auf die Methode der Berechnung, Feststellung und Veröffentlichung des Index. Sie wirkt auch nicht an den Entscheidungen über eine mögliche Veränderung des Index oder auf eine etwaige Einstellung der Berechnung mit. Der Wertpapierinhaber trägt das Risiko, dass die angewendeten Berechnungsmethoden in Bezug auf den Index vom Index-Administrator in einer Weise abgewandelt oder verändert werden, die die Zahlung an den Wertpapierinhaber (nachteilig) beeinflussen. Zudem kann die Emittentin Anpassungen gemäß den Emissionsbedingungen vornehmen bzw. die Wertpapiere gegebenenfalls außerordentlich kündigen. Der Wertpapierinhaber trägt das Risiko, dass die beschriebenen Maßnahmen den Wert der Wertpapiere nachteilig beeinflussen und die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten können. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(ee) Currency risk contained in the Index	*(ee) Im Index enthaltenes Währungsrisiko*
The Securityholder bears the risk that index constituents may be traded in different currencies and therefore be subject to differing currency effects. This applies in particular to indices focusing on more than one country or industry sector. It may also be the case that index constituents are first of all translated from one currency into the relevant currency for the calculation of the index. This applies, for example, if an index is calculated in euros but the	Der Wertpapierinhaber trägt das Risiko, dass Indexbestandteile gegebenenfalls in unterschiedlichen Währungen gehandelt werden und damit unterschiedlichen Währungseinflüssen unterliegen. Dies ist insbesondere bei länder- bzw. branchenübergreifenden Indizes der Fall. Außerdem kann es vorkommen, dass Indexbestandteile zunächst von einer Währung, in die für die Berechnung des Index maßgebliche

index constituents consist of shares traded in euros, Swiss francs and US dollars. The Securityholders are exposed to different currency and exchange-rate risks in these circumstances. An unfavourable (Long) or favourable (Short) development in the exchange rates of a currency in this context may have an adverse (Long) or positive (Short) effect on the index constituent traded in that currency. This means that the unfavourable (Long) or positive (Short) development of this exchange rate can have a negative (Long) or positive (Short) effect on the index used as the underlying. The Securityholder thus bears the risk that a lower (Long) or higher (Short) index level may make the risks associated with the securities and indicated in section 2.3.1. more likely to occur. This can lead to a **loss** in relation to the Securities.	Währung umgerechnet werden. Dies ist beispielsweise der Fall, wenn ein Index in Euro berechnet wird, dessen Indexbestandteile aber aus Aktien bestehen, die in Euro, Schweizer Franken und US-Dollar gehandelt werden. In diesen Fällen sind die Wertpapierinhaber verschiedenen Währungs- und Wechselkursrisiken ausgesetzt. Eine ungünstige (Long) bzw. günstige (Short) Entwicklung der Wechselkurse einer Währung kann sich dabei ungünstig (Long) bzw. günstige (Short) auf den Indexbestandteil auswirken, der in dieser Währung gehandelt wird. Damit kann sich die nachteilige (Long) bzw. positive (Short) Entwicklung dieses Wechselkurses negativ (Long) bzw. positiv (Short) auf den als Basiswert verwendeten Index auswirken. Der Wertpapierinhaber trägt damit das Risiko, dass durch einen geringeren (Long) bzw. höheren (Short) Indexstand die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten können. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(ff) Adverse effects of fees on the index level	*(ff) Nachteilige Auswirkungen von Gebühren auf den Indexstand*
Index concepts for the calculation of an index may provide that fees are payable to the index administrator for the calculation of the index or in the event of changes to the composition of the index. Fees of this nature are normally provided for if the functions of the Issuer and of the index administrator are performed by the same company. Most of the indices are in any event designed by the Issuer and replicate an investment strategy developed by the Issuer. They then generally serve as the Underlying for a single issue or a limited number of issues of Securities.	Indexkonzepte für die Indexberechnung können vorsehen, dass für die Indexberechnung oder bei Änderungen der Indexzusammensetzung Gebühren für den Index-Administrator anfallen. Solche Gebühren sind regelmäßig dann vorgesehen, wenn die Funktion der Emittentin und des Index-Administrators von demselben Unternehmen ausgeübt wird. Außerdem handelt es sich meist um Indizes, die vom Emittenten konzipiert wurden und die eine vom Emittenten entwickelte Investmentstrategie abbilden. Sie dienen dann in der Regel als Basiswert für eine oder eine begrenzte Anzahl von Wertpapieremissionen.
Fees of this sort reduce the level of the index used as the Underlying. Securityholders therefore bear the risk that these negative effects may be reflected in the performance of the relevant Security. Consequently, there is a higher probability that the risks associated with the securities and indicated in section 2.3.1. will occur. This can lead to a **loss** in relation to the Securities.	Derartige Gebühren reduzieren den Stand des als Basiswert verwendeten Index. Wertpapierinhaber tragen also das Risiko solcher negativen Auswirkungen auf die Kursentwicklung des betreffenden Wertpapiers. Folglich besteht eine höhere Wahrscheinlichkeit, dass die mit den Wertpapieren verbundenen und in Abschnitt 2.3.1. aufgezeigten Risiken eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(gg) Risks relating to indices that are new or not generally recognised	*(gg) Risiken Im Zusammenhang mit neuen oder nicht anerkannten Indizes*
The following should be noted in the case of indices that are new developed and do not have historical data or are not generally recognised or indices which serve as the Underlying only for a specific Security: Their composition and calculation may be subject to a lower degree of	Bei neu entwickelten Indizes ohne historische Daten und nicht allgemein anerkannten Indizes oder bei Indizes, die als Basiswert für nur ein bestimmtes Wertpapier dienen, ist zu beachten: Es besteht möglicherweise eine geringere Transparenz in Bezug auf ihre

transparency than in the case of generally recognised and established indices. In some cases, information about the index may also not be available to the same extent. Moreover, subjective criteria may play a significantly greater role in the composition of such indices. This may lead to higher fluctuations in the value of the index level and therefore the risk listed in section 2.3.4 (d) (aa) is more likely to arise. This can lead to a **loss** in relation to the Securities.	Zusammensetzung und Berechnung als bei allgemein anerkannten und etablierten Indizes. Unter Umständen sind auch weniger Informationen über den Index verfügbar. Außerdem können bei der Zusammensetzung eines solchen Index subjektive Kriterien ein erheblich größeres Gewicht haben. Dies kann zu höheren Wertschwankungen des Indexstandes führen und sich daher das in Abschnitt 2.3.4 (d) (aa) aufgeführte Risiko mit einer höheren Wahrscheinlichkeit verwirklichen. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(e) Risks relating to Futures Contracts as the Underlying	***(e) Risiken im Zusammenhang mit Futures-Kontrakten als Basiswert***
(aa) Dependency of price fluctuations of the reference value underlying the Futures-Contract	*(aa) Abhängigkeit von Wertschwankungen des dem Futures-Kontrakt zugrundeliegenden Referenzwerts*
If investors invest in Securities with a Futures Contract as the Underlying, they bear similar risks as in the case of a direct investment in that futures contract.	Investieren Anleger in Wertpapiere mit einem Futures-Kontrakt als Basiswert, tragen sie ähnliche Risiken wie bei einer Direktanlage in diesen Futures-Kontrakt.
The value of the futures contract usually depends directly on the price of the reference value underlying the futures contract. In particular, commodities (so-called commodity futures), indices or bonds can be used as reference values. Individual risks with regard to the reference values are mentioned below:	Der Wert des Futures-Kontrakts hängt üblicherweise unmittelbar vom Preis des dem Futures-Kontrakt zugrundeliegenden Referenzwertes ab. Als Referenzwerte können insbesondere Waren (sog. Warenterminkontrakte), Indizes oder Anleihen dienen. Einzelne Risiken mit Blick auf die Referenzwerte sind im Folgenden erwähnt:
In the case of commodity futures as Underlying, specific risks associated with the relevant commodities (e.g., oil, gas, aluminium, coffee, orange juice, copper or uranium) may arise. In the case of agricultural raw materials as commodities, cyclical pattern of supply and demand can result in significant fluctuations in prices. Unfavourable weather conditions and natural disasters can have a negative impact over the long term on the delivery of specific commodities for the whole year. A supply crisis of this nature may result in significant and unpredictable fluctuations in prices.	Im Fall von Warentermingeschäften als Basiswert können sich spezifische mit den entsprechenden Waren (z.B. Öl, Gas, Aluminium, Kaffee, Orangensaft, Kupfer oder Uran) verbundenen Risiken ergeben. Bei Agrarrohstoffen als Waren kann es jahreszeitbedingt zu zyklischen Angebots- und Nachfragemustern kommen, die zu starken Preisschwankungen führen können. Ungünstige Wetterbedingungen und Naturkatastrophen können langfristig negative Auswirkungen auf die Lieferung spezifischer Rohstoffe für das ganze Jahr haben. Eine Versorgungskrise dieser Art kann zu starken und unkalkulierbaren Preisschwankungen führen.
In the case of futures contracts on indices, the risks listed in section 2.3.4 (d) of indices may occur and negatively affect the price of the futures contract as the Underlying of a Security.	Im Fall von Futures-Kontrakten auf Indizes können die in Abschnitt 2.3.4 (d) zu Indizes aufgeführten Risiken eintreten und negativ den Kurs des Futures-Kontraktes als Basiswert eines Wertpapiers beeinflussen.
In the case of futures contracts on bonds, the Securityholders are also exposed to the risk of insolvency of the issuer of the respective bond(s) underlying the futures contract. If the issuer of a bond underlying a futures contract fails to fulfil its	Im Fall von Futures-Kontrakten auf Anleihen trägt der Anleger das Insolvenzrisiko des Emittenten der den Futures-Kontrakten jeweils zugrunde liegenden Anleihe(n). Falls der Emittent einer einem Futures-Kontrakt zugrunde liegenden

obligations in connection with the relevant bond, the price for the futures contracts falls.	Anleihe seinen Verpflichtungen aus der Anleihe nicht nachkommt, führt dies zu Preisverlusten für den Futures-Kontrakt.
The realisation of the risks associated with these reference values may have a negative (Long) or positive (Short) impact on the price of the futures contract. As a result, the value of the securities can be unfavourably affected and the risks shown in section 2.3.1. may occur with a higher probability. This can lead to a **loss** in relation to the Securities.	Eine Verwirklichung der mit diesen Referenzwerten verbundenen Risiken kann sich negativ (Long) bzw. positiv (Short) auf den Preis des Futures-Kontrakts auswirken. Dadurch kann der Wert der Wertpapiere nachteilig beeinflusst werden und die in Abschnitt 2.3.1. aufgezeigten Risiken können sich mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(bb) Expiry dates and Roll-over	*(bb) Verfalltermine und Roll-Over*
Since every futures contract has a specific expiry date, the terms and conditions may provide that (especially for Securities with longer terms) the Issuer will replace the futures contract stipulated as the Underlying in the terms and conditions at a time specified in the terms and conditions, with a futures contract that, apart from a later expiry date, has the same contract specifications as the original Underlying futures contract (so called "**Roll-over**"). This can lead to a **loss** in relation of the Securities.	Da Futures-Kontrakte jeweils einen bestimmten Verfalltermin haben, können die Emissionsbedingungen vorsehen, dass zu einem in den Emissionsbedingungen bestimmten Zeitpunkt dem Futures-Kontrakt, der in den Emissionsbedingungen als Basiswert vorgesehen ist, durch einen Futures-Kontrakt ersetzt wird, der außer einem später liegenden Verfalltermin die gleichen Vertragsspezifikationen aufweist wie der anfänglich zugrunde liegende Futures-Kontrakt (sog. "**Roll-Over**"). Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(cc) Pricing and tick size	*(cc) Preisfestsetzung und Tick Size*
Futures contracts may be priced on the futures exchange in units (e.g., currencies, index points, percentage) or in fractions of decimals. Investors should also note that the "tick size" (the minimum price movement) of the futures contract may affect the occurrence of an Intraday Adjustment and, if applicable, a Price Event. The tick size may be defined by the futures exchange in different ways (e.g., EUR 5.00 in the case of the FTSE MIB futures contract or 0.5/32 in the case of the 10-Year T-Note futures contract). A change in price of one tick on the futures exchange can therefore result in a relevant event if the difference between the price of the Underlying and the Adjustment Threshold and/or the Price Event Percentage is less than the tick size. Thus, the risks set out in section 2.3.1. may occur with higher probability.	Die Preisfeststellung von Futures-Kontrakten an der Terminbörse kann in Einheiten (z.B. Währungen, Indexpunkte, Prozent) oder in Bruchteilen von Dezimalzahlen erfolgen. Darüber hinaus sollten Anleger beachten, dass die sogenannte "*tick size*" (die Mindestpreisschwankung) des Future-Kontrakts Auswirkungen auf das Eintreten eines Anpassungsereignisses und falls anwendbar eines Kursereignisses haben kann. Die *tick size* könnte durch die Terminbörse unterschiedlich definiert werden (z.B. EUR 5,00 im Falle des FTSE MIB Futures-Kontrakt oder 0,5/32 im Falle des 10-Year T-Note Futures-Kontrakt). Eine Preisänderung um eine *tick size* an der Terminbörse kann daher zu einem entsprechenden Ereignis führen, wenn die Differenz zwischen dem Preis des Basiswerts und der Anpassungsschwelle bzw. der Kursschwelle innerhalb des Bereichs der *tick size* liegt. Dadurch können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit auftreten.

(dd) Futures price may differ significantly from the cash price of the reference value underlying the futures contract	*(dd) Futures-Preis kann wesentlich vom Kassapreis des dem Future-Kontrakt zugrunde liegenden Referenzwert abweichen*
As a result of the particular characteristics of futures trading, market phases may occur in trading in futures contracts, during which (against the expectation of the investors) there is **no** close correlation between the development of the price of the futures contract and the development of the cash price of the reference value underlying the futures contract. Moreover, there may be market phases in which the price behaviour of the futures contract on the futures market is **uncorrelated** with the price behaviour of the asset on the cash market. There is therefore a risk that (contrary to the investor's expectations) the price of the futures contract does not develop in the same way as the cash price of the reference value underlying the futures contract. If the price of the futures contract develops negatively as a result, the risks identified in section 2.3.1. may occur. This can lead to a **loss** in relation to the Securities.	Im Handel mit Futures-Kontrakten können sich aufgrund der Eigenheiten des Terminhandels Marktphasen ergeben, in denen (entgegen der Erwartung des Anlegers) **keine** hohe Korrelation zwischen der Preisentwicklung des Futures-Kontraktes und der Kassakursentwicklung des dem Futures-Kontrakt zugrunde liegenden Referenzwerts besteht. Es können überdies Marktphasen auftreten, in denen das Preisverhalten des Futures-Kontraktes am Terminmarkt mit dem Preisverhalten des Wertes am Kassamarkt **unkorreliert** ist. Es besteht daher das Risiko, dass sich der Preis des Futures-Kontrakt (entgegen der Erwartung des Anlegers) nicht so entwickelt wie der Kassakurs des dem Futures-Kontraktes zugrunde liegenden Referenzwerts. Sofern sich der Preis des Futures-Kontrakts dadurch negativ entwickelt, können die in Abschnitt 2.3.1. aufgezeigten Risiken eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere.
(f) Risks relating to Currency Exchange Rates as the Underlying	***(f) Risiken im Zusammenhang mit Wechselkursen als Basiswert***
If investors invest in Securities with a Currency Exchange Rate as the Underlying, they bear similar risks as in the case of a direct investment in that currency exchange rate.	Investieren Anleger in Wertpapiere mit einem Wechselkurs als Basiswert, tragen sie ähnliche Risiken wie bei einer Direktanlage in diesen Wechselkurs.
In the case of Securities linked to Currency Exchange Rates as the Underlying, the determination of whether an Intraday Adjustment and, if applicable, a Price Event has occurred is based on the prices quoted on the international interbank spot market. An Intraday Adjustment or Price Event (with the risks set out in 2.3.1.) can therefore occur at any time during global trading on these markets.	Für die Feststellung des Eintritts eines Anpassungsereignisses und falls anwendbar eines Kursereignisses wird bei Wertpapieren, die sich auf Wechselkurse als Basiswert beziehen, auf die am internationalen *Interbank Spot Market* festgestellten Kurse abgestellt. Ein Anpassungsereignis oder Kursereignis (mit den in 2.3.1. dargestellten Risiken) kann folglich zu jeder Zeit während des weltweiten Handels an diesen Märkten eintreten.
Currency exchange rates are derived from supply and demand for currencies on the international currency markets which are subject to a variety of economic factors, such as the rate of inflation in the particular country, differences in interest rates compared with other countries, the expected performance of the relevant economy, the global political situation, the convertibility of one currency into another, the security of monetary deposits in the respective currency and actions taken by governments and central banks (e.g., exchange controls and restrictions). In addition to these factors which can be assessed, however, other factors which are difficult to predict may be relevant, for example factors of a psychological nature such as crises of confidence in the political	Wechselkurse leiten sich aus dem Angebot und der Nachfrage nach Währungen an den internationalen Devisenmärkten her, die verschiedenen Wirtschaftsfaktoren unterliegen, wie z.B. der Inflationsrate des jeweiligen Landes, Zinsdifferenzen zum Ausland, der Einschätzung der jeweiligen Konjunkturentwicklung, der weltpolitischen Situation, der Konvertierbarkeit einer Währung in eine andere, der Sicherheit der Geldanlage in der jeweiligen Währung und von Regierungen und Zentralbanken ergriffenen Maßnahmen (z.B. Wechselkontrollen und -beschränkungen). Neben diesen abschätzbaren Faktoren können aber Faktoren relevant sein, die kaum einschätzbar sind, so zum Beispiel Faktoren psychologischer Natur wie

leadership of the country or other speculative considerations. Psychological elements of this nature can also have a significant effect on the value of the particular currency. These factors may be reflected accordingly in currency exchange rates and therefore have an unfavourable impact on the value of Securities with currency exchange rates as the Underlying. Consequently, the risks identified in section 2.3.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.	Vertrauenskrisen in die politische Führung eines Landes oder andere Spekulationen. Auch solche Komponenten psychologischer Natur können einen erheblichen Einfluss auf den Wert der entsprechenden Währung ausüben. Diese Faktoren können sich entsprechend in den Wechselkursen widerspiegeln und sich damit nachteilig auf den Wert der Wertpapiere mit Wechselkursen als Basiswert auswirken. Folglich können die in Abschnitt 2.3.1. aufgezeigten Risiken mit einer höheren Wahrscheinlichkeit eintreten. Dies kann zu einem **Verlust** in Bezug auf die Wertpapiere führen.
2.3.5. Risks relating to the pricing and tradability of the Securities	**2.3.5. Risiken im Zusammenhang mit der Handelbarkeit und der Preisbildung der Wertpapiere**
(a) Market price risks	***(a) Marktpreisrisiko***
During the term of the Securities, the price of the Securities may vary significantly, because the price of the Securities depends not only on the creditworthiness of the Issuer and of the Guarantor, but also essentially on the value of the Underlying and the design of the Security (see in particular the 2.3.1. and 2.3.4.). This may result in the value of the Securities falling below the Capital Amount paid by for the purchase of the Securities.	Während der Laufzeit der Wertpapiere kann der Preis der Wertpapiere erheblich schwanken, da deren Preis nicht nur von der Kreditwürdigkeit der Emittentin und der Garantin, sondern im Wesentlichen vom Wert des Basiswerts und der Ausgestaltung des Wertpapiers abhängt (siehe hierzu insbesondere die in Abschnitt 2.3.1. und 2.3.4. dargestellten Risiken). Dies kann dazu führen, dass der Wert der Wertpapiere unter den Kapitalbetrag fällt, den Anleger für den Kauf der Wertpapiere bezahlt haben.
If Securityholders sell their Securities, they must take account that the sale proceeds generated in any particular case may be substantially lower than the Capital Amount paid by the Securityholder for the purchase of the Securities.	Sollten Wertpapierinhaber ihre Wertpapiere verkaufen, müssen sie damit rechnen, dass der jeweils erzielte Verkaufserlös erheblich unter dem Kapitalbetrag liegen kann, den Wertpapierinhaber für den Kauf der Wertpapiere bezahlt haben.
As the performance of the Securities is not certain at the time of their purchase due to their dependence on the performance of the Underlying and the structure of the Security, investors will have to bear any **losses** in value during the term. The more negative the value of the securities, the greater the investor's loss.	Da die Wertentwicklung der Wertpapiere aufgrund ihrer Abhängigkeit von der Wertentwicklung des Basiswerts und der Ausgestaltung des Wertpapiers zum Zeitpunkt ihres Kaufs nicht feststeht, haben Anleger etwaige **Wertverluste** während der Laufzeit zu tragen. Je negativer sich der Wert der Wertpapiere entwickelt, desto größer ist der Verlust des Anlegers.
(b) Liquidity risks	***(b) Liquiditätsrisiko***
Investors bear the risk that there will not be a liquid market for trading in the Securities, due to the structured component of the Securities and their dependence on the Underlying. This means that they may not be able to sell the Securities at a time of their choosing or are forced to sell at a later date at potentially lower prices.	Anleger tragen das Risiko, dass es aufgrund der strukturierten Komponente der Wertpapiere und ihrer Abhängigkeit vom Basiswert keinen liquiden Markt für den Handel mit den Wertpapieren gibt. Das bedeutet, dass sie die Wertpapiere nicht zu einer von ihnen bestimmten Zeit verkaufen können bzw. gezwungen sind, zu einem späteren Zeitpunkt zu möglicherweise schlechteren Preisen zu verkaufen.

A listing of the Securities on an exchange can never be guaranteed. If a listing does not exist, purchases and sales of the Securities are significantly difficult or in practice impossible. Even if the Securities are listed, the derivative structure of the Securities may result in low turnover on the respective exchange, which makes it difficult to sell the Securities at a favourable price and, as a result, create an illiquid market for the Securities.	Eine Börsennotierung der Wertpapiere kann zu keinem Zeitpunkt zugesichert werden. Sollte eine Börsennotierung nicht bestehen, sind der Kauf und der Verkauf der Wertpapiere erheblich erschwert oder faktisch unmöglich. Aber selbst im Falle einer Börsennotierung können sich aufgrund der derivativen Struktur der Wertpapiere niedrige Umsätze an der betreffenden Börse ergeben; der Verkauf der Wertpapiere zu einem günstigen Preis kann sich erschweren und sich im Ergebnis ein illiquider Markt für die Wertpapiere herausbilden.
If investors are forced to sell the Securities in an illiquid market, there is a risk of a small value for them to be redeemed and to suffer a corresponding **loss**. The more illiquid the market, the more likely it is that the prices raised do not reflect the actual value of the Securities.	Sind Anleger gezwungen, in einem illiquiden Markt die Wertpapiere zu verkaufen, so besteht das Risiko einen geringen Wert für diese zu erlösen und einen entsprechenden **Verlust** zu erleiden. Je illiquider der Markt, desto größer die Wahrscheinlichkeit, dass die aufgerufenen Preise nicht den eigentlichen Wert der Wertpapiere reflektieren.
(c) Determination of secondary market prices for the Securities / pricing risks	***(c) Bestimmung der Preise der Wertpapiere im Sekundärmarkt / Risiken bei der Preisbildung***
Securityholders bear the risk that they may not be able to sell the Securities at a particular time or at a particular price, since the Securities are structured securities and, as a result, the formation of prices in the secondary market is different compared to plain bonds.	Wertpapierinhaber tragen das Risiko, dass sie die Wertpapiere nicht zu einer bestimmten Zeit oder zu einem bestimmten Kurs verkaufen können, da es sich bei den Wertpapieren um strukturierte Wertpapiere handelt und aufgrund dessen die Preisbildung im Sekundärmarkt sich im Vergleich zu einfachen Anleihen unterscheidet.
Thus, in normal market conditions, Société Générale (the "**Market Maker**") regularly quotes buying and selling prices for the Securities (the "**Market Making**"). The Market Maker may also be an affiliated company of Société Générale or another financial institution. However, the Market Maker does not guarantee that the prices it quotes are appropriate. Equally, the Market Maker provides no guarantee that prices will be available for the Securities at all times during their entire term. The prices set by the market maker may therefore differ significantly from the fair or economically expected value of the Securities	So stellt die Société Générale (der "**Market Maker**") unter gewöhnlichen Marktbedingungen regelmäßig Ankaufs- und Verkaufskurse für die Wertpapiere (das "**Market Making**"). Market Maker kann auch ein mit der Société Générale verbundenes Unternehmen oder eine andere Finanzinstitution sein. Der Market Maker garantiert allerdings nicht, dass die von ihm genannten Kurse angemessen sind. Ebenso wenig garantiert der Market Maker, dass während der gesamten Laufzeit jederzeit Kurse für die Wertpapiere verfügbar sind. Die vom Market Maker gestellten Kurse können daher erheblich vom fairen oder vom wirtschaftlich zu erwartendem Wert der Wertpapiere abweichen.
The Market Maker may also change the method it uses to determine the prices quoted at any time in its discretion. For example, the Market Maker may modify its calculation model and/or increase or reduce the bid/offer spread. Moreover, in the event of market disruptions or technical problems, the availability of the electronic trading system used may be restricted or suspended. In the case of abnormal market conditions or extreme price fluctuations on the securities	Auch kann der Market Maker nach seinem Ermessen jederzeit die Methodik ändern, nach der er die gestellten Preise festsetzt. So kann der Market Maker beispielsweise seine Kalkulationsmodelle ändern und/oder die Spanne zwischen Kauf- und Verkaufskursen vergrößern oder verringern. Außerdem kann bei Marktstörungen oder technischen Problemen die Verfügbarkeit des benutzten elektronischen Handelssystems eingeschränkt oder eingestellt

markets, the Market Maker will not generally provide bid and offer prices. Securityholders therefore bear the risk that in some circumstances they will have no quoted price for their Securities. This means that Securityholders will not be able to sell their Securities in the market at an appropriate price in all situations.	werden. Bei außergewöhnlichen Marktbedingungen oder bei extremen Preisschwankungen an den Wertpapiermärkten stellt der Market Maker regelmäßig keine Ankaufs- bzw. Verkaufskurse. Wertpapierinhaber tragen also das Risiko, dass ihnen unter bestimmten Bedingungen kein Preis für ihr Wertpapier genannt wird. Das bedeutet, dass Wertpapierinhaber nicht in jeder Situation ihr Wertpapier im Markt zu einem angemessenen Preis veräußern können.
The opening hours of the market for the Securities may differ from the opening hours of the market for the respective Underlying. If the market for the Underlying is closed while the Securities are tradable, it may be necessary for the Market Maker to estimate the relevant price of the Underlying in order to determine the price of the relevant Security. Such estimates may deviate from the actual market price later established and may adversely affect the value of the Securities.	Die Öffnungszeiten des Marktes für die Wertpapiere können von den Öffnungszeiten des Marktes für den jeweiligen Basiswert abweichen. Ist der Markt für den Basiswert geschlossen, während die Wertpapiere handelbar sind, kann es erforderlich sein, dass der Market Maker den maßgeblichen Preis des Basiswerts schätzt, um den Preis der Wertpapiere festzustellen. Solche Schätzungen können von dem tatsächlich später festgestellten Marktpreis abweichen und sich nachteilig auf den Wert der Wertpapiere auswirken.
Conversely, the market for the Securities may be closed while the Underlying is being traded. Outside the opening hours of the market for the Securities, already placed client orders will not be executed (regardless of any changes in the Underlying or other price relevant parameters).	Umgekehrt kann der Markt für die Wertpapiere geschlossen sein, während der Basiswert gehandelt wird. Außerhalb der Öffnungszeiten des Marktes für die Wertpapiere kommen bereits platzierte Kundenorders nicht zur Ausführung (ungeachtet etwaiger Veränderungen im Basiswert oder sonstiger preisrelevanter Parameter).
Investors should also note: The issue size of the Securities specified in the Final Terms merely refers to the number of Securities offered (offer volume) and cannot be used as an indication of the volume of Securities actually issued or outstanding. In consequence, no conclusions can be drawn from the issue size specified about the liquidity of the Securities for the purposes of possible trading transactions.	Anleger sollten zudem beachten: Das in den Endgültigen Bedingungen genannte Emissionsvolumen der Wertpapiere bezeichnet lediglich die Anzahl der angebotenen Wertpapiere (Angebotsvolumen) und lässt keinen Rückschluss auf das Volumen der tatsächlich begebenen oder ausstehenden Wertpapiere zu. Daher können aus dem genannten Emissionsvolumen keine Rückschlüsse auf die Liquidität der Wertpapiere im Rahmen eines möglichen Handels gezogen werden.
Due to the specific structure of the Securities and the resulting complex pricing, an investor is highly dependent on the price formed by the Market Maker in the event of a sale of the Securities. In all these cases described in this section, there may be a **loss** on the part of the investor.	Aufgrund der besonderen Struktur der Wertpapiere und der sich daraus ergebenen komplexen Preisbildung ist ein Anleger im Falle eines Verkaufs der Wertpapiere in hohem Maße vom durch den Market Maker gebildeten Preis abhängig. In all den in diesem Abschnitt dargestellten Fällen kann es zu einem **Verlust** auf Seiten des Anlegers kommen.

(d) Risks from potential conflicts of interest	***(d) Risiken aus möglichen Interessenkonflikten***
(aa) Further transactions	*(aa) Weitere Transaktionen*
The Issuer and its affiliated companies may pursue interests that do not take into account the interests of the Securityholders or may conflict with them. This may occur in connection with carrying out further transactions, business relationships with the issuer of the Underlying or the exercise of other functions.	Die Emittentin und ihre verbundenen Unternehmen können Interessen verfolgen, die den Interessen der Wertpapierinhaber nicht berücksichtigen oder ihnen widersprechen. Dies kann im Zusammenhang mit der Durchführung weiterer Transaktionen, Geschäftsbeziehungen mit dem Emittenten des Basiswerts oder der Ausübung anderer Funktionen erfolgen.
The Issuer and its affiliated companies are active on a daily basis in the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions directly or indirectly related to the Securities for their own account or for the account of clients. In addition, the Issuer may conclude transactions relating to the respective Underlying. This applies in particular to the conclusion of so-called hedging transactions in relation to the Securities, in particular the hedging of the risk to Issuer from the derivative component of the Securities (i.e. the dependence of the securities on the underlying). Such transactions or hedging transactions may have a negative impact on the performance of the Underlying. They may also adversely affect the value and/or the tradability of the Securities. In this context, the Issuer may pursue economic interests that conflict with the interests of the investors.	Die Emittentin und ihre verbundenen Unternehmen sind täglich an den internationalen und deutschen Wertpapier-, Devisen-, Kreditderivate- und Rohstoffmärkten tätig. Sie kann daher für eigene Rechnung oder für Kundenrechnung Geschäfte mit direktem oder indirektem Bezug auf die Wertpapiere abschließen. Weiterhin kann die Emittentin Geschäfte in Bezug auf den jeweiligen Basiswert abschließen. Dies gilt insbesondere für den Abschluss von sogenannten Absicherungsgeschäften in Bezug auf die Wertpapiere, insbesondere der Absicherung des sich für die Emittentin ergebenden Risikos aus der derivativen Komponente der Wertpapiere (d.h. der Abhängigkeit der Wertpapiere vom Basiswert). Solche Geschäfte bzw. Absicherungsgeschäfte können sich negativ auf die Wertentwicklung des Basiswerts auswirken. Sie können sich auch negativ auf den Wert und/oder die Handelbarkeit der Wertpapiere auswirken. Dabei kann die Emittentin wirtschaftliche Interessen verfolgen, die den Anlegerinteressen widersprechen.
The value of the Securities may also be affected by the unwinding of some or all of these transactions and hedging transactions, respectively.	Der Wert der Wertpapiere kann ferner durch die Auflösung eines Teils oder aller dieser Geschäfte bzw. Absicherungsgeschäfte beeinträchtigt werden.
The Issuer and its affiliated companies may buy and sell Securities for its own account or for the account of third parties and may issue additional Securities. These transactions may reduce the value of the Securities. The launching of further, competing products on the market may adversely affect the value of the Securities. Due to the impairment of the Securities, the investor may suffer a **loss** on the sale of the Securities. The greater the impairment of the Securities, the greater the loss of the investor.	Die Emittentin und ihre verbundenen Unternehmen können Wertpapiere für eigene Rechnung oder für Rechnung Dritter kaufen und verkaufen sowie weitere Wertpapiere emittieren. Diese Geschäfte können den Wert der Wertpapiere mindern. Die Einführung weiterer, konkurrierender Produkte auf dem Markt kann den Wert der Wertpapiere beeinträchtigen. Aufgrund der Wertminderung der Wertpapiere kann der Anleger bei Veräußerung der Wertpapiere möglicherweise einen Verlust erleiden. Je größer die Wertminderung der Wertpapiere ist, desto größer ist der **Verlust** des Anlegers.

(bb) Business relationships	*(bb) Geschäftliche Beziehungen*
The Issuer and its affiliated companies may have a business relationship with the issuer of the Underlying. A business relationship of this kind may consist of advisory and trading activities, for example. The Issuer may take actions in this context which it considers appropriate to safeguard its own interests arising from this business relationship. In so doing, the Issuer is not obliged to have regard to the impact on the Securities or on the Securityholders.	Die Emittentin und ihre verbundenen Unternehmen können in einer Geschäftsbeziehung zum Emittenten des Basiswerts stehen. Eine solche Geschäftsbeziehung kann beispielsweise durch Beratungs- und Handelsaktivitäten gekennzeichnet sein. Die Emittentin kann dabei Maßnahmen ergreifen, die sie für angemessen hält, um ihre eigenen Interessen aus dieser Geschäftsbeziehung zu wahren. Dabei muss die Emittentin die Auswirkungen auf die Wertpapiere und auf die Wertpapierinhaber nicht berücksichtigen.
The Issuer may enter into or participate in transactions which influence the value of the Underlying. Since the value of the Securities is materially dependent on the fluctuations in the value of the Underlying, such business relationships with the issuer of the Underlying may adversely affect the value of the Securities and the investor may suffer a **loss**. The greater the impairment of the Securities, the greater the loss of the investor.	Die Emittentin kann Transaktionen durchführen und Geschäfte eingehen oder an diesen beteiligt sein, welche den Wert des Basiswerts beeinflussen. Da der Wert der Wertpapiere wesentlich von den Wertschwankungen des Basiswert abhängt, können solche Geschäftsbeziehungen zum Emittenten des Basiswerts den Wert der Wertpapiere negativ beeinflussen und der Anleger kann einen **Verlust** erleiden. Je größer die Wertminderung der Wertpapiere ist, desto größer ist der Verlust des Anlegers.
(cc) Information relating to the Underlying	*(cc) Informationen bezogen auf den Basiswert*
The Issuer and its affiliated companies may possess or obtain material, non-public information about the Underlying. The Issuer and its affiliated companies are under no obligation to disclose information of this nature to the Securityholders. Securityholders could therefore make wrong decisions in relation to the Securities which could result in a loss, up to and including the **total loss** of the Capital Amount invested, as a result of missing, incomplete or false information about the Underlying. The greater the impairment (Long) or increase in value (Short) of the Underlying, the greater the investor's loss.	Die Emittentin und ihre verbundenen Unternehmen können über den Basiswert wesentliche, nicht öffentliche Informationen besitzen oder einholen. Die Emittentin und ihre verbundenen Unternehmen sind nicht verpflichtet, den Wertpapierinhabern derartige Informationen offenzulegen. Aufgrund der spezifischen Abhängigkeit der Wertpapiere von der Wertentwicklung des Basiswert, können Wertpapierinhaber daher gegebenenfalls infolge fehlender, unvollständiger oder falscher Informationen über den Basiswert Fehlentscheidungen in Bezug auf die Wertpapiere treffen, die bis zu einem **Totalverlust** des Kapitalbetrags führen können. Je größer die Wertminderung (Long) bzw. Wertsteigerung (Short) des Basiswertes ist, desto größer ist der Verlust des Anlegers.
2.3.6. Risks arising from the taxation of the Securities or the Underlying	**2.3.6. Risiken aus der Besteuerung der Wertpapiere bzw. des Basiswerts**
(a) Risks relating to taxation of the Securities	***(a) Risiken aus der Besteuerung der Wertpapiere***
Tax laws and practice are subject to changes, which may take effect retroactively. This can have a negative effect on the value of the Securities and/or the market price of the Securities. The tax treatment of the Securities may change in comparison with their tax	Steuerrecht und -praxis unterliegen Veränderungen, möglicherweise mit rückwirkender Geltung. Dies kann sich negativ auf den Wert der Wertpapiere und/oder den Marktpreis der Wertpapiere auswirken. So kann sich die spezifische steuerliche Beurteilung der

treatment at the date of purchase of the Securities, for example. Therefore, due to the specific dependence of the Securities on the performance of the Underlying, Securityholders therefore bear the risk that they may make an incorrect assessment of the taxation of the income resulting from the purchase of the Securities. But there is also a possibility that the taxation of the income resulting from the purchase of the Securities may change to the disadvantage of the Securityholders.	Wertpapiere gegenüber ihrer Beurteilung zum Zeitpunkt des Kaufs der Wertpapiere ändern. Dies gilt gerade mit Blick auf derivative Wertpapiere und deren steuerliche Behandlung. Wertpapierinhaber tragen deshalb das Risiko, dass sie möglicherweise die Besteuerung der Erträge aus dem Kauf der Wertpapiere falsch beurteilen. Es besteht aber auch die Möglichkeit, dass sich die Besteuerung der Erträge aus dem Kauf der Wertpapiere zum Nachteil der Wertpapierinhaber verändert.
Securityholders bear the risk of changes in the specific tax treatment of the Securities. This may negatively affect the value of the Securities and the investor may suffer a corresponding **loss**. The stronger this negative effect, the greater the loss.	Wertpapierinhaber tragen das Risiko, dass sich die spezifische steuerliche Beurteilung der Wertpapiere ändert. Dies kann sich negativ auf den Wert der Wertpapiere auswirken und der Anleger kann einen entsprechenden **Verlust** erleiden. Je stärker dieser negative Effekt ist, desto größer ist möglicherweise der Verlust.
(b) Risks relating to the retention of U.S. withholding tax (FATCA)	***(b) Risiken im Hinblick auf einen Einbehalt der US-Quellensteuer (FATCA)***
It is not expected that the reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") will affect the amount of any payment received by an applicable clearing system. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It may also affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. To the extent any withholding tax under FATCA applies, Securityholders will <u>not</u> receive any payment in respect of this deduction to **compensate** for the deduction. This is because neither the Issuer nor any paying agent or any other person is under an obligation to make any such compensatory payment to the Securityholders. The Securityholders may therefore receive lower payments than expected in such circumstances.	Es ist nicht zu erwarten, dass die gesetzlichen Meldepflichten und eine mögliche US-Quellensteuer gemäß Section 1471 bis 1474 des U.S. Internal Revenue Code von 1986 ("**FATCA**") die Höhe, der von einem zuständigen Clearing System erhaltenen Zahlungen beeinträchtigen wird. Allerdings könnte FATCA Zahlungen an eine depotführende Stelle bzw. an Intermediäre in der nachfolgenden Zahlungskette zum Endanleger hin beeinflussen, wenn einer dieser depotführenden Stellen oder Intermediäre allgemein keine Zahlungen ohne US-Quellensteuerabzug gemäß FATCA erhalten kann. Darüber hinaus können Zahlungen an einen Endanleger dann beeinflusst werden, wenn dieser ein Finanzinstitut ist, das nicht zum Erhalt von Zahlungen ohne US-Quellensteuerabzug gemäß FATCA berechtigt ist, oder der Endanleger es versäumt, seinem Broker (oder einer anderen depotführenden Stelle oder einem Intermediär, von dem er Zahlungen erhält) entsprechende Informationen, Formulare, andere Dokumente oder Zustimmungen zur Verfügung zu stellen, ohne die eine Zahlung ohne US-Quellensteuerabzug gemäß FATCA nicht erfolgen kann. Anleger sollten daher die depotführenden Stellen oder Intermediäre sorgfältig auswählen (um sicherzustellen, dass diese die FATCA Vorschriften oder andere Bestimmungen oder Abkommen im Zusammenhang mit FATCA einhalten) und jeder depotführenden Stelle bzw. jedem Intermediär alle Informationen, Formulare, andere Dokumente oder Zustimmungen zur Verfügung stellen, die erforderlich sind, dass diese depotführende Stelle bzw. der Intermediär eine Zahlung ohne US-Quellensteuerabzug vornehmen kann. Anleger sollten ihre eigenen Steuerberater aufsuchen, um eine umfassende

	Aufklärung über FATCA und etwaige Auswirkungen von FATCA auf sie zu erhalten. Soweit eine US-Quellensteuer gemäß FATCA anfällt, werden Wertpapierinhaber für diesen Abzug keine Zahlung erhalten, die den Abzug **ausgleicht**. Denn weder die Emittentin noch eine Zahlstelle oder eine sonstige Person sind zu einer solchen Ausgleichszahlung an die Wertpapierinhaber verpflichtet. Daher erhalten Wertpapierinhaber in diesem Fall eventuell geringere Zahlungen als erwartet.
(c) Risks relating to the retention of U.S. withholding tax (Section 871(m) IRC)	***(c) Risiken im Hinblick auf einen Einbehalt der US-Quellensteuer (Section 871(m) IRC)***
U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "**Section 871(m) Regulations**") generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a "**Non-U.S. Holder**") with respect to certain financial instruments linked to U.S. equities, ETFs or indices that reference U.S. equities (the "**U.S. Underlying Equities**"). Certain Securities under this Base Prospectus are therefore potentially subject to U.S. withholding tax when referencing U.S. Underlying Equities.	Auf der Grundlage von Section 871(m) des U.S. Internal Revenue Code von 1986 wurden US-Steuerrichtlinien (U.S. Treasury regulations) erlassen (die "**Section 871(m) Regeln**"). Hiernach wird grundsätzlich eine Quellensteuer in Höhe von 30% auf an Nicht-U.S.-Inhaber (ein "**Nicht-U.S.-Inhaber**") in Bezug auf bestimmte Finanzinstrumente, die mit US-Aktien, ETFs oder Indizes, die US-Aktien referenzieren, verbunden sind (der "**US-Aktien-Basiswert**"), ausgeschüttete Dividendenäquivalente bzw. solche, die als ausgeschüttet gelten (im Sinne der einschlägigen Section 871(m) Regeln) erhoben. Bestimmte Wertpapiere unter diesem Basisprospekt unterliegen daher möglicherweise einer US-Quellensteuer, wenn sie sich auf einen US-Aktien-Basiswert beziehen.
For such Securities, if U.S. source dividend payments are made in respect of U.S. Underlying Equities, the Issuer intends to take any applicable tax obligation under Section 871(m) of the U.S. Internal Revenue Code of 1986 ("**IRC**") into account in its ongoing adjustment of the price of the Underlying by withholding at a rate of 30 percent on any dividend equivalents. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any such Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.	Bei solchen Wertpapieren beabsichtigt die Emittentin, jede einschlägige Steuerpflicht gemäß Section 871(m) des U.S. Internal Revenue Code von 1986 ("**IRC**") bei ihrer laufenden Anpassung des Basiswertpreises durch einen Einbehalt in Höhe von 30% auf alle Dividendenäquivalente zu berücksichtigen, falls US-Quellen-Dividenden in Bezug auf US-Aktien-Basiswerte ausgeschüttet werden. Da viele Zentralverwahrer keine Informationen hinsichtlich des wirtschaftlichen Eigentümers eines solchen Wertpapiers zur Verfügung stellen und die Emittentin auch nicht davon ausgeht, dass das Clearing System bzw. die Clearing-Systeme, die die Wertpapiere clearen, diese Informationen zur Verfügung stellt bzw. stellen, ist die Emittentin nicht in der Lage, einen reduzierten Einbehalt bezüglich dieser Wertpapiere in Ansatz zu bringen. Falls der wirtschaftliche Eigentümer unter einem Steuerabkommen einer geringeren Besteuerung unterliegt, kann es daher zu einer Überbesteuerung kommen, für die der wirtschaftliche Eigentümer möglicherweise keine Erstattung erhält. In diesen Fällen kann die Emittentin bei Ansprüchen aus dem Steuerabkommen oder auf Erstattung nicht helfen. Nicht-US-Anleger, die zu einem

	reduzierten Einbehalt berechtigt sind, sollten ihren Steuerberater wegen des Erwerbs der Wertpapiere aufsuchen.
2.3.7. Risks arising from adjustments and terminations	**2.3.7. Risiken, die sich aus Anpassungen und Kündigungen ergeben können**
(a) Adjustments	***(a) Anpassungen***
Securityholders bear the risk that the Securities may be adjusted.	Wertpapierinhaber tragen das Risiko, dass die Wertpapiere angepasst werden.
The terms and conditions specify certain events on the occurrence of which the terms and conditions may be adjusted.	In den Emissionsbedingungen sind bestimmte Ereignisse festgelegt, bei deren Eintritt die Emissionsbedingungen angepasst werden können.
Such so-called extraordinary events or adjustment events arise in particular with regard to events which have a specific impact on the underlying of the securities. For example, the following events should be mentioned: the determination of the listing of Underlying, the elimination of the Underlying or the elimination of the possibility for the Issuer to enter into the necessary hedging transactions in relation to the Underlying. However, adjustments to the security itself may also occur, such as legislative changes or tax events that have a negative impact on security. In the event that the terms and conditions are adjusted, the Securities continue to exist. These measures may result in a **loss** for the investor. The more negative the impact of the adjustments, the higher the potential loss for the investor.	Solche sog. außergewöhnlichen Ereignisse bzw. Anpassungsereignisse ergeben sich insbesondere mit Blick auf Ereignisse, welche spezifisch den Basiswert der Wertpapiere betreffen. Hierbei sind beispielsweise die folgenden Ereignisse zu nennen: Die Einstellung der Notierung des Basiswerts, der Wegfall des Basiswertes oder der Wegfall der Möglichkeit für die Emittentin, die erforderlichen Absicherungsgeschäfte in Bezug auf den Basiswert zu tätigen. Aber auch mit Blick auf das Wertpapier selbst kann es zu Anpassungsmaßnahmen kommen, wie z.B. bei Gesetzesänderungen oder Steuerereignissen, die sich negativ auf das Wertpapier auswirken. Im Fall einer Anpassung der Emissionsbedingungen werden die Wertpapiere fortgeführt. Durch diese Maßnahmen kann es zu einem **Verlust** beim Anleger kommen. Je negativer sich die Anpassungen auswirken, desto höher ist der mögliche Verlust für den Anleger.
(b) Termination risk	***(b) Kündigungsrisiko***
Securityholders bear the risk that the Securities may be terminated.	Wertpapierinhaber tragen das Risiko, dass die Wertpapiere gekündigt werden.
An ordinary termination can be exercised by the Issuer at its own discretion. An extraordinary termination may arise in particular where an adjustment of the terms and conditions as a result of an extraordinary event is not appropriate in relation to the Underlying (see the execution of this risk in section (a). This risk arises in particular from the derivative structure of the Securities and the dependence of the Securities on the Underlying.	Eine ordentliche Kündigung kann durch die Emittentin nach eigenem Ermessen ausgeübt werden. Eine außerordentliche Kündigung kann sich insbesondere dann ergeben, wenn eine Anpassung der Emissionsbedingungen in Folge eines außergewöhnlichen Ereignisses in Bezug auf den Basiswert nicht sachgerecht ist (siehe zu diesem Risiko die Ausführung im obigen Abschnitt a). Dieses Risiko ergibt sich insbesondere aus der derivativen Struktur der Wertpapiere und der Abhängigkeit der Wertpapiere vom jeweiligen Basiswert.
In the event of an ordinary or extraordinary termination of the Securities, the termination amount may be very low in some cases. It could be lower than the amount the Securityholders	Im Fall einer ordentlichen oder außerordentlichen Kündigung der Wertpapiere ist der Kündigungsbetrag unter Umständen sehr niedrig. Er ist möglicherweise niedriger als der Betrag,

would have received if the termination of the Securities had not taken place. Securityholders will incur a loss if the termination amount is less than the Capital Amount used to acquire the Securities. A **total loss** is also possible. The worse the performance of the security, the greater the risk of an investor's loss in the event of the termination of the Security.	den der Wertpapierinhaber erhalten hätte, wenn keine Kündigung der Wertpapiere erfolgt wäre. Der Wertpapierinhaber erleidet dann einen Verlust, wenn der Kündigungsbetrag unter dem für den Erwerb der Wertpapiere aufgewendeten Kapitalbetrag liegt. Auch ein **Totalverlust** ist möglich. Je schlechter die Wertentwicklung des Wertpapiers ist, desto größer ist das Risiko eines Verlustes des Anlegers im Falle einer Kündigung des Wertpapiers.
(c) Reinvestment risk	***(c) Wiederanlagerisiko***
Furthermore, Securityholders bear the risk that the Securities may be terminated at a time that is unfavourable from their point of view and therefore repaid early (reinvestment risk). This risk arises as a result of the termination risk presented in section (b). If the Securityholders may be expecting a further increase in the price of the Securities at precisely that time, this expectation may therefore no longer be fulfilled due to the ending of its term. In addition, in the event of such a termination, the amount to be paid by the issuer may be reinvested on less favourable market terms than applied at the date the Securities were purchased. This may mean that the overall return to be achieved may be significantly lower than the return expected on the Securities terminated. The investor may therefore suffer a **loss** in the reinvestment of the amount paid under the Securities. The less favourable the conditions of a reinvestment, the greater the loss.	Zudem trägt der Wertpapierinhaber das Risiko, dass das Wertpapier zu einem für ihn ungünstigen Zeitpunkt gekündigt und daher vorzeitig zurückgezahlt wird (sog. Wiederanlagerisiko). Dieses Risiko ergibt sich als Folge des in Abschnitt b) dargestellten Kündigungsrisikos. Sofern der Wertpapierinhaber zu diesem Zeitpunkt einen weiteren Kursanstieg der Wertpapiere erwartet, können diese Erwartungen aufgrund der Laufzeitbeendigung nicht mehr erfüllt werden. Zudem kann der im Falle einer solchen Kündigung von der Emittentin zu zahlendem Betrag möglicherweise nur zu ungünstigeren Marktkonditionen im Vergleich zum Zeitpunkt des Erwerbs der Wertpapiere wieder angelegt werden. Damit kann die insgesamt zu erzielende Rendite deutlich unter der erwarteten Rendite der gekündigten Wertpapiere liegen. Der Anleger erleidet daher möglicherweise einen **Verlust** bei der Wiederanlage des unter den Wertpapieren ausgezahlten Betrages. Je ungünstiger die Konditionen einer Wiederanlage sind, desto größer ist dieser Verlust.

3. GENERAL INFORMATION

3.1. Form and Publication

This document constitutes a base prospectus within the meaning of Article 8 (6) of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017, as amended ("**Prospectus Regulation**") (the "**Base Prospectus**").

Final terms and conditions of the offer (the "**Final Terms**") will be prepared for the Securities in each case. They contain the information that cannot be determined until the respective date of issue of Securities under this Base Prospectus.

This Base Prospectus shall be read together with

The business address of CSSF is: 283, route d'Arlon, 1150 Luxembourg, Grand Duchy of Luxembourg (telephone no.: +352 26 251 - 1).

Except the links in the section "3.7. Information incorporated by reference", the information on websites which are referred to in this Base Prospectus by means of hyperlinks is not part of the Base Prospectus and has not been reviewed or approved by CSSF.

The Base Prospectus has been notified to the competent authority in the Republic of Austria, Kingdom of Belgium, Czech Republic, Kingdom of Denmark, Republic of Finland, French Republic, Federal Republic of Germany, Hellenic Republic, Hungary, Republic of Ireland, Italian Republic, Kingdom of the Netherlands, Kingdom of Norway, Republic of Poland, Portuguese Republic, Romania, Slovak Republic, Kingdom of Spain; and Kingdom of Sweden.

The Base Prospectus was approved on 20 November 2026 and is valid until 20 November 2027. During this period, the Issuer will publish a supplement to the Base Prospectus without undue delay in accordance with Article 23 (1) of the Prospectus Regulation, if significant new factors arise in relation to

the information contained in the Base Prospectus or if material mistakes or material inaccuracies are noted. **The obligation to prepare a supplement in the event of significant new factors, material mistakes or material inaccuracies no longer applies if the Base Prospectus has become invalid.**

3.3. Responsibility Statement

SG Issuer as the Issuer (with its registered office in Esch-sur-Alzette, Grand Duchy of Luxembourg) and Société Générale as the Offeror and Guarantor (with its registered office in Paris, French Republic), assume responsibility for the information contained in the Base Prospectus in accordance with Article 11 (1) sentence 2 of the Prospectus Regulation in conjunction with Article 5 (1) Luxembourg Prospectus Law. They declare that, to the best of their knowledge, the information contained in the Base Prospectus is in accordance with the facts and that the Base Prospectus makes no omission likely to affect its import.

In connection with the issuance, sale and offer of the Securities, no person is authorised to disseminate any information or make any statements that are not contained in the Base Prospectus. The Issuer and the Offeror and Guarantor accept no responsibility of any kind for such information or statements from third parties that are not included in the Base Prospectus. Neither the Base Prospectus nor any other information provided in connection with the Securities should be regarded as a recommendation by the Issuer or the Offeror and Guarantor to purchase the Securities.

The information contained in the Base Prospectus relates to the date of the Base Prospectus and may be incorrect and/or incomplete as a result of changes that have occurred subsequently. The Issuer will publish significant new factors, material mistakes or material inaccuracies relating to the information contained in this Base Prospectus in accordance with Article 23 (1) of the Prospectus Regulation. Publication will be made in a supplement to the Base Prospectus. The Supplements are available as described in the last paragraph of Section "3.1. Form and Publication".

3.4. Final Terms

3.4.1. New Securities

For Securities that are offered publicly and/or admitted to trading on a regulated or other comparable market for the first time under this Base Prospectus (the "**New Securities**"), the Final Terms are prepared using the form of the Final Terms (see section "11. Form of Final Terms"). These Final Terms contains the applicable terms to an individual issue. Additionally, the filled-out terms and conditions will be attached to the Final Terms.

In the event of an increase of the issue size of New Securities, the additional Securities, as described in the previous paragraph, will be documented using the form of the Final Terms and the terms and conditions of this Base Prospectus. The additional Securities will form a single series economically with the Securities already issued (corresponding to the increased issue size), i.e. they have the same ISIN and the same features. If applicable and certain conditions are met, the Issuer can also carry out a "Reverse Split" (i.e. a consolidation) of the Securities.

3.4.2. Former Securities

For Securities that (i) were offered publicly and/or admitted to trading on a regulated or other comparable market for the first time under a Former Base Prospectus (see section "3.7.3. Former Base Prospectuses), (ii) whose characteristics are covered by the present Base Prospectus and (iii) which are not subject to a continuation of the public offering in accordance with section 3.5. (the "**Former Securities**"), the Final Terms are documented using the form of the Final Terms (see section "11. Form of Final Terms"). These Final Terms contain the applicable terms to an individual issue completed accordingly. Additionally, the filled-out product description will be attached to the Final Terms.

In the event of an increase of the issue size of Former Securities, the additional Securities, as described in the previous paragraph, will be documented using the form of the Final Terms and the product description. The additional Securities will form a single series economically with the Securities already issued (corresponding to the increased issue size), i.e. they have the same ISIN and the same features.

If applicable and certain conditions are met, the Issuer can also carry out a "Reverse Split" (i.e. a consolidation) of the Securities.

3.5. Continuation of the public offering of Securities

The Form of Final Terms for the purposes of the continuation of the public offering is contained in the Former Base Prospectuses. This information is incorporated by reference and forms part of this Base Prospectus (see section "3.7.3. Former Base Prospectuses").

In addition, Securities issued under the Former Base Prospectuses and for which the public offer is to be continued under this Base Prospectus are identified by the mention of their ISIN in section "12. ISIN List". The Final Terms of the Securities mentioned are published on the website www.warrants.com (here after entering the relevant ISIN in the search field of the country-specific website and then under "Documentation").

3.6. Third-Party Information

The Issuer confirms that information which has been sourced from third parties in this Base Prospectus has been accurately reproduced and that, as far as the Issuer is aware and was able to ascertain from the information published by that third party, no facts have been omitted which would render the reproduced information inaccurate or misleading.

In addition, reference may be made in the respective Final Terms to third-party websites with respect to information relating to the Underlying. As a source of information for the description of the Underlying, these websites may then refer in turn to websites whose contents may be used as a source of information for the description of the Underlying and as information about the development of the price of the Underlying. The Issuer gives no guarantee of the correctness of the contents and completeness of the data presented on these third-party websites. The information on the third-party websites is not part of this Base Prospectus, unless this information were incorporated by reference in this Base Prospectus.

3.9. Consent to the use of the Base Prospectus

The Issuer consents to the use of this Base Prospectus, any supplements, and the respective Final Terms as long as this Base Prospectus is valid and accepts responsibility for the contents of this Base Prospectus also with respect to subsequent resale or final placement of Securities by any financial intermediary to whom consent has been given to use this Base Prospectus.

Such consent may be given to all (general consent) or only individual (individual consent) financial intermediaries, as stated in the Final Terms, and the member states stated in the penultimate paragraph of Section "3.2. Approval and Notification". The member states for which the consent is given will be indicated in the relevant Final Terms.

Such Consent is subject to the condition that

- when using the Prospectus, each financial intermediary ensures that it complies with all applicable legal requirements and only offers the Securities subject to the selling restrictions in force; and
- consent to the use of the Prospectus is not withdrawn.

There are no further conditions.

If an offer is made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

If the Final Terms state that the consent to use the Base Prospectus is given to all financial intermediaries (general consent), any financial intermediary using the Base Prospectus must state on its website that it uses the Prospectus in accordance with the consent and the conditions attached thereto.

If the Final Terms state that the consent to use the Base Prospectus is given to one or more financial intermediaries (individual consent), any new information with respect to financial intermediaries unknown at the time of the approval of the Prospectus or the filing of the Final Terms will be published on the website www.warrants.com and can be viewed there.

5. DESCRIPTION OF THE GUARANTEE

5.1. Nature and scope of the Guarantee provided for the Securities

Société Générale (the "**Guarantor**") irrevocably and unconditionally guarantees to each Securityholder that, if for any reason, the Issuer does not pay any sum or amount payable by it to such Securityholder in respect of any Security (including any premium or other amounts of whatever nature or additional amounts which may become payable under any Security), as and when the same shall become due under any of the foregoing, the Guarantor will pay to such Securityholder on demand the amount payable by the Issuer to such Securityholder as if such payment was made by the Issuer in accordance with the Terms and Conditions of the Securities.

All references in this Guarantee to sums or amounts payable by the Issuer shall (if applicable) be to such sums and/or amounts as directly reduced, and/or in the case of conversion into equity, as reduced by the amount of such conversion, and/or otherwise modified from time to time resulting from the application of a Bail-in Power (as defined in the Terms and Conditions (General Terms)) by any Relevant Resolution Authority (as defined in the Terms and Conditions (General Terms)).

This Guarantee is a separate obligation and independent of the validity and enforceability of the obligations of the Issuer under the Securities. The intent and purpose of this Guarantee is to ensure that the Securityholders, under all circumstances and regardless of any factual and legal circumstances, motivations and considerations on the basis of which the Issuer may fail to effect payment, shall receive principal and interest and all other amounts payable pursuant to the Terms and Conditions of the relevant Securities on the due dates in accordance with the relevant Terms and Conditions.

All payments in respect of the Securities or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction (as defined in the Terms and Conditions (General Terms)), unless such withholding or deduction is required by law. In the event that any amounts are required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the Issuer or, as the case may be, the Guarantor shall (except in certain circumstances), to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Securityholder after deduction or withholding of such taxes, duties, assessments or governmental charges, will receive the full amount then due and payable, as more fully described in the Terms and Conditions. No additional amounts shall be paid for any withholding or deduction made pursuant to FATCA or Section 871(m) IRC.

The Guarantor's obligations under this Guarantee are and will remain in full force and effect until no sums remain payable under any Security. Any amendments to this Guarantee prejudicial to the interests of the Securityholders shall only apply to Securities issued after the date of such amendments. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Securityholder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

The Guarantee obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking senior preferred obligations, as provided for in Article L. 613-30-3 I 3° French Monetary and Financial Code (*Code monétaire et financier*, "**M&F Code**").

Such Guarantee obligations rank and will rank equally and rateably without any preference or priority among themselves and:

(a) *pari passu* with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the law no. 2016-1691 ("**Law**") on 11 December 2016;

(b) *pari passu* with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° M&F Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;

(c) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and

(d) senior to all present and future senior non-preferred obligations (as provided for in Article L. 613-30-3 I 4° M&F Code) and all present or future subordinated obligations and deeply subordinated obligations, of the Guarantor.

The Guarantor may deposit with the local court (*Amtsgericht*) in Frankfurt am Main principal or interest not claimed by the Securityholders within twelve months after the relevant date, even though such Securityholders may not be in default of acceptance of payment. If and to the extent that the deposit is effected, and the right of withdrawal is waived, the respective claims of such Securityholders against the Issuer shall cease. Relevant date in this context means the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Paying Agent (or, in the case of uncertificated securities, the Securityholders) on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with the Terms and Conditions.

This Guarantee is governed by and shall be construed in accordance with German law.

Place of performance shall be Frankfurt am Main, Federal Republic of Germany.

The Guarantor hereby appoints Société Générale, Frankfurt Branch as its authorised recipient (*Zustellungsbevollmächtigter*), the "**Authorised Recipient**") in Germany in respect of any proceedings and undertakes that in the event of Société Générale, Frankfurt Branch ceasing so to act, it will appoint another person as its Authorised Recipient for this purpose.

To the extent permitted by law, the regional court (*Landgericht*) in Frankfurt am Main shall have exclusive jurisdiction over all actions or other legal proceedings arising as a result of or in connection with this Guarantee.

20 November 2026 Société Générale

5.2. Information about the Guarantor

The description and the financial information of the Guarantor for the purpose of this Base Prospectus were incorporated by reference and form part of this Base Prospectus (see section"3.7.2. Guarantor").

5.2.1. Trend Information

Save as disclosed in section "4.10. Significant Changes in the financial position of Société Générale Group" (p. 8) of the First Supplement to the Registration Document Société Générale, there has been no material adverse change in the prospects of the Guarantor and its consolidated subsidiaries (taken as a whole) since 31 December 2025 and there has been no significant change in the financial performance of the group since 30 June December 2026.

The First Supplement to the Registration Document Société Générale is incorporated by reference and form part of this Base Prospectus (see section "3.7.2. Guarantor").

5.2.2. Legal and Arbitration Proceedings

Save as disclosed in the section "Note 9 - Information on risks and litigation" (p. 155–158) of the Second Amendment to the Universal Registration Document Société Générale 2026 - AMF, for a period covering the last twelve months, there have been no legal or arbitration proceedings relating to claims or amounts which are material in the context of the issue of Securities thereunder to which Société Générale is a party nor, to the best of the knowledge and belief of Société Générale, are there any pending or threatened governmental, legal or arbitration proceedings relating to such claims or amounts which are material in the context of the issue of Securities thereunder which would in either case jeopardise the Guarantor’s ability to discharge its obligations in respect of the Securities.

The Second Amendment to the Universal Registration Document Société Générale 2026 - AMF is incorporated by reference and form part of this Base Prospectus (see section "3.7.2. Guarantor").

5.2.3. Significant Changes in the financial position of Société Générale Group

There has been no significant change in the financial position of Société Générale Group since 30 June 2026.

6. GENERAL INFORMATION ON THE SECURITIES

6.1. Information about the Securities

6.1.1. General

(a) Type and class of the Securities

The Securities are non-equity securities. The content of the Securities and the rights and duties arising therefrom shall be governed by the laws of the Federal Republic of Germany.

The Securities may be structured in different variants. An explanation of the functionality of the different variants can be found in section "7. Description of the Securities" of this Base Prospectus. This section describes in particular how the value of the Securities is affected by the value of the Underlying.

The features of the Securities and further information on the individual issues can only be determined shortly prior to publication of the Final Terms. They will be specified and published in the Final Terms.

This includes the following information, for example:

- International Securities Identification Number (ISIN), other securities identification numbers and/or exchange codes;
- issue date (payment date);
- issue size;
- issue currency; and
- Underlying

No equity securities in the sense of Article 2 (b) of the Prospectus Regulation as according Article 8 (1) of the Prospectus Regulation will be issued/offered under this Base Prospectus. No securities will be issued under this Base Prospectus which would fall under Article 19 (3) of the Commission Delegated Regulation (EU) 2019/980 as amended implementing the Prospectus Regulation ("**Commission Delegated Regulation 2019/980**").

A Form of the Final Terms can be found in section "11. Form of Final Terms" of this Base Prospectus.

(b) Form of the Securities / Transferability

The Securities will be either issued in dematerialised form or represented by a global bearer security (the "**Global Security**"). In the case of Securities in dematerialized form the Final Terms will provide the name and the address of the entity in charge for keeping the records. The restrictions set out in section "8. Selling Restrictions" must be observed.

(aa) German Global Security

German Global Security will be represented by a Global Security. If so provided in the Final Terms, the Securities will be initially represented by a temporary global bearer security (the "**Temporary Global Security**"). This will then be exchanged for a permanent global bearer security (the "**Permanent Global Security**") following the presentation of certificates of non-U.S. ownership. The Temporary Global Security and the Permanent Global Security are referred to in the following as the Global Security.

The Global Security will be deposited with either

- Clearstream Europe AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany; or
- Clearstream Banking S.A., 42 Avenue JF Kennedy, 1855 Luxembourg, Grand Duchy of Luxembourg, together with Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, 1210 Brussels, Kingdom of Belgium; (each a "**Clearing System**").

The Clearing System is specified in the Final Terms. Definitive securities for the Securities will not be issued.

The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.

The Issuer reserves the right to convert the form of the securitisation into German Central Register Securities during the term.

(bb) German Central Register Security

If so provided in the Final Terms, the Securities will be evidenced as electronic securities (the "**Central Register Securities**") pursuant to § 4 (2) of the German Electronic Securities Act (*Gesetz über elektronische Wertpapiere*, "**eWpG**").

Generally, Clearstream Europe AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany, in its function as central securities depository, will maintain the central register for the Central Register Securities. Also, to the extent permitted by the provisions of the eWpG, another central securities depository may be selected as the registrar of Central Register Securities in the Final Terms. The relevant central securities depository shall be specified in the Final Terms (in each case a "**Clearing System**" or a "**Central Securities Depository**").

Central Register Securities are issued by entering them in the electronic central register maintained by the register-keeping agent and by previously depositing the Terms and Conditions for the Security with the register- keeping agent as a permanent electronic instrument. The central register is maintained by a register-keeping agent acting in the capacity of a Central Securities Depository. As a result of the maintenance of the central register by a Central Securities Depository, the Central Register Securities are entered into the book-entry system.

The Central Register Security is registered with the Central Securities Depository. The Central Securities Depository is entered in the central register as the holder (collective entry) and administers the Securities on a fiduciary basis for the respective creditors (beneficiaries (*Berechtigte*), as defined by the eWpG)). Central Register Securities in collective entry are deemed by law to be collective securities holdings. There is no right to individual entry in the name of a creditor. The Securities shall be transferred as a co-ownership interest in the collective securities holding in accordance with applicable law and the rules and regulations of the Clearing System.

The Issuer reserves the right to convert the form of the securitisation into a German Global Security during the term.

(cc) Italian Dematerialised Security

If so provided in the Final Terms, the Securities are issued in dematerialised book-entry form pursuant to the Italian Financial Services Act (*Testo Unico della Finanza*) and the relevant implementing regulations and are registered in the books of Monte Titoli S.p.A. with registered office in Piazza degli Affari 6, 20123 Milano, Italian Republic (the "**Clearing System**"). No physical document of title will be issued to represent the Securities.

The transfer of the Securities operates by way of registration on the relevant accounts opened with the Clearing System by any intermediary adhering, directly or indirectly, to the Clearing System.

(c) Status of the Securities

The Securities will constitute direct, unconditional, secured, limited recourse and unsubordinated obligations of the Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, secured, limited recourse and unsubordinated obligations of the Issuer, present and future.

(d) Guarantee

The payment obligations of the Issuer under the Terms and Conditions are guaranteed by an unconditional and irrevocable Guarantee of Société Générale.

(e) Limited Recourse

In the event of a payment default by the Issuer, of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Redemption Amount) on any such Security(ies) whenever such payment falls due (such payment defaults, a "**Defaulted Payments**"), the Securityholder cannot institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the Issuer (the "**Limited Recourse**").

For the avoidance of doubt the Limited Recourse is without prejudice to the Securityholder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments subject in all cases to the terms of the Guarantee.

Such Limited Recourse does not alter or impair the rights of the Securityholders to require the enforcement of the relevant Pledge Agreement pursuant to the provisions of the Secured-Specific Terms.

(f) Bail-in

(aa) If the Relevant Resolution Authority (as defined in the Terms and Conditions (Product-Specific Terms)) exercises its Bail-in Power (as defined in the Terms and Conditions (Product-Specific Terms)) on liabilities pursuant to Article L. 613-30-3 I 3° M&F Code of Société Générale ranking junior to liabilities of Société Générale that benefits from statutorily preferred exceptions pursuant to Article L. 613-30-3 I 1° and 2° M&F Code, and senior to liabilities as defined in Article L. 613-30-3 I 4° M&F Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Société Générale or another person, including by means of a variation of the terms and conditions to give effect to such exercise of Bail-in Power, then

(1) the Issuer's obligations to the Securityholders under the Securities shall be limited and reduced to the amounts of principal and/or interest that would be recoverable by the Securityholders and/or the value of the shares or other securities or other obligations of Société Générale or another person that would be delivered to the Securityholders if the Securities had been directly issued by Société Générale itself, and any obligations under the Securities had accordingly been directly subject to the Bail-in Power, and

(2) the Issuer shall be entitled to, in lieu of payment, request the Securityholders to seek payment, in whole or in part, of any amounts due under the Securities subsequent to the reduction and/or delivery of any shares or other securities or other obligations of Société Générale subsequent to conversion provided for at (1) above, directly from Société Générale under Société Générale's obligations.

If and to the extent that the Issuer requests the Securityholders to directly seek payment and/or delivery from Société Générale under Société Générale's Guarantee for the Issuer's obligations, the Issuer's liabilities under the Securities shall be deemed extinguished.

(bb) No repayment of the principal amount of the Securities or the payment of interest thereon (to the extent of the portion thereof affected by the exercise of the Bail-in Power) shall become due and payable after the exercise of any Bail-in Power by the Relevant Resolution Authority, unless such repayment or payment would be permitted to be made by Société Générale under the laws and regulations then applicable to Société Générale under its senior unsecured liabilities if Société Générale itself was the issuer of the Securities, and the Terms and Conditions shall be deemed to be modified accordingly.

(cc) Upon the Issuer becoming aware of the exercise of the Bail-in Power by the Relevant Resolution Authority on senior unsecured liabilities of Société Générale, the Issuer shall notify the

Securityholders in accordance with § 7 of the General Terms (and other parties that should be notified, if applicable). Any delay or failure by the Issuer to give notice shall not affect the effects on the Securities described in (aa).

(dd) The reduction or modification described in (aa) and (bb) above with respect to the Securities shall not constitute an event of default and the Terms and Conditions shall continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of the Securities, subject to any modification of the amount of interest payable to reflect the reduction of the principal amount and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or other investment firms domiciled in the French Republic.

(g) Payments under the Securities

Payments of amounts to the Securityholders shall be made on the relevant due date via the Clearing System specified in the Final Terms.

All taxes or charges that may be incurred in connection with the payment of the redemption amount shall be borne by the Securityholders. By making the payment to the Clearing System, the Issuer shall be released from its obligation under the Terms and Conditions.

(h) Calculation Agent

All calculations under the Securities shall be made by the calculation agent in accordance with the Terms and Conditions.

(i) Paying Agent

All payments under the Securities shall be made by the paying agent in accordance with the Terms and Conditions.

(j) Information about the Benchmarks Regulation

Amounts payable under these securities may be calculated with reference to one or more reference values (also referred to respectively as "**Benchmarks**") within the meaning of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, as amended ("**Benchmarks Regulation**"). In accordance with the first subparagraph of Article 29 (2) Benchmarks Regulation, the Final Terms will specify, for each relevant benchmark, whether it is provided by an administrator (the "**Administrator**") that is included in the register of administrators and benchmarks (the "**Benchmarks Register**") established and maintained by the European Securities and Markets Authority (the "**ESMA**") pursuant to Article 36 Benchmarks Regulation.

6.1.2. Term and Termination

The term of the Securities can be either limited or unlimited.

The Issuer may terminate the Securities ordinarily in accordance with the Terms and Conditions.

The Issuer may terminate the Securities extraordinarily in accordance with the Terms and Conditions (e.g., on the occurrence of certain extraordinary events).

6.1.3. Description of the rights arising from the Securities

A description of the rights of the Securityholders under the Securities can be found in section "7. Description of the Securities".

In the event of so-called Adjustment Events or Extraordinary Events, however, the Issuer is entitled to adjust the Terms and Conditions and thus the rights of the Securityholders arising from the Securities. The adjustment shall be made in such a way as to maintain, as far as possible, the economic situation of the Securityholders under the Securities. The events are specified in the respective Terms and Conditions.

6.2. Interests of natural and legal persons involved in the issue/offer of the Securities

6.2.1. Further Transactions

The Issuer and companies affiliated to it are active on a daily basis in the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions directly or indirectly related to the Securities for their own account or for the account of clients. In addition, the Issuer and companies affiliated to it may conclude transactions relating to the respective Underlying. When concluding these transactions, the Issuer and companies affiliated to it may act as if the Securities had not been issued.

In addition, the Issuer and companies affiliated to it may conclude transactions relating to the respective Underlying. Such transactions may have a negative impact on the performance of the Underlying. For the purpose of these transactions, the Issuer and companies affiliated to it may pursue economic interests which conflict with the interests of the investors.

They also include transactions entered into by the Issuer and companies affiliated to it in order to hedge their obligations arising from the Securities. The value of the Securities may also be affected by the unwinding of some or all of these hedging transactions.

The Issuer and companies affiliated to it may buy and sell Securities for their own account or for the account of third parties and may issue additional Securities.

6.2.2. Business Relationships

The Issuer and its affiliated companies may have a business relationship with the issuer of the Underlying. Examples of a business relationship of this kind include:

- the granting of a loan;
- custodian activities;
- activities in connection with managing risks; or
- advisory and trading activities.

This may adversely affect the value of the Securities.

The following applies in relation to the Securities: The Issuer and companies affiliated to it may take actions which they consider appropriate to safeguard their own interests arising from this business relationship. In so doing, the Issuer and companies affiliated to it are not obliged to have regard to the impact on the Securities or on the Securityholders.

The Issuer and companies affiliated to it may enter into or participate in transactions which influence the value of the Underlying. Such business relationships with the issuer of the Underlying may adversely affect the value of the Securities. This may result in a conflict of interest on the part of the Issuer.

6.2.3. Information relating to the Underlying

The Issuer and its affiliated companies may possess or obtain material, non-public information about the Underlying. The Issuer and its affiliated companies are under no obligation to disclose information of this nature to the Securityholders. Interested investors are therefore dependent on publicly available information for the purpose of analysing the respective Underlying.

6.2.4. Pricing

Société Générale or a company affiliated to it may act as Market Maker for the Securities.

The Market Maker is responsible for quoting prices for the Securities. The prices are then not formed directly by supply and demand. This distinguishes pricing for the Securities from trading on an exchange where prices are based on supply and demand. However, the Securities may be admitted to trading on trading venues on which the prices are based on supply and demand and on the quotes made by the Market Maker.

Société Générale or its affiliated companies may also act as Market Maker for the Underlying.

Market Making may have a significant effect on the price of the Underlying and therefore also on the value of the Securities. The prices quoted by the Market Maker will not always be the same as the prices that would have developed from liquid trading on an exchange. Prices quoted by the Market Maker in the secondary market are determined on the basis of the fair value of the Securities. The fair value of the Securities depends on the value of the Underlying, among other factors.

The Market Maker sets the spread between the bid and offer prices. The bid price is the price at which the Market Maker buys the Securities. The offer price is the price at which the Market Maker sells the Securities. The spread depends both on supply and demand for the Securities and also on particular income considerations. Certain costs are deducted when pricing the Securities over their term. The costs are not always distributed equally over the term, however. Costs may be deducted from the fair value of the Securities in their entirety at an early date specified by the Market Maker. The prices quoted by the Market Maker may therefore differ significantly from the fair value or expected economic value of the Securities. Furthermore, the Market Maker may at any time modify the method it uses to determine the prices quoted. For example, it may increase or reduce the spread between the bid and offer prices.

Its function as Market Maker both for the Securities and possibly also for the Underlying does not constitute an obligation on the part of the Issuer towards the Securityholders. In both cases, the Issuer or its affiliated companies may therefore cease to act as Market Maker at any time.

6.3. Reasons for the offer or admission to trading, use of proceeds and expenses of the issue/offer

The Securities are being offered and/or admitted to trading and the proceeds will be used solely for the purpose of generating profits in the context of the Issuer's general business activities. To the extent quantifiable, the estimated total expenses of the respective issue/offer of the Securities and the estimated net proceeds will be published in the relevant Final Terms.

The Redemption Amounts will be calculated on the basis of a price of the Underlying defined in the Terms and Conditions, but the Issuer has no obligation to the investors to invest the proceeds from the issue of the Securities in the Underlying. Securityholders have no ownership rights in the Underlyings or their constituents. The Issuer is free to determine how the proceeds from the issue of the Securities are used.

6.4. Disclosure of resolutions relating to the Securities

The issue of Securities has been duly authorised by a resolution of the management board of SG Issuer dated 16 October 2026.

6.5. Factors affecting the tax treatment of any income from the Securities

The tax legislation of the investor’s member state and the Issuer’s country of incorporation may have an impact on the income from the Securities.

The Issuer accepts no responsibility for the deduction or payment of taxes at source. **Interested investors are urgently recommended to consult their tax advisers about taxation in particular cases.**

Potential purchasers and sellers of the Securities should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Securities.

If a withholding or deduction is required by the respective tax jurisdiction and if the applicable Final Terms specify that the gross-up provision is not applicable, the Issuer will not be required to pay such additional amounts. In this case, neither the Issuer nor any Paying Agent nor any other person will be required to pay additional amounts to cover the amounts so withheld or deducted. Consequently, investors will receive such payments net of such withholding tax. In such case, investors should note

that they will take the risk of any applicable withholding tax and each Securityholder shall be responsible for supplying or filing (as applicable) in a timely manner any documentary evidence or forms as the investor may be entitled to and as may be required in order to obtain relief or reduction of taxes imposed by way of withholding or deduction on payments under the Securities.

In addition, neither the Issuer nor any Paying Agent nor any other person will be required to pay additional amounts to cover any amounts withheld or deducted on account of any United States withholding taxes, including taxes under FATCA and Section 871(m). Consequently, investors will receive payments net of any applicable United States withholding taxes.

Withholding Tax in Luxembourg

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Securities. The information contained herein is limited to Luxembourg withholding tax issues and prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Securities.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present herein to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Non-resident holders of Securities issued by SG Issuer

Under Luxembourg general tax laws currently in force, there is no Luxembourg withholding tax on payments of principal, premium or interest made to non-resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of the Securities.

Resident holders of Securities issued by SG Issuer

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended ("**Relibi Law**"), there is no Luxembourg withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by Luxembourg resident holders of the Securities.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

6.6. Information about the Underlying

The rate, level or price of the respective Underlying of the Securities is the primary factor affecting the value of the Securities.

During the term of the Securities, Securityholders participate in principle in both positive and negative movements in the price of the respective Underlying.

In particular, the level of the Redemption Amount of the Securities normally depends on the rate, level or price of the Underlying on the relevant Valuation Date.

6.6.1. General description of the Underlying

The Securities described in the Base Prospectus may be linked to the performance of shares, ETF shares, indices, futures contracts or currency exchange rates.

The Securities are linked for this purpose to a single Underlying, as specified in the Final Terms, for example a single share or a single index.

If the Securities are linked to the performance of an Index provided by the Issuer or any other legal entity belonging to the Société Générale group, and such legal entity or natural person is not included in the Benchmarks Register as Administrator, this Base Prospectus contains in the section "Description of SGI Indices" in accordance with Commission Delegated Regulation (EU) No 2019/980, an index description.

If the Securities are linked to the performance of an Index provided by a legal entity, or by a natural person acting in association with, or on behalf of, the Issuer, and such legal entity or natural person is not included in the Benchmarks Register as Administrator

- the complete set of rules of the index and information on the performance of the index are freely accessible on the website www.sgindex.com or on the index provider's website; and
- the governing rules (including methodology of the index for the selection and the re-balancing of the components of the index, description of market disruption events and adjustment rules) are based on pre-determined and objective criteria.

The respective Underlying is published in the relevant Final Terms. Sources of further information, including whether or not that information is available free of charge, can also be found in the relevant Final Terms.

The Issuer does not intend to provide any further information about the Underlying or Underlyings after the issue of the Securities.

6.6.2. Disruption Events relating to the Underlying

Suspensions or restrictions of trading or other disruptions relating to the Underlying (as described in detail in the Final Terms in relation to the respective Underlying; respectively a "**Disruption Event**") may affect the price of the Underlying. A Disruption Event may also affect the calculation of the level of the Redemption Amount as a result. A Disruption Event occurs, for example, if the price of the Underlying cannot be determined on a Valuation Date. The consequence of such a Disruption Event may be that a substitute price is calculated for the relevant Underlying, for example. The specific provisions applicable to an Underlying to correct the effects of a Disruption Event are specified in the Terms and Conditions.

6.6.3. Adjustments to the Terms and Conditions due to events affecting the Underlying

Certain events may have a material impact on the determination of the price of the Underlying specified in the Terms and Conditions.

The following represent examples of adjustment events:

- capital increases for capital contributions;
- the final discontinuation of the exchange listing of the Underlying;
- the discontinuation of the calculation or publication of an index; or
- other events which make it impossible to determine the Reference Price. They also include e.g., events which mean that the Underlying is no longer determined and published on a regular basis (respectively an "**Adjustment Event**").

If an Adjustment Event occurs, the adjustment rules provided for in the Terms and Conditions are applied. The definitions of Adjustment Events are specified in the Terms and Conditions.

6.7. Conditions for the offer of Securities

6.7.1. Offer of Securities

The Securities issued by the Issuer will be underwritten by Société Générale (legal entity identifier (LEI): O2RNE8IBXP4R0TD8PU41), telephone: +33 (0)1 42 14 20 00, domiciled in Paris, French Republic)

(the "**Offeror**") subject to an agreement dated 4 June 2021. The Offeror will offer the Securities to potential investors.

The applicable Final Terms will state whether or not the Securities will be publicly offered. The details of the offer and sale, in particular the relevant Payment Date, start of the offering, the relevant offer/issue size as well as the relevant initial issue price with regard to each issue hereunder will be set out in the relevant Final Terms.

6.7.2. Potential Investors, Categories of Investor

The Securities may be offered to retail investors, institutional investors and/or other qualified investors, subject to the restrictions presented in section "8. Selling Restrictions".

The countries where the offer take place (each an "**Offer Country**") will be stated in the respective Final Terms.

6.7.3. Issue Price of the Securities, Pricing

(a) Disclosure of the price at which the Securities are offered (Initial Issue Price)

The initial issue price per Security is normally stated in the Final Terms. The selling price or, in the case of continuous public offers, the continuous offer prices of the Securities are subsequently determined on an ongoing basis.

The initial offer price and, in the case of continuous public offers, the continuous offer prices of the Securities are based on the internal pricing models of Société Générale. In addition to a front-end fee and placement commission, the initial offer price may also include an expected margin that is not apparent to investors. This margin will be collected by Société Générale. In principle, this margin may include costs that Société Générale has incurred or is yet to incur, in particular costs for structuring the Securities, hedging risk, and selling the Securities. The Final Terms state the amount of the Issuer's costs included in the initial issue price for the Securities, where known to the Issuer.

Contractual partners of the persons or entities purchasing the Securities issued by the Issuer may receive benefits for selling those Securities. Such contractual partners may also receive any front-end fee charged. In addition, the contractual partners of the purchaser may receive benefits in the form of payments in kind for selling the Securities.

(b) Other costs and taxes that may be charged to the subscriber or purchaser

The Issuer and/or Offeror will not charge purchasers any costs other than the above issue, subscription and/or selling prices. Information on other costs and taxes that may be charged or levied by online banks, investors' own banks or the given trading venue must be obtained from those sources.

6.7.4. Delivery of the Securities

The Securities will be delivered by depositing them in the Clearing System on the Payment Date specified in the respective Final Terms. Upon purchase after the Payment Date, the Securities will be delivered in accordance with applicable local market practice.

Definitive certificates for the Securities will not be issued.

6.8. Admission of the Securities to trading and trading rules

Application may be made to have the Securities admitted to trading on a regulated market or a multilateral trading facility (a "**MTF**") (each within the meaning of Directive 2014/65/EU (MiFID II) in the European Economic Area (a "**EEA Trading Venue**").

However, the Securities may be offered without being admitted to trading on an EEA Trading Venue.

6.8.1. Admission of the Securities to trading

If applicable, the Final Terms will disclose any EEA Trading Venue where the Securities will be admitted to trading. The Final Terms will also state the earliest date on which the Securities will be admitted to trading, if known, as well as the total amount of Securities being admitted to trading (the "**Trading Size**").

In addition, the Final Terms will disclose all EEA Trading Venues on which Securities of the same category are already admitted to trading.

The Final Terms will state any application or intention to apply for the Securities to be admitted to trading on another EEA Trading Venue, even as a potential secondary listing. In this case, the Final Terms will also name the respective trading venue and, if known, the date on which the Securities were or are expected to be included in trading on such market or trading system.

The Securities may be admitted to trading on the following EEA Trading Venues:

Or on any other EEA Trading Venue as it will be specified in the Final Terms.

The trading venues asterisk in the above enumeration are regulated markets.

Even if the Offeror files the application for admission to trading, there is no guarantee that it will be granted. Nor is there a guarantee of active trading in the Securities. The Issuer is under no obligation to ensure that the Securities remain admitted to trading over their term.

6.8.2. Name and address of intermediaries in secondary trading

If the Issuer or a third party engaged by it can act as market maker for the Securities, that market maker will quote bid (buy) and ask (sell) prices under normal market conditions during the normal trading hours of the Securities in accordance with the rules and regulations of the given trading venue(s) for the purposes of securing liquidity for the respective Security. If the Issuer appoints intermediaries in secondary trading, the name and address of the respective institutions acting as intermediaries in secondary trading pursuant to a binding commitment will be published in the Final Terms, giving a description of the primary provisions of their commitment.

6.9. Post-Issuance Information

The Issuer does not intend to provide post-issuance information in relation to the Securities, unless the Terms and Conditions expressly provide for notices to be published in specific cases. This applies, for example, if adjustments are made. In such cases, the information will be published on the website(s) specified in the Final Terms or any respective successor website.

6.10. Credit Ratings of the Securities

The Securities described in the Base Prospectus are not rated.

7. DESCRIPTION OF THE SECURITIES

This section details the operation of the Securities that may be issued under the Base Prospectus.

The potential Securities operate differently depending on the variant of Security, which are categorised as follows:

- Leveraged ETPs Long
- Leveraged ETPs Short

The Securities could be issued with limited term of with unlimited term.

7.1. General Information on Leveraged ETPs

The following descriptions of the Securities outline several variants of Leveraged ETPs. The relevant features of the Securities are given in the Terms and Conditions set out in the Final Terms.

7.1.1. Effect of the Underlying on the Performance of the Leveraged ETPs

The Securities are linked to an Underlying, which can be a share, an ETF share, an index, a futures contract or a currency exchange rate. The Underlying is specified in the Final Terms.

During their term, the price of the Securities depends on the performance of the respective Underlying.

A distinction is drawn between Long and Short Securities. The following examples assume that the price of the Underlying changes while all other factors influencing the price of the Security remain unchanged. The price of the Leveraged ETP Long normally increases when the value of the Underlying **increases**. Conversely, the price of the Leveraged ETP Long normally decreases when the value of the Underlying **decreases**. The situation is different for Leveraged ETPs Short: the price of the Leveraged ETP Short normally increases when the value of the Underlying **decreases**. Conversely, the price of the Leveraged ETP Short normally decreases when the value of the Underlying **increases**.

However, a number of other factors influence the price of the Securities (for details see 7.2.2. and 7.2.3.).

7.1.2. Redemption of the Leveraged ETPs

In the case of Limited Leveraged ETPs, the Securities are called for redemption automatically on the last day of their Call Period. Beside this, payment of the Redemption Amount is subject to the condition that the Security in question has previously been called for redemption by the holder in accordance with the Terms and Conditions.

In the case of Unlimited Leveraged ETPs, the Securities, at no point in time, provide for automatic payment of the Redemption Amount evidenced by the Securities. In principle, payment of the Redemption Amount is subject to the condition that the Security in question has previously been called for redemption by the holder in accordance with the Terms and Conditions.

What the Securityholder receives upon call for redemption depends on the NPV on the relevant Valuation Date, which is essentially determined by the Reference Price of the Underlying on the Valuation Date and any previously determined Reference Price, and any Calculation Fee and Collateral Fee applied.

The payment of the Redemption Amount is usually made within a period of between two and five Business Days after the Valuation Date. If on a Valuation Date no Reference Price of the Underlying is determined, the Valuation Date is postponed. The day may then also be postponed, on which the Redemption Amount is paid to the Securityholder.

There may be an exception in the cases described in 7.2.5.

7.1.3. Reference Price and Price of the Underlying

Each Reference Price determined during the term of the Security is the deciding factor in determining the amount of payments to Securityholders. The Final Terms specify which price of the Underlying is

used as the Reference Price. For example, they may provide for the relevant Reference Price to be determined as the closing price of a share on a stock exchange specified in the Terms and Conditions.

7.1.4. Adjustments, Ordinary Termination and Extraordinary Termination

The Terms and Conditions of all Securities specify certain adjustment events whose occurrence may trigger an adjustment to the Terms and Conditions. The Issuer will adjust the Terms and Conditions in such manner that the economic position of the Securityholder is the same as before the adjustment event to the extent possible. The adjustment events depend on the type of Underlying.

Examples of adjustment events include the cessation of the Underlying or the discontinuation of its listing, changes in laws or taxation events. Another adjustment event may arise if the Issuer is no longer able to enter into the necessary hedges.

In the case of "termination events", the Issuer is also entitled to terminate the Securities extraordinarily and to redeem them at the termination amount determined in accordance with the Terms and Conditions. The termination events are specified in the respective Terms and Conditions. These extraordinary termination rights will be exercised, for example if changes occur to the relevant underlying of the Securities which make it impossible in the opinion of the Calculation Agent to adjust the Terms and Conditions in a way which makes sense from a financial point of view or if the price quotation of the Underlying was cancelled without replacement.

In the event of extraordinary termination, the Securityholders lose all of their rights arising from the Securities, except for their claim to payment of the termination amount determined in accordance with the Terms and Conditions. There is even a risk that the termination amount paid will be equal to 0 (zero). In this event, the Securityholders will incur a total loss of the Capital Amount paid for the purchase of the Securities. The following is an example of such a case: The company whose shares form the underlying for the respective Security becomes insolvent. The share becomes worthless as a result. There is no question of making an adjustment to the Terms and Conditions in this case. The Issuer will therefore terminate the Security extraordinarily in this event. The Securityholders will suffer a total loss.

In addition, the Terms and Conditions provide for the possibility of an ordinary termination by the Issuer.

7.1.5. Currency Conversion

The Terms and Conditions of the Securities may contain provisions governing currency conversion. For example, the amounts payable in the Terms and Conditions may initially be expressed in a foreign currency and not the issue currency. In this event, these amounts are then converted into the issue currency on a Valuation Date at the relevant conversion rate specified in the Final Terms. The same applies to all other amounts payable in accordance with the Terms and Conditions that are initially expressed in a foreign currency (non quanto).

However, the Terms and Conditions may specify a 1:1 conversion rate (e.g., EUR 1.00/USD 1.00) (quanto). In this case, the issue currency/foreign currency exchange rate on the Valuation Date is irrelevant.

7.2. Detailed Information on Leveraged ETPs

7.2.1. Features

The Limited Leveraged ETPs have a fixed term and are automatically called for redemption on the last day of the Call Period. Prior to this, the Securityholders must call for redemption their Limited Leveraged ETPs or sell them in order to realise their financial value.

The Unlimited Leveraged ETPs do not have a fixed term. That means, the Securities are not called for redemption automatically on a defined date. Securityholders must call for redemption their Unlimited Leveraged ETPs or sell them in order to realise their financial value.

7.2.2. Leveraged ETPs Long

The Redemption Amount paid out to the Securityholder upon call for redemption depends on the NPV on the respective Valuation Date. The NPV is calculated on the basis of a Leverage Component and a Financing or Interest Component, whereby the Leverage Component is in turn determined by the Reference Price of the Underlying underlying the Security and each previously determined Reference Price.

(a) Leverage Component

In the NPV calculation, the Leverage Component reflects the multiple purchase of the Underlying (long position) corresponding to the applicable Factor (for the avoidance of doubt: For a currency exchange rate as Underlying, this means a long position in the Base Currency and a short position in the Counter Currency). Thus, an increase in the price of the Underlying leads to an increase in the Leverage Component on a daily basis to a multiple percentage amount corresponding to the applicable Factor and vice versa. This leverage effect has a (possibly disproportionate) effect on the NPV in the event of both positive and negative movements of the Underlying.

Example: In the case of a Leveraged ETP 3x Long Share, the value of the Leverage Component increases by 30% if the Reference Price of the Share underlying the Security increases by 10% compared to the last determined Reference Price. If the Reference Price of the Share falls by 10% compared to the last Reference Price determined, the value of the Leverage Component falls by 30%.

The following phenomena, among others, occur:
If the price of the Share underlying the Security rises constantly by EUR 1 over 10 days, for example, from EUR 100 to EUR 110, the price gain of the Share is equal to 10%, while the increase in the value of the Leverage Component is not 30% but more than 30%. If the price of the Share falls constantly by EUR 1 to EUR 90 over 10 days, the loss in value of the Leverage Component is less than 30%, not 30%.

If the price of the Underlying underlying the Security develops in different directions after the Securities have been issued (i.e. price gains and losses alternate) and the price of the Underlying returns to the level at the time of issue, the value of the Leverage Component is not also at its initial value at this point in time, but is - reinforced by the effect of the multiple leverage, which may be considerable - below its initial value.

If the price of the Underlying underlying the Security falls significantly, the value of the Leverage Component and thus the NPV falls to a very low level. Although all subsequent price gains of the Underlying then lead to price gains of the Leverage Component and thus of the NPV, the investor must bear in mind that despite the possibly multiple leverage, the price gains have only a slight impact on the absolute recovery of the NPV due to the very low NPV.

(b) Additional influence on the Leverage Component (for Underlying Currency Exchange Rate FXopt)

In the case of a Leveraged ETP Currency Exchange Rate FXopt (FX optimised), the daily change in the Underlying underlying the Security results in a change in the Leverage Component by multiple percentage amounts (as described under (a)) **divided by the daily exchange rate change**, i.e. divided by the quotient of the current price of the Underlying and the last Reference Price determined.

Taking the daily exchange rate change into account when calculating the Leverage Component increases the leverage effect if the exchange rate falls or decreases it if the exchange rate rises.

However, the investor should note that each daily change in the exchange rate has a corresponding effect on the calculation during the entire term of the Securities since their issue.

(c) Financing Component (for Underlying Share, ETF Share and Index)

The Financing Component results from the cost of raising capital at an overnight rate increased by a per annum rate (related to the IC Rate), which reflects the hypothetical costs that would be incurred in tracking the performance of the NPV, plus a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the

Collateral Assets plus a Calculation Fee. As a rule, the Financing Component is negative and on each NPV Calculation Day, has a value-reducing effect on the NPV. It should be noted that, the costs resulting from the overnight rate and the per annum rate (related to the IC Rate) are multiplied by the Factor minus 1 and therefore they are higher, the higher the Factor.

(d) Financing Component (for Underlying Currency Exchange Rate Multiple Long and FXopt Long)

The Financing Component results from the costs of borrowing in the Counter Currency at an overnight rate increased by a per annum rate (related to the IC Rate), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV, plus a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets plus a Calculation Fee. In contrast, the long position in the Base Currency is invested in a money market instrument at an overnight rate. As long as the cost of borrowing plus costs (related to the IC Rate and the Collateral Fee) and the Calculation Fee on one day exceeds the interest income for that day, losses are incurred instead of interest gains. In this case, the Financing Component on such a day would have a value-reducing effect on the NPV. It should be noted that the costs resulting from the overnight rate and the per annum rate (related to the IC Rate) are multiplied by the Factor and Factor minus 1 (for Underlying Exchange Rate Multiple Long), respectively, and therefore they are higher, the higher the Factor.

(e) Interest Component (for Underlying Futures Contract)

The Interest Component results from an investment in a money market instrument at an overnight rate less a Calculation Fee and less a per annum rate (related to the IC Rate), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV, and less a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets. Should the costs (related to the IC Rate and the Collateral Fee) plus the Calculation Fee on one day exceed the interest income for that day, losses are incurred instead of interest gains. In this case, the Interest Component would be negative and would have a value-reducing effect on the NPV on such a day. This applies, in particular, if the Reference Interest Rate is negative. It should be noted that the costs resulting from the per annum rate (related to the IC Rate) are multiplied by the Factor and therefore they are higher, the higher the Factor.

(f) Interest Component (for Underlying Currency Exchange Rate 1x Long)

The Interest Component results from an investment in a money market instrument at an overnight rate in the Base Currency less a Calculation Fee and less a per annum rate (related to the IC Rate), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV, and less a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets. Should the Calculation Fee on one day exceed the interest income less the costs (related to the IC Rate and the Collateral Fee) for that day, losses are incurred instead of interest gains. It should be noted that the Interest Component would be negative and would have a value-reducing effect on the NPV on such a day. This applies, in particular, if the Reference Interest Rate is negative.

(g) Intraday Adjustment of the NPV

A special case exists if the Underlying falls greatly during the day in exceptional market situations. In order to avoid the threat of a negative NPV in such a case, the Leveraged ETP has an Adjustment Threshold that is a fixed percentage below the last Reference Price of the Underlying. If the price falls below the Adjustment Threshold, an Intraday Adjustment is made with respect to the NPV. However, this mechanism cannot completely prevent a total loss or a loss approaching a total loss.

7.2.3. Leveraged ETPs Short

The Redemption Amount paid out to the Securityholder upon call for redemption depends on the NPV on the respective Valuation Date. The NPV is calculated on the basis of a Leverage Component and a Financing or Interest Component, whereby the Leverage Component is in turn determined by the Reference Price of the Underlying underlying the Security and each previously determined Reference Price.

(a) Leverage Component

In the NPV calculation, the Leverage Component reflects the multiple sale of the Underlying (short position) corresponding to the applicable Factor (for the avoidance of doubt: For a currency exchange rate as Underlying, this means a short position in the Base Currency and a long position in the Counter Currency). Thus, a decrease in the price of the Underlying leads to an increase in the Leverage Component on a daily basis by a multiple percentage amount corresponding to the applicable Factor and vice versa. This leverage effect has a (possibly disproportionate) effect on the NPV in the event of both positive and negative movements of the Underlying.

Example: In the case of a Leveraged ETP 3x Short Share, the value of the Leverage Component increases by 30% if the Reference Price of the Share underlying the Security falls by 10% compared to the last determined Reference Price. If the Reference Price of the Share increases by 10% compared to the last Reference Price determined, the value of the Leverage Component falls by 30%.

The following phenomena, among others, occur:
If the price of the Share underlying the Security rises constantly by EUR 1 over 10 days, for example, from EUR 100 to EUR 110, the price gain of the Share is equal to 10%, while the loss in value of the Leverage Component is not 30% but less than 30%. If the price of the Share falls constantly by EUR 1 to EUR 90 over 10 days, the increase in value of the Leverage Component is more than 30%, not 30%.

If the price of the Underlying underlying the Security develops in different directions after the Securities have been issued (i.e. price gains and losses alternate) and the price of the Underlying returns to the level at the time of issue, the value of the Leverage Component is not also at its initial value at this point in time, but is - reinforced by the effect of the multiple leverage, which may be considerable - below its initial value.

If the price of the Underlying underlying the Security rises significantly, the value of the Leverage Component and thus the NPV falls to a very low level. Although all subsequent price losses of the Underlying then lead to price gains of the Leverage Component and thus of the NPV, the investor must bear in mind that despite the possibly multiple leverage, the price losses have only a slight impact on the absolute recovery of the NPV due to the very low NPV.

(b) Additional influence on the Leverage Component (for Underlying Currency Exchange Rate FXopt)

In the case of a Leveraged ETP Currency Exchange Rate FXopt (FX optimised), the daily change in the Underlying underlying the Security results in a change in the Leverage Component in multiple percentage amounts (as described under (a)) **divided by the daily exchange rate change**, i.e. divided by the quotient of the current price of the Underlying and the last Reference Price determined.

Taking the daily exchange rate change into account when calculating the Leverage Component increases the leverage effect if the exchange rate falls or decreases it if the exchange rate rises.

However, the investor should note that each daily change in the exchange rate has a corresponding effect on the calculation during the entire term of the Securities since their issue.

(c) Interest Component (for Underlying Share, ETF Share, Index and Futures Contract)

The Interest Component results from an investment in a money market instrument at an overnight rate less a Calculation Fee, less a per annum rate (related to the IC Rate), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV and less a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets. Should the costs (related to the IC Rate and the Collateral Fee) plus the Calculation Fee on one day exceed the interest income for that day, losses are incurred instead of interest gains. In this case, the Interest Component would be negative and would have a value-reducing effect on the NPV on such a day. This applies, in particular, if the Reference Interest Rate is negative. It should be noted that the costs resulting from the per annum rate (related to the IC Rate) are multiplied by the Factor and therefore they are higher, the higher the Factor.

(d) Financing Component (for Underlying Currency Exchange Rate Short and FXopt Multiple Short)

The Financing Component results from the costs of borrowing in the Base Currency at an overnight rate increased by a per annum rate (related to the IC Rate), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV, plus a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets plus a Calculation Fee. In contrast, the long position in the Counter Currency is invested in a money market instrument at an overnight rate. As long as the costs of borrowing plus costs (related to the IC Rate and the Collateral Rate) and the Calculation Fee on one day exceed the interest income for that day, losses are incurred instead of interest gains. In this case, the Financing Component on such a day would have a value-reducing effect on the NPV. It should be noted that the costs resulting from the overnight rate and the per annum rate (related to the IC Rate) are multiplied by the Factor and Factor minus 1 (for Underlying Currency Exchange Rate FXopt Multiple Short), respectively, and therefore they are higher, the higher the Factor.

(e) Interest Component (for Underlying Currency Exchange Rate FXopt 1x Short)

The Interest Component results from an investment in a money market instrument at an overnight rate in the Counter Currency less a Calculation Fee, less a per annum rate (related to the IC Rate), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV, and less a per annum rate (related to the Collateral Fee), which includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets. Should the Calculation Fee on one day exceed the interest income less the costs (related to the IC Rate and Collateral Fee) for that day, losses are incurred instead of interest gains. In this case, the Interest Component would be negative and would have a value-reducing effect on the NPV on such a day. This applies, in particular, if the Reference Interest Rate is negative.

(f) Intraday Adjustment of the NPV

A special case exists, if the Underlying rises greatly during the day in exceptional market situations. In order to avoid the threat of a negative NPV in such a case, the Leveraged ETP has an Adjustment Threshold that is a fixed percentage above the last Reference Price of the Underlying. If the price rises above the Adjustment Threshold, an Intraday Adjustment is made with respect to the NPV. However, this mechanism cannot completely prevent a total loss or a loss approaching a total loss.

7.2.4. Leverage, pricing of Leveraged ETPs

The price of a Leveraged ETP is often subject to significant fluctuations. The leverage effect is a key feature of such Securities and describes the phenomenon where changes in the price of the Underlying have a **disproportionate** strong effect on changes in the price of the Securities.

If the price of the Underlying for a Leveraged ETP **Long increases**, the price of this Leveraged ETP Long **increases disproportionately**. If the price of the Underlying for a Leveraged ETP Long **decreases**, the price of this Leveraged ETP **Long decreases disproportionately**.

If the price of the Underlying for a Leveraged ETP **Short decreases**, the price of this Leveraged ETP Short **increases disproportionately**. If the price of the Underlying for a Leveraged ETP Short increases, the price of this Leveraged ETPs Short **decreases disproportionately**.

The leverage effect for Leveraged ETPs is constant on a daily basis and corresponds to the applicable Factor.

The following factors (not exhaustive) also impact the price of a Leveraged ETP:

- changes in interest rates on the money market;
- an adjustment of the IC Rate;
- for Securities with shares and indices as the Underlying, dividends distributed during the term of the Leveraged ETP.

7.2.5. Limitation of term for Leveraged ETPs Long on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The Terms and Conditions may contain the following clause: if the Underlying is a U.S. Share or a certain U.S. ETF Share or Index that reference U.S. equities, and the company that issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, the term of the Security automatically end prematurely. In this case, the Redemption Date is the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The Issuer intends to take the view that payments made in respect of such Securities are not subject to the tax withholding obligation in accordance with Section 871(m) IRC. However, this is not an uncontested view and the Inland Revenue Service (IRS) may assert that certain payments made in respect of such Securities are subject to the withholding obligation under Section 871(m) IRC. If it transpires that the view taken by the IRS is correct, Securityholders may be subject to tax in accordance with Section 871(m) IRC. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors. Investors must contact their custodian regarding any potential tax refund in accordance with the respective U.S. laws. In addition, the mandatory uniform pricing for all investors means that the maximum applicable tax rate is routinely applied.

7.2.6. Tax withheld by the Issuer in the case of Leveraged ETPs Long on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities ("Issuer Solution")

In the case of Leveraged ETPs Long that (i) are linked to the performance of a U.S. Share or a certain U.S. ETF Share or Index that reference U.S. equities, and (ii) were not terminated before the Business Day prior to the ex-dividend date or before the dividend record date, in the event that dividend payments are made in respect of the Underlying the Issuer intends to take the tax obligation under Section 871(m) IRC into account in its ongoing adjustment of the price of the Underlying, and to ensure compliance with the tax withholding obligation by means of internal rules to be determined accordingly. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors.

To the extent withholding under Section 871(m) IRC is required, the Issuer intends to withhold at a rate of 30 percent on any dividend equivalents. This withholding is in addition to any withholding applicable to the Issuer’s hedge. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any U.S. equity-linked Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in overwithholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.

7.2.7. Discontinuation of the calculation of the NPV in the case of Leveraged ETPs relating to Futures Contracts

The calculation of the NPV is discontinued if an Observation Price of the relevant futures contract falls to or below 0 (zero). In the case of Leveraged ETPs Long the NPV is equal to 0 (zero). Whereas, in the case of Leveraged ETPs Short, the NPV is determined in accordance with the formula set out in the Terms and Conditions. There is no further adjustment of the NPV.

8. SELLING RESTRICTIONS

8.1. Introduction

Aside from publishing and filing this Prospectus, any supplements and/or the respective Final Terms in the Grand Duchy of Luxembourg and in those countries where the Prospectus has been notified, the Issuer has not taken and will not take any action to permit the public offer of the Securities or their possession or the distribution of offering documents in relation to the Securities in a jurisdiction that requires specific action to be taken for that purpose.

The distribution of this Prospectus and the offer of the Securities may be subject to legal restrictions in certain jurisdictions. This may relate primarily to the offer, sale, holding and/or delivery of Securities as well as the distribution, publication and possession of the Prospectus. Persons who gain access to the Securities and/or the Prospectus are required to independently seek information on and comply with such restrictions.

The Securities and the Prospectus may only be distributed in a given jurisdiction if this complies with the laws of such jurisdiction and does not give rise to obligations on the part of the Issuer. In particular, the Prospectus may not be used by any person or entity for the purposes of an offer or advertisement (a) in a jurisdiction in which the offer or advertisement is not approved but where such approval is required, and/or (b) to or with respect to a person for whom such offer or advertisement is not lawful.

Neither the Base Prospectus nor any supplements nor the respective Final Terms represent an offer or an invitation to any person for the purchase of Securities and can in no way be regarded as a recommendation by the Issuer to purchase Securities.

8.2. European Economic Area

A public offer of the Securities may be made in a member state of the European Economic Area (the "**EEA**") in accordance with the following terms and conditions:

- after the date of publication of the Base Prospectus approved by the competent authority of that member state or approved in another member state and notified to the competent authority in that member state, provided that
  - the Base Prospectus has been completed by the Final Terms providing for an offer subject to the obligation to publish a prospectus (non-exempt offer), in accordance with the Prospectus Regulation,
  - the non-exempt offer is only made in the period whose beginning and end are specified in the Base Prospectus or in the Final Terms, and
  - the Issuer has consented in writing to their use for the purposes of the non-exempt offer;
- at any time to persons who are qualified investors within the meaning of the Prospectus Regulation;
- at any time in any member state to fewer than 150 natural or legal persons per member state (who are not qualified investors within the meaning of the Prospectus Regulation); or
- at any time under any of the other circumstances specified in Article 1 (4) of the Prospectus Regulation.

None of the offers under the last three points may require the Issuer to publish a prospectus in accordance with Article 6 of the Prospectus Regulation or a supplement to a prospectus in accordance with Article 23 of the Prospectus Regulation.

For the purposes of these selling restrictions, the term "public offer of the Securities", when used in relation to Securities in a member state, means a communication to persons in any form and by any means, presenting sufficient information on the terms of the offer and the securities to be offered, so as to enable an investor to decide to purchase or subscribe for those securities.

8.3. United States of America

The Securities and guarantees for these Securities have not been and will not be registered under the United States Securities Act of 1933 as amended (the "**Securities Act**") or the securities laws of any state of the United States or of its territories, nor has trading in the Securities been approved by the Commodity Futures Trading Commission (the "**CFTC**") in accordance with the United States Commodity Exchange Act as amended ("**CEA**"). No commodity pool operator has been or will be registered for the Issuer (or its legal successor) in accordance with the CEA and the CFTC rules established under the CEA (the "**CFTC Rules**"), and the Issuer is not and will not be registered as an investment company in accordance with the United States Investment Company Act of 1940 as amended and the rules and regulations promulgated thereunder (the "**Investment Company Act**"). The Securities are offered and sold pursuant to an exemption from the registration requirements of the Securities Act under Regulation S of the Securities Act (Regulation S). They may only be offered, sold, resold, pledged or otherwise transferred at any time as part of an offshore transaction (as defined in Regulation S) to, or for the account or benefit of persons who do not meet the definitions set out below:

(a) a U.S. person as defined in Regulation S of the Securities Act (a "**U.S. Person as Defined in Regulation S**"), or within the meaning of the CEA, a CFTC Rule or guidelines proposed or promulgated under the CEA or an order proposed or promulgated under the CEA (for the avoidance of doubt, a U.S. person is any person who is not a "**non-United States person**" as defined in CFTC Rule 4.7(a)(1)(iv), however excluding, for the purposes of point (D) of CFTC Rule 4.7(a)(1)(iv), the exception for qualified eligible persons who are not U.S. persons) (a "**U.S. Person as Defined in the CEA**").

(b) a U.S. person as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended, with the exception of traders or other professional fiduciaries organised or registered in the United States and acting outside the United States for the benefit or account of a non-U.S. person in respect of a non-discretionary or similar account (other than an estate or trust) (a "**U.S. Person as Defined by the IRS**").

Each person or account being a U.S. Person as Defined in Regulation S, a U.S. Person as Defined in the CEA or a U.S. Person as Defined by the IRS is hereinafter referred to as a "**U.S. Person**". Each person or account not being a U.S. Person as defined in this document is hereinafter referred to as a "**Permitted Transferee**".

The Securities may not be legally or beneficially owned - either directly or indirectly - at any time by any person not being a Permitted Transferee.

BY PURCHASING THE SECURITIES, EACH PURCHASER WILL BE DEEMED OR REQUIRED TO HAVE AGREED TO THE FOREGOING RESTRICTIONS AND THE PROHIBITION ON RESELLING OR OTHERWISE TRANSFERRING THE SECURITIES HELD BY THEM, WITH THE EXCEPTION OF RESALE AND TRANSFER AS PART OF OFFSHORE TRANSACTIONS (AS DEFINED IN REGULATION S) OUTSIDE THE UNITED STATES TO PERSONS WHO ARE PERMITTED TRANSFEREES AS DEFINED ABOVE.

THE ISSUER, FIDUCIARY, INVESTMENT MANAGER, ADMINISTRATOR AND THE CUSTODIAN (WHERE APPLICABLE) OR THEIR AFFILIATED COMPANIES ARE NOT REQUIRED TO RECOGNISE ANY RESALE OR OTHER TRANSFER NOT COMPLIANT WITH THESE RESTRICTIONS. TRANSFERS OF THE SECURITIES TO PERSONS WITHIN THE UNITED STATES OR TO U.S. PERSONS (AS DEFINED ABOVE) WILL BE VOID AB INITIO. THE ISSUER, FIDUCIARY, INVESTMENT MANAGER, ADMINISTRATOR AND THE CUSTODIAN (WHERE APPLICABLE) MAY DEMAND THAT PERSONS WITHIN THE UNITED STATES OR U.S. PERSONS (AS DEFINED ABOVE) IMMEDIATELY TRANSFER THE SECURITIES TO A PERMITTED TRANSFEREE. IF APPLICABLE, THE ISSUER OR FIDUCIARY (IN EACH CASE WHERE RELEVANT) MAY FURTHERMORE CONFISCATE THE SECURITIES FROM SUCH PERSONS FOR THE PURPOSES OF CANCELLING THEM.

7. Neither the Issuer nor the Calculation Agent is obliged to review the eligibility of the submitter of Securities.	7. Weder die Emittentin noch die Berechnungsstelle sind verpflichtet, die Berechtigung der Einreicher von Wertpapieren zu prüfen.
§ 3 **TAXATION**	**§ 3** **STEUERN**
1. Unless specified otherwise in the Terms and Conditions all payments and deliveries in respect of Securities and, if applicable, under the Guarantee, shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction (the "**Taxes**") unless such withholding or deduction is required by law.	1. Sofern nicht in den Emissionsbedingungen etwas anderes angegeben ist, erfolgen alle Zahlungen und Lieferungen in Bezug auf die Wertpapiere und gegebenenfalls im Rahmen der Garantie erfolgen ohne Einbehalt oder Abzug für oder wegen gegenwärtiger oder zukünftiger Steuern, Abgaben, Veranlagungen oder behördlicher Gebühren gleich welcher Art, die von oder im Auftrag einer Steuerjurisdiktion auferlegt, erhoben, eingezogen, einbehalten oder veranlagt werden (die "**Steuern**"), es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich vorgeschrieben.
2. Notwithstanding any other provision of these Terms and Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of Securities for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 ("**IRC**") or otherwise	2. Unbeschadet der übrigen Bestimmungen dieser Allgemeinen Emissionsbedingungen, wird die Emittentin oder die Garantin in keinem Fall dazu verpflichtet sein, zusätzliche Beträge in Bezug auf Wertpapiere für oder wegen einer Einbehaltung oder eines Abzugs, (i) die/der gemäß einer Vereinbarung, wie in Section 1471(b) des US-amerikanischen

imposed pursuant to Sections 1471 through 1474 IRC, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto or (ii) imposed pursuant to the Section 871(m) Regulations (the "**871(m) Withholding**") or (iii) imposed by any other law of the United States of America. In addition, in determining the amount of Section 871(m) withholding imposed, the Issuer shall be entitled to withhold on any "**dividend equivalent**" (as defined for purposes of Section 871(m) IRC) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.	*Internal Revenue Code* von 1986 ("**IRC**") beschrieben oder anderweitig gemäß Sections 1471 bis 1474 IRC vorgeschrieben, Vorschriften oder Vereinbarungen darunter, offizielle Auslegungen davon oder diesbezüglichen Umsetzungsvorschriften zu einem zwischenstaatlichen Vorgehen diesbezüglich erfolgen oder (ii) der/die aufgrund der Section 871(m) Regeln auferlegt (die "**871(m)-Quellensteuer**") wird oder (iii) die durch sonstige Gesetze der Vereinigten Staaten von Amerika auferlegt werden. Des Weiteren ist die Emittentin bei der Festsetzung des Betrags des gemäß der Section 871(m) auferlegten Einbehalts berechtigt, eine "**Dividendenäquivalente**" (wie zu Zwecken der Section 871(m) IRC definiert) zum höchsten, auf solche Zahlungen anwendbaren Satz einzubehalten, ungeachtet jedweder Ausnahmen oder Kürzungen dieses Einbehalts, der anderenfalls gemäß geltendem Recht verfügbar wäre.
With respect to Specified Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e., a security that pays U.S. source dividends), or an ETF or an index that includes U.S. securities, all payments on the Securities that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) IRC) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) IRC amount deemed withheld.	Im Hinblick auf *Specified Securities*, die eine Netto-Dividenden-Wiederanlage in Bezug auf entweder ein zugrunde liegendes US-Wertpapier (d.h. ein Wertpapier, dass US-Dividenden auszahlt) oder ein ETF oder einen Index, der US-Wertpapiere umfasst, vorsehen, können alle Zahlungen auf die Wertpapiere, die sich auf diese US-Wertpapiere oder einen Index, der US-Wertpapiere umfasst, beziehen, unter Bezugnahme auf Dividenden auf solche US-Wertpapiere berechnet werden, die zu einem Satz von 70% reinvestiert werden. In diesem Fall gilt der Inhaber bei der Berechnung des maßgeblichen Zahlungsbetrags als Empfänger und die Emittentin oder die Garantin wird 30% der dividendenäquivalenten Zahlungen (wie in Section 871(m) IRC) definiert in Bezug auf die maßgeblichen US-Wertpapiere als einbehalten betrachten. Die Emittentin oder die Garantin wird keine zusätzlichen Beträge an den Inhaber aufgrund der gemäß Section 871(m) IRC als einbehalten betrachteten Beträge zahlen.
3. For the purpose of this condition:	3. Für die Zwecke dieser Bestimmung gilt:
"**Section 871(m) Regulations**" means the U.S. Treasury regulations issued under Section 871(m) IRC.	"**Section 871(m) Regeln**" bezeichnet die Rechtsvorschriften des US-Finanzministeriums (U.S. *treasury regulations*), die gemäß Section 871(m) IRC erlassen wurden.
"**Specified Securities**" means, subject to special rules from 2017 through 2022 set out in Notice 2020-2 (the "**Notice**"), Securities issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Securities as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations (for the purposes of the Notice, such Securities are deemed "delta-one" instruments).	"**Specified Securities**" bezeichnet, vorbehaltlich in der Notice 2020-2 (die "**Mitteilung**") gesonderter Regelungen von 2017 bis 2022, Wertpapiere, die am oder nach dem 1. Januar 2017 begeben wurden und die im Wesentlichen die wirtschaftliche Entwicklung von einem oder mehreren U.S. zugrunde liegenden Eigenkapitalprodukten, wie von der Emittentin an dem Tag für solche Wertpapiere bestimmt, an dem das erwartete Delta des Produkts von der Emittentin bestimmt wird, basierend auf Tests, die in Anwendung der Section 871(m) Regeln dargelegt sind (für die Zwecke der Mitteilung sind solche Wertpapiere als "*delta-one*" Wertpapiere anzusehen).

"**Tax Jurisdiction**" means Germany or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by the Issuer) or the French Republic or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Société Générale).	"**Steuerjurisdiktion**" bezeichnet Deutschland und alle zur Erhebung von Steuern ermächtigten Gebietskörperschaften oder Behörden von Deutschland (im Fall von Zahlungen durch die Emittentin) oder Frankreich und alle zur Erhebung von Steuern ermächtigten Gebietskörperschaften oder Behörden von Frankreich (im Fall von Zahlungen durch die Société Générale).
§ 4 **STATUS, GUARANTEE, LIMITED RECOURSE**	**§ 4** **STATUS, GARANTIE, BEGRENZTER RÜCKGRIFF**
1. Securities will constitute direct, unconditional, secured, limited recourse and unsubordinated obligations of the Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, secured, limited recourse and unsubordinated obligations of the Issuer, present and future.	1. 3. In the event of a payment default by the Issuer, of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Redemption Amount) on any such Security(ies) whenever such payment falls due (such payment defaults, a "**Defaulted Payments**"), the Securityholder cannot institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the Issuer (the "**Limited Recourse**").	3. Im Falle eines Zahlungsverzugs der Emittentin im Hinblick auf die Zahlung von Kapital (und etwaige Aufschläge), Zinsen oder sonstige Beträge auf entsprechende Wertpapiere (darunter auch eines etwaigen Rückzahlungsbetrages) zum Zeitpunkt der Fälligkeit der jeweiligen Zahlungen (entsprechende Zahlungsverzüge werden als "**Säumige Zahlungen**" bezeichnet), kann der Wertpapierinhaber keine gerichtlichen oder sonstigen Verfahren gegen die Emittentin einleiten oder anderweitig Ansprüche gegen sie geltend machen, um die Säumigen Zahlungen durchzusetzen; ferner verzichtet jeder Wertpapierinhaber auf alle Rechte zur Einleitung solcher Verfahren oder Geltendmachung solcher Ansprüche in Bezug auf die betreffenden Säumigen Zahlungen gegen die Emittentin (der "**Begrenzte Rückgriff**").
For the avoidance of doubt these Securityholder's rights under the Guarantee do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments subject in all cases to the terms of the Guarantee.	Zur Klarstellung: Durch den Begrenzten Rückgriff werden die Rechte des Wertpapierinhabers im Rahmen der Garantie nicht berührt und werden die Verpflichtungen der Garantin im Rahmen der maßgeblichen Garantie nicht abgeändert oder beeinträchtigt; dementsprechend ist jeder Inhaber weiterhin berechtigt, nach Maßgabe der Garantie gerichtliche oder sonstige Verfahren gegen die Garantin anzustrengen oder anderweitig Ansprüche gegen die Garantin geltend zu machen, um im Rahmen der maßgeblichen Garantie geschuldete

	Verpflichtungen, darunter auch in Bezug auf Säumige Zahlungen, durchzusetzen.
Such Limited Recourse does not alter or impair the rights of the Securityholders to require the enforcement of the relevant Pledge Agreement pursuant to the provisions of the Secured-Specific Terms.	Durch den Begrenzten Rückgriff werden die Rechte der Wertpapierinhaber, die Durchsetzung des maßgeblichen Verpfändungsvertrags nach Maßgabe der Bestimmungen der Besicherungsspezifischen Bedingungen zu verlangen, nicht abgeändert oder beeinträchtigt.
§ 5 **BAIL-IN**	**§ 5** **GLÄUBIGERBETEILIGUNG (BAIL-IN)**
1. Exercise of the Bail-in Power by the Relevant Resolution Authority on liabilities of Société Générale:	1. Ausübung der Bail-in-Befugnis der Maßgeblichen Abwicklungsbehörde auf Verpflichtungen der Société Générale:
(a) If the Relevant Resolution Authority exercises its Bail-in Power on liabilities pursuant to Article L. 613-30-3 I 3° M&F Code of Société Générale, ranking junior to liabilities of Société Générale that benefits from statutorily preferred exceptions pursuant to Article L. 613-30-3 I 1° and 2° M&F Code, and senior to liabilities as defined in Article L. 613-30-3 I 4° M&F Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Société Générale or another person, including by means of a variation of the terms and conditions to give effect to such exercise of Bail-in Power, then	(a) Falls die Maßgebliche Abwicklungsbehörde ihre Bail-in-Befugnis auf Verpflichtungen der Société Générale gemäß Artikel L 613-30-3 I 3° M&F Code ausübt, welche nachrangig zu den Verbindlichkeiten der Société Générale sind und von gesetzlich bevorzugten Ausnahmen gemäß Artikel L 613-30-3 I 1° und 2° M&F Code profitieren sowie nicht nachrangig zu den Verpflichtungen sind, wie in Artikel L 613-30-3 I 4° M&F Code definiert, was zu einer Herabschreibung oder Entwertung des gesamten oder eines Teils des Nennbetrags dieser Verbindlichkeiten oder eines ausstehenden zahlbaren Betrags in Bezug auf, und/oder Zinsen auf diese Verbindlichkeiten und/oder einer Umwandlung des gesamten oder eines Teils des Nennbetrags dieser Verbindlichkeiten oder eines ausstehenden zahlbaren Betrags in Bezug auf, oder Zinsen auf diese Verbindlichkeiten in Aktien oder andere Wertpapiere oder sonstige Verbindlichkeiten der Société Générale oder einer anderen Person führt, einschließlich mittels einer Änderung der Emissionsbedingungen zur Durchführung einer solchen Bail-in-Befugnis, dann
(i) the Issuer's obligations to the Securityholders under the Securities shall be limited and reduced to the amounts of principal and/or interest that would be recoverable by the Securityholders and/or the value of the shares or other securities or other obligations of Société Générale or another person that would be delivered to the Securityholders if the Securities had been directly issued by Société Générale itself, and any obligations under the Securities had accordingly been directly subject to the Bail-in Power, and	(i) sind die Verbindlichkeiten der Emittentin gegenüber den Wertpapierinhabern unter den Wertpapieren beschränkt und reduziert auf die Kapital- und/oder Zinsbeträge, die von den Wertpapierinhaber erzielbar wären, und/oder den Wert der Aktien oder anderer Wertpapiere oder Verbindlichkeiten der Société Générale oder einer anderen Person, die den Wertpapierinhabern geliefert worden würden, wenn die Wertpapiere unmittelbar von der Société Générale selbst begeben und alle Verbindlichkeiten unter den Wertpapieren entsprechend direkt der Ausübung der Bail-in-Befugnis unterstellt worden wären, und

(ii) the Issuer shall be entitled to, in lieu of payment, request the Securityholders to seek payment, in whole or in part, of any amounts due under the Securities subsequent to the reduction and/or delivery of any shares or other securities or other obligations of Société Générale subsequent to a conversion provided for at (i) above, directly from Société Générale under Société Générale's obligations.	(ii) ist die Emittentin berechtigt, anstelle der Zahlung die Wertpapierinhaber aufzufordern, die Zahlung der fälligen Beträge aus den Wertpapieren, insgesamt oder teilweise, nach der Reduzierung und/oder Lieferung von Aktien oder anderer Wertpapiere oder anderer Verbindlichkeiten der Société Générale im Anschluss an eine unter dem vorstehenden Abschnitt (i) genannte Umwandlung direkt von der Société Générale unter der Garantie der Société Générale für die Verbindlichkeiten der Emittentin zu ersuchen.
If and to the extent that the Issuer requests the Securityholders to directly seek payment and/or delivery from Société Générale under Société Générale's Guarantee for the Issuer's obligations, the Issuer's liabilities under the Securities shall be deemed extinguished.	Wenn und soweit die Emittentin die Wertpapierinhaber dazu auffordert, die Zahlung und/oder Lieferung direkt von der Société Générale unter der Garantie der Société Générale für die Verbindlichkeiten der Emittentin zu ersuchen, so gelten die Verbindlichkeiten der Emittentin unter den Wertpapieren als erloschen.
"**Bail-in Power**" means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including, but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled and/or converted into shares or other securities or obligations of the obligor or any other person.	"**Bail-in-Befugnis**" bezeichnet eine jeweils bestehende gesetzliche Löschungs-, Herabschreibungs- und/oder Umwandlungsbefugnis aufgrund von Gesetzen, Vorschriften, Regeln oder Anforderungen in Bezug auf die Sanierung von Banken, Unternehmen von Institutsgruppen, Kreditinstituten und/oder Wertpapierfirmen, insbesondere aufgrund von Gesetzen, Vorschriften, Regeln oder Anforderungen, die im Zusammenhang mit einer EU-Richtlinie oder EU-Verordnung des Europäischen Parlaments und des Rates zur Festlegung eines Rahmens für die Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen oder anderen anwendbaren Gesetzen oder Vorschriften in der jeweils geltenden Fassung oder anderen Bestimmungen, nach denen die Verbindlichkeiten von Banken, Unternehmen von Institutsgruppen, Kreditinstituten und/oder Wertpapierfirmen oder deren verbundenen Unternehmen herabgeschrieben, gelöscht und/oder in Aktien oder andere Wertpapiere oder Verbindlichkeiten des Schuldners oder einer anderen Person umgewandelt werden können, umgesetzt, beschlossen oder verabschiedet werden.
The "**Relevant Resolution Authority**" is any authority with the ability to exercise the Bail-in Power.	Die "**Maßgebliche Abwicklungsbehörde**" ist eine Behörde, die zur Ausübung der Bail-in-Befugnis berechtigt ist.
(b) No repayment of the principal amount of the Securities or the payment of interest thereon (to the extent of the portion thereof affected by the exercise of the Bail-in Power) shall become due and payable after the exercise of any Bail-in Power by the Relevant Resolution Authority, unless such repayment or payment would be	(b) Nach Ausübung einer Bail-in-Befugnis durch die Maßgebliche Abwicklungsbehörde ist die Rückzahlung des Nennwerts der Wertpapiere oder die Zahlung von Zinsen auf die Wertpapiere (im Umfang des von der Ausübung der Bail-in-Befugnis betroffenen Anteils der Wertpapiere) nicht fällig und zahlbar, es sei denn, eine solche

Rückzahlung oder Zahlung durch die Société Générale unter ihren erstrangigen unbesicherten Verbindlichkeiten wäre nach den zu diesem Zeitpunkt für die Société Générale geltenden Gesetzen und Verordnungen zulässig, sofern die Société Générale selbst die Emittentin der Wertpapiere ist, und die Emissionsbedingungen der Wertpapiere als entsprechend geändert gelten.
(c) Upon the Issuer becoming aware of the exercise of the Bail-in Power by the Relevant Resolution Authority on senior unsecured liabilities of Société Générale, the Issuer shall notify the Securityholders in accordance with § 7 of the General Terms (and other parties that should be notified, if applicable). Any delay or failure by the Issuer to give notice shall not affect the effects on the Securities described in (a).	(c) Nachdem die Emittentin von der Ausübung der Bail-in-Befugnis durch die Maßgebliche Abwicklungsbehörde auf erstrangige unbesicherte Verbindlichkeiten der Société Générale Kenntnis erhalten hat, benachrichtigt die Emittentin die Wertpapierinhaber nach Maßgabe von § 7 der Allgemeinen Bedingungen (sowie gegebenenfalls andere zu benachrichtigende Parteien). Eine Verzögerung oder Unterlassung der Mitteilung durch die Emittentin beeinträchtigt nicht die in (a) beschriebenen Auswirkungen auf die Wertpapiere.
(d) The reduction or modification described in (a) and (b) above with respect to the Securities shall not constitute an event of default and the Terms and Conditions shall continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of the Securities, subject to any modification of the amount of interest payable to reflect the reduction of the principal amount and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or other investment firms domiciled in the French Republic.	(d) Die vorstehend in (a) und (b) beschriebene Reduzierung oder Änderung im Hinblick auf die Wertpapiere stellt keinen Kündigungsgrund dar und die Emissionsbedingungen der Wertpapiere gelten weiterhin in Bezug auf den verbleibenden Nennbetrag bzw. den ausstehenden zahlbaren Betrag bezüglich der Wertpapiere, vorbehaltlich einer Änderung des Betrags der zahlbaren Zinsen zur Berücksichtigung der Reduzierung des Nennbetrags und weiterer Änderungen der Emissionsbedingungen, die die Maßgebliche Abwicklungsbehörde möglicherweise gemäß den geltenden Gesetzen und Verordnungen in Bezug auf die Abwicklung von in Frankreich ansässigen Banken, Bankkonzernen, Kreditinstituten und/oder Investmentunternehmen beschließt.
2. Acknowledgement of bail-in and write-down or conversion powers	2. Anerkennung der Bail-in- und Abschreibungs- oder Umwandlungsbefugnisse
Acknowledgement of bail-in and write-down or conversion powers on the relevant Issuer's liabilities and of the write-down and conversion of Securities of the Issuer following the bail-in and write-down and conversion of some Société Générale's liabilities	Anerkennung der Bail-in- und Abschreibungs- oder Umwandlungsbefugnisse auf die Verbindlichkeiten der Emittentin sowie der Abschreibung und Umwandlung von Wertpapieren der Emittentin nach der Gläubigerbeteiligung und der Abschreibung und Umwandlung von einigen Verbindlichkeiten der Société Générale.

3. Consequences of the Statutory Bail-in and Contractual Bail-in	3. Folgen des Gesetzlichen Bail-in und des Vertraglichen Bail-in

Zahlung vorgesehen ist, wäre eine solche Rückzahlung oder Zahlung durch die maßgebliche Emittentin oder die Garantin nach den in Frankreich oder Luxemburg und der Europäischen Union geltenden Gesetzen und Verordnungen, die auf die maßgebliche Emittentin oder die Garantin oder andere Mitglieder ihrer Gruppe anwendbar sind, zulässig.
No repayment or payment of the Amounts Due will become due and payable or be paid under the Securities issued by the Issuer after implementation of the Contractual Bail-in.	Nach der Umsetzung des Vertraglichen Bail-in wird aus den von der Emittentin begebenen Wertpapieren keine Rückzahlung oder Zahlung der Fälligen Beträge fällig und zahlbar bzw. wird keine solche Rückzahlung oder Zahlung geleistet.
Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Securities, the Issuer or the Guarantor will provide a written notice to the Securityholders in accordance with § 7 of the General Terms as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The Issuer or the Guarantor will also deliver a copy of such notice to the Paying Agent for informational purposes, although the Paying Agent shall not be required to send such notice to Securityholders. Any delay or failure by the Issuer or the Guarantor (if any) to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Securities described above.	Bei Ausübung des Gesetzlichen Bail-in oder bei Umsetzung des Vertraglichen Bail-in in Bezug auf die Wertpapiere wird die maßgebliche Emittentin oder die Garantin den Wertpapierinhabern so bald wie möglich diese Ausübung des Gesetzlichen Bail-in oder die Umsetzung des Vertraglichen Bail-In gemäß § 7 der Allgemeinen Bedingungen schriftlich mitteilen. Die maßgebliche Emittentin oder die Garantin wird zudem eine Kopie dieser Mitteilung der Emissionsstelle zu Informationszwecken übermitteln, die Emissionsstelle hingegen ist nicht verpflichtet, eine solche Mitteilung an die Wertpapierinhaber zu senden. Ein Verzug bzw. eine Unterlassung durch die maßgebliche Emittentin oder gegebenenfalls die Garantin, eine solche Mitteilung abzugeben, beeinträchtigt weder nicht die Gültigkeit und Durchsetzbarkeit des Gesetzlichen Bail-in bzw. des Vertraglichen Bail-in noch die vorstehend beschriebenen Auswirkungen auf die Wertpapiere.
Neither a cancellation of the Securities, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Securities will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Securityholder to any remedies (including equitable remedies) which are hereby expressly waived.	Weder die Annullierung der Wertpapiere, noch eine Herabschreibung, teilweise oder insgesamt, der Fälligen Beträge, eine Umwandlung dieser in andere Wertpapiere oder Verbindlichkeiten der Emittentin oder der Garantin oder einer anderen Person infolge einer Ausübung des Gesetzlichen Bail-in oder die Umsetzung des Vertraglichen Bail-in in Bezug auf die Wertpapiere ist ein Kündigungsereignis oder stellt anderweitig eine Nichterfüllung einer vertraglichen Verpflichtung dar, oder berechtigt den Wertpapierinhaber zur Einlegung von Rechtsmitteln (einschließlich billigkeitsrechtliche Rechtsmittel), auf die hiermit ausdrücklich verzichtet wird.
Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the Issuer, the Guarantor and each Securityholder (including each holder of a beneficial interest in the Securities) hereby agree that (a) the Paying Agent shall not be required to take any directions from Securityholders, and (b) the agency agreement shall impose no duties upon the Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.	Bei Ausübung eines Gesetzlichen Bail-in oder bei Umsetzung des Vertraglichen Bail-in stimmen die Emittentin, gegebenenfalls die Garantin und jeder Wertpapierinhaber (einschließlich jeder Inhaber von Nutzungsrechten an den Wertpapieren) hiermit überein, dass (a) die Zahlstelle keinem Weisungsrecht der Wertpapierinhaber unterliegt und (b) der Verwaltungsstellenvertrag der Emissionsstelle keine Pflichten irgendwelcher Art auferlegt, in jedem Fall im Hinblick auf die Ausübung eines Gesetzlichen Bail-in oder die Umsetzung des Vertraglichen Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in, any Securities remain outstanding (for example, if the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Securities), then the Paying Agent's duties under the agency agreement shall remain applicable with respect to the Securities following such completion to the extent that the relevant Issuer, the Guarantor and the Paying Agent shall agree pursuant to an amendment to the agency agreement.	Ungeachtet des Vorstehenden, falls nach Abschluss der Ausübung des Gesetzlichen Bail-in oder der Umsetzung des Vertraglichen Bail-in, Wertpapiere weiterhin ausstehend sind (zum Beispiel, falls die Ausübung des Gesetzlichen Bail-in oder die Umsetzung des Vertraglichen Bail-in nur zu einer Teilabschreibung des Kapitals der Wertpapiere führt), so gelten die Pflichten der Emissionsstelle unter dem Verwaltungsstellenvertrag im Hinblick auf die Wertpapiere nach diesem Abschluss fort und zwar in dem Maße, wie die maßgebliche Emittentin, die Garantin und die Zahlstelle dies gemäß einer Ergänzung zum Verwaltungsstellenvertrag vereinbaren.
If in a Statutory Bail-in the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Paying Agent is otherwise instructed by the Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Securities will be (in the case of a Contractual Bail-in) or may be (in the case of a Statutory Bail-in) made on a pro rate basis.	Falls bei einem Gesetzlichen Bail-in die Maßgebliche Abwicklungsbehörde die Bail-in-Befugnis (oder falls der Vertragliche Bail-in umgesetzt wird) nicht im Hinblick auf die gesamten Fälligen Beträge ausübt, erfolgt (im Falle eines Vertraglichen Bail-in) jede Annullierung, Herabschreibung oder Umwandlung im Hinblick auf die Wertpapiere anteilsmäßig oder (im Falle eines Gesetzlichen Bail-in) kann jede Annullierung, Herabschreibung oder Umwandlung im Hinblick auf die Wertpapiere anteilsmäßig erfolgen, sofern die Zahlstelle nicht anderweitig durch die Emittentin oder die Garantin bzw. die Maßgebliche Abwicklungsbehörde angewiesen ist.
The matters set forth in this § 5 of the General Terms shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor and each Securityholder.	Die in diesem § 5 der Allgemeinen Bedingungen dargelegten Angelegenheiten sind abschließend in Bezug auf die vorstehenden Angelegenheiten unter Ausschluss anderer Verträge, Vereinbarungen oder Abreden zwischen der Emittentin, der Garantin und jedem Wertpapierinhaber.
No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Paying Agent, shall be borne by any Securityholder.	Wertpapierinhaber tragen keine für die Verfahren unter dieser Bedingung notwendigen Aufwendungen, einschließlich, jedoch nicht beschränkt auf, die Aufwendungen, die der maßgeblichen Emittentin, gegebenenfalls der Garantin und der Zahlstelle entstehen.
For the purpose of this § 5 of the General Terms**:**	Zu Zwecken dieses § 5 der Allgemeinen Bedingungen:
"**Amounts Due**" means the prevailing outstanding amounts of the Securities issued by the Issuer, and any accrued and unpaid interest on such Securities that have not been previously cancelled or otherwise are no longer due.	"**Fällige Beträge**" bezeichnet die aktuellen ausstehenden Beträge der von der maßgeblichen Emittentin begebenen Wertpapieren sowie alle aufgelaufenen und nicht gezahlten Zinsen auf die Wertpapiere, die nicht zuvor annulliert wurden oder in anderer Weise nicht länger fällig sind.
"**MREL**" means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).	"**MREL**" bezeichnet die Mindestanforderung an Eigenmittel und berücksichtigungsfähige Verbindlichkeiten gemäß Definition in der Richtlinie 2014/59/EU des Europäischen Parlaments und des Rates vom 15. Mai 2014 zur Festlegung eines Rahmens für die Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen (in der jeweils geltenden Fassung).

§ 6 **SUBSTITUTION OF THE ISSUER**	**§ 6** **ERSETZUNG DER EMITTENTIN**
1. At any time during the life of the Securities and subject to paragraph 2, the Issuer is entitled to substitute any other company (hereinafter called a "**New Issuer**") for itself as Issuer without the consent of any Securityholder. In such case, the New Issuer may assume all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the respective effective date shall be notified by the Issuer in accordance with § 7 of the General Terms.	1. Die Emittentin ist berechtigt, jederzeit während der Laufzeit der Wertpapiere, vorbehaltlich Absatz 2 und ohne Zustimmung der Wertpapierinhaber, jede andere Gesellschaft (nachfolgend die "**Neue Emittentin**") an ihrer Stelle als Emittentin unter den Wertpapieren einzusetzen. In diesem Fall übernimmt die Neue Emittentin sämtliche Verpflichtungen der Emittentin aus und im Zusammenhang mit den Wertpapieren. Die Übernahme und der Zeitpunkt ihres Wirksamwerdens werden von der Emittentin gemäß § 7 der Allgemeinen Bedingungen bekannt gemacht.
Upon any such substitution, the New Issuer shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 6 of the General Terms, each previous issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.	Bei einer solchen Übernahme folgt die Neue Emittentin der Emittentin im Recht nach und tritt in jeder Hinsicht an deren Stelle; sie kann alle sich für die Emittentin aus den Wertpapieren ergebenden Rechte und Befugnisse mit derselben Wirkung ausüben, als wäre die Neue Emittentin in diesen Emissionsbedingungen als Emittentin bezeichnet worden. Die Emittentin (und im Falle einer wiederholten Anwendung dieses § 6 der Allgemeinen Bedingungen, jede etwaige frühere Neue Emittentin) wird damit von ihren Verpflichtungen aus diesen Emissionsbedingungen und ihrer Haftung als Schuldnerin aus den Wertpapieren befreit.
In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on refer to the New Issuer.	Nach dem Wirksamwerden einer solchen Übernahme gilt jede in diesen Emissionsbedingungen enthaltene Bezugnahme auf die Emittentin fortan als Bezugnahme auf die Neue Emittentin.
2. No such assumption shall be permitted unless	2. Eine solche Übernahme ist nur zulässig, wenn
(a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;	(a) die Neue Emittentin alle Verpflichtungen der Emittentin aus den Wertpapieren übernimmt;
(b) the Issuer or the Guarantor has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities **[**German Central Register Security**][**and, to the extent permissible, the Guarantee is entered in the central register as main content of the right in accordance with § 13 (1) No. 1 eWpG**]**; and	(b) die Emittentin oder die Garantin sämtliche zu übernehmenden Verpflichtungen der Neuen Emittentin aus den Wertpapieren zugunsten der Wertpapierinhaber garantiert **[**Deutsche Zentralregisterwertpapiere**][**und, soweit zulässig, die Garantie als wesentlicher Inhalt des Rechts gemäß § 13 Abs. 1 Nr. 1 eWpG im zentralen Register eingetragen wird**]** und
(c) the New Issuer has obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the New Issuer is domiciled or the country under the laws of which it is organised.	(c) die Neue Emittentin alle erforderlichen staatlichen Ermächtigungen, Erlaubnisse, Zustimmungen und Bewilligungen in den Ländern erlangt hat, in denen die Neue Emittentin ihren Sitz hat oder nach deren Recht sie gegründet ist.

3. Upon any substitution of the Issuer for a New Issuer, this § 6 of the General Terms shall apply again.	3. Nach Ersetzung der Emittentin durch eine Neue Emittentin findet dieser § 6 der Allgemeinen Bedingungen erneut Anwendung.
§ 7 **NOTICES**	**§ 7** **BEKANNTMACHUNGEN**
Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website www.warrants.com (or on another website notified at least six weeks in advance by the Issuer in accordance with this section in the Federal Gazette (*Bundesanzeiger*)) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.	Soweit diese Emissionsbedingungen Bekanntmachungen gemäß diesem Paragraphen vorsehen, werden diese auf der Internetseite www.warrants.com (oder auf einer anderen Internetseite, welche die Emittentin mit einem Vorlauf von mindestens sechs Wochen nach Maßgabe dieser Bestimmung und im Bundesanzeiger bekannt macht), veröffentlicht und mit dieser Veröffentlichung den Wertpapierinhabern gegenüber wirksam, soweit nicht in der Bekanntmachung ein späterer Wirksamkeitszeitpunkt bestimmt wird. Wenn und soweit zwingende Bestimmungen des geltenden Rechts oder Börsenbestimmungen Veröffentlichungen an anderer Stelle vorsehen, erfolgen diese gegebenenfalls zusätzlich an jeweils vorgeschriebener Stelle.
Other publications with regard to the Securities are published on the website www.societegenerale.com (or any successor website).	Sonstige Veröffentlichungen in Bezug auf die Wertpapiere werden auf der Internetseite www.societegenerale.com (oder einer Nachfolgeseite) veröffentlicht.
§ 8 **ISSUANCE OF ADDITIONAL SECURITIES, [REVERSE SPLIT,] REPURCHASE OF SECURITIES**	**§ 8** **BEGEBUNG ZUSÄTZLICHER WERTPAPIERE, [REVERSE SPLIT,] RÜCKERWERB**
1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.	1. Die Emittentin behält sich vor, ohne Zustimmung der Wertpapierinhaber weitere Wertpapiere mit im Wesentlichen gleicher Ausstattung in der Weise zu begeben, dass sie mit den Wertpapieren zu einer einheitlichen Serie von Wertpapieren konsolidiert werden und ihr Gesamtvolumen erhöhen. Der Begriff "Wertpapiere" umfasst im Falle einer solchen Konsolidierung auch solche zusätzlich begebenen Wertpapiere.
[2. The Issuer is entitled, under certain circumstances, as determined in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) (e.g., if the market price of the Securities reaches such a low level that the efficiency of the secondary market may be impaired), to carry out a "**Reverse Split**" (consolidation) of the Securities without the consent of the Securityholders.	**[**2. Die Emittentin ist unter bestimmten Umständen nach ihrem billigen Ermessen (§ 315 BGB) berechtigt, einen "**Reverse Split**" (Zusammenlegung) der Wertpapiere ohne Zustimmung der Wertpapierinhaber durchzuführen (beispielsweise, wenn der Marktpreis der Wertpapiere ein derart niedriges Niveau erreicht, dass die Funktionsfähigkeit des Sekundärmarkts beeinträchtigt werden könnte).
In order to trigger such Reverse Split, the Issuer shall give notice to the Securityholders (the "**RS Announcement**") at least **[***number***]** calendar days prior to the effective date of the Reverse Split, to be intended, unless differently stated in the RS Announcement, as the date from which the Securities post Reverse Split will start to be traded on the relevant trading venue (as set out in the RS	Zur Durchführung eines solchen Reverse Split hat die Emittentin die Wertpapierinhaber mindestens **[***Anzahl***]** Kalendertage vor dem Wirksamkeitstag des Reverse Split durch Bekanntmachung (die "**RS-Bekanntmachung**") zu informieren. Sofern in der RS-Bekanntmachung nicht anders angegeben, bezeichnet dieses Datum den Tag, ab dem die nach Durchführung des Reverse Split bestehenden

Announcement, the "**RS Effective Date**") in accordance with § 7 of the General Terms.	Wertpapiere am maßgeblichen Handelsplatz gehandelt werden (wie in der RS-Bekanntmachung festgelegt, der "**RS-Wirksamkeitstag**"). Die Bekanntmachung erfolgt gemäß § 7 der Allgemeinen Bedingungen.
The Reverse Split will take effect in accordance with the following:	Der Reverse Split wird nach Maßgabe der folgenden Bestimmung wirksam:
(a) Subject to paragraph (d) below, the number of Securities held by each Securityholder (the "**Pre-RS Securities**" and the entire holding of Pre-RS Securities by such Securityholder the "**Pre-RS Holding**"), shall be divided by the Conversion Factor (as defined below) and the result will be rounded down to the next integer number ("**Integer Number**" and the resultant in excess of the Integer Number, the "**Fractional Amount**").	(a) Vorbehaltlich Absatz (d) wird die von jedem Wertpapierinhaber gehaltene Anzahl von Wertpapieren (die "**Pre-RS-Wertpapiere**" und der gesamte Bestand solcher Pre-RS-Wertpapiere eines Wertpapierinhabers der "**Pre-RS-Bestand**") durch den Umrechnungsfaktor (wie nachstehend definiert) dividiert. Das Ergebnis wird auf die nächstniedrigere ganze Zahl abgerundet (die "**Ganzzahl**"). Der über die Ganzzahl hinausgehende Bruchteil stellt den "**Spitzenausgleichsbetrag**" dar.
(b) The Pre-RS Securities are then converted into such smaller number of securities equal to the Integer Number (the "**Converted Securities**" and the entire holding of Converted Securities by such Securityholder, the "**Post-RS Holding**"). In respect of each Securityholder, this activity as that of previous sub-paragraph (a) shall be performed by the account holding bank on which the Securities subject to Reverse Split held by the relevant Securityholder are registered (the "**Depositary Bank**").	(b) Die Pre-RS-Wertpapiere werden anschließend in eine entsprechend geringere Anzahl von Wertpapieren umgewandelt, die der Ganzzahl entspricht (die "**Umgewandelten Wertpapiere**"; der gesamte Bestand solcher Umgewandelter Wertpapiere eines Wertpapierinhabers wird als "**Post-RS-Bestand**" bezeichnet). Diese Maßnahme sowie die in vorstehendem Unterabsatz (a) beschriebene Berechnung werden für jeden Wertpapierinhaber durch die depotführende Bank durchgeführt, bei der die dem Reverse Split unterliegenden Wertpapiere des jeweiligen Wertpapierinhabers verwahrt werden (die "**Depotführende Bank**").
(c) The "**RS Settlement Amount**" is determined by multiplying the Fractional Amount by the Redemption Amount as determined in accordance with the provisions of § 2 para. 2 et seq. of the Product-Specific Terms. In this respect, the day immediately preceding the RS Effective Date shall in all respects supersede the Redemption Date. The Issuer, in accordance with § 4 para. 2 of the Product-Specific Terms, shall make the funds available to the Depositary Bank for the payment of the RS Settlement Amount on the day falling three Payment Business Days following the RS Effective Date (the "**Fractional Amount Settlement Date**"). The Depositary Banks, responsible for crediting the RS Settlement Amount to the relevant Securityholders, shall make the payment as soon as feasible starting from the Fractional Amount Settlement Date in accordance with their procedures. All further claims of the Securityholder with respect to such Fractional Amount shall be discharged by payment of the relevant RS Settlement Amount by the Depositary Banks on or around the Fractional Amount Settlement Date.	(c) Der "**RS-Abrechnungsbetrag**" wird ermittelt, indem der Spitzenausgleichsbetrag mit dem Auszahlungsbetrag multipliziert wird, der gemäß § 2 Abs. 2 ff. der Produktspezifischen Bedingungen bestimmt wird. Für diesen Zweck tritt der dem RS-Wirksamkeitstag unmittelbar vorausgehende Tag in jeder Hinsicht an die Stelle des Einlösungstags. Die Emittentin stellt der Depotführenden Bank gemäß § 4 Abs. 2 der Produktspezifischen Bedingungen die zur Zahlung des RS-Abrechnungsbetrags erforderlichen Mittel an dem Tag zur Verfügung, der auf den dritten Zahlungsgeschäftstag nach dem RS-Wirksamkeitstag fällt (der "**Spitzenausgleichsabrechnungstag**"). Die Depotführende Banken, die für die Gutschrift des RS-Abrechnungsbetrag an die jeweiligen Wertpapierinhaber verantwortlich sind, leisten die entsprechende Zahlung so bald wie praktisch durchführbar ab dem Spitzenausgleichsabrechnungstag gemäß ihren jeweiligen Verfahren. Mit Zahlung des jeweiligen RS-Abrechnungsbetrags durch die Depotführende Banken am oder um den Spitzenausgleichsabrechnungstag gelten

	sämtliche weiteren Ansprüche des Wertpapierinhabers hinsichtlich des betreffenden Spitzenausgleichsbetrags als vollständig erfüllt und abgegolten.
(d) For the avoidance of any doubts, the previous sub-paragraph (c) shall also apply, if a Securityholder holds a number of Pre-RS Securities that is lower than the Conversion Factor (each such Security, an "**Unconverted Security**"), such that the Pre-RS Securities divided by the Conversion Factor results in a number below one, which number shall be the Fractional Amount.	(d) Zur Klarstellung gilt der vorstehende Unterabsatz (c) auch dann, wenn ein Wertpapierinhaber eine Anzahl von Pre-RS-Wertpapieren hält, die unter dem Umrechnungsfaktor liegt (jedes solches Wertpapier ein "**Nichtumgewandeltes Wertpapier**"), sodass die Division der Pre-RS-Wertpapiere durch den Umrechnungsfaktor zu einem Ergebnis von weniger als eins führt. Dieses Ergebnis stellt den Spitzenausgleichsbetrag dar.
The Reverse Split mechanism is such to ensure that the first theoretical market value of the Post-RS Holding calculated on the RS-Effective Date (without considering the impact of the market movements of all the variables impacting on the prices of the Securities) plus the RS Settlement Amount is equal to the last market value of the Pre-RS Holding calculated on the trading day immediately before the RS Effective Date.	Der Reverse-Split-Mechanismus ist so ausgestaltet, dass der erste theoretische Marktwert der Post-RS-Bestands am RS-Wirksamkeitstag (ohne Berücksichtigung von Marktbewegungen sämtlicher Variablen, die Einfluss auf den Preis der Wertpapiere haben) zuzüglich des RS-Abrechnungsbetrag dem letzten Marktwert der Pre-RS-Bestands am unmittelbar vor dem RS-Wirksamkeitstag liegenden Handelstag entspricht.
The applicable "**Conversion Factor**" will be set out in the RS Announcement.	Der jeweils anwendbare "**Umrechnungsfaktor**" wird in der RS-Bekanntmachung bekannt gegeben.
[As of the RS Effective Date, the Terms and Conditions of the Converted Securities shall be construed to reflect such Reverse Split; in particular, the number of the issued Securities shall be construed to be replaced by the number of Converted Securities, the NPV subsequently determined for each Converted Security shall be construed to be adjusted to reflect the application of the Conversion Factor and all references to Securities shall be references to the Converted Securities.**]** **[**On the RS Effective Date, the Issuer will amend the Terms and Conditions attached to the Global Security to reflect the Reverse Split.**]** The Issuer may take all such **[**further**]** steps as are required, in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), to implement a Reverse Split, including assigning a new ISIN to the Securities. The Issuer shall publish such steps to the Securityholders in the RS Announcement.**]]**	**[**Ab dem RS-Wirksamkeitstag sind die Bedingungen der Umgewandelten Wertpapiere so auszulegen, dass sie den Reverse Split widerspiegeln. Insbesondere gilt die Anzahl der ausgegebenen Wertpapiere als durch die Anzahl der Umgewandelten Wertpapiere ersetzt; der für jedes Umgewandelte Wertpapier künftig bestimmte Kapitalwert gilt als entsprechend der Anwendung des Umrechnungsfaktors angepasst, und sämtliche Verweise auf Wertpapiere gelten als Verweise auf die Umgewandelten Wertpapiere.**]** **[**Am RS-Wirksamkeitstag wird die Emittentin die mit der Globalurkunde verbundenen Emissionsbedingungen entsprechend anpassen, um den Reverse Split abzubilden.**]** Die Emittentin kann nach ihrem billigen Ermessen (§ 315 BGB) alle **[**weiteren**]** Maßnahmen ergreifen, die zur Umsetzung eines Reverse Split erforderlich sind, einschließlich der Zuteilung einer neuen ISIN für die Wertpapiere. ●. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.	●. Die Emittentin kann jederzeit Wertpapiere am Markt oder anderweitig erwerben. Wertpapiere, die von oder im Namen der Emittentin erworben wurden, können von der Emittentin gehalten, neu ausgegeben, weiterverkauft oder zur Einziehung an die Zahlstelle ausgehändigt werden.

§ 9 LIMITATION OF LIABILITY, PRESENTATION PERIODS, PRESCRIPTIONS	§ 9 HAFTUNGSBESCHRÄNKUNGEN, VORLEGUNGSFRISTEN, VERJÄHRUNG
1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to **[**the Paying Agent and**]** the Calculation Agent.	1. Für die Vornahme oder Unterlassung von Maßnahmen jedweder Art im Zusammenhang mit den Wertpapieren haftet die Emittentin nur in den Fällen einer schuldhaften Verletzung wesentlicher Pflichten aus oder im Zusammenhang mit diesen Emissionsbedingungen oder einer vorsätzlichen oder grob fahrlässigen Verletzung sonstiger Pflichten. Das Gleiche gilt für **[**die Zahlstelle und**]** die Berechnungsstelle.
2. The period for presentation of the Securities (§ 801 (1) sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period. **[**German Central Register Security**][**The presentation is made by express request for performance, with credible proof of the entitlement (§ 29 (2) eWpG).**]**	2. Die Vorlegungsfrist gemäß § 801 Abs. 1 Satz 1 BGB für die Wertpapiere beträgt 10 Jahre und die Verjährungsfrist für Ansprüche aus den Wertpapieren, die innerhalb der Vorlegungsfrist zur Zahlung vorgelegt wurden, beträgt zwei Jahre von dem Ende der betreffenden Vorlegungsfrist an. **[**Deutsche Zentralregisterwertpapiere**]**[Die Vorlegung erfolgt durch ausdrückliches Leistungsverlangen unter Glaubhaftmachung der Berechtigung (§ 29 Abs. 2 eWpG).**]**
§ 10 **PARTIAL INVALIDITY, CORRECTIONS**	**§ 10** **TEILUNWIRKSAMKEIT, KORREKTUREN**
1. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 7 of the General Terms. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.	1. Offensichtliche Schreib- oder Rechenfehler oder ähnliche offenbare Unrichtigkeiten in den Emissionsbedingungen berechtigen die Emittentin zur Anfechtung gegenüber den Wertpapierinhabern. Die Anfechtung ist unverzüglich nach Erlangung der Kenntnis von einem solchen Anfechtungsgrund gemäß § 7 der Allgemeinen Bedingungen zu erklären. Nach einer solchen Anfechtung durch die Emittentin kann der Wertpapierinhaber die depotführende Bank veranlassen, eine ordnungsgemäß ausgefüllte Rückzahlungserklärung bei der Zahlstelle auf einem dort erhältlichen Formular bzw. unter Abgabe aller in dem Formular geforderten Angaben und Erklärungen (die "**Rückzahlungserklärung**") einzureichen und die Rückzahlung des Ausgabepreises gegen Übertragung der Wertpapiere auf das Konto der Zahlstelle bei dem Clearing System zu verlangen. Die Emittentin wird bis spätestens 30 Kalendertage nach Eingang der Rückzahlungserklärung sowie der Wertpapiere bei der Zahlstelle, je nachdem, welcher Tag später ist, den Ausgabepreis der Zahlstelle zur Verfügung stellen, die diesen auf das in der Rückzahlungserklärung angegebene Konto überweisen wird. Mit der Zahlung des Ausgabepreises erlöschen alle Rechte aus den eingereichten Wertpapieren.
2. The Issuer may combine the declaration of rescission pursuant to paragraph 1 with an offer to continue the Securities on the basis of corrected	2. Die Emittentin kann mit der Anfechtungserklärung gemäß Absatz 1 ein Angebot auf Fortführung der Wertpapiere mit berichtigten Emissionsbedingungen

Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 7 of the General Terms. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 7 of the General Terms by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 1. The Issuer shall refer to this effect in the notification.	verbinden. Ein solches Angebot sowie die berichtigten Bestimmungen werden den Wertpapierinhabern zusammen mit der Anfechtungserklärung gemäß § 7 der Allgemeinen Bedingungen mitgeteilt. Ein solches Angebot gilt als von einem Wertpapierinhaber angenommen, wenn der Wertpapierinhaber nicht innerhalb von vier Wochen nach Wirksamwerden des Angebots gemäß § 7 der Allgemeinen Bedingungen durch Einreichung einer ordnungsgemäß ausgefüllten Rückzahlungserklärung über die depotführende Bank bei der Zahlstelle sowie durch Übertragung der Wertpapiere auf das Konto der Zahlstelle bei dem Clearing System gemäß Absatz 1. die Rückzahlung des Ausgabepreises verlangt. In diesem Fall treten die Wirkungen der Anfechtung nicht ein. Die Emittentin wird die Wertpapierinhaber in der Mitteilung hierauf hinweisen.
3. "**Issue Price**" within the meaning of paragraphs 1 and 2 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) of the traded prices of the Securities on the Business Day preceding the declaration of rescission pursuant to paragraph 1. If a Market Disruption Event exists on the Business Day preceding the declaration of rescission pursuant to paragraph 1, the last Business Day preceding the declaration of rescission pursuant to paragraph 1 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.	3. Als "**Ausgabepreis**" im Sinne der Absätze 1 und 2 gilt der vom jeweiligen Wertpapierinhaber gezahlte tatsächliche Erwerbspreis (wie in der Rückzahlungserklärung angegeben und nachgewiesen) bzw. das von der Berechnungsstelle nach billigem Ermessen (§ 317 BGB) bestimmte gewichtete arithmetische Mittel der an dem der Erklärung der Anfechtung gemäß Absatz 1. vorhergehenden Geschäftstag gehandelten Preise der Wertpapiere, je nachdem welcher dieser Beträge höher ist. Liegt an dem der Erklärung der Anfechtung gemäß Absatz 1. vorhergehenden Geschäftstag eine Marktstörung vor, so ist für die Preisermittlung nach vorstehendem Satz der letzte der Anfechtung gemäß Absatz 1 vorhergehende Geschäftstag an dem keine Marktstörung vorlag, maßgeblich.
4. Contradictory or incomplete provisions in the **[**German Central Register Security**][**recorded**]** Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 7 of the General Terms.	4. Widersprüchliche oder lückenhafte Bestimmungen in den **[**Deutsche Zentralregisterwertpapiere**][**niedergelegten**]** Emissionsbedingungen kann die Emittentin nach billigem Ermessen (§ 315 BGB) berichtigen bzw. ergänzen. Dabei sind nur solche Berichtigungen oder Ergänzungen zulässig, die unter Berücksichtigung der Interessen der Emittentin für die Wertpapierinhaber zumutbar sind und insbesondere die rechtliche und finanzielle Situation der Wertpapierinhaber nicht wesentlich verschlechtern. Solche Berichtigungen oder Ergänzungen werden den Wertpapierinhabern gemäß § 7 der Allgemeinen Bedingungen mitgeteilt.
5. If a Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 1–4, such Securityholder can be bound by the Issuer to the corrected Terms and Conditions.	5. Waren dem Wertpapierinhaber Schreib- oder Rechenfehler oder ähnliche Unrichtigkeiten in den Emissionsbedingungen beim Erwerb der Wertpapiere bekannt, so kann die Emittentin den Wertpapierinhabern ungeachtet der Absätze 1 bis 4 an entsprechend berichtigten Emissionsbedingungen festhalten.

6. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 1–4 above.	6. Sollte eine Bestimmung dieser Emissionsbedingungen ganz oder teilweise unwirksam sein oder werden, so bleiben die übrigen Bestimmungen wirksam. Die unwirksame Bestimmung ist durch eine wirksame Bestimmung zu ersetzen, die den wirtschaftlichen Zwecken der unwirksamen Bestimmung so weit wie rechtlich möglich Rechnung trägt. Die Emittentin kann jedoch auch in solchen Fällen nach Absätzen 1 bis 4 vorgehen.
§ 11 **GOVERNING LAW, PLACE OF PERFORMANCE, PLACE OF JURISDICTION**	**§ 11** **ANWENDBARES RECHT, ERFÜLLUNGSORT, GERICHTSSTAND**
1. The form and the content of the Securities and the rights and duties arising therefrom as well as the Guarantee shall in all respect be governed by the laws of the Federal Republic of Germany.	1. Die Form und der Inhalt der Wertpapiere und alle Rechte und Pflichten aus diesen sowie der Garantie unterliegen ausschließlich dem Recht der Bundesrepublik Deutschland.
Any non-contractual obligations arising out of or in connection with the Securities shall be governed exclusively by the laws of the Federal Republic of Germany.	Alle nicht vertraglichen Verpflichtungen aus oder im Zusammenhang mit den Wertpapieren unterliegen ausschließlich dem Recht der Bundesrepublik Deutschland.
2. Non-exclusive court of venue for all litigation with the Issuer arising from the legal relations established in these Terms and Conditions (except for the Guarantee) is Frankfurt am Main. Federal Republic of Germany. Place of performance is Frankfurt am Main, Federal Republic of Germany. The jurisdiction of such court shall be exclusive if proceedings are brought by merchants (*Kaufleute*), legal persons under public law (*juristische Personen des öffentlichen Rechts*), special funds under public law (*öffentlich-rechtliche Sondervermögen*) and persons not subject to the general jurisdiction of the courts of the Federal Republic of Germany (*Personen ohne allgemeinen Gerichtsstand in der Bundesrepublik Deutschland*).	2. Nicht ausschließlicher Gerichtsstand für alle Rechtsstreitigkeiten mit der Emittentin aus den in diesen Bedingungen (außer der Garantie) geregelten Rechtsangelegenheiten ist Frankfurt am Main, Bundesrepublik Deutschland. Erfüllungsort ist Frankfurt am Main, Bundesrepublik Deutschland. Der Gerichtsstand ist ausschließlich für alle Verfahren, die von Kaufleuten, juristischen Personen des öffentlichen Rechts, öffentlich-rechtlichen Sondervermögen und Personen ohne allgemeinen Gerichtsstand in der Bundesrepublik Deutschland angestrengt werden.
3. The Issuer appoints Société Générale, Frankfurt Branch, currently of Neue Mainzer Str. 46-50, 60311 Frankfurt am Main, Federal Republic of Germany, as its authorised recipient (*Zustellungsbevollmächtigter*, the "**Authorised Recipient**"), and undertakes that, in the event of Société Générale, Frankfurt Branch ceasing so to act or ceasing to be registered in Germany, it will appoint another person as its Authorised Recipient in Germany in respect of any proceedings. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.	3. Die Emittentin bestellt Société Générale, Niederlassung Frankfurt, derzeit Neue Mainzer Str. 46-50, 60311 Frankfurt am Main, Bundesrepublik Deutschland, zur Zustellungsbevollmächtigten und verpflichtet sich für den Fall, dass Société Générale, Niederlassung Frankfurt nicht mehr in dieser Eigenschaft tätig oder nicht mehr in Deutschland registriert ist, eine andere Person zur Zustellungsbevollmächtigten in Deutschland für alle Verfahren zu bestellen. Das Recht, Zustellungen in einer anderen gesetzlich zulässigen Weise vorzunehmen, bleibt von dieser Bestimmung unberührt.
4. To the extent permitted by law, the regional court (*Landgericht*) in Frankfurt am Main, Federal Republic of Germany, shall have exclusive jurisdiction over all	4. § 1 **DEFINITIONS**	**§ 1** **DEFINITIONEN**
For the purposes of these Product-Specific Terms, the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:	Für die Zwecke dieser Produktspezifischen Bedingungen gelten, vorbehaltlich etwaiger Anpassungen nach diesen Emissionsbedingungen, die folgenden Begriffsbestimmungen:
General Definitions	Allgemeine Definitionen
The "**Calculation Fee**" means **[***calculation fee***]**% p.a., which is deducted on a calendar-daily basis (based on a **[**360**][**365**]**-day year) in the NPV calculation.	Die "**Berechnungsgebühr**" entspricht **[***Berechnungsgebühr***]**% p.a., die kalendertäglich (auf Basis eines **[**360**][**365**]**-Tage-Jahres) bei der Berechnung des Kapitalwerts in Abzug gebracht wird.
The "**Collateral Fee**" is a "per annum rate" and includes the cost that would be incurred by the Issuer (and/or it affiliates) if it were to borrow the Collateral Assets (through, for example, but without limitation, a securities lending or repurchase agreement) for an amount equal to the market value of the Security as of such Business Day. The Collateral Fee is deducted on a calendar-daily basis (based on a **[**360**][**365**]**-day year) in the NPV calculation. The Collateral Fee shall be determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) by taking into account prevailing market conditions on each Business Day. The applicable Collateral Fee shall be published on the website www.warrants.com. The initial Collateral Fee corresponds to **[***initial collateral fee***]**% p.a.	Die "**Besicherungsgebühr**" ist ein "per annum-Satz" und umfasst die Kosten, die der Emittentin (und/oder ihren verbundenen Unternehmen) entstehen würden, wenn sie die Besicherungswerte (z.B. durch ein Wertpapierleih- oder Rückkaufgeschäft) für einen Betrag ausleihen würde, der dem Marktwert der Wertpapiere an diesem Geschäftstag entspricht. Die Besicherungsgebühr wird bei der Barwertberechnung kalendertäglich (auf Basis eines **[**360**][**365**]**-Tage-Jahres) abgezogen. Die Besicherungsgebühr wird von der Berechnungsstelle nach billigem Ermessen (§ 317 BGB) unter Berücksichtigung der an jedem Geschäftstag herrschenden Marktbedingungen festgelegt. Das geltende Sicherheitsentgelt wird auf der Internetseite www.warrants.com veröffentlicht. Die anfängliche Besicherungsgebühr entspricht **[***anfängliche Berechnungsgebühr***]**% p.a.
"**Fixing Date**" means the Business Day prior to the Launch Date.	"**Festlegungstag**" ist der Geschäftstag direkt vor dem Ausgabetag.
The "**IC Rate**" is a "per annum rate" and includes the hypothetical costs that would be incurred in tracking the performance of the NPV. The amount of the IC Rate corresponds to **[***IC rate***]**% p.a. (based on a **[**360**][**365**]**-day year). The Calculation Agent may apply a lower IC Rate with effect from the Launch Date or an ICR Adjustment Date. Such a reduced IC Rate will be announced in accordance with § 7 of the General Terms. Starting with the Launch Date, a reduced IC Rate will be used. Such initial IC Rate corresponds to **[***initial IC rate***]**% p.a.	Der "**IK-Satz**" ist ein "per annum Satz" und beinhaltet die hypothetischen Kosten, die bei der Nachbildung der Wertentwicklung des Kapitalwerts anfallen würden. Die Höhe des IK-Satzes entspricht **[***IK-Satz***]**% p.a. (auf Basis eines **[**360**][**365**]**-Tage-Jahres). Die Berechnungsstelle kann einen geringeren IK-Satz mit Wirkung zum Ausgabetag oder zu einem IK-Anpassungstermin anwenden. Ein derart reduzierter IK-Satz wird gemäß § 7 der Allgemeinen Bedingungen bekanntgegeben. Beginnend mit dem Ausgabetag kommt ein reduzierter IK-Satz zur Anwendung. Dieser anfänglicher IK-Satz entspricht **[***anfänglicher IK-Satz***]**% p.a.
"**ICR Adjustment Date**" means **[**each**][**the 10th and the final**][●]** NPV Calculation Day **[**of a month**]**.	"**IKS-Anpassungstermin**" ist **[**jeder**][**jeweils der 10. und der letzte**][●]** Kapitalwert-Berechnungstag **[**eines Monats**]**.
"**Issue Currency**" or **["EUR"] ["***abbreviation Issue Currency***"]** means **[**Euro**] [[***Issue Currency***]]**.	"**Emissionswährung**" oder **["EUR"] ["***Abkürzung der Emissionswährung***"]** bedeutet **[**Euro**] [[***Emissionswährung***]]**.

"**Launch Date**" means **[***launch date***]**.	"**Ausgabetag**" ist der **[***Ausgabetag***]**.
"**NPV Calculation Time**" means the point in time immediately following the determination and publication of the Reference Price.	"**Kapitalwert-Berechnungszeitpunkt**" ist der Zeitpunkt unmittelbar nach der Feststellung und Veröffentlichung des Referenzpreises.
"**Observation Period**" means in each case the period between an NPV Calculation Time (including) and the next following NPV Calculation Time. The first Observation Period starts **[**on the Launch Date at **[***time***]** (local time Frankfurt am Main)**][**on the Fixing Date immediately following the determination of the Price Level**]**.	"**Beobachtungszeitraum**" ist jeweils der Zeitraum zwischen einem Kapitalwert-Berechnungszeitpunkt (einschließlich) und dem unmittelbar nachfolgenden Kapitalwert-Berechnungszeitpunkt. Der erste Beobachtungszeitraum beginnt **[**am Ausgabetag um **[***Zeit***]** Uhr (Ortszeit Frankfurt am Main)**][**am Festlegungstag unmittelbar nach Festlegung des Kurslevels**]**.
The first and every subsequent Observation Period ends in each case with the determination of the Reference Price (inclusive).	Der erste und jeder weitere Beobachtungszeitraum endet jeweils mit der Feststellung des Referenzpreises (einschließlich).
"**Payment Business Day**" means **[**T2**][**a day on which T2 (the real time gross settlement system operated by the Eurosystem or any successor or replacement for that system) and the Clearing System settle payments in the Issue Currency**] [**Other cases**][**a day on which banks are open for business (including dealings in foreign exchange and foreign currency deposits) in **[***city***]** and Frankfurt am Main and on which the Clearing System settles payments in the Issue Currency**]**. Should the continuous trading of the Underlying on the Exchange be halted during the Adjustment Period then the Adjustment Period will be deemed suspended until the resumption of the continuous trading of the Underlying on the Exchange, as long as it does not extend to the next Observation Period. In such case the Adjustment Period shall end with the end of continuous trading of the Underlying on the Exchange for such Observation Period and shall include the Price Level. The Calculation Agent may decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB), by taking into account prevailing market conditions and the size of the hedging to be processed in the market, if the Adjustment Period is to be extended to the next Observation Period. For this purpose, auction periods on the Exchange (as provided under the rules of the Exchange) are not considered to be a part of the Adjustment Period. However, every Underlying Price, even if calculated in an auction, will be considered as possible Adjustment Price.	Sollte der fortlaufende Handel des Basiswertes an der Börse während des Anpassungszeitraums unterbrochen werden, so wird der Anpassungszeitraum bis zur Wiedereröffnung des fortlaufenden Handels an der Börse gehemmt, sofern er sich nicht auf den nächsten Beobachtungszeitraum erstreckt. In diesem Fall endet der Anpassungszeitraum mit dem Ende des fortlaufenden Handels des Basiswerts an der Börse für diesen Beobachtungszeitraum und schließt das Kurslevel ein. Die Berechnungsstelle kann nach billigem Ermessen (§ 317 BGB) unter Berücksichtigung der marktüblichen Marktbedingungen und der Größe der am Markt zu verarbeitenden Absicherung entscheiden, ob der Anpassungszeitraum im nächsten Beobachtungszeitraum fortgesetzt wird. Für diesen Zweck gilt ein möglicher Auktionszeitraum an der Börse (wie im Regelwerk der Börse vorgesehen) nicht als Bestandteil des entsprechenden Anpassungszeitraumes, jedoch der in der Auktion ermittelte Kurs des Basiswertes als möglicher Anpassungskurs.

"**Futures Exchange**" means the exchange or trading system with the highest trading volume of options or futures contracts relating to the Share. If options or futures contracts on the Share are not traded on any exchange, the Futures Exchange shall be the options or futures exchange with the highest amount of options or futures contracts relating to shares of companies having their residence in the country in which the Company has its residence. If there is no options or futures exchange in the country in which the Company has its residence on which options or futures contracts on shares are traded, the Calculation Agent will determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) and will make notification thereof in accordance with § 7 of the General Terms.	"**Terminbörse**" bezeichnet die Börse oder das Handelssystem mit dem größten Handelsvolumen von Options- oder Terminkontrakten in Bezug auf die Aktie. Werden an keiner Börse Options- oder Terminkontrakte auf die Aktie gehandelt, ist die Terminbörse diejenige Terminbörse mit dem größten Handelsvolumen von Options- oder Terminkontrakten auf Aktien von Gesellschaften, die ihren Sitz in demselben Land haben, in dem die Gesellschaft der Aktie ihren Sitz hat. "**Market Disruption Event**" means the occurrence or existence of any suspension of, or limitation imposed on, trading in the Share on the Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB). The occurrence of a Market Disruption Event shall be published in accordance with § 7 of the General Terms.	"**Marktstörung**" bedeutet die Aussetzung oder die Einschränkung des Handels der Aktie an der Börse, sofern die Aussetzung oder Einschränkung wesentlich ist. Über die Wesentlichkeit entscheidet die Berechnungsstelle nach billigem Ermessen (§ 317 BGB). Das Vorliegen einer Marktstörung wird nach § 7 der Allgemeinen Bedingungen bekannt gemacht.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the respective exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event if such limitation still prevails at the NPV Calculation Time on such date.	Eine Beschränkung der Stunden oder der Anzahl der Tage, an denen ein Handel stattfindet, gilt nicht als Marktstörung, sofern die Einschränkung auf einer vorher angekündigten Änderung der regulären Geschäftszeiten der betreffenden Börse beruht. Eine im Laufe des Tages auferlegte Beschränkung im Handel aufgrund von Preisbewegungen, die bestimmte vorgegebene Grenzen überschreiten, gilt nur als Marktstörung, wenn sie zum Kapitalwert-Berechnungszeitpunkt an dem betreffenden Tag andauert.

The "**Adjustment Period**" means a period of **[**five minutes**][**up to 10 minutes**][***time period***]**.	Der "**Anpassungszeitraum**" bezeichnet eine Zeitspanne von **[**fünf Minuten**][**bis zu 10 Minuten**][***Zeitspanne***]**.
Should the Adjustment Period last over the end of the continuous trading of any Index Component on any Index Component Exchange, it will be continued after the reopening of the continuous trading of the Index Components on any Index Component Exchange or the restart of the calculation of the Underlying, as long as it does not extend to the next Observation Period. In such case the Adjustment Period shall end with the end of continuous trading of any Index Component on any Index Component Exchange for such Observation Period and shall include the Price Level. The Calculation Agent may decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB), by taking into account prevailing market conditions and the size of the hedging to be processed in the market, if the Adjustment Period is to be extended to the next Observation Period. For this purpose, auction periods on the respective Index Component Exchanges (as provided under the rules of the respective exchange) are not considered to be a part of the Adjustment Period. However, every Underlying Price, even if calculated based on Index Component prices determined in an auction, will be considered as possible Adjustment Price.	Sollte der Anpassungszeitraum über das Ende des fortlaufenden Handels der Indexkomponenten an einer Indexkomponenten-Börse hinaus andauern, so wird er nach Wiedereröffnung des fortlaufenden Handels der Indexkomponenten an einer Indexkomponenten-Börse bzw. Wiederaufnahme der Berechnung des Basiswertes fortgesetzt, sofern er sich nicht auf den nächsten Beobachtungszeitraum erstreckt. In diesem Fall endet der Anpassungszeitraum mit dem Ende des fortlaufenden Handels der Indexkomponenten an einer Indexkomponenten-Börse für diesen Beobachtungszeitraum und schließt das Kurslevel ein. Die Berechnungsstelle kann nach billigem Ermessen (§ 317 BGB) unter Berücksichtigung der marktüblichen Marktbedingungen und der Größe der am Markt zu verarbeitenden Absicherung entscheiden, ob der Anpassungszeitraum im nächsten Beobachtungszeitraum fortgesetzt wird. Für diesen Zweck gelten mögliche Auktionszeiträume an den maßgeblichen Indexkomponenten-Börsen (wie im Regelwerk der maßgeblichen Börsen vorgesehen) nicht als Bestandteil des entsprechenden Anpassungszeitraumes, jedoch jeder berechnete und veröffentlichte Kurs des Basiswertes basierend auf in einer Auktion ermittelten Kursen der Indexkomponenten als möglicher Anpassungskurs.

4. Intraday Adjustment of the NPV_t:	4. Untertägige Anpassung des NPV_t:
If an Observation Price is equal to or below the Adjustment Threshold, an extraordinary calculation of the NPV_t takes place during the day. In doing so, an Adjustment Price is determined according to the above definition and an adjusted $NPV_t^{adjusted}$ is calculated.	Falls ein Beobachtungskurs die Anpassungsschwelle erreicht bzw. unterschreitet, so findet untertägig eine außerordentliche Berechnung des NPV_t statt. Dabei wird ein Anpassungskurs gemäß obiger Definition ermittelt und ein angepasster $NPV_t^{adjusted}$ berechnet.

5. If on the NPV Calculation Day t at least one Intraday Adjustment of the NPV_t according to paragraph 4 has taken place and the NPV Calculation Time is within the last Adjustment Period, the last Intraday Adjustment shall replace the ordinary calculation of NPV_t and a new Observation Period shall commence thereafter. Otherwise, i.e. the end of the last Adjustment Period is before the NPV Calculation Time, the calculation of NPV_t at the NPV Calculation Time shall be based on the formula set out in paragraphs 2 or 3, respectively:	5. Falls am Kapitalwert-Berechnungstag t mindestens eine Untertägige Anpassung des NPV_t gemäß Absatz 4 stattgefunden hat und der Kapitalwert-Berechnungszeitpunkt innerhalb des letzten Anpassungszeitraums liegt, ersetzt die letzte Untertägige Anpassung die gewöhnliche Berechnung des NPV_t und es beginnt anschließend ein neuer Beobachtungszeitraum. Anderenfalls, d.h. das Ende des letzten Anpassungszeitraumes liegt vor dem Kapitalwert-Berechnungszeitpunkt, gilt für die Berechnung des NPV_t zum Kapitalwert-Berechnungszeitpunkt für die in Absatz 2 bzw. 3 aufgeführte Formel:
(a) NPV_{t-1} is replaced by $NPV_t^{adjusted}$ of the last Intraday Adjustment with respect to the Observation Period.	(a) NPV_{t-1} wird durch $NPV_t^{adjusted}$ der letzten Untertägigen Anpassung bezogen auf den Beobachtungszeitraum ersetzt.
(b) Underlying$_{t-1}$ is replaced by the last calculated Adjustment Price.	(b) Underlying$_{t-1}$ wird durch den zuletzt ermittelten Anpassungskurs ersetzt.

Die Bekanntmachung ist unwiderruflich und muss den Ordentlichen Kündigungstermin nennen.
3. In the case of an Ordinary Termination of the Securities each Securityholder shall receive a payment per Security as determined in accordance with the provisions of § 2 para. 2 et seq. of the Product-Specific Terms. In this respect, the Ordinary Termination Date shall in all respects supersede the Redemption Date.	3. Im Falle der Ordentlichen Kündigung erfolgt die Einlösung eines jeden Wertpapiers gemäß § 2 Abs. 2. ff. der Produktspezifischen Bedingungen, wobei der Ordentliche Kündigungstermin in jeder Hinsicht an die Stelle des Einlösungstages tritt.
4. Any amounts that are payable pursuant to these Terms and Conditions in the case of an Ordinary Termination shall be paid to the Securityholders not later than on the **[***ordinal number***]** Payment Business Day following the Valuation Date.	4. Alle im Falle einer Ordentlichen Kündigung nach diesen Emissionsbedingungen zahlbaren Beträgen werden nicht später als dem **[***Ordinalzahl***]** Zahlungsgeschäftstag nach dem Bewertungstag an den Wertpapierinhaber gezahlt.
5. The right of the Securityholders to request redemption of the Securities with effect as of the Redemption Dates preceding the relevant Ordinary Termination Date shall not be affected by such Ordinary Termination by the Issuer in accordance with this § 3.	5. Das Recht der Wertpapierinhaber, die Einlösung der Wertpapiere zu den jeweiligen dem Ordentlichen Kündigungstermin vorhergehenden Einlösungstagen zu verlangen, wird durch eine solche Ordentliche Kündigung der Emittentin nach diesem § 3 nicht berührt.

§ 5 ADJUSTMENTS	**§ 5 ANPASSUNGEN**
Underlying Share	Basiswert Aktie
1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to adequately account for the economic effect of the Adjustment Event or Extraordinary Event on the Securities and to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.	1. Bei Eintritt eines Anpassungsereignisses oder eines Außergewöhnlichen Ereignisses, wobei jedes einen wesentlichen Einfluss auf die Aktie oder den Kurs der Aktie hat, nimmt die Emittentin die Anpassungen der Emissionsbedingungen nach Maßgabe der folgenden Bestimmungen vor, die erforderlich sind, um die wirtschaftlichen Auswirkungen auf die Wertpapiere angemessen zu berücksichtigen und um das wirtschaftliche Profil der Wertpapiere vor Eintritt des Anpassungsereignisses oder Außergewöhnlichen Ereignisses im Wesentlichen zu erhalten (jeweils eine "**Anpassung**"). Die Berechnungsstelle entscheidet nach billigem Ermessen (§ 317 BGB), ob ein Anpassungsereignis oder ein Außergewöhnliches Ereignis eingetreten ist und ob ein solches Anpassungsereignis oder Außergewöhnliches Ereignis eine wesentliche Auswirkung auf die Aktie oder den Kurs der Aktie hat.
2. An Adjustment may result in:	2. Eine Anpassung führt unter Umständen zu:
(a) the replacement of the Share by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and the determination of another stock exchange as the Exchange;	(a) einer Ersetzung der Aktie durch eine andere Aktie und/oder einer Barabfindung und/oder einer anderweitigen Kompensation, wie dies im jeweiligen Zusammenhang mit dem maßgeblichen Anpassungsereignis oder Außergewöhnlichen Ereignis vorgesehen ist (eine "**Ersetzung**") und zur Bestimmung einer anderen Börse als der Börse,

(ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or	(ii) wenn die Anpassungen durch die Terminbörse den Grundsatz von Treu und Glauben verletzen oder zu Anpassungen der Emissionsbedingungen führen würden, die dem Grundsatz entgegen stehen, das wirtschaftliche Profil der Wertpapiere vor Eintritt des Anpassungsereignisses oder Außergewöhnlichen Ereignisses im Wesentlichen zu erhalten und dessen Einfluss auf den Kurs der Aktie wirtschaftlich angemessen zu berücksichtigen; die Emittentin entscheidet nach billigem Ermessen (§ 315 BGB), ob dies der Fall ist; oder
(iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Futures Exchange Adjustment would be required. The Issuer shall make Adjustments in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB).	(iii) wenn zwar keine Anpassung durch die Terminbörse vorgenommen wird, jedoch gemäß den Anpassungsregeln der Terminbörse eine solche Anpassung durch die Terminbörse erforderlich wäre. In einem solchen Fall entscheidet die Emittentin nach billigem Ermessen (§ 315 BGB), ob eine Anpassung durch die Terminbörse erforderlich wäre. Die Emittentin nimmt Anpassungen im billigen Ermessen (§ 315 BGB) vor.
(c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share.	(c) Bei Zweifelsfragen in Bezug auf die Vornahme von Anpassungen durch die Terminbörse oder die Anwendung der Anpassungsregeln der Terminbörse oder in dem Fall, dass es keine Terminbörse gibt, nimmt die Emittentin die Anpassungen der Emissionsbedingungen vor, die nach ihrem billigen Ermessen (§ 315 BGB) erforderlich sind, um das wirtschaftliche Profil der Wertpapiere vor Eintritt des Anpassungsereignisses oder Außergewöhnlichen Ereignisses im Wesentlichen zu erhalten und um dessen wirtschaftliche Auswirkung auf den Kurs der Aktie angemessen zu berücksichtigen.
4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.	4. In den Emissionsbedingungen enthaltene Bezugnahmen auf die Aktie beziehen sich, soweit der Kontext dies zulässt, anschließend auf die Ersatzaktie. Alle dazugehörigen Definitionen gelten als entsprechend geändert.
5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.	5. Anpassungen werden zu dem von der Emittentin nach billigem Ermessen (§ 315 BGB) festgelegten Tag (der "**Stichtag**") wirksam, wobei (für den Fall, dass die Emittentin berücksichtigt, wie Anpassungen von der Terminbörse vorgenommen werden oder würden) die Emittentin auch berücksichtigt, wann entsprechende Anpassungen an der Terminbörse wirksam werden bzw. wirksam werden würden.

6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 7 of the General Terms.	6. Anpassungen sowie deren Stichtag werden durch die Emittentin nach § 7 der Allgemeinen Bedingungen bekannt gegeben.
7. Any Adjustment in accordance with this § 5 of the Product-Specific Terms does not preclude a subsequent termination in accordance with § 6 of the Product-Specific Terms on the basis of the same event.	7. Anpassungen nach diesem § 5 der Produktspezifischen Bedingungen schließen eine spätere Kündigung nach § 6 der Produktspezifischen Bedingungen aufgrund desselben Ereignisses nicht aus.

The Issuer shall make Adjustments in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB).	solchen Fall entscheidet die Emittentin nach billigem Ermessen (§ 315 BGB), ob eine Anpassung durch die Terminbörse erforderlich wäre. Die Emittentin nimmt Anpassungen im billigen Ermessen (§ 315 BGB) vor.
(b) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index.	(b) Bei Zweifelsfragen in Bezug auf die Vornahme von Anpassungen durch die Terminbörse oder die Anwendung der Anpassungsregeln der Terminbörse oder in dem Fall, dass es keine Terminbörse gibt, nimmt die Emittentin die Anpassungen der Emissionsbedingungen vor, die nach ihrem billigen Ermessen (§ 315 BGB) erforderlich sind, um das wirtschaftliche Profil der Wertpapiere vor Eintritt des Außergewöhnlichen Ereignisses im Wesentlichen zu erhalten und um dessen wirtschaftliche Auswirkung auf den Stand des Index angemessen zu berücksichtigen.
4. Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.	4. In den Emissionsbedingungen enthaltene Bezugnahmen auf den Index und/oder den Indexsponsor beziehen sich, soweit der Kontext dies zulässt, anschließend auf den neuen Index und/oder den Indexsponsor des neuen Index. Alle dazugehörigen Definitionen gelten als entsprechend geändert.
5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.	5. Anpassungen werden zu dem von der Emittentin nach billigem Ermessen (§ 315 BGB) festgelegten Tag (der "**Stichtag**") wirksam, wobei (für den Fall, dass die Emittentin berücksichtigt, wie Anpassungen von der Terminbörse vorgenommen werden oder würden) die Emittentin auch berücksichtigt, wann entsprechende Anpassungen an der Terminbörse wirksam werden bzw. wirksam werden würden.
6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 7 of the General Terms.	6. Anpassungen sowie deren Stichtag werden durch die Emittentin nach § 7 der Allgemeinen Bedingungen bekannt gegeben.
7. Any adjustment in accordance with this § 5 of the Product-Specific Terms does not preclude a subsequent termination in accordance with § 6 of the Product-Specific Terms on the basis of the same event.	7. Anpassungen nach diesem § 5 der Produktspezifischen Bedingungen schließen eine spätere Kündigung nach § 6 der Produktspezifischen Bedingungen aufgrund desselben Ereignisses nicht aus.
8. If the Index is no longer provided by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being provided by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Index Sponsor. The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case.	8. Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen geeigneten Person, Gesellschaft oder Institution als neuem Indexsponsor (der "**Nachfolgeindexsponsor**") bereitgestellt, werden die unter diesen Wertpapieren zu zahlenden Beträge auf der Grundlage des vom Nachfolgeindexsponsors bereitgestellten Index ermittelt und die in diesen Emissionsbedingungen enthaltenen Bezugnahmen auf den Indexsponsor beziehen sich, soweit der Kontext dies zulässt, dann auf den Nachfolgeindexsponsor. Die Berechnungsstelle entscheidet nach billigem Ermessen (§ 317 BGB), ob dies der Fall ist.

9. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any Index Components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Calculation Agent is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether an Index Modification has occurred.	9. Nimmt der Indexsponsor an oder nach dem Ausgabetag eine wesentliche Änderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich (mit Ausnahme einer Veränderung, die bereits im Rahmen der Berechnungsmethode zur Bestimmung des Index für den Fall der Veränderung der Zusammensetzung der dem Index zugrunde gelegten Wertpapiere, der Kapitalisierung oder anderer Routinemaßnahmen vorgesehen ist), jeweils eine "**Indexänderung**", ist die Berechnungsstelle zur Berechnung und Veröffentlichung des Index auf der Grundlage des bisherigen Indexkonzepts und des letzten festgestellten Wertes des Index berechtigt. Die Berechnungsstelle entscheidet nach billigem Ermessen (§ 317 BGB), ob eine Indexänderung vorliegt.
10. "**Extraordinary Event**" means:	10. Ein "**Außergewöhnliches Ereignis**" liegt vor:
(a) the permanent or temporary cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;	(a) wenn der Index dauerhaft oder vorübergehend eingestellt oder ersetzt oder der Indexsponsor durch eine andere, von der Emittentin als nicht geeignet betrachtete Person, Gesellschaft oder Institution ersetzt wird;
(b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;	(b) bei Anpassung von an der Terminbörse gehandelten Options- oder Terminkontrakten auf den Index bzw. bei Ankündigung einer solchen Anpassung;
(c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in Index Components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;	(c) bei Einstellung des Handels oder bei vorzeitiger Abrechnung von an der Terminbörse gehandelten Options- oder Terminkontrakten, sofern es eine solche gibt, auf den Index oder bei Einstellung des Handels in Indexkomponenten an den relevanten Börsen oder Handelssystemen (die "**Indexkomponenten-Börse**") bzw. bei Ankündigung einer solchen Einstellung oder einer solchen vorzeitigen Abrechnung;
(d) a change in the currency in one or more Index Components and such change has a material effect on the level of the Index. The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case;	(d) bei Änderung der Währung einer oder mehrerer Indexkomponenten, sofern die Änderung wesentliche Auswirkungen auf den Indexstand hat. Die Berechnungsstelle entscheidet nach billigem Ermessen (§ 317 BGB), ob dies der Fall ist;
(e) the Index Sponsor (i) ceases to provide the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer	(e) wenn der Indexsponsor (i) den Index nicht mehr zur Verfügung stellt und/oder die Veröffentlichung des Indexstands oder der maßgeblichen Daten zur Berechnung des Indexstands wesentlich oder häufig verzögert und die Emittentin nicht in der Lage ist, den Index ohne die Informationen des Indexsponsors zu berechnen, und/oder (ii) wesentliche Änderungen an seinen Geschäftsbedingungen für die Nutzung des Index in Verbindung mit den

"**Administrator/Benchmark Event**" means, in relation to any Benchmark, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event all as determined by the Calculation Agent.	"**Administrator-/Benchmark-Ereignis**" bezeichnet in Bezug auf eine Benchmark den Eintritt eines Benchmark-Änderungs- oder -Einstellungsereignisses, eines Nichtgenehmigungsereignisses, eines Ablehnungsereignisses oder eines Aussetzungs-/Aufhebungsereignisses, jeweils wie von der Berechnungsstelle festgestellt.
"**Benchmark**" means any figure which is a benchmark as defined in the Benchmarks Regulation and where any amount payable under the Securities, or the value of the Securities, is determined by reference in whole or in part to such figure, all as determined by the Calculation Agent.	"**Benchmark**" bezeichnet einen Referenzwert im Sinne der Benchmark-Verordnung oder wenn ein gemäß den Wertpapieren zahlbarer oder lieferbarer Betrag oder der Wert der Wertpapiere ganz oder teilweise durch Bezugnahme auf einen solchen Referenzwert bestimmt wird, jeweils wie von der Berechnungsstelle festgestellt.
"**Benchmark Modification or Cessation Event**" means, in respect of the Benchmark any of the following has occurred or will occur:	"**Benchmark-Änderungs- oder -Einstellungsereignis**" bezeichnet in Bezug auf die Benchmark, dass eines der folgenden Ereignisse eingetreten ist oder eintreten wird:
(a) any material change in such Benchmark;	(a) eine wesentliche Änderung dieser Benchmark;
(b) the permanent or indefinite cancellation or cessation in the provision of such Benchmark;	(b) die dauerhafte oder unbestimmte Aufhebung oder Einstellung der Bereitstellung dieser Benchmark;
(c) a regulator or other official sector entity prohibits the use of such Benchmark for the Issuer or any other entity generally or in respect of the Securities.	(c) das Verbot der Verwendung dieser Benchmark durch eine Aufsichtsbehörde oder eine andere öffentliche Stelle.
"**Benchmarks Regulation**" means the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, as amended.	"**Benchmark-Verordnung**" bezeichnet die Verordnung (EU) 2016/1011 des Europäischen Parlaments und des Rates vom 8. Juni 2016, in der jeweils gültigen Fassung.
"**Non-Approval Event**" means, in respect of the Benchmark:	"**Nichtgenehmigungsereignis**" bedeutet in Bezug auf die Benchmark, dass:
(a) any authorisation, registration, recognition, endorsement, equivalence or approval in respect of the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be obtained;	(a) eine Zulassung, Registrierung, Anerkennung, Billigung, Feststellung der Gleichwertigkeit oder Genehmigung in Bezug auf die Benchmark oder den Administrator oder Sponsor der Benchmark nicht erlangt wurde oder nicht erlangt werden wird;
(b) the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be included in an official register; or	(b) die Benchmark oder der Administrator oder Sponsor der Benchmark nicht in ein amtliches Register aufgenommen wurde oder aufgenommen werden wird; oder

"**Rejection Event**" means, in respect of the Benchmark, the relevant competent authority or other relevant official body rejects or refuses or will reject or refuse any application for authorisation, registration, recognition, endorsement, equivalence, approval or inclusion in any official register which, in each case, is required in relation to the Securities, the Benchmark or the administrator or sponsor of the Benchmark under any applicable law or regulation for the Issuer or any other entity to perform its obligations in respect of the Securities.	"**Ablehnungsereignis**" bedeutet in Bezug auf die Benchmark, dass die jeweilige zuständige Behörde oder andere zuständige amtliche Stelle einen Antrag auf Zulassung, Registrierung, Anerkennung, Billigung, Feststellung der Gleichwertigkeit, Genehmigung oder Aufnahme in ein amtliches Register, die jeweils in Bezug auf die Wertpapiere, die Benchmark oder den Administrator oder Sponsor der Benchmark nach anwendbaren Gesetzen oder Vorschriften erforderlich ist, damit die Emittentin oder eine andere Stelle ihre Verpflichtungen in Bezug auf die Wertpapiere erfüllt, gegenwärtig oder künftig ablehnt oder zurückweist.

"**Suspension/Withdrawal Event**" means, in respect of the Benchmark:	"**Aussetzungs-/Aufhebungsereignis**" bedeutet in Bezug auf die Benchmark, dass:
(a) the relevant competent authority or other relevant official body suspends or withdraws or will suspend or withdraw any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Benchmark or the administrator or sponsor of the Benchmark which is required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities; or	(a) die jeweilige zuständige Behörde oder andere zuständige amtliche Stelle einen Antrag auf Zulassung, Registrierung, Anerkennung, Billigung, Entscheidung über die Gleichwertigkeit oder Genehmigung in Bezug auf die Benchmark oder den Administrator oder Sponsor der Benchmark, die nach anwendbaren Gesetzen oder Vorschriften erforderlich ist, damit die Emittentin oder eine andere Stelle ihre Verpflichtungen in Bezug auf die Wertpapiere erfüllt, gegenwärtig oder künftig aussetzt oder aufhebt; oder
(b) the Benchmark or the administrator or sponsor of the Benchmark is or will be removed from any official register where inclusion in such register is or will be required under any applicable law in order for the Issuer or any other entity to perform its obligations in respect of the Securities.	(b) die Benchmark oder der Administrator oder Sponsor der Benchmark gegenwärtig oder künftig aus einem amtlichen Register gestrichen wird, wenn die Einbeziehung in dieses Register nach anwendbarem Recht gegenwärtig oder künftig erforderlich ist, damit die Emittentin oder eine andere Stelle ihre Verpflichtungen in Bezug auf die Wertpapiere erfüllt.
(c) For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is or will be suspended or where inclusion in any official register is or will be withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension or withdrawal.	(c) Zur Klarstellung wird festgehalten: Wird diese Zulassung, Registrierung, Anerkennung, Billigung, Entscheidung über die Gleichwertigkeit oder Genehmigung gegenwärtig oder künftig ausgesetzt oder die Einbeziehung in ein amtliches Register gegenwärtig oder künftig aufgehoben, tritt kein Aussetzungs-/Aufhebungsereignis ein, sofern zum Zeitpunkt dieser Aussetzung oder Aufhebung die weitere Bereitstellung und Verwendung der Benchmark in Bezug auf die Wertpapiere während eines solchen Zeitraums der Aussetzung oder Aufhebung nach anwendbaren Gesetzen oder Vorschriften erlaubt ist.
For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Calculation Agent shall determine which terms shall apply in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB).	Zur Klarstellung: Die vorstehende Bestimmung gilt zusätzlich zu und unbeschadet anderer Bedingungen der Wertpapiere. Falls gemäß diesen Bedingungen andere Folgen in Bezug auf ein Ereignis oder den Eintritt eines Administrator-/Benchmark-Ereignisses anwendbar sein könnten, entscheidet die Berechnungsstelle nach billigem Ermessen (§ 317 BGB), welche Bedingungen anzuwenden sind.

Under the terms of each Security Trust Deed, the Security Trustee will covenant that it will exercise its rights under the relevant Pledge Agreement for the Standard Collateral Structure on behalf of, and as trustee for the Securityholders and will declare a trust in favour of the Securityholders and the other relevant Secured Parties over the rights granted to it under the relevant Pledge Agreement for the Standard Collateral Structure.	Nach den Bedingungen jeder Sicherheitentreuhandvereinbarung sichert der Sicherheitentreuhänder zu, dass er seine Rechte aus dem maßgeblichen Verpfändungsvertrag für die Standard-Besicherungsstruktur im Namen der Wertpapierinhaber und als deren Treuhänder ausüben und ein Treuhandverhältnis zugunsten der Wertpapierinhaber und der weiteren maßgeblichen Besicherten Parteien in Bezug auf die ihm nach dem maßgeblichen Verpfändungsvertrag für die Standard-Besicherungsstruktur gewährten Rechte begründen wird.
2.1.3 Description of the Collateral Arrangements	2.1.3 Beschreibung der Sicherheitenvereinbarungen
2.1.3.1 Collateral Agency Agreement	2.1.3.1 Sicherheitenverwaltungsvertrag
The Issuer has appointed Société Générale or any successor thereto as collateral agent (the **Collateral Agent**) in relation to all Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto pursuant to the terms of a collateral agency agreement (the **Collateral Agency Agreement**) between, *inter alia*, the Issuer and the Collateral Agent. The Collateral Agent will calculate on the Payment Date of each Series of Securities and on each Collateral Test Date thereafter the Collateral Value and the Required Collateral Value as set out in these Secured-Specific Terms.	Die Emittentin hat die Société Générale oder einen Rechtsnachfolger als Sicherheitenverwalter (der **Sicherheitenverwalter**) für alle Wertpapiere, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist gemäß den Bedingungen eines Sicherheitenverwaltungsvertrag (der **Sicherheitenverwaltungsvertrag**) zwischen u.a., der Emittentin und dem Sicherheitenverwalter bestellt. Der Sicherheitenverwalter berechnet am Valutatag jeder Serie der Wertpapiere und an jedem darauffolgenden Sicherheitentest-Termin den Sicherheitenwert und den Erforderlichen Sicherheitenwert gemäß diesen Besicherungsspezifischen Bedingungen.
2.1.3.2 Collateral Monitoring Agency Agreement	2.1.3.2 Sicherheitenkontrollstellenvertrag
The Issuer has appointed BNY London or any successor thereto as collateral monitoring agent (the **Collateral Monitoring Agent**) in relation to all Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto pursuant to the terms of a collateral monitoring agency agreement between, *inter alia*, the Issuer and the Collateral Monitoring Agent (the **Collateral Monitoring Agency Agreement**). The Collateral Monitoring Agent shall, on each Collateral Test Date, verify that the Collateral Test is satisfied as set out in the Secured-Specific Terms.	Die Emittentin hat BNY London, oder einen Rechtsnachfolger als Sicherheitenkontrollstelle (die **Sicherheitenkontrollstelle**) für alle Wertpapiere, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist gemäß des Sicherheitenkontrollstellenvertrag zwischen unter anderem der Emittentin und der Sicherheitenkontrollstelle (der **Sicherheitenkontrollstellenvertrag**) bestellt. Die Sicherheitenkontrollstelle überprüft an jedem Sicherheitentest-Termin, ob der Sicherheitentest gemäß diesen Besicherungsspezifischen Bedingungen erfüllt ist.

2.1.3.3 Collateral Custodian Agreement	2.1.3.3 Sicherheitenverwahrvertrag
The Issuer has appointed BNY Luxembourg or any successor thereto as collateral custodian (the **Collateral Custodian**) in relation to all Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto pursuant to the terms of a collateral custodian agreement between, *inter alia*, the Issuer and the Collateral Custodian (the **Collateral Custodian Agreement**). The Collateral Custodian will hold the Collateral Accounts opened in its books in the name of the Issuer.	Die Emittentin hat BNY Luxemburg oder einen Rechtsnachfolger als Sicherheitenverwahrer (der **Sicherheitenverwahrer**) für alle Wertpapiere, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Bedingungen als "*Standard-Besicherungsstruktur*" angegeben ist, gemäß den Bedingungen eines Sicherheitenverwahrvertrags zwischen unter anderem der Emittentin und dem Sicherheitenverwahrer (der **Sicherheitenverwahrvertrag**) bestellt. Der Sicherheitenverwahrer führt die in ihren Büchern im Namen der Emittentin eröffneten Sicherheitenkonten.
2.1.3.4 Securities Valuation Agency Agreement	2.1.3.4 Wertpapier-Bewertungsstellenvertrag
The Issuer has appointed Société Générale or any successor thereto as securities valuation agent (the **Securities Valuation Agent**) in relation to all Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto pursuant to the terms of a securities valuation agency agreement between, *inter alia*, the Issuer and the Securities Valuation Agent (the **Securities Valuation Agency Agreement**). The Securities Valuation Agent or, if applicable, any sub-agent of, or any other entity appointed by the Securities Valuation Agent shall, on each Collateral Test Date, calculate one market value applicable to each Security of such Series and provide such value to the Collateral Agent and the Collateral Monitoring Agent.	Die Emittentin hat die Société Générale oder einen Rechtsnachfolger als Wertpapier-Bewertungsstelle (die **Wertpapier-Bewertungsstelle**) für alle Wertpapiere, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Bedingungen als "*Standard-Besicherungsstruktur*" angegeben ist, gemäß den Bedingungen eines Wertpapier-Bewertungsstellenvertrag zwischen unter anderem der Emittentin und der Wertpapierbewertungsstelle (der **Wertpapier-Bewertungsstellenvertrag**) bestellt. Die Wertpapier-Bewertungsstelle oder, falls zutreffend, eine Unterstelle oder eine andere von der Wertpapier-Bewertungsstelle benannte Stelle berechnet an jedem Sicherheitentest-Termin den Marktwert für jedes Wertpapier dieser Serie und teilt diesen Wert dem Sicherheitenverwalter und der Sicherheitenkontrollstelle mit.
2.1.3.5 Disposal Agency Agreement	2.1.3.5 Veräußerungsstellenvertrag
The Issuer has appointed BNY London or any successor thereto to act as disposal agent (the **Disposal Agent**) in relation to all Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto pursuant to the terms of a disposal agency agreement between the Issuer, the Security Trustee, the Disposal Agent and the Collateral Custodian (the **Disposal Agency Agreement**). The Disposal Agent shall undertake the duties set out in the Disposal Agency Agreement in respect of the Securities. As such, it may dispose of all or some of the Collateral Assets on behalf of and only when instructed to do so by the Security Trustee. Following receipt of a Collateral Enforcement Notice, the Security Trustee will enforce the relevant Pledge Agreement for the Standard Collateral Structure relating to the relevant Collateral Pool and instruct the Disposal Agent to liquidate or realize the Collateral Assets, each in accordance with the terms of the Disposal Agency Agreement, Condition 4 of these Secured-Specific Terms and the Secured-Specific Provisions attached hereto.	Die Emittentin hat BNY London oder einen Rechtsnachfolger als Veräußerungsstelle (die **Veräußerungsstelle**) für alle Wertpapiere für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist, gemäß den Bedingungen eines Veräußerungsstellenvertrages zwischen der Emittentin, dem Sicherheiten-treuhänder, der Veräußerungsstelle und dem Sicherheitenverwahrer (der **Veräußerungs-stellenvertrag**) bestellt. Die Veräußerungsstelle übernimmt die in dem Veräußerungsvertrag festgelegten Pflichten in Bezug auf die Wertpapiere. Als solche kann sie alle oder einen Teil der Sicherheiten im Namen und nur auf Anweisung des Sicherheitentreuhänders veräußern. Nach Erhalt einer Sicherheitentest-Mitteilung wird der Sicherheitentreuhänder den entsprechenden Verpfändungsvertrag für die Standard-Besicherungsstruktur in Bezug auf den entsprechenden Sicherheitenpool ausüben und die Veräußerungsstelle anweisen, die Sicherheiten zu veräußern oder zu verwerten, jeweils gemäß den Bestimmungen des Veräußerungsstellenvertrages, Bedingung 4 dieser

	Besicherungsspezifischen Bedingungen und der angehängten Besicherungsspezifischen Regelungen.
2.1.3.6 Substitute Paying Agency Agreement	2.1.3.6 Ersatz-Zahlstellenvertrag
The Issuer has appointed BNY London or any successor thereto to act as substitute paying agent (the **Substitute Paying Agent**) in relation to all Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto pursuant to the terms of a substitute paying agency agreement between, the Issuer, the Security Trustee and the Substitute Paying Agent (the **Substitute Paying Agency Agreement**). The Substitute Paying Agent shall act as agent of the Security Trustee for the purposes of assisting with the payment of any Collateral Enforcement Proceeds Share or the Delivery of any Collateral Assets Entitlement to Securityholders (if so requested by the Security Trustee), communicating notices to Securityholders on behalf of the Security Trustee and performing any other obligations as set out in these Secured-Specific Terms.	Die Emittentin hat BNY London oder einen Nachfolger als Ersatz-Zahlstelle (die **Ersatz-Zahlstelle**) für alle Wertpapiere für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist, nach Maßgabe der Bedingungen eines zwischen der Emittentin, dem Sicherheitentreuhänder und der Ersatz-Zahlstelle geschlossenen Ersatz-Zahlstellenvertrags (der **Ersatz-Zahlstellenvertrag**) bestellt. Die Ersatz-Zahlstelle handelt als beauftragte Stelle des Sicherheitentreuhänders zur Unterstützung bei der Zahlung eines Anteiligen Sicherheitenverwertungserlöses oder der Lieferung eines Sicherungswert-Anspruchsgegenstands an die Wertpapierinhaber (sofern der Sicherheitentreuhänder dies gegebenenfalls verlangt), zur Übermittlung von Mitteilungen an die Wertpapierinhaber im Namen des Sicherheitentreuhänders und zur Erfüllung anderer Verpflichtungen nach Maßgabe dieser Besicherungsspezifischen Bedingungen.
2.1.3.7 Calculations and determinations	2.1.3.7 Berechnungen und Feststellungen
In relation to each issue of Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto the Collateral Agent, the Collateral Monitoring Agent and the Securities Valuation Agent act solely as agents of the Issuer, and do not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.	In Bezug auf jede Emission der Wertpapiere, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist, handeln der Sicherheitenverwalter, die Sicherheitenkontrollstelle und die Wertpapier-Bewertungsstelle ausschließlich als Beauftragte der Emittentin; sie übernehmen keine Pflichten oder Aufgaben gegenüber den Wertpapierinhabern und stehen mit diesen nicht in einem Auftrags- oder Treuhandverhältnis.
All calculations and determinations made in respect of such Securities by the Collateral Agent, Collateral Monitoring Agent and Securities Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor, the Securityholders and the Security Trustee.	Alle von dem Sicherheitenverwalter, der Sicherheitenkontrollstelle und der Wertpapier-Bewertungsstelle in Bezug auf solche Wertpapiere vorgenommenen Berechnungen und Feststellungen sind (außer im Fall eines offenkundigen Fehlers) für die Emittentin, die Garantin, die Wertpapierinhaber und den Sicherheitentreuhänder endgültig, abschließend und verbindlich.
Each of the Collateral Agent, Collateral Monitoring Agent and Securities Valuation Agent may, with the consent of the Issuer, delegate any of their obligations and functions to a third party as provided for in the Collateral Agency Agreement, Collateral Monitoring Agency Agreement and Securities Valuation Agency Agreement, as applicable.	Der Sicherheitenverwalter, die Sicherheitenkontrollstelle und die Wertpapier-Bewertungsstelle können ihre Pflichten und Aufgaben mit der Zustimmung der Emittentin nach Maßgabe des Sicherheitenverwaltungsvertrags, des Vertrags mit der Sicherheitenkontrollstelle bzw. des Wertpapier-Bewertungsstellenvertrags jeweils auf einen Dritten übertragen.
2.2 Tripartite Collateral Structure	**2.2 Dreiparteien-Besicherungsstruktur**

Provisions attached hereto, the following provisions will apply:	"*Dreiparteien-Besicherungsstruktur*" angegeben ist, gelten die folgenden Bestimmungen:
2.2.1 Description of the Pledge Agreement with respect to the Tripartite Collateral Structure	2.2.1 Beschreibung des Verpfändungsvertrags in Bezug auf die Dreiparteien-Besicherungsstruktur
Each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*" in the Secured-Specific Provisions attached hereto will benefit from a pledge agreement which will be governed by the Belgian Financial Collateral Law and the Belgian MAS Law, concluded between the Issuer as pledgor (the **Pledgor**), and the Security Trustee as pledgee (the Pledgee), creating a first ranking right of pledge over the Collateral Assets contained in the relevant collateral accounts held by the Issuer with the Collateral Custodian (such accounts together being referred to as the **Collateral Accounts**) in favour of the Security Trustee acting for itself, the Securityholders and the Secured Parties (each a **Pledge Agreement for the Tripartite Collateral Structure**). Where a Pledge Agreement for the Tripartite Collateral Structure relates to a Multiple Series Collateral Pool, the same may be amended from time to time by an Extension Notice to extend the benefit of the pledge agreement to other Series or Tranches of Securities that are intended to be secured by the same Multiple Series Collateral Pool.	Jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, profitiert von einem Verpfändungsvertrag, der dem belgischen Gesetz über Finanzsicherheiten und dem belgischen MAS-Gesetz unterliegt und zwischen der Emittentin als Pfandgeber (dem Pfandgeber) und dem Sicherheitentreuhänder als Pfandnehmer (dem **Pfandnehmer**) abgeschlossen wurde und ein vorrangiges Pfandrecht an den Sicherheiten begründet, die in den entsprechenden Sicherheitenkonten des Emittenten bei der Sicherheitenverwahrstelle (diese Konten werden zusammen als **Sicherheitenkonten** bezeichnet) zugunsten von Wertpapieren dem Sicherheitentreuhänder der für sich selbst handelt, die Wertpapierinhaber und die Sicherungsnehmer (jeweils eine **Verpfändungsvereinbarung für die Dreiparteien-Besicherungsstruktur**). Bezieht sich eine Verpfändungsvereinbarung für die Dreiparteien-Besicherungsstruktur auf einen Sicherheitenpool für Mehrere Serien, kann diese von Zeit zu Zeit durch eine Erweiterungsmitteilung geändert werden, um den Vorteil der Verpfändungsvereinbarung auf andere Serien oder Tranchen von Wertpapieren auszudehnen, die durch denselben Sicherheitenpool für Mehrere Serien besichert werden sollen.
2.2.2 Description of the Security Trustee	2.2.2 Beschreibung des Sicherheitentreuhänders
2.2.2.1 Appointment of the Security Trustee	2.2.2.1 Bestellung des Sicherheitentreuhänders
In relation to each series of Securities secured pursuant to a Pledge Agreement for the Tripartite Collateral Structure made between the Issuer and BNY Mellon Corporate Trustee Services Limited (or any substitute or replacement entity thereof) acting as pledgee thereunder (the **Pledgee**), the Issuer and BNY Mellon Corporate Trustee Services Limited (or any substitute or replacement entity thereof) acting as security trustee for itself, the Securityholders and the Secured Parties (the **Security Trustee**) will enter into a security trust deed governed by English law (the **Tripartite Security Trust Deed**) on or before the Payment Date of the relevant Series of Securities, or in relation to a Series of Securities secured by a Multiple Series Collateral Pool, on or before the Payment Date in respect of the first Series of Securities to be secured by such Multiple Series Collateral Pool and the relevant Tripartite Security Trust Deed shall apply in relation to all Series of Securities which may in the future be secured by such Multiple Series Collateral Pool. Only one Tripartite Security Trust Deed shall be entered into in relation to each Multiple Series Collateral Pool.	In Bezug auf jede Serie von Wertpapieren, die gemäß eines Verpfändungsvertrages für die Dreiparteien-Besicherungsstruktur zwischen der Emittentin und BNY Mellon Corporate Trustee Services Limited (oder ein Ersatz- oder Nachfolgeunternehmen derselben) als Pfandnehmer (dem **Pfandnehmer**) besichert sind, beschließen die Emittentin und BNY Mellon Corporate Trustee Services Limited (oder ein Ersatz- oder Nachfolgeunternehmen derselben) als Sicherheitentreuhänder für sich, die Wertpapierinhaber und die Besicherten Parteien (der **Dreiparteien-Sicherheitentreuhänder**) eine dem englischem Recht unterliegende Sicherheitentreuhandvereinbarung (die **Sicherheitentreuhandvereinbarung**) am oder vor dem Valutatag der jeweiligen Serie von Wertpapieren oder in Bezug auf eine Serie von Wertpapieren, die durch einen Sicherheitenpool für Mehrere Serien besichert sind, spätestens am Valutatag in Bezug auf die erste Serie von Wertpapieren, die durch einen solchen Sicherheitenpool für Mehrere Serien besichert werden sollen, und die betreffende Dreiparteien-Sicherheitentreuhandvereinbarung gilt für alle Serien von Wertpapieren, die künftig durch einen solchen Sicherheitenpool für Mehrere Serien besichert werden

	können. Für jeden Sicherheitenpool für Mehrere Serien wird nur eine Dreiparteien-Sicherheitentreuhandvereinbarung geschlossen.
Under the Terms of such Tripartite Security Trust Deed:	Gemäß den Bedingungen dieser Dreiparteien-Sicherheitentreuhandvereinbarung:
(a) the Issuer will covenant with and undertake to the Security Trustee (for its own account and as Security Trustee for the other Secured Parties) that it will duly and punctually pay or discharge its obligations in respect of the Securities to which the Tripartite Security Trust Deed relates and under the Collateral Transaction Documents (the **Obligations**) and that it will punctually pay to the Security Trustee amounts equal to and in the same currency as any Obligations as and when they fall due for payment, so that the Security Trustee will be the obligee of such covenant and may claim performance of such covenant in its own name and not only as agent, representative or trustee acting on behalf of the Secured Parties; and	(a) verpflichtet sich die Emittentin gegenüber dem Sicherheitentreuhänder (für eigene Rechnung und als Sicherheitentreuhänder für die anderen Besicherten Parteien), dass sie ihre Verpflichtungen aus den Wertpapieren, auf die sich die Dreiparteien-Sicherheitentreuhandvereinbarung bezieht, und aus den Besicherungstransaktionsdokumenten (die **Verpflichtungen**) ordnungsgemäß und fristgerecht erfüllt oder begleicht und dass sie dem Sicherheitentreuhänder Beträge in Höhe der fälligen Verpflichtungen und in derselben Währung wie diese fristgerecht zahlt, sobald diese zur Zahlung fällig werden, so dass der Sicherheitentreuhänder der Gläubiger dieser Verpflichtung ist und die Erfüllung dieser Verpflichtung in eigenem Namen und nicht nur als Bevollmächtigter, Vertreter oder Treuhänder im Namen der Besicherten Parteien geltend machen kann; und
(b) the Security Trustee will covenant that it will exercise its rights under the Pledge Agreement for the Tripartite Collateral Structure on behalf of and as trustee for the Secured Parties and will declare a trust in favour of the Securityholders and the other relevant Secured Parties over the rights granted to it under the Pledge Agreement for the Tripartite Collateral Structure.	(b) verpflichtet sich der Sicherheitentreuhänder, seine Rechte aus dem Verpfändungsvertrag für die Dreiparteien-Besicherungsstruktur im Namen und als Treuhänder der Besicherten Parteien auszuüben und eine Treuhandschaft zugunsten der Wertpapierinhaber und der anderen maßgeblichen Besicherten Parteien über die ihm aus dem Verpfändungsvertrag für die Dreiparteien-Besicherungsstruktur gewährten Rechte zu erklären.
2.2.3 Description of the Collateral Arrangements	2.2.3 Beschreibung der Besicherungsvereinbarungen
2.2.3.1 Framework Agreement	2.2.3.1 Rahmenvertrag
Pursuant to the terms of the Framework Agreement between the Issuer and BNY Belgium, BNY Belgium has agreed to act as collateral manager in respect of each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*" in the Secured-Specific Provisions attached hereto (in such capacity, the Collateral Manager) and to act as collateral custodian in respect of each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*" in the Secured-Specific Provisions attached hereto (in such capacity, the Collateral Custodian).	Gemäß den Bedingungen der Rahmenvereinbarung zwischen der Emittentin und BNY Belgien hat BNY Belgien zugestimmt, als Sicherheitenmanager für jede Serie von Wertpapieren zu fungieren, für die in den angehängten Besicherungsspezifischen Regelungen die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist (in dieser Eigenschaft als **Sicherheitenmanager**), sowie als Sicherheitenverwahrer für jede Serie von Wertpapieren, für die in den angehängten Besicherungsspezifischen Regelungen die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist (in dieser Funktion als Sicherheitenverwahrer).
2.2.3.2 Collateral Management Master Agreement Service Module	2.2.3.2 Servicemodul zum Rahmenvertrag über das Sicherheitenmanagement
Pursuant to the terms of the Collateral Management Master Agreement Service Module to the Framework Agreement (the **Collateral Management Service Module**), the Collateral Manager shall, on each Collateral	Gemäß den Bestimmungen des Servicemoduls zum Rahmenvertrag über das Sicherheitenmanagement (das **Servicemodul zum Sicherheitenmanagement**) berechnet der Sicherheitenmanager an jedem

(c) equity securities, shares, units or interests in a fund; and/or	(c) Eigenkapitalwertpapiere, Aktien, Einheiten (*units*) oder Anteile an einem Fonds und/oder
(d) any other negotiable financial instruments in book entry-form.	(d) sonstige handelbare Finanzinstrumente in buchmäßiger Form.
In order to be included in the calculation of the Collateral Value, Collateral Assets must satisfy the Eligibility Criteria specified in the Secured-Specific Provisions attached hereto. Collateral Assets satisfying the relevant Eligibility Criteria are referred to as **Eligible Collateral Assets**.	Um in die Berechnung des Sicherheitenwerts aufgenommen zu werden, müssen Sicherungswerte die in den angehängten Besicherungsspezifischen Regelungen angegebenen Zulässigkeitskriterien erfüllen. Die maßgeblichen Zulässigkeitskriterien erfüllenden Sicherungswerte werden als **Zulässige Sicherungswerte** bezeichnet.
The Eligibility Criteria specified in the Secured-Specific Provisions attached hereto may include limitations on the type of Collateral Assets that may be held, the maturity of the Collateral Assets, the liquidity of the Collateral Assets,	Die in den angehängten Besicherungsspezifischen Regelungen angegebenen Zulässigkeitskriterien können Beschränkungen in Bezug auf die Art der Sicherungswerte, die gehalten werden dürfen, die

requirements regarding the jurisdiction of the obligor of the Collateral Assets or its guarantor or the credit rating of the obligor of the Collateral Assets or its guarantor and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets.	Fälligkeit der Sicherungswerte, die Liquidität der Sicherungswerte, die Anforderungen hinsichtlich der Jurisdiktion des Schuldners der Sicherungswerte oder seines Garantiegebers oder des Kreditratings des Schuldners der Sicherungswerte oder seines Garantiegebers und/oder sonstige Beschränkungen, Einschränkungen und/oder Anforderungen hinsichtlich der Sicherungswerte vorsehen.
In addition to the Eligibility Criteria, the Secured-Specific Provisions attached hereto will set out the collateral rules which must be satisfied in order for the Collateral Test to be satisfied (the **Collateral Rules**). The Collateral Rules may include requirements relating to the diversification of types of Eligible Collateral Assets, the concentration of the Eligible Collateral Assets, the geographical location of the Eligible Collateral Assets or the currency of the Eligible Collateral Assets which may be held in a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Eligible Collateral Assets contained in the relevant Collateral Pool as may be specified in the Secured-Specific Provisions attached hereto. For the avoidance of doubt, the Collateral Rules relating to a particular Collateral Pool will be satisfied to the extent that Eligible Collateral Assets with a Collateral Value at least equal to the Required Collateral Value together satisfy the Collateral Rules.	Zusätzlich zu den Zulässigkeitskriterien enthalten die angehängten Besicherungsspezifischen Regelungen die zur Erfüllung des Sicherheitentests zu befolgenden Sicherheitenbestimmungen (die **Sicherheitenbestimmungen**). Die Sicherheitenbestimmungen können Anforderungen in Bezug auf die Diversifizierung der Arten von Zulässigen Sicherungswerten, die Konzentration der Zulässigen Sicherungswerte, den geografischen Standort der Zulässigen Sicherungswerte oder die Währung der Zulässigen Sicherungswerte vorsehen, die in einem Sicherheitenpool gehalten werden können, und/oder sonstige Beschränkungen, Einschränkungen und/oder Anforderungen bezüglich der Zulässigen Sicherungswerte in dem maßgeblichen Sicherheitenpool, wie in den angehängten Besicherungsspezifischen Regelungen angegeben, vorsehen. Zur Klarstellung wird festgehalten, dass die Sicherheitenbestimmungen für einen bestimmten Sicherheitenpool erfüllt sind, soweit Zulässige Sicherungswerte mit einem Sicherheitenwert von mindestens in Höhe des Erforderlichen Sicherheitenwerts zusammengefasst die Sicherheitenbestimmungen erfüllen.
2.3.2 Delegation	2.3.2 Beauftragung
2.3.2.1 Delegation to the Collateral Agent	2.3.2.1 Beauftragung des Sicherheitenverwalters
In respect of each Series of Securities where the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto, the Issuer may, pursuant to the terms of the Collateral Agency Agreement, delegate to the Collateral Agent the role of managing each Collateral Pool to comply with the requirements of these Secured-Specific Terms (including, but not limited to, compliance with Conditions 3.3., 3.4 and 3.5).	Für jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist, kann die Emittentin den Sicherheitenverwalter nach Maßgabe der Bedingungen des Sicherheitenverwaltungsvertrags mit der Verwaltung der einzelnen Sicherheitenpools beauftragen, um die Anforderungen dieser Besicherungsspezifischen Bedingungen (u. a. der Bedingungen 3.3, 3.4 und 3.5) zu erfüllen.
2.3.2.2 Delegation to the Collateral Manager	2.3.2.2 Beauftragung des Sicherheitenmanagers
In respect of each Series of Securities where the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*" in the Secured-Specific Provisions attached hereto, the Issuer has delegated the role of managing each Collateral Pool to comply with the requirements of these Secured-Specific Terms (including, but not limited to, compliance with Conditions 3.3 and 3.4) to the Collateral Manager pursuant to the terms of the Collateral Management Service Module.	Für jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, hat der Emittent die Aufgabe der Verwaltung jedes Sicherheitenpools gemäß den Anforderungen dieser Besicherungsspezifischen Bedingungen (einschließlich, aber nicht beschränkt auf die Einhaltung der Bedingungen 3.3. und 3.4) entsprechend den Bedingungen des Sicherheitenmanagement-Servicemodul an den Sicherheitenmanager übertragen.

2.4 Type of Collateral Pool	**2.4 Art des Sicherheitenpools**
A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool, each as further defined below.	Ein Sicherheitenpool kann entweder ein Sicherheitenpool für Einzelne Serien oder ein Sicherheitenpool für Mehrere Serien sein, wie jeweils nachstehend näher definiert.
2.4.1 Single Series Collateral Pool	2.4.1 Sicherheitenpool für Einzelne Serien
Where the Secured-Specific Provisions attached hereto in respect of a Series of Securities specify that the Type of Collateral Pool is "*Single Series Collateral Pool*", such Series of Securities will be the only Series of Securities to be secured by the relevant Collateral Pool (a **Single Series Collateral Pool**).	Ist in den angehängten Besicherungsspezifischen Regelungen in Bezug auf eine Serie der Wertpapiere "*Sicherheitenpool für Einzelne Serien*" als Art des Sicherheitenpools angegeben, ist die betreffende Serie der Wertpapiere die einzige durch den maßgeblichen Sicherheitenpool zu besichernde Serie der Wertpapiere (ein **Sicherheitenpool für Einzelne Serien**).
2.4.2 Multiple Series Collateral Pool	2.4.2 Sicherheitenpool für Mehrere Serien
Where the Secured-Specific Provisions attached hereto in respect of a Series of Securities specify that the Type of Collateral Pool is "*Multiple Series Collateral Pool*", such Series of Securities may be secured by a Collateral Pool which secures one or more Series of Securities (a **Multiple Series Collateral Pool**).	Ist in den angehängten Besicherungsspezifischen Regelungen in Bezug auf eine Serie der Wertpapiere "*Sicherheitenpool für Mehrere Serien*" als Art des Sicherheitenpools angegeben, kann die betreffende Serie der Wertpapiere durch einen Sicherheitenpool besichert werden, mit dem eine oder mehrere Serien der Wertpapiere besichert werden (ein **Sicherheitenpool für Mehrere Serien**).
Each Series of Securities secured pursuant to a Multiple Series Collateral Pool must (i) be subject to the same method of distribution of Collateral Assets following enforcement of the relevant Pledge Agreement (i.e. exclusively either subject to "*Physical Delivery of Collateral Assets*" or not subject to "*Physical Delivery of Collateral Assets*"), (ii) be subject to the same Eligibility Criteria and Collateral Rules, (iii) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, and (iv) have the same Collateral Test Dates.	Jede im Rahmen eines Sicherheitenpools für Mehrere Serien besicherte Serie der Wertpapieren muss (i) demselben Verfahren für die Auskehrung von Sicherungswerten nach der Durchsetzung des maßgeblichen Verpfändungsvertrags unterliegen (d. h. dass "*Physische Lieferung von Sicherungswerten*" entweder ausschließlich gilt oder ausschließlich nicht gilt), (ii) denselben Zulässigkeitskriterien und Sicherheitenbestimmungen unterliegen, (iii) demselben Preisabschlag bzw. denselben Preisabschlägen je Art oder Kategorie Zulässiger Sicherungswerte unterliegen und (iv) dieselben Sicherheitentest-Termine haben.
In such a scenario, following enforcement of the relevant Pledge Agreement, all Series of Securities secured on such Collateral Pool would share in the distribution of the proceeds of realisation of the Collateral Assets constituting such Collateral Pool or Securities or, where the clause "*Physical Delivery of Collateral Assets*" is specified as applicable in the Secured-Specific Provisions attached hereto, in Condition 4.7 below.	In einem solchen Szenario würden nach Durchsetzung des maßgeblichen Verpfändungsvertrags sämtliche durch diesen Sicherheitenpool besicherte Serien der Wertpapiere an der Ausschüttung der Erlöse aus der Verwertung der den betreffenden Sicherheitenpool bildenden Sicherungswerte oder Wertpapieren, oder wenn "*Physische Lieferung von Sicherheiten*" in den angehängten Besicherungsspezifischen Regelungen als anwendbar angegeben ist, gemäß Bedingung 4.7 unten.
Securityholders acquiring and holding Securities in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Securityholders of different Series of Securities to share rateably in the security created over the Collateral Assets in the Multiple Series Collateral Pool.	Wertpapierinhabern, die Wertpapiere in Verbindung mit einem Sicherheitenpool für Mehrere Serien erwerben und halten, wird unterstellt, dass sie die Rechte bestehender und künftiger Wertpapierinhaber anderer Serien der Wertpapiere auf anteilige Beteiligung an den Sicherheiten, die an den Sicherungswerten in dem Sicherheitenpool für Mehrere Serien bestellt sind, anerkennen und ihr Einverständnis dazu erklären.

2.5 Segregation between Collateral Pools, Limited Recourse and Non-Petition	**2.5 Trennung von Sicherheitenpools, Beschränkter Rückgriff und Verzicht auf Insolvenzantragstellung**
2.5.1 Limited Recourse against the Issuer	2.5.1 Beschränkter Rückgriff gegen die Emittentin
By acquiring and holding Securities, Securityholders will be deemed to acknowledge and agree that the obligations of the Issuer to the Securityholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Securities both in the case of a Single Series Collateral Pool and a Multiple Series Collateral Pool.	Mit dem Kauf und Halten der Wertpapiere wird den Wertpapierinhabern die Kenntnisnahme und Zustimmung unterstellt, dass die Verpflichtungen der Emittentin gegenüber den Wertpapierinhabern in Bezug auf den Rückgriff auf die in dem maßgeblichen Sicherheitenpool, mit dem die betreffende Serie der Wertpapiere sowohl im Fall eines Sicherheitenpools für Einzelne Serien als auch im Fall eines Sicherheitenpools für Mehrere Serien besichert ist, enthaltenen Sicherungswerte beschränkt sind.
If:	Falls:
(a) the Security Interests created over the relevant Collateral Assets have been enforced in accordance with the relevant Pledge Agreement and the relevant Conditions and all amounts available from such enforcement have been applied to the payment and discharge of the relevant secured liabilities in accordance with, the provisions of the relevant Pledge Agreement and these Secured-Specific Terms; and	(a) die an den maßgeblichen Sicherungswerten begründeten Sicherungsrechte gemäß des jeweiligen Verpfändungsvertrages und den jeweiligen Bedingungen durchgesetzt wurden und alle aus dieser Durchsetzung verfügbaren Beträge gemäß den Bestimmungen des jeweiligen Verpfändungsvertrages und diesen Besicherungsspezifischen Bedingungen zu Zahlung und Tilgung der betreffenden besicherten Verbindlichkeiten verwendet wurden, und
(b) there are no relevant Collateral Assets remaining in the relevant Collateral Pool which are capable of being realised or otherwise converted into cash; and	(b) im maßgeblichen Sicherheitenpool keine maßgeblichen Sicherungswerte mehr verbleiben, die verwertet oder auf andere Weise in bar umwandelbar sind;
(c) there are insufficient amounts available from the realisation of the relevant Collateral Assets in the relevant Collateral Pool to pay in full, in accordance with the provisions of the relevant Pledge Agreement and the Secured-Specific Terms, all amounts owed by the Issuer to the Secured Parties under the relevant secured liabilities related to such Collateral Pool (including payments of principal, premium (if any) and interest),	(c) die Erlöse aus der Verwertung der maßgeblichen Sicherungswerte im maßgeblichen Sicherheitenpool nicht ausreichen, um gemäß den Bestimmungen des entsprechenden Verpfändungsvertrages und den Besicherungsspezifischen Bedingungen alle Beträge, die die Emittentin den Besicherten Parteien aus den maßgeblichen besicherten Verbindlichkeiten im Zusammenhang mit diesem Sicherheitenpool schuldet (einschließlich Kapitalzahlungen, Prämien (falls vorhanden) und Zinsen) vollständig zu begleichen,
then the Securityholders of such Securities (and the Security Trustee on their behalf) shall have no further claim against the Issuer in respect of any amounts owed to them which remain unpaid (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Securities). For the avoidance of doubt, in such a scenario, Securityholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts, subject to the terms of such Guarantee.	so haben die Wertpapierinhaber der betreffenden Wertpapiere (und der Sicherheitstreuhänder in ihrem Namen) keinen weiteren Anspruch gegen die Emittentin in Bezug auf etwaige ihnen geschuldete Beträge, die nicht gezahlt wurden (zur Klarstellung: einschließlich Zahlungen von Kapitalbeträgen, etwaigen Aufschlägen und/oder Zinsen in Bezug auf die Wertpapiere). Zur Klarstellung wird festgehalten, dass die Wertpapierinhaber in einem solchen Szenario weiterhin Ansprüche gegen die Garantin auf jedwede ungezahlte Beträge nach Maßgabe der Garantie geltend machen können.
2.5.2 Segregation between Collateral Pools	2.5.2 Trennung der Sicherheitenpools

No Securityholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Securities held by such Securityholder.	Kein Wertpapierinhaber hat ein Rückgriffsrecht auf die Sicherungswerte, die in einem anderen Sicherheitenpool als demjenigen enthalten sind, mit dem die vom betreffenden Wertpapierinhaber gehaltenen Wertpapieren besichert sind.
2.5.3 Non-petition	2.5.3 Verzicht auf Insolvenzantragstellung
By acquiring and holding Securities, Securityholders will be deemed to acknowledge and agree that no Securityholder shall be entitled to take any steps or initiate proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of the Issuer.	Durch den Erwerb und das Halten der Wertpapiere erkennen die Wertpapierinhaber an und erklären sich damit einverstanden, dass kein Wertpapierinhaber berechtigt ist, Schritte zu unternehmen oder Verfahren einzuleiten, um die Abwicklung, Verwaltung oder Liquidation (oder ein anderes ähnliches Verfahren) der Emittentin zu erwirken.
2.6 Hedging of Issuer's obligations	**2.6 Absicherung der Verbindlichkeiten der Emittentin**
The Issuer may hedge its obligations in relation to a Series of Securities in a number of different ways, including by entering into repurchase agreements (**Repurchase Agreements**) or swap agreements (**Swap Agreements**) or any other agreements (any Repurchase Agreement, Swap Agreement or any other such agreement being a **Hedging Agreement**) with a counterparty which may be Société Générale or an affiliate of Société Générale or such other entities as the Issuer deems appropriate from time to time (each such entity being a **Counterparty**). Such transactions may also include provisions for the transfer to the Issuer of assets which may be treated as Collateral Assets by the Issuer and used to fulfil its obligations in relation to the Securities. Where such Hedging Agreements provide for the transfer of assets to the Issuer, such transfer shall be made with full transfer of ownership.	Die Emittentin kann ihre Verbindlichkeiten aus einer Serie der Wertpapiere auf verschiedene Arten absichern, insbesondere durch Abschluss von Pensionsgeschäften (**Pensionsgeschäfte**), Swap-Vereinbarungen (**Swap-Vereinbarungen**) oder sonstigen Vereinbarungen (Pensionsgeschäfte, Swap-Vereinbarungen oder die betreffenden sonstigen Vereinbarungen werden als **Absicherungsvereinbarungen** bezeichnet) mit einem Vertragspartner, bei dem es sich entweder um die Société Générale oder ein verbundenes Unternehmen der Société Générale oder sonstige von der Emittentin jeweils als geeignet erachtete Unternehmen handeln kann (jedes dieser Unternehmen wird als **Vertragspartner** bezeichnet). Bei solchen Transaktionen können ferner Bestimmungen für die Übertragung von Vermögenswerten - die von der Emittentin als Sicherungswerte behandelt und zur Begleichung ihrer Verbindlichkeiten aus den Wertpapieren verwendet werden dürfen - auf die Emittentin vorgesehen sein. Ist in diesen Absicherungsvereinbarungen die Übertragung von Vermögenswerten auf die Emittentin vorgesehen, muss eine solche Übertragung mit vollständiger Übertragung des Eigentums erfolgen.
A Swap Agreement may be evidenced by a 2002 ISDA Master Agreement and Schedule together with the confirmation entered into by the Issuer and the Counterparty in respect of the relevant Series of Securities. If the Counterparty's obligations under the Swap Agreement are to be collateralised, the Swap Agreement may be supplemented by a 1995 ISDA Credit Support Annex (Bilateral Form - Transfer).	Eine Swap-Vereinbarung kann durch einen ISDA-Rahmenvertrag von 2002 samt Anhang zusammen mit der von der Emittentin und dem Vertragspartner in Bezug auf die betreffende Serie der Wertpapiere unterzeichnete Ausfertigung des Einzelabschlusses verbrieft sein. Sind die Verbindlichkeiten des Vertragspartners aus der Swap-Vereinbarung zu besichern, kann die Swap- Vereinbarung durch einen ISDA-Besicherungsanhang von 1995 (Bilaterales Muster - Übertragung) (*1995 ISDA Credit Support Annex (Bilateral Form - Transfer)*) ergänzt werden.
A Repurchase Agreement may be substantially in the form of a 2000 TBMA/ISMA Global Master Repurchase Agreement, a "*Convention Cadre FBF relative aux opérations de pensions livrées*", each as amended, supplemented or otherwise modified from time to time, or any other agreement having a similar effect.	Ein Pensionsgeschäft kann im Wesentlichen in der Form eines "*2000 TBMA/ISMA Global Master Repurchase Agreement"* oder einer "*Convention Cadre FBF relative aux opérations de pensions livrées*" in der jeweils geänderten, ergänzten oder anderweitig abgeänderten

	Fassung oder einer sonstigen Vereinbarung mit vergleichbarer Wirkung erfolgen.
2.7 Collateral Disruption Events	**2.7 Sicherheitenstörungen**
If a Collateral Disruption Event has occurred in relation to one or more Series of Securities, the Issuer may in its sole and absolute discretion redeem or cancel, as applicable, all of the relevant Securities at the Extraordinary Termination Amount following the occurrence of a Collateral Disruption Event as specified in the Secured-Specific Provisions.	Ist eine Sicherheitenstörung in Bezug auf eine oder mehrere Serien von Wertpapieren eingetreten, kann die Emittentin nach alleinigem und freiem Ermessen sämtliche maßgeblichen Wertpapiere zum Vorzeitigen Rückzahlungsbetrag nach Eintritt einer Sicherheitenstörung zurückzahlen bzw. kündigen, wie in den angehängten Besicherungsspezifischen Regelungen angegeben.
The occurrence of a Collateral Disruption Event will not constitute an Event of Default.	Der Eintritt einer Sicherheitenstörung stellt keinen Kündigungsgrund dar.
3. COLLATERALISATION OF SECURITIES	**3. BESICHERUNG VON WERTPAPERIEN**
3.1 Valuation of Collateral and Securities	**3.1 Bewertung der Sicherheiten und der Wertpapiere**
In order to ensure that a Series of Securities is collateralised in accordance with its terms, the Collateral Value of a given Collateral Pool and the Required Collateral Value in respect of each Series of Securities secured by such Collateral Pool will each be tested on the Payment Date of such Series of Securities and on each Collateral Test Date as specified in the Secured-Specific Provisions.	Um zu gewährleisten, dass eine Serie der Wertpapiere gemäß ihren Bedingungen besichert wird, werden der Sicherheitenwert eines bestimmten Sicherheitenpools und der Erforderliche Sicherheitenwert für jede Serie von Wertpapieren, die durch diesen Sicherheitenpool besichert sind, jeweils am Valutatag der betreffenden Serie der Wertpapiere und an jedem Sicherheitentest-Termin wie in den angehängten Besicherungsspezifischen Regelungen angegeben getestet.
3.1.1 Valuation of Collateral	3.1.1 Bewertung der Sicherheiten
(A) If the Type of Collateral Structure is specified as "*Standard Collateral Structure*"	(A) Falls die Art der Besicherungsstruktur als "*Standard*-Besicherungsstruktur" angegeben ist
In relation to each Series of Securities, in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*", on the Payment Date of such Series of Securities and on each Collateral Test Date thereafter the Collateral Agent will determine the Collateral Value on the basis of such valuation method or methods as the Collateral Agent may determine acting in good faith and in a commercially reasonable manner.	Für jede Serie der Wertpapiere, für die die Art der Besicherungsstruktur als "*Standard Besicherungsstruktur*" angegeben ist, wird der Sicherheitenverwalter am Valutatag der betreffenden Serie der Wertpapiere und an jedem darauffolgenden Sicherheitentest-Termin den Sicherheitenwert anhand derjenigen Bewertungsmethode(n) ermitteln, die er nach Treu und Glauben und in wirtschaftlich angemessener Weise bestimmt.
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*", and except if the Secured-Specific Provisions attached hereto, specify that "*Collateral Valuation at Nominal Value*" is as "*applicable*", the collateral value means the aggregate market value as of the relevant Valuation Point expressed in the Collateral Valuation Currency, of all Eligible Collateral Assets forming part of the relevant Collateral Pool as at such Valuation Point, in each case taking into account any Haircut applied in relation thereto (the **Collateral Value**).	Für jede Serie der Wertpapiere, für die die Art der Besicherungsstruktur als "*Standard Besicherungsstruktur*" angegeben ist, und sofern in den angehängten Besicherungsspezifischen Regelungen "*Sicherheitenbewertung zum Nennwert*" als "*anwendbar*" angegeben ist, bezeichnet der Begriff Sicherheitenwert den Gesamtmarktwert aller zum jeweiligen Bewertungszeitpunkt zum Teil des Betreffenden Sicherheitenpools gehörenden Zulässigen Sicherungswerte, ausgedrückt in der Währung der Sicherheitenbewertung, wobei ein etwaiger diesbezüglich angewandter Preisabschlag

	jeweils zu berücksichtigen ist (der **Sicherheitenwert**).
If the Secured-Specific Provisions attached hereto specify that "*Collateral Valuation at Nominal Value*" is applicable, the Collateral Value shall be deemed to be equal to the aggregate nominal value of all Eligible Collateral Assets forming part of the relevant Collateral Pool (after taking into account any Haircut applied in relation thereto, as further described below) (the **Collateral Valuation at Nominal Value**) and "Collateral Value" shall be construed accordingly throughout these Secured-Specific Terms.	Falls in den angehängten Besicherungsspezifischen Regelungen "*Sicherheitenbewertung zum Nennwert*" als anwendbar bezeichnet ist, so gilt als Sicherheitenwert ein Betrag in Höhe des Gesamtbetrags des Nennwerts aller Zulässigen Sicherungswerte, die Teil des maßgeblichen Sicherheitenpools sind (unter Berücksichtigung eines etwaigen diesbezüglich angewandten Preisabschlags, wie nachstehend näher beschrieben) (die **Sicherheitenbewertung zum Nennwert**), und "*Sicherheitenwert*" ist in diesen Besicherungsspezifischen Bedingungen entsprechend auszulegen.
Where the relevant currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Collateral Asset at the relevant spot exchange rate.	Lautet ein Sicherungswert auf eine andere Währung als die Währung der Sicherheitenbewertung, so rechnet der Sicherheitenverwalter den Wert des betreffenden Sicherungswerts zum maßgeblichen Devisenkassakurs um.
If "*Predetermined Collateral Valuation Currency Rate of Exchange*" is specified as applicable in the Secured-Specific Provisions attached hereto, the relevant spot exchange rate shall be the predetermined rate specified as such in the Secured-Specific Provisions attached hereto (the **Predetermined Collateral Valuation Currency Rate of Exchange**).	Falls "*Vorher Festgelegter Wechselkurs für die Währung der Sicherheitenbewertung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbar bezeichnet ist, ist der maßgebliche Devisenkassakurs der vorher festgelegte Wechselkurs, der in den angehängten Besicherungsspezifischen Regelungen angegeben ist (der **Vorher Festgelegte Wechselkurs für die Währung der Sicherheitenbewertung**).
Except if "Predetermined Collateral Valuation Currency Rate of Exchange" is specified as applicable in the Secured-Specific Provisions attached hereto, the relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time or, if no such Collateral Valuation Currency Screen Page is specified in the Secured-Specific Provisions attached hereto or such Collateral Valuation Currency Screen Page is not available, the relevant spot rate shall be the rate determined by the Collateral Agent in good faith and in a commercially reasonable manner.	Sofern in den angehängten Besicherungsspezifischen Regelungen nicht "*Vorher Festgelegter Wechselkurs für die Währung der Sicherheitenbewertung*" als anwendbar bezeichnet ist, ist der maßgebliche Devisenkassakurs der zum Festgelegten Zeitpunkt für die Währung der Sicherheitenbewertung auf der Bildschirmseite für die Währung der Sicherheitenbewertung angezeigte Kurs; ist in den angehängten Besicherungsspezifischen Regelungen keine solche Bildschirmseite für die Währung der Sicherheitenbewertung angegeben oder ist die betreffende Bildschirmseite für die Währung der Sicherheitenbewertung nicht verfügbar, so ist der maßgebliche Kassakurs der von dem Sicherheitenverwalter nach Treu und Glauben und in wirtschaftlich angemessener Weise ermittelte Kurs.
In performing its calculations as described in Condition 3.5.1 below, the Collateral Monitoring Agent will use the same method of valuation of the Collateral Assets and, as the case may be, the relevant Haircut value(s) specified in the Secured-Specific Provisions attached hereto.	Bei der Durchführung der in nachstehender Bedingung 3.5.1 beschriebenen Berechnungen verwendet die Sicherheitenkontrollstelle dieselbe Methode zur Bewertung der Sicherungswerte bzw. den/die in den angehängten Besicherungsspezifischen Regelungen angegebene(n) maßgeblichen Preisabschlag/ Preisabschläge.

(B) If the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*"	(B) Falls die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral* Structure", on the Payment Date of such Series of Securities and on each Collateral Test Date thereafter the Collateral Manager will determine the Collateral Value in accordance with the Collateral Manager's rules and procedures in force at that time and taking into account any relevant elections made by the Issuer in that respect.	In Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, bestimmt der Sicherheitenmanager am Valutatag dieser Serie von Wertpapieren und an jedem darauffolgenden Sicherheitentest-Termin den Sicherungswert gemäß den zu diesem Zeitpunkt geltenden Regeln und Verfahren des Sicherheitenmanagers und unter Berücksichtigung aller diesbezüglichen Entscheidungen der Emittentin.
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*", the collateral value means the aggregate market value of all Collateral Assets forming part of the relevant Collateral Pool as determined by the Collateral Manager by applying such valuation method(s) or currency conversion(s) as the Collateral Manager may determine acting in good faith and in a commercially reasonable manner, in each case taking into account any elections made by the Issuer in that respect and any Haircuts applied in relation thereto (the **Collateral Value**).	In Bezug auf jede Serie von Wertpapieren, für die die Art der Sicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, bezeichnet der Begriff Sicherheitenwert den Gesamtmarktwert aller Sicherungswerte, die Teil des jeweiligen Sicherheitenpools sind, wie er vom Sicherheitenmanager unter Anwendung der Bewertungsmethode(n) oder Währungsumrechnung(en) ermittelt wird, die der Sicherheitenmanager nach Treu und Glauben und in wirtschaftlich angemessener Weise festlegt, wobei in jedem Fall die diesbezüglichen Entscheidungen der Emittentin und die damit verbundenen Preisabschläge berücksichtigt werden (der **Sicherheitenwert**).
In performing its calculations as described in Condition 3.5.2 below, the Tripartite Collateral Monitoring Agent will use the Collateral Value as calculated by the Collateral Manager.	Bei der Durchführung ihrer Berechnungen gemäß der nachstehenden Bedingung 3.5.2 verwendet die Dreiparteien-Sicherheitenkontrollstelle den vom Sicherheitenmanager berechneten Sicherheitenwert.
3.1.2 Valuation of Securities	3.1.2 Bewertung von Wertpapieren
If the Type of Collateral Structure is specified as "*Standard Collateral Structure*", the Securities Valuation Agent will on each Collateral Test Date for each Series of Securities in relation to which "*MV Collateralisation*", "*Min (MV, NV) Collateralisation*" or "*Max (MV, NV) Collateralisation*" is applicable as specified in the Secured-Specific Provisions attached hereto, calculate the market value applicable to each Security of such Series of Securities as of the Valuation Point on the basis of such valuation method as the Securities Valuation Agent may, acting in good faith and in a commercially reasonable manner and in accordance with the terms of the Securities Valuation Agency Agreement, determine (the **Security Market Value**). The Securities Valuation Agent will provide the Security Market Value so calculated to the Collateral Agent and the Collateral Monitoring Agent.	Falls die Art der Besicherungsstruktur als "*Standard-Besicherungsstruktur*" angegeben ist, wird die Wertpapier-Bewertungsstelle an jedem Sicherheitentest-Termin für jede Serie der Wertpapiere, bei der "*MW-Besicherung*", "*Min (MW, NW)-Besicherung*" oder "*Max (MW, NW)-Besicherung*" wie in den angehängten Besicherungsspezifischen Regelungen angegeben, anwendbar ist, den für jedes Wertpapiere der betreffenden Serie der Wertpapiere zum Bewertungszeitpunkt geltenden Marktwert anhand derjenigen Bewertungsmethode, die sie nach Treu und Glauben und in wirtschaftlich angemessener Weise sowie nach Maßgabe der Bedingungen des Wertpapier-Bewertungsstellenvertrags bestimmt (der **Marktwert je Wertpapiere**). Die Wertpapier-Bewertungsstelle teilt den so ermittelten Marktwert der Wertpapiere dem Sicherheitenverwalter und der Sicherheitenkontrollstelle mit.
If the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*", the Tripartite Collateral Agent will on each Collateral Test Date for each Series of Securities in relation to which "*MV Collateralisation*", "*Min (MV, NV) Collateralisation*" or "*Max (MV, NV)*	Falls die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, wird der Dreiparteien-Sicherheitenverwalter an jedem Sicherheitentest-Termin für jede Serie von Wertpapieren, für die "*MV-Besicherung*", "*Min (MV, NV)-Besicherung*"

Collateralisation" is applicable as specified in the Secured-Specific Provisions attached hereto calculate the Security Market Value as of the Valuation Point on the basis of such valuation method as the Tripartite Collateral Agent may, acting in good faith and in a commercially reasonable manner and in accordance with the terms of the Tripartite Collateral Agency Agreement, determine.	oder "*Max (MV, NV) Besicherung*" gemäß den angehängten Besicherungsspezifischen Regelungen anwendbar ist, den Marktwert der Wertpapieren zum Bewertungszeitpunkt auf der Grundlage einer Bewertungsmethode, die der Dreiparteien-Sicherheitenverwalter nach Treu und Glauben, wirtschaftlich vernünftig und in Übereinstimmung mit den Bedingungen der dreiseitigen Dreiparteien-Sicherheitenverwaltungsvertrag festlegt, berechnet.
When "*NV Collateralisation*" is specified as being the Type of Collateralisation in the Secured-Specific Provisions attached hereto, the value of the Securities shall be deemed to be equal to the aggregate nominal value of the Securities.	Ist "*NW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbaren Besicherungsart angegeben, entspricht der Wert der Wertpapiere dem Gesamtbetrag des Nennwerts der Wertpapiere.
For the avoidance of doubt, the Security Market Value determined by the Securities Valuation Agent (in the Standard Collateral Structure) or the Tripartite Collateral Agent (in the Tripartite Collateral Structure) may differ from the fair market value determined by the Calculation Agent in accordance with § 6 of the Product-Specific Terms and from the price proposed, as the case may be, by Société Générale or any of its affiliates or any other entities acting as market maker on the secondary market for a Security.	Zur Klarstellung wird festgehalten, dass der von der Wertpapier-Bewertungsstelle (im Rahmen der Standard-Besicherungsstruktur) oder dem Dreiparteien-Sicherheitenverwalter (im Rahmen der Dreiparteien-Besicherungsstruktur) festgestellte Marktwert je Wertpapier von dem von der Berechnungsstelle gemäß § 6 der Produktspezifischen Bedingungen festgestellten Marktwert oder von dem von der Société Générale oder einem ihrer verbundenen Unternehmen bzw. einem anderen auf dem Sekundärmarkt für ein Wertpapier tätigen Market-Maker vorgeschlagenen Preis abweichen kann.
3.2 Waiver of Rights to Collateral Assets	**3.2 Verzicht auf Rechte an Sicherungswerten**
If "*Waiver of Rights*" is specified as applicable in the Secured-Specific Provisions attached hereto, certain Securityholders intending to hold Securities (including but not limited to, in their capacity as a market maker) may waive their rights by written notice to receive the proceeds of realisation of the Collateral Assets securing such Series of Securities (or where "*Physical Delivery of Collateral Assets*" is specified as applicable in the Secured-Specific Provisions attached hereto, delivery of the Collateral Assets) following the enforcement of the relevant Pledge Agreement (any such Securities being **Waived Securities**).	Ist "*Rechtsverzicht*" in den angehängten Besicherungsspezifischen Regelungen als anwendbar bezeichnet, können bestimmte Wertpapierinhaber, die beabsichtigen, Wertpapiere (insbesondere in ihrer Eigenschaft als Market-Maker) zu halten, schriftlich den Verzicht auf ihre Rechte auf Erhalt des Erlöses aus der Verwertung der Sicherungswerte, mit denen die betreffenden Wertpapiere besichert sind (oder, wenn "*Physische Lieferung von Sicherungswerten*" in den angehängten Besicherungsspezifischen Wertpapieren als anwendbar bezeichnet ist, auf Lieferung der Sicherungswerte), nach der Durchsetzung des maßgeblichen Verpfändungsvertrags erklären (die betreffenden Wertpapiere werden als **Verzichtsgegenständliche Wertpapiere** bezeichnet).
Holders of Waived Securities are deemed to waive their rights to give written notice to the Issuer and the Guarantor that the Waived Securities are immediately due and repayable at their Extraordinary Termination Amount on the occurrence of an Event of Default following the delivery of a Required Collateral Default Notice (as described below). As a consequence, when calculating the Required Collateral Value in accordance with the provisions described below, the Collateral Agent and the Collateral Monitoring Agent (in the Standard Collateral Structure) or the Tripartite Collateral Agent (in the Tripartite Collateral Structure) shall only take into account the Securities that have not been subject to such	Bei Eintritt eines Kündigungsgrunds nach Zustellung einer Mitteilung über einen Ausfall in Bezug auf Erforderliche Sicherheiten (wie nachstehend beschrieben) wird Inhabern von Verzichtsgegenständlichen Wertpapiere unterstellt, auf ihre Rechte zu verzichten, gegenüber der Emittentin und der Garantin schriftlich zu erklären, dass die Verzichtsgegenständlichen Wertpapiere zu ihrem Außerordentliche Kündigungsbetrag unverzüglich zur Rückzahlung fällig sind. Infolgedessen berücksichtigen der Sicherheitenverwalter und die Sicherheitenkontrollstelle (im Rahmen der Standard-Besicherungsstruktur) oder der Dreiparteien-Sicherheitenverwalter (im Rahmen der Dreiparteien-Besicherungsstruktur) bei der Berechnung des

waiver (any such Securities being **Non-Waived Securities**).	Erforderlichen Sicherheitenwerts gemäß den nachstehend beschriebenen Bestimmungen nur derjenigen Wertpapiere, die nicht Gegenstand eines solchen Verzichts sind (die betreffenden Wertpapiere werden als **Nicht Verzichtsgegenständliche Wertpapiere** bezeichnet).
Each holder of Waived Securities shall be required to (i) inform by written notice and, upon request from the Collateral Agent or the Tripartite Collateral Agent (as applicable), provide evidence to, the Collateral Agent (in the Standard Collateral Structure) or to the Tripartite Collateral Agent (in the Tripartite Collateral Structure) of the number of Waived Securities that it holds on the Payment Date and on each Collateral Test Date and (ii) notify the Collateral Agent (in the Standard Collateral Structure) or the Tripartite Collateral Agent (in the Tripartite Collateral Structure) following any transfer of Waived Securities. The Collateral Business Day following a notification of transfer will be deemed to be a Collateral Test Date and the Collateral Agent (in the Standard Collateral Structure) or the Tripartite Collateral Agent (in the Tripartite Collateral Structure) shall notify the Issuer and, where relevant, the Collateral Monitoring Agent of the same. Notwithstanding the above, all Securities held by Société Générale or one or more of its affiliates, including but not limited to, in its capacity as market maker, will be deemed to be Waived Securities, unless otherwise notified in writing by Société Générale or one or more of its affiliates to the Collateral Agent (in the Standard Collateral Structure) or to the Tripartite Collateral Agent (in the Tripartite Collateral Structure).	Jeder Inhaber von Verzichtsgegenständlichen Wertpapieren hat (i) den Sicherheitenverwalter oder der Dreiparteien-Sicherheitenverwalter (je nach Anwendbarkeit) schriftlich von der Anzahl der Verzichtsgegenständlichen Wertpapieren, die er am Valutatag und an jedem Sicherheitentest-Termin hält, in Kenntnis zu setzen und diese Anzahl auf Verlangen des Sicherheitenverwalters (in der Standard-Besicherungsstruktur) oder des Dreiparteien-Sicherheitenverwalters (in der Dreiparteien-Besicherungsstruktur) auch nachzuweisen und (ii) den Sicherheitenverwalter (in der Standard-Besicherungsstruktur) oder den Dreiparteien-Sicherheitenverwalter (in der Dreiparteien-Besicherungsstruktur) nach einer Übertragung von Verzichtsgegenständlichen Wertpapieren zu benachrichtigen. Der Sicherheitengeschäftstag nach dieser Benachrichtigung gilt als ein Sicherheitentest-Termin, wovon der Sicherheitenverwalter (in der Standard-Besicherungsstruktur) oder der Dreiparteien-Sicherheitenverwalter (in der Dreiparteien-Besicherungsstruktur) die Emittentin und, falls erforderlich, die Sicherheitenkontrollstelle unterrichtet. Unbeschadet des Vorstehenden gelten sämtliche Wertpapiere, die von der Société Générale oder von einem oder mehreren ihrer verbundenen Unternehmen, unter anderem in ihrer Eigenschaft als Market-Maker, gehalten werden, als Verzichtsgegenständliche Wertpapiere, sofern die Société Générale oder eines oder mehrere ihrer verbundenen Unternehmen dem Sicherheitenverwalter (in der Standard-Besicherungsstruktur) oder dem Dreiparteien-Sicherheitenverwalter (in der Dreiparteien-Besicherungsstruktur) nichts anderes schriftlich mitteilt.
None of the Issuer, the Guarantor, the Collateral Agent, the Tripartite Collateral Agent, the Collateral Monitoring Agent, the Collateral Manager, the Tripartite Collateral Monitoring Agent or the Security Trustee shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Securities relating to any one or more Series of Securities that may have been provided to the Collateral Agent or to the Tripartite Collateral Agent by or on behalf of any holder of Waived Securities and none of the Issuer, the Guarantor, the Collateral Agent, the Tripartite Collateral Agent, the Collateral Monitoring Agent, the Collateral Manager, the Tripartite Collateral Monitoring Agent, or the Security Trustee shall be under any duty to verify or otherwise confirm the number of Waived Securities so held.	Weder die Emittentin noch die Garantin, der Sicherheitenverwalter, der Dreiparteien-Sicherheitenverwalter, die Sicherheitenkontrollstelle, der Sicherheitenmanager, die Dreiparteien-Sicherheitenkontrollstelle oder der Sicherheitentreuhänder sind für unrichtige, ungenaue oder unvollständige Angaben zu der Anzahl der Verzichtsgegenständlichen Wertpapieren in Bezug auf eine oder mehrere Serien der Wertpapieren, die dem Sicherheitenverwalter oder dem Dreiparteien-Sicherheitenverwalter gegebenenfalls von einem Inhaber von Verzichtsgegenständlichen Wertpapieren oder in dessen Namen zur Verfügung gestellt wurden, verantwortlich, und weder die Emittentin noch die Garantin, der Sicherheitenverwalter, der Dreiparteien-Sicherheitenverwalter, die Sicherheitenkontrollstelle, der Sicherheitenmanager, die Dreiparteien-Sicherheitenkontrollstelle oder der Sicherheitentreuhänder sind zur Prüfung oder

	anderweitigen Bestätigung der Anzahl der auf diese Art und Weise gehaltenen Verzichtsgegenständlichen Wertpapieren verpflichtet.
3.3 Required Collateral Value	**3.3 Erforderlicher Sicherheitenwert**
The Collateral Value and the Security Market Value will be used in order to calculate the Required Collateral Value of Eligible Collateral Assets which must be held in a Collateral Account to secure one or more Series of Securities.	Der Sicherungswert und der Marktwert der Wertpapiere werden verwendet, um den erforderlichen Sicherungswert der zulässigen Sicherheiten zu berechnen, die in einem Sicherheitenkonto gehalten werden müssen, um eine oder mehrere Serien der Wertpapiere zu besichern.
3.3.1 Required Collateral Value with respect to the Standard Collateral Structure	3.3.1 Erforderlicher Sicherheitenwert in Bezug auf die Standard-Besicherungsstruktur
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*", the required collateral value will be calculated by the Collateral Agent on the Payment Date and on each relevant Collateral Test Date in accordance with this Condition 3.3.1 (the amount so calculated being the **Required Collateral Value**).	In Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur als "*Standard-Besicherungsstruktur*" angegeben ist, wird der erforderliche Sicherungswert von dem Sicherheitenverwalter am Valutatag und an jedem maßgeblichen Sicherheitentest-Termin gemäß dieser Bedingung 3.3.1 berechnet (der so berechnete Betrag ist der **Erforderliche Sicherheitenwert**).
Except if the Type of Collateralisation is specified as "*NV Collateralisation*" in the Secured-Specific Provisions attached hereto, the Collateral Agent will be required to use the Security Market Value determined by the Securities Valuation Agent in determining the Required Collateral Value:	Sofern die Art der Besicherung nicht in den angehängten Besicherungsspezifischen Regelungen als "*NW-Besicherung*" angegeben ist, muss der Sicherheitenverwalter bei der Ermittlung des Erforderlichen Sicherheitenwerts den von der Wertpapier-Bewertungsstelle ermittelten Marktwert je Wertpapier verwenden.
(A) Single Series Collateral Pool	(A) Sicherheitenpool für Einzelne Serien
In relation to a Series of Securities in respect of which the Type of Collateral Pool is specified as "*Single Series Collateral Pool*" in the Secured-Specific Provisions attached hereto, the Required Collateral Value will be determined by the Collateral Agent as follows:	In Bezug auf eine Serie von Wertpapieren, für die in den angehängten Besicherungsspezifischen Regelungen die Art des Sicherheitenpools als "*Sicherheitenpool für Einzelne Serien*" angegeben ist, wird der Erforderliche Sicherheitenwert vom Sicherheitenverwalter wie folgt bestimmt.
(i) where "*MV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the product of (a) the Collateralisation Percentage, (b) the Security Market Value and (c) the number of Non-Waived Securities of such Series;	(i) ist "*MW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren dem Produkt aus a) dem Besicherungsprozentsatz, b) dem Marktwert je Wertpapier und c) der Anzahl Nicht Verzichtsgegenständlicher Wertpapiere der betreffenden Serie;
(ii) where "*NV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Securities of such Series;	(ii) ist "*NW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren dem Produkt aus a) dem Besicherungsprozentsatz und b) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie;

(iii) where "*Min (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the lower of:	(iii) ist "*Min (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren dem niedrigeren der beiden folgenden Beträge:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number of Non-Waived Securities in such Series of Securities or	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapiere und (3) der Anzahl Nicht Verzichtsgegenständlicher Wertpapiere in der betreffenden Serie der Wertpapiere oder
(b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Securities of such Series;	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie;
(iv) where "*Max (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the greater of:	(iv) ist "*Max (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren dem höheren der beiden folgenden Beträge:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number value of the Non-Waived Securities of such Series or;	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapier und (3) dem Zahlenwert der Nicht Verzichtsgegenständlicher Wertpapiere der betreffenden Serie oder
(b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Securities of such Series.	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem angegebenen proportionalen Anteil des Gesamtbetrags des Nennwerts der Nicht Verzichts-gegenständlichen Wertpapiere der betreffenden Serie.
(B) Multiple Series Collateral Pool	(B) Sicherheitenpool für Mehrere Serien
In relation to a Series of Securities in respect of which the Type of Collateral Pool is specified as "*Multiple Series Collateral Pool*" in the Secured-Specific Provisions attached hereto, the Required Collateral Value will be determined by the Collateral Agent as follows:	In Bezug auf eine Serie von Wertpapieren, für die in den angehängten Besicherungsspezifischen Regelungen die Art des Sicherheitenpools als "*Sicherheitenpool für Mehrere Serien*" angegeben ist, wird der Erforderliche Sicherheitenwert vom Sicherheitenverwalter wie folgt bestimmt.
(i) where "*MV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the amounts calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool, as follows: the product of (a) the Collateralisation Percentage,	(i) ist "*MW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der Beträge, die für die einzelnen Serien der Wertpapiere, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden: dem Produkt

(b) the Security Market Value and (c) the number of Non-Waived Securities of such Series;	aus (a) dem Besicherungsprozentsatz, (b) dem Marktwert je Wertpapier und (c) der Anzahl Nicht Verzichtsgegenständlicher Wertpapieren der betreffenden Serie;
(ii) where "*NV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the amounts calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Securities of such Series;	(ii) ist "*NW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der Beträge, die für die einzelnen Serien der Wertpapiere, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden: dem Produkt aus (a) dem Besicherungsprozentsatz und (b) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapiere der betreffenden Serie;
(iii) where "*Min (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the lower of the amounts calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows:	(iii) ist "*Min (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der niedrigeren der beiden folgenden Beträge, die für die einzelnen Serien der Wertpapiere, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number value of the Non-Waived Securities of such Series; or	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapier und (3) dem Zahlenwert Nicht Verzichtsgegenständlicher Wertpapieren der betreffenden Serie oder
(b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Securities of such Series;	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie;
(iv) where "*Max (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the greater of the amount calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows:	(iv) ist "*Max (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der höheren der beiden folgenden Beträge, die für die einzelnen Serien der Wertpapiere, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number of Non-Waived Securities in such Series of Securities; or	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapier und (3) der Anzahl Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie oder
(b) the product of (1) the Collateralisation Percentage and (2) the total aggregate	(b) dem Produkt aus (1) dem Bescherungsprozentsatz und (2) dem

nominal value of the Non-Waived Securities of such Series.	Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapiere der betreffenden Serie.
(C) Conversion in case Specified Currency is not the Collateral Valuation Currency	(C) Umrechnung, falls die Festgelegte Währung von der Währung der Sicherheitenbewertung abweicht
In determining the Required Collateral Value, where the Specified Currency of any Security is other than the Collateral Valuation Currency, the Collateral Agent shall convert the Security Market Value and/or the nominal value, as the case may be, of such Security at the relevant spot exchange rate, in accordance with Condition 3.1.1(A).	Ist die Festgelegte Währung eines Wertpapiers eine andere Währung als die Währung der Sicherheitenbewertung, wird bei der Ermittlung des Erforderlichen Sicherheitenwerts der Marktwert je Wertpapier bzw. der Nennwert der betreffenden Wertpapiere von dem Sicherheitenverwalter zum maßgeblichen Devisenkassakurs gemäß Bedingung 3.1.1(A) umgerechnet.
(D) Collateralisation Percentage	(D) Besicherungsprozentsatz
The collateralisation percentage relating to a Series of Securities will be specified in the Secured-Specific Provisions attached hereto and may be a fixed percentage or a percentage determined by applying a predetermined formula or a variable percentage (the **Collateralisation Percentage**).	Der Besicherungsprozentsatz für eine Serie der Wertpapiere ist in den angehängten Besicherungsspezifischen Regelungen angegeben und kann ein fester Prozentsatz oder ein unter Anwendung einer vorgegebenen Formel bestimmter Prozentsatz sein (der **Besicherungsprozentsatz**).
In the case of variable Collateralisation Percentage:	Im Fall eines variablen Besicherungsprozentsatzes:
- the Collateralisation Percentage will be specified as "Variable Collateralisation" in the Secured-Specific Provisions attached hereto;	- Der Besicherungsprozentsatz wird in den angehängten Besicherungsspezifischen Regelungen als "*Variable Besicherung*" angegeben;
- the Collateralisation Percentage at the Payment Date shall be specified in the Secured-Specific Provisions attached hereto (the **Initial Collateralisation Percentage**), and subsequently the Collateralisation Percentage may be varied from time to time during the term of the Securities in accordance with the provisions and procedures set out in the Secured-Specific Provisions attached hereto, which may foresee a variation of the Collateralisation Percentage (a) following the occurrence of a trigger event, (b) at the option of the Collateral Agent, or (c) otherwise as set out in the Secured-Specific Provisions attached hereto.	- Der Besicherungsprozentsatz zum Valutatag wird in den angehängten Besicherungsspezifischen Regelungen festgelegt (der **Anfängliche Besicherungsprozentsatz**) und anschließend kann der Besicherungsprozentsatz während der Laufzeit der Wertpapiere gemäß den Bestimmungen und Verfahren der angehängten Besicherungsspezifischen Regelungen, die eine Änderung des Besicherungsprozentsatzes vorsehen können, a) nach Eintritt eines Auslösungsgrunds b) nach Wahl des Sicherheitenverwalters oder c) anderweitig gemäß den angehängten Besicherungsspezifischen Regelungen geändert werden.
Where the Collateralisation Percentage is specified as "*Variable Collateralisation*" and is initially set at 0% in the Secured-Specific Provisions attached hereto, it means that on the Payment Date no Collateral Asset shall be deposited in the Collateral Account. The Collateralisation Percentage may then be varied from time to time in accordance with the procedures set out in the Secured-Specific Provisions attached hereto.	Wenn der Besicherungsprozentsatz als "*Variable Besicherung*" angegeben und in den angehängten Besicherungsspezifischen Regelungen anfänglich auf 0% festgelegt ist, bedeutet dies, dass am Valutatag keine Sicherheiten auf das Sicherheitenkonto hinterlegt werden. Der Besicherungsprozentsatz kann dann von Zeit zu Zeit gemäß den in den angehängten Besicherungsspezifischen Regelungen festgelegten Verfahren geändert werden.

The Collateralisation Percentage may be subject to a floor equal to or greater than 0% (a **Variable Collateralisation Floor**), as specified in the Secured-Specific Provisions attached hereto, in such case Collateralisation Percentage shall not be varied to a percentage less than the applicable Variable Collateralisation Floor.	Der Besicherungsprozentsatz kann einer Untergrenze von mindestens 0% (eine **Variable** Besicherungsuntergrenze) unterliegen, wie in den angehängten Besicherungsspezifischen Regelungen festgelegt; in diesem Fall darf der Besicherungsprozentsatz nicht auf einen Prozentsatz unterhalb der geltenden Variablen Besicherungsuntergrenze gesenkt werden.
3.3.2 Required Collateral Value with respect to the Tripartite Collateral Structure	3.3.2 Erforderlicher Sicherheitenwert in Bezug auf die Dreiparteien-Besicherungsstruktur
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*", the required collateral value will be calculated by the Tripartite Collateral Agent on behalf of the Issuer on the Payment Date and on each relevant Collateral Test Date in accordance with this Condition 3.3.2 (the amount so calculated being the **Required Collateral Value**). The Tripartite Collateral Agent will notify the Required Collateral Value so calculated to the Collateral Manager and to the Tripartite Collateral Monitoring Agent. In performing its calculations as described in Condition 3.5.2 below, the Tripartite Collateral Monitoring Agent will use the Required Collateral Value as calculated by the Tripartite Collateral Agent.	In Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, wird der erforderliche Sicherungswert von dem Dreiparteien-Sicherheitenverwalter am Valutatag und an jedem maßgeblichen Sicherheitentest-Termin gemäß dieser Bedingung 3.3.2 berechnet (der so berechnete Betrag ist der **Erforderliche Sicherheitenwert**). Der Dreiparteien-Sicherheitenverwalter teilt den so berechneten Erforderlichen Sicherheitenwert dem Sicherheitenverwalter und der Dreiparteien-Sicherheitenkontrollstelle mit. Bei der Durchführung Ihrer Berechnungen gemäß der nachstehenden Bedingung 3.5.2 verwendet Dreiparteien-Sicherheitenkontrollstelle den vom Dreiparteien-Sicherheitenverwalter berechneten Erforderlichen Sicherheitenwert.
Except if the Type of Collateralisation is specified as "*NV Collateralisation*" in the Secured-Specific Provisions attached hereto, the Tripartite Collateral Agent will use the Security Market Value as determined by it pursuant to Condition 3.1.2 when determining the Required Collateral Value.	Sofern die Art der Besicherung nicht in den angehängten Besicherungsspezifischen Regelungen als "*NV-Besicherung*" angegeben ist, verwendet der Dreiparteien-Sicherheitenverwalter bei der Bestimmung des Erforderlichen Sicherheitenwerts den von ihr gemäß Bedingung 3.1.2 ermittelten Marktwert der Wertpapiere.
(A) Single Series Collateral Pool	(A) Sicherheitenpool für Einzelne Serien:
In relation to a Series of Securities in respect of which the Type of Collateral Pool is specified as "*Single Series Collateral Pool*" in the Secured-Specific Provisions attached hereto, the Required Collateral Value will be determined by the Tripartite Collateral Agent as follows:	In Bezug auf eine Serie von Wertpapieren, für die in den angehängten Besicherungsspezifischen Regelungen die Art des Sicherheitenpools als "*Sicherheitenpool für Einzelne Serien*" angegeben ist, wird der Erforderliche Sicherheitenwert von dem Dreiparteien-Sicherheitenverwalter wie folgt bestimmt:
(i) where "*MV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the product of (a) the Collateralisation Percentage, (b) the Securities Market Value and (c) the number of Non-Waived Securities of such Series;	(i) ist "*MW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren dem Produkt aus a) dem Besicherungsprozentsatz, b) dem Marktwert je Wertpapier und c) der Anzahl Nicht Verzichtsgegenständlicher Wertpapieren der betreffenden Serie;
(ii) where "*NV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the	(ii) ist "*NW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren dem

product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Securities of such Series;	Produkt aus a) dem Besicherungsprozentsatz und b) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie;
(iii) where "*Min (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the lower of:	(iii) ist "*Min (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren als dem niedrigeren der beiden folgenden Beträge:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number of Non-Waived Securities in such Series of Securities; or	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapier und (3) der Anzahl Nicht Verzichtsgegenständlicher Wertpapiere in der betreffenden Serie der Wertpapiere oder
(b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Securities of such Series;	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie;
(iv) where "*Max (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the greater of:	(iv) ist "*Max (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf dieses Serie von Wertpapieren dem höheren der beiden folgenden Beträge:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number value of the Non-Waived Securities of such Series, or	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapier und (3) dem Zahlenwert der Nicht Verzichtsgegenständlicher Wertpapieren der betreffenden Serie oder
(b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Securities of such Series.	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem angegebenen proportionalen Anteil des Gesamtbetrags des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie.
(B) Multiple Series Collateral Pool	(B) Sicherheitenpool für Mehrere Serien
In relation to a Series of Securities in respect of which the Type of Collateral Pool is specified as "*Multiple Series Collateral Pool*" in the Secured-Specific Provisions attached hereto, the Required Collateral Value will be determined by the Tripartite Collateral Agent as follows:	In Bezug auf eine Serie von Wertpapieren, für die in den angehängten Besicherungsspezifischen Regelungen die Art des Sicherheitenpools als "Sicherheitenpool für Mehrere Serien" angegeben ist, wird der Erforderliche Sicherheitenwert von dem Dreiparteien-Sicherheitenverwalter wie folgt bestimmt:
(i) where "*MV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached	(i) ist "*MW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben,

hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the amounts calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows: the product of (a) the Collateralisation Percentage, (b) the Securities Market Value and (c) the number of Non-Waived Securities of such Series;	entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der Beträge, die für die einzelnen Serien Wertpapieren, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden: dem Produkt aus (a) dem Besicherungsprozentsatz, (b) dem Marktwert je Wertpapier und (c) der Anzahl Nicht Verzichtsgegenständlicher Wertpapiere der betreffenden Serie;
(ii) where "*NV Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the amounts calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows: the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Securities of such Series;	(ii) ist "*NW-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der Beträge, die für die einzelnen Serien Wertpapieren, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden: dem Produkt aus (a) dem Besicherungsprozentsatz und (b) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie;
(iii) where "*Min (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the lower of the amount calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows:	(iii) ist "*Min (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der niedrigeren der beiden folgenden Beträge, die für die einzelnen Serien der Wertpapiere, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value and (3) the number value of the Non-Waived Securities of such Series; or	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem Marktwert je Wertpapier und (3) dem Zahlenwert Nicht Verzichtsgegenständlicher Wertpapieren der betreffenden Serie oder
(b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Securities of such Series.	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem Gesamtbetrag des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie oder
(iv) where "*Max (MV, NV) Collateralisation*" is specified as being the applicable Type of Collateralisation in the Secured-Specific Provisions attached hereto, the Required Collateral Value in respect of such Series of Securities shall be equal to the sum of the greater of the amount calculated in respect of each Series of Securities secured by the same Multiple Series Collateral Pool as follows:	(iv) ist "*Max (MW, NW)-Besicherung*" in den angehängten Besicherungsspezifischen Regelungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert in Bezug auf diese Serie von Wertpapieren der Summe der höheren der beiden folgenden Beträge, die für die einzelnen Serien der Wertpapiere, die durch denselben Sicherheitenpool für Mehrere Serien besichert sind, wie folgt berechnet werden:
(a) the product of (1) the Collateralisation Percentage, (2) the Security Market Value	(a) dem Produkt aus (1) dem Besicherungsprozentsatz, (2) dem

and (3) the number of Non-Waived Securities in such Series of Securities, or	Marktwert je Wertpapier und (3) der Anzahl der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie der Wertpapiere oder
(b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Securities of such Series.	(b) dem Produkt aus (1) dem Besicherungsprozentsatz und (2) dem angegebenen proportionalen Anteil des Gesamtbetrags des Nennwerts der Nicht Verzichtsgegenständlichen Wertpapieren der betreffenden Serie.
(C) Conversion in case Specified Currency is not the Collateral Valuation Currency	(C) Umrechnung, falls die Festgelegte Währung von der Währung der Sicherheitenbewertung abweicht
In determining the Required Collateral Value, where the Specified Currency of any Security is other than the Collateral Valuation Currency, the Tripartite Collateral Agent shall convert the Security Market Value and/or the nominal value, as the case may be, of such Security at the relevant spot exchange rate.	Ist die Festgelegte Währung eines Wertpapiers eine andere Währung als die Währung der Sicherheitenbewertung, wird bei der Ermittlung des Erforderlichen Sicherheitenwerts der Marktwert je Wertpapier bzw. der Nennwert des betreffenden Wertpapiers von dem Dreiparteien-Sicherheitenverwalter zum maßgeblichen Devisenkassakurs umgerechnet.
(D) Collateralisation Percentage	(D) Besicherungsprozentsatz
The collateralisation percentage relating to a Series of Securities will be specified in the Secured-Specific Provisions attached hereto and may be a fixed percentage or a percentage determined by applying a predetermined formula or a variable percentage (the **Collateralisation Percentage**).	Der Besicherungsprozentsatz für eine Serie der Wertpapiere ist in den angehängten Besicherungsspezifischen Regelungen angegeben und kann ein fester Prozentsatz oder ein unter Anwendung einer vorgegebenen Formel bestimmter Prozentsatz sein (der **Besicherungsprozentsatz**).
In the case of variable Collateralisation Percentage:	Im Fall eines variablen Besicherungsprozentsatzes:

3.4.1 Adjustments to Collateral Pool and Collateral Test Notice with respect to the Standard Collateral Structure	3.4.1 Anpassungen des Sicherheitenpools und der Sicherheitentest-Mitteilung in Bezug auf die Standard-Besicherungsstruktur
On each Collateral Test Date relating to a relevant Series of Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*", the Collateral Agent will determine whether (i) the Collateral Rules applicable to the relevant Collateral Pool are satisfied and (ii) the Collateral Value in respect of the relevant Collateral Pool is greater than or equal to 97 per cent of the Required Collateral Value for such Collateral Pool (taking into account any Haircut value(s) to be applied to the Collateral Assets and the aggregate value of any Waived Securities) (limbs (i) and (ii) above being referred to as the **Collateral Test**).	An jedem Sicherheitentest-Termin in Bezug auf eine maßgebliche Serie der Wertpapiere für die die Art der Besicherungsstruktur als "*Standard-Besicherungsstruktur*" angegeben ist, stellt der Sicherheitenverwalter fest, ob (i) die auf den maßgeblichen Sicherheitenpool anwendbaren Sicherheitenbestimmungen erfüllt sind und (ii) der Sicherheitenwert des maßgeblichen Sicherheitenpools größer oder gleich 97% des Erforderlichen Sicherheitenwerts für diesen Sicherheitenpool ist (wobei ein bzw. mehrere auf die Sicherungswerte anzuwendende(r) Preisabschlag/Preisabschläge und der Gesamtwert etwaiger Verzichtsgegenständlicher Wertpapiere unter Umständen zu berücksichtigen sind) (vorstehende Bedingungen (i) und (ii) werden als der **Sicherheitentest** bezeichnet).
When determining whether the Collateral Test is satisfied:	Bei der Feststellung, ob der Sicherheitentest erfüllt ist:
- Eligible Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included; and	- werden Zulässige Vermögenswerte, für die an oder vor dem betreffenden Sicherheitentest-Termin Anweisungen zur Übertragung auf das betreffende

3.5 Verification of Collateral Test	**3.5 Überprüfung des Sicherheitentests**
3.5.1 Verification by Collateral Monitoring Agent with respect to Standard Collateral Structure	3.5.1 Überprüfung durch die Sicherheitenkontrollstelle in Bezug auf die Standard-Besicherungsstruktur
If the Type of Collateral Structure is specified as "*Standard Collateral Structure*" in the Secured-Specific Provisions attached hereto, if on the relevant Collateral Test Date a Collateral Test Notice has been delivered by the Collateral Agent and the Collateral Monitoring Agent determines that the Collateral Test will not be satisfied (including after taking into account any adjustments specified in such Collateral Test Notice), then the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, notify the Collateral Agent in writing providing details of why it considers that the Collateral Test is or will not be satisfied (such notice being hereafter referred to as a **Collateral Monitoring Agent Notice**).	Falls die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Standard-Besicherungsstruktur*" angegeben ist und falls an dem maßgeblichen Sicherheitentest-Termin eine Sicherheitentest-Mitteilung von dem Sicherheitenverwalter zugestellt wurde und die Sicherheitenkontrollstelle feststellt, dass der Sicherheitentest (auch unter Berücksichtigung etwaiger in der betreffenden Sicherheitentest-Mitteilung angegebener Anpassungen) nicht erfüllt wird, hat die Sicherheitenkontrollstelle daraufhin am unmittelbar auf den maßgeblichen Sicherheitentest-Termin folgenden Sicherheitengeschäftstag den Sicherheitenverwalter unter Angabe von Einzelheiten zu den Gründen, weshalb der Sicherheitentest nach ihrer Auffassung nicht erfüllt ist bzw. nicht erfüllt wird, schriftlich zu benachrichtigen (diese Mitteilung wird nachstehend als eine **Mitteilung der Sicherheitenkontrollstelle** bezeichnet).
Following receipt of a Collateral Monitoring Agent Notice, the Collateral Agent will determine whether it is in agreement with the contents of the Collateral Monitoring Agent Notice.	Nach Zugang einer Mitteilung der Sicherheitenkontrollstelle stellt der Sicherheitenverwalter fest, ob er dem Inhalt der Mitteilung der Sicherheitenkontrollstelle zustimmt.
Should the Collateral Agent agree with the contents of a Collateral Monitoring Agent Notice, the Collateral Agent shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice send or cause to be sent a revised Collateral Test Notice (a **First Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Eligible Assets to be deposited and/or Collateral Assets to be removed) as agreed between the Collateral Agent and the Collateral Monitoring Agent such that the Collateral Test will be satisfied. The First Level Revised Collateral Test Notice shall be prepared in the same way and shall provide the same information as is required to be included in a Collateral Test Notice.	Stimmt der Sicherheitenverwalter dem Inhalt einer Mitteilung der Sicherheitenkontrollstelle zu, hat der Sicherheitenverwalter an dem unmittelbar auf den Zugang einer Mitteilung der Sicherheitenkontrollstelle folgenden Sicherheitengeschäftstag eine überarbeitete Sicherheitentest-Mitteilung an die Sicherheitenkontrollstelle und den Sicherheitenverwahrer (in Kopie an die Emittentin bzw. die Garantin) zu übermitteln oder dies zu veranlassen (eine **Überarbeitete Sicherheitentest-Mitteilung (Erste Stufe)**), in der die zwischen dem Sicherheitenverwalter und der Sicherheitenkontrollstelle vereinbarten zur Erfüllung des Sicherheitentests an dem Sicherheitenpool vorzunehmenden Anpassungen (einschließlich u. a. der Art und Menge der zu hinterlegenden Zulässigen Vermögenswerte und/oder der zu entnehmenden Sicherungswerte) anzugeben sind. Die Überarbeitete Sicherheitentest-Mitteilung (Erste Stufe) ist auf dieselbe Weise mit denselben Angaben zu erstellen, wie dies bei einer Sicherheitentest-Mitteilung der Fall ist.

If the Collateral Agent disputes the contents of a Collateral Monitoring Agent Notice, it shall, on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice, notify the Collateral Monitoring Agent of such dispute in writing (a **Dispute Notice**) and the Collateral Monitoring Agent and the Collateral Agent shall consult with each other in good faith in an attempt to resolve the dispute.	Beanstandet der Sicherheitenverwalter den Inhalt einer Mitteilung der Sicherheitenkontrollstelle, hat er an dem unmittelbar auf den Zugang einer Mitteilung der Sicherheitenkontrollstelle folgenden Sicherheitengeschäftstag die Sicherheitenkontrollstelle schriftlich von dieser Beanstandung in Kenntnis zu setzen (eine **Beanstandungsanzeige**), und die Sicherheitenkontrollstelle und der Sicherheitenverwalter werden gemäß dem Grundsatz von Treu und Glauben miteinander Rücksprache halten und versuchen, die Beanstandung zu klären.
If the Collateral Agent and the Collateral Monitoring Agent manage to resolve the dispute by the second Collateral Business Day following delivery of the Dispute Notice, the Collateral Agent shall send or cause to be sent a revised Collateral Test Notice to the Collateral Monitoring Agent (a **Second Level Revised Collateral Test Notice**) and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Eligible Assets to be deposited and/or Collateral Assets to be removed) as agreed between the Collateral Agent and the Collateral Monitoring Agent such that the Collateral Test will be satisfied. This Second Level Revised Collateral Test Notice shall be prepared in the same way and shall provide the same information as is required to be included in a Collateral Test Notice.	Wenn der Sicherheitenverwalter und die Sicherheitenkontrollstelle die Streitigkeit bis zum zweiten Sicherheitengeschäftstag nach Zustellung der Beanstandungsanzeige beilegen können, sendet der Sicherheitenverwalter eine überarbeitete Sicherheitentest-Mitteilung an die Sicherheitenkontrollstelle (eine **Überarbeitete Sicherheitentest-Mitteilung (Zweite Stufe)**) und den Sicherheitenverwahrer (mit Kopie an die Emittentin und gegebenenfalls die Garantin) in der die zwischen dem Sicherheitenverwalter und der Sicherheitenkontrollstelle vereinbarten Anpassungen (des Sicherheitenpools (unter anderem Art und Menge der zu hinterlegenden Zulässigen Vermögenswerte und/oder der zu entfernenden Sicherungswerte) zur Erfüllung des Sicherheitentests angegeben sind. Die Überarbeitete Sicherheitentest-Mitteilung (Zweite Stufe) ist auf dieselbe Weise mit denselben Angaben zu erstellen, wie dies bei einer Sicherheitentest-Mitteilung der Fall ist.
If the Collateral Agent and the Collateral Monitoring Agent fail to resolve the dispute by the second Collateral Business Day following delivery of the Dispute Notice, then the Collateral Agent (on behalf of the Issuer) shall notify the Collateral Monitoring Agent in writing (such notice being a **Dispute Resolution Procedure Notice**) that it will commence the dispute resolution procedure to determine the adjustments (if any) to be made to the Collateral Pool (the **Collateral Test Dispute Resolution Procedure**):	Sind der Sicherheitenverwalter und die Sicherheitenkontrollstelle nicht in der Lage, die Beanstandung bis zum zweiten Sicherheitengeschäftstag nach Zustellung der Beanstandungsanzeige zu klären, hat der Sicherheitenverwalter (im Namen der Emittentin) daraufhin die Sicherheitenkontrollstelle schriftlich davon in Kenntnis zu setzen (eine solche **Mitteilung wird als eine Mitteilung über ein Beanstandungsklärungsverfahren** bezeichnet), dass er zur Bestimmung der an dem Sicherheitenpool (gegebenenfalls) vorzunehmenden Anpassungen das Beanstandungsklärungs-verfahren (das **Beanstandungsklärungsverfahren bei Sicherheitentest**) einleitet:

Following the conclusion of a Collateral Test Dispute Resolution Procedure, the Collateral Agent shall sent a notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be), providing the same information as is required to be included in a Collateral Test Notice, containing the Collateral Value, the Required Collateral Value and any adjustments to be made to the Collateral Pool such that the Collateral Test will be satisfied, in each case determined in accordance with the Collateral Test Dispute Resolution Procedure, as soon as possible but in any event not later than the 30th Collateral Business Day following the delivery of the Collateral Monitoring Agent Notice (the **Post Dispute Collateral Test Notice**). A Post Dispute Collateral Test Notice issued following the conclusion of a Collateral Test Dispute Resolution Procedure shall be binding on the Collateral Agent and the Collateral Monitoring Agent and shall not be subject to further verification by the Collateral Monitoring Agent.	Nach Abschluss eines Beanstandungsklärungsverfahrens bei Sicherheitentest übermittelt der Sicherheitenverwalter so schnell wie möglich, aber keinesfalls später als am 30. Sicherheitengeschäftstag nach Zustellung der Mitteilung der Sicherheitenkontrollstelle, eine Mitteilung an die Sicherheitenkontrollstelle und den Sicherheitenverwahrer (in Kopie an die Emittentin bzw. die Garantin) mit denselben Angaben, wie dies bei einer Sicherheitentest-Mitteilung der Fall ist, die den Sicherheitenwert, den Erforderlichen Sicherheitenwert und etwaige zur Erfüllung des Sicherheitentests am Sicherheitenpool vorzunehmenden Anpassungen enthält, wobei diese Angaben jeweils gemäß dem Beanstandungsklärungsverfahren bei Sicherheitentest zu bestimmen sind (die **Sicherheitentest-Mitteilung nach Beanstandung**). Eine nach Abschluss eines Beanstandungsklärungsverfahrens bei Sicherheitentest zugestellte Sicherheitentest-Mitteilung nach Beanstandung ist für den Sicherheitenverwalter und die Sicherheitenkontrollstelle verbindlich und unterliegt keiner weiteren Überprüfung durch die Sicherheitenkontrollstelle.

3.5.2 Verification by the Tripartite Collateral Monitoring Agent with respect to the Tripartite Collateral Structure	3.5.2 Überprüfung durch die Sicherheitenkontrollstelle in Bezug auf die Dreiparteien-Besicherungsstruktur
On the Payment Date and on each Collateral Test Date in relation to each Series of Securities the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*" in the Secured-Specific Provisions attached hereto, the Tripartite Collateral Monitoring Agent shall verify that the Collateral Test is satisfied in respect of the Collateral Pool securing such Series of Securities.	Die Dreiparteien-Sicherheitenkontrollstelle wird am Valutatag und jeden Sicherheitentest-Termin in Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifische Regelungen als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, überprüfen, dass der Sicherheitentest in Bezug auf den Sicherheitenpool, der diese Serie von Wertpapieren besichert, erfüllt ist.
If on a Collateral Test Date the Tripartite Collateral Monitoring Agent determines that in its reasonable opinion the Collateral Test will not be satisfied (including after taking into account any adjustments to be made on such Collateral Test Date by the Collateral Manager), then the Tripartite Collateral Monitoring Agent shall at the latest on the immediately following Collateral Business Day (unless such non-compliance with the Collateral Test has in the meantime been cured) notify the Collateral Manager in writing providing details of why it considers that the Collateral Test is not be satisfied (such notice being hereafter referred to as a **Tripartite Collateral Monitoring Agent Notice**).	Sofern an einem Sicherheitentest-Termin die Dreiparteien-Sicherheitenkontrollstelle feststellt, dass nach ihrer begründeten Auffassung der Sicherheitentest nicht erfüllt sein wird (auch unter Berücksichtigung etwaiger in der Mitteilung über den Sicherheitentest festgelegten Anpassungen, die bis zu diesem Zeitpunkt vom Sicherheitenmanager vorzunehmen sind), dann hat der die Dreiparteien-Sicherheitenkontrollstelle spätestens am unmittelbar darauffolgenden Sicherheiten-Geschäftstag (es sei denn, die Nichteinhaltung des Sicherheitentests konnte in der Zwischenzeit behoben werden) den Sicherheitenmanager schriftlich unter Angabe der Gründe, aus denen er der Ansicht ist, dass der Sicherheitentest nicht erfüllt werden wird (diese Mitteilung wird im Folgenden als **Mitteilung der Dreiparteien-Sicherheitenkontrollstelle** bezeichnet).
If the Collateral Manager disagrees with the determination of the Tripartite Collateral Monitoring Agent, the Tripartite Collateral Monitoring Agent shall consult with the Collateral Manager in good faith and attempt to agree as soon as reasonably practicable following the delivery of a Tripartite Collateral Monitoring Agent Notice on the necessary adjustments to be made to the relevant Collateral Pool in order to ensure that the Collateral Test will be satisfied in the reasonable opinion of both the Collateral Manager and the Tripartite Collateral Monitoring Agent.	Wenn der Sicherheitenmanager mit der Feststellung der Dreiparteien-Sicherheitenkontrollstelle nicht einverstanden ist, konsultiert die Dreiparteien-Sicherheitenkontrollstelle den Sicherheitenmanager in gutem Glauben und bemüht sich, so bald wie möglich nach Zustellung einer Mitteilung der Dreiparteien-Sicherheitenkontrollstelle über die erforderlichen Anpassungen des betreffenden Sicherheitenpools eine Einigung zu erzielen, um sicherzustellen, dass der Sicherheitentest nach vernünftiger Einschätzung sowohl des Sicherheitenmanagers als auch des Dreiparteien-Sicherheitenkontrollstelle erfüllt ist.

Der Umstand, dass am Ende des Zeitraums von sechzig (60) Sicherheitengeschäftstagen (i) das Externe Ereignis andauert bzw. die Externen Ereignisse andauern oder (ii) die Sicherungswerte oder Zulässigen Vermögenswerte, für die die reguläre Abwicklungsfrist bei normalen Marktbedingungen mehr als zehn (10) Sicherheitengeschäftstage beträgt, nicht abgewickelt wurden, stellt eine Sicherheitenstörung dar.
3.6.2 Required Settlement Period with respect to adjustments to a Collateral Pool in the Tripartite Collateral Structure	3.6.2 Erforderliche Abwicklungsfrist für Anpassungen des Sicherheitenpools in der Dreiparteien-Besicherungsstruktur
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*", transactions relating to adjustments to be made to a Collateral Pool by the Collateral Manager will be settled on the same Collateral Business Day (such period the **Required Settlement Period**) on which such adjustments are initiated by the Collateral Manager	In Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, werden Transaktionen im Zusammenhang mit Anpassungen, die vom Sicherheitenmanager an einem Sicherheitenpool vorzunehmen sind, am selben Sicherheitengeschäftstag abgewickelt (dieser Zeitraum wird als **Erforderliche**

provided however that the Required Settlement Period may be extended up to a maximum additional period of 60 Collateral Business Days (i) if the adjustments to be made to the Collateral Pool have not been settled as a result of an event beyond the control of the Collateral Manager or the Issuer (including, but not limited to, as a result of a failure or inability of the relevant clearing system to clear the relevant Eligible Assets or Collateral Assets), (an **External Event**) or (ii) in relation to Eligible Assets or Collateral Assets the regular settlement period of which under normal market conditions does not allow for intraday settlement ((i) and (ii) being referred to as a **Collateral Settlement Disruption**).	**Abwicklungsfrist** bezeichnet), an dem diese Anpassungen vom Sicherheitenmanager veranlasst werden, mit der Maßgabe, dass die Erforderliche Abwicklungsfrist um maximal 60 zusätzliche Sicherheitengeschäftstage verlängert werden kann, (i) wenn die Anpassungen des Sicherheitenpools aufgrund eines Ereignisses, das außerhalb der Kontrolle des Sicherheitenmanagers oder der Emittentin liegt (u.a. infolge des Umstands, dass das maßgebliche Clearingsystem das Clearing der maßgeblichen Sicherungswerte nicht vorgenommen hat bzw. nicht dazu in der Lage ist) (ein **Externes Ereignis**) oder (ii) in Bezug auf Zulässige Vermögenswerte oder Sicherheiten, für die die reguläre Abwicklungsfrist unter normalen Marktbedingungen keine Abwicklung innerhalb eines Tages zulässt ((i) und (ii) werden als **Abwicklungsstörung in Bezug auf Sicherheiten** bezeichnet).
If a Collateral Settlement Disruption has occurred, the Collateral Manager may during the extended Required Settlement Period substitute any of the affected Eligible Assets or Collateral Assets by other Eligible Assets or propose any other relevant measures so that the Collateral Test be satisfied. If at the end of the extended Required Settlement Period the Collateral Settlement Disruption continues, this shall constitute a Collateral Disruption Event.	Wenn eine Abwicklungsstörung in Bezug auf Sicherheiten eingetreten ist, kann der Sicherheitenmanager während der verlängerten Erforderlichen Abwicklungsfrist die betroffenen Zulässigen Vermögenswerte oder Sicherheiten durch andere Zulässige Vermögenswerte ersetzen oder andere relevante Maßnahmen vorschlagen, damit der Sicherheitentest erfüllt wird. Wenn die Abwicklungsstörung in Bezug auf Sicherheiten am Ende der verlängerten Erforderlichen Abwicklungsfrist weiterhin besteht, gilt dies als Sicherheitenstörung.
3.7 Collateral Substitution	**3.7 Ersetzung von Sicherheiten**
3.7.1 Collateral Substitution in the Standard Collateral Structure	3.7.1 Ersetzung von Sicherheiten in der Standard-Besicherungsstruktur
In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Standard Collateral Structure*", if "*Collateral Substitution*" is specified as being applicable in the Secured-Specific Provisions attached hereto, the Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Issuer (or the Collateral Agent on its behalf) will send or cause to be sent a Collateral Test Notice to the Collateral Monitoring Agent where relevant and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool in accordance with Condition 3.7. The Collateral Business Day immediately following the day on which such Collateral Test Notice is given by the Issuer (or the Collateral Agent on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.	In Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur als "*Standard-Besicherungsstruktur*" angegeben ist, kann die Emittentin (oder der für sie handelnde Sicherheitenverwalter), sofern "*Ersetzung von Sicherheiten*" in den angehängten Besicherungsspezifischen Regelungen als anwendbar angegeben ist, Sicherungswerte aus einem Sicherheitenkonto entnehmen und/oder ersetzen, sofern der Sicherheitentest nach dieser Anpassung weiterhin erfüllt ist. Die Emittentin (oder der für sie handelnde Sicherheitenverwalter) wird der Sicherheitenkontrollstelle und dem Sicherheitenverwahrer (in Kopie an die Emittentin bzw. die Garantin) eine Sicherheitentest-Mitteilung übersenden oder dies veranlassen, in der die an dem Sicherheitenpool vorzunehmenden Anpassungen an dem Sicherheitenpool nach Maßgabe von Bedingung 3.7 anzugeben sind. Der Sicherheitengeschäftstag unmittelbar nach dem Tag, an dem die betreffende Sicherheitentest-Mitteilung für den Austausch von Sicherungswerten wie vorstehend beschrieben von der Emittentin (oder dem für sie handelnden Sicherheitenverwalter) abgegeben wird, gilt als ein Sicherheitentest-Termin.
3.7.2 Collateral Substitution in the Tripartite Collateral Structure	3.7.2 Ersetzung von Sicherheiten in der Dreiparteien-Besicherungsstruktur

In relation to each Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*", on any Collateral Business Day, the Collateral Manager may withdraw and replace Collateral Assets from any Collateral Account with other Eligible Assets provided that following such adjustment the Collateral Test continues to be satisfied (or, if the Collateral Test was not satisfied immediately prior to such substitution, provided that such non-compliance with the Collateral Test is not increased).	In Bezug auf jede Serie von Wertpapieren, für die die Art der Besicherungsstruktur als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, kann der Sicherheitenmanager an jedem Sicherungsgeschäftstag Sicherungswerte aus einem Sicherungskonto entnehmen und durch andere Zulässige Vermögenswerte ersetzen, sofern nach einer solchen Anpassung der Sicherheitentest weiterhin erfüllt ist (oder, falls der Sicherheitentest unmittelbar vor einer solchen Ersetzung nicht erfüllt war, vorausgesetzt, dass diese Nichteinhaltung des Sicherheitentests nicht erhöht wird).
3.8 Notification of settlement failure in the respect of the Standard Collateral Structure	**3.8 Mitteilung über Nichtabwicklung in Bezug auf die Standard-Besicherungsstruktur**
In relation to each Collateral Account which is held with BNY Luxembourg as Collateral Custodian, the Collateral Custodian shall notify the Issuer, the Collateral Agent and the Collateral Monitoring Agent if the settlement of any transfer of Eligible Assets or Collateral Assets has not completed within the common market practice timeframe for settlement of the type of Eligible Assets or Collateral Assets being so transferred. For the avoidance of doubt, such notification shall be taken into account when assessing whether settlement has occurred during the Required Settlement Period described above.	In Bezug auf jedes Sicherheitenkonto, das bei BNY Luxemburg als Sicherheitenverwahrer geführt wird, benachrichtigt der Sicherheitenverwahrer die Emittentin, den Sicherheitenverwalter und die Sicherheitenkontrollstelle, wenn die Abwicklung einer Übertragung von Zulässigen Vermögenswerten oder Sicherungswerten nicht innerhalb des in der gängigen Marktpraxis üblichen Zeitrahmens für die Abwicklung der auf diese Weise übertragenen Art von Zulässigen Vermögenswerten oder Sicherungswerten vollzogen wurde. Zur Klarstellung wird festgehalten, dass diese Mitteilung bei der Beurteilung, ob die Abwicklung während der vorstehend beschriebenen Erforderlichen Abwicklungsfrist erfolgte, berücksichtigt wird.

4.1 Events of Default	**4.1 Kündigungsgründe**
In accordance with § 7 of the Product-Specific Terms, Securities will be subject to an Event of Default if the Collateral Monitoring Agent or the Tripartite Collateral Monitoring Agent (as applicable) delivers a Required Collateral Default Notice in relation to a Collateral Pool securing such Securities, meaning that a Required Collateral Default has occurred.	Ein Kündigungsgrund im Sinne des § 7 der Produktspezifischen Bedingungen liegt vor, wenn die Sicherheitenkontrollstelle oder die Dreiparteien-Sicherheitenkontrollstelle (je nach Anwendbarkeit) im Hinblick auf einen Sicherheitenpool, mit dem die betreffenden Wertpapieren besichert sind, eine Mitteilung über einen Ausfall in Bezug auf Erforderliche Sicherheiten liefert, was bedeutet, dass ein Ausfall in Bezug auf Erforderliche Sicherheiten eingetreten ist.

4.2 Enforcement and Realisation of Collateral Assets	**4.2 Durchsetzung und Verwertung von Sicherungswerten**
Following the occurrence of a Security Acceleration Event in relation to a Security, the Pledge Agreement relating to the Collateral Pool securing such Series of Securities will not become immediately enforceable, but instead Securityholders whose Securities have become immediately due and repayable in accordance with Condition 4.1 will initially be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee.	Nach Eintritt eines Kündigungsereignisses in Bezug auf ein Wertpapier wird der Verpfändungsvertrag in Bezug auf den Sicherheitenpool, der diese Serie der Wertpapiere besichert, nicht sofort vollstreckbar, sondern die Wertpapierinhaber, deren Wertpapiere gemäß der Bedingung 4.1 sofort fällig und rückzahlbar geworden sind, sind zunächst berechtigt, alle ihnen gemäß den Bedingungen der Garantie zustehenden ausstehenden Beträge geltend zu machen.
If the amounts due to the Securityholders of a Series of Securities in relation to which a Security Acceleration Event has occurred have not been paid within a period of three (3) Collateral Business Days following notification to Securityholders of the occurrence of such Security Acceleration Event, any Securityholder of such Series will be entitled to send a notice in writing to the Security Trustee requesting that the relevant Pledge Agreement be enforced in accordance with the terms thereof (a **Collateral Enforcement Notice**).	Sind innerhalb einer Frist von drei (3) Sicherheitengeschäftstagen nach Mitteilung über den Eintritt eines Kündigungsereignisses in Bezug auf Wertpapiere an die Wertpapierinhaber nicht alle Beträge gezahlt, die den Wertpapierinhabern einer Serie der Wertpapiere geschuldet werden, hinsichtlich derer ein Kündigungsereignis in Bezug auf die Wertpapiere eingetreten ist, sind alle Wertpapierinhaber der betreffenden Serie berechtigt, dem Sicherheitentreuhänder eine schriftliche Mitteilung zu übersenden, in der die Durchsetzung des maßgeblichen Verpfändungsvertrags nach Maßgabe seiner Bedingungen verlangt wird (eine **Sicherheitenverwertungsmitteilung**).
Although the Pledge Agreement relating to a particular Collateral Pool may only be enforced following the occurrence of a Security Acceleration Event and after a claim has been made by (or on behalf of) the relevant Securityholder against the Guarantor under the Guarantee, the security provided pursuant to the relevant Pledge Agreement remains security granted by the Issuer in relation to the Issuer's payment obligations under the Securities and does not secure the payment obligations of the Guarantor under the Guarantee.	Der Verpfändungsvertrag für einen bestimmten Sicherheitenpool kann zwar nur dann durchgesetzt werden, nachdem ein Anspruch von (oder im Namen von) den betreffenden Wertpapierinhabern gegenüber der Garantin gemäß der Garantie geltend gemacht wurde, der nach Eintritt eines Kündigungsereignisses in Bezug auf die Wertpapiere fällig ist; die gemäß dem Verpfändungsvertrag gestellten Sicherheiten bleiben jedoch Sicherheiten, die von der Emittentin in Bezug auf ihre Zahlungsverpflichtungen aus den Wertpapieren gewährt wurden, und dienen nicht der Besicherung der Zahlungsverpflichtungen der Garantin aus der Garantie.
The Security Trustee shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to the Issuer, the Guarantor, the Collateral Agent or the Collateral Manager (as applicable), the Collateral Custodian and the other Securityholders whose Securities are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates.	Ist dem Sicherheitentreuhänder eine Sicherheitenverwertungsmitteilung zugegangen, teilt er dies der Emittentin, der Garantin, dem Sicherheitenverwalter oder Sicherheitenmanager (je nach Anwendbarkeit), dem Sicherheitenverwahrer und den übrigen Wertpapierinhabern, deren Wertpapiere mit dem Sicherheitenpool besichert sind, auf den sich die betreffende Sicherheitenverwertungsmitteilung bezieht, umgehend mit.

4.3 Enforcement and Realisation by Securityholders	**4.3 Durchsetzung und Verwertung durch Wertpapierinhaber**
No Securityholder shall be entitled to enforce a Pledge Agreement or to proceed directly against the Issuer to enforce the other provisions of a Pledge Agreement unless the Security Trustee, having become bound to enforce or proceed, fails to do so within a reasonable time and such failure is continuing or if the Security Trustee is prevented from enforcing a Pledge Agreement by any court order.	Die Wertpapierinhaber sind nicht berechtigt, ein Verpfändungsvertrag durchzusetzen oder unmittelbar gegen die Emittentin vorzugehen, um die übrigen Bestimmungen eines Verpfändungsvertrags durchzusetzen, es sei denn, der Sicherheitentreuhänder unternimmt innerhalb einer angemessenen Frist, nachdem die entsprechende Verpflichtung für ihn bzw. sie entstanden ist, keine Maßnahmen zur Durchsetzung bzw. zu einem diesbezüglichen Vorgehen, und dieses Unterlassen dauert an, oder die Durchsetzung eines Verpfändungsvertrags ist dem Sicherheitentreuhänder gerichtlich untersagt.

4.5 Application and distribution of proceeds of enforcement	**4.5 Verwendung und Auskehrung der Verwertungserlöse**
Unless "*Physical Delivery of Collateral Assets*" is specified as applicable in the Secured-Specific Provisions attached hereto, in connection with the enforcement of a Pledge Agreement, after the realisation and liquidation in full of all the Collateral Assets in a Collateral Pool in accordance with Condition 4.4, the Security Trustee shall use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Securities in accordance with the Order of Priority specified in the Secured-Specific Provisions attached hereto.	Sofern nicht "*Physische Lieferung von Sicherungswerten*" in den angehängten Besicherungsspezifischen Regelungen angegeben ist, wird der Sicherheitentreuhänder im Zusammenhang mit der Durchsetzung eines Verpfändungsvertrags nach der vollständigen Verwertung und Liquidation aller Sicherungswerte in einem Sicherheitenpool gemäß Bedingung 4.4 den Erlös der Verwertung und Liquidation der Sicherungswerte zur Zahlung von an die Besicherten Parteien, die gemäß der in den Besicherungsspezifischen Regelungen angegebenen Rangfolge im Rang vor den Inhabern Nicht Verzichtsgegenständlicher Wertpapiere stehen, zu zahlenden Beträgen verwenden.
The net proceeds of realisation of, or enforcement with respect to, the Collateral Assets in a Collateral Pool following payment of all amounts payable to the Secured Parties ranking prior to the holders of Non-Waived Securities in accordance with the Order of Priority specified in the Secured-Specific Provisions attached hereto, constitutes the **Collateral Enforcement Proceeds** from which, the Security Trustee shall determine the Collateral Enforcement Proceeds Share in respect of each Security and shall notify such amounts to the Securityholders in accordance with § 7 of the General Terms, as applicable.	Der Nettoerlös der Verwertung der Sicherungswerte in einem Sicherheitenpool bzw. der diesbezüglichen Durchsetzungsmaßnahmen nach Zahlung aller an die Besicherten Parteien, die gemäß der in den angehängten Besicherungsspezifischen Regelungen angegebenen Rangfolge im Rang vor den Inhabern Nicht Verzichtsgegenständlicher Wertpapieren stehen, zu zahlenden Beträge stellt den **Sicherheitenverwertungserlös** dar, anhand dessen der Sicherheitentreuhänder den Anteiligen Sicherheitenverwertungserlös in Bezug auf jedes Wertpapier bestimmt und die betreffenden Beträge den Wertpapierinhabern gemäß § 7 der Allgemeinen Bedingungen, sofern anwendbar, mitteilt.
The Security Trustee will determine the **Collateral Enforcement Proceeds Share** in respect of a Series of Securities, by calculating the pro rata share of the Aggregate Collateral Enforcement Proceeds Share attributable to each Security in such Series of Securities.	Der Sicherheitentreuhänder bestimmt den **Anteiligen Sicherheitenverwertungserlös** in Bezug auf eine Serie der Wertpapiere durch Berechnung des Anteils am Gesamtbetrag des Anteiligen Sicherheitenverwertungserlöses, der jeweils auf ein Wertpapier in der betreffenden Serie der Wertpapiere entfällt.
Where:	Dabei gilt:
Aggregate Collateral Enforcement Proceeds Share means, in respect of a Series of Securities, the product of the Collateral Ratio applicable to such Series of Securities and the Collateral Enforcement Proceeds in respect of the Collateral Pool which secures such Series of Securities.	**Gesamtbetrag des Anteiligen Sicherheitenverwertungserlöses** bezeichnet in Bezug auf eine Serie der Wertpapiere das Produkt aus dem Sicherheitenquotienten für die betreffende Serie der Wertpapiere und dem Sicherheitenverwertungserlös in Bezug auf den Sicherheitenpool, mit dem die betreffende Serie der Wertpapiere besichert ist.
Collateral Ratio means, in respect of a Series of Securities, the amount (expressed as a percentage) equal to the Final Required Collateral Value applicable to such Series of Securities divided by the Pool Aggregate Final Required Collateral Value applicable to the Collateral Pool which secures such Series of Securities. In case of Single Series Collateral Pool the Collateral	**Sicherheitenquotient** bezeichnet in Bezug auf eine Serie der Wertpapiere, den (als Prozentsatz ausgedrückten) Betrag in Höhe des Endgültigen Erforderlichen Sicherheitenwerts für die betreffende Serie der Wertpapiere geteilt durch den Pool-Gesamtbetrag des Endgültigen Erforderlichen Sicherheitenwerts für den Sicherheitenpool, mit dem die betreffende Serie der

Ratio shall be 100 per cent and therefore the Aggregate Collateral Enforcement Proceeds Shares is equal to the Collateral Enforcement Proceeds in respect of such Collateral Pool.	Wertpapiere besichert ist. Bei einem Sicherheitenpool für Einzelne Serien beträgt der Sicherheitenquotient 100%, d. h. der Gesamtbetrag des Anteiligen Sicherheitenverwertungserlöses entspricht dem Sicherheitenverwertungserlös in Bezug auf diesen Sicherheitenpool.
Final Required Collateral Value means the Required Collateral Value for a Series of Securities as calculated by the Collateral Monitoring Agent or the Tripartite Collateral Agent (as applicable) at the Collateral Test Date immediately preceding the delivery of a Collateral Enforcement Notice.	**Endgültiger Erforderlicher Sicherheitenwert** bezeichnet den Erforderlichen Sicherheitenwert für eine Serie der Wertpapiere, wie von der Sicherheitenkontrollstelle oder dem Dreiparteien-Sicherheitenverwalter (je nach Anwendbarkeit) an dem Sicherheitentest-Termin unmittelbar vor Zustellung einer Sicherheitenverwertungsmitteilung berechnet.
Pool Aggregate Final Required Collateral Value means, in respect of a Multiple Series Collateral Pool, the aggregate of the Final Required Collateral Value of each Series of Securities which is secured by such Collateral Pool. Subject as provided below, the remaining proceeds from the realisation of the Collateral Assets in a Collateral Pool will then be applied in meeting the claims of Securityholders under the Securities which are secured by the relevant Collateral Pool (taking into account any amounts which have been paid to Securityholders by the Guarantor pursuant to the terms of the Guarantee) pro rata to the Collateral Enforcement Proceeds Share of each such Security.	**Pool-Gesamtbetrag des Endgültigen Erforderlichen Sicherheitenwerts** bezeichnet in Bezug auf einen Sicherheitenpool für Mehrere Serien den Gesamtbetrag des Endgültigen Erforderlichen Sicherheitenwerts der einzelnen Serien der Wertpapiere, die mit dem betreffenden Sicherheitenpool besichert sind. Der übrige Erlös aus der Verwertung der Sicherungswerte in einem Sicherheitenpool wird sodann, vorbehaltlich der nachstehenden Bestimmungen, anteilig entsprechend dem Verhältnis des auf die betreffenden Wertpapiere jeweils entfallenden Anteiligen Sicherheitenverwertungserlöses zur Befriedigung der Ansprüche von Wertpapierinhabern aus den Wertpapieren, die mit dem maßgeblichen Sicherheitenpool besichert sind, verwendet (wobei Beträge berücksichtigt werden, die den Wertpapierinhabern von der Garantin nach Maßgabe der Bedingungen der Garantie gezahlt wurden).
Such claim will be adjusted in accordance with the following rules:	Ein solcher Anspruch wird gemäß den folgenden Vorschriften angepasst:
- If the Collateral Enforcement Proceeds Share for a particular Security is greater than the difference between (A) the amount due to such Securityholder, by the Issuer in respect of the Securities, or by the Guarantor under the terms of the Guarantee and (B) any amounts which have been paid to such Securityholder by the Issuer or the Guarantor in respect of this particular Security, (the positive difference, if any between (A) and (B) being the **Owed Amount**), then such excess amount will not be distributed to such Securityholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Securities, and the balance (if any) remaining after such distribution will be returned to the Issuer in accordance with the Order of Priority specified in the Secured-Specific Provisions attached hereto;	- Ist der Anteilige Sicherheitenverwertungserlös für eine bestimmte Wertpapiere größer als die Differenz zwischen (A) dem dem Wertpapierinhaber von der Emittentin in Bezug auf die Wertpapiere oder von der Garantin im Rahmen der Garantie geschuldeten Betrag und (B) etwaigen Beträgen, die von der Emittentin oder der Garantin in Bezug auf diese bestimmte Wertpapiere an den betreffenden Wertpapierinhaber gezahlt wurden (diese positive Differenz zwischen (A) und (B), falls vorhanden, wird als der **Geschuldete Betrag** bezeichnet), dann wird dieser überschüssige Betrag nicht an den betreffenden Wertpapierinhaber ausgeschüttet, sondern an die Besicherten Parteien, die gemäß der in den angehängten Besicherungsspezifischen Regelungen angegebenen Rangfolge im Rang hinter den Inhabern Nicht Verzichtsgegenständlicher Wertpapiere stehen und der nach dieser Ausschüttung verbleibende Restbetrag (falls vorhanden) wird gemäß der in den angehängten Besicherungsspezifischen Regelungen festgelegten Rangfolge und die Emittentin zurückgezahlt;

- otherwise, if the Collateral Enforcement Proceeds Share for a particular Security is lower than, the Owed Amount then, in accordance with Condition 2.5.1, such Securityholder shall not be entitled to any further recourse against the Issuer any part of the Owed Amount remaining unpaid after enforcement of the relevant Security Interest and distribution of the proceeds thereof in accordance with this Condition 4.5., it being understood that the Securityholder may claim for the payment of such unpaid amounts from the Guarantor under the terms of the Guarantee.	- ist der Anteilige Sicherheitenverwertungserlös für eine bestimmte Wertpapiere hingegen kleiner als der Geschuldete Betrag, hat der betreffende Wertpapierinhaber gemäß Bedingung 2.5.1 keine weiteren Rückgriffsrechte gegenüber der Emittentin in Bezug auf einen Teil des geschuldeten Betrags, der nach der Verwertung der entsprechenden Sicherungsrechte und der Ausschüttung der Erlöse gemäß dieser Bedingung 4.5 noch unbezahlt ist (Unterdeckung); er kann jedoch von der Garantin im Rahmen der Garantie die Zahlung der betreffenden Unterdeckung verlangen.
Order of Priority means the order specified in the Secured-Specific Provisions attached hereto following which the Security Trustee shall apply moneys received following enforcement of the relevant Pledge Agreement in accordance with Condition 4. The Order of Priority may be the Standard Order of Priority (as defined below) or any alternative order between item (a), (b), (c), (d) and (e) below, as specified in the Secured-Specific Provisions attached hereto.	**Rangfolge** bezeichnet die in den angehängten Besicherungsspezifischen Regelungen angegebene Reihenfolge, nach der der Sicherheitentreuhänder Gelder verwendet, die er nach der Durchsetzung des maßgeblichen Verpfändungsvertrags gemäß Bedingung 4 erhält. Die Rangfolge kann die Standard-Rangfolge (wie nachstehend definiert) oder eine abweichende Reihenfolge der nachstehenden Punkte (a), (b), (c), (d) und (e) sein, wie in den angehängten Besicherungsspezifischen Regelungen angegeben.
(a) payment or satisfaction of all Liabilities incurred by or payable by the Issuer or Guarantor, in relation to the relevant Securities, to the Security Trustee or, where applicable, the Disposal Agent and/or Substitute Paying Agent (which shall include any taxes required to be paid, the costs of realising any security (including the distribution of enforcement proceeds and/or, where Physical Delivery of Collateral Assets is applicable, Delivery of the Collateral Assets Entitlement to the Securityholders of the related Securities) and the remuneration of the Security Trustee or, where applicable, the Disposal Agent and/or Substitute Paying Agent);	(a) die Zahlung oder Erfüllung aller Verbindlichkeiten, die der Emittentin oder Garantin in Bezug auf die maßgeblichen Wertpapiere entstehen oder die die Emittentin oder Garantin an den Sicherheitentreuhänder oder gegebenenfalls die Veräußerungsstelle und/oder die Ersatz-Zahlstelle zu zahlen hat (darunter alle zu zahlenden Steuern, die Kosten der Verwertung von Sicherheiten (einschließlich der Auskehrung des Verwertungserlöses und/oder, wenn Physische Lieferung von Sicherungswerten anwendbar ist, der Lieferung des Sicherungswert-Anspruchsgegenstands an die Wertpapierinhaber der betreffenden Wertpapieren) und die Vergütung des Sicherheitentreuhänders oder gegebenenfalls der Veräußerungsstelle und/oder der Ersatz-Zahlstelle),
(b) payment of any amounts due to be paid or reimbursed to the Collateral Manager, the Collateral Custodian and the Collateral Monitoring Agent or to the Tripartite Collateral Monitoring Agent (as applicable) by the Issuer;	(b) Zahlung aller Beträge, die die Emittentin an den Sicherheitenmanager, den Sicherheitenverwahrer und die Sicherheitenkontrollstelle oder an den Dreiparteien-Sicherheitenkontrollstelle (sofern zutreffend) zu leisten oder zu erstatten sind,
(c) payment of any amounts due to holders of Non-Waived Securities in accordance with Condition 4.5;	(c) die Zahlung von Beträgen, die den Inhabern Nicht Verzichtsgegenständlicher Wertpapieren gemäß Bedingung 4.5 geschuldet werden,
(d) pro rata payment of any amounts owed to the creditors (if any) whose claims have arisen as a result of the creation, operation or liquidation of the Collateral Assets (save to the extent that the claims of any such creditor fall within paragraphs (a) to (c) above); and;	(d) die anteilige Zahlung von Beträgen, die etwaigen Forderungsgläubigern zustehen, deren Forderungen infolge der Bestellung, der Verwaltung oder der Liquidation der Sicherungswerte entstanden sind (außer soweit die Forderungen solcher Forderungsgläubiger unter die Bestimmungen der Absätze (a) bis (c) oben fallen) und
(e) payment of the balance (if any) to the Issuer;	(e) die Zahlung des etwaigen Restbetrags an die Emittentin.

the **Standard Order of Priority** means that the Order of Priority shall follow the order (a), (b), (c), (d), (e) specified above.	**Standard-Rangfolge** bedeutet, dass die Rangfolge der vorstehend angegebenen Reihenfolge (a), (b), (c), (d), (e) folgt.
4.6 Inability to realise Collateral Assets	**4.6 Unfähigkeit zur Verwertung von Sicherungswerten**
If the Security Trustee or the Disposal Agent acting on its behalf is unable to sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Condition 4.4, for a period of one year from the date of the relevant Security Acceleration Event (such Collateral Assets being **Non-Realised Collateral Assets**), then in lieu of cash settlement of such Non-Realised Collateral Assets and notwithstanding any other provision hereof, the Security Trustee shall be entitled to Deliver, or procure the Delivery of, such Non-Realised Collateral Assets to the relevant Securityholders in accordance with Condition 4.7 and the Order of Priority specified in the Secured-Specific Provisions attached hereto.	Ist der Sicherheitentreuhänder oder die für ihn handelnde Veräußerungsstelle nicht in der Lage, während eines Zeitraums von einem Jahr ab dem maßgeblichen Kündigungsereignis in Bezug auf Wertpapieren gemäß Bedingung 4.4 die Sicherungswerte an Wertpapierbörsen oder Notierungssystemen, an denen die Sicherungswerte gegebenenfalls zugelassen sind oder notiert werden, zu verkaufen oder die drei für den Verkauf eines oder mehrerer Sicherungswerte erforderlichen Quotierungen einzuholen (wobei die betreffenden Sicherungswerte als **Nicht Verwertete Sicherungswerte** bezeichnet werden), so ist der Sicherheitentreuhänder berechtigt, anstelle eines Barausgleichs der betreffenden Nicht Verwerteten Sicherungswerte ungeachtet der übrigen Bestimmungen dieses Dokuments, die betreffenden Nicht Verwerteten Sicherungswerte an die maßgeblichen Wertpapierinhaber gemäß Bedingung 4.7 und der in den angehängten Besicherungsspezifischen Regelungen angegebenen Rangfolge zu Liefern oder für die Lieferung Sorge zu tragen.
If Delivery of any Non-Realised Collateral Assets is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event (as defined below) that is continuing for a period of more than 20 Collateral Business Days, the Security Trustee or the Disposal Agent on its behalf, shall be entitled to either (i) sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets or (ii) Deliver such Non-Realised Collateral Assets if Delivery subsequently becomes possible.	Ist die Lieferung Nicht Verwerteter Sicherungswerte wegen des Eintritts einer Störung der Physischen Lieferung von Sicherungswerten (wie nachstehend definiert), die während eines Zeitraums von mehr als 20 Sicherheitengeschäftstagen andauert, nicht möglich, so ist der Sicherheitentreuhänder oder die für ihn handelnde Veräußerungsstelle berechtigt, entweder (i) die betreffenden Nicht Verwerteten Sicherungswerte durch Annahme des ersten verfügbaren Preises für die betreffenden Nicht Verwerteten Sicherungswerte zu verkaufen oder (ii) die betreffenden Nicht Verwerteten Sicherungswerte zu Liefern, wenn die Lieferung anschließend möglich wird.
A **Physical Delivery of Collateral Assets Disruption Event** means any event beyond the control of the Issuer, the Collateral Agent, the Collateral Custodian, the Substitute Paying Agent, the Disposal Agent, the Security Trustee, as applicable, as a result of which the Clearing System (as defined in § 1 of the General Terms) cannot Deliver some or all of the Collateral Assets Entitlement required to be delivered pursuant to the terms of these Secured-Specific Terms.	Eine **Störung der Physischen Lieferung von Sicherungswerten** bezeichnet ein von der Emittentin, dem Sicherheitenverwalter, dem Sicherheitenverwahrer, der Ersatz-Zahlstelle, der Veräußerungsstelle bzw. dem Sicherheitentreuhänder nicht zu vertretendes Ereignis, infolge dessen das Maßgebliche Clearingsystem (wie in den angehängten Besicherungsspezifischen Regelungen definiert) den nach Maßgabe dieser Besicherungsspezifischen Regelungen zu liefernden Sicherungswert-Anspruchsgegenstand insgesamt oder teilweise nicht Liefern kann.
4.7 Physical Delivery of Collateral Assets	**4.7 Physische Lieferung von Sicherungswerten**
Where "*Physical Delivery of Collateral Assets*" is specified as applicable in the Secured-Specific Provisions attached hereto, it means that upon enforcement of a Pledge Agreement, the Security Trustee will not sell, or	Ist in den angehängten Besicherungsspezifischen Regelungen "*Physische Lieferung von Sicherungswerten*" als anwendbar angegeben, bedeutet dies, dass der Sicherheitentreuhänder bei der Durchsetzung eines

Following such payment, the Security Trustee will notify Securityholders of the relevant Collateral Delivery Date and will Deliver the Collateral Assets Entitlement to the Securityholders of the Securities secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified in the Secured-Specific Provisions attached hereto, subject to the following provisions:	Nach der betreffenden Zahlung teilt der Sicherheitentreuhänder den Wertpapierinhabern den maßgeblichen Sicherheiten-Liefertag mit und Liefert den Sicherungswert-Anspruchsgegenstand an die Wertpapierinhabern der Wertpapieren, die mit dem maßgeblichen Sicherheitenpool besichert sind, gemäß dem in den angehängten Besicherungsspezifischen Regelungen angegebenen Verfahren zur Übertragung von Sicherungswerten und vorbehaltlich der folgenden Bestimmungen:
- If the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Agent or the Collateral Manager on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Security is greater than the Owed Amount, then assets from the Collateral Assets Entitlement for a value equal to such excess amount will be liquidated and the proceeds thereof will then be distributed to the Secured Parties ranking after the holders of Non-Waived Securities in accordance with the Order of Priority specified in the Secured-Specific Provisions attached hereto, and any Collateral Assets Entitlements remaining after such distribution will be returned to the Issuer in accordance with the Order of Priority specified in the Secured-Specific Provisions attached hereto;	- Ist der Marktwert der in einem Sicherungswert-Anspruchsgegenstand enthaltenen Sicherungswerte (auf Grundlage der Bewertungen des Marktwerts dieser Vermögenswerte durch den Sicherheitenverwalter oder den Sicherheitenmanager am Sicherheitentest-Termin unmittelbar vor der Zustellung der Sicherheitenverwertungsmitteilung) für eine bestimmtes Wertpapier größer als der Geschuldete Betrag, dann werden Vermögenswerte aus dem Sicherungswert-Anspruchsgegenstand im Wert dieses überschüssigen Betrags liquidiert, und der Erlös hieraus wird anschließend an die Besicherten Parteien ausgeschüttet, die gemäß der in den angehängten Besicherungsspezifischen Regelungen angegebenen Rangfolge im Rang hinter den Inhabern Nicht Verzichtsgegenständlicher Wertpapieren stehen und alle nach einer solchen Ausschüttung verbleibenden Sicherungswerte werden gemäß der in den angehängten Besicherungsspezifischen Regelung festgelegten Rangfolge an den Emittenten zurückgegeben;
- otherwise, when the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Agent and the Collateral Manager on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Security is lower than the Owed Amount, then, in accordance with Condition 2.5.1 such Securityholder shall not be entitled to any further recourse against the Issuer for such shortfall amount, but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.	- ist der Marktwert der in einem Sicherungswert-Anspruchsgegenstand enthaltenen Sicherungswerte (auf Grundlage von Bewertungen des Marktwerts der betreffenden Vermögenswerte durch den Sicherheitenverwalter und den Sicherheitenmanager am Sicherheitentest-Termin unmittelbar vor Zustellung der Sicherheitenverwertungsmitteilung) für ein bestimmtes Wertpapier hingegen geringer als der Geschuldete Betrag, dann hat der betreffende Wertpapierinhaber gemäß Bedingung 2.5.1 keine weiteren Rückgriffsrechte gegenüber der Emittentin im Hinblick auf die betreffende Unterdeckung; er kann jedoch von der Garantin im Rahmen der Garantie die Zahlung der betreffenden Unterdeckung verlangen.
4.8 Physical Delivery of Collateral Assets Disruption Event	**4.8 Störung der Physischen Lieferung von Sicherungswerten**

4.8.1 If, in the opinion of the Substitute Paying Agent or the Security Trustee, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of Delivery specified in the Secured-Specific Provisions attached hereto, or such other commercially reasonable manner as the Substitute Paying Agent or the Security Trustee has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Substitute Paying Agent or the Security Trustee may elect to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Substitute Paying Agent or the Security Trustee deems appropriate in connection with Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement.	4.8.1 Ist nach Auffassung der Ersatz-Zahlstelle oder des Sicherheitentreuhänders die Lieferung aller oder einzelner Sicherungswerte, die Bestandteil des Sicherungswert-Anspruchsgegenstands sind, mit dem in den angehängten Besicherungsspezifischen Regelungen angegebenen Lieferverfahren oder in einer anderen von der Ersatz-Zahlstelle oder dem Sicherheitentreuhänder bestimmten wirtschaftlich angemessenen Weise nicht durchführbar, weil an einem Sicherheiten-Liefertag eine Störung der Physischen Lieferung von Sicherungswerten eingetreten ist und andauert, so wird der betreffende Sicherheiten-Liefertag auf den nächstfolgenden Sicherheitengeschäftstag verschoben, für den keine Störung der Physischen Lieferung von Sicherungswerten vorliegt, mit der Maßgabe, dass die Ersatz-Zahlstelle oder der Sicherheitentreuhänder beschließen können, die Sicherungswerte, die Bestandteil des Sicherungswert-Anspruchsgegenstands sind, in einer anderen von ihnen zu bestimmenden wirtschaftlich angemessenen Weise zu Liefern, wobei in diesem Fall der Sicherheiten-Liefertag der Tag ist, den die Ersatz-Zahlstelle oder der Sicherheitentreuhänder im Zusammenhang mit der Lieferung der Sicherungswerte, die Bestandteil des Sicherungswert-Anspruchsgegenstands sind, für geeignet erachtet.
For the avoidance of doubt, where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be delivered to a Securityholder, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are delivered.	Zur Klarstellung wird festgehalten, dass, soweit eine Störung der Physischen Lieferung von Sicherungswerten einzelne, jedoch nicht alle Sicherungswerte betrifft, die Bestandteil des an einen Wertpapierinhaber zu liefernden Sicherungswert-Anspruchsgegenstands sind, der Sicherheiten-Liefertag für diejenigen Sicherungswerte, die Bestandteil des Sicherungswert-Anspruchsgegenstands sind und deren Lieferung möglich ist, der Sicherheiten-Liefertag ist, an dem die betreffenden Sicherungswerte geliefert werden.
4.8.2 If a Physical Delivery of Collateral Assets Disruption Event occurs and is continuing for a period of more than 20 Collateral Business Days (or such other period specified in the Secured-Specific Provisions attached hereto), then in lieu of physical settlement and notwithstanding any other provision hereof, the Security Trustee or the Disposal Agent acting on its behalf, shall sell or realise the assets they are unable to deliver (the Undeliverable Collateral Assets) and deliver the proceeds thereof to Securityholders in the manner set out in Conditions 4.4 and 4.5.	4.8.2 Falls eine Störung der Physischen Lieferung von Sicherungswerten eintritt und während eines Zeitraums von mehr als 20 Sicherheitengeschäftstagen (oder eines anderen in den angehängten Besicherungsspezifischen Regelungen angegebenen Zeitraums) andauert, so hat der Sicherheitentreuhänder oder die für ihn handelnde Veräußerungsstelle anstelle der Abwicklung durch physische Lieferung ungeachtet der übrigen Bestimmungen dieses Dokuments die Sicherungs- werte, die er/sie nicht liefern kann (die Nicht Lieferbaren Sicherungswerte) zu verkaufen bzw. zu verwerten und den daraus erzielten Erlös in der in Bedingung 4.4 und 4.5 beschriebenen Weise an die Wertpapierinhaber zu liefern.
4.8.3 If the Security Trustee or the Disposal Agent acting on its behalf is unable to either (i) sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed	4.8.3 Ist der Sicherheitentreuhänder oder die für ihn handelnde Veräußerungsstelle während eines Zeitraums von einem Jahr ab dem maßgeblichen Kündigungsereignis in Bezug auf Wertpapieren

The Security Trustee or the Substitute Paying Agent on its behalf, shall give notice as soon as practicable to the Securityholders in accordance with § 7 of the General Terms, as applicable, that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant Securities in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, the Guarantor, the Disposal Agent or the Security Trustee.	Der Sicherheitentreuhänder oder die für ihn handelnde Ersatz-Zahlstelle teilt den Wertpapierinhabern gemäß § 7 der Allgemeinen Bedingungen, soweit anwendbar, sobald dies vernünftigerweise durchführbar ist, mit, dass eine Störung der Physischen Lieferung von Sicherungswerten eingetreten ist. Den Wertpapierinhabern stehen im Fall einer Verzögerung bei der Lieferung der Sicherungswerte, die Bestandteil des Sicherungswert-Anspruchsgegenstands sind, wegen des Eintritts einer Störung der Physischen Lieferung von Sicherungswerten keine Zahlungen in Bezug auf die maßgeblichen Wertpapiere zu, und es wird diesbezüglich keinerlei Haftung seitens der Emittentin, der Garantin, der Veräußerungsstelle oder des Sicherheitentreuhänders begründet.
4.9 Liability of the Security Trustee	**4.9 Haftung des Sicherheitentreuhänders**

Jede solche Beendigung, Abberufung und/oder Ersetzung wird nach Maßgabe der Bestimmungen der betreffenden Verträge und dieser Besicherungsspezifischen Bedingungen

Securityholders of any such termination, removal and/or replacement in accordance with § 7 of the General Terms, as applicable.	vorgenommen und kann ohne die Zustimmung der Wertpapierinhaber vorgenommen werden. Eine solche Beendigung oder Abberufung wird erst wirksam, wenn ein Unternehmen als Ersatz bestellt worden ist. Die Emittentin hat eine solche Beendigung, Abberufung und/oder Ersetzung den Wertpapierinhabern gemäß § 7 der Allgemeinen Bedingungen, soweit anwendbar, mitzuteilen.
If either the Framework Agreement, the Collateral Management Service Module or the Collateral Custodian Service Module is terminated, not at the initiative of the Issuer, prior to the Maturity Date (or, in case of securities with an unlimited term, the Ordinary Termination Date) of a Securities, the Calculation Agent may then appoint a suitable successor to the party terminating such agreement. If the substitute Framework Agreement and/or Collateral Management Service Module and/or Collateral Custodian Service Module are not effective on the date on which the termination of the Framework Agreement and/or the Collateral Management Service Module and/or Collateral Custodian Service Module becomes effective, the Collateral Manager and/or the Collateral Custodian shall continue to perform their duties until a suitable successor can be duly appointed. If, after commercially reasonable endeavours, no such successor can be appointed up to three years after the notice of termination has been given of the relevant agreement, the Calculation Agent may then consider such event as an event triggering an early redemption of the Securities (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Securities and shall pay or cause to be paid, an Extraordinary Termination Amount.	Wenn entweder der Rahmenvertrag, das Sicherheitenmanagement-Servicemodul oder das Sicherheitenverwahrer-Servicemodul vor dem Fälligkeitstag (oder im Falle von Wertpapieren mit unbegrenzter Laufzeit vor dem Ordentlichen Kündigungstermin) eines Wertpapiers ohne Veranlassung der Emittentin gekündigt wird, kann die Berechnungsstelle einen geeigneten Nachfolger für die Partei benennen, die eine solche Vereinbarung gekündigt hat. Wenn die Ersatz-Rahmenvertrag und/oder das Ersatz-Sicherheitenmanagement-Servicemodul und/oder das Ersatz- Sicherheitenverwahrer-Servicemodul nicht zu dem Zeitpunkt wirksam sind, zu dem die Kündigung der Rahmenvertrages und/oder des Servicemoduls für Sicherheitenmanagement und/oder des Servicemoduls für Sicherheitenverwahrung wirksam wird, werden der Sicherheitenmanager und/oder der Sicherheitenverwahrer ihre Aufgaben so lange weiterführen, bis ein geeigneter Nachfolger ordnungsgemäß bestellt werden kann. Kann nach wirtschaftlich vertretbaren Anstrengungen bis zu drei Jahre nach Mitteilung der Kündigung der betreffenden Vereinbarung kein solcher Nachfolger bestellt werden, kann die Berechnungsstelle dieses Ereignis als ein Ereignis betrachten, das eine Vorzeitige Rückzahlung der Wertpapiere auslöst (im Folgenden **Vorzeitiges Rückzahlungsereignis**). Tritt ein Vorzeitiger Rückzahlungsereignis ein, beendet die Emittentin ihre Verpflichtungen aus den Wertpapieren und zahlt oder veranlasst die Zahlung eines Außerordentlichen Kündigungsbetrags.
The replacement of the Collateral Custodian may only be effected when certain conditions relating to the substitute Collateral Custodian are fulfilled. Such conditions include, but are not limited to a requirement that: (i) the substitute Collateral Custodian is incorporated in an Organisation for Economic Co-operation and Development (OECD) member country, (ii) the substitute Collateral Custodian is a fully licensed credit institution in the European Union (EU), (iii) in the reasonable opinion of the Issuer and the Guarantor, the substitute Collateral Custodian is able to act as Collateral Custodian and fulfil the obligations and duties expressed to be binding on it pursuant to the terms of the Collateral Custodian Agreement and (iv) the substitute Collateral Custodian is chosen from a pre-established list of entities (including Citi, HSBC, JP Morgan, Northern Trust, RBC Dexia Investor Services, BP2S, State Street or Wells Fargo & Company Inc) or otherwise is a custodial entity of similar repute and good standing.	Eine Ersetzung des Sicherheitenverwahrers kann nur dann vorgenommen werden, wenn hinsichtlich des ihn ersetzenden Sicherheitenverwahrers bestimmte Voraussetzungen erfüllt sind. Zu diesen Voraussetzungen zählen unter anderem, dass (i) der Ersatz-Sicherheitenverwahrer in einem Mitgliedstaat der Organisation für wirtschaftliche Zusammenarbeit und Entwicklung (OECD) errichtet wurde, (ii) der Ersatz-Sicherheitenverwahrer über eine vollumfängliche Erlaubnis als Kreditinstitut in der Europäischen Union (EU) verfügt, (iii) der Ersatz-Sicherheitenverwahrer nach der angemessenen Auffassung der Emittentin und der Garantin in der Lage ist, als Sicherheitenverwahrer tätig zu werden und die Pflichten und Aufgaben zu erfüllen, die nach Maßgabe der Bedingungen des Sicherheitenverwahrvertrags für ihn verbindlich sein sollen, und (iv) der Ersatz-Sicherheitenverwahrer aus einer vorgegebenen Liste von Unternehmen (darunter Citi, HSBC, JP Morgan, Northern Trust, RBC Dexia Investor Services, BP2S, State Street oder Wells Fargo &

	Company Inc) ausgewählt wird oder er ein sonstiges etabliertes Verwahrunternehmen mit vergleichbarem Ruf ist.
6. SWITCH OF THE COLLATERAL STRUCTURE AT THE OPTION OF THE ISSUER	**6. WECHSEL DER BESICHERUNGSSTRUKTUR NACH WAHL DER EMITTENTIN**
If the Secured-Specific Provision attached hereto specify that Type of Collateral Structure is "*Standard Collateral Structure*", the Issuer shall have the right to switch the Collateral Structure from the Standard Collateral Structure to the Tripartite Collateral Structure, as described below.	Falls in den anwendbaren Endgültigen Bedingungen angegeben ist, dass die Art der Besicherungsstruktur "*Standard-Besicherungsstruktur*" lautet, ist die Emittentin berechtigt, die Besicherungsstruktur von der Standard-Besicherungsstruktur auf die Dreiparteien-Besicherungsstruktur, wie nachstehend beschrieben, umzustellen.
The Issuer may, by giving 2 Business Days' prior notice (which shall be irrevocable) to the Securityholders (in accordance with § 7 of the General Terms) to the relevant Collateral Arrangement Parties, and to the other Secured Parties (such notice being a **Switch Notice**), change the Type of Collateral Structure of a Series of Securities from "*Standard Collateral Structure*" to "*Tripartite Collateral Structure*" without requiring the consent of the Securityholders or any other Secured Parties (such a unilateral amendment of the Type of Collateral Structure, a **Switch**, and the Series of Securities of which the Type of Collateral Structure is amended, the **Switched Securities**). The Switch Notice to be delivered by the Issuer shall specify the time and date on which the switch shall become effective, which will need to be a Collateral Business Day (the **Switch Effective Time**) and the Collateral Pool by which the Switched Securities will be secured following the Switch (the **New Collateral Pool**).	Die Emittentin kann durch eine (unwiderruflicher) Mitteilung an die Wertpapierinhaber (gemäß § 7 der Allgemeinen Bedingungen), die maßgeblichen Parteien der Sicherheitenvereinbarung und die anderen Besicherten Parteien (eine solche Mitteilung wird als **Wechsel-Mitteilung** bezeichnet) mit einer Frist von zwei Geschäftstagen die Art der Besicherungsstruktur einer Serie der Wertpapiere von einer "*Standard-Besicherungsstruktur*" in eine "*Dreiparteien-Besicherungsstruktur*" ändern, ohne dass die Zustimmung der Wertpapierinhaber oder anderer Besicherter Parteien erforderlich ist (eine solche einseitige Änderung der Art der Besicherungsstruktur wird als **Wechsel** (*Switch*) bezeichnet, und die Serie der Wertpapiere, deren Art der Besicherungsstruktur geändert wird, wird als **Wechsel-Wertpapier** bezeichnet). Die von der Emittentin zu übermittelnde Wechselmitteilung muss Angaben zum Zeitpunkt und Datum enthalten, zu dem der Wechsel wirksam wird, der ein Sicherheitengeschäftstag sein muss (der **Zeitpunkt des Inkrafttretens des Wechsels**) sowie zum Sicherheitenpool, durch den die Wechsel-Wertpapiere nach dem Wechsel besichert werden (der **Neue Sicherheitenpool**).
The Switch shall automatically become effective at the Switch Effective Time, provided that before the Switch Effective Time.	Der Wechsel wird automatisch zum Zeitpunkt des Inkrafttretens des Wechsels wirksam, vorausgesetzt, dass vor dem Zeitpunkt des Inkrafttretens des Wechsels:
(a) (i) the Issuer shall have opened a new Collateral Account with BNY Belgium as Collateral Custodian and have created a first-ranking right of pledge for the benefit of the Secured Parties in respect of such Switched Securities by entering into a Pledge Agreement for the Tripartite Collateral Structure in relation to such Collateral Account and a Tripartite Security Trust Deed, and the Issuer shall have transferred (or have procured the transfer of) Eligible Collateral Assets having a Collateral Value at least equal to the last Required Collateral Value calculated prior to the Switch Effective Time in respect of the Switched Securities to the Collateral Account; or	(a) (i) die Emittentin ein neues Sicherheitenkonto bei BNY Belgien als Sicherheitenverwalter eröffnet und zugunsten der Besicherten Parteien durch Abschluss eines Verpfändungsvertrages für die Dreiparteien-Besicherungsstruktur sowie einer Sicherheitentreuhandvereinbarung ein vorrangiges Pfandrecht an den Wechsel-Wertpapieren bestellt hat; und die Emittentin für die Wechsel-Wertpapiere Zulässige Sicherungswerte mit einem Sicherungswert, der mindestens dem letzten vor dem Zeitpunkt des Inkrafttretens des Wechsels berechneten Erforderlichen Sicherungswert entspricht. auf das Sicherheitenkonto übertragen (oder deren Übertragung veranlasst) hat oder

(ii) if the Switched Securities will be secured by a Collateral Account holding a Multiple Series Collateral Pool in respect of which the Issuer has already entered into a Pledge Agreement for the Tripartite Collateral Structure and provided that the Switched Securities are capable of being secured by the relevant Multiple Series Collateral Pool, the Issuer shall have delivered an Extension Notice to the relevant Pledgee in respect of such Multiple Series Collateral Pool and the relevant Pledgee shall have confirmed its agreement to extend the benefit of the existing security interest over the Multiple Series Collateral Pool to the Switched Securities and the Secured Parties thereunder, and the Issuer shall have transferred (or have procured the transfer of) an amount of Eligible Collateral Assets which, in the reasonable opinion of the Issuer, will ensure that the Collateral Test shall remain satisfied in respect of the relevant Multiple Series Collateral Pool immediately following the Switch; and	(ii) sofern die Wechsel-Wertpapiere durch ein Sicherheitenkonto besichert werden, das einen Sicherheitenpool für Mehrere Serien enthält, für den die Emittentin bereits einen Verpfändungsvertrag für die Dreiparteien-Besicherungsstruktur abgeschlossen hat, und sofern die Wechsel-Wertpapiere durch den betreffenden Sicherheitenpool für Mehrere Serien besichert werden können, die Emittentin dem maßgeblichen Pfandnehmer eine Erweiterungsmitteilung in Bezug auf diesen Sicherheitenpool für Mehrere Serien zugestellt hat, und der betreffende Pfandnehmer seine Zustimmung zur Ausweitung des bestehenden Sicherungsrechts an dem Sicherheitenpool für Mehrere Serien auf die Wechsel-Wertpapiere und die darin genannten Besicherten Parteien bestätigt hat, und die Emittentin einen Betrag an Zulässigen Sicherungswerten übertragen (oder deren Übertragung veranlasst) hat, der nach vernünftiger Einschätzung der Emittentin sicherstellt, dass die Sicherheitenprüfung in Bezug auf den betreffenden Sicherheitenpool für Mehrere Serien unmittelbar nach dem Wechsel auch weiterhin erfüllt ist und
(b) the Issuer shall have given any requisite notices and shall have taken all necessary steps to perfect and render effective the first-ranking right of pledge created in accordance with (a) (i) above or extended in accordance with (a) (ii) above as against the Collateral Custodian and any relevant third parties.	(b) die Emittentin alle erforderlichen Mitteilungen vorgenommen und alle notwendigen Schritte unternommen hat, um das gemäß (a) (i) oben begründete oder gemäß (a) (ii) oben erweiterte vorrangige Pfandrecht gegenüber dem Sicherheitenverwahrer und allen maßgeblichen Dritten zur Vollständigkeit und Wirksamkeit zu verhelfen.
When the Switch has taken place in accordance with the foregoing:	Sobald der Wechsel gemäß den vorstehenden Bestimmungen erfolgt ist:
(a) as from the Switch Effective Time, the Switched Securities will automatically and by operation of law constitute a Series of Securities in respect of which the Type of Collateral Structure is specified as "*Tripartite Collateral Structure*" in the Secured-Specific Provisions and all references in the Terms and Conditions of the Switched Securities to a "Collateral Pool" shall henceforth be construed as referring to the New Collateral Pool, and	(a) bilden die Wechsel-Wertpapiere ab dem Zeitpunkt des Inkrafttretens des Wechsels automatisch und kraft Gesetzes eine Serie von Wertpapieren, für die die Art der Besicherungsstruktur in den angehängten Besicherungsspezifischen Regelungen als "*Dreiparteien-Besicherungsstruktur*" angegeben ist, und alle Verweise in den Emissionsbedingungen der Wechsel-Wertpapieren auf einen "Sicherheitenpool" sind von diesem Zeitpunkt an als Verweise auf den Neuen Sicherheitenpool zu verstehen; und
(b) the Issuer and the Pledgee under the Pledge Agreement for the Standard Collateral Structure previously entered into in relation to the Switched Securities will promptly take all necessary steps to arrange for the full or partial release (as applicable) of the security interest created under such Pledge Agreement for the Standard Collateral Structure.	(b) werden die Emittentin und der Pfandnehmer gemäß dem zuvor in Bezug auf die Wechsel-Wertpapiere abgeschlossenen Verpfändungsvertrag für die Standard-Besicherungsstruktur unverzüglich alle notwendigen Schritte unternehmen, um die vollständige oder teilweise Freigabe (je nach Fall) der unter diesem Verpfändungsvertrag für die Standard-Besicherungsstruktur begründeten Sicherungsrechte zu veranlassen.
