## RISK FACTORS

The following risk factor shall be added at the end of the paragraph entitled "Business development risk (including strategic and concentration risk)" on page 9 of the Base Prospectus:

*"Risk related to geopolitical instability and economic conditions (Global Criticality: medium risk)"*

The RCI Banque group operates in a number of different countries (as set out on page 82 of the Financial Report 2021), including Russia. The RCI Banque group has two operations in Russia: a wholly-owned subsidiary (RNL Leasing) and a 30% stake in RN Bank. As of 31 December 2021, the RCI Banque group's total exposure to Russia (equity investments plus intercompany loans) was 109 million euros.

Since Russia's invasion of Ukraine in February 2022, the European Union, the United States and other countries have announced wide-ranging economic sanctions against Russia. Further sanctions may be imposed and/or other actions may be taken should the conflict between Russia and Ukraine further escalate. While it is difficult to assess the consequences that such sanctions and/or actions, including any retaliatory measures taken by Russia, may have on the RCI Banque group's Russian operations, or any knock-on effects that the conflict may have on the RCI Banque group's operations based outside Russia, they may negatively impact the financial condition of the Issuer and, in a worst case scenario, may lead to the total loss of the Issuer's equity investments in RN Bank and the intercompany loans granted to RNL Leasing."

## DESCRIPTION OF RCI BANQUE AND THE RCI BANQUE GROUP

### 10. Press release dated 31 January 2022

#### RCI BANQUE DISCLOSES CAPITAL REQUIREMENTS FOLLOWING THE 2021 SREP DECISION

As part of the 2021 exercise of the supervisory review and evaluation process ("SREP"), the European Central Bank has notified RCI Banque of its final decision regarding the capital requirement the Bank must respect in 2022.

As of March 1, 2022, the Pillar 2 requirement (P2R) will be 2.05% compared to 2% for the previous financial year. It includes an additional 0.05% linked to the provisioning of old non-performing receivables. The amount of provisions on these contracts indeed shows a slight shortfall compared to the quantitative expectations published by the regulator in "Addendum to the ECB Guidance to banks on non-performing loans: supervisory expectations for the prudential provisioning of non-performing exposures". RCI will follow the process suggested to integrate non-performing loan coverage expectations to eventually remove this additional P2R requirement.

Starting from March 1, 2022, RCI Banque will be required to meet the following capital requirements:

	Minimum capital requirements			
	Total	Pillar 1	Pillar 2 <sup>1</sup>	Buffers <sup>2</sup>
<b>CET1<sup>3</sup></b>	<b>10.10%</b>	<b>6.00%</b>	<b>1.59%</b>	<b>2.51%</b>
<i>ow CET1 (Regulatory)</i>	<i>8.16%</i>	<i>4.50%</i>	<i>1.15%</i>	<i>2.51%</i>

<b>Total ratio</b>	<b>12.56%</b>	<b>8.00%</b>	<b>2.05%</b>	<b>2.51%</b>

As a reminder, RCI Banque CET1 and Total Capital ratios stood at 17,01% and 19,79% respectively on 30 June 2021. In October 2021, RCI paid dividends from retained earnings for M€ 930,6, representing 2.65 % of June 2021 risk weighted assets.

## 11. Press release dated 21 February 2022

- The penetration<sup>1</sup> rate stands at 46% of registrations compared to 44.2% in 2019.
- In 2021, the number of electric and hybrid vehicle financing contracts rose by 44% to 91,805 contracts, representing 8.7% of new vehicle financing contracts in Europe.
- The used vehicle financing business grew by 4.1% compared with the previous year, with 363,711 contracts financed.
- In 2021, 47% of the group's private customers opted for leasing financing offers, an increase of 8 points compared to 2020.
- The average amount financed per contract was up 7.2% in 2021 compared with 2020, in line with the Renault Group's "From volume to value" strategy.
- With 3 services sold for each vehicle financed, RCI Bank and Services sold 4.7 million service contracts in 2021, up 2% in 2020.
- RCI Bank and Services reaches a record level of customer satisfaction in 2021, with a Net Promoter Score<sup>2</sup> of +53 points in 2021, up by 6 points.
- The total cost of risk improved significantly to 0.14% of APA<sup>3</sup>s from 0.75% at the end of 2020.
- Deposits from individual customers increased by 0.5 billion euros to 21 billion euros or 47% of net assets at the end of December 2021.

*"RCI Bank and Services is once again demonstrating the strength of its business model with a significant increase in pre-tax profit, as well as strong profitability with an ROE<sup>4</sup> of 14.5% and a RORWA<sup>5</sup> of 2.5%. RCI Bank and Services is a key element in the development of service and mobility offerings designed to answer to the new needs of Renault Group customers, and more particularly those of Mobilize," says Clotilde Delbos, Deputy Chief Executive Officer, Chief Financial Officer of Renault Group, Chief Executive Officer of Mobilize and Chairman of the Board of Directors of RCI Banque S.A..*

*"In 2021, we have strongly invested in the modernization of RCI Bank and Services to respond to the new usages of our customers by offering more flexible offers on electric vehicles or car subscription, with the acquisition of Bipi, the leading platform in this segment. In addition, we have launched 100% online financing in several major countries for the group. This is reflected in a record level of customer recommendation, making RCI Bank and Services a benchmark among captives and banks," explains João Leandro, Chief Executive Officer of RCI Bank and Services.*

### ROBUST COMMERCIAL PERFORMANCE AND INCREASE OF THE AVERAGE AMOUNT FINANCED

In a still disrupted automotive environment, where manufacturers have focused on a strategy of creating value rather than volume, the sales of the Alliance brands reached 2.8 million vehicles in 2021. RCI Bank and Services' penetration rate stands at 46%<sup>6</sup>, up 1.8 points compared to 2019<sup>7</sup>, before the health crisis.

RCI Bank and Services financed 1,415,841 contracts in 2021, down 6.9% compared with 2020. Despite this drop, new financings (excluding cards and personal loans) amounted to 17.8 billion euros, down 0.2% thanks to a 7.2% increase in average amounts financed. Excluding the negative foreign exchange effect of 92 million euros, new financings increased by 0.4%.

The used car vehicle financing business grew by 4.1% compared with the previous year, with 363,711 contracts financed.

With 91,805 financing contracts for electric and hybrid vehicles, an increase of 44% compared with 2020, RCI Bank and Services is supporting the Alliance in its efforts to reduce its carbon footprint. The share of leasing offers also increased in 2021 and represents 47% of new vehicle financing contracts in the private customer segment, an increase of 8 points.

The number of services sold in 2021 represents 4.7 million insurance and service contracts, up 2%, 72% of which are related to the customer or the usage of the car. With 3 services sold for each vehicle financed in 2021, RCI Bank and Services sets a new record.

In 2021, the group reaches a record level of customer recommendation, with a Net Promoter Score<sup>8</sup> of +53 points, up 6 points in 2020, making RCI Bank and Services a benchmark in the automotive captive market and banks.

---

<sup>6</sup> Penetration rate excluding SME (companies consolidated by the equity method: Russia, Turkey and India).

<sup>7</sup> The intervention rate is 1.5 points lower than in 2020, due to a more company oriented mix of registrations (+3 points compared to 2020) and a desire to refocus on the most profitable financing channels.

<sup>8</sup> The Net Promoter Score (NPS) is the percentage of customers evaluating their probability of recommending a company, product or service to a friend or colleague as 9 or 10 ("promoters") minus the percentage evaluating this probability as 6 or less ("detractors") on a scale of 0 to 10.

## **A ROBUST FINANCIAL PERFORMANCE THANKS TO A SIGNIFICANT IMPROVEMENT OF THE COST OF RISK**

The average performing assets stood at 44.8 billion euros, down -4.6% compared to the end of 2020, heavily impacted by the 23.4% drop in average performing assets related to the Wholesale activity, which stood at 7.1 billion euros impact of the semiconductor shortage on the manufacturing of new cars, and the inventory optimization in the dealer network for Renault Group brands.

Excluding the negative foreign exchange rate effect of -59.1 million euros, average performing assets directly linked to the Retail activity in 2021 amounted to 37.6 billion euros, up slightly by 0.2%, thanks to the good level of new financings in 2021 in a still difficult context.

Net banking income amounted to 1,828 million euros, down 6.5% compared to 2020, in line with the 4.6% decline in average performing assets. Net banking income as a percentage of NPAs was 4.08%.

Operating costs totalize 570 million euros, improving by 15 million euros compared to 2020. RCI Bank and Services is an integral part of the Renault Group's plan to reduce fixed costs.

The cost of risk for Retail (financing for private and business) stands at 0.26% of APMs at end-2021, compared with 0.89% of APMs at end-2020. This very good level is explained by the improvement in risk parameters and by a return to normal recovery processes, which had been heavily impacted by the strict lockdowns in 2020, particularly in France, Italy, Brazil, and Spain. The IFRS 9 prospective provisions update resulted in a provision of 3 million euros over 2021 compared to a provision of 66.8 million euros over 2020.

The cost of risk for Wholesale (financing for dealerships) stands at -0.52% of APM at end-2021 compared to a provision of 0.18% at the end of 2020. This improvement is linked to the decline in dealer outstanding's and also to the update of the IFRS 9 forward-looking provisioning, with a reversal of 14.5 million euros over 2021 compared with an allocation of 22.7 million euros over 2020.

Pre-tax income stands at 1,194 million euros, compared with 1,003 million euros at the end of 2020. This growth is primarily the result of an improvement in the cost of risk.

## **IN A CONTEXT OF LOW FINANCING REQUIREMENTS, RCI BANK AND SERVICES CONTINUES TO DIVERSIFY ITS FINANCING SOURCES**

In the absence of growth in the commercial portfolio, funding needs remained modest and the group took a number of initiatives to reduce its liquidity reserve, which had reached an all-time high level at the end of 2020. In this context, RCI Bank and Services has not issued on the bond market and has sought to slow the pace of growth in customer deposits, which have nevertheless increased by 0.5 billion euros since December 2020 to 21 billion euros, representing a growth of 2.6% compared with 15% for the year 2020. To diversify its funding sources, in July the group deployed its savings business in the Netherlands through the fintech Raisin and placed a public securitization backed by car loans in Germany for 900 million euros of senior securities (of which 200 million euros was self-subscribed).

## **NUMEROUS ACHIEVEMENTS IN LINE WITH THE GROUP'S STRATEGIC PRIORITIES**

In 2021, RCI Bank and Services achieved its objectives on its four strategic priorities:

1. **Providing more digital journeys to customers:** 100% online purchase and financing paths are now available to Renault customers in Italy, France, and Brazil. In 2022, RCI Bank and Services will play a key role in marketing the Renault Megane E Tech and Nissan Ariya, which Alliance customers will be able to order and finance entirely online.
2. **Moving from selling cars to selling kilometers:** in July 2021, RCI Bank and Services acquired Bipi, a startup specializing in car subscription services now operating in Spain, France, Italy and the Netherlands and will support the development of its business in Europe in 2022. RCI Bank and Services will also develop its operational leasing business, which will provide the number of used vehicles needed to develop its subscription business and continue its growth in the used vehicle segment.
3. **Strengthening and optimizing its business model:** thanks to the control of its cost of risk, RCI Bank and Services has maintained a high level of profitability and achieved a RORWA of 2.5%.
4. **Developing new working methods:** because the company's performance is based on collective intelligence, RCI Bank and Services has in particular set up tribes, of which more than 300 employees are already members. To meet new customer expectations even more quickly, more than 250 employees have been trained in design thinking and agile methods.

All these priorities will be guided by the purpose of RCI Bank and Services. "As a partner who cares for all its customers we build innovative financial services to create sustainable mobility for all." Co-constructed by its employees, it expresses the meaning of RCI Bank and Services' actions and commitment to all its stakeholders and society. It will be reinforced by a sustainable strategy which is currently being developed and will soon be presented to the Board of Directors. This strategy will aim to develop initiatives relating to climate change, environmental impacts, well-being at work, diversity and inclusion.

To achieve all these objectives, the RCI Bank and Services teams will rely on 4 group values: We do the right thing, We embrace the difference, We act with optimism and We think big, start small and scale fast.

## 12. Press release dated 1 April 2022

### RCI BANQUE DISCLOSES EXPOSURE TO RUSSIA AND UKRAINE

RCI Banque has investments and operations in Russia and Ukraine. The bank strictly complies with the regulations in force and diligently implements the necessary measures to comply with international sanctions as soon as they are published.

Given the way the bank operates in these two countries, balance sheet exposure to Russia and Ukraine is limited.

#### Russia:

RCI Banque main exposure to Russia derives from its equity investment in RN Bank, a self-funded Joint Venture in which we hold 30% of the economic interest and that we consolidate by the equity method. RCI Banque share of RN Bank equity was 92 M€ as of 31/12/2021.

RCI Banque is assessing the available options with RN Bank other shareholders, taking into account the current environment, while acting responsibly towards RN Bank employees.

RCI Banque also owns 100 % of RNL Leasing, a small leasing company that we consolidate by global integration. As of 31/12/2021, RCI Banque equity investment in RNL Leasing was 2 M€ while intra-group loans amounted to 15 M€.

A non-cash adjustment may have to be recorded against the book value of our assets in Russia at the time of the 2022 first half results. As of December 31, 2021, this value amounted to 109 million euros representing approximately 22bps<sup>1</sup> of RCI Banque's 2021-year end CET1 ratio (14.76%). Our strong capital position would allow us to absorb such adverse shock.

#### Ukraine:

In Ukraine we have a commercial agreement carried out by a non-consolidated subsidiary and therefore no lending exposure. RCI Banque's net investment is limited to the equity share of this subsidiary (0.3 M€).

<sup>1</sup> Impact on CET 1 ratio:

In €M	31/12/2021	After adjustment	Impact
CET1 capital	4 932	4 823	-109 (1)
Risk-weighted exposure amount	33 420	33 174	-246 (2)
<b>Common Equity Tier 1 ratio (%)</b>	<b>14,76%</b>	<b>14,54%</b>	<b>- 22 bps</b>

(1) In case of full depreciation of RN Bank equity (€92M), RNL Leasing equity (€2M) and loans to RNL Leasing (€15M)

(2) Decrease of RWA linked to equity investments in RN Bank (€92M with 250 % risk weight), depreciation on RNL Leasing Risk-Weighted assets (€16M)

We continue to dynamically monitor our risk exposure, whilst constantly assessing the potential impact of the conflict.
