If "Early Termination for Taxation Reasons" is specified as being applicable in the applicable Issue Terms, the Securities may be redeemed at the option of the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, in whole, but not in part, at any time, on giving not less than 30 or more than 60 days' notice in accordance with General Condition 15 (*Notices*) (which notice shall be irrevocable), in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount), at the Early Termination Amount, if the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, has or will become obligated to pay additional interest on such Securities pursuant to General Condition 9 (*Taxation*) as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of Luxembourg (where the Issuer is CGMFL) or the United States (where the Issuer is Citigroup Inc. or CGMHI) or the United Kingdom (where the Issuer is CGMFL) or, in any such case any political subdivision or taxing authority thereof or therein, or any change in the application or official interpretation of such laws, regulations or rulings, which change or amendment becomes effective on or after the date on which any person (including any person acting as underwriter, broker or dealer) agrees to purchase the first Tranche of any of such Securities pursuant to the original issuance of such first Tranche, and such obligation cannot be avoided by the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, taking reasonable measures available to it; PROVIDED THAT no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, would be obligated to pay such additional interest were a payment in respect of the Securities then due. Prior to the publication of any notice of redemption pursuant to this General Condition 6(b)(i), the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, shall deliver to the Fiscal Agent or the Swedish Securities Issuing and Paying Agent in the case of Swedish Securities or the Finnish Securities Issuing and Paying Agent in the case of Finnish Securities or the French Securities Issuing and Paying Agent in the case of French Cleared Securities and French Law Securities (i) a certificate signed by an officer of the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, stating that the Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as the case may be, is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer, the CGMHI

(ii) *Termination for Illegality*

If "Early Termination for Illegality" is specified as applicable in the applicable Issue Terms and:

- (A) the Issuer determines that the performance of its obligations under the Securities; or
- (B) the CGMHI Guarantor (in the case of Securities issued by CGMHI) or the CGMFL Guarantor (in the case of Securities issued by CGMFL) determines that the performance of its obligations in respect of the Securities under the CGMHI Deed of Guarantee (in the case of Securities issued by CGMHI) or the CGMFL Deed of Guarantee (in the case of Securities issued by CGMFL), as the case may be,

has or will become unlawful, illegal or otherwise prohibited in whole or in part for any reason (an "**Illegality Event**"), the Issuer may redeem the Securities early at, in respect of each Security (in the case of a Securities, representing a principal amount equal to the Calculation Amount), the Early Termination Amount by giving notice to Securityholders in accordance with General Condition 15 (*Notices*),

provided, however, that if "Continuance of Securities Provision" is specified as being applicable in the applicable Issue Terms, then:

- (1) if the Illegality Event (whether in and of itself or together with one or more other Illegality Events) renders the continuance of the Securities definitively impossible, then the Illegality Event shall be referred to as an "**Illegality Event (Impossible Performance)**"; or
- (2) if the Illegality Event (whether in and of itself or together with one or more other Illegality Events) does not render the continuance of the Securities definitively impossible, the Illegality Event shall be referred to as an "**Illegality Event (Possible Performance)**"

and (I) (if "Illegality Event (Possible Performance)" is specified as being applicable in the applicable Issue Terms and an Illegality Event (Possible Performance) occurs or (II) if an Illegality Event (Impossible Performance) occurs, in either such case, the Issuer may redeem the Securities early at, in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount), the Early Termination Amount by giving notice to Securityholders in accordance with General Condition 15 (*Notices*). For the avoidance of doubt, where "Illegality Event (Possible Performance)" is not specified as being applicable in the applicable Issue Terms, the Issuer shall not redeem the Securities early following the occurrence of an Illegality Event (Possible Performance).

(c) *Early termination following the occurrence of an Obligor Regulatory Event*

If "Early Termination for Obligor Regulatory Event" is specified as applicable in the applicable Issue Terms and, in the determination of the Calculation Agent, an Obligor Regulatory Event occurs, then the Issuer may redeem all or some of the Securities at, in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount), the Early Termination Amount by giving notice to the Securityholders in accordance with General Condition 15 (*Notices*).

For the purposes of the above, "**Obligor Regulatory Event**" means a determination by the Calculation Agent that, as a result of an enactment of, or supplement or amendment to, or a

change in, law by a relevant governmental authority or a change in policy or interpretation, implementation or application of any relevant laws or regulations, including any accord, standard, official communication or recommendation of the Basel Committee on Banking Supervision, by any relevant governmental authority or the Issuer and/or where the Issuer is CGMHI, the CGMHI Guarantor and/or where the Issuer is CGMFL, the CGMFL Guarantor (and/or, in each case, their respective Affiliates), in each case, on or after the Trade Date, the Issuer and/or where the Issuer is CGMHI, the CGMHI Guarantor and/or where the Issuer is CGMFL, the CGMFL Guarantor (and/or, in each case, in respect of paragraphs (i) and (ii) below, their respective Affiliates):

- (i) has become subject to less favourable capital adequacy treatment with respect to the Securities;
- (ii) suffers or will suffer any increased costs in connection with the Securities, including any costs associated with hedging the Securities or costs in maintaining any applicable capital reserves in respect of the Securities; or
- (iii) would be materially restricted from performing any of its obligations under the Securities and/or, where the Issuer is CGMHI, the CGMHI Deed of Guarantee and/or, where the Issuer is CGMFL, the CGMFL Deed of Guarantee.

(d) *Purchases*

The Issuer, the CGMHI Guarantor, the CGMFL Guarantor or any of their respective subsidiaries or Affiliates may at any time purchase Securities in the open market or otherwise at any price. Any Securities so purchased may be held or resold or surrendered for cancellation.

(e) *Early Termination Amount*

- (i) For the purpose of General Conditions 6(b)(i) (*Termination for Taxation Reasons and Termination for Illegality*) and 6(b)(ii) (*Termination for Illegality*) above, General Condition 6(c) (*Early termination following the occurrence of an Obligor Regulatory Event*) above, 8(j) (*Occurrence of a RMB Disruption Event*) below, General Condition 11 (*Events of Default*) below and any early redemption pursuant to the provisions of the Valuation and Settlement Schedule or any other Schedule in respect of which an "Early Termination Amount" in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) is specified to be payable (in each case, the "**Early Termination Amount**"), subject as provided, in the case of Credit Linked Notes, in the Credit Linked Conditions or, in the case of Index Skew Notes, in the Index Skew Conditions, such Early Termination Amount will be calculated as whichever of the following is specified as the Early Termination Amount in the applicable Issue Terms in respect of each such early redemption event, in each case payable as provided below:

- (G) "Best of Amount";

- (H) "Monetisation with Holder Put Option" as set out in General Condition 6(e)(ii);
- (I) In the case of Zero Coupon Securities only and subject as provided in Schedule A (*Credit Linked Conditions*), the "Amortised Face Amount"; or
- (J) such other amount specified in the Valuation and Settlement Schedule and/or in the applicable Issue Terms,

in each case, minus (in respect of Credit Linked Notes only) the proportionate share of any Unwind Costs and the Interest Suspension Shortfall Amount (as defined in the Credit Linked Conditions), if applicable, PROVIDED THAT where the applicable Issue Terms specify "Additional Costs on account of Early Termination" to be not applicable, Securityholders will not be charged any costs or expenses by the Issuer on account of the early redemption of the Securities in any of the circumstances set out in the initial paragraph of this General Condition 6(e)(i).

- (ii) In the case of Securities subject to early redemption for which the Early Termination Amount is specified as "Principal Amount plus accrued interest (if any) at maturity with Holder Put Option" (as set out in General Condition 6(e)(i)(D)), "Principal Amount plus Option Value plus Option Value Accrued Interest (if any) at maturity with Holder Put Option" (as set out in General Condition 6(e)(i)(E)) or "Monetisation with Holder Put Option" (as set out in General Condition 6(e)(i)(H) above):

- (A) Following the occurrence of the relevant early redemption event, the Issuer shall notify the Securityholders (such notice by the Issuer to the Securityholders being the "**Issuer's Notice of Early Termination**") as soon as reasonably practicable thereafter in accordance with General Condition 15 (*Notices*) that each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) will be redeemed on the Maturity Date for an amount equal (I) in the case of "Principal Amount plus accrued interest (if any) at maturity with Holder Put Option", the Principal Amount plus accrued interest (if any), (II) in the case of "Principal Amount plus Option Value plus Option Value Accrued Interest (if any) at maturity with Holder Put Option", the Principal Amount plus Option Value plus Option Value Accrued Interest (if any) or (III) in the case of "Monetisation with Holder Put Option", to the Monetisation Amount, unless, in any such case, the relevant Securityholder makes a valid election to exercise the option for Fair Market Value plus Pro Rata Issuer Cost Reimbursement at early redemption. The Issuer's Notice of Early Termination may, but does not have to, include the Fair Market Value plus Pro Rata Issuer Cost Reimbursement of the Securities on a day selected by the Calculation Agent on or prior to the date of delivery of such notice, and shall include the cut-off date for exercise of the option for Fair Market Value at early redemption, the date of determination of the Fair Market Value plus Pro Rata Issuer Cost Reimbursement in respect of such election selected by the Calculation Agent (which may fall after the date of such notice) and the Early Termination Date.

- (B) In order to make a valid election to exercise its option referred to in (A) above to redeem some or all of its Securities for Fair Market Value plus Pro Rata Issuer Cost Reimbursement at early redemption, a Securityholder must:

- (1) if such Security is in definitive form and held outside the Relevant Clearing System, deliver, at the specified office of the Registrar at any time during normal business hours of the Registrar falling no later than the cut-off date for such notice set out in the Issuer's Notice of Early Termination:

the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this General Condition 6(e)(ii) and the principal amount or number thereof to be redeemed for Fair Market Value at early redemption and, if less than the full principal amount or number of the Registered Securities held by such Securityholder so surrendered is to be redeemed, an address to which a new Registered Security in respect of the balance of such Registered Securities is to be sent, subject to and in accordance with the provisions of General Condition 3(k) (*Transfer Free of Charge*); and

- (y) the Security or evidence satisfactory to the Paying Agent concerned that the Security will, following delivery of the Early Termination Put Notice, be held to its order or under its control; or

In the case of Swedish Securities, an Early Termination Put Notice will not take effect against the Issuer before the date on which the relevant Securities have been transferred to the account designated by the Swedish Securities Issuing and Paying Agent and blocked for further transfers by the Swedish Securities Issuing and Paying Agent (such date will be the first date of a closed period for the purposes of General Condition 3(n) (*Transfer of Swedish Securities*)). The redemption procedures for Swedish Securities will be subject to the Swedish CSD Rules.

Unless otherwise provided, Finnish Securities shall be subject to automatic redemption. Notwithstanding anything to the contrary in the Conditions, if the Securities are Finnish Securities, the exercise of this option will not be effective against the Issuer before the date on which the relevant Finnish Securities have been transferred to the account operated by the Finnish Securities Issuing and Paying Agent, which for the purposes of the relevant Finnish Securities is an account operator specifically authorised by Euroclear Finland and appointed by the Issuer in relation to a specific issue or issues to process and register issues in the system of the relevant central securities depositary and clearing institution, and blocked for further transfer on the early redemption date by the Finnish Securities Issuing and Paying Agent. The right to require redemption of any Finnish Securities in accordance with this Condition must, notwithstanding the above, be exercised in accordance with the Euroclear Finland Rules and if there is any inconsistency between

the terms set out herein and the Euroclear Finland Rules, then the Euroclear Finland Rules shall prevail.

(C) Notwithstanding anything else in the Conditions, in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) for which:

- (1) a valid election to exercise the Securityholder's option to redeem such Securities for Fair Market Value plus Pro Rata Issuer Cost Reimbursement at early redemption has been made, the Early Termination Amount shall be an amount equal to the Fair Market Value of the Securities on the date specified as such in the Issuer's Notice of Early Termination plus Pro Rata Issuer Cost Reimbursement, which amount shall be payable on the early redemption date specified as such in the Issuer's Notice of Early Termination; and
- (2) a valid election to exercise the Securityholder's option to redeem such Securities for Fair Market Value plus Pro Rata Issuer Cost Reimbursement at early redemption has not been made, the Early Termination Amount shall be (I) in the case of "Principal Amount plus accrued interest (if any) at maturity with Holder Put Option", the Principal Amount plus accrued interest (if any), (II) in the case of "Principal Amount plus Option Value plus Option Value Accrued Interest (if any) at maturity with Holder Put Option", the Principal Amount plus Option Value plus Option Value Accrued Interest (if any) or (III) in the case of "Monetisation with Holder Put Option", the Monetisation Amount (if any), which amount shall be payable on the Maturity Date.

In both cases under paragraphs (1) and (2) above, no other amounts in respect of principal, interest or termination will be payable following the date the Issuer's Notice of Early Termination is given.

- (iii) In the case of Securities subject to early redemption for which the Early Termination Amount is specified as "Principal Amount plus accrued interest (if any) at maturity" or "Principal Amount plus Option Value plus Option Value Accrued Interest (if any) at maturity", then such Early Termination Amount shall be payable on the Maturity Date and no other amounts in respect of principal, interest or termination will be payable following the date on which the Issuer's Notice of Early Termination is given.
- (iv) In the case of Securities subject to early redemption for which the Early Termination Amount is specified as "Fair Market Value", "Principal Amount plus accrued interest (if any)", "Best of Amount", "Amortised Face Amount" or an amount calculated as specified in the Valuation and Settlement Schedule and/or in the applicable Issue Terms, such amount shall be payable on the date specified in, or notified in accordance with the Conditions or, if no such date is so specified, on a date selected by the Issuer.
- (v) As used above, in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount):

"Amortised Face Amount" means:

- (A) where "Calculation Agent Determination of Amortised Face Amount" is specified to apply in the applicable Issue Terms, the amount determined by the Calculation Agent as payable on the Early Termination Date; or
- (B) where "Single Rate Amortisation Yield" is specified in the applicable Issue Terms, an amount calculated in accordance with the following formula:
 - (1) where "Linear Accretion" is not specified as applicable in the applicable Issue Terms:

$$RP \times (1 + AY)^y$$

- (2) where "Linear Accretion" is specified as applicable in the applicable Issue Terms:

$$RP \times (1 + AY \times y)$$

where:

- "RP" means the Reference Price specified in the applicable Issue Terms;
- "AY" means the Amortisation Yield expressed as a decimal; and
- "y" is the Day Count Fraction specified in the applicable Issue Terms which will be either (i) **30/360** (in which case the numerator will be equal to the number of days (calculated on the basis of a 360 day year consisting of 12 months of 30 days each) in the relevant Zero Coupon Calculation Period and the denominator will be 360) or (ii) **Actual/360** (in which case the numerator will be equal to the actual number of days in the relevant Zero Coupon Calculation Period and the denominator will be 360) or (iii) **Actual/365** (in which case the numerator will be equal to the actual number of days in the relevant Zero Coupon Calculation Period and the denominator will be 365) or (iii) **Actual/Actual (ICMA)**, in which case the Day Count Fraction will be determined as set out in the definition of "Zero Coupon Actual/Actual (ICMA)" below.

For the purposes of this Paragraph (B):

"Zero Coupon Actual/Actual (ICMA)" means:

- (A) where the number of days in the Zero Coupon Calculation Period is equal to or shorter than the Zero Coupon Determination Period during which the Zero Coupon Calculation Period ends, the number of days in such Zero Coupon Calculation Period divided by the product of (x) the number of days in such Zero Coupon Determination Period and (y) the number of Determination Dates (as specified in the applicable Issue Terms) that would occur in one calendar year; or
- (B) where the Zero Coupon Calculation Period is longer than the Zero Coupon Determination Period during which the Zero Coupon Calculation Period ends, the sum of:
- (I) the number of days in such Zero Coupon Calculation Period falling in the Zero Coupon Determination Period in which the Zero Coupon Calculation Period begins divided by the product of (x) the number of days in such Zero Coupon Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (II) the number of days in such Zero Coupon Calculation Period falling in the next Zero Coupon Determination Period divided by the product of (x) the number of days in such Zero Coupon Determination Period and (y) the number of Determination Dates that would occur in one calendar year.

"Zero Coupon Calculation Period" means the period from (and including) the Issue Date of the first Tranche of the Securities to (but excluding) the date

fixed for redemption or (as the case may be) the date upon which such Security becomes due and repayable.

"Zero Coupon Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date.

- (C) Where "Multiple Rate Amortisation Yield" is specified in the applicable Issue Terms, an amount calculated in accordance with the following formula:

$$RP \times \prod_{i=1}^t (1 + AY)^y$$

For the purposes of this paragraph (C):

"AY" means, in respect of a Calculation Period (i) (where i = 1...t), the Amortisation Yield (expressed as a decimal) specified for such Calculation Period (i) in the Amortisation Yield Table under the heading "Amortisation Yield".

"Calculation Period (i)" means each period from (and including) the relevant Start Date to (but excluding) the relevant End Date of such period, each as specified under the heading "Calculation Period" in the Amortisation Yield Table set out in the applicable Issue Terms.

"Calculation Period (t)" means the Calculation Period (i) during which the Early Termination Date occurs.

"RP" means the Reference Price specified in the applicable Issue Terms:

"y" means, in respect of a Calculation Period (i), the Day Count Fraction specified in the applicable Issue Terms which will be either (i) **30/360** (in which case the numerator will be equal to the number of days (calculated on the basis of a 360 day year consisting of 12 months of 30 days each) in the relevant Zero Coupon Calculation Period and the denominator will be 360) or (ii) **Actual/360** (in which case the numerator will be equal to the actual number of days in the relevant Zero Coupon Calculation Period and the denominator will be 360) or (iii) **Actual/365** (in which case the numerator will be equal to the actual number of days in the relevant Zero Coupon Calculation Period and the denominator will be 365) or (iii) **Actual/Actual (ICMA)**, in which case the Day Count Fraction will be determined as set out in the definition of "Zero Coupon Actual/Actual (ICMA)" below.

"Zero Coupon Actual/Actual (ICMA)" means:

- (A) where the number of days in the Zero Coupon Calculation Period is equal to or shorter than the Zero Coupon Determination Period during which the Zero Coupon Calculation Period ends, the number of days in such Zero Coupon Calculation Period divided by the product of (x) the number of days in such Zero Coupon Determination Period and (y) the number of Determination Dates (as specified in the applicable Issue Terms) that would occur in one calendar year; or
- (B) where the Zero Coupon Calculation Period is longer than the Zero Coupon Determination Period during which the Zero Coupon Calculation Period ends, the sum of:
- (I) the number of days in such Zero Coupon Calculation Period falling in the Zero Coupon Determination Period in which the Zero Coupon Calculation Period begins divided by the

product of (x) the number of days in such Zero Coupon Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

- (II) the number of days in such Zero Coupon Calculation Period falling in the next Zero Coupon Determination Period divided by the product of (x) the number of days in such Zero Coupon Determination Period and (y) the number of Determination Dates that would occur in one calendar year.

"Zero Coupon Calculation Period" means

- (A) in respect of each Calculation Period (*i*) ending prior to Calculation Period (*t*), the period from (and including) the Start Date of such Calculation Period (*i*) to (but excluding) the End Date of such Calculation Period (*i*); and
- (B) in respect of the Calculation Period (*t*), the period from (and including) the Start Date in respect of the Calculation Period (*t*), to (but excluding) the Early Termination Date.

"Zero Coupon Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date.

"Best of Amount" means, in respect of such Security, an amount in the Settlement Currency determined by the Calculation Agent as the greater of (i) the sum of the Minimum Return Amount plus Pro Rata Issuer Cost Reimbursement and (ii) the sum of Fair Market Value plus Pro Rata Issuer Cost Reimbursement.

"Early Termination Date" means, in respect of each Security, the date fixed for redemption or (as the case may be) the date upon which the Securities become due and payable.

"Fair Market Value" means, in respect of such Security, an amount in the Settlement Currency determined by the Calculation Agent which represents the fair market value of such Security (which shall include amounts in respect of interest) on a day selected by the Issuer or as otherwise required in accordance with these General Conditions (ignoring for the purposes of a redemption pursuant to General Condition 6(b)(ii), the relevant unlawfulness, illegality or prohibition) less (except (i) if the applicable Issue Terms specify "Deduction of Hedge Costs" to be not applicable; and (ii) in the case of any early redemption pursuant to General Condition 11 (*Events of Default*)) the proportionate cost to the Issuer and/or its Affiliates of unwinding any underlying and/or related hedging and funding arrangements in respect of the Securities (including, without limitation, any options relating to any Underlying hedging the Issuer's obligations under the Securities) and, for the purposes of determining the fair market value of such Security for the purposes of General Condition 11 (*Events of Default*), no account shall be taken of the financial condition of the Issuer and (if applicable) the Guarantor which shall be presumed to be able to perform fully their obligations in respect of the Securities.

The "fair market value" of a Security is an estimated value and, in determining such value, the Calculation Agent may have regard to the following as applicable:

- (A) where applicable, the sum of two components relating to the Securities, (i) a bond component and (ii) an embedded derivative(s) or option component. The value of the bond component is expected to be determined based on the present value of the stream of cash payments associated with a conventional bond of an amount equal to the then outstanding aggregate principal amount of the Securities (or, in the case of Certificates, the aggregate of the Calculation Amounts in respect of such Certificates, as determined by the

Calculation Agent) discounted by a prevailing internal funding rate (which may be adjusted by a spread) for a term equal to that then outstanding of the Securities. The value of the embedded derivative component is expected to be determined based on internal pricing models which will take into account certain parameters that the Calculation Agent determines appropriate (including, without limitation, factors such as expected interest and dividend rates; and the value, price or level and volatility of any relevant Underlying(s) or other reference item or any futures or options relating to any of them); and/or

- (B) the value of the Securities as determined using any such other factors as the Calculation Agent deems relevant, including but not limited to the time remaining to maturity of the Securities, the interest rates at which banks lend to each other, the interest rate which the Issuer (or its Affiliates) is charged to borrow cash, if the Securities are linked to one or more Underlying(s) or other reference asset(s), the value, expected future performance and/or volatility of such Underlying(s) or other reference asset(s) and any other information the Calculation Agent deems relevant (including, but not limited to the circumstances that resulted in the events causing such redemption).

Such values, along (save where the applicable Issue Terms specify "Deduction of Issuer Costs and Hedging and Funding Costs" as not applicable) with deductions for any fees, costs or commissions in connection with the issue of the Securities and the cost of entering into any underlying and/or related hedging and funding arrangements in respect of the Securities, are expected to have been applicable pricing factors taken into account at or around the trade date to enable the Issuer to determine the terms on which it can issue the Securities on the Issue Date and are therefore relevant factors in determining any Early Termination Amount.

"Fair Market Value plus Pro Rata Issuer Cost Reimbursement" means an amount determined by the Calculation Agent as the sum of (i) Fair Market Value and (ii) Pro Rata Issuer Cost Reimbursement.

"Minimum Return Amount" means, in respect of such Security, the currency amount specified in the applicable Issue Terms or, if no such amount is so specified, the Calculation Amount.

"Minimum Return Amount plus Pro Rata Issuer Cost Reimbursement" means an amount determined by the Calculation Agent as the sum of (i) the Minimum Return Amount and (ii) Pro Rata Issuer Cost Reimbursement.

"Monetisation Amount" means, in respect of such Security, an amount determined by the Calculation Agent in accordance with the following formula:

Minimum Return Amount + (Option Value + Pro Rata Issuer Cost Reimbursement) x $(1+r)^n$

Where:

"n" means the remaining term of the relevant Securities expressed in years, calculated from the date of the determination that the Securities will be early redeemed pursuant to and in accordance with the Conditions following the relevant early redemption event to the scheduled Maturity Date, as determined by the Calculation Agent; and

"r" means the annualised interest rate that the Issuer offers on the date of determination that the Securities will be early redeemed pursuant to and in accordance with the Conditions following the relevant early redemption event(s) for a debt security with a maturity equivalent to the scheduled Maturity Date of the relevant Securities, taking into account the credit risk of the Issuer, as determined by the Calculation Agent.

"Option" means, in respect of such Security, the option component or embedded derivative(s) in respect of (i) the Security and/or (ii) the interest element relating to

such Security which provides exposure to the Underlying(s) (if any), the terms of which are fixed on the trade date (as determined by the Calculation Agent) in order to enable the Issuer to issue such Security at the relevant price and on the relevant terms. For the avoidance of doubt, the bond component (if applicable) in respect of the Security is excluded from the Option.

"Option Value" means, in respect of such Security, the value (if any) of the Option in respect thereof, subject to a minimum of zero, as calculated by the Calculation Agent on such day and time as selected by the Calculation Agent at or around the time notice of early redemption is given by reference to such factors as the Calculation Agent considers to be appropriate including, without limitation:

- (A) market prices or values of any relevant Underlying(s) and other relevant economic variables (such as: interest rates; dividend rates; financing costs; the value, price or level of any relevant Underlying(s) or other reference asset(s) and any futures or options relating to any of them; the volatility of any relevant Underlying(s) or other reference asset(s); and exchange rates (if applicable));

"Principal Amount plus accrued interest (if any) at maturity" means, in respect of a Security which is a Note, an amount determined by the Calculation Agent as its principal amount plus accrued interest (if any), where such accrued interest is determined as the product of the principal amount, an overnight interest rate or an achievable market rate of interest for the Settlement Currency and the relevant day and a day count fraction customary for calculation of overnight interest in respect of the Settlement Currency, all as determined by the Calculation Agent in a commercially reasonable manner and acting in good faith.

"Principal Amount plus Option Value plus Option Value Accrued Interest (if any) at maturity" means, in respect of such Security, an amount determined by the Calculation Agent in accordance with the following formula

Principal Amount + (Option Value + Pro Rata Issuer Cost Reimbursement) x (1+r)ⁿ

Where:

"n" means the remaining term of the relevant Security expressed in years, calculated from the date of the determination that the Securities will be early redeemed pursuant to and in accordance with the Conditions following the relevant early redemption event to the scheduled Maturity Date, as determined by the Calculation Agent;

"Principal Amount" means, in respect of such Security, the principal amount of such Security; and

"r" means the annualised interest rate that the Issuer offers on the date of determination that the Securities will be early redeemed pursuant to and in accordance with the Conditions following the relevant early redemption event(s) for a debt security with a maturity equivalent to the scheduled Maturity Date of the relevant Securities, taking into account the credit risk of the Issuer, as determined by the Calculation Agent.

"Pro Rata Issuer Cost Reimbursement" means, in respect of such Security, an amount equal to the product of the total costs of the Issuer (for example, and without limitation, structuring costs) paid by the original Securityholder as part of the original issue price of the Security and the Relevant Proportion, as determined by the Calculation Agent. "Relevant Proportion" means a number equal to (i) the number of calendar days from, and excluding, the date of determination that the relevant Securities will be early redeemed pursuant to and in accordance with the Conditions following the relevant early redemption event(s) to, and including, the scheduled Maturity Date of the relevant Securities, divided by (ii) the number of calendar days from, and excluding, the Issue Date of the relevant Securities to, and including, the scheduled Maturity Date of the relevant Securities.

(f) *Redemption at the Option of the Issuer*

If, in respect of Securities other than Swedish Securities or French Law Securities, Issuer Call is specified as applicable in the applicable Issue Terms, the Issuer may, having given the number of days' notice specified in the applicable Issue Terms or, if none is so specified:

- (i) not less than, five nor more than 60 days' notice to the Securityholders in accordance with General Condition 15 (*Notices*); and
- (ii) not less than five days' notice to the Registrar,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Securities then outstanding on any Optional Redemption Date in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) at the relevant Optional Redemption Amount specified in, or determined in the manner specified in, the Valuation and Settlement Schedule or the relevant Underlying Schedules applicable to the relevant Underlying(s) or specified in the applicable Issue Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a principal amount or number not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Issue Terms.

In the case of a redemption of some only of the Securities, the Securities to be redeemed ("**Redeemed Securities**") will be selected, subject to mandatory provisions of Luxembourg law, individually by lot not more than 30 days prior to the date fixed for redemption, in the case of Redeemed Securities represented by definitive Securities, and in accordance with the rules of the Relevant Clearing System (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg, to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) in the case of Redeemed Securities represented by a Global Registered Security. In the case of Redeemed Securities represented by definitive Securities, a list of the serial numbers of such Redeemed Securities will be published in accordance with General Condition 15 (*Notices*) not less than five days prior to the date fixed for redemption.

If, in respect of Swedish Securities, Issuer Call is specified as applicable in the applicable Issue Terms, the Issuer may, having given:

(which notices shall be irrevocable and shall specify the date fixed for redemption and shall specify the Securities or the amount of the Securities as well as the closed period), redeem all

of the Securities then outstanding on any Optional Redemption Date in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) at the relevant Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Issue Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a principal amount or number not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount in each case as may be specified in the applicable Issue Terms. Any such redemption must be of a principal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Issue Terms. In the case of a partial redemption of French Law Securities, the redemption will be effected by reducing the nominal amount of all such French Law Securities in a Series in proportion to the aggregate nominal amount redeemed by application of a pool factor and, in accordance with the provisions of the applicable Issue Terms, subject to compliance with any other applicable laws and any applicable stock exchange requirements. So long as the French Law Securities are listed and admitted on a stock exchange and the rules of that stock exchange or applicable French law and/or regulations so require, the Issuer shall cause to be published a notice specifying the aggregate principal amount of French Law Securities outstanding.

The right to require redemption of such French Law Securities and French Cleared Securities must be exercised in accordance with the rules and procedures of Euroclear France and if there is any inconsistency between the above and the rules and procedures of Euroclear France, then the rules and procedures of Euroclear France shall prevail.

(g) *Redemption at the Option of holders of Securities*

If Investor Put is specified as applicable in the applicable Issue Terms, upon the holder of any Security giving to the Issuer in accordance with General Condition 15 (*Notices*) the number of days' notice specified in the applicable Issue Terms or, if none is so specified, not less than 45 days' notice the Issuer will, upon the expiry of such notice, redeem such Security on the relevant Optional Redemption Date and at, in respect of each Security (in the case of a Note, representing a principal amount equal to the Calculation Amount), the relevant Optional Redemption Amount specified in, or determined in the manner specified in, the Valuation and Settlement Schedule or the relevant Underlying Schedules applicable to the relevant Underlying(s) and in the applicable Issue Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of a Security the holder of such Security must, if such Security is in definitive form and held outside the Relevant Clearing System, deliver, at the specified office of the Registrar at any time during normal business hours of the Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of the Registrar (a "**Put Notice**") and in which the holder must specify a bank account to which payment is to be made under this

Condition and the principal amount or number thereof to be redeemed and, if less than the full principal amount or number of the Registered Securities so surrendered is to be redeemed, an address to which a new Registered Security in respect of the balance of such Registered Securities is to be sent subject to and in accordance with the provisions of General Condition 3(i) (*Partial Redemption in respect of Registered Securities*). If the relevant Security is in definitive form, the Put Notice must be accompanied by the Security or evidence satisfactory to the Paying Agent concerned that the Security will, following delivery of the Put Notice, be held to its order or under its control.

If the relevant Security is represented by a Global Registered Security and cleared through Euroclear or Clearstream, Luxembourg or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of such Security the holder of such Security must, within the notice period, give notice to the Registrar of such exercise in accordance with the standard procedures of Euroclear or Clearstream, Luxembourg, as applicable (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg, as applicable, or any common depositary or common safekeeper, as the case may be, for them, as applicable, to the Registrar by electronic means), in a form acceptable to Euroclear and Clearstream, Luxembourg, as applicable, from time to time.

In the case of Swedish Securities, a Put Notice will not take effect against the Issuer before the date on which the relevant Securities have been transferred to the account designated by the Swedish Securities Issuing and Paying Agent and blocked for further transfers by the Swedish Securities Issuing and Paying Agent (such date will be the first date of a closed period for the purposes of General Condition 3(l) (*Closed Periods*)). The redemption procedures for Swedish Securities will be subject to the Swedish CSD Rules.

Any right to require redemption of any Finnish Securities in accordance with this General Condition 6(g) must be exercised in accordance with the Euroclear Finland Rules and if there is any inconsistency between the terms set out herein and the Euroclear Finland Rules, then the Euroclear Finland Rules shall prevail. Unless otherwise provided Finnish Securities shall be subject to automatic redemption. Notwithstanding anything to the contrary in the Conditions, if the Securities are Finnish Securities, the exercise of this option will not be effective against the Issuer before the date on which the relevant Finnish Securities have been transferred to the account operated by the Finnish Securities Issuing and Paying Agent, which for the purposes of the relevant Finnish Securities is an account operator specifically authorised by Euroclear Finland and appointed by the Issuer in relation to a specific issue or issues to process and register issues in the system of the relevant central securities depositary and clearing institution, and blocked for further transfer on the Optional Redemption Date by the Finnish Securities Issuing and Paying Agent.

No Security so transferred and option exercised may be withdrawn (except as provided in the Fiscal Agency Agreement) without the prior consent of the Issuer. No such option may be exercised if the Issuer has given notice of redemption of the French Law Securities.

The right to require redemption of such French Law Securities and French Cleared Securities must be exercised in accordance with the rules and procedures of Euroclear France and if there

is any inconsistency between the above and the rules and procedures of Euroclear France, then the rules and procedures of Euroclear France shall prevail.

12. Meetings of Securityholders, Modifications, Determinations and Rounding

(a) *Meetings of Securityholders*

The Fiscal Agency Agreement contains provisions for convening meetings of holders of Securities (including Swedish Securities and Finnish Securities) to consider any matter affecting their interests, including modification by Extraordinary Resolution of the Securities (including the Conditions insofar as the same may apply to the Securities), the relevant Deed of Covenant, the CGMHI Deed of Guarantee or the CGMFL Deed of Guarantee, as applicable, as they relate to the Securities. The Fiscal Agency Agreement provides that (a) a resolution passed at a meeting duly convened and held in accordance with the Fiscal Agency Agreement by a majority consisting of not less than three-quarters of the votes cast on such resolution, (b) a resolution in writing signed by or on behalf of all the Securityholders, or (c) consent given by way of electronic consents through the relevant Clearing System(s) (in a form satisfactory to the Fiscal Agent) by or on behalf of all the Securityholders, shall, in each case, be effective as an Extraordinary Resolution of the Securityholders. An Extraordinary Resolution duly passed at any such meeting shall be binding on all the holders of the Securities, whether present or not, except that any Extraordinary Resolution proposed, *inter alia*, (i) to amend the dates of maturity or redemption of the Securities, any Instalment Date or any date for payment of interest thereon, (ii) to reduce or cancel the principal amount or number of the Securities, the Early Termination

If a holder of Swedish Securities held through a nominee (a "**Swedish Indirect Securityholder**") attends the meeting (in person or through a duly authorised agent) and shows a certificate from the relevant nominee showing that such Swedish Indirect Securityholder on the fifth (5th) Stockholm Business Day prior to the meeting was a holder of Swedish Securities, the Swedish Indirect Securityholder shall be regarded as the holder of such Swedish Securities for the purposes of this General Condition 12.

In connection with a meeting of holders of such Swedish Securities, the Swedish Securities Issuing and Paying Agent shall, to the fullest extent permitted under the Swedish CSD Rules, have access to the CSD Register (Sw. *avstämningsregistret*) for the Swedish Securities.

The Issuer shall notify Euroclear Finland of meetings of holders of Finnish Securities no later than eight Helsinki Banking Days before the meeting. The notification shall include the time and place of the meeting, its agenda, record date (if applicable) as well as instructions on how to participate in the meeting. The Issuer shall notify Euroclear Finland of any decisions by the meeting without undue delay.

Securityholders holding Finnish Securities through a nominee in the Euroclear Finland register shall before participating in the meeting in person or through a duly authorised agent register their holdings in the temporary shareholder register in accordance with the Euroclear Finland Rules and Euroclear Finland CEO decisions.

- (A) the Securityholders shall not be grouped in a *masse* having separate legal personality and acting in part through a Representative (*représentant de la masse*) and in part through General Meetings;
- (B) however, the following provisions of the French *Code de commerce* shall apply: Articles L.228-46-1, L.228-57, L. 228-58, L. 228-59, L. 228-60, L. 228-60-1, L.228-61 (with the exception of the first paragraph thereof), L.228-65 (with the exception of (i) sub-paragraphs 1°, 3°, 4° and 6° of paragraph I and (ii) paragraph II), L.228-66, L.228-67, L. 228-68, L.228-76, L.228-88, R.228-65 to R.228-68, and R.228-70 to R.228-75 of the French *Code de commerce*, and
- (C) whenever the words "*de la masse*", "*d'une même masse*", "*par les représentants de la masse*", "*d'une masse*", "*et au représentant de la masse*", "*de la masse intéressée*", "*composant la masse*", "*de la masse à laquelle il appartient*", "*dont la masse est convoquée en assemblée*" or "*par un représentant de la masse*", appear in those provisions, they shall be deemed

to be deleted, and subject to the following provisions of this General Condition 12(a).

(ii) *Powers of General Meetings*

Subject to this General Condition 12(a), the General Meeting may deliberate with respect to any matter that relates to the common rights (*intérêts communs*) of the Securityholders.

The General Meeting may deliberate on any proposal relating to the modification of the Conditions including any proposal, (A) whether for a compromise or settlement, regarding rights which are the subject of litigation or in respect of which a judicial decision has been rendered, and (B) relating to a total or partial waiver of the guarantees granted to the Securityholders, the deferral of any interest payment and the modification of the amortisation or interest rate provisions. For the avoidance of doubt, the General Meeting may not establish any inequality of treatment between Securityholders.

The Securityholder may appoint a nominee to file a proof of claim in the name of all Securityholders in the event of judicial reorganisation procedure or judicial liquidation of the Issuer.

Pursuant to Article L.228-85 of the French *Code de commerce*, in the absence of such appointment of a nominee, the judicial representative (*mandataire judiciaire*), at its own initiative or at the request of any Securityholder, will ask the court to appoint a representative of the Securityholders who will file the proof of Securityholders' claim.

For the avoidance of doubt, a General Meeting has no power to deliberate on any proposal relating to (a) the modification of the corporate object or form of the Issuer, (b) the issue of securities benefiting from a security over assets (*surété réelle*) which will not benefit the Securityholders, (c) the potential merger (*fusion*) or demerger (*scission*) including partial transfers of assets (*apports partiels d'actifs*) under the demerger regime of or by the Issuer or (d) the transfer of the registered office of a European Company (*Societas Europaea – SE*) to a different Member State of the European Union.

However, each Securityholder is a creditor of the Issuer and as such enjoys, pursuant to Article L.213-6-3 IV of the French *Code monétaire et financier*, all the rights and prerogatives of individual creditors in the circumstances described above, including any right to object (*former opposition*).

Each Securityholder is entitled to bring a legal action against the Issuer for the defence of its own interests; such a legal action does not require the authorisation of the General Meeting.

(iii) *Convening of a General Meeting*

A General Meeting may be held at any time, on convocation by the Issuer. One or more Securityholders, holding together at least one-thirtieth of the principal amount or number, as applicable, of the French Law Securities outstanding, may address to the Issuer a demand for convocation of the General Meeting. If such General Meeting has not been convened within two months after such demand, the Securityholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under General Condition 15 (*Notices*), not less than fifteen days prior to the date of such General Meeting on first convocation and not less than five days prior to the date of such General Meeting on second convocation.

(iv) *Arrangements for Voting*

Each Securityholder has the right to participate in a General Meeting in person, by proxy, by correspondence or by video conference or by any other means of telecommunication allowing the identification of a participating Securityholder.

Each French Law Security carries the right to one vote.

In accordance with Article R.228-71 of the French *Code de commerce*, the right of each Securityholder to participate in General Meetings will be evidenced by the entries in the books of the relevant Euroclear France Accountholder of the name of such Securityholder as of 0:00, Paris time, on the second business day preceding the date set for the meeting of the relevant General Meeting.

Decisions of General Meetings must be published in accordance with the provisions set forth in General Condition 15 (*Notices*).

(v) *Chairman*

The Securityholders present at a General Meeting shall choose one of them to be the chairman (the "**Chairman**") by a simple majority of votes present or represented at such General Meeting (notwithstanding the absence of a quorum at the time of such vote). If the Securityholders fail to designate a Chairman, the Securityholder holding or representing the highest number of French Law Securities and present at such meeting shall be appointed Chairman, failing which the Issuer may appoint a Chairman. The Chairman appointed by the Issuer need not be a Securityholder. The Chairman of an adjourned meeting need not be the same person as the Chairman of the original meeting from which the adjournment took place.

(vi) *Quorum and Voting*

General Meetings may deliberate validly on first convocation only if Securityholders present or represented hold at least one-fifth of the principal amount or by number, as applicable, of the French Law Securities then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a simple majority of votes cast by Securityholders attending (including by videoconference or by any other means of telecommunication allowing the identification of participating Securityholders) such General Meetings or represented thereat.

(vii) *Written Decision and Electronic Consent*

Pursuant to Article L.228-46-1 of the French *Code de commerce* the Issuer shall be entitled, in lieu of convening a General Meeting, to seek approval of a resolution from the Securityholders by way of a Written Decision. Subject to the paragraph below, a Written Decision may be contained in one document or in several documents in like form, each signed by or on behalf of one or more of the Securityholders. Pursuant to Article L.228-46-1 of the French *Code de commerce*, approval of a Written Decision may also be given by way of Electronic Consent.

Notice seeking the approval of a Written Decision (including by way of Electronic Consent) will be published as provided under General Condition 15 (*Notices*) not less than five days prior to the Written Decision Date. Notices seeking the approval of a Written Decision will contain the conditions of form and time-limits to be complied with by the Securityholders who wish to express their approval or rejection of such proposed Written Decision. Securityholders expressing their approval or rejection before the Written Decision Date will undertake not to dispose of their French Law Securities until after the Written Decision Date.

(viii) *Effect of Resolutions*

A decision passed at a General Meeting or a Written Decision (including by Electronic Consent), shall be binding on all Securityholders, whether or not present or represented

at the General Meeting and whether or not, in the case of a Written Decision (including by Electronic Consent), they have participated in such Written Decision (including by Electronic Consent) and each of them shall be bound to give effect to the decision accordingly.

Information to Securityholders

Each Securityholder will have the right, during (i) the 15-day period preceding the holding of the relevant General Meeting on first convocation, (ii) the 5-day period preceding the holding of the relevant General Meeting on second convocation or (iii) in the case of a Written Decision, a period of not less than five days preceding the Written Decision Date, as the case may be, to consult or make a copy of the text of the resolutions which will be proposed and of the reports which will be prepared in connection with such resolution, all of which will be available for inspection by the relevant Securityholders at the registered office of the Issuer, at the specified offices of any of the French Securities Issuing and Paying Agent during usual business hours and at any other place specified in the notice of the General Meeting or the Written Decision.

Decisions of General Meetings and Written Decision, once approved, will be published in accordance with General Condition 15 (*Notices*).

Expenses

If "Contractual Representation of Securityholders/No *Masse*" or "Contractual *Masse*" is specified in the applicable Issue Terms, the Issuer will pay all expenses relating to the operation of the *Masse*, including expenses relating to the calling and holding of General Meetings and seeking the approval of a Written Decision, and, more generally, all administrative expenses resolved upon by the General Meeting or in writing through a Written Decision by the Securityholders, it being expressly stipulated that no expenses may be imputed against interest payable under the French Law Securities.

If "Full *Masse*" is specified in the applicable Issue Terms, Article L.228-71 of the French *Code de commerce* shall apply.

Outstanding French Law Securities

For the avoidance of doubt, the term "outstanding" (as defined below) shall not include those French Law Securities purchased by the Issuer in accordance with Article L.213-0-1 of the French *Code monétaire et financier* that are held by it, but not cancelled.

"**outstanding**" means, in relation to the French Law Securities of any Series, all the French Law Securities issued other than:

- (a) those French Law Securities which have been redeemed and cancelled pursuant to the General Conditions;
- (b) those French Law Securities in respect of which the date for redemption in accordance with the General Conditions has occurred and the redemption moneys (including all interest (if any) accrued to the date for redemption and any interest (if any) payable under the General Conditions after that date) have been duly paid to or to the order of the French Securities Issuing and Paying Agent;
- (c) those French Law Securities which have been purchased and cancelled in accordance with the General Conditions; and/or
- (d) those French Law Securities in respect of which claims have become prescribed under the General Conditions,

provided that, for the purpose of attending and voting at any meeting of the Securityholders of the Series, those French Law Securities (if any) which are for the time being held by or for the benefit of the Issuer or any of its subsidiaries shall (unless and until ceasing to be so held) be deemed not to remain outstanding.

Single Masse

Where the applicable Issue Terms specify "Full Masse" or "Contractual Masse", the Securityholders of the same Series and the Securityholders of any other Series being assimilated to the French Law Securities of the said first indicated Series, in accordance with General Condition 12 (*Meetings of Securityholders, Modifications, Determinations and Rounding*), shall be grouped into a single Masse for the purpose of defending their respective common interests. The Representative appointed for the first Tranche of a Series of French Law Securities will be the Representative of the single Masse of that entire Series.

Single Securityholder

Where the applicable Issue Terms specify "Full Masse" or "Contractual Masse", if and for so long as the Securities of a given Series are held by a single Securityholder, the relevant Securityholder will exercise directly the powers delegated to the Representative and General Meetings of Securityholders under General Condition 12 (*Meetings of Securityholders, Modifications, Determinations and Rounding*). The Issuer shall hold a register of the decisions taken by the sole Securityholder in this capacity and shall make it available, upon request, to any subsequent holder of any of the Securities of such Series. For the avoidance of doubt, if a Representative has been appointed while the Securities of a given Series are held by a single Securityholder, such Representative shall exercise all powers, rights and obligations entrusted to the Representative.

(b) Modifications

The Issuer, the CGMHI Guarantor and the CGMFL Guarantor may make, without the consent of the Securityholders:

- (i) any modification (except as mentioned above) to, as applicable, the Securities, the Fiscal Agency Agreement, the relevant Deed of Covenant, the relevant Swedish Agency Agreement, the Finnish Securities Issuing and Paying Agency Agreement, the CGMHI Deed of Guarantee and/or the CGMFL Deed of Guarantee, as applicable, which is, in the opinion of the Issuer, not materially prejudicial to the interests of the Securityholders (without considering the individual circumstances of any Securityholder or the tax or other consequences of such modification in any particular jurisdiction); or
- (ii) any modification to the Securities, the Fiscal Agency Agreement, the relevant Deed of Covenant, the relevant Swedish Agency Agreement, the Finnish Securities Issuing and Paying Agency Agreement, the CGMHI Deed of Guarantee and/or the CGMFL Deed of Guarantee, as applicable, which is of a formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of law.

Any such modification shall be binding on the Securityholders and any such modification shall be notified to the Securityholders in accordance with General Condition 15 (*Notices*) as soon as practicable thereafter.

Save as provided therein and subject as provided above, each Swedish Agency Agreement may be amended by agreement among the parties thereto and without the consent of any holders of the Securities.

In the case of French Law Securities, the following provisions of this General Condition 12(b) below shall apply in lieu of the foregoing provisions.

The Issuer may from time to time amend the Conditions of any French Law Securities in accordance with General Condition 12(a) (*Meetings of Securityholders*).

In respect of French Law Securities which have a Specified Denomination of at least EUR100,000 (or its equivalent in the relevant currency as of the Issue Date) or which can be traded in amounts of at least EUR100,000 (or its equivalent in the relevant currency as of the Issue Date), the Issuer may modify the Conditions of the Securities without the consent of the

Securityholders to correct a manifest error. Notice of any such modification will be given to the Securityholders in accordance with General Condition 15 (*Notices*). In other circumstances, the consent of a defined majority of Securityholders is required to make amendments. The Conditions of the French Law Securities contain provisions for Securityholders to call and attend meetings to vote upon such matters or to pass a written resolution in the absence of such a meeting. Resolutions passed at such a meeting, or passed in writing, can bind all Securityholders of French Law Securities, including investors that did not attend or vote, or who do not consent to the amendments.

(c) *Determinations*

Whenever any matter is required to be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person (including where a matter is to be decided by reference to the Issuer or the Calculation Agent's or such other person's opinion), that matter shall be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or such other person, as the case may be, in good faith and (i) where "Sole and Absolute Determination" is specified in the applicable Issue Terms, in its sole and absolute discretion or (ii) where "Commercial Determination" is specified in the applicable Issue Terms, in a commercially reasonable manner.

The provisions above are without prejudice to the provisions in any applicable Schedule, which will prevail in relation to determinations thereunder in the event of any inconsistency.

Notwithstanding anything else in the Conditions, in respect of French Law Securities only, whenever any matter is required to be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person (including where a matter is to be decided by reference to the Issuer or the Calculation Agent's or such other person's opinion), that matter shall be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or such other person, as the case may be, in good faith and in a commercially reasonable manner, including without limitation any such determination, consideration, election, selection or otherwise which is expressed in the Conditions to be in the sole and absolute discretion of the Issuer, the Calculation Agent or any other person.

The Calculation Agent or such other person may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate. The Issuer may delegate any of its obligations and functions to a third party as it deems appropriate.

All discretions exercised and determinations, considerations, elections, selections or other decisions made in respect of the Securities by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders and (in the absence of wilful default or bad faith) neither the Issuer nor the Calculation Agent shall have any responsibility to any person for any errors or omissions in any (a) calculation by the Calculation Agent or the Issuer, as the case may be, of any amount due in respect of the Securities or (b) determination made by the Calculation Agent or the Issuer, as the case may be.

Notwithstanding anything else in the Conditions (save as provided in the next sentence), if the terms of the Securities provide that the Redemption Amount payable on the Maturity Date is a fixed amount or is determined by reference to a formula, which provides for a minimum amount to be payable on the Maturity Date, no modification or adjustment to or calculation under the Conditions may be made by the Issuer or the Calculation Agent to reduce the amount so payable on such date to less than such fixed amount or minimum amount (as applicable), PROVIDED THAT the foregoing shall not apply if the applicable Issue Terms provide that "Minimum Amount Adjustment Prohibition" is not applicable. For the avoidance of doubt, the preceding sentence shall not apply in relation to the rights of the Issuer, the CGMHI Guarantor and the CGMFL Guarantor to make any modification to the Securities pursuant to General Condition 12(b) above.

(d) (i) *Exercise of Discretion*

In exercising its discretion in respect of the Securities as provided herein, each of the Issuer and the Calculation Agent or such other person (described in General Condition

12(c) above) may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the hedging arrangements entered into by a Hedging Party (as defined in the Valuation and Settlement Schedule) in respect of the Securities. The exercise of the Issuer's and/or the Calculation Agent's and/or such other person's discretion in respect of the Securities as provided herein are necessary because certain circumstances or events (for example a material modification or disruption to an Underlying to which the Securities are linked) may occur subsequent to the issuance of the Securities which may materially affect the costs to a Hedging Party of maintaining the relevant Securities or relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Securities. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source), it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any Underlying or otherwise in connection with the Securities to be made, thus making it necessary for the Issuer and/or the Calculation Agent to exercise its discretion in such a case.

(ii) *Determinations and Exercise of Discretion (BEC)*

Notwithstanding anything else in the Conditions, if the applicable Issue Terms specifies that "Determinations and Exercise of Discretion (BEC)" is applicable, then:

- (A) General Condition 12(d)(i) (*Exercise of Discretion*) shall not apply and any hedging arrangements shall not be taken into consideration by the Issuer, the Calculation Agent or any other person in respect of any matter which falls to be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person, as the case may be (for the avoidance of doubt, including without limitation that the following text at the end of paragraph (i) of the definition of "Reference Rate" in Valuation and Settlement Condition 10.3 (*Certain Defined Terms*) shall be disregarded: "or any related hedging arrangements in respect of the Securities which are derivative transactions referencing the relevant Reference Rate");
- (B) whenever any matter falls to be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person, that matter shall be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person, as the case may be, in good faith and in a commercially reasonable manner, including without limitation any such determination, consideration, election, selection or otherwise which is expressed in the Conditions to be in the sole and absolute discretion of the Issuer, the Calculation Agent or any other person;
- (C) in respect of each provision in the Conditions pursuant to which the Calculation Agent or Issuer may adjust the terms of the Securities (without the prior consent of the Securityholders), the Calculation Agent or Issuer (as applicable) shall take all reasonable measures to continue the Securities under similar terms and conditions so that any adjustment or alteration made to the essential characteristics of the Securities is not substantial and is made in order to preserve the original economic rationale and objectives of the Securities;
- (D) in respect of each provision in the Conditions pursuant to which the Calculation Agent or Issuer may substitute or replace an Underlying or Reference Asset or other asset (without the prior consent of the Securityholders), the Calculation Agent or Issuer (as applicable) may only replace the applicable original Underlying or Reference Asset or other asset (as applicable) with a replacement asset which is as similar as possible to the original Underlying or Reference Asset or other asset (as applicable) being replaced or substituted;

- (E) the Securityholders may not be charged (whether directly or indirectly via deduction from any amount(s) payable or asset(s) deliverable under the Securities under the Conditions) any costs (such as settlement cost) in relation to adjustments or replacements as described in (C) and (D) above or (without prejudice to the terms of (A) above) in respect of any cost to the Issuer, the Calculation Agent or any of their respective affiliates of unwinding any underlying and/or related hedging and funding arrangements in respect of the Securities (including, without limitation, any options relating to any Underlying or Reference Asset or other asset hedging the Issuer's obligations under the Securities); and
- (F) in General Condition 8(i) (*Settlement Currency Disruption Event*) (in the definition of "Currency Settlement Disruption Event") and Valuation and Settlement Condition 4.2(b)(i)(d), the following phrase shall be disregarded: "and Securityholders shall not be entitled to further interest or any other payment in respect of any such delay".

In the case of any inconsistency with any other term of the Conditions, this General Condition 12(d)(ii) shall prevail (save that in the case of any inconsistency, General Condition 12(b) (*Modifications*) shall prevail over this General Condition 12(d)(ii)).

(iii) *Determinations by the Determination Agent*

Notwithstanding anything else in the Conditions and/or any other agreement between the Calculation Agent and the Issuer (including, without limitation, any Calculation Agency Agreement) to the contrary, the Issuer agrees that the Calculation Agent will have no obligation to exercise any discretion (including, but not limited to, determinations of alternative or substitute benchmarks, successor reference rates, screen pages, interest adjustment factors/fractions or spreads, market disruptions, benchmark amendment conforming changes, selection and polling of reference banks, a "**Calculation Agent Discretion**") and any such Calculation Agent Discretion shall instead (unless an alternative method for determination by any entity other than the Calculation Agent is specified in the Conditions) be exercised by the Determination Agent.

In such event, any relevant reference to the Calculation Agent in the Conditions shall be deemed to be a reference to the Determination Agent and, following the exercise of any such Calculation Agent Discretion by the Determination Agent, the Determination Agent shall notify the Issuer and the Calculation Agent of any relevant determination as soon as reasonably practicable following such determination, but in any event, prior to any date on which the Calculation Agent and/or the Issuer is required to act on the basis of the Calculation Agent Discretion exercised by the Determination Agent.

(e) *Hedging Arrangements*

As used in this General Condition 12, "**hedging arrangements**" means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due. This may involve a Hedging Party investing directly in an Underlying or by entering into securities transactions or loan transactions or derivative transactions or any combination thereof. Alternatively, a Hedging Party may make an indirect investment by entering into or acquiring a derivative contract referencing an Underlying, or in the case of Credit Linked Notes or Index Skew Notes, by entering into securities transactions, loan transactions, one or more credit derivative transactions in unfunded form with economically equivalent terms to the Credit Linked Notes or a combination of such credit derivative transactions with one or more other derivative contracts. Such hedging arrangements may be carried out on a portfolio basis (i.e. where the Hedging Party maintains arrangements for hedging the Securities together with other obligations of the Issuer and/or its Affiliates). A Hedging Party will seek to select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates, but will do so without having regard to the interests of Securityholders. A Hedging Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes

or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, no Hedging Party is under any obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Securityholder and no Securityholder will have recourse to any such hedging arrangements.

(f) *Determination of amounts payable or deliverable*

The Issuer and/or the Calculation Agent and/or such other person will employ the methodology described in the Conditions (including the Valuation and Settlement Schedule) to determine amounts payable or deliverable in respect of the Securities. When making any such determination in relation to any amounts so payable or deliverable, the Issuer and/or the Calculation Agent and/or such other person may in its/their sole and absolute discretion consider any relevant information, which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market; or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliates of the Issuer and/or the Calculation Agent and/or such other persons) or other information of a type used by the Issuer and/or the Calculation Agent and/or such other persons in the regular course of its business or in connection with similar transactions.

Whenever any of the Issuer and/or the Calculation Agent and/or such other person is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Issuer and/or the Calculation Agent and/or such other person in the performance or exercise of any of its obligations or discretions under the Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

(g) *Rounding*

For the purposes of any calculations required pursuant to the Conditions (unless otherwise specified), (i) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (ii) all figures will be rounded to seven significant figures (with halves being rounded up) and (iii) all currency amounts which fall due and payable will be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes "**unit**" means the lowest amount of such currency which is available as legal tender in the country of such currency.

(h) *Disclaimer of liability and responsibility*

None of the Issuer, the Calculation Agent and any such other person makes any express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Securities, (ii) the value of the Securities at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Securities.

Without limiting any of the foregoing, in no event shall the Calculation Agent and/or such other persons have any liability (whether in negligence or otherwise) to any Securityholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

The Calculation Agent and/or such other persons shall not have any responsibility to any holder for any errors or omissions in any calculations or determinations in respect of the Securities and act solely as agents of the Issuer, the CGMHG Guarantor and the CGMFL Guarantor and do not assume any obligations towards or relationship of agency or trust for or with any holder.

In respect of French Law Securities, neither the Issuer nor any Agent shall be held responsible for any loss or damage, resulting from any *force majeure* event as defined in article 1218 of the French *Code Civil*. Where the Issuer or any of the Agents is prevented from effecting payment or delivery due to such event, payment or delivery may be postponed until the time the event or circumstance impeding payment has ceased, and shall have no obligation to pay or deliver any additional amounts in respect of such postponement.

(i) *Conflict of Interest*

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Securities including, but not limited to, for example, being involved in arrangements relating to any Underlying(s) (for example as a calculation agent or, in the case of a proprietary index for example, as index sponsor). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Securities or any Underlying and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Securities shall owe any duty or responsibility to any Securityholder to avoid any conflict or to act in the interests of any Securityholder.

13. Replacement of Securities

If, in respect of Securities other than Swedish Securities, Finnish Securities or French Law Securities, a Security is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws and stock exchange regulations, at the specified office of the Registrar or such other Paying Agent or Transfer Agent as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to holders in accordance with General Condition 15 (*Notices*), in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Security is subsequently presented for payment or delivery (where applicable), there will be paid to the Issuer on demand the amount payable or an amount equal to the amount so deliverable by the Issuer in respect of such Security) and otherwise as the Issuer may require. Mutilated or defaced Securities must be surrendered before replacements will be issued. This General Condition 13 shall not apply to Swedish Securities, Finnish Securities or French Law Securities.

14. Further Issues

The Issuer may from time to time without the consent of the Securityholders create and issue further securities having the same terms and conditions as the Securities (or the same in all respects save for the amount and date of the first payment of interest thereon) PROVIDED THAT, for the avoidance of doubt and unless otherwise specified, references in the Conditions to "**Issue Date**" shall be to the first issue date of the Securities and so that the same shall be consolidated (with respect to French Law Securities, *assimilées*) and form a single Series with such Securities, and references in the Conditions to "**Securities**" shall be construed accordingly.

15. Notices

(a) *Notices in relation to Securities other than Finnish Securities, Swedish Securities and French Law Securities*

All notices to the holders of Registered Securities will be deemed validly given if mailed to them at their respective addresses in the register and any such notice will be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing.

Until such time as any definitive Securities are issued, there may, so long as any Global Registered Security representing the Securities is held in its entirety (as applicable) on behalf of any Relevant Clearing System, be substituted for such mailing as provided above, the delivery of the relevant notice to each Relevant Clearing System for communication by them to the holders of the Securities. Any such notice shall be deemed to have been given to the holders of the Securities on the day on which the said notice was given to the Relevant Clearing System or, where there is more than one Relevant Clearing System the first such Relevant Clearing System.

Notices to be given by any Securityholder shall be in writing and given by lodging the same, together (in the case of any Security in definitive form) with the relative Security or Securities, with the Registrar. Whilst any of the Securities are represented by a Global Registered Security, such notice may be given by any Securityholder to the Registrar through the Relevant Clearing System in such manner as the Registrar and the Relevant Clearing System may approve for this purpose.

So long as any Securities are admitted to the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange's regulated market or Euro MTF Market, all notices to the holders of such Securities shall be published on the website of the Luxembourg Stock Exchange (www.luxse.com).

Any such notices will be deemed validly given the date specified above or on the date of such publication or, if published more than once or on different dates, on the date first deemed given or published as provided above.

(b) *Notices in relation to Finnish Securities*

Any Exercise Notice which purports to exercise Warrants in breach of this General Condition shall, unless the Issuer otherwise decides be void and of no effect.

(B) If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the "**Quota**"), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected by the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants are exercised on the same day by Warrantholder(s), the order of settlement in respect of such Warrants shall be (i) in the case of English Law Warrants or Irish Law Warrants, at the discretion of the Issuer or (ii) in respect of German Law Warrants, at the reasonable discretion (§ 315 BGB) of the Issuer.

the Warrants by giving notice to Warrantholders in accordance with General Condition 12 (*Notices*). Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels the Warrants, then the Issuer will, if and to the extent permitted by applicable law, pay to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Issue Terms, each Unit, as the case may be, held by such holder, the Early Termination Amount. Payment will be made in such manner and subject to such conditions as shall be notified to the Warrantholders in accordance with General Condition 12 (*Notices*).

7. Settlement procedures and Agents

(a) Cash Payments

Each cash amount, including, in the case of Fixed Rate Warrants, interest amounts, payable in respect of the Warrants will be rounded to the nearest two decimal places (or, in the case of Japanese Yen, the nearest whole unit) in the relevant Settlement Currency, 0.005 (or, in the case of Japanese Yen, half a unit) being rounded upwards, with (a) Warrants exercised at the same time by the same Warrantholder in respect of the same Actual Exercise Date (together with, in the case of Fixed Rate Warrants, any accrued interest) and (b) Warrants held by the same Warrantholder on termination following the occurrence of a Mandatory Early Termination Event being aggregated for the purpose of determining the aggregate cash amounts payable in respect of such Warrants or Units, as the case may be, and such Actual Exercise Date or Mandatory Early Termination Date, as the case may be,

Subject as provided herein, on each date on which a cash amount falls to be paid in respect of any Warrant, the Issuer shall, on the relevant date, pay or cause to be paid the aggregate cash amounts due on such date (less any Exercise Expenses) (a) in the case of Warrants represented by a Clearstream / Euroclear Global Security, (in respect of Global Registered Securities) to a nominee of the relevant Common Depositary as the registered holder or (in respect of Global Bearer Securities) to the bearer of the relevant Clearstream / Euroclear Global Security, or (b) in the case of Warrants represented by a Rule 144A Global Security held by a Custodian on behalf of DTC, which is automatically exercised, to the account of the relevant Warrantholder notified to the Principal Warrant Agent and the New York Warrant Agent by such Warrantholder, subject to any applicable procedures or requirements of DTC in relation to DTC participants that maintain accounts for such Warrantholder; or (c) in all other cases, to the account of the relevant Warrantholder specified in the relevant Exercise Notice.

Any such payment (i) to the person shown as the relevant accountholder in the records of Clearstream, Luxembourg or Euroclear in respect of any Clearstream / Euroclear Global Security; or (ii) to the account of the relevant Warrantholder notified to the Principal Warrant Agent and the New York Warrant Agent by such Warrantholder in the case of Warrants represented by a Rule 144A Global Security held by a Custodian on behalf of DTC; or (iii) to an account of the relevant Warrantholder specified in the relevant Exercise Notice, shall be made in accordance with the rules of the relevant clearing system or institution where the account is held and which shall, in the case of a payment in Renminbi, be to an account denominated in Renminbi and maintained by the payee with an institution in a relevant RMB Settlement Centre.

In the case of Warrants represented by a Clearstream / Euroclear Global Security, the Issuer will be discharged by payment to or to the order of the registered holder or the bearer of the relevant Global Security as provided above in respect of the amount so paid. Each of the persons shown

in the records of Clearstream, Luxembourg or Euroclear, as the case may be, as the holder of a particular number of the Warrants must look solely to Clearstream, Luxembourg or Euroclear, as the case may be, for his share of each such payment so made by the Issuer to the Common Depositary. In the case of Warrants represented by a Rule 144A Global Security held by a Custodian on behalf of DTC, which is automatically exercised, the Issuer will be discharged by payment to the relevant clearing system or institution where the relevant account is held in respect of the amount so paid. The person shown as the relevant account holder must look solely to the relevant clearing system or institution where the account is held for the payment made in respect of such payment so made by the Issuer.

All payments, including, in respect of Fixed Rate Warrants, interest payments, will be subject, in all cases, to (i) any fiscal or other laws, rules and regulations applicable thereto in the place of payment, (ii) the provisions of General Condition 8 (*Expenses and Taxation*) and (iii) any withholding or deduction, including any such withholding or deduction required pursuant to Section 871(m) of the Code ("**871(m) Withholding**") and, where payments are made in Renminbi, will be made in accordance with applicable laws, rules, regulations and guidelines issued from time to time with respect to settlement in Renminbi in the relevant RMB Settlement Centre(s). In addition, for the purposes of 871(m) Withholding with respect to any amounts to be paid on the Warrants, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Warrants that provide for a payment expiration or earlier termination or exercise that is determined by reference to the value of an "underlying security" (as defined for the purposes of Section 871(m) of the Code) (which, for avoidance of doubt, includes an index) all payments on such Warrants that reference such an underlying security (or index) will reflect the deemed reinvestment of any dividends paid over the term of the Warrant in respect of the number of shares of such underlying security to which the Warrant relates, net of the maximum amount of U.S. withholding tax that would be applicable to each such dividend (currently, 30 per cent.). In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, the maximum amount of U.S. withholding tax that would be applicable to any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant underlying securities. The Issuer will not be required to pay any additional amounts in respect of amounts withheld under Section 871(m).

(b) Physical Delivery

Subject as provided below, Physical Delivery Warrants or Units, as the case may be, which are either (i) exercised at the same time by the same Warrantholder or (ii) held by the same Warrantholder at the time of early termination following the occurrence of a Mandatory Early Termination Event will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Warrants or Units, as the case may be, and such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, PROVIDED THAT the aggregate Entitlements in respect of the same Warrantholder and the same Actual Exercise Date or Mandatory Early Termination Event, as the case may be, will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine.

If, in the case of Exempt Warrants, the applicable Pricing Supplement specifies that "Aggregation of Entitlements" does not apply, the Entitlement in respect of each Warrant will be rounded up or down (as specified in the applicable Pricing Supplement) to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine.

Therefore, fractions (the "**Fractional Entitlement**") of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and no cash or other adjustment will be made in respect thereof unless "Cash Adjustment" is specified as applicable in the applicable Pricing Supplement. If "Cash Adjustment" is specified as applicable in the applicable Pricing Supplement, the Issuer shall pay to the relevant Warrantholder a cash amount in the Settlement Currency (to be paid at the same time as delivery of the Entitlement) equal to the Value (as

determined by the Calculation Agent) of such Fractional Entitlement, calculated as specified in the applicable Pricing Supplement.

Subject as provided herein and subject to payment of the aggregate Exercise Prices (if applicable) and payment or deduction of any Exercise Expenses with regard to the relevant Warrants or Units, as the case may be, the Issuer shall (i) on the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, deliver, or procure the delivery of, the Entitlement for each duly exercised or terminated Warrant or Unit, as the case may be, pursuant to the details specified in the applicable Exercise Notice, or (in the case of Warrants (other than German Law Warrants) which are automatically exercised) pursuant to the details notified to the Principal Warrant Agent by the relevant Warrantholder, subject to any applicable procedures or requirements of DTC in relation to DTC participants that maintain accounts for such Warrantholder and (ii) shall make or shall procure payment of any accrued interest. Subject as provided in this General Condition 7(c) and General Condition 7(e), the Entitlement shall be delivered and payment of any accrued interest shall be made in such manner as set out in the applicable Pricing Supplement.

Following exercise of a Warrant which is a Physical Delivery Warrant or following the occurrence of a Mandatory Early Termination Event in respect of a Warrant where the Mandatory Early Termination Amount is the Entitlement, all dividends or other distributions (each a "**dividend**") in respect of the Relevant Assets to be delivered (together with, if so specified in the applicable Issue Terms, accrued interest) will be payable to the Warrantholder if such Warrantholder would have received such dividend following a sale of the Relevant Assets executed on the relevant Actual Exercise Date or on the date of the occurrence of the Mandatory Early Termination Event, as the case may be, and to be delivered in the same manner as such Relevant Assets. Any such dividends to be paid to a Warrantholder will be paid to the account specified by the Warrantholder in the relevant Exercise Notice as referred to in General Condition 6(c)(i)(I) or (in the case of Warrants (other than German Law Warrants) which are automatically exercised) pursuant to the account notified to the Principal Warrant Agent by the relevant Warrantholder, subject to any applicable procedures or requirements of DTC in relation to DTC participants that maintain accounts for such Warrantholder.

All deliveries will be subject, in all cases, to (i) any fiscal or other laws and regulations applicable thereto in the place of delivery, (ii) the provisions of Condition 8 (*Expenses and Taxation*) and (iii) any 871(m) Withholding. In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be delivered on the Warrants, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such delivery regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Warrants that provide for a payment at expiration or earlier termination or exercise that is determined by reference to the value of an "underlying security" (as defined for the purposes of Section 871(m) of the Code) (which, for avoidance of doubt, includes an index), all deliveries on such Warrants that reference such an underlying security (or index) will reflect the deemed reinvestment of any dividends paid over the term of the Warrant in respect of the number of shares of such underlying security to which the Warrant relates, net of the maximum amount of U.S. withholding tax that would be applicable to each such dividend (currently, 30 per cent.). In such case, in calculating the relevant delivery amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, the maximum amount of U.S. withholding tax that would be applicable to any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant underlying securities. The Issuer will not be required to pay any additional amounts in respect of amounts withheld under Section 871(m) of the Code.

(c) Settlement Disruption

If, following the exercise of Physical Delivery Warrants in respect of an Actual Exercise Date or following the occurrence of a Mandatory Early Termination Event where the Mandatory Early Termination Amount is the Entitlement, in the opinion of the Calculation Agent, delivery of the relevant Entitlement using the method of delivery specified, in the case of Exempt Warrants, in the applicable Pricing Supplement is not practicable by reason of a Settlement Disruption Event (as defined below) subsisting on any Settlement Date or Mandatory Early

Termination Date, as the case may be, then such Settlement Date or Mandatory Early Termination Date, as the case may be, for such Warrants shall be postponed to the first following Settlement Business Day in respect of which no Settlement Disruption Event is subsisting, PROVIDED THAT the Issuer may elect to satisfy its obligations in respect of the relevant Warrant or Unit, as the case may be, and such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, by delivering the relevant Entitlement using such other commercially reasonable manner as it may select, and in such event, the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in respect of such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets (or, if applicable, Substitute Assets) comprising the Entitlement, the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, for the Relevant Assets (or, if applicable, Substitute Assets) not affected by the Settlement Disruption Event will be that originally designated Settlement Date or Mandatory Early Termination Date, as the case may be. In the event that a Settlement Disruption Event will result in the delivery on the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, of some but not all of the Relevant Assets (or, if applicable, Substitute Assets) comprising the Entitlement, the Calculation Agent shall, if applicable, determine the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Warrantholder in respect of, or deducted from, that partial settlement.

For so long as delivery of the Entitlement in respect of an Actual Exercise Date or Mandatory Early Termination Event, as the case may be, is not practicable by reason of a Settlement Disruption Event, then *in lieu* of physical settlement and notwithstanding any other provision hereof, the Issuer may elect to satisfy its obligations in respect of the relevant Warrant or Unit, as the case may be, and such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, by payment to the relevant Warrantholder of the Disruption Cash Settlement Price (as defined below) not later than the third Business Day following the date that notice of such election is given to the Warrantholders in accordance with General Condition 12 (*Notices*). Payment of the Disruption Cash Settlement Price will be made in such manner and subject to such conditions as shall be notified to the Warrantholders in accordance with General Condition 12 (*Notices*).

The Calculation Agent shall give notice as soon as practicable to the Warrantholders in accordance with General Condition 12 (*Notices*) that a Settlement Disruption Event has occurred.

If the Entitlement is delivered later than the date on which delivery would otherwise have taken place as provided above, until delivery of the Entitlement is made to the Warrantholder, the Issuer or any person on behalf thereof shall continue to be the legal owner of the assets comprising the Entitlement. None of the Issuer, the CGMFL Guarantor, any Affiliate of either of them and any other person shall (i) be under any obligation to deliver or procure delivery to such Warrantholder or any subsequent transferee any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such assets, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such assets until the date of delivery or (iii) be under any liability to such Warrantholder or any subsequent transferee in respect of any loss or damage which such Warrantholder or subsequent transferee may sustain or suffer as a result, whether directly or indirectly, of that person being the legal owner of such assets until the date of delivery.

No Warrantholder shall be entitled to any payment in respect of the relevant Warrant or Unit, as the case may be, in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or the CGMFL Guarantor. For the avoidance of doubt, in the case of Fixed Rate Warrants, if the Settlement Date or Mandatory Early Termination Date (as applicable) is postponed due to the subsistence of a Settlement Disruption Event, interest shall not accrue, nor shall it be payable, beyond the date that would have otherwise been the Settlement Date or Mandatory Early Termination Date (as applicable) but for the subsistence of a Settlement Disruption Event on such date.

For the purposes hereof:

"Disruption Cash Settlement Price" in respect of any relevant Warrant or Unit, as the case may be, shall be the fair market value of the Entitlement (or, in the case of a Multiple Exercise Warrant, the Entitlement in relation to the relevant Actual Exercise Date) on a day selected by the Issuer (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets (or, if applicable, Substitute Assets) comprising the Entitlement and such non-affected Relevant Assets (or, if applicable, Substitute Assets) have been duly delivered as provided above, the value of such Relevant Assets (or if applicable, Substitute Assets)), less (unless "Costs for Unwinding Hedging Arrangements" is specified as "Not Applicable" in the applicable Issue Terms) the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, but taking into account, if already paid and if applicable, the Exercise Price (or, where, as provided above, some Relevant Assets (or, if applicable, Substitute Assets) have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion), all as determined by the Calculation Agent; and

"Settlement Disruption Event" means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery of the Relevant Asset(s) (or, if applicable, Substitute Asset(s)) using the method specified, in the case of Exempt Warrants, in the applicable Pricing Supplement and shall include, but shall not be limited to, (i) a failure by the Warrantholder to obtain any requisite approval from the applicable regulatory authorities necessary for settlement of the Warrants by way of physical delivery and (ii) the Issuer not being able to effect physical delivery of the Relevant Asset(s) (or if applicable, Substitute Asset(s)) due to U.S. Securities law issues or other applicable laws of any other relevant jurisdiction or otherwise.

(d) Any Exercise Expenses in respect of Physical Delivery Warrants shall be borne by the relevant Warrantholder and:

(i) in respect of English Law Warrants or Irish Law Warrants, shall either be:

- (A) paid to the Issuer by such Warrantholder prior to the delivery of the Entitlement (and, for the avoidance of doubt, the Issuer shall not be required to deliver any Entitlement to such Warrantholder until it has received such payment); or
- (B) deducted by the Issuer from any cash amount owing to such Warrantholder and paid by the Issuer on behalf of the Warrantholder or paid by the Issuer on behalf of such Warrantholder by converting such amount of the Entitlement as necessary to pay the Exercise Expenses,

as specified by the Warrantholder in the relevant Exercise Notice or (in the case of Warrants which are automatically exercised) as notified to the Principal Warrant Agent by the relevant Warrantholder, subject to any applicable procedures or requirements of DTC in relation to DTC participants that maintain accounts for such Warrantholder.

If any Exercise Expenses are not paid by a Warrantholder pursuant to the above, the relevant Warrantholder shall be deemed to authorise the Issuer to convert and the Issuer may convert such amount of the Entitlement into cash sufficient to cover the Exercise Expenses in respect of the relevant Warrant from which the Issuer shall deduct such Exercise Expenses. The Issuer's obligation in respect of each Warrant will be satisfied in relation to the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, by delivery of the remaining Entitlement in respect of such Warrant and, if applicable, payment of a cash amount in respect of any Fractional Entitlement.

(ii) in respect of German Law Warrants shall be deducted by the Issuer from any cash amount owing to such Warrantholder and paid by the Issuer on behalf of the Warrantholder.

The Issuer may convert such amount of the Entitlement into cash sufficient to cover the Exercise Expenses in respect of the relevant Warrant from which the Issuer shall

deduct such Exercise Expenses. The Issuer's obligation in respect of each Warrant will be satisfied in relation to the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, by delivery of the remaining Entitlement in respect of such Warrant and, if applicable, payment of a cash amount in respect of any Fractional Entitlement.

(e) Failure to Deliver due to Illiquidity

If, in relation to Physical Delivery Warrants which are Index Linked Warrants, Share Linked Warrants, Depositary Receipt Linked Warrants, ETF Linked Warrants or Mutual Fund Linked Warrants or Debt Linked Warrants, "Failure to Deliver" is specified as applying in the applicable Issue Terms and, following the exercise of such Warrants on an Actual Exercise Date or the termination of such Warrants following a Mandatory Early Termination Event, it is impossible or impracticable, in the opinion of the Calculation Agent, to deliver, when due, some or all of the Relevant Assets (the "**Affected Relevant Assets**") comprising the Entitlement relating to such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a "**Failure to Deliver**"), then:

- (i) subject as provided elsewhere in these Conditions, any Relevant Assets, which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date or Mandatory Early Termination Date, as the case may be, in accordance with Valuation and Settlement Condition 2 (*Cash Settlement on exercise*) or General Condition 6(b)(iii), as the case may be, and, if applicable, the Calculation Agent shall determine the appropriate pro rata portion of the Exercise Price to be paid by the relevant Warrantholder in respect of or deducted from that partial settlement; and
- (ii) in respect of any Affected Relevant Assets, *in lieu* of physical settlement and notwithstanding any other provision hereof, the Issuer may elect to satisfy its obligations in respect of the relevant Warrant or Unit, as the case may be, and such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, by payment to the relevant Warrantholder of the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Warranholders in accordance with General Condition 12 (*Notices*). Payment of the Failure to Deliver Settlement Price will be made in such manner and subject to such conditions as shall be notified to the Warranholders in accordance with General Condition 12 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Warranholders in accordance with General Condition 12 (*Notices*) that the provisions of this General Condition 7(e) apply. If the Issuer does not so elect, the provisions of General Condition 7(b) shall apply.

(f) Variation of Settlement

Without prejudice to the payment of any accrued interest, if any, in relation only to any issue of Warrants represented by a Regulation S Global Security, if the applicable Issue Terms specify that the Issuer has an option to vary settlement in respect of the Warrants, following any valid exercise of Warrants in accordance with the Conditions, the Issuer may in respect of each such Warrant or, if Units are specified in the applicable Issue Terms, each Unit and any Actual Exercise Date, elect in relation to such Actual Exercise Date not to pay the relevant Warranholders the Cash Settlement Amount or not to deliver or procure delivery of the Entitlement in respect of such Actual Exercise Date to the relevant Warranholders, as the case may be, but, *in lieu* thereof, to deliver or procure delivery of the relevant Entitlement or make payment of the relevant Cash Settlement Amount on the relevant Settlement Date to the relevant Warranholders, as the case may be. Notification of any such election will be given to Warranholders no later than 10.00 a.m. (London time) on the second Business Day following the relevant Actual Exercise Date.

(g) Issuer's Option to Substitute Assets or to pay the Alternate Cash Amount

In relation to Warrants other than Gilt Warrants, following a valid exercise of Warrants on an Actual Exercise Date or an early termination of Warrants following a Mandatory Early

Termination Event in accordance with the Conditions, the Issuer may, in respect of such Warrants, if the Calculation Agent determines:

- (i) that the Entitlement (or part thereof) comprises securities which are not freely tradeable; or
- (ii) that any applicable laws and securities regulations and/or the Issuer's internal policies, all as determined by the Calculation Agent, do not permit settlement of the Entitlement or it is otherwise impossible or impracticable to do so,

elect in relation to such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, either (i) to substitute for the Entitlement (or part thereof) an equivalent value (as determined by the Calculation Agent) of such other securities which the Calculation Agent determines are freely tradeable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement (or part thereof) or the Substitute Asset or Substitute Assets, as the case may be, relating to such Actual Exercise Date or Mandatory Early Termination Event, as the case may be, to the relevant Warrantholders, but in lieu thereof to make payment to the relevant Warrantholders on the relevant Settlement Date or Mandatory Early Termination Date, as the case may be, of an amount equal to the fair market value of such Entitlement (or part thereof) as determined by the Calculation Agent at such time and by reference to such sources as it deems appropriate (the "**Alternate Cash Amount**"). Notification of any such election will be given to Warrantholders no later than 10:00 a.m. (New York time) on the second Business Day following the relevant Actual Exercise Date or Mandatory Early Termination Date, as the case may be.

AS AT THE ISSUE DATE, APPLICABLE LAWS AND SECURITIES REGULATIONS WITHIN ANY RELEVANT JURISDICTION MAY NOT PERMIT PHYSICAL DELIVERY BY THE ISSUER OF THE ENTITLEMENT TO WARRANTHOLDERS, WHETHER WITHIN THE JURISDICTION OF THE ISSUER OR ELSEWHERE AND ANY APPLICABLE LAWS AND SECURITIES REGULATIONS AND/OR (IN RESPECT OF ENGLISH LAW WARRANTS AND IRISH LAW WARRANTS) THE ISSUER'S INTERNAL POLICIES, ALL AS DETERMINED BY THE CALCULATION AGENT, MAY NOT PERMIT SETTLEMENT OF THE ENTITLEMENT.

For purposes hereof, a "**freely tradeable share**" shall mean (i) in relation to the United States, a security which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradeable security for purposes of the Securities Act, in each case, as determined by the Calculation Agent or (ii) in relation to any other jurisdiction, a security not subject to any legal restrictions on transfer in such jurisdictions.

(h) General

In relation to any Warrants where Automatic Exercise is specified as applying in the applicable Issue Terms, the expressions "**exercise**", "**due exercise**" and related expressions shall be construed to apply to any such Warrants which are automatically exercised in accordance with the above provisions. In relation to Multiple Exercise Warrants, the expressions "**exercise**", "**due exercise**" and related expressions shall be construed to apply to such Warrants in relation to each Actual Exercise Date.

In respect of English Law Warrants and Irish Law Warrants, none of the Agents shall have any responsibility for any errors or omissions in the calculation of any Cash Settlement Amount, Mandatory Early Termination Amount, any Entitlement or interest (if applicable).

In respect of German Law Warrants, the Calculation Agent and the Principal Warrant Agent shall be held responsible for any errors or omissions in the calculation of any Cash Settlement Amount, Mandatory Early Termination Amount or any Entitlement or interest (if applicable) only if, and insofar as, they fail to act with the diligence of a conscientious businessman.

The purchase of Warrants does not confer on any Warrantholder any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset PROVIDED THAT, in relation to Share Linked Warrants, Depositary Receipt Linked Warrants, ETF Linked Warrants or Mutual Fund Linked Warrants, where the applicable Issue Terms specifies that Payment of Dividends is applicable, payments calculated by reference to an amount of any dividends, distributions or other payments paid by a Relevant Company in respect of Shares may be paid by the Issuer to the Warrantholders, as further described herein and in the applicable Issue Terms.

All references in this Condition to "**Luxembourg or Brussels time**" shall, where Warrants are cleared through an additional or alternative clearing system (other than DTC), be deemed to refer as appropriate to the time in the city where the relevant clearing system is located.

(i) Warrant Agents, Registrar and Authentication Agent

The specified offices of the Warrant Agents, the Registrar and the Authentication Agent are as set out in General Condition 23.

The Issuer reserves the right at any time to vary or terminate the appointment of the Warrant Agents, the Registrar or the Authentication Agent (as the case may be) and to appoint further or additional Warrant Agents, Registrars and Authentication Agents (as the case may be), PROVIDED THAT:

- (i) there will at all times be a Registrar in respect of each issue of English Law Warrants and Irish Law Warrants;
- (ii) there will at all times be an Authentication Agent;
- (iii) no termination of appointment of the Principal Warrant Agent shall become effective until a replacement Principal Warrant Agent with a specified office outside the United Kingdom shall have been appointed;
- (iv) so long as any of the Warrants are listed on a stock exchange, there shall be a Warrant Agent having a specified office in each location required by the rules and regulations of the relevant listing authority or stock exchange; and
- (v) so long as any of the Warrants are represented by a Rule 144A Global Security held by a Custodian on behalf of DTC, there shall be a New York Warrant Agent.

Notice of any termination of appointment and of any changes in the specified office of the Warrant Agents, the Registrar and the Authentication Agent will be given to Warrantholders in accordance with General Condition 12 (*Notices*). In acting under the WEC Agency Agreement, the Warrant Agents, the Registrar and the Authentication Agent each acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantholders and any determinations and calculations made in respect of the Warrants by the Warrant Agents, the Registrar or the Authentication Agent shall (save in the case of manifest or proven error) be final, conclusive and binding on the Issuer and the Warrantholders.

(j) Calculation Agent

The Issuer reserves the right at any time to vary or terminate the appointment of the Calculation Agent PROVIDED THAT there will at all times be a Calculation Agent. Notice of the termination of appointment will be given to Warrantholders in accordance with General Condition 12 (*Notices*). In relation to each issue of Warrants, the Calculation Agent (whether it be the Issuer or another entity) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantholders.

All discretions exercised and calculations and determinations made in respect of English Law Warrants or Irish Law Warrants by the Calculation Agent shall (save in the case of manifest or proven error) be final, conclusive and binding on the Issuer and the Warrantholders and (in the absence of wilful default or bad faith) the Calculation Agent shall have no responsibility to any

person for any errors or omissions in (a) calculation by the Calculation Agent of any amount due in respect of the Warrants or (b) any determination made by the Calculation Agent.

All discretions exercised and calculations and determinations made in respect of German Law Warrants by the Calculation Agent shall be made in its reasonable discretion (§ 317 BGB) in good faith and in a commercially reasonable manner and shall (save in the case of manifest or proven error) be final, conclusive and binding on the Issuer and the Warrantholders and the Calculation Agent shall be held responsible by any person for any errors or omissions in (a) calculation by the Calculation Agent of any amount due in respect of the Warrants or (b) any determination made by the Calculation Agent only if, and insofar as, the Calculation Agent fails to act with the diligence of a conscientious businessman.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

(k) *Settlement Currency Disruption Event*

If, in the opinion of the Calculation Agent, payment of any amount due in respect of the Warrants cannot be made by the Issuer in the Settlement Currency on any date on which payment is scheduled to be made under the Warrants (a "**Relevant Scheduled Payment Date**") due to:

- (A) the imposition of laws or regulations by any Governmental Authority of the country for which the Settlement Currency is the lawful currency (the "Settlement Currency Jurisdiction") which (a) require non-residents of the Settlement Currency Jurisdiction to obtain permission from such central banking authority or other authority to obtain the Settlement Currency, or (b) otherwise restrict a non-resident's ability to obtain the Settlement Currency, or (c) otherwise regulate the purchase or holding of the Settlement Currency by non-residents of the Settlement Currency Jurisdiction such that costs are imposed in obtaining the Settlement Currency which would not be imposed in the absence of such regulations, or (d) has the direct or indirect effect of hindering, limiting or restricting the transfer of the Settlement Currency between non-residents of the Settlement Currency Jurisdiction or (e) materially restricts non-residents from transferring the Settlement Currency from the Settlement Currency Jurisdiction to the country of incorporation of such non-resident; or
- (B) any Relevant Clearing System suspending or ceasing to accept the Settlement Currency as a settlement currency; or
- (C) the Settlement Currency's replacement or disuse or the Settlement Currency (or any currency into which the Settlement Currency Jurisdiction has converted, redenominated or exchange the Settlement Currency into or any lawful successor currency to the Settlement Currency) no longer being used by the government of the Settlement Currency Jurisdiction or for the settlement of transactions by public institutions within the international banking community; or
- (D) the illiquidity of the Settlement Currency in the relevant market; or
- (E) any other circumstances beyond the control of the Issuer (including but not limited to a natural or man-made disaster, armed conflict, act of terrorism, riot or labour disruption),

(each a "**Settlement Currency Disruption Event**") then the Issuer shall be entitled to satisfy its obligations to the Warrantholders by either (i) delaying any such payment until after the Settlement Currency Disruption Event ceases to exist or (ii) making such payment in United States dollars ("**USD**") (such payment converted into USD by reference to such currency exchange rate displayed on such price source or otherwise as the Calculation Agent shall determine) on, or as soon as reasonably practicable (in the opinion of the Calculation Agent) after, the Relevant Scheduled Payment Date. Any such delayed payment or payment in USD will not constitute a default and Warrantholders shall not be entitled to further interest or any other payment in respect of any such delay.

(l) RMB Disruption Event

If "RMB Disruption Event" is specified as applicable in the applicable Issue Terms, upon the occurrence of an RMB Disruption Event, the Issuer may determine one or more of the following actions:

- (i) the relevant payment or delivery obligation of the Issuer or, as the case may be, of the CGMFL Guarantor be postponed to the tenth Business Day after the date on which the RMB Disruption Event, as determined by the Issuer, ceases to exist or, if that would not be commercially reasonable, as soon as commercially reasonable thereafter;
- (ii) that any of the obligations to pay Renminbi under the Warrants, including any cash amounts due in respect of Physical Delivery Warrants or any other relevant Renminbi amount(s) determined pursuant to the Conditions be replaced by an obligation to pay an amount in the RMB Relevant Currency converted using the RMB Spot Rate for the relevant RMB Determination Date; and
- (iii) if Early Termination Option is specified as applicable in the applicable Issue Terms in relation to the RMB Disruption Event, by giving notice to the Warrantholder(s) in accordance with General Condition 12 (*Notices*), cancel the Warrants. If the Warrants are so cancelled, the Issuer will pay the Early Termination Amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Issue Terms, each Unit as the case may be, held by such holder (for the avoidance of doubt, such amount may be determined and paid in the RMB Relevant Currency).

Upon the occurrence of a RMB Disruption Event, the Issuer shall give notice, as soon as practicable, to the holder(s) stating the occurrence of the RMB Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

Where Realisation Disruption and/or any Additional Disruption Event is specified as applicable in the applicable Issue Terms and an event occurs that could be a Realisation Disruption and/or an Additional Disruption Event or, alternatively, also be an RMB Disruption Event, the above RMB Disruption Event provisions will prevail.

8. Expenses and Taxation

- (a) A Warrantholder must pay all Exercise Expenses relating to such Warrants as provided above.
- (b) Neither the Issuer nor the CGMFL Guarantor shall be liable for or otherwise obliged to pay any Taxes or other payment which may arise as a result of the ownership, transfer, exercise, termination or enforcement of any Warrant by any person. The Issuer and the CGMFL Guarantor shall have the right, but not the duty, to withhold or deduct from all payments and/or deliveries made by the Issuer and/or the CGMFL Guarantor such amount as is necessary (i) for the payment of any such Taxes or other payment which may be required to be made, paid, withheld or deducted or (ii) for effecting reimbursement to the Issuer or the CGMFL Guarantor for any payment by it of any Taxes, withholding or other payment referred to in this General Condition 8 (*Expenses and Taxation*).

9. Presentation periods, Prescription

The period for presentation of German Law Warrants (§ 801, Paragraph (1), Sentence 1 BGB) shall be 10 (ten) years and the period of limitation for claims under German Law Warrants presented during the period for presentation shall be 2 (two) years calculated from the expiry of the relevant presentation period.

10. Determinations and Modifications

- (a) Determinations

Whenever any matter falls to be determined, considered, elected, selected or otherwise decided upon by the Issuer, the Calculation Agent or any other person (including where a matter is to be decided by reference to the Issuer's, the Calculation Agent's or such other person's opinion, in

its absolute discretion or otherwise), unless otherwise expressly stated herein or, in the case of Exempt Warrants, in the applicable Pricing Supplement, that matter shall be determined, considered, elected, selected or otherwise decided upon (i) in respect of English Law Warrants and Irish Law Warrants, by the Issuer, the Calculation Agent or such other person, as the case may be, (a) where Sole and Absolute Determination is specified in the applicable Issue Terms in good faith and in its sole and absolute discretion or (b) where Commercial Determination is specified in the applicable Issue Terms, in good faith and in a commercially reasonable manner or (ii) in respect of German Law Warrants, by the Issuer in its reasonable discretion (§ 315 BGB) and by the Calculation Agent in its reasonable discretion (§ 317 BGB), in each case, in good faith and in a commercially reasonable manner.

(b) Exercise of Discretion

In exercising its discretion in respect of the Warrants as provided in the Conditions, each of the Issuer and the Calculation Agent or such other person (described in (a) above) may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the hedging arrangements entered into by a Hedging Party (as defined in the Valuation and Settlement Condition 1 (*General Provisions applicable to Underlyings*)) in respect of the Warrants. The exercise of the Issuer's and/or the Calculation Agent's and/or such other person's discretion in respect of the Warrants as provided herein are necessary because certain circumstances or events (for example a material modification or disruption to an Underlying to which the Warrants are linked) may occur subsequent to the issuance of the Warrants which may materially affect the costs to a Hedging Party of maintaining the relevant Warrants or relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Warrants. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any Underlying or otherwise in connection with the Warrants to be made, thus making it necessary for the Issuer and/or the Calculation Agent to exercise its discretion in such a case.

For the avoidance of doubt, in respect of the German Law Warrants and notwithstanding any other provisions in the General Conditions, in exercising its reasonable discretion (*billiges Ermessen*, §§ 315, 317 BGB) in respect of the Warrants as provided in the Conditions, each of the Issuer and the Calculation Agent may take into account such factors as it determines reasonable in each case, which may include (where "Costs for Unwinding Hedging Arrangements" is specified as applicable in the applicable Issue Terms), in particular, any circumstances or events which have or may have a material impact on the hedging arrangements entered into by a Hedging Party (as defined in Valuation and Settlement Condition 1 (*General Provisions applicable to Underlyings*)) in respect of the Warrants. The exercise of the Issuer's and/or the Calculation Agent's reasonable discretion (*billiges Ermessen*, §§ 315, 317 BGB) in respect of the Warrants as provided herein is necessary because certain circumstances or events (for example a material modification or disruption to an Underlying to which the Warrants are linked) may occur subsequent to the issuance of the Warrants which may materially affect the costs to a Hedging Party of maintaining the relevant Warrants or (where "Costs for Unwinding Hedging Arrangements" is specified as applicable in the applicable Issue Terms) relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Warrants. In addition, as a result of certain circumstances or events (for example, unavailability or disruption to any reference source), it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any Underlying or otherwise in connection with the Warrants to be made, thus making it necessary for the Issuer and/or the Calculation Agent to exercise its reasonable discretion (*billiges Ermessen*, §§ 315, 317 BGB) in such a case.

(c) Hedging Arrangements

As used in this General Condition 9, "**hedging arrangements**" means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts or assets to be paid or delivered under the Warrants as these fall due. This may involve a Hedging Party investing directly in an Underlying. Alternatively, a Hedging Party may make an indirect investment by entering into or acquiring a derivative contract referencing an Underlying or by entering into securities

transactions or loan transactions or any combination thereof. Such hedging arrangements may be carried out on a portfolio basis (i.e. where the Hedging Party maintains arrangements for hedging the Warrants together with other obligations of the Issuer and/or its Affiliates). A Hedging Party will seek to select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates, but will do so without having regard to the interests of Warrantholders. A Hedging Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, no Hedging Party is under any obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Warrantholder and no Warrantholder will have recourse to any such hedging arrangements.

(d) Determination of amounts payable or deliverable

The Calculation Agent will employ the methodology described in the Conditions and/or the applicable Issue Terms to determine amounts payable or deliverable in respect of the Warrants. When making any such determination in relation to any amounts so payable or deliverable, the Calculation Agent may consider any relevant information, which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market; or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliates of the Calculation Agent) or other information of a type used by the Calculation Agent in the regular course of its business or in connection with similar transactions.

Whenever the Calculation Agent is required to make any determination it may, inter alia, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or discretions under the Warrants including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

(e) Disclaimer of liability and responsibility

The Calculation Agent makes no express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Warrants, (ii) the value of the Warrants at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Warrants.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Warrantholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

(f) Conflict of Interest

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Warrants including, but not limited to, for example, being involved in arrangements relating to any Underlying(s) (for example as a calculation agent or, in the case of a proprietary index for example, as index sponsor). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Warrants or any Underlying and as a result the Calculation Agent may face a conflict between its obligations

as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Warrants shall owe any duty or responsibility to any Warrantholder to avoid any conflict or to act in the interests of any Warrantholder.

(g) Modifications in respect of English Law Warrants or Irish Law Warrants

The Issuer and the CGMFL Guarantor may modify the Conditions, the CGMFL WEC Deed of Guarantee and/or the WEC Agency Agreement without the consent of the Warrantholders in any manner which the Issuer may deem necessary or desirable PROVIDED THAT either:

- (i) such modification is not materially prejudicial to the interests of the Warrantholders (without considering the individual circumstances of any holders of Warrants or the tax or other consequences of such adjustment in any particular jurisdiction); or
- (ii) such modification is of a formal, minor or technical nature or to correct a manifest or proven error or to cure, correct or supplement any defective provision contained herein and/or therein; or
- (iii) in respect of Warrants which the Issuer determines (whether before or after issue) to list on a stock exchange, market or quotation system, such modification is made to enable such Warrants to be listed on such stock exchange, market or quotation system.
- (iv) Notice of any such modification will be given to the Warrantholders in accordance with General Condition 12 (*Notices*) but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

(h) Modifications in respect of German Law Warrants

- (i) If the Conditions of the Warrants contain manifest typographical, calculation or any similar manifest errors or misspellings, the Issuer shall be entitled to correct such errors or misspellings without obtaining the Warrantholders' consent, provided that such correction, taking into account the Issuer's interests, can reasonably be assumed to be acceptable to the Warrantholders and, in particular, does not materially adversely affect the Warrantholders' legal and financial position. Any such correction shall be notified to the Warrantholders in accordance with General Condition 12 (*Notices*).
- (ii) Any other inconsistencies or omissions in the Conditions of the Warrants or in individual provisions of the Conditions of the Warrants may be corrected or supplemented by the Issuer in its reasonable discretion (§ 315 BGB). However, only such correction or supplement shall be permitted as – taking into account the Issuer's interests – can reasonably be assumed to be acceptable to the Warrantholders and, in particular, do not materially adversely affect the Warrantholders' legal and financial position. Any such correction or supplement shall be notified to the Warrantholders in accordance with General Condition 12 (*Notices*).
- (iii) If the Issuer corrects or supplements any provision of the Conditions of the Warrants in accordance with this General Condition (I) and notifies such correction or supplement to the Warrantholders, each Warrantholder may within three (3) weeks of the relevant announcement declare the Warrants held by him to be forthwith due and payable if such correction or supplement results in the Issuer's performance obligations being changed in a way that materially adversely affects the Warrantholder. The Issuer shall inform the Warrantholders of their right to declare their Warrants be due and payable when announcing the correction or supplement. If the Warrants are declared to be due and payable, they shall be redeemed at the Issue Price.
- (iv) Manifest typographical and calculation errors or misspellings and similar manifest errors in Conditions of the Warrants shall entitle the Issuer to a right of avoidance (*Anfechtung*) vis-à-vis the Warrantholders. Such right of avoidance may only be exercised consistently vis-à-vis all Warrantholders and without undue delay after having become aware of the relevant reason entitling to the right of avoidance. The

right of avoidance shall be exercised by notification in accordance with General Condition 12 (*Notices*).

11. Further Issues

The Issuer shall be at liberty from time to time, without the consent of Warrantholders, to create and issue further Warrants which (i) are expressed to be consolidated and form a single Series with the outstanding Warrants and (ii) are identical in all respects with such Warrants (including as to listing and admission to trading) except for their respective Issue Dates and/or Issue Prices

12. Notices

All notices to Warrantholders shall be valid if delivered (i) (a) in the case of Warrants represented by a Clearstream / Euroclear Global Security, to Clearstream, Luxembourg and Euroclear or (b) in the case of Warrants represented by a Rule 144A Global Security held by a Custodian on behalf of DTC, to DTC, in each case for communication by them to the Warrantholders and (ii) if and so long as the Warrants are admitted to trading and/or listed on a stock exchange or are admitted to trading by any other relevant authority, in accordance with the rules and regulations of the relevant stock exchange or other relevant authority.

Any such notice shall be deemed to have been given (i) in respect of English Law Warrants or Irish Law Warrants, on the date of such delivery or, if earlier, the date of such publication or, if published more than once, on the date of the first such publication and any such notices shall be conclusively presumed to have been received by the Warrantholders on such date or (ii) in respect of German Law Warrants, seven calendar days after either the date of such delivery or, if earlier, the date of such publication or, if published more than once, the date of the first such publication and any such notices shall be presumed to have been received by the Warrantholders on such date.

13. Substitution of the Issuer or the CGMFL Guarantor

(a) *Applicability in respect of English Law Warrants and Irish Law Warrants*

This General Condition 13 (*Substitution of the Issuer or the CGMFL Guarantor*) applies to a substitution, at any time, without the consent of the Warrantholders, of the Issuer or the CGMFL Guarantor, as applicable, with any company (the "**Substitute**"), provided that in respect of:

- (i) a substitution of CGMHI, such substitution is subject to satisfaction of the conditions for substitution set out in General Condition 13(e) (*General Conditions for Substitution*) below; and
- (ii) a substitution of CGMFL and the CGMFL Guarantor, such substitution is subject to satisfaction of the conditions for substitution set out in General Conditions 13(b) (*Substitution of CGMFL and/or the CGMFL Guarantor*) and 13(e) (*General Conditions for Substitution*) below.

(b) *Substitution of CGMFL and/or the CGMFL Guarantor in respect of English Law Warrants and Irish Law Warrants*

CGMFL or the CGMFL Guarantor may, at any time, without the consent of the Warrantholders substitute for itself any Substitute, provided that:

- (i) If "Additional Requirements" are specified as "Not Applicable" in the applicable Issue Terms, on the date of such substitution, the Substitute is, in the opinion of the Issuer or the CGMFL Guarantor (as the case may be) being substituted (the "**Original Entity**"), of at least the equivalent standing and creditworthiness to the Original Entity; or
- (ii) If "Additional Requirements" are specified as "Applicable" in the applicable Issue Terms, the Additional Requirements are satisfied

(c) *Applicability in respect of German Law Warrants*

This General Condition 13 (*Substitution of the Issuer or the CGMFL Guarantor*) applies to a substitution, at any time, without the consent of the Warrantholders, of the Issuer or the CGMFL Guarantor, as applicable, with any company (the "**Substitute**"), provided that such substitution is subject to satisfaction of the conditions for substitution set out in General Condition 13(d) (*Additional Requirements*) and 13(e) (*General Conditions of Substitution*) below. All of the Additional Requirements must be satisfied before any substitution may take place pursuant to this General Condition 13.

(d) *Additional Requirements*

For the purposes of this General Condition 13, "**Additional Requirements**" means the application of each of the following requirements:

- (A) save where the Original Entity is subject to legal restructuring (including without limitation voluntary or involuntary liquidation, winding-up, dissolution, bankruptcy or insolvency or analogous proceedings), the Original Entity shall unconditionally guarantee the fulfilment of the obligations of the Substitute arising from the Conditions in relation to the Warrants;
- (B) if no guarantee by the Original Entity pursuant to (A) above is required, both (I) the Substitute is an Affiliate of the Original Entity and (II) the Substitute, on the date of such substitution, shall demonstrate a long term credit rating from at least one internationally recognised credit rating agency active in the international capital markets (including but not limited to the relevant entity from the following rating groups: Standard & Poor's, Moody's Investors Service and Fitch Ratings) which is at least as high as that of the Original Entity;
- (C) the Original Entity shall provide an indemnity in favour of the Securityholders in relation to any additional tax or duties or losses suffered by Securityholders due to differences between the regulatory or tax regimes applicable to the Original Entity and the Substitute, in each case which arise and become payable solely as a result of the substitution of the Original Entity with the Substitute; and
- (D) on the date of such substitution there shall be (I) no existing Event of Default; or (II) no occurrence of an event which remains in existence on such date which, in the absence of the relevant grace period, would otherwise constitute an Event of Default, in relation to the Warrants.

For such purposes:

"**Event of Default**" means any one of the following events:

- (i) default in the payment of any interest upon any Warrant when it becomes due and payable, and continuance of such default for a period of 30 days; or
- (ii) default in the performance, or breach, of any covenant of the Issuer or the CGMFL Guarantor in the Conditions or the WEC Agency Agreement or the CGMFL Guarantor under the CGMFL WEC Deed of Guarantee; or
- (iii) THIS PARAGRAPH (iii) ONLY APPLIES WHERE THE ISSUER IS CGMHI: the entry of a decree or order for relief in respect of the Issuer by a court having jurisdiction in the premises in an involuntary case under the United States Federal bankruptcy laws, as now or hereafter constituted, or any other applicable United States Federal or State bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Issuer or of the whole or substantially the whole of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 90 consecutive days; or
- (iv) THIS PARAGRAPH (iv) ONLY APPLIES WHERE THE ISSUER IS CGMHI: the commencement by the Issuer of a voluntary case under the

United States Federal bankruptcy laws, as now or hereafter constituted, or any other applicable United States Federal or State bankruptcy, insolvency or other similar law, or the consent by it to the entry of an order for relief in an involuntary case under any such law or to the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Issuer or of the whole or substantially the whole of its property, or the making by the Issuer of an assignment for the benefit of its creditors generally, or the admission by the Issuer in writing of its inability to pay its debts generally as they become due; or

(v) THIS PARAGRAPH (v) ONLY APPLIES WHERE THE ISSUER IS CGMFL:

- (A) any order is made by any component court or any resolution passed for the winding up or dissolution of the Issuer (including, without limitation, the opening of any bankruptcy (*faillite*), insolvency (*insolvabilité*), voluntary or judicial liquidation (*liquidation volontaire* or *judiciaire*), composition with creditors (*concordat préventif de faillite*), reprieve from payment (*sursis de paiement*), fraudulent conveyance (*actio pauliana*), general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) or the appointment of a receiver of the Issuer (including, without limitation, the appointment of any receiver (*curateur*), liquidator (*liquidateur*), auditor (*commissaire*), or verifier (*expert vérificateur, juge délégué or juge commissaire*)) save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangement; or
- (B) the entry of a decree or order for relief in respect of the CGMFL Guarantor by a court having jurisdiction in the premises in an involuntary case under the United Kingdom bankruptcy laws, as now or hereafter constituted, or any other applicable United Kingdom bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the CGMFL Guarantor or of the whole or substantially the whole of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 90 consecutive days; or
- (C) the commencement by the CGMFL Guarantor of a voluntary case under the United Kingdom bankruptcy laws, as now or hereafter constituted, or any other applicable United Kingdom bankruptcy, insolvency or other similar law, or the consent by it to the entry of an order for relief in an involuntary case under any such law or to the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the CGMFL Guarantor or of the whole or substantially the whole of its property, or the making by the CGMFL Guarantor of an assignment for the benefit of its creditors generally, or the admission by the CGMFL Guarantor in writing of its inability to pay its debts generally as they become due;

save that, in the case of each of (B) and (C) above, any action taken or occurrence in the context of a solvent winding-up of the CGMFL Guarantor solely for the purposes of a reorganisation, reconstruction, merger or amalgamation shall not constitute an Event of Default, PROVIDED THAT any company which, as a result of any such reorganisation, reconstruction, merger or amalgamation owns beneficially the whole or substantially the whole of the undertaking, property and assets owned by the CGMFL Guarantor immediately prior thereto shall carry on the whole or substantially the whole of the business carried on by the CGMFL Guarantor immediately

prior thereto and in any event such reorganisation, reconstruction, merger or amalgamation does not result in any Securities becoming repayable or redeemable or to be terminated or the CGMFL Guarantee to be extinguished in whole or in part in relation to any Securities; or

- (vi) THIS PARAGRAPH (vi) ONLY APPLIES WHERE THE ISSUER IS CGMFL: the CGMFL WEC Deed of Guarantee ceases to be, or is claimed by the CGMFL Guarantor not to be, in full force and effect (except, for the avoidance of doubt, where this is a result of the CGMFL Guarantor becoming the Issuer pursuant to the Conditions). For the avoidance of doubt, for the purposes of this provision, the CGMFL WEC Deed of Guarantee shall be deemed not to have ceased to be in full force and effect in circumstances where there is a consolidation or merger of the CGMFL Guarantor or where a substitution of the CGMFL Guarantor is effected.

(e) *General Conditions of Substitution*

All of the following requirements must be satisfied before any substitution may take place pursuant to this General Condition 13:

- (i) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that, in the case of a substitution of the Issuer, the Warrants or, in the case of a substitution of the CGMFL Guarantor, the CGMFL WEC Deed of Guarantee, as applicable, represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and are in full force and effect;
- (ii) the Substitute becoming party to the WEC Agency Agreement, with any appropriate consequential amendments, as if it had been an original party to it in place of the Issuer or the CGMFL Guarantor, as the case may be;
- (iii) the Substitute and the Issuer having obtained (a) legal opinions from independent legal advisers of recognised standing in the country of incorporation of the Substitute and England that the obligations of the Substitute, in the case of a substitution of the Issuer, under the Warrants or, in the case of a substitution of the CGMFL Guarantor under the CGMFL WEC Deed of Guarantee, are legal, valid and binding obligations of the Substitute and (b) in the case of the substitution of the Issuer which is CGMFL (or any substitute thereof), a legal opinion from an independent legal adviser in England, that the CGMFL WEC Deed of Guarantee will apply to the Substitute *mutatis mutandis* as it applies to the Issuer prior to the substitution and will constitute legal, valid and binding obligations of the CGMFL Guarantor, in respect of the Substitute (provided that no opinion as referred to in this sub-paragraph (b) shall be required where the Substitute is the CGMFL Guarantor with respect to Warrants issued by CGMFL);
- (iv) all consents and approvals as required have been obtained and, that the Substitute and the Warrants comply with all applicable requirements of the Securities Act and the CEA;
- (v) each substitution being permitted by the rules of any stock exchange on which the Warrants are listed confirming that, following the proposed substitution of the Substitute, the Warrants will continue to be listed on such stock exchange;
- (vi) if appropriate, the Substitute appointing a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Warrants; and
- (vii) the Issuer or the CGMFL Guarantor, as the case may be, giving notice of the date of such substitution to the Warrantholders in accordance with General Condition 12 (*Notices*).

(f) *Consequences of Substitution*

- (i) Upon such substitution, any reference in the Conditions to the Issuer or the CGMFL Guarantor, as the case may be, shall be deemed to be a reference to the Substitute.
- (ii) After a substitution pursuant to General Condition 13 the Substitute may, without the consent of any holder, effect a further substitution. All the provisions specified in General Condition 13 shall apply mutatis mutandis, and references in the Conditions to the Issuer or CGMFL Guarantor, as the case may be, shall, where the context so requires, be deemed to be or include references to any such further Substitute. For the avoidance of doubt, the CGMFL Guarantor may be a Substitute for the Issuer and in such cases references to the CGMFL Guarantor and the CGMFL WEC Deed of Guarantee should be construed accordingly.
- (iii) After a substitution pursuant to General Condition 13, any Substitute may, without the consent of any holder, reverse the substitution, mutatis mutandis.
- (iv) For the avoidance of doubt, CGMFL may be substituted as the Issuer by CGML, pursuant to this General Condition albeit that it is the CGMFL Guarantor without there being any breach of the Conditions which shall be construed accordingly
- (v) For so long as any Warrants are listed on a stock exchange, such stock exchange shall be notified of any such substitution and the requirements of any such stock exchange in respect of such substitution shall be complied with (including any requirement to publish a supplement).
- (vi) Nothing in this General Condition 13 shall prohibit the substitution of the CGMFL Guarantor under the CGMFL WEC Deed of Guarantee by another entity as transferee as part of any resolution, restructuring, or reorganization of the CGMFL Guarantor upon or following the CGMFL Guarantor becoming subject to any receivership, insolvency, liquidation, resolution, or similar proceeding.
- (vii) For the purposes of this General Condition 13 and article 1275 of the Luxembourg civil code, the Warrantholders, by subscribing for, or otherwise acquiring the Warrants, are expressly deemed to have consented to any substitution of CGMFL effected in accordance with this General Condition 13 and to the release of CGMFL from any and all obligations in respect of the Warrants.

14. Adjustments for European Monetary Union

The Issuer may, without the consent of the Warrantholders, on giving notice to the Warrantholders in accordance with General Condition 12 (*Notices*):

- (i) elect that, with effect from the Adjustment Date specified in the notice, certain terms of the Warrants shall be redenominated in euro;

The election will have effect as follows:

- (A) where the Settlement Currency of the Warrants is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Issuer may decide, after consultation with the Calculation Agent, and as may be specified in the notice, and after the Adjustment Date, all payments in respect of the Warrants will be made solely in euro as though references in the Warrants to the Settlement Currency were to euro;
- (B) where the Exchange Rate and/or any other terms of these Conditions are expressed in or, in the case of the Exchange Rate, contemplate the exchange from or into, the currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, such Exchange Rate and/or any other terms of these Conditions shall be

deemed to be expressed in or, in the case of the Exchange Rate, converted from or, as the case may be, into euro at the Established Rate; and

- (C) such other changes shall be made to these Conditions as the Issuer may decide, after consultation with the Calculation Agent, to conform them to conventions then applicable to instruments expressed in euro; and/or
- (ii) require that the Calculation Agent make such adjustments to the Conditions as the Calculation Agent may determine to be appropriate to account for the effect of the third stage of European Economic and Monetary Union on the Conditions.

Notwithstanding the foregoing, none of the Issuer, the CGMFL Guarantor or any Agent shall be liable to any Warrantholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith, provided that, in respect of German Law Warrants, the aforementioned limitations shall not apply to the Issuer in respect of liabilities for damages caused by the Issuer or its agents (*Erfüllungsgehilfen*) intentionally (*vorsätzlich*) or gross negligent (*grob fahrlässig*).

15. Governing Law and Jurisdiction

(a) *English Law Warrants*

English Law Warrants and the Global Security and the WEC Agency Agreement in respect of English Law Warrants and any non-contractual obligations arising out of or in connection with any of them are governed by and shall be construed in accordance with English law.

Each of the Issuer, the CGMFL Guarantor and any Warrantholders of English Law Warrants irrevocably submit to the exclusive jurisdiction of the English courts and each of the Issuer, the CGMFL Guarantor and any Warrantholders of such Warrants taking proceedings in relation to any Dispute waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

The Issuer hereby appoints Citibank Europe plc, UK branch whose registered office is currently at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom (correspondence to be marked for the attention of the General Counsel, c.c. Markets Legal Team) as its agent for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Citibank Europe plc, UK branch being unable or unwilling for any reason so to act, it will immediately appoint another person as its agent for service of process in England in respect of any Dispute and shall immediately notify Warrantholders of English Law Warrants of such appointment in accordance with General Condition 12 (*Notices*). The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing shall affect the right to serve process in any other manner permitted by law.

(b) *Irish Law Warrants*

Irish Law Warrants and the Global Security and the WEC Agency Agreement in respect of Irish Law Warrants and any non-contractual obligations arising out of or in connection with any of them are governed by and shall be construed in accordance with Irish law.

The Issuer hereby appoints Citibank Europe plc whose registered office is currently at 1 North Wall Quay, Dublin 1, Ireland as its agent for service of process in any proceedings before the Irish courts in relation to any Irish Law Dispute and agrees that, in the event of Citibank Europe plc being unable or unwilling for any reason so to act, it will immediately appoint another person as its agent for service of process in Ireland in respect of any Irish Law Dispute and shall immediately notify Warrantholders of Irish Law Warrants of such appointment in accordance with General Condition 12 (*Notices*). The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing shall affect the right to serve process in any other manner permitted by law.

EACH WARRANTHOLDER HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVES (TO THE EXTENT PERMITTED BY APPLICABLE LAW) ANY RIGHTS IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED THEREON, OR ARISING OUT OF, UNDER, OR IN CONNECTION WITH, THE WARRANTS OR ANY OTHER RELATED DOCUMENTS, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN), OR ACTIONS OF THE WARRANTHOLDERS.

16. Contracts (Rights of Third Parties) Act 1999

English Law Warrants do not confer on any person any right under the Contracts (Rights of Third Parties) Act 1999 (the **"Act"**) to enforce any term of the Warrants. This provision does not affect any right or remedy of any person which exists or is available apart from the Act.

Notwithstanding anything to the contrary in the Conditions, if the Calculation Agent determines that a Reference Rate Event has occurred in respect of a Reference Rate in relation to the relevant Warrants, the Calculation Agent will:

- (i) seek to identify a Replacement Reference Rate in respect of the Reference Rate; and
- (ii) if it identifies a Replacement Reference Rate in respect of the Reference Rate:
 - (A) calculate an Adjustment Spread that will be applied to the Replacement Reference Rate; and
 - (B) determine such other amendments to the Warrants which it considers are necessary and/or appropriate in order to account for the effect of the replacement of the Reference Rate with the Replacement Reference Rate (as adjusted by the Adjustment Spread); and
- (iii) determine the timing for when the Replacement Reference Rate, Adjustment Spread and such other adjustments will become effective in relation to the relevant Warrants,

provided that, as an alternative to the procedure described in subparagraphs (i), (ii) and (iii) above, the Calculation Agent may instead: (i) determine that no Replacement Reference Rate or other amendments to the terms of the Warrants are required as a result of such Reference Rate Event (such determination being a **"No Adjustment Determination"**); or (ii) make such adjustment(s) to the terms of the Warrants as it determines necessary or appropriate to account for the effect of such Reference Rate Event (the **"RRE Adjustments"**).

Provided that the Calculation Agent has fully determined for purposes of the Warrants, as applicable, (i) a Replacement Reference Rate and the related timing and amendments to the Warrants or (ii) the relevant RRE Adjustments, the Calculation Agent shall notify the Issuer of such determination made by it and the action that it proposes to take in respect of any such determination as soon as reasonably practicable and in any event prior to the earliest effective date for the relevant replacement and amendments or the relevant adjustments, as applicable.

- (iii) the Calculation Agent determines that it is not possible or commercially reasonable to calculate an Adjustment Spread,

the Issuer may cancel the Warrants by giving notice to the Warrantholders in accordance with General Condition 12 (*Notices*). If the Warrants are so cancelled the Issuer will pay the Early Termination Amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Issue Terms, each Unit, as the case may be, held by such Warrantholder. Payments will be made in such manner and subject to such conditions as shall be notified to the Warrantholders in accordance with General Condition 12 (*Notices*).

If, following a Reference Rate Event but prior to any replacement or amendment having become effective pursuant to General Condition 20(a) above, the relevant Reference Rate is required for any determination in respect of the Warrants and at that time, no replacement or amendments have occurred in accordance with General Condition 20(a) and:

- (i) if the Reference Rate is still available, and it is still permitted under applicable law or regulation for the Warrants to reference the Reference Rate and for the Issuer and/or Calculation Agent to use the Reference Rate to perform its or their respective obligations under the Warrants, the level of the Reference Rate shall be determined pursuant to the terms that would apply to the determination of the Reference Rate as if no Reference Rate Event had occurred; or
- (ii) if the Reference Rate is no longer available or it is no longer permitted under applicable law or regulation applicable to the Issuer and/or to the Calculation Agent for the Warrants to reference the Reference Rate or for any such entity to use the Reference Rate to perform its or their respective obligations under the Warrants, the level of the Reference Rate shall be determined by the Calculation Agent in its sole and absolute discretion (notwithstanding anything to the contrary in the Conditions), after consulting any source it deems to be reasonable, as (a) a substitute or successor rate that it has determined is the industry-accepted (in the derivatives market) substitute or successor rate for the relevant Reference Rate (including any temporary substitute or successor rate) or the rate published at the relevant time on the last day on which the Reference Rate was published or was permitted to be used in accordance with applicable law or regulation (the "**Last Permitted Rate**") or (b) if it determines there is no such industry-accepted (in the derivatives market) substitute or successor rate or the use of the Last Permitted Rate would not produce a commercially reasonable result, a substitute or successor rate that it determines is a commercially reasonable alternative to the Reference Rate, taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). If such Reference Rate is determined as any such substituted or successor rate, the Calculation Agent may determine such other amendments to the Warrants which it considers are necessary

and/or appropriate in order to reflect the replacement of the Reference Rate with such substituted or successor rate.

If the Calculation Agent determines the Reference Rate in accordance with sub-paragraph (b) above only, the Calculation Agent shall notify the Issuer of any determination made by it in accordance with the above and the action that it proposes to take in respect of any such determination. The Issuer shall notify the Warrantholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 12 (*Notices*). Failure by the Calculation Agent to notify the Issuer or failure by the Issuer to notify the Warrantholders of any such determination will not affect the validity of any such determination.

(c) *Definitions*

For the purposes of the above:

"Adjustment Spread" means the adjustment, if any, to a Replacement Reference Rate that the Calculation Agent determines is required in order to reduce any transfer of economic value from (i) the Issuer to the Warrantholders or (ii) the Warrantholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate with the Replacement Reference Rate. Any such adjustment may be an adjustment spread that would be applied for over-the-counter derivatives transactions referencing the relevant Reference Rate in relation to the occurrence of an index cessation event or administrator/benchmark event in respect of such Reference Rate (howsoever described under the terms of the relevant transaction) and/or take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the Reference Rate. The Adjustment Spread may be positive, negative or zero and/or determined pursuant to a formula or methodology.

"Corresponding Tenor" with respect to a Replacement Reference Rate means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Reference Rate.

"Interpolated Reference Rate" with respect to the Reference Rate means the rate determined for the Corresponding Tenor by interpolating on a linear basis between: (1) the Reference Rate for the longest period for which the Reference Rate is available that is shorter than the Corresponding Tenor and (2) the Reference Rate for the shortest period for which the Reference Rate is available that is longer than the Corresponding Tenor.

"Pre-nominated Replacement Reference Rate" means, in respect of the relevant Reference Rate, the first of the indices, benchmarks or other price sources or rates specified in the applicable Issue Terms that is not subject to a Reference Rate Event.

"Reference Rate Event" means:

- (i) the Calculation Agent determines that (A) a material change in the relevant Reference Rate has occurred or will occur, or (B) the permanent or indefinite cancellation or cessation in the provision of such Reference Rate has occurred or will occur and there is no successor administrator or provider that will continue to provide the Reference Rate, or (C) a regulator or other official sector entity has prohibited or will prohibit the use of or it is otherwise not permitted to use such Reference Rate in respect of the Warrants or any related hedging arrangements in respect of the Warrants which are derivative transactions referencing the relevant Reference Rate;
- (ii) the Calculation Agent determines that any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the relevant Reference Rate or the administrator or sponsor of the relevant Reference Rate has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation

to use the relevant Reference Rate to perform its or their respective obligations under the Warrants;

- (iii) save where the relevant Issue Terms specify that "Reference Rate Event (Limb (iii))" is not applicable, the Calculation Agent determines that it is not commercially reasonable to continue the use of the relevant Reference Rate in connection with the Warrants as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Warrants and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence); or
- (iv) the Calculation Agent determines that there has been a public statement or publication of information by the administrator or sponsor of the relevant Reference Rate, any national, regional or other supervisory or regulatory authority which is responsible for either (a) supervising the administrator or sponsor of the Reference Rate or (b) regulating the Reference Rate, the central bank for the currency of the Reference Rate or another official body with applicable responsibility announcing that such Reference Rate is no longer, or as of a specified future date will no longer be, representative, of any underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored; or
- (v) the relevant Reference Rate is the subject of any market-wide development in the over-the-counter derivatives market (which may be in the form of a protocol, publication of standard terms or otherwise by ISDA) pursuant to which such Reference Rate is or will be replaced with a replacement rate with respect to over-the-counter derivatives transactions which reference such Reference Rate.

"Relevant Nominating Body" means, in respect of a Reference Rate: (i) the central bank for the currency in which the Reference Rate is denominated or any central bank or other supervisor which is responsible for supervising either the Reference Rate or the administrator of the Reference Rate; or (ii) any working group or committee officially endorsed or convened by (a) the central bank for the currency in which the Reference Rate is denominated, (b) any central bank or other supervisor which is responsible for supervising either the Reference Rate or the administrator of the Reference Rate, (c) a group of those central banks or other supervisors, or (d) the Financial Stability Board or any part thereof.

"Replacement Reference Rate" means, in respect of a Reference Rate, an index, benchmark or other price source or rate that the Calculation Agent determines to be a commercially reasonable alternative for such Reference Rate, provided that the Replacement Reference Rate must be any of the following:

- (i) where applicable, the Interpolated Reference Rate with respect to the then-current Reference Rate; or
- (ii) a Pre-nominated Replacement Reference Rate; or
- (iii) an index, benchmark, other price source or rate or fall-back rate or methodology for calculating an index, benchmark, other price source, rate or fall-back rate (which may be formally designated, nominated or recommended by (a) any Relevant Nominating Body, (b) the administrator or sponsor of the Reference Rate or (c) ISDA or any other relevant trade association, working group, task-force or committee to replace the Reference Rate) which is recognised or acknowledged as being an industry standard replacement for over-the-counter derivative transactions which reference such Reference Rate (which recognition or acknowledgment may be in the form of (I) a publication by the relevant trade association, working group, task-force or committee, or (II) a press release, a member announcement, member advice, letter, protocol, publication of standard terms or otherwise by ISDA) (a **"Post-nominated Replacement Reference Rate"**); or

- (iv) an index, benchmark, other price source, rate or fallback that the Calculation Agent determines to be a commercially reasonable alternative for the Reference Rate.

21. Adjustments

(a) *Adjustments*

Any adjustments to the General Conditions (including the determination of any adjustment spread or factor, however defined) which the Calculation Agent determines are necessary or appropriate pursuant to the provisions of the Reference Rate Event Provisions set out in General Condition 20 (*Reference Rate Event Provisions*) and the redemption or adjustment for an Administrator/Benchmark Event provisions set out in General Condition 19 (*Administrator/Benchmark Event*):

- (i) shall be made to the extent reasonably practicable, but also taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market);
- (ii) may include, where applicable and without limitation, (i) technical, administrative or operational changes (including without limitation, changes to determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction of any time delay or lag between the calculation or observation period of a rate and the related payment dates and other administrative matters) that the Calculation Agent decides are appropriate, (ii) the application of any adjustment factor or adjustment spread (whether or not expressly referenced in the relevant provision and which may be positive or negative) and (iii) adjustments to reflect any increased costs to the Issuer of providing exposure to the replacement or successor rate(s) and/or benchmark(s); and
- (iii) may be applied on more than one occasion, may be made as of one or more effective dates, may but does not have to involve the selection of a successor or replacement rate which is determined on a backwards-looking compounding basis by reference to a "risk-free rate" and which, unless the context otherwise requires or it is inappropriate, will be the relevant rate in relation to the then current and all future determination days.

Notwithstanding the provisions of (and all provisions referred to in) this General Condition 21(a) (*Adjustments*), the Calculation Agent is not obliged to make any adjustment or make any determination in relation to the General Conditions if the effective date(s) of the relevant adjustment or determination would fall after the earlier of (i) the date the affected interest rate is no longer used as an interest rate for purposes of the Warrants and (ii) the maturity, termination or expiry of the Warrants.

Notwithstanding anything to the contrary in the provisions of (and all provisions referred to in) this General Condition 21(a) (*Adjustments*), the Issuer and/or the Calculation Agent may make all determinations and/or adjustments and take all actions in respect of the Warrants as are provided for in connection with a Benchmark Transition Event, Reference Rate Event, Administrator/Benchmark Event, or the occurrence of an event that causes the provisions in respect of relevant Underlyings which are Rates set out in Underlying Schedule 12 to apply (a "**Substitute or Successor Rate Event**"), as applicable, notwithstanding that such Benchmark Transition Event, Reference Rate Event, Administrator/Benchmark Event or Substitute or Successor Rate Event, as applicable, may have occurred before the Issue Date of the Warrants.

(b) *No duty to monitor*

In relation to any relevant rate and for the purposes of applying the provisions of the Reference Rate Event Provisions set out in General Condition 20 (*Reference Rate Event Provisions*) and the redemption or adjustment for an Administrator/Benchmark Event provisions set out in General Condition 19, neither the Issuer nor the Calculation Agent will have any duty to monitor or enquire as to whether any relevant event or circumstance in respect of any such rate has occurred to which such provisions might apply.

(c) *Regulatory Obligations*

If (a) it is or would be unlawful or prohibited under any applicable law or regulation to determine and calculate a replacement interest rate or make any other determination or adjustment in accordance with the Reference Rate Event Provisions set out in General Condition 20 (*Reference Rate Event Provisions*) and the provisions in respect of relevant Underlyings which are Rates set out in Underlying Schedule 12, the redemption or adjustment for an Administrator/Benchmark Event provisions set out in General Condition 19 (*Administrator/Benchmark Event*) (each a "**Reference Rate Fallback Provision**") (or it would be unlawful were a determination to be made at that time); or (b) it would contravene any applicable licensing requirements to determine a replacement interest rate or make any other determination or adjustment in accordance with any applicable Reference Rate Fallback Provision (or it would contravene those licensing requirements were a determination to be made at that time); or (c) the Calculation Agent determines that an adjustment spread (however described in the Reference Rate Fallback Provisions) is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Calculation Agent to material additional regulatory obligations which it is unwilling to undertake, then the Calculation Agent shall not be obliged to make the relevant determination or adjustment and may instead take any alternative action under the Conditions as it determines appropriate.

22. Listing of Warrants

In respect of Warrants which are to be listed on a stock exchange, market or quotation system, the Issuer shall use all reasonable endeavours to have such Warrants approved for listing on the relevant stock exchange, market or quotation system and to maintain such listing so long as any of such Warrants are outstanding, PROVIDED THAT:

- (i) if it is impracticable or unduly burdensome, in the opinion of the Issuer acting in good faith, to maintain such listing; or
- (ii) if the maintenance of the listing of the Warrants has, in the opinion of the Issuer, become unduly onerous for any reason whatsoever, including, but not limited to, (i) the need for the Issuer and/or the CGMFL Guarantor to meet the requirements of (x) Regulation (EU) 2017/1129 of the European Parliament and of the Council on the prospectus to be published when securities are offered to the public or admitted to trading or (y) of Directive 2004/109/EC of the European Parliament and of the Council on the harmonisation of transparency requirements with regard to information about issuers whose securities are admitted to trading on a regulated market (which test, for the avoidance of doubt but without limitation, would be satisfied if the Issuer would be required to publish financial information according to accounting principles or standards that are materially different from United States generally accepted accounting principles) or (ii) the need for the Issuer and/or the CGMFL Guarantor to comply with any continuing obligation of the relevant stock exchange, market or quotation system,

then the Issuer may apply to the relevant stock exchange, market or quotation system to de-list such Warrants from such stock exchange, market or quotation system in accordance with the rules of the relevant stock exchange, market or quotation system PROVIDED THAT it shall use all reasonable endeavours to obtain and maintain as soon as reasonably practicable after such de-listing an alternative admission to listing, trading and/or quotation of the relevant Warrants by an appropriate stock exchange, market or quotation system within or outside the European Union, as it may decide.

If, in the opinion of the Issuer, such admission to listing, trading and/or quotation on an appropriate stock exchange, market or quotation system is not available or if obtaining or maintaining such admission would be, in the opinion of the Issuer, impracticable or unduly burdensome, the Issuer shall not be required to obtain such admission and shall have no further obligation to obtain or maintain any listing, trading and/or quotation for the relevant Warrants.

- (iv) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any suspension of or limitation imposed (whether by reason of movements in price exceeding permitted limits or otherwise) on the trading on any relevant Exchange of any relevant Component Security, and the aggregate of all relevant Component Securities so affected plus the X Percentage comprises 20 per cent. or more of the level of such Security Index; or
- (v) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any suspension of or limitation imposed (whether by reason of movements in price exceeding permitted limits or otherwise) on the trading on any relevant Related Exchange of futures contracts or option contracts relating to such Security Index; or
- (vi) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any other event (other than an event described in sub-paragraph (vii) or sub-paragraph (viii) of this definition) which disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (on any relevant Exchange) to effect transactions in or to obtain market values for any relevant Component Security, and the aggregate of all relevant Component Securities so affected plus the X Percentage comprises 20 per cent. or more of the level of such Security Index; or
- (vii) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any other event (other than an event described in sub-paragraph (vii) or sub-paragraph (viii) of this definition) which disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (on any relevant Related Exchange) to effect transactions in or to obtain market values for any futures contracts or options contracts relating to such Security Index; or
- (viii) where "Additional Index Provisions for China Connect Service" are specified as applicable for a Security Index in the applicable Issue Terms, the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period that ends at the relevant Valuation Time of a China Connect Disruption; or
- (ix) the closure (which the Calculation Agent determines is material) on any Exchange Business Day of any relevant Exchange in respect of any relevant Component Security prior to its Scheduled Closing Time (unless such earlier closing time is announced by such Exchange at least one hour prior to the earlier of (A) the actual closing time for the regular trading session on such Exchange on such Exchange Business Day; and (B) the deadline for the submission of orders to be entered into such Exchange System for execution at the relevant Valuation Time on such Exchange Business Day), and the

UNDERLYING SCHEDULE 1 – SECURITY INDEX CONDITIONS

aggregate of all relevant Component Securities so affected plus the X Percentage comprises 20 per cent. or more of the level of such Security Index; or

- (x) the closure (which the Calculation Agent determines is material) on any Exchange Business Day of any Related Exchange in respect of futures contracts or option contracts relating to such Security Index prior to its Scheduled Closing Time (unless such earlier closing time is announced by such Related Exchange at least one hour prior to the earlier of (A) the actual closing time for the regular trading session on such Related Exchange on such Exchange Business Day; and (B) the deadline for the submission of orders to be entered into such Related Exchange System for execution at the relevant Valuation Time on such Exchange Business Day); or
- (xi) where "Additional Index Provisions for China Connect Service" are specified as applicable for a Security Index in the applicable Issue Terms, a China Connect Early Closure (which the Calculation Agent determines is material).

(c) *Determining whether or not a Market Disruption Event exists*

For the purposes of determining whether or not a Market Disruption Event exists in respect of a Security Index at any time, if an event giving rise to a Market Disruption Event occurs in respect of a Component Security of such Security Index at such time, then the relevant percentage contribution of such Component Security to the level of such Security Index shall be based on a comparison of (i) the portion of the level of such Security Index attributable to such Component Security; and (ii) the overall level of such Security Index, either (A) where such Security Index is a Single Exchange Index, immediately before the occurrence of such Market Disruption Event; or (B) where such Security Index is a Multiple Exchange Index, using the official opening weightings as published by the relevant Index Sponsor as part of the market "opening data".

For the purposes of determining whether or not a Market Disruption Event exists in respect of a Component Security at any time, if an event giving rise to a Market Disruption Event occurs in respect of such Component Security at such time, then the relevant percentage contribution of such Component Security to the level of the relevant Security Index shall be based on a comparison of (i) the portion of the level of such Security Index attributable to such Component Security; and (ii) the overall level of such Security Index, using the official opening weightings as published by the relevant Index Sponsor as part of the market "opening data".

4. **Additional Adjustment Events**

The following Additional Adjustment Events shall apply in respect of a Security Index if Security Index Condition 4 is specified as applicable in the applicable Issue Terms:

- (a) such Security Index is either (a) not calculated and announced by or on behalf of the relevant Index Sponsor but instead is calculated and announced by or on behalf of a successor to such relevant Index Sponsor acceptable to the Calculation Agent; or (b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Security Index (such index, the "**Successor Index**", which will be deemed to be such Security Index); and
- (b) each Additional Disruption Event (if any) specified in the applicable Issue Terms.

5. **Additional Early Termination Events**

The following Additional Early Termination Event shall apply in respect of a Security Index if Security Index Condition 5 (*Additional Early Termination Events*) is specified as applicable in the applicable Issue Terms: the Calculation Agent determines that no calculation or substitution can reasonably be made under Security Index Condition 6(b) (*Modification or cancellation of a Security Index and Security Index Substitution*).

6. Additional Provisions

(a) *Correction of published or announced prices or levels*

"**Correction Period**" means, in respect of a Security Index, two Business Days.

(b) *Modification or cancellation of a Security Index and Security Index Substitution*

(i) *Security Index Adjustment Events*

If Security Index Condition 6(b)(i) (*Security Index Adjustment Events*) is specified as applicable in the applicable Issue Terms, in respect of a Security Index, (A) on or prior to any Valuation Date, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the level of such Security Index or in any other way materially modifies such Security Index (other than a modification prescribed in that formula or method to maintain such Security Index in the event of changes in Component Securities and capitalisation and other routine events) (a "**Security Index Modification**"); or (B) on or prior to any Valuation Date, the relevant Index Sponsor at any time permanently cancels such Security Index and no Successor Index (as defined in Security Index Condition 4 (*Additional Adjustment Events*)) exists (a "**Security Index Cancellation**"); or (C) on or prior to any Valuation Date the relevant Index Sponsor or any person or entity on its behalf fails to calculate and announce such Security Index (a "**Security Index Disruption**", and together with a Security Index Modification and a Security Index Cancellation, a "**Security Index Adjustment Event**"), then the Calculation Agent shall determine if such Security Index Adjustment Event has a material effect on the Securities, and if so, either:

- (A) calculate the relevant level of such Security Index at the relevant time on such Valuation Date using, *in lieu* of a published level for such Security Index, the level of such Security Index at the relevant time on such Valuation Date as determined by the Calculation Agent in accordance with the formula for and the method of calculating the level of such Security Index last in effect prior to the occurrence of such Security Index Adjustment Event but using only those Component Securities or other assets or instruments which comprised such Security Index immediately prior to the occurrence of such Security Index Adjustment Event (other than those Component Securities or other assets or instruments which have since ceased to be listed on any relevant Exchange); and/or
- (B) substitute such Security Index as provided in Security Index Condition 6(b)(ii) (*Security Index Substitution*) and make such adjustments (if any) to the Terms and Conditions and/or the applicable Issue Terms as it deems necessary or appropriate in relation to such substitution to account for the effect of such Security Index Adjustment Event in order to preserve the original economic rationale and objectives of the Securities; and/or
- (C) make such adjustments to the Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent determines necessary or appropriate to account for the effect of such Security Index Adjustment Event in order to preserve the original economic rationale and objectives of the Securities and determine the effective date of each such adjustment."; and

If no calculation, substitution and/or adjustment can reasonably be made pursuant to the above, the provisions of Security Index Condition 5 (*Additional Early Termination Events*) shall apply.

(ii) *Security Index Substitution*

If Security Index Substitution is specified as applicable in the applicable Issue Terms, any adjustment made by the Calculation Agent pursuant to Security Index Condition 6(b)(i)(B) (*Security Index Adjustment Events*) shall be, and any adjustment made by

the Calculation Agent in response to an Adjustment Event may include, a Security Index Substitution.

"Security Index Substitution" means, in relation to a Security Index Adjustment Event or an Adjustment Event, the replacement of the Security Index the subject of such Security Index Adjustment Event or Adjustment Event, as the case may be, with a new security index selected by the Calculation Agent (which shall be a replacement security index which is reasonably comparable to the relevant Security Index and using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the level of such Security Index or a replacement security index selected by the Calculation Agent in accordance with any other criteria specified in the applicable Pricing Supplement). Such new security index shall be deemed to be a Security Index in place of the Security Index the subject of the Security Index Adjustment Event or Adjustment Event, as the case may be.

(c) *Determination of the Underlying Closing Level of a Security Index on a Disrupted Day*

If, in accordance with Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates, an Underlying Closing Level of a Security Index is to be determined on a Valuation Date which is a Disrupted Day for such Security Index, then the Calculation Agent shall determine such Underlying Closing Level of such Security Index at the Valuation Time on such Valuation Date in accordance with the formula for and method of calculating the level of such Security Index last in effect prior to the occurrence of the first Disrupted Day in respect of such Security Index, using either (i) the price traded or quoted on the relevant Exchange as of the relevant Valuation Time on such Valuation Date of each Component Security contained in such Security Index; or (ii) (if an event giving rise to a Disrupted Day has occurred in respect of the relevant Component Security on that Valuation Date) its good faith estimate of the value for the relevant Component Security as of the relevant Valuation Time on such Valuation Date.

(d) *Calculation Agent's discretion to determine non-material events*

If the Calculation Agent determines that it is not material that any day on which would otherwise have been a Valuation Date is:

- (i) not a Scheduled Trading Day for a Security Index because one or more relevant Related Exchanges is not scheduled to be open; or
- (ii) a Disrupted Day for a Security Index solely because any relevant Related Exchange fails to open,

then the Calculation Agent shall have the discretion to determine any such day either (A) to be the Valuation Date in respect of a Security Index, notwithstanding that such day is not a Scheduled Trading Day for such Security Index because one or more such Related Exchanges is not scheduled to be open; or (B) not to be a Disrupted Day where such day would be a Disrupted Day solely because any such Related Exchange fails to open.

In determining what is "material", the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (without limitation) the effect of the above on (I) any Underlying Closing Level or any Underlying Level (as relevant) of the affected Security Index; (II) any trading in futures contracts or options contracts on any such relevant Related Exchange; and (III) the Issuer's hedging arrangements in respect of the Securities.

(e) *Conditions for Bond Indices*

In relation to Security Indices which are specified in the applicable Issue Terms to be Bond Indices, all references to "Security Index" and "Security Indices" in these Security Index

Conditions shall be deemed to be references to "Bond Index" and "Bond Indices" and these Security Index Conditions shall be deemed to be amended as set out below.

(i) Valuation

The definition "Valuation Time" set out in Security Index Condition 2(a) (*Closing valuations*) shall be deleted and replaced by the following:

"Valuation Time" means, in respect of an Underlying Closing Level and a Scheduled Trading Day, (A) for the purposes of determining whether a Market Disruption Event has occurred in respect of any relevant Component Security, the time at which such Component Security is valued for the purposes of determining the level of such Bond Index for the relevant day; and (B) in all other circumstances, the time at which the level of such Bond Index for such day is calculated and published by the relevant Index Sponsor."

(ii) Market Disruption Event

In relation to a Bond Index, the definition of "Market Disruption Event" set out in Security Index Condition 3(b) (*Multiple Exchange Index*) shall be amended by the insertion of the word "or" at the end of sub paragraph (viii) and the insertion of the following paragraphs as sub-paragraphs (ix) to (xii) after sub-paragraph (viii) thereof:

- "(ix) a general moratorium is declared in respect of banking activities in the country in which the Exchange in respect of a Component Security is located (which the Calculation Agent determines is material); or
- (x) the difference between the bid and offer prices of any Component Security increases compared to that prevailing as at the Issue Date at any time (which the Calculation Agent determines is material); or
- (xi) the calculation of such Bond Index is impractical or impossible at any time save in circumstances in which the relevant Index Sponsor fails to calculate and publish such Bond Index as described in Security Index Condition 6(b) (*Modification or cancellation of a Security Index and Security Index Substitution*); or
- (xii) a reduction in liquidity in any Component Security and/or any other event or circumstance that is beyond the reasonable control of the Issuer that prevents or limits transactions in the Component Security (which the Calculation Agent determines is material)."

(iii) In relation to a Bond Index, Security Index Condition 6 (*Additional Provisions*) shall be amended as follows:

- (A) the first paragraph of Security Index Condition 6(b) (*Modification or cancellation of a Security Index and Security Index Substitution*) shall be amended by the deletion of the words "(other than a modification prescribed in that formula or method to maintain such Security Index in the event of changes in Component Securities and capitalisation and other routine events)" in the third, fourth and fifth lines thereof and the substitution of the words "(other than a modification prescribed in the conditions or methodology of the relevant Bond Index to maintain the relevant Bond Index in the event of changes in Component Securities and other routine events)" therefore; and
- (B) Security Index Condition 6(d) (*Calculation Agent's discretion to determine non-material events*) shall not apply to the Bond Index.

UNDERLYING SCHEDULE 1 – SECURITY INDEX CONDITIONS

- (iv) In relation to a Bond Index, there shall be no definition of "Related Exchange" and the Conditions shall be construed accordingly.

(f) *Adjustments following an Adjustment Event*

If "Additional Index Provisions for China Connect Service" are specified as applicable for a Security Index in the applicable Issue Terms, in respect of any adjustment made by the Calculation Agent with respect to an Adjustment Event pursuant to Valuation and Settlement Condition 2(h) (*Adjustment Events*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(h) (*Adjustment Events*) in respect of Securities which are Warrants or Exercisable Certificates, in each case, relating to the relevant Security Index, the Calculation Agent may (but need not) determine necessary or appropriate adjustment(s) by reference to any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Adjustment Event in respect of Component Securities held through the China Connect Service.

(g) *Hedging Disruption*

If "Additional Index Provisions for China Connect Service" are specified as applicable for a Security Index in the applicable Issue Terms, for the purposes of the definition of Hedging Disruption in Valuation and Settlement Condition 2(m) (*Definitions*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(m) (*Definitions*) in respect of Securities which are Warrants or Exercisable Certificates:

- (i) a Hedging Disruption includes (without limitation) any inability to hedge by the Hedging Party or its Affiliates as a result of compliance with any foreign ownership restrictions imposed by the issuer of any Component Security, any exchange or any court, tribunal, government or regulatory authority in the PRC or Hong Kong; and
- (ii) "using commercially reasonable efforts" to hedge the risks with respect to the Securities referred to in the definition of Hedging Disruption does not include the use of any quota granted to such Hedging Party or its Affiliates under the Qualified Foreign Institutional Investor (QFII) or Renminbi Qualified Foreign Institutional Investor (RQFII) schemes.

(h) *Security Index Linked Warrants relating to a Contract*

The provisions of this Security Index Condition 6(h) shall apply to Exempt Warrants only.

In relation to Security Indices where "Contract Valuation" is specified to be applicable in the applicable Issue Terms, these Security Index Conditions shall be deemed to be amended as set out below:

(i) Valuation

The definitions of "Underlying Closing Level" shall be deemed to be deleted and replaced by the following:

"Underlying Closing Level means, in respect of:

- (i) a Contract and a Valuation Date, the Official Settlement Price of the Contract published by the Related Exchange or its clearing house on such Valuation Date in accordance with its rules Provided That, if there is no Official Settlement Price as a result of the fact that trading in the Contract never commences or is permanently discontinued at any time on or prior to the relevant Valuation Date, the Official Settlement Price shall be deemed to be an amount equal to the Underlying Closing Level of the relevant Security Index on such Valuation Date, as determined by the Calculation Agent in accordance with paragraph (ii) below; and

(ii) a Security Index and a Valuation Date, the official closing level of such Security Index either (a) where Same Day Publication is specified as applicable in the applicable Issue Terms, on such Valuation Date (and in which circumstances, where the level of such Security Index is published on a succeeding Scheduled Trading Day, the level for that Valuation Date will have been the level calculated for the Security Index for or in respect of a preceding Scheduled Trading Day) or (b) where Same Day Publication is not specified as applicable in the applicable Issue Terms, for such Valuation Date (and in which circumstances the level for that Valuation Date may be published on a succeeding Scheduled Trading Day), in each case, as displayed on the applicable Electronic Page."

(ii) Market Disruption Event

In relation to a Contract, the definition of "Market Disruption Event" set out in Security Index Conditions 3(a) and 3(b) shall be amended by the substitution of the word "; or" for the full-stop at the end of each such Condition and the insertion of the following sub-paragraph thereafter:

"(xii) in respect of a Contract, the Related Exchange fails to publish the Official Settlement Price of such Contract."

(iii) Additional Adjustment Events

The following shall constitute an Additional Adjustment Event in respect of the Warrants:

(a) after the Trade Date, the terms of the Contract are changed or modified by the Related Exchange other than adjustments made by the Related Exchange to the method of calculation of the Official Settlement Price.

(iv) Correction of published or announced prices or levels

"**Correction Period**" means, in respect of a Contract, two Business Days.

(v) Definitions

"**Contract**" means the contract specified in the applicable Pricing Supplement.

"**Contract Expiry Date**" means the date specified as such in the applicable Pricing Supplement or, if trading in the Contract never commences or is permanently discontinued at any time, the Contract Expiry Date shall be the date that, but for the non-commencement or permanent discontinuance of the Contract, would have been the Contract Expiry Date.

"**Official Settlement Price**" means, in relation to a Contract, the official settlement price (howsoever described under the rules of the relevant Related Exchange or its clearing house) on expiration of such Contract published by the Related Exchange or its clearing house on the relevant Contract Expiry Date.

UNDERLYING SCHEDULE 2 – INFLATION INDEX CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as an "Inflation Index" ("**Inflation Index Securities**").

For the avoidance of doubt, defined terms used in this Underlying Schedule shall only apply in respect of Securities linked to Inflation Indices.

PART A: MONTHLY PUBLICATION

The provisions of this Part A apply where "Monthly Publication" is specified as applicable in the applicable Issue Terms.

1. Definitions

"Cut-off Date" means, in respect of a Payment Date, the day which is five Business Days prior to such Payment Date.

"DIR Inflation Linked Notes" are Notes (i) which either bear interest payable at, or calculated by reference to, a rate determined by reference to movements in an inflation index and the specific interest payment date to allow interpolation between the two monthly fixings ("**DIR Inflation Linked Interest Notes**"), and/or (ii) in respect of which the DIR Linked Redemption Amount payable at maturity is calculated by reference to movements in an inflation index, as specified in the applicable Issue Terms.

"Fallback Bond" means, in respect of an Inflation Index, if "Fallback Bond" is specified as applicable in the applicable Issue Terms, (a) the bond specified as such in the applicable Issue Terms; or (b) if no such bond is specified, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation such Inflation Index relates and which pays interest or a redemption amount which is calculated by reference to such Inflation Index, with a scheduled maturity date which falls on (i) the same day as the Maturity Date; (ii) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date; or (iii) the next shortest maturity before the Maturity Date if no bond described in (a) or (b) above is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union ("**EMU**"), then the Calculation Agent will select an inflation-linked bond which is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays interest or a redemption amount which is calculated by reference to the level of inflation in the EMU. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, then the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond in respect of an Inflation Index redeems, then the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

"Index Sponsor" means, in respect of an Inflation Index, the corporation or other entity which (a) is responsible for setting and reviewing the rules and procedures and methods of calculation and adjustments, if any, related to such Inflation Index; and (b) announces (directly or through an agent) the level of such Inflation Index.

"Inflation Index" means each Underlying classified as such in the applicable Issue Terms or any Successor Index.

"Inflation Index Condition" means each condition specified in Part A of this Underlying Schedule.

"Inflation Rate Notes" are Notes which either bear interest payable at, or calculated by reference to, a rate determined by reference to movements in an inflation index.

"Increased Cost of Index Event" means, in respect of an Inflation Index, that the relevant Index Sponsor imposes on the Issuer and/or any of its Affiliates increased or unexpected fees and costs for the use of such Inflation Index, which the Calculation Agent determines are material.

"Manifest Error Cut-off Date" means, in respect of a Payment Date, two Business Days prior to such Payment Date, unless otherwise specified in the applicable Issue Terms.

"Payment Date" means, in respect of a Valuation Date, the Interest Payment Date, the Maturity Date or other date to which such Valuation Date relates.

"Reference Month" means, in respect of an Inflation Index and a Valuation Date, each month specified as such for such Valuation Date in the applicable Issue Terms.

"Revision Cut-off Date" means, in respect of a Payment Date, two Business Days prior to such Payment Date, unless otherwise specified in the applicable Issue Terms.

2. Valuation

"Underlying Closing Level" means, in respect of an Inflation Index, a Valuation Date and a related Reference Month, the level of such Inflation Index in respect of such Reference Month, as displayed on the applicable Electronic Page.

Valuation Time and Underlying Level shall not apply to an Inflation Index to which this Part A applies.

3. Disruption To Valuation

(a) *Determination of the Underlying Closing Level of an Inflation Index on a Valuation Date*

Any Specified Valuation Date shall not be adjusted in relation to an Inflation Index and the Substitute Index Level provisions set out below shall apply thereto. The provisions of Valuation and Settlement Condition 2(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) shall only apply in relation to Underlying(s) which are not Inflation Indices (if any).

(b) *Substitute Index Level*

(i) Securities linked to Inflation Indices other than DIR Inflation Linked Securities

If an Underlying Closing Level for a Reference Month has not been published or announced by the Cut-off Date for the relevant Payment Date, then the Calculation Agent shall, subject to any provisions specified in the applicable Issue Terms, determine a substitute index level (the **"Substitute Index Level"**) by using the following methodology:

- (A) if Fallback Bond is specified as applicable in the applicable Issue Terms, the Calculation Agent will take the same action to determine the Substitute Index Level for the affected Reference Month as that taken by the relevant calculation agent pursuant to the terms and conditions of any relevant Fallback Bond; and
- (B) if there is no Fallback Bond or sub-paragraph (i) does not result in a Substitute Index Level for the relevant Reference Month for any reason, then the Calculation Agent will determine the Substitute Index Level in accordance with the formula set out below:

$$\text{Substitute Index Level} = \text{Base Level} * \left(\text{Latest} \frac{\text{Level}}{\text{Reference}} \text{Level} \right)$$

Where:

"Base Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimate) published or announced by the relevant Index Sponsor in respect of the month which is 12 calendar

months prior to the Reference Month for which the Substitute Index Level is being determined;

"Latest Level" means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimate) published or announced by the relevant Index Sponsor prior to the Reference Month in respect of which the Substitute Index Level is being determined;

"Reference Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimate) published or announced by the relevant Index Sponsor in respect of the month which is 12 calendar months prior to the Reference Month referred to in the definition for "Latest Level" above; and

- (C) if the Underlying Closing Level of an Inflation Index for a Reference Month is published or announced at any time after the Cut-off Date for the relevant Payment Date, then such Underlying Closing Level will not be used in any calculation. The Substitute Index Level determined pursuant to this Inflation Index Condition 3 (*Disruption To Valuation*) will be the Underlying Closing Level in respect of the relevant Reference Month.

(ii) DIR Inflation Linked Securities

This paragraph (ii) only applies in relation to DIR Inflation Linked Securities.

If an Underlying Closing Level for a Reference Month has not been published or announced by the Cut-off Date for the relevant Payment Date, then the Calculation Agent shall, subject to any provisions specified in the applicable Issue Terms, determine a substitute index level (the Substitute Index Level) by using the following methodology:

- (A) if Fallback Bond is specified as applicable in the applicable Issue Terms, the Calculation Agent will take the same action to determine the Substitute Index Level for the affected Reference Month as that taken by the relevant calculation agent pursuant to the terms and conditions of any relevant Fallback Bond; and
- (B) if there is no Fallback Bond or sub-paragraph (i) does not result in a Substitute Index Level for the relevant Reference Month for any reason, then the Calculation Agent will determine the Substitute Index Level as follows:

- (1) in the definition of DIR Index, if the Underlying Closing Level of the specified Inflation Index is not available for either Index Month A or Index Month B (both as specified in the applicable Issue Terms), the DIR Index Figure applicable to the relevant Interest Payment Date will be the Latest Level, where

"Latest Level" means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimate) published or announced by the relevant Index Sponsor;

- (2) in the definition of DIR Index, if the Underlying Closing Level of the specified Inflation Index is not available for both Index Month A and Index Month B, then Inflation Index Condition 6(d) (*Substitution of an Inflation Index*) will apply; and

if the Underlying Closing Level of an Inflation Index for a Reference Month is published or announced at any time after the Cut-off Date for the relevant Payment Date, then such Underlying Closing Level will not be used in any calculation. The Substitute Index Level determined pursuant to this Inflation Index Condition 3 will be the Underlying Closing Level in respect of the relevant Reference Month.

4. Additional Adjustment Events

The following Additional Adjustment Event shall apply in respect of an Inflation Index if Inflation Index Condition 4 (*Additional Adjustment Events*) is specified as applicable in the applicable Issue Terms: the occurrence at any time of an Increased Cost of Index Event.

5. Additional Early Termination Events

The following Additional Early Termination Events shall apply in respect of an Inflation Index if Inflation Index Condition 5 (*Additional Early Termination Events*) is specified as applicable in the applicable Issue Terms:

- (a) the Calculation Agent determines that no Successor Index can be determined under Inflation Index Condition 6(d) (*Substitution of an Inflation Index*); and/or
- (b) the Calculation Agent determines that no adjustment can reasonably be made under Inflation Index Condition 6(e) (*Modification of an Inflation Index*).

6. Additional Provisions

- (a) *Correction of published or announced prices or levels*

The provisions of Valuation and Settlement Condition 2(k) (*Correction of published or announced prices or levels*) shall not apply in respect of an Inflation Index.

- (b) *Revision of the level of an Inflation Index*

The operation of this Inflation Index Condition 6(b) is subject as provided in Inflation Index Condition 6(c) (*Correction of a manifest error in the level of an Inflation Index*) below.

If "Revision" is specified as applicable for an Inflation Index in the applicable Issue Terms, then the first publication and announcement of an Underlying Closing Level of such Inflation Index, or any revision to such Underlying Closing Level made no later than the relevant Revision Cut-off Date, shall be final and conclusive.

If "No Revision" is specified as applicable for an Inflation Index in the applicable Issue Terms, then the first publication and announcement of an Underlying Closing Level of such Inflation Index shall be final and conclusive, and any later revision to such Underlying Closing Level will not be used in any calculation.

If neither "Revision" nor "No Revision" is elected in the applicable Issue Terms, then "No Revision" shall be deemed to apply.

- (c) *Correction of a manifest error in the level of an Inflation Index*

If the Calculation Agent determines that the Index Sponsor of an Inflation Index has corrected an Underlying Closing Level for such Inflation Index to correct a manifest error no later than the earlier to occur of (i) the relevant Manifest Error Cut-off Date; and (ii) 30 calendar days following the first publication and announcement of such Underlying Closing Level, then the Calculation Agent may use such corrected Underlying Closing Level for the purposes of any calculation in respect of any relevant Valuation Date. Any correction to an Underlying Closing Level of such Inflation Index published after the relevant Manifest Error Cut-off Date will not be used in any calculation in respect of any relevant Valuation Date. In the event of any inconsistency (as determined by the Calculation Agent) between this Inflation Index Condition 6(c) and Inflation Index Condition 6(b) (*Revision of the level of an Inflation Index*), the operation of this Inflation Index Condition 6(c) shall prevail.

- (d) *Substitution of an Inflation Index*

If Inflation Index Substitution is specified as applicable in the applicable Issue Terms and the Calculation Agent determines that either (i) a level for an Inflation Index has not been published or announced for two consecutive months; and/or (ii) the Index Sponsor announces that it will

UNDERLYING SCHEDULE 2 – INFLATION INDEX CONDITIONS

no longer continue to publish or announce such Inflation Index; and/or (iii) the Index Sponsor cancels such Inflation Index, then the Calculation Agent may replace such Inflation Index with a successor index (a "**Successor Index**") by using the following methodology:

- (i) if at any time a successor index has been designated in respect of an Inflation Index by the calculation agent under any relevant Fallback Bond pursuant to the terms and conditions of such Fallback Bond, then such successor index may be designated a "Successor Index" for such Inflation Index for the purposes of all subsequent Valuation Dates, notwithstanding that any other Successor Index may previously have been determined under sub-paragraph (ii) or (iii);
- (ii) if a Successor Index has not been determined under sub-paragraph (i) and a notice has been given or an announcement has been made by the relevant Index Sponsor, specifying that such Inflation Index will be superseded by a replacement inflation index specified by the relevant Index Sponsor, and the Calculation Agent determines that such replacement inflation index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, then such replacement index shall be such Inflation Index for purposes of the Securities from the date that such replacement Inflation Index comes into effect;
- (iii) if no Successor Index has been determined under sub-paragraph (i) or (ii) by the fifth Business Day prior to the Cut-off Date in respect of the next following Payment Date, then the Calculation Agent will determine an appropriate alternative index and such index will be deemed a "Successor Index".

If a Successor Index is determined in accordance with the above, the Calculation Agent may make such adjustment(s) to the terms of these Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent determines necessary or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Securities.

If no Successor Index can be determined pursuant to the above, the provisions of Inflation Index Condition 5 (*Additional Early Termination Events*) shall apply.

(e) *Modification of an Inflation Index*

If, on or prior to any Cut-off Date in respect of a Payment Date, an Index Sponsor announces that it will make a material change to an Inflation Index, then the Calculation Agent shall make such adjustments to the Conditions (i) (if a Fallback Bond is specified for the relevant Inflation Index) as are consistent with any adjustment made to the relevant Fallback Bond; or (ii) (if no Fallback Bond is specified for the relevant Inflation Index) as are necessary for such modified Inflation Index to continue as an Inflation Index.

If no such adjustment can reasonably be made pursuant to the above, an Additional Early Termination Event shall be deemed to have occurred and the provisions of Inflation Index Condition 5 (*Additional Early Termination Events*) shall apply.

(f) *Rebasing of the Inflation Index*

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, then the Inflation Index as so rebased (the "**Rebased Index**") will be used for the purposes of determining any Underlying Closing Level of such Inflation Index from the date of such rebasing.

If a Fallback Bond is specified for the relevant Inflation Index, then the Calculation Agent shall make such adjustments to the levels of such Rebased Index as are made pursuant to the terms and conditions of the relevant Fallback Bond, so that the levels of such Rebased Index reflect the same rate of inflation as the relevant Inflation Index before it was rebased.

If no Fallback Bond is specified for the relevant Inflation Index, then the Calculation Agent shall make such adjustments to the levels of such Rebased Index, so that the levels of such Rebased Index reflect the same rate of inflation as the relevant Inflation Index before it was rebased.

In each case, the Calculation Agent may make such adjustment(s) to the Conditions as the Calculation Agent determines necessary or appropriate to account for the effect of such rebasing and determine the effective date(s) of the adjustment(s) to the Securities.

Any such rebasing shall not affect any prior payments made under the Securities.

"Specified Financial Centre(s)" means the financial centre(s) specified in the applicable Issue Terms.

2. Valuation

(a) *Closing Valuations*

"Disrupted Day" means, in respect of an Inflation Index, any Scheduled Trading Day for such Inflation Index on which a Disruption Event has occurred and is continuing.

For the purposes hereof:

"Disruption Event" means, in respect of an Inflation Index, the occurrence or existence, as determined by the Calculation Agent, of any Price Source Disruption and/or any Inflation Disruption Event specified in respect of such Inflation Index in the applicable Issue Terms.

"Inflation Disruption Event" means any of Material Change in Circumstances or Nationalisation, each such term as defined below, and any other event specified as such in the applicable Issue Terms.

"Material Change in Circumstances" means the occurrence of an event in an Inflation Index Jurisdiction beyond the control of any Hedging Party which makes it impossible or not reasonably practicable for (i) any Hedging Party to fulfil its obligations under any Hedging Position and (ii) for any entity generally to fulfil obligations similar to such Hedging Party's obligations under any Hedging Position.

"Nationalisation" means, in the determination of the Calculation Agent, any expropriation, confiscation, requisition, nationalisation or other action by a Governmental Authority which deprives any Hedging Party of all or substantially all of its assets in any Inflation Index Jurisdiction.

"Price Source Disruption" means, in respect of an Inflation Index and a Valuation Date and as determined by the Calculation Agent, it becomes impossible or otherwise impracticable to obtain the relevant level(s) required to calculate the Underlying Closing Level on such Valuation Date (or, if different, the day on which rates for such Valuation Date would, in the ordinary course, be published or announced on the relevant Electronic Page).

4. Additional Adjustment Events

The following Additional Adjustment Events shall apply in respect of an Inflation Index if Inflation Index Condition 4 (*Additional Adjustment Events*) is specified as applicable in the applicable Issue Terms:

- (i) any Inflation Index which, as of the Trade Date is reported, sanctioned, recognised, published, announced, or adopted (or other similar action) by the relevant Governmental Authority, and such Inflation Index ceases to exist and is replaced by a successor inflation index that is reported, sanctioned, recognised, published, announced, or adopted (or other similar action) by such Governmental Authority (the **"Official Successor Inflation Index"**), then such replacement shall be an Adjustment Event and the Underlying Closing Level for the relevant Valuation Date will be determined as if the applicable Issue Terms had specified such Official Successor Inflation Index as the Inflation Index and the price source which publishes or announces (or, but for the occurrence of a Disruption Event, would have published on announced) the level of such Official Successor Inflation Index (including, but not limited to, an official publication of that Governmental Authority) on such Valuation Date (or, if different, the day on which the level for that Valuation Date would, in the ordinary course, be published or announced by the relevant price source) as the applicable Electronic Page;
- (ii) the Index Sponsor and/or administrator of any Inflation Index officially designates or appoints a successor index sponsor and/or administrator entity for that Inflation Index, then such designation or appointment shall be an Adjustment Event and such lawfully designated or appointed successor entity shall be deemed to be the lawful index sponsor and/or administrator entity of such Inflation Index;
- (iii) a change or modification is made to the methodology of the Inflation Index which would affect the Securities including, without limitation, any change or modification to the nature of or arrangements for the determination, calculation, publication or availability of the Inflation Index, including any replacement, substitution, non-publication, non-availability or cessation of any component thereof (other than as described in Inflation Index Condition 4(i) or 4(ii) above).

5. Additional Early Termination Events

The following Additional Early Termination Events shall apply in respect of an Inflation Index if Inflation Index Condition 5 (*Additional Early Termination Events*) is specified as applicable in the applicable Issue Terms:

- (i) the Calculation Agent determines that no Successor Inflation Index can be determined under Inflation Index Condition 6(b) (*Substitution of an Inflation Index*).

6. Additional Provisions

- (a) *Corrections of published or announced rates*

"**Correction Period**" means, in respect of an Inflation Index, five Business Days.

- (b) *Substitution of an Inflation Index*

If Inflation Index Substitution is specified as applicable in the applicable Issue Terms and the Calculation Agent determines that either (i) a level for an Inflation Index has not been published or announced for two consecutive months; and/or (ii) the Index Sponsor announces that it will no longer continue to publish or announce such Inflation Index; and/or (iii) the Index Sponsor cancels such Inflation Index, and in any such case, no successor inflation index has been designated by the Index Sponsor or any Governmental Authority, then the Calculation Agent may replace such Inflation Index with a successor index (a "**Successor Inflation Index**") determined by it.

If a Successor Inflation Index is determined in accordance with the above, the Calculation Agent may make such adjustment(s) to the Conditions as it determines necessary or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Securities.

If no Successor Index can be determined pursuant to the above, the provisions of Inflation Index Condition 5 (*Additional Early Termination Events*) shall apply.

- (c) *Rebasing of an Inflation Index*

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, then the Inflation Index as so rebased (the "**Rebased Index**") will be used for the purposes of determining any Underlying Closing Level of such Inflation Index from the date of such rebasing and the Calculation Agent shall make such adjustments to the levels of such Rebased Index, so that the levels of such Rebased Index reflect the same rate of inflation as the relevant Inflation Index before it was rebased.

In such case, the Calculation Agent may make such adjustment(s) to the Conditions as the Calculation Agent determines necessary or appropriate to account for the effect of such rebasing and determine the effective date(s) of the adjustment(s) to the Securities.

UNDERLYING SCHEDULE 3 – COMMODITY INDEX CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as a "Commodity Index" ("**Commodity Index Linked Securities**" or "**Commodity Index Linked Warrants**").

 - (i) the relevant Index Sponsor fails to publish the level of such Commodity Index;
 - (ii) a temporary or permanent failure by the relevant Exchange to announce or publish a relevant price for any relevant Component of such Commodity Index;
 - (iii) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any suspension of or limitation imposed (whether by reason of movements in price exceeding permitted limits or otherwise) on the trading on any relevant Exchange of relevant Components which in aggregate comprise 20 per cent. or more of the level of such Commodity Index;
 - (iv) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any suspension of or limitation imposed (whether by reason of movements in price exceeding permitted limits or otherwise) on the trading on any Related Exchange of futures contracts or option contracts relating to such Commodity Index;
 - (v) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any other event (other than an event described in sub-paragraph (vii) or sub paragraph (viii) of this definition) which disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (on any relevant Exchange) to effect transactions in or to obtain market values for relevant Components which in aggregate comprise 20 per cent. or more of the level of such Commodity Index;
 - (vi) the occurrence or existence (which the Calculation Agent determines is material) at any time during the one hour period which ends at the relevant Valuation Time of any other event (other than an event described in sub-paragraph (vii) or sub paragraph (viii) of this definition) which disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (on any Related Exchange) to effect transactions in or to obtain market values for any futures contracts or options contracts relating to such Commodity Index;

Scheduled Closing Time (unless such earlier closing time is announced by such Related Exchange at least one hour prior to the actual closing time for the regular trading session on such Related Exchange on such Exchange Business Day); or

- (b) where Commodity Component Valuation is specified as applicable in the applicable Issue Terms:
 - (i) in respect of a Commodity Index, any Scheduled Trading Day on which any of the events set out below occurs:
 - (x) the relevant Index Sponsor fails to publish the level of such Commodity Index; or
 - (y) such day is a Disrupted Day in respect of a Component of such Commodity Index as specified in sub-paragraphs (ii)(x), (y) or (z) below.
 - (ii) in respect of a Component, any Component Trading Day on which any of the events set out below occurs:
 - (x) the failure of a relevant Exchange to announce or publish the settlement price for such Component (or other relevant price, or prices from which such price is calculated);
 - (y) the suspension of or limitation on trading in such Component on the relevant Exchange which the Calculation Agent determines is material; or
 - (z) the closing or settlement price for such Component is a "limit price" which means that such closing or settlement price for such Component for the relevant day has increased or decreased from the previous day's closing or settlement price by the maximum amount permitted under applicable exchange rules.

4. Additional Adjustment Events

- (a) The following Additional Adjustment Event shall apply in respect of a Commodity Index if Commodity Index Condition 4(a) (*Additional Adjustment Events*) is specified as applicable in the applicable Issue Terms: such Commodity Index is either (i) not calculated and announced by or on behalf of the relevant Index Sponsor but instead is calculated and announced by or on behalf of a successor to such relevant Index Sponsor acceptable to the Calculation Agent; or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Commodity Index (such index, the "**Successor Index**", which will be deemed to be such Commodity Index);
- (b) The following Additional Adjustment Event shall apply in respect of a Commodity Index if Commodity Index Condition 4(b) (*Additional Adjustment Events*) is specified as applicable in the applicable Issue Terms: the relevant Index Sponsor imposes on the Issuer and/or any of its Affiliates increased or unexpected fees and costs for the use of such Commodity Index, which the Calculation Agent determines are material;
- (c) if "Tax Disruption" is specified as applicable in the applicable Issue Terms, the Calculation Agent determines in good faith that (i) a Tax Disruption has occurred or exists; and (ii) such Tax Disruption is material; or
- (d) each Additional Disruption Event (if any) specified in the applicable Issue Terms.

5. Additional Early Termination Events

The following Additional Early Termination Event shall apply in respect of a Commodity Index if Commodity Index Condition 5 (*Additional Early Termination Events*) is specified as applicable in the applicable Issue Terms: the Calculation Agent determines that no calculation or substitution can reasonably be made under Commodity Index Condition 6(b) (*Modification or cancellation of a Commodity Index and Commodity Index Substitution*).

6. Additional Provisions

(a) *Correction of published or announced prices or levels*

"Correction Period" means, in respect of a Commodity Index, 30 calendar days.

(b) *Modification or cancellation of a Commodity Index and Commodity Index Substitution*

(i) Commodity Index Adjustment Events

If Commodity Index Condition 6(b)(i) (*Commodity Index Adjustment Events*) is specified as applicable in the applicable Issue Terms, in respect of a Commodity Index, (A) on or prior to any Valuation Date, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the level of such Commodity Index or in any other way materially modifies such Commodity Index (other than a modification prescribed in that formula or method to maintain such Commodity Index in the event of changes in relevant Components and other routine events) (a **"Commodity Index Modification"**); or (B) on or prior to any Valuation Date, the relevant Index Sponsor at any time permanently cancels such Commodity Index and no Successor Index (as defined in Commodity Index Condition 4 (*Additional Adjustment Events*)) exists (a **"Commodity Index Cancellation"**); or (C) on or prior to any Valuation Date the relevant Index Sponsor or any person or entity on its behalf fails to calculate and announce such Commodity Index (a **"Commodity Index Disruption"**), and together with a Commodity Index Modification and a Commodity Index Cancellation, a **"Commodity Index Adjustment Event"**), then the Calculation Agent shall determine if such Commodity Index Adjustment Event has a material effect on the Securities, and if so, either:

- (A) calculate the relevant level of such Commodity Index at the relevant time on such Valuation Date using, *in lieu* of a published level for such Commodity Index, the level of such Commodity Index at the relevant time on such Valuation Date as determined by the Calculation Agent in accordance with the formula for and the method of calculating the level of such Commodity Index last in effect prior to the occurrence of such Commodity Index Adjustment Event but using only those Components or other assets or instruments which comprised such Commodity Index immediately prior to the occurrence of such Commodity Index Adjustment Event (other than those Components which have since ceased to be listed on any relevant Exchange); and/or
- (B) the Calculation Agent shall substitute such Commodity Index as provided in Commodity Index Condition 6(b)(ii) (*Commodity Index Substitution*) and make such adjustments (if any) to the Terms and Conditions and/or the applicable Issue Terms as it deems necessary or appropriate in relation to such substitution; and/or
- (C) make such adjustments to the Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent determines necessary or appropriate to account for the effect of such Commodity Index Adjustment Event and determine the effective date of each such adjustment.

If no calculation, substitution and/or adjustment can reasonably be made pursuant to the above, the provisions of Commodity Index Condition 5 (*Additional Early Termination Events*) shall apply.

(ii) Commodity Index Substitution

If Commodity Index Substitution is specified as applicable in the applicable Issue Terms, any adjustment made by the Calculation Agent pursuant to Commodity Index Condition 6(c) (*Determination of the Underlying Closing Level of a Commodity Index on a Disrupted Day*) shall be, and any adjustment made by the Calculation Agent in response to an Adjustment Event may include, a Commodity Index Substitution.

"Commodity Index Substitution" means, in relation to a Commodity Index Adjustment Event or an Adjustment Event, the replacement of the Commodity Index the subject of such Commodity Index Adjustment Event or Adjustment Event, as the case may be, with a new commodity index selected by the Calculation Agent (which shall be a replacement commodity index using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the level of such Commodity Index). Such new commodity index shall be deemed to be a Commodity Index in place of the Commodity Index the subject of the Commodity Index Adjustment Event or Adjustment Event, as the case may be.

(c) *Determination of the Underlying Closing Level of a Commodity Index on a Disrupted Day*

- (i) Where Commodity Component Valuation is not specified as applicable in the applicable Issue Terms if an Underlying Closing Level of a Commodity Index is determined on a Scheduled Trading Day which is a Disrupted Day for such Commodity Index in accordance with Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates, then the Calculation Agent shall determine such Underlying Closing Level of such Commodity Index at the Valuation Time on such Scheduled Trading Day in accordance with the formula for and method of calculating the level of such Commodity Index last in effect prior to the occurrence of the first Disrupted Day in respect of such Commodity Index, using either (i) the price traded or quoted on the relevant Exchange as of the relevant Valuation Time on such Scheduled Trading Day of each relevant Component; or (ii) (if an event giving rise to a Disrupted Day has occurred in respect of the relevant Component on that Scheduled Trading Day) its good faith estimate of the value of the relevant Component as of the relevant Valuation Time on such Scheduled Trading Day.
- (ii) Where Commodity Component Valuation is specified as applicable in the applicable Issue Terms, if a Specified Valuation Date for a Commodity Index is a Disrupted Day for such Commodity Index, then, in order to determine the Underlying Closing Level of the relevant Commodity Index for such Valuation Date, the Calculation Agent shall determine the relevant Underlying Closing Level for such Valuation Date using the then-current method for calculating the level of such Commodity Index based on:
 - (A) with respect to each Component which is not affected by the occurrence of a Disrupted Day, the closing or settlement price of each such Component on such Specified Valuation Date; and
 - (B) with respect to each Component which is affected by the occurrence of a Disrupted Day, the closing or settlement price of each such Component on the earlier of: (1) the first succeeding day immediately following such Specified Valuation Date which is a Component Trading Day for the relevant Component and which is not a Disrupted Day for such Component; and (2) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days for the relevant Commodity Index immediately following such Specified Valuation Date.

If, by operation of the above provision, the date for valuation of the relevant Component would fall on a day which is a Disrupted Day for such Component, the

UNDERLYING SCHEDULE 3 – COMMODITY INDEX CONDITIONS

Calculation Agent shall determine the closing or settlement price of the relevant Component for the relevant Valuation Date using its good faith estimate of the closing or settlement price of such Component for such day.

If, by operation of the above provision, the date for valuation of the relevant Component would otherwise fall on a day falling after the second Scheduled Trading Day for the relevant Commodity Index prior to the date on which a relevant payment is scheduled to be made under the Securities (the "**Commodity Index Cut-off Date**"), such date of valuation shall be deemed to be the Commodity Index Cut-off Date (notwithstanding that such date either (I) is not a Component Trading Day for such Component; or (II) is a Disrupted Day for such Component; or (III) is a Disrupted Day for the relevant Commodity Index), and the Calculation Agent shall determine the closing or settlement price of the relevant Component for the relevant Valuation Date using its good faith estimate of the closing or settlement price of such Component for such day.

Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates and Valuation and Settlement Condition 2(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall not apply to a Specified Valuation Date relating to a Commodity Index except that, if a Disrupted Day occurs in respect of an Underlying other than a Commodity Index and "Move in Block" is specified for "Valuation Disruption (Disrupted Days)" in respect of the relevant Valuation Date in the applicable Issue Terms, the provisions of Valuation and Settlement Condition 2(d)(ii) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d)(ii) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) shall apply thereto PROVIDED THAT if by operation of such provision the relevant Valuation Date would thereby fall after the relevant Commodity Index Cut-off Date, the provisions set out in the preceding paragraph shall apply.

In all other cases, the provisions of Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) and Valuation and Settlement Condition 2(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall only apply in relation to Underlying(s) which are not Commodity Indices (if any).

UNDERLYING SCHEDULE 4 – COMMODITY CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as a "Commodity" ("**Commodity Linked Securities**" or "**Commodity Linked Warrants**").

For the avoidance of doubt, defined terms used in this Underlying Schedule shall only apply in respect of Securities linked to Commodities.

- (i) any Relevant Rate which as of the Trade Date is reported, sanctioned, recognised, published, announced or adopted (or other similar action) by the relevant Governmental Authority and any such Relevant Rate ceases to exist and is replaced by a successor currency exchange rate that is reported, sanctioned, recognised, published, announced or adopted (or other similar action) by such Governmental Authority (the "**Official Successor Rate**"), then such replacement shall be an Adjustment Event and the Relevant Rate will be determined as provided herein by reference to such Official Successor Rate and the price source which publishes or announces (or, but for the occurrence of a Disruption Event, would have published or announced) such Official Successor Rate (including, but not limited to, an official publication of that Governmental Authority);

Unless Correction Provisions are specified as applicable in respect of an FX Rate in the applicable Issue Terms, the provisions of Valuation and Settlement Condition 2(k) (*Correction of published or announced prices or levels*) in respect of Securities which are Notes or

Certificates or Valuation and Settlement Condition 1(k) (*Correction of published or announced prices or levels*) in respect of Securities which are Warrants or Exercisable Certificates do not apply in respect of an FX Rate.

(b) *Scheduled Trading Day*

The provisions of Valuation and Settlement Condition 2(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Warrants or Exercisable Certificates do not apply in respect of an FX Rate.

If a Specified Valuation Date is not a Scheduled Trading Day for an FX Rate then the Valuation Date shall be the Scheduled Trading Day falling first preceding such Specified Valuation Date EXCEPT, in the event of the occurrence of an Unscheduled Holiday on such Specified Valuation Date, in which case the Valuation Date shall be the Scheduled Trading Day immediately succeeding such Scheduled Trading Day, subject as follows and as provided in FX Rate Condition 6(d) (*Cut-off Valuation Date for cumulative events*) below.

If a Specified Valuation Date is postponed due to the occurrence of an Unscheduled Holiday on a Scheduled Trading Day as provided above and the Valuation Date has not occurred on or before the day falling the Maximum Days of Postponement after the Specified Valuation Date (any such period being a "**Deferral Period**"), then the next day after the Deferral Period that would have been a Scheduled Trading Day but for the occurrence of an Unscheduled Holiday, shall be deemed to be the Valuation Date, unless such day is a Disrupted Day for the FX Rate, in which case the provisions of FX Rate Condition 6(c) (*Disrupted Day*) below will apply.

Where "Move In Block" is specified in the applicable Issue Terms in relation to adjustments to Scheduled Trading Days, then the adjustment provisions above prevail and consequently all references to "for all of the Underlyings" and "for any of the Underlyings" in Valuation and Settlement Condition 2(c)(ii) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(c)(ii) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Warrants or Exercisable Certificates shall be construed not to include any Underlying that is an FX Rate.

(c) *Disrupted Day*

The provisions of Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates and Valuation and Settlement Condition 2(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates do not apply in respect of an FX Rate.

If any Specified Valuation Date(s) (if applicable, adjusted in accordance with the provisions of FX Rate Condition 6(b) (*Scheduled Trading Day*) above) is a Disrupted Day for an FX Rate and subject as provided below, then, in order to determine the Underlying Closing Level of such FX Rate for such Valuation Date, the Underlying Closing Level shall be determined in accordance with the first applicable Disruption Fallback (applied in accordance with its terms) which provides the Underlying Closing Level of such FX Rate for such Valuation Date, PROVIDED THAT, if "Omission" applies in respect of any Valuation Date to which "Averaging" applies, then the relevant Specified Valuation Date shall be deemed not to be a Valuation Date PROVIDED THAT, if by operation of this provision there would be no Valuation Date in respect of the relevant determination, then the provisions above will apply for the purposes of determining the relevant Underlying Closing Level(s) on the final relevant Valuation Date as if such Valuation Date were a Valuation Date that was a Disrupted Day.

UNDERLYING SCHEDULE 9 – FX RATE CONDITIONS

Where the applicable Disruption Fallback is a Disruption Fallback other than Valuation Postponement, the relevant Specified Valuation Date shall not be adjusted in relation to such FX Rate, the Disruption Fallback provisions set out below shall apply thereto and the provisions of Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall only apply in relation to Underlying(s) other than such FX Rate (if any). For the avoidance of doubt, where "Move In Block" is specified in the applicable Issue Terms in relation to adjustments to Disrupted Days, then the adjustment provisions above prevail and consequently all references to "for all of the Underlyings" in Valuation and Settlement Condition 2(d)(ii) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d)(ii) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall be construed not to include any Underlying that is an FX Rate.

If an Underlying Closing Level of an FX Rate is to be determined on a day which is a Disrupted Day or is not a Scheduled Trading Day for such FX Rate, then the next applicable Disruption Fallback will apply.

(d) *Cut-off Valuation Date for cumulative events*

Notwithstanding the cut-off provisions set out in the definition of Valuation Postponement and in FX Rate Condition 6(c) (*Disrupted Day*) above, in no event shall the total number of consecutive calendar days during which either (i) valuation is deferred due to an Unscheduled Holiday or (ii) a Valuation Postponement shall occur (or any combination of (i) and (ii)), exceed the Maximum Days of Postponement in the aggregate.

Accordingly, (x) if upon the lapse of the Maximum Days of Postponement in the aggregate, an Unscheduled Holiday shall have occurred or be continuing on the day following the Maximum Days of Postponement, then such day shall be deemed to be the Valuation Date and (y) if, upon the lapse of the Maximum Days of Postponement in the aggregate, a Price Source Disruption shall have occurred or be continuing on the day following the Maximum Days of Postponement, such date shall be deemed to be the Valuation Date and the relevant FX Rate shall be determined in accordance with the next Disruption Fallback.

The Cut-off Valuation Date provisions set out in Valuation and Settlement Condition 2 (*Underlying Valuation Provisions and Fallback Provisions for Securities other than Underlying Linked Securities*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1 (General Provisions applicable to Underlyings) in respect of Securities which are Warrants or Exercisable Certificates do not apply to an Underlying that is an FX Rate and, accordingly, pursuant to the above provisions, a scheduled date for payment of any amount or, as the case may be, delivery of any assets in respect of the Securities will be deferred, if later, until the Number of Settlement Business Days (or such other number of days (the "**Number of Postponement Days**") specified in the applicable Issue Terms) following the relevant Valuation Date and such Cut-off Valuation Date provisions shall only apply to any Underlying other than an FX Rate (save as otherwise provided in the relevant Underlying Schedule applicable to any such Underlying).

UNDERLYING SCHEDULE 10 – BESPOKE INDEX CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as a "Bespoke Index" ("**Bespoke Index Linked Securities**" or "**Bespoke Index Linked Warrants**").

- (i) any applicable legal restrictions; or
- (ii) any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent, or any such other person is required to hold a valid licence in order to issue or perform its obligations in respect of the Securities and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence).

If specified in the applicable Issue Terms, the Index Sponsor will be the Index Administrator (as defined in the relevant Index Conditions) notwithstanding that another entity is specified as the Index Sponsor in such Index Conditions. The Index Sponsor in respect of a Bespoke Index which is a Citi Proprietary Index shall be the Issuer or any Affiliate of the Issuer or any entity acting in association with or on behalf of the Issuer, as specified in the applicable Issue Terms. "Tax Disruption" means, in respect of a Component, the imposition of, change in or removal of a Relevant Tax by any relevant government or taxing authority after the Trade Date, if the direct effect of such imposition, change or removal is to increase or decrease the level of the Bespoke Index on a day which would otherwise be a Valuation Date from what it would have been without such imposition, change or removal. For these purposes, **"Relevant Tax"** means, in respect of a Component or other asset relating to such Component, any excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or other similar tax on, or measured by reference to, such Component or other asset (other than a tax on, or measured by reference to, overall gross or net income).

- (b) if "Tax Disruption" is specified as applicable in the applicable Issue Terms, the Calculation Agent determines that (i) a Tax Disruption has occurred or exists; and (ii) such Tax Disruption is material; or
- (c) each Additional Disruption Event (if any) specified in the applicable Issue Terms.

5. Additional Early Termination Events

The following Additional Early Termination Event shall apply in respect of a Bespoke Index: the Calculation Agent determines that no calculation, adjustment or substitution can reasonably be made under Bespoke Index Condition 6(b) (*Modification, disruption or cancellation of a Bespoke Index and Bespoke Index Substitution*).

6. Additional Provisions

(a) *Correction of published or announced prices or levels*

"Correction Period" means, in respect of a Bespoke Index, 30 calendar days.

For the avoidance of doubt, if pursuant to the provisions of Proprietary Index Condition 6(c) (*Determination of the Underlying Closing Level of a Bespoke Index on a Disrupted Day*), the level of a Bespoke Index published in respect of a Valuation Date is disregarded by the Calculation Agent, any correction of the level of the relevant Bespoke Index which has been disregarded shall also be disregarded.

(b) *Modification, disruption or cancellation of a Bespoke Index and Bespoke Index Substitution*

(A) *Bespoke Index Adjustment Events*

If Bespoke Index Condition 6(b)(A) (*Bespoke Index Adjustment Events*) is specified as applicable in the applicable Issue Terms, in respect of a Bespoke Index, (i) on or prior to any Valuation Date, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the level of such Bespoke Index or in any other way materially modifies such Bespoke Index (other than a modification prescribed in that formula or method to maintain such Bespoke Index in the event of changes in relevant Components and other routine events) (a "**Bespoke Index Modification**"); or (ii) on or prior to any Valuation Date, the relevant Index Sponsor at any time permanently cancels such Bespoke Index and no Successor Index (as defined in Bespoke Index Condition 4 (*Additional Adjustment Events*)) exists (a "**Bespoke Index Cancellation**"); or (iii) on or prior to any Valuation Date the relevant Index Sponsor or any person or entity on its behalf fails to calculate and announce such Bespoke Index (a "**Bespoke Index Disruption**", and together with a Proprietary Index Modification and a Proprietary Index Cancellation, a "**Bespoke Index Adjustment Event**"), then the Calculation Agent shall determine if such Bespoke Index Adjustment Event has a material effect on the Securities, and if so, shall either:

- (i) calculate the relevant level of such Bespoke Index in respect of the relevant time on such Valuation Date using, *in lieu* of a published level for such Bespoke Index, the level of such Bespoke Index in respect of the relevant time on such Valuation Date as determined by the Calculation Agent in accordance with the formula for and the method of calculating the level of such Bespoke Index last in effect prior to the occurrence of such Bespoke Index Adjustment Event but using only those Components which comprised such Bespoke Index immediately prior to the occurrence of such Bespoke Index Adjustment Event and, for which purpose, any determination of the value of any Component shall be made by reference to such source(s) as the Calculation Agent determines appropriate; and/or
- (ii) substitute such Bespoke Index as provided in Bespoke Index Condition 6(b)(B) (*Bespoke Index Substitution*), if Bespoke Index Substitution is specified as applicable in the applicable Issue Terms, and make such adjustments (if any) to the Terms and Conditions and/or the applicable Issue Terms as it deems necessary or appropriate in relation to such substitution; and/or
- (iii) make such adjustments to the Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent determines necessary or appropriate to account for the effect of such Bespoke Index Adjustment Event and determine the effective date of each such adjustment.

If no calculation, substitution and/or adjustment can reasonably be made pursuant to the above, the provisions of Bespoke Index Condition 5 (*Additional Early Termination Events*) shall apply.

(B) *Bespoke Index Substitution*

If Bespoke Index Substitution is specified as applicable in the applicable Issue Terms, any substitution made by the Calculation Agent pursuant to Bespoke Index Condition 6(b)(A)(ii) (*Bespoke Index Adjustment Events*) shall be, and any adjustment made by

the Calculation Agent in response to an Adjustment Event may include, a Bespoke Index Substitution.

"Bespoke Index Substitution" means, in relation to a Bespoke Index Adjustment Event or an Adjustment Event, the replacement of a Bespoke Index the subject of such Bespoke Index Adjustment Event or Adjustment Event, as the case may be, with a new index selected by the Calculation Agent (which shall be a replacement index using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the level of such Bespoke Index or, in the case of Exempt Securities only, a replacement index selected by the Calculation Agent in accordance with any other criteria specified in the applicable Issue Terms). Such new index shall be deemed to be a Bespoke Index in place of the Bespoke Index the subject of the Bespoke Index Adjustment Event or the Adjustment Event, as the case may be.

(c) *Determination of the Underlying Closing Level of a Bespoke Index on a Disrupted Day*

Valuation and Settlement Condition 2(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates applies.

(d) *Determination of the Underlying Closing Level of a Bespoke Index on a Component Disrupted Day*

This Bespoke Index Condition 6(d) (*Determination of the Underlying Closing Level of a Bespoke Index on a Component Disrupted Day*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall only apply where "Component Valuation" is specified as applicable in the applicable Issue Terms.

Where Component Valuation is specified as applicable in the applicable Issue Terms, if a Valuation Date for a Bespoke Index (i) is not a Component Scheduled Trading Day or (ii) is a Component Disrupted Day, in either case, in respect of one or more of the Components of such Bespoke Index (each such Component, an **"Affected Component"** and each such date an **"Affected Valuation Date"**), then any level of the Bespoke Index published in respect of such Valuation Date may be disregarded by the Calculation Agent and the Underlying Closing Level for such Valuation Date may be determined by the Calculation Agent as the level of such Bespoke Index in respect of such Valuation Date determined in accordance with the then-current methodology for calculating the level of the Bespoke Index, but using:

- (i) with respect to each Component which is not an Affected Component, the price, level or value of each such Component at the relevant time on the relevant Affected Valuation Date; and
- (ii) with respect to each Affected Component, the price, level or value for each such Affected Component at the relevant time on the earlier of (i) the first succeeding Component Scheduled Trading Day for such Affected Component immediately following the relevant Affected Valuation Date that is not a Component Disrupted Day for such Affected Component and (ii) the Component Scheduled Trading Day which is the Component Valuation Roll number of Component Scheduled Trading Days for such Component immediately following the relevant Affected Valuation Date,

PROVIDED THAT if, pursuant to the above, the relevant Valuation Date for any Component determined as provided above would otherwise fall on a day falling after the second Component Scheduled Trading Day prior to the date on which a relevant payment is scheduled to be made under the Securities (the **"Component Cut-off Date"**), such Valuation Date for such Affected Component shall be deemed to be the Component Cut-off Date (notwithstanding that such date either (A) is not a Component

Scheduled Trading Day for such Component or (B) is a Component Disrupted Day for such Component) and the provisions of paragraph (iii) below shall apply;

- (iii) if the Valuation Date for any Component (as determined in accordance with paragraph (ii) above) is a Component Disrupted Day for such Component or is determined to occur on the Component Cut-off Date (as provided in paragraph (ii) above), then the Calculation Agent shall determine the price, level or value of the relevant Component in the manner (as specified in the relevant Index Conditions) in which the price, level or value of such disrupted Component would be determined on a date which is a Component Disrupted Day for such Component (for the avoidance of doubt, without regard to any valuation roll).

For the purposes hereof:

"Component Disrupted Day" means, in respect of a Component and unless otherwise specified in the applicable Issue Terms, a day on which the price, level or value of such Component and/or any sub-component of such Component and/or any related futures contracts, options contracts or securities (each a **"Relevant Component"**) is not published (or publication is delayed) and/or cannot be determined and/or is otherwise disrupted (including, without limitation, by way of a suspension, limitation and/or disruption of trading in the Relevant Component and/or the failure to open or the early closure of any relevant exchange), however described in the relevant Index Conditions and as determined by the Calculation Agent.

"Component Scheduled Trading Day" means, in respect of a Component and unless otherwise specified in the applicable Issue Terms, a day on or in respect of which the price, level or value of such Component is scheduled to be determined, however described in the relevant Index Conditions and as determined by the Calculation Agent.

"Component Valuation Roll" means the number specified as such in the applicable Issue Terms or, if no number is so specified, eight.

UNDERLYING SCHEDULE 11 – DIVIDEND FUTURES CONTRACT CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as a "Dividend Futures Contract" ("**Dividend Futures Contract Linked Securities**").

For the avoidance of doubt, defined terms used in this Underlying Schedule shall only apply in respect of Securities linked to Dividend Futures Contracts.

1. Definitions

"Dividend Futures Contract" means each Underlying classified as such in the applicable Issue Terms.

"Dividend Futures Contract Condition" means each condition specified in this Underlying Schedule.

"Dividend Futures Contract Sponsor" means, in respect of a Dividend Futures Contract, the corporation or other entity which (a) is responsible for setting and reviewing the rules and procedures and methods of calculations and adjustments, if any, related to such Dividend Futures Contract; and (b) announces (directly or through an agent) the price of such Dividend Futures Contract on a regular basis.

"Exchange" means, in respect of a Dividend Futures Contract, the exchange or principal trading facility specified for such Dividend Futures Contract in the applicable Issue Terms or any successor to such exchange or principal trading facility.

"Expiry Date" means, in respect of a Dividend Futures Contract and a Valuation Date, where the Relevant Price for such Valuation Date is specified to be the "final settlement price" of such Dividend Futures Contract in the applicable Issue Terms, the expiry date of such Dividend Futures Contract on which the "final settlement price" of such Dividend Futures Contract is expected to be announced by the Dividend Futures Contract Sponsor and published on the Exchange) or, if such "final settlement price" is not so announced and published but, on or prior to such originally designated expiry date, the relevant Dividend Futures Contract Sponsor has announced arrangements for the publication of such "final settlement price" on another date, such other date.

"Relevant Price" means in respect of a Dividend Futures Contract and a Valuation Date, the "daily settlement price" or the "final settlement price", in each case, however defined in the contract specifications of such Dividend Futures Contract or the relevant Exchange, as the case may be.

"Scheduled Trading Day" means, in respect of a Dividend Futures Contract, any day on which the relevant Exchange is scheduled to be open for trading for its regular trading session notwithstanding such Exchange closing prior to its scheduled closing time.

2. Valuation

"Underlying Closing Level" means, in respect of a Dividend Futures Contract and a Valuation Date, the Relevant Price for the relevant Valuation Date as displayed on the relevant Electronic Page or, if such Relevant Price is not displayed on the relevant Electronic Page on the relevant Valuation Date, the Relevant Price of such Dividend Futures Contract for such Valuation Date as published by the relevant Exchange.

"Valuation Time" means, in respect of an Underlying Closing Level and a Dividend Futures Contract, the time at which the relevant price referred to for the purpose of such Underlying Closing Level of such Dividend Futures Contract for such day is calculated and published by the relevant Dividend Futures Contract Sponsor.

"Underlying Level" shall not apply to a Dividend Futures Contract.

3. Disruption To Valuation

"**Disrupted Day**" means, in respect of a Dividend Futures Contract, any Scheduled Trading Day for such Dividend Futures Contract on which:

- (i) the relevant Dividend Futures Contract Sponsor fails to announce the Relevant Price;
- (ii) the relevant Electronic Page and the relevant Exchange each fail to publish the Relevant Price of the Dividend Futures Contract (or other data from which such Relevant Price is calculated);
- (iii) the relevant Electronic Page is temporarily or permanently discontinued or unavailable;
- (iv) the relevant Exchange fails to open for trading during its regular trading session; or
- (v) there is a suspension of or limitation on trading in such Dividend Futures Contract on the relevant Exchange (which, in either case, the Calculation Agent determines is material).

The definition of Disrupted Day and the provisions relating to Disrupted Days in Part A of the Valuation and Settlement Schedule will not apply in respect of a Dividend Futures Contract and a Valuation Date if the Relevant Price for such Valuation Date is specified to be the "final settlement price" of such Dividend Futures Contract in the applicable Issue Terms and the Conditions shall be construed accordingly.

4. Additional Adjustment Events

The following Additional Adjustment Event shall apply in respect of a Dividend Futures Contract if Dividend Futures Contract Condition 4 (*Additional Adjustment Events*) is specified as applicable in the applicable Issue Terms: such Dividend Futures Contract is either (a) not calculated and announced by or on behalf of the relevant Dividend Futures Contract Sponsor but instead is calculated and announced by or on behalf of a successor to such relevant Dividend Futures Contract Sponsor acceptable to the Calculation Agent; or (b) replaced, as relevant, by a successor dividend futures contract using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Dividend Futures Contract (such dividend futures contract, the "**Successor Dividend Futures Contract**", which will be deemed to be such Dividend Futures Contract).

5. Additional Early Termination Events

The following Additional Early Termination Event shall apply in respect of a Dividend Futures Contract if Dividend Futures Contract Condition 5 (*Additional Early Termination Events*) is specified as applicable in the applicable Issue Terms: the Calculation Agent determines that no calculation, adjustment or substitution can reasonably be made under Dividend Futures Contract Condition 6(b) (*Modification, cancellation or disruption of a Dividend Futures Contract and Dividend Futures Contract Substitution*) in respect of Securities which are Notes or Certificates.

6. Additional Provisions

- (a) *Correction of published or announced prices or levels*

"**Correction Period**" means, in respect of a Dividend Futures Contract, two Business Days.

- (b) *Modification, cancellation or disruption of a Dividend Futures Contract and Dividend Futures Contract Substitution*

- (A) *Dividend Futures Contract Adjustment Event*

If Dividend Futures Contract Condition 6(b)(A) (*Dividend Futures Contract Adjustment Event*) is specified as applicable in the applicable Issue Terms, in respect of a Dividend Futures Contract, (i) on or prior to any Valuation Date, the relevant

Exchange and/or Dividend Futures Contract Sponsor, as the case may be, announces that it will make a material change in the formula for or the method of calculating any price of such Dividend Futures Contract or in any other way materially modifies such Dividend Futures Contract, including any material change in the content, composition or constitution of such Dividend Futures Contract (a "**Dividend Futures Contract Modification**"); or (ii) on or prior to any Valuation Date, the relevant Exchange and/or Dividend Futures Contract Sponsor, as the case may be, at any time permanently cancels or discontinues such Dividend Futures Contract or there is otherwise a permanent discontinuation in trading or trading never commences in such Dividend Futures Contract and, in each such case, no Successor Dividend Futures Contract exists (a "**Dividend Futures Contract Cancellation**"); or (iii) on any Valuation Date for which the Relevant Price is specified to be the "final settlement price" in the applicable Issue Terms, such Relevant Price is not displayed or published on the relevant Electronic Page or by the Exchange, as the case may be, at the relevant Valuation Time (a "**Dividend Futures Contract Disruption**", and together with a Dividend Futures Contract Modification and a Dividend Futures Contract Cancellation, a "**Dividend Futures Contract Adjustment Event**"), then the Calculation Agent shall determine if such Dividend Futures Contract Adjustment Event has a material effect on the Securities and, if so, shall either:

- (i) calculate the relevant price of such Dividend Futures Contract at or for the relevant Valuation Time on such Valuation Date using, *in lieu* of the published Relevant Price for such Dividend Futures Contract, a price for such Dividend Futures Contract at or for the relevant Valuation Time on such Valuation Date as determined by the Calculation Agent by calculating the value of the relevant dividends for the applicable contract period for such Dividend Futures Contract by reference to the formula for and the method of calculation last in effect of any related dividend point index or such other sources as it deems appropriate;
- (ii) make such adjustments to the Conditions and/or the applicable Issue Terms as the Calculation Agent determines necessary or appropriate to account for the effect of such Dividend Futures Contract Adjustment Event and determine the effective date of each such adjustment; and/or
- (iii) substitute such Dividend Futures Contract as provided in Dividend Futures Contract Condition 6(b)(B) (*Dividend Futures Contract Substitution*) and make such adjustments (if any) to the Conditions and/or the applicable Issue Terms to as it deems necessary or appropriate in relation to such substitution.

If no calculation, adjustment and/or substitution can reasonably be made pursuant to the above, the provisions of Dividend Futures Contract Condition 5 (*Additional Early Termination Events*) shall apply.

(B) *Dividend Futures Contract Substitution*

If Dividend Futures Contract Substitution is specified as applicable in the applicable Issue Terms any adjustment made by the Calculation Agent pursuant to Dividend Futures Contract Condition 6(b)(A)(iii) (*Dividend Futures Contract Adjustment Event*) shall be, and any adjustment made by the Calculation Agent in response to an Adjustment Event may include, a Dividend Futures Contract Substitution.

"Dividend Futures Contract Substitution" means, in relation to a Dividend Futures Contract Adjustment Event or an Adjustment Event, the replacement of the Dividend Futures Contract the subject of such Dividend Futures Contract Adjustment Event or Adjustment Event, as the case may be, with a new dividend futures contract selected by the Calculation Agent (which shall be a replacement dividend futures contract using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the Dividend Futures Contract or a replacement dividend futures contract selected by the Calculation Agent in accordance with any other criteria specified in the applicable Pricing Supplement). Such new dividend futures contract shall be deemed to be a Dividend Futures

Contract in place of the Dividend Futures Contract the subject of the Dividend Futures Contract Adjustment Event or Adjustment Event, as the case may be.

(c) *Determination of the Underlying Closing Level of a Dividend Futures Contract on a Disrupted Day or on the Cut-off Valuation Date*

(A) *Determination of the Underlying Closing Level of a Dividend Futures Contract on a Disrupted Day*

Where the Relevant Price for a Valuation Date is not specified to be the "final settlement price" in the applicable Issue Terms, Valuation and Settlement Condition 2(e) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates applies.

(B) *Determination of the Underlying Closing Level of a Dividend Futures Contract on the Cut-off Valuation Date*

If the Relevant Price for a Valuation Date is specified to be the "final settlement price" in the applicable Issue Terms and, in accordance with the provisions of the Valuation and Settlement Schedule and the applicable Issue Terms, the relevant Valuation Date would otherwise fall on a day falling after the second Scheduled Trading Day for such Dividend Futures Contract prior to the date on which a relevant payment is scheduled to be made under the Securities (the "**Cut-off Valuation Date**"), such Valuation Date shall be deemed to be the Cut-off Valuation Date and the Calculation Agent shall determine the Underlying Closing Level of the Dividend Futures Contract for such Valuation Date by calculating the value of the relevant dividends for the applicable contract period for such Dividend Futures Contract by reference to the formula for and the method of calculation last in effect of any related dividend point index or such other sources as it deems appropriate.

UNDERLYING SCHEDULE 12 – RATE CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as a "Rate" ("**Rate Linked Securities**" or "**Rate Linked Warrants**").

For the avoidance of doubt, defined terms used in this Underlying Schedule shall only apply in respect of Securities linked to Rates.

1. Definitions

"**Disrupted Day**" shall have the meaning given to it in Rate Condition 3 (*Disruption to Valuation*).

"**Rate**" means each Underlying classified as such in the applicable Issue Terms.

"**Rate Condition**" means each condition specified in this Underlying Schedule.

"**Scheduled Trading Day**" shall, in respect of a Rate, have the meaning given to it for such Rate in the applicable Issue Terms.

2. Valuation

(a) Closing Valuations

"**Underlying Closing Level**" means, in respect of a Rate and a Valuation Date, the interest rate (expressed as a percentage) specified to be such Rate for the relevant designated maturity (where applicable) on such Valuation Date, which appears on the applicable Electronic Page as of the Valuation Time. For the avoidance of doubt, a Rate will be determined as of the Valuation Time which may not be the "closing time" and a Rate may only be determined once on any Scheduled Trading Day.

(b) Intraday Valuations

Underlying Level does not apply to an Underlying that is a Rate.

(c) Valuation Time

"**Valuation Time**" means, in respect of a Rate, the time specified for such Rate in the applicable Issue Terms.

3. Disruption to Valuation

"**Disrupted Day**" means, in respect of a Rate, any Scheduled Trading Day for such Rate on which the Electronic Page is not available or the percentage rate of such Rate for such Scheduled Trading Day does not appear on the Electronic Page and/or the Rate is not provided or published by the relevant administrator or a relevant authorised distributor and/or a component of the relevant Rate is not provided or published.

4. Additional Adjustment Events

No Additional Adjustment Event shall apply in respect of a Rate.

5. Additional Early Termination Events

No Additional Early Termination Event shall apply in respect of a Rate.

6. Additional Provisions

(a) Correction of published or announced prices or levels

Unless "Correction Provisions" are specified as applicable in the applicable Issue Terms, the provisions of Valuation and Settlement Condition 2(k) (*Correction of published or announced prices or levels*) in respect of Securities which are Notes or Certificates or Valuation and

Settlement Condition 1(k) (*Correction of published or announced prices or levels*) in respect of Securities which are Warrants or Exercisable Certificates do not apply in respect of a Rate.

(b) *Scheduled Trading Day*

If any Specified Valuation Date(s) is not a Scheduled Trading Day for a Rate then, if neither "Preceding Scheduled Trading Day" nor "Modified Following Scheduled Trading Day" is specified in respect of such Rate in the applicable Issue Terms, then the provisions of Valuation and Settlement Condition 2(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Warrants or Exercisable Certificates applies in respect of that Rate; or:

- (i) if "Preceding Scheduled Trading Day" is specified for such Rate in the applicable Issue Terms, the Valuation Date shall be the Scheduled Trading Day falling first preceding such Specified Valuation Date, unless such day is a Disrupted Day for the Underlying, in which case Rate Condition 6(c) (*Determination of the Underlying Closing Level of a Rate on a Disrupted Day*) shall apply; or
- (ii) if "Modified Following Scheduled Trading Day" is specified for such Rate in the applicable Issue Terms, the Valuation Date shall be the Scheduled Trading Day immediately succeeding such Specified Valuation Date, unless such day would fall into the next calendar month, in which event the Valuation Date shall be the Scheduled Trading Day falling first preceding such Specified Valuation Date, unless, in either such case, such day is a Disrupted Day for the Underlying, in which case Rate Condition 6(c) (*Determination of the Underlying Closing Level of a Rate on a Disrupted Day*) shall apply.

Where "Move In Block" is specified in the applicable Issue Terms in relation to adjustments to Scheduled Trading Days and "Preceding Scheduled Trading Day" or "Modified Following Scheduled Trading Day" is specified in the applicable Issue Terms in respect of a Rate, then the adjustment provisions relating to Preceding Scheduled Trading Day or, as the case may be, Modified Following Scheduled Trading Day prevail and Valuation and Settlement Condition 2(c)(ii) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(c)(ii) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Warrants or Exercisable Certificates shall be construed so as not to apply to such Rate and consequently all reference to "for all of the Underlyings" and "for any of the Underlyings" in Valuation and Settlement Condition 2(c)(ii) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(c)(ii) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Warrants or Exercisable Certificates shall be construed not to include any such Rate.

(c) *Determination of the Underlying Closing Level of a Rate on a Disrupted Day*

The provisions of Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates do not apply in respect of a Rate.

If any Specified Valuation Date(s) (if applicable, adjusted in accordance with the provisions of Valuation and Settlement Condition 2(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) in respect of Securities which are Warrants or Exercisable Certificates or, as the case may be, Rate Condition 6(b) (*Scheduled Trading Day*) above) is a Disrupted Day for a Rate, then subject as provided in Valuation and Settlement Condition 11 (*Hierarchy Provisions and Adjustments*) in respect of Securities which are Notes or Certificates or the General Conditions in respect of Securities which are Warrants or Exercisable Certificates and notwithstanding anything to the contrary in the Conditions, the Calculation Agent shall determine the Underlying Closing Level of such

UNDERLYING SCHEDULE 12 – RATE CONDITIONS

Rate for the Valuation Date at such time as it deems appropriate and in good faith and in a commercially reasonable manner, having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). For the avoidance of doubt and without limitation, the Calculation Agent may determine the relevant Underlying Closing Level for such Valuation Date by reference to one of the following:

- (1) the Rate for the relevant designated maturity (where applicable) published on the relevant Scheduled Trading Day on a different screen page by another authorised distributor of the relevant Rate;
- (2) a rate formally recommended for use by the administrator of the relevant Rate or the supervisor or competent authority (or a committee endorsed or convened by any such entity) responsible for supervising the relevant Rate or the administrator thereof; or
- (3) the Rate for the relevant designated maturity (where applicable) last provided or published by the relevant administrator; or
- (4) the arithmetic mean of quotations provided by reference banks selected by the Calculation Agent on a date determined by the Calculation Agent for a representative amount (and, where relevant, with an acknowledged dealer of good credit in the swap market) and, if applicable, for a term equal to the designated maturity, calculated in the manner determined by the Calculation Agent.

Where "Move In Block" is specified in the applicable Issue Terms in relation to adjustments to Disrupted Days, then the adjustment provisions above prevail and reference to "for all of the Underlyings" in Valuation and Settlement Condition 2(d)(ii) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(d)(ii) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall be construed not to include any Underlying that is a Rate.

(d) *Cut-off Valuation Date*

If the Valuation Date for a Rate determined as provided above would otherwise fall on a day falling after the second Scheduled Trading Day for such Rate prior to the date on which a relevant payment is scheduled to be made under the Securities (the "**Cut-off Valuation Date**"), such Valuation Date shall be deemed to be the Cut-off Valuation Date (notwithstanding that such date either (A) is not a Scheduled Trading Day for such Rate; or (B) is a Disrupted Day for such Rate) and the provisions of Valuation and Settlement Condition 2(e)(ii) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Notes or Certificates or Valuation and Settlement Condition 1(e)(ii) (*Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*) in respect of Securities which are Warrants or Exercisable Certificates shall apply in respect thereof.

scheduled trading day, a disrupted day or the occurrence of an adjustment event (howsoever described in the terms and conditions of the Preference Shares), the Initial Preference Share Reference Date shall be the last delayed date on which any such valuation or determination is made, as determined by the Calculation Agent.

(c) *Issuer Call, Investor Put and Optional Redemption Amounts*

Securities that are to be redeemed early at the option of the Issuer pursuant to General Condition 6(f) (*Redemption at the Option of the Issuer*) may be redeemed in whole but not in part. For the purposes of such redemption, the Optional Redemption Amount shall be determined as provided below.

General Condition 6(g) (*Redemption at the Option of holders of Securities*) shall not apply in respect Preference Share Linked Securities.

For the purposes of this Preference Share Condition 6(c) (*Issuer Call, Investor Put and Optional Redemption Amounts*):

"Optional Redemption Amount" means an amount per Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) determined on the same basis as the Preference Share-Linked Redemption Amount (as defined in the Valuation and Settlement Schedule) except that, for the purposes of this definition, **"Final Reference Level"** means the Underlying Closing Level of the Redemption Underlying on the Optional Redemption Valuation Date.

"Optional Redemption Valuation Date" means the date or, if such day is on which the Securities are to be redeemed early or such earlier date determined by the Calculation Agent solely for the purposes of allowing the calculation of the Underlying Closing Level of the Preference Share prior to the redemption of the Securities and such date shall be deemed to be a Valuation Date for the purpose of the Conditions.

(d) *Early Termination for tax reasons or illegality, following an Event of Default or following an Early Termination Event and the Early Termination Amount*

If, in the determination of the Calculation Agent, the Securities are to be redeemed (i) for tax reasons or for illegality in accordance with General Condition 6(b) (*Termination for Taxation Reasons and Termination for Illegality*), (ii) following the occurrence of an Obligor Regulatory Event in accordance with General Condition 6(c) (*Early termination following the occurrence of an Obligor Regulatory Event*) above, (iii) following the occurrence of an Event of Default in accordance with General Condition 11 (*Events of Default*) or (iv) following the occurrence of any Early Termination Event in respect of a Preference Share in accordance with Valuation and Settlement Condition 2(i) (*Early Termination Events*), then the Early Termination Amount shall be determined as provided below.

For the purposes of this Preference Share Condition 6(d) (*Early Termination for tax reasons or illegality, following an Event of Default or following an Early Termination Event and the Early Termination Amount*):

"Early Termination Amount" means an amount per Security (in the case of a Note, representing a principal amount equal to the Calculation Amount) determined on the same basis as the Preference Share-Linked Redemption Amount (as defined in the Valuation and Settlement Schedule) except that, for the purposes of this definition, **"Final Reference Level"** means the Underlying Closing Level of the Redemption Underlying on the Early Termination Valuation Date.

Early Termination Valuation Date means the date on which the Securities are to be redeemed early or such earlier date determined by the Calculation Agent solely for the purposes of allowing the calculation of the Underlying Closing Level of the Preference Share prior to the redemption of the Securities. Such date shall be deemed to be a Valuation Date for the purposes of the Conditions.

(e) *Realisation Disruption*

If "Realisation Disruption" is specified as applicable in the applicable Issue Terms and a Realisation Disruption Event occurs, such Realisation Disruption Event shall be deemed to be an Early Termination Event and the Issuer may redeem the Securities pursuant to Valuation and Settlement Condition 2(i) (*Early Termination Events*) and Preference Share Condition 6(d) (*Early Termination for tax reasons or illegality, following an Event of Default or following an Early Termination Event and the Early Termination Amount*) and the provisions of Valuation and Settlement Condition 2(j) (*Realisation Disruption*) shall not apply to the Securities.

(f) *Redenomination*

General Condition 18 (*Redenomination*) shall not apply in respect of Preference Share Linked Securities.

(g) *Taxation*

General Condition 9 (*Taxation*) shall not apply in respect of Preference Share Linked Securities insofar as it would require the Issuer or (if applicable) Guarantor to pay additional interest as described therein.

For the avoidance of doubt, this Preference Share Condition 6(g) is without prejudice to the ability of the Issuer to redeem any such Preference Share Linked Securities in accordance with General Condition 6(b) (*Termination for Taxation Reasons and Termination for Illegality*) and the reference therein to the Issuer, the CGMHI Guarantor or the CGMFL Guarantor being obligated to pay additional interest shall be construed as a reference to the Issuer, the CGMHI Guarantor or the CGMFL Guarantor being obligated to pay additional interest in the absence of this Preference Share Condition 6(g).

UNDERLYING SCHEDULE 14 – BOND CONDITIONS

This Underlying Schedule shall apply to each Underlying classified in the applicable Issue Terms as a "Bond" ("**Bond Linked Securities**").

For the avoidance of doubt, defined terms used in this Underlying Schedule shall only apply in respect of Securities linked to Bonds.

1. Definitions

"Bond" means each bond classified as such in the applicable Issue Terms.

"Bond Acceleration" means, in respect of a Bond, such Bond has become due and payable before it would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event or default or other similar condition or event (however described), other than a failure to make any required payment, in respect of the relevant Bond Issuer under such Bond.

"Bond Currency" means, in respect of a Bond, the currency of denomination of such Bond as specified in the applicable Issue Terms.

"Bond Condition" means each condition specified in this Underlying Schedule.

"Bond Default" means, in respect of a Bond, such Bond has become capable of being declared due and payable before it would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default, or other similar condition or event (however described), other than a failure to make any required payment, in respect of the relevant Bond Issuer under such Bond.

"Bond Event" means, in respect of a Bond, the occurrence of any one or more of (i) Bond Acceleration, (ii) Bond Default, (iii) Bond Failure to Pay, (iv) Bond Restructuring, (v) Bond Repudiation/Moratorium or (vi) Bond Governmental Intervention during the period from (and including) the Trade Date to (and including) the last occurring Valuation Date, as determined by the Calculation Agent and notified to the Issuer by the Calculation Agent, in each case as specified in the applicable Issue Terms.

If an occurrence would otherwise constitute a Bond Event in respect of a Bond, such occurrence will constitute a Bond Event whether or not such occurrence arises directly or indirectly from, or is subject to a defence based upon:

- (i) any lack or alleged lack of authority or capacity of the Bond Issuer to enter into the relevant Bond;
- (ii) any actual or alleged unenforceability, illegality, impossibility or invalidity with respect to any Bond however described;
- (iii) any applicable law, order, regulation, decree or notice, however described, or the promulgation of, or any change in, the interpretation by any court, tribunal, regulatory authority or similar administrative or judicial body with competent or apparent jurisdiction of any applicable law, order, regulation, decree or notice, however described; or
- (iv) the imposition of, or any change in, any exchange controls, capital restrictions or any other similar restrictions imposed by any monetary or other authority, however described.

"Bond Failure to Pay" means, in respect of a Bond, after the expiration of any applicable grace period (after the satisfaction of any conditions precedent to the commencement of such grace period), the failure by the Bond Issuer to make, when and where due, any payments under such Bond in accordance with the terms of such Bond at the time of such failure.

"Bond Governmental Intervention" means that, in respect of a Bond, any one or more of the following events occurs as a result of action taken or an announcement made by a Governmental Authority pursuant to, or by means of, a restructuring and resolution law or regulation (or any other similar law or regulation), in each case, applicable to the Bond Issuer in a form which is binding, irrespective of whether such event is expressly provided for under the terms of such Bond:

- (i) any event which would affect creditors' rights so as to cause:
 - (a) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including by way of redenomination);
 - (b) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);
 - (c) a postponement or other deferral of a date or dates for either (I) the payment or accrual of interest, or (II) the payment of principal or premium; or
 - (d) a change in the ranking in priority of payment of a Bond, causing the Subordination of such Bond to any other Bond or to any other obligation of the Bond Issuer having the same ranking as the relevant Bond immediately prior to the Bond Governmental Intervention;
- (ii) an expropriation, transfer or other event which mandatorily changes the beneficial holder of the Obligation;
- (iii) a mandatory cancellation, conversion or exchange; or
- (iv) any event which has an analogous effect to any of the events specified in paragraphs (i) to (iii) hereof.

For purposes of this definition of Governmental Intervention, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Qualifying Guarantee.

"Bond Issuer" means, in respect of a Bond, the issuer of such Bond, as specified in the applicable Issue Terms.

"Bond Repudiation/Moratorium" means, in respect of a Bond, the occurrence of both of the following events:

- (i) an authorised officer of the Bond Issuer or a Governmental Authority:
 - (a) disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Bond; or
 - (b) declares or imposes a moratorium, standstill, roll-over or deferral, whether de facto or de jure, with respect to such Bond; and
- (ii) a Bond Failure to Pay or a Bond Restructuring with respect to such Bond occurs.

"Bond Restructuring" means that, in respect of an issue of Bonds, any one or more of the following events occurs in a form that binds all holders of such Bonds, is agreed between the Bond Issuer or a Governmental Authority and a sufficient number of holders of the Bonds to bind all the holders of such Bonds or is announced (or otherwise decreed) by the Bond Issuer or a Governmental Authority in a form that binds all holders of such Bonds (including, in each case, by way of an exchange), and such event is not expressly provided for under the terms of such Bonds in effect as of the Issue Date:

- (i) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including, in each case, by way of an exchange);

UNDERLYING SCHEDULE 14 – BOND CONDITIONS

- (ii) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);
- (iii) a postponement or other deferral of a date or dates for either (A) the payment or accrual of interest or (B) the payment of principal or premium;
- (iv) a change in the ranking in priority of payment of any Bond, causing the Subordination of such Bond to any other Bond or to any other obligation of the Bond Issuer having the same ranking as the relevant Bond immediately prior to the Bond Restructuring; or
- (v) any change in the currency or composition of any payment of interest, principal or premium to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro in whole).

Notwithstanding the above provisions, none of the following shall constitute a Bond Restructuring:

- (a) the payment in euros of interest, principal or premium in relation to a Bond denominated in a currency of a member state of the European Union that adopts or has adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union;
- (b) the redenomination from euros into another currency, if (A) the redenomination occurs as a result of action taken by a Governmental Authority of a member state of the European Union which is of general application in the jurisdiction of such Governmental Authority and (B) a freely available market rate of conversion between euros and such other currency existed at the time of such redenomination and there is no reduction in the rate of amount of interest, principal or premium payable, as determined by reference to such freely available market rate of conversion;
- (c) the occurrence of, agreement to or announcement of any of the events described in (i) to (v) above due to an administrative adjustment, accounting adjustment or tax adjustment or other technical adjustment occurring in the ordinary course of business; and
- (d) the occurrence of, agreement to or announcement of any of the events described in (i) to (v) above in circumstances where such event does not directly or indirectly result from a deterioration in the creditworthiness or financial condition of the Bond Issuer provided that in respect of (v) above only, no such deterioration in the creditworthiness or financial condition of the Bond Issuer is required where the redenomination is from euros into another currency and occurs as a result of action taken by Governmental Authority of a member state of the European Union which is of general application in the jurisdiction of such Governmental Authority.

If an exchange has occurred, the determination as to whether one of the events described under (i) to (v) above has occurred will be based on a comparison of the terms of the Bond immediately prior to such exchange and the terms of the resulting obligations immediately following such exchange.

"Governmental Authority" means:

- (i) any *de facto or de jure* government (or any agency, instrumentality, ministry or department thereof);
- (ii) any court, tribunal, administrative or other governmental, inter-governmental or supranational body;
- (iii) any authority or any other entity (private or public) either designated as a resolution authority or charged with the regulation or supervision of the financial markets (including a central bank) of the Bond Issuer or some or of all of its obligations; or

- (iv) any other authority which is analogous to any of the entities specified in subparagraphs (i) to (iii) hereof.

"Relevant Price" means, in respect of a Bond and unless otherwise specified in the applicable Issue Terms, the "clean price" of such Bond (being the price of the relevant Bond excluding accrued interest payments) at the relevant time on the relevant Scheduled Trading Day, expressed as a percentage of the par value of such Bond.

"Scheduled Trading Day" means, in respect of a Bond, day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in the Bond Business Centre(s) specified for such Bond in the applicable Issue Terms.

"Subordination" means, with respect to an obligation (the **"Second Obligation"**) and another obligation of the Bond Issuer to which such obligation is being compared (the **"First Obligation"**), a contractual, trust or other similar arrangement providing that (i) upon the liquidation, dissolution, reorganisation or winding up of the Bond Issuer, claims of the holders of the First Obligation will be satisfied prior to the claims of the holders of the Second Obligation, or (ii) the holders of the Second Obligation will not be entitled to receive or retain principal payments in respect of their claims against the Bond Issuer at any time that the Bond Issuer is in payment arrears or is otherwise in default under the First Obligation. Subordinated will be construed accordingly. For purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account and (y) in the case of the Bonds, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred and shall not reflect any change to such ranking in priority of payment after such date.

5. Additional Early Termination Events

The following Additional Early Termination Events shall apply in respect of a Bond:

UNDERLYING SCHEDULE 14 – BOND CONDITIONS

- (ii) the occurrence of existence of any Bond Event specified in the applicable Issue Terms.

6. Additional Provisions

- (a) *Correction of published or announced prices or levels*

Unless Correction Provisions are specified as applicable in respect of a Bond in the applicable Issue Terms, the provisions of Valuation and Settlement Condition 2(k) (*Correction of published or announced prices or levels*)) do not apply in respect of a Bond.

If the Correction Provisions are specified as applicable, "**Correction Period**" means, in respect of a Bond, two Business Days.

- (b) *Modification, cancellation or disruption of a Bond and Bond Substitution*

If, in respect of a Bond, (A) on or prior to any Valuation Date, the Bond Issuer announces that it will make a material change in the terms of such Bond or in any other way materially modifies such Bond, including any material change in the content, composition or constitution of such Bond (a "**Bond Modification**"); or (B) on or prior to any Valuation Date, the Bond Issuer at any time permanently cancels or discontinues such Bond or there is otherwise a permanent discontinuation in trading or trading never commences in such Bond and, in each such case, no Successor Bond exists (a "**Bond Cancellation**"); or (C) on any Valuation Date, the Relevant Price is permanently no longer displayed or published on the relevant Electronic Page for the relevant Valuation Time (a "**Bond Disruption**", and together with a Bond Modification and a Bond Cancellation, a "**Bond Adjustment Event**"), then the Calculation Agent shall determine if such Bond Adjustment Event has a material effect on the Securities and, if so, shall either:

- (A) make such adjustments to the Conditions as the Calculation Agent determines necessary or appropriate to account for the effect of such Bond Adjustment Event and determine the effective date of each such adjustment; and/or
- (B) substitute such Bond as provided in Bond Condition 6(b)(ii) (*Bond Substitution*) and make such adjustments (if any) to the Conditions to as it deems necessary or appropriate in relation to such substitution.

If no calculation, adjustment and/or substitution can reasonably be made pursuant to the above, the provisions of Bond Condition 5 (*Additional Early Termination Events*) shall apply.

- (ii) Bond Substitution

Where "Move In Block" is specified in the applicable Issue Terms in relation to adjustments to Disrupted Days, then the adjustment provisions above prevail and reference to "for all of the Underlyings" in Valuation and Settlement Condition 2(d)(ii) shall be construed not to include any Underlying that is a Bond.

SCHEDULE A – CREDIT LINKED CONDITIONS

This Schedule shall apply to Notes which are specified to be Credit Linked Notes in the applicable Issue Terms.

PART I: INTRODUCTION TO THE CREDIT LINKED CONDITIONS (2014 REFERENCE ENTITY)

FREQUENTLY ASKED QUESTIONS

For the avoidance of doubt, this introduction to the Credit Linked Conditions (2014 Reference Entity) Frequently Asked Questions (including the worked examples set out in the Annex (Worked Examples in respect of Credit Linked Notes (2014 Reference Entity))) to this Part I) shall not form part of the Credit Linked Conditions.

The questions and answers set out below and the worked examples set out in the Annex (*Worked Examples in respect of Credit Linked Notes (2014 Reference Entity)*) to this Part I highlight selected information and provide practical examples to help prospective investors understand the Credit Linked Notes. However, any decision to invest in the Credit Linked Notes should only be made after careful consideration of the Base Prospectus and the relevant General Conditions in their entirety, particularly the terms and conditions of the Credit Linked Notes set out in the Credit Linked Conditions (2014 Reference Entity), as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable. This section should be treated as an introduction to certain terms of the Credit Linked Notes. It is not intended to be a substitute for, nor a summary of, the Credit Linked Conditions.

Unless otherwise defined in the Base Prospectus, capitalised terms in relation to the following questions and answers shall have the meanings given to them in the Credit Linked Conditions (2014 Reference Entity).

INTRODUCTION TO CREDIT LINKED NOTES

What are Credit Linked Notes?

Credit Linked Notes are debt securities, the value of which is linked to the credit risk of one or more Reference Entities. The amount of interest, if applicable, and principal which investors will receive on the Credit Linked Notes is dependent on whether certain Credit Events or Risk Events, as applicable, occur in respect of any relevant Reference Entity to which the Credit Linked Notes are linked.

In purchasing the Credit Linked Notes, investors are assuming credit risk exposure to each Reference Entity (and possible successors thereof). A Credit Linked Note is broadly intended to give the investor access to a credit default swap referencing certain Reference Entity(ies) in funded format. Therefore, many of the features and risks applicable to a market standard credit default swap referencing the relevant Reference Entity(ies) will be equally applicable to the Credit Linked Notes.

By investing in the Credit Linked Notes, the investor will be a seller of credit protection (and hence a buyer of credit risk), while the Issuer will be a buyer of credit protection (and therefore a seller of credit risk).

What is credit risk?

Credit risk with respect to a Reference Entity is the risk that the Reference Entity fails to perform its obligations under certain borrowed money, bond or loan (as applicable) obligations, a specified reference obligation of the Reference Entity or the risk that the Reference Entity enters into bankruptcy or insolvency proceedings. Borrowed money obligations include any incurred loan obligations of the Reference Entity, obligations under any debt securities issued by the Reference Entity and certain qualifying guarantees of the Reference Entity related to such borrowed money obligations. In addition, failure to perform with respect to certain specified reference obligations will also be captured.

The failure of the Reference Entity to perform its obligations is generally (but not exclusively) as a result of a deterioration of its financial condition.

The financial condition and creditworthiness of a Reference Entity may change over time. Public information which is available in relation to a Reference Entity may be incomplete, misleading or out of date. The identity of each Reference Entity is subject to change as a result of successions where there are debt transfers or where another entity issues bonds or incurs a loan obligation in exchange for bonds or loans of the Reference Entity. The risks associated with a successor Reference Entity may be greater than the risks associated with the original Reference Entity.

If the Credit Linked Notes are linked to multiple Reference Entities, the probability that a Credit Event will occur may be increased. The credit risk to investors may further be increased if the Reference Entities are concentrated in a particular industry sector or geographic area, or if they have exposure to similar financial or other risks.

What is the difference between the Credit Linked Notes and an ordinary debt security?

Credit Linked Notes are similar to an ordinary debt security in that they provide the investor with a regular stream of interest payments, if applicable, and the return of par or a premium (in the case of Credit Linked Notes that are Zero Coupon Notes) on maturity in the ordinary course. However, Credit Linked Notes have the added feature not present in ordinary debt securities of an exposure to the credit of one or more Reference Entities. If a Credit Event or a Risk Event, as applicable, occurs in relation to the relevant Reference Entity, an investor may lose all or part of its investment in the Credit Linked Notes.

What is the difference between Credit Linked Notes and a bond issued by the Reference Entity?

Credit Linked Notes give an investor exposure to the credit risk of the Reference Entity without having to own a bond, loan or other type of borrowed money obligation of such Reference Entity. The Reference Entity itself is not a party to and has no direct involvement in the Credit Linked Notes and an investor will not be able to claim against the Reference Entity or Issuer for any losses it suffers from a Credit Event or Risk Event, as applicable, in respect of the relevant Reference Entity. The investor will also not have any interest in, or rights under, any obligation of such Reference Entity. An investment in Credit Linked Notes is not equivalent to an investment in the obligations of a Reference Entity.

The Issuer is not obliged to hold any obligation of the Reference Entity or otherwise have credit risk exposure to the Reference Entity. In addition to the credit risk of the relevant Reference Entity to which the Credit Linked Notes are linked, an investor will also be exposed to the credit risk of the Issuer and/or Guarantor, as applicable. Therefore, even if the Reference Entity is performing well, an investor may still suffer a loss if the Issuer's and/or the Guarantor's, as applicable, creditworthiness declines.

How do changes in share prices of any Reference Entity affect the value of the Credit Linked Notes?

Taking credit risk on the Reference Entity by purchasing Credit Linked Notes is different from taking equity risk by investing in shares of the Reference Entity. There are a number of reasons for this. For example:

- (a) the Credit Linked Notes reference borrowed money obligations of the Reference Entity or specified guarantees of the Reference Entity in respect of borrowed money obligations, and a Reference Entity must generally pay amounts due to the creditors on these debt obligations before paying dividends or capital to shareholders;
- (b) the obligations of the Reference Entity referenced by the Credit Linked Notes consist of borrowed money obligations or specified guarantees of the Reference Entity in respect of borrowed money obligations; holders of this type of debt will generally rank ahead of holders of ordinary shares in the insolvency of a Reference Entity, and so may have (but are not guaranteed) a higher rate of recovery of moneys due to them;
- (c) the Credit Linked Notes reference these borrowed money obligations and accordingly, the market value of the Credit Linked Notes is related to (although not necessarily equal to) the value of these borrowed money obligations; and
- (d) there is no direct link between share prices and the value of the Credit Linked Notes.

However, in some circumstances, change in the share price of the Reference Entity may result in or from, at a general level, a change in the market value of its debt and vice versa.

KEY REGULATORY CONCEPTS RELEVANT TO CREDIT LINKED NOTES

What is a Credit Event?

A Credit Event is, broadly speaking, an event which may be, but is not necessarily, regarded as being indicative of a default or material decline in the creditworthiness of the Reference Entity, which also includes bankruptcy in the case of a corporate Reference Entity.

Credit Events are determined by reference to, in the context of a bankruptcy, the relevant Reference Entity itself and, in other cases, certain eligible types of obligations of such Reference Entity (including certain qualifying guarantees of the Reference Entity in relation to such obligations) which, in relation to the Credit Linked Notes, include loans, debt securities or other borrowed money obligations of the Reference Entity or specified reference obligations ("**Obligations**").

The Credit Events relevant to the Credit Linked Notes are any of the following events with respect to the Reference Entity, which will apply to a Credit Linked Note if specified or elected by reference to a specified transaction type in the applicable Issue Terms:

- (a) "**Failure to Pay**": a failure by the Reference Entity to pay amounts when due under its Obligations (after the expiry of any applicable grace period), where the failure to pay relates to an amount greater than a pre-determined minimum amount and where the "2019 NTCE Supplement to the 2014 ISDA Credit Derivatives Definitions (July 15, 2019)" and "Credit Deterioration Requirement" are applicable, the failure to pay results from a deterioration in the creditworthiness of the Reference Entity;
- (b) "**Bankruptcy**": a bankruptcy or insolvency procedure in respect of the Reference Entity;
- (c) "**Restructuring**": a restructuring of an Obligation of the Reference Entity which amends key terms of that Obligation as to reduction in repayment of principal or payment of interest thereunder, postponement in the payment of principal or interest, the changes in the ranking of the instrument causing subordination or resulting in redenomination into certain hard currencies in a form that binds all holders of the obligation and such event is not expressly provided for in the terms of the instrument where the event results from, directly or indirectly, a deterioration in the creditworthiness or financial condition of the Reference Entity;
- (d) "**Obligation Acceleration**": the acceleration of an Obligation of the Reference Entity before it would otherwise be due and payable in respect of a pre-determined minimum amount;
- (e) "**Obligation Default**": an Obligation of the Reference Entity in respect of a pre-determined minimum amount becomes capable of being declared due and payable before it would otherwise be due and payable;
- (f) "**Repudiation/Moratorium**": the Reference Entity repudiates an Obligation in respect of a pre-determined minimum amount or imposes a moratorium in respect of an Obligation in respect of such minimum amount and a failure to pay or a restructuring under such obligation subsequently occurs within a specified time period, without regard to any pre-determined amount; or

- (g) **"Governmental Intervention"**: an event which would result in the reduction or postponement of payment of principal or interest or change in ranking of priority in the instrument causing subordination, an expropriation of or the mandatory cancellation of an Obligation as the result of an action taken or announcement made by a Governmental Authority in a form which is binding regardless of whether such event is expressly provided for under the terms of the instrument. This event is applicable only where each of "Financial Reference Entity" terms and "2014 Reference Entity" are stated to be applicable in the Issue Terms.

What Credit Events apply to the Credit Linked Notes?

In respect of each issue of Credit Linked Notes, the types of Credit Events which may apply in relation to the specified Reference Entity will vary depending on the identity of each Reference Entity and will be determined by reference to market standards that will be specified in the applicable Issue Terms. Typically, certain terms of the Credit Linked Notes, for example the maturity and the price of credit protection purchased will be subject to negotiation between the parties. However, many key terms of the Credit Linked Notes – for example, the applicable Credit Events – are typically determined by reference to a physical settlement matrix of market standard terms published by ISDA (the version of such matrix which is effective as at the Trade Date or Effective Date, as applicable, is referred to as the **"Physical Settlement Matrix"**). The Physical Settlement Matrix recognises a variety of standard terms based on the nature of the relevant Reference Entity (corporate, sovereign, etc.) and its location (EMEA (Europe, Middle East and Africa), Asia-Ex Japan, Japan, Latin America, North America etc.). As at the date of this Base Prospectus, the Physical Settlement Matrix is available free of charge on ISDA's website at <https://www.isda.org>.

The Issue Terms will specify a "Transaction Type" with respect to the relevant Reference Entity. Certain terms of the Credit Linked Notes, including Credit Events, will be determined by reference to the Physical Settlement Matrix for such "Transaction Type". Such terms may vary between particular series of Credit Linked Notes depending on the relevant "Transaction Type" which applies. Further, the Physical Settlement Matrix is updated regularly by ISDA and accordingly, different Series of Credit Linked Notes may refer to different versions of the Physical Settlement Matrix.

What is a Risk Event and does it apply to all Credit Linked Notes?

A Risk Event may be a Credit Event or an Additional Risk Event. While Credit Events cover the risks arising from the creditworthiness of the Reference Entity (see further *"What is a Credit Event?"* above), Additional Risk Events are indicative of defaults or risks specific to certain local access jurisdictions and will apply to Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes to the extent that such events apply in the applicable Issue Terms. Additional Risk Events include, amongst other things, events that make it impossible, illegal or impracticable for, or prohibit, restrict or materially delay the ability of, any entity holding a loan or obligation to convert or repatriate currency or purchase, hold, receive, sell, freely transfer or remain the owner of any such loan or obligation or affect the performance of custodial and settlement activities, the occurrence of certain restructuring events in respect of Reference Assets, reductions in the fair market value of the Credit Linked Notes and/or (in the case of Local Access Basket Credit Linked Notes only) reductions in the liquidation value of the relevant basket of Reference Assets.

The concept of a Risk Event is therefore specific to Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes. The types of Risk Events which may apply in relation to the specified Reference Entity will vary depending on the identity of each Reference Entity and the jurisdiction of such Reference Entity.

When does a Credit Event need to occur to affect the payout on the Credit Linked Notes?

A Credit Event may occur at any time during the period from, and including, the "Credit Event Backstop Date" to, and including, the Scheduled Maturity Date or such other date as is specified in the applicable Issue Terms (subject to extension in certain circumstances).

The Credit Event Backstop Date is typically intended to be a rolling date which is:

- (a) if a relevant Credit Derivatives Determinations Committee (see further *"What is the Credit Derivatives Determinations Committee and how does it affect the Credit Linked Notes (other*

than Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes)?" below) receives a request to resolve whether or not a Credit Event has occurred in relation to a Reference Entity (such date of request, the "**Credit Event Resolution Request Date**"), 60 calendar days prior to the date of such request; or

- (b) if the Calculation Agent determines that a Credit Event has occurred in relation to any Reference Entity or an Obligation thereof and delivers an effective Credit Event Notice, and supporting information (if applicable), to the Issuer for delivery to the Fiscal Agent and the Securityholders to that effect, when the Credit Derivatives Determinations Committee is not going to consider the same, 60 calendar days prior to the earlier of (i) the effective delivery date of such Credit Event Notice (where it occurs during the notice delivery period) and (ii) the Credit Event Resolution Request Date (where the effective delivery date of such Credit Event Notice occurs during the post dismissal additional period), subject to extension in certain circumstances.

Instead of a rolling date, the Issue Date or Trade Date may be specified to be the Credit Event Backstop Date in the applicable Issue Terms.

When does a Risk Event need to occur to affect the payout on the Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes?

A Risk Event may occur at any time during the "**Risk Event Determination Period**", being a period commencing on the Issue Date or the Trade Date (as specified in the Issue Terms) and expiring on the Scheduled Maturity Date (subject to extension in certain circumstances).

What are the event and payment timings which are relevant?

- (a) **Event Timing:** In order to determine the day on which an event occurs for the purposes of the Credit Linked Notes, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (b) **Payment Timing:** If a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

Can a Credit Event occur prior to the Issue Date or the Trade Date?

Yes. A Credit Event may occur prior to the Issue Date of the Credit Linked Notes and may even occur prior to the Trade Date specified in the applicable Issue Terms.

Securityholders should conduct their own review of any recent developments with respect to the Reference Entity by consulting publicly available information. If a request has been delivered to the DC Secretary prior to the Trade Date to determine whether a Credit Event has occurred with respect to the Reference Entity, details of such request may be found on the DC Secretary's website at <https://www.cdsdeterminationscommittees.org/> (or any successor website thereto).

When can a Credit Event or a Risk Event be triggered?

A Credit Event may be bilaterally triggered with respect to the Reference Entity during the "**Notice Delivery Period**", being a period commencing on the Trade Date (as specified in the Issue Terms) and expiring 14 calendar days after the Extension Date. The Extension Date means the later of (a) the Scheduled Maturity Date or (b) if a potential Credit Event, such as a Failure to Pay or Repudiation/Moratorium, has occurred on or prior to the Scheduled Maturity Date of the Credit Linked Notes, which may become an actual Credit Event within a specified period following the Scheduled Maturity Date, the Grace Period Extension Date or the Repudiation/Moratorium Evaluation Date. Similarly, a Risk Event may be triggered with respect to the Reference Entity during the Risk Event Determination Period and such period may be pushed out in certain circumstances (see "*When does a Risk Event need to occur to affect the payout on the Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes?*" above). Accordingly, notwithstanding the occurrence of a

Scheduled Maturity Date, a Credit Event or Risk Event, as applicable, could be triggered after the Scheduled Maturity Date.

What is an Event Determination Date or Risk Event Determination Date?

In order for Credit Linked Notes to be redeemed following a Credit Event or a Risk Event, as applicable, it is necessary for a relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, to have occurred. Depending on the circumstances, this may be the date on which a notice describing the occurrence of the Credit Event or Risk Event, as applicable, has been effectively delivered (together with, if applicable, a notice containing publicly available information confirming the occurrence of the Credit Event or Risk Event, as applicable), or, for Credit Linked Notes other than Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, the date on which, amongst other things, it is publicly announced that a DC Credit Event Question was effective and the Credit Derivatives Determinations Committee was in possession of publicly available information with respect to such question, PROVIDED THAT certain conditions are satisfied.

Accordingly, notwithstanding the occurrence of a Scheduled Maturity Date, an Event Determination Date could occur as a result of issues submitted to the Credit Derivatives Determinations Committee after the Scheduled Maturity Date where the date on which a DC Credit Event Question was effective and on which a Credit Derivatives Determinations Committee was in possession of Publicly Available Information with respect to such question falls on or prior to the 14th day following the Scheduled Maturity Date or any Extension Date, as applicable.

Can an Event Determination Date only occur if a Credit Derivatives Determinations Committee determines that one has occurred?

No. The Calculation Agent and the Issuer may also deliver a Credit Event Notice to the Securityholder in relation to a Credit Event triggering an Event Determination Date (see "*When can a Credit Event or a Risk Event be triggered?*" above).

An Event Determination Date may be bilaterally triggered following the occurrence of a Credit Event that is an M(M)R Restructuring. In other cases, although the Calculation Agent and the Issuer may trigger an Event Determination Date following the occurrence of a Credit Event it will only be able to do so if (a) a Credit Derivatives Determinations Committee has not made a DC Credit Event Announcement or a DC No Credit Event Announcement; (b) it has some information to support its determination that a Credit Event has occurred and (c) (in circumstances where a Notice of Publicly Available Information is required to be provided) it cites Publicly Available Information confirming the occurrence of the Credit Event described in the Credit Event Notice.

What is the Credit Derivatives Determinations Committee and how does it affect the Credit Linked Notes (other than Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes)?

The Credit Derivatives Determinations Committee was convened pursuant to rules established by ISDA in March 2009 to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. Securityholders will have no role in the composition of the Credit Derivatives Determinations Committee by virtue of the fact that they are investors in the Credit Linked Notes.

Prospective Securityholders should note that a Credit Derivatives Determinations Committee has the power to make binding decisions which the Calculation Agent may determine are applicable for the purposes of the Credit Linked Notes on critical issues, including:

- (a) the occurrence of a Credit Event and the standard Event Determination Date;
- (b) whether one or more Auctions will be held in respect of the Reference Entity for which a Credit Event has occurred;
- (c) if one or more Auctions are to be held, what Deliverable Obligations of the Reference Entity will be used for the purposes of determining the price for each such Auction and the relevant auction buckets which cover the various scheduled termination dates of transactions;

SCHEDULE A – CREDIT LINKED CONDITIONS – PART I

- (d) the suitable methodology to be applied when determining the asset market value of any non-financial instruments or instruments not capable of transfer or when asset package delivery will be cash settled;
- (e) the auction settlement terms;
- (f) the occurrence of a succession or succession event and the identity of any "Successors" (for details, see "*Successors*" below); and
- (g) suitable substitute Reference Obligations where a substitution event has occurred.

Consequently, Securityholders will be bound by any such relevant decisions determined to be applicable to the Credit Linked Notes and the payments on the Credit Linked Notes and the timing of any such payments may be affected by such decisions or determinations. Questions referred to the Credit Derivatives Determinations Committee and the results of binding votes will be published on <https://www.cdsdeterminationscommittees.org/> (or any successor website thereto).

The Credit Derivatives Determinations Committees are regional and there is a Credit Derivatives Determinations Committee for each of the following five regions: the Americas, Asia (excluding Japan), Australia and New Zealand, Europe, the Middle East and Africa (EMEA) and Japan. The proceedings of each Credit Derivatives Determinations Committee will be governed by rules published from time to time by the relevant CDS Information Publisher.

Each Credit Derivatives Determinations Committee is formed of ten voting dealer members, five voting buy-side (non-dealer) members and three non-voting members (two dealers and one buy-side). A Credit Derivatives Determinations Committee may also include as non-voting members one or more credit derivatives central clearing counterparties as observer members. Dealer institutions are selected for membership in accordance with the DC Rules published by the relevant CDS Information Publisher and certain trading volume data guidelines.

With effect from 12 October 2018, DC Administration Services, Inc., a Delaware-incorporated subsidiary of ISDA was appointed by ISDA to act as the DC Secretary. The DC Secretary is responsible for various administrative tasks, including distributing questions submitted by eligible market participants to the relevant DC Members and convening DC meetings. The DC Secretary does not vote on whether Credit Events have occurred.

SUMMARY OF DIFFERENT CREDIT PRODUCTS UNDER THE PROGRAMME

What are the different types of Credit Linked Notes that may be issued under the Programme?

If Credit Linked Notes are issued by way of Final Terms, the Credit Linked Notes may be Single Name Credit Linked Notes, Nth-to-Default Basket Credit Linked Notes, Linear Basket Credit Linked Notes, Index Untranchured Credit Linked Notes, Index Tranchured Credit Linked Notes, Portfolio Tranchured Credit Linked Notes, Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes.

(A) *What are Single Name Credit Linked Notes?*

Single Name Credit Linked Notes represent an investment linked to the performance of only one Reference Entity specified in the applicable Issue Terms.

Depending on the type of credit linkage specified in the applicable Issue Terms, Single Name Credit Linked Notes will be either Credit Linked Principal Notes (i.e. the occurrence of a Credit Event will impact the payment of principal and any interest under such Securities) or Credit Linked Interest Notes (i.e. the payment of Contingent Interest under such Securities will be contingent upon a Credit Event not occurring in respect of the Reference Entity and accordingly, the occurrence of a Credit Event will impact the accrual of Contingent Interest whereas the payment of any Non-Contingent Interest and principal will remain unaffected).

For Credit Linked Principal Notes, unless redeemed early in full, if a Credit Event and a relevant Event Determination Date occurs, then each Single Name Credit Linked Note will be redeemed in full (or, where an M(M)R Restructuring occurs or multiple successors are identified, in part)

by payment of the relevant Credit Event Redemption Amount or, where Physical Redemption applies, by delivery of the Physical Redemption Assets and/or any applicable cash amounts on the relevant Credit Event Redemption Date.

For Credit Linked Interest Notes, unless otherwise redeemed early in full, the occurrence of a Credit Event and a relevant Event Determination Date will not result in any early redemption of the Single Name Credit Linked Notes and each outstanding Single Name Credit Linked Note will instead be scheduled to redeem at maturity (see "*When will the Credit Linked Notes be redeemed if no Credit Event or Risk Event occurs?*" below). The Contingent Interest payable under such Securities will cease to accrue (in full or in part), for which see "*Interest Specific Provisions*" below.

Multiple Credit Events and related Event Determination Dates may occur in respect of Single Name Credit Linked Notes in accordance with the relevant M(M)R Restructuring and Successor provisions.

(B) *What are Nth-to-Default Basket Credit Linked Notes?*

Nth-to-Default Basket Credit Linked Notes represent an investment linked to the performance of a basket with two or more Reference Entities, although such Nth-to-Default Basket Credit Linked Notes are exposed to the credit risk of only the "nth" Reference Entity specified in the applicable Issue Terms. For example, if "n" is five, then redemption will only arise after a Credit Event has occurred with respect to five of the Reference Entities in the basket, and then only with respect to that fifth Reference Entity. As such, if one or more Credit Events occur in respect of Reference Entities other than the nth Reference Entity, redemption of the Nth-to-Default Basket Credit Linked Notes will not be triggered.

Unless redeemed early in full, if a Credit Event and a relevant Event Determination Date occurs in respect of the nth Reference Entity, then each Nth-to-Default Basket Credit Linked Note will be redeemed in full (or, where an M(M)R Restructuring occurs or multiple successors are identified, in part) by payment of the relevant Credit Event Redemption Amount or, where Physical Redemption applies, by delivery of the Physical Redemption Assets and/or any applicable cash amounts on the relevant Credit Event Redemption Date.

Multiple Credit Events and related Event Determination Dates may occur in respect of the nth Reference Entity in accordance with the relevant M(M)R Restructuring and Successor provisions.

(C) *What are Linear Basket Credit Linked Notes?*

Linear Basket Credit Linked Notes represent an investment linked to the performance of a basket of Reference Entities specified in the applicable Issue Terms and are exposed to the credit risk of each Reference Entity in the basket in proportion to the weighting specified for such Reference Entity in the applicable Issue Terms.

Unless redeemed early in full, if a Credit Event and relevant Event Determination Date occurs in respect of any one of the Reference Entities in the basket, then each Linear Basket Credit Linked Note will be redeemed in part, in proportion to the weighting of the affected Reference Entity, by payment of the relevant Credit Event Redemption Amount or, where Physical Redemption applies, by delivery of the Physical Redemption Assets and/or any applicable cash amounts on the relevant Credit Event Redemption Date. Redemption will be effected in accordance with the relevant M(M)R Restructuring and Successor provisions, where applicable.

Multiple Credit Events, and therefore multiple Event Determination Dates, may occur with respect to more than one Reference Entity. Further, multiple Credit Events and related Event Determination Dates may occur in respect of a single Reference Entity in accordance with the relevant M(M)R Restructuring and Successor provisions.

(D) *What are Index Untranching Credit Linked Notes?*

Index Untranching Credit Linked Notes represent an investment linked to the performance of component Reference Entities of an Index specified in the applicable Issue Terms. Such Index

may be either an iTraxx® Index or a CDX® Index. The Index Untranchured Credit Linked Notes are exposed to the credit risk of each Reference Entity in the relevant Index in proportion to the weighting specified for such Reference Entity in the applicable Issue Terms.

Unless redeemed early in full, if a Credit Event and relevant Event Determination Date occurs in respect of any one of the Reference Entities in the Index, then each Index Untranchured Credit Linked Note will be redeemed in part, in proportion to the weighting of the affected Reference Entity, by payment of the relevant Credit Event Redemption Amount on the relevant Credit Event Redemption Date and, where applicable, in accordance with the relevant M(M)R Restructuring and Successor provisions.

Multiple Credit Events, and therefore multiple Event Determination Dates, may occur with respect to more than one Reference Entity. Further, multiple Credit Events and related Event Determination Dates may occur in respect of a single Reference Entity in accordance with the relevant M(M)R Restructuring and Successor provisions.

(E) *What are Index Tranchured Credit Linked Notes?*

Index Tranchured Credit Linked Notes represent an investment linked to the performance of component Reference Entities of an Index specified in the applicable Issue Terms, although such Index Tranchured Credit Linked Notes are only exposed to the incurred losses and redemptions are effected with respect to incurred recoveries (if any) in respect of a specified tranche of that Index. Such Index may be either an iTraxx® Index or a CDX® Index. Index Tranchured Credit Linked Notes are accordingly exposed to the credit risk of each Reference Entity in the relevant Index in proportion to the weighting specified for such Reference Entity in the applicable Issue Terms, to the extent that losses suffered by the affected Reference Entities fall within such prescribed tranche.

Depending on the type of credit linkage specified in the applicable Issue Terms, Index Tranchured Credit Linked Notes will be either Credit Linked Principal Notes (i.e. the occurrence of a Credit Event will impact the payment of principal and any interest under such Securities) or Credit Linked Interest Notes (i.e. the payment of Contingent Interest under such Securities will be contingent upon a Credit Event not occurring in respect of a Relevant Reference Entity and accordingly, the occurrence of a Credit Event will impact the accrual of Contingent Interest whereas the payment of any Non-Contingent Interest and principal will remain unaffected).

For Credit Linked Principal Notes, unless redeemed early in full, if a Credit Event and relevant Event Determination Date occurs in respect of any one of the Reference Entities in the Index, then each Index Tranchured Credit Linked Note will be written down and/or redeemed, as applicable, to reflect the incurred loss and/or incurred recovery suffered in respect of the affected Reference Entity (to the extent that any such incurred loss and incurred recovery falls within the prescribed tranche) with payment of any incurred recovery (i.e. the Index Tranchured Redemption Amount) being made on the relevant Credit Event Redemption Date and, where applicable, in accordance with the relevant M(M)R Restructuring and Successor provisions.

For Credit Linked Interest Notes, unless redeemed early in full, the occurrence of a Credit Event and the relevant Event Determination Date in respect of any one of the Reference Entities in the Index will not result in any early redemption of the Index Tranchured Credit Linked Notes and each outstanding Index Tranchured Credit Linked Note will instead be scheduled to redeem at maturity (see "*When will the Credit Linked Notes be redeemed if no Credit Event or Risk Event occurs?*" below). The Contingent Interest payable under such Securities will be reduced by a Contingent Interest reduction amount, for which see "*Interest Specific Provisions*" below.

Multiple Credit Events, and therefore multiple Event Determination Dates, may occur with respect to more than one Reference Entity. Further, multiple Credit Events and related Event Determination Dates may occur in respect of a single Reference Entity in accordance with the relevant M(M)R Restructuring and Successor provisions.

(F) What are Portfolio Tranched Credit Linked Notes?

Portfolio Tranched Credit Linked Notes represent an investment linked to the performance of component Reference Entities of a bespoke basket specified in the applicable Issue Terms, although such Portfolio Tranched Credit Linked Notes are only exposed to the incurred losses and redemptions are effected with respect to incurred recoveries (if any) in respect of a specified tranche of that basket. Portfolio Tranched Credit Linked Notes are accordingly exposed to the credit risk of each Reference Entity in the relevant basket in proportion to the weighting specified for such Reference Entity in the applicable Issue Terms, to the extent that losses suffered by the affected Reference Entities fall within such prescribed tranche.

Unless redeemed early in full, if a Credit Event and relevant Event Determination Date occurs in respect of any one of the Reference Entities in the basket, then each Portfolio Tranched Credit Linked Note will be written down and/or redeemed, as applicable, to reflect the incurred loss and/or incurred recovery suffered in respect of the affected Reference Entity (to the extent that any such incurred loss and incurred recovery falls within the prescribed tranche) with payment of any incurred recovery (i.e. the Portfolio Tranched Redemption Amount) being made on the relevant Credit Event Redemption Date and, where applicable, in accordance with the relevant M(M)R Restructuring and Successor provisions.

Multiple Credit Events, and therefore multiple Event Determination Dates, may occur with respect to more than one Reference Entity. Further, multiple Credit Events and related Event Determination Dates may occur in respect of a single Reference Entity in accordance with the relevant M(M)R Restructuring and Successor provisions.

(G) What are Local Access Single Name Credit Linked Notes?

Local Access Single Name Credit Linked Notes represent an investment linked to the performance of Reference Investor Assets of only one Reference Entity specified in the applicable Issue Terms, where such Reference Entity is a sovereign of, or a corporate in, a local access jurisdiction and where such Reference Investor Assets are held by a Reference Investor in such local access jurisdiction. Accordingly, in addition to exposure to the credit risk of the Reference Entity, an investment in Local Access Single Name Credit Linked Notes involves additional risks associated with such local access jurisdictions, including potential risks of volatility, governmental intervention and the lack of a developed system of law.

Unless redeemed early in full, if a Risk Event and a relevant Risk Event Determination Date occurs then each Local Access Single Name Credit Linked Note will be redeemed in full (or where multiple successors are identified, in part) by payment of the relevant Credit Event Redemption Amount on the relevant Credit Event Redemption Date.

Multiple Risk Events and related Risk Event Determination Dates may occur in respect of Local Access Single Name Credit Linked Notes in accordance with the relevant Successor provisions.

(H) What are Local Access Basket Credit Linked Notes?

Local Access Basket Credit Linked Notes represent an investment linked to the performance of Reference Investor Assets of two or more Reference Entities specified in the applicable Issue Terms, where such Reference Entities are sovereigns of, or corporates in, a local access jurisdiction and where such Reference Investor Assets are held by a Reference Investor in such local access jurisdiction. Accordingly, Local Access Basket Credit Linked Notes are not only exposed to the credit risk of each Reference Entity in the basket in proportion to the weighting specified for such Reference Entity in the applicable Issue Terms but also to additional risks associated with local access jurisdictions.

Unless redeemed early in full, if a Risk Event and a relevant Risk Event Determination Date occurs in respect of any one of the Reference Entities in the basket (not affecting the other Reference Entities in the basket), then each Local Access Basket Credit Linked Note will be redeemed in full (if "Redemption in Full" applies) or in part (if "Redemption in Part" applies) to reflect the loss suffered in respect of such Affected Reference Entity. Redemption will be effected in accordance with the relevant Successor provisions, where applicable.

Multiple Risk Events, and therefore multiple Risk Event Determination Dates, may occur with respect to more than one Reference Entity. Further, multiple Risk Events and related Risk Event Determination Dates may occur in respect of a single Reference Entity in accordance with the relevant Successor provisions.

PAYOUTS UNDER CREDIT LINKED NOTES – KEY TIMINGS AND AMOUNTS

What are the different timings for payouts that are contemplated under the Credit Linked Conditions?

The amount of interest, if applicable, and principal which an investor receives will depend on whether redemption of the Credit Linked Notes occurs:

- (a) in the usual course, at maturity (see further "*When will the Credit Linked Notes be redeemed if no Credit Event or Risk Event occurs?*" below);
- (b) in instalments (see further "*Where "Redemption by Instalments" applies, when will Credit Linked Notes be redeemed if no Credit Event or Risk Event occurs?*" below);
- (c) pursuant to the occurrence of a Credit Event or a Risk Event, as applicable (see further, "*What is "Credit Payment following Credit Event" or "Credit Payment following Risk Event"?*" below);
- (d) at maturity, despite the occurrence of a Credit Event or a Risk Event, as applicable (see further, "*What is "Credit Payment on Maturity"?*" below); or
- (e) pursuant to the occurrence of an event (other than a Credit Event or a Risk Event) triggering early redemption (see further "*When may the Issuer redeem the Credit Linked Notes early?*" below).

(A) *When will the Credit Linked Notes be redeemed if no Credit Event or Risk Event occurs?*

If no Event Determination Date or Risk Event Determination Date, as applicable, has occurred, and PROVIDED THAT the Credit Linked Notes are not otherwise redeemed early or repurchased and cancelled, each Credit Linked Note will be redeemed in full on the Scheduled Maturity Date (which may in certain circumstances have been extended) (see further "*What will Securityholders receive if the Credit Linked Notes are not redeemed early?*" below).

(B) *Where "Redemption by Instalments" applies, when will Credit Linked Notes be redeemed if no Credit Event or Risk Event occurs?*

If "Redemption by Instalments" applies and no Event Determination Date or Risk Event Determination Date, as applicable, has occurred, and PROVIDED THAT the Credit Linked Notes are not otherwise redeemed early or repurchased and cancelled, each Credit Linked Note will be partially redeemed on each Instalment Date and in full on the Scheduled Maturity Date (which may in certain circumstances have been extended) (see further "*What will Securityholders receive if the Credit Linked Notes are not redeemed early?*" below).

(C) *What is "Credit Payment following Credit Event" or "Credit Payment following Risk Event"?*

"Credit Payment following Credit Event" or "Credit Payment following Risk Event", as applicable, refers to where a Credit Event or a Risk Event, as applicable, occurs with respect to a Reference Entity (or the nth Reference Entity, in case of Nth-to-Default Basket Credit Linked Notes) and an Event Determination Date or Risk Event Determination Date, as applicable, occurs as a result and redemption follows such Credit Event or Risk Event, as applicable (see further "*What will Securityholders receive if "Credit Payment following Credit Event" or "Credit Payment following Risk Event" applies?*" below). For Single Name Credit Linked Notes and Index Tranching Credit Linked Notes, this will apply to Credit Linked Principal Notes only.

(D) *What is "Credit Payment on Maturity"?*

"Credit Payment on Maturity" refers to where a Credit Event or a Risk Event, as applicable, occurs with respect to a Reference Entity (or the nth Reference Entity, in case of Nth-to-Default Basket Credit Linked Notes) and an Event Determination Date or Risk Event Determination

Date, as applicable, occurs as a result, but redemption (and accordingly, payment of the relevant redemption amounts) occurs only at maturity (see further "*What will Securityholders receive if 'Credit Payment on Maturity' applies?*" below). For Single Name Credit Linked Notes and Index Tranching Credit Linked Notes, this will apply to Credit Linked Principal Notes only.

(E) *When may the Issuer redeem the Credit Linked Notes early?*

The Issuer may redeem the Credit Linked Notes early in full, other than where a Credit Event or a Risk Event, as applicable, has occurred, if (i) certain tax events occur with respect to the Credit Linked Notes, (ii) certain events occur which make it unlawful for the Issuer and/or the relevant Guarantor to perform certain obligations or comply with material provisions of agreements entered into in connection with the Credit Linked Notes, (iii) certain events occur which materially restrict the Issuer's and/or relevant Guarantor's ability to perform certain obligations in connection with the Credit Linked Notes or cause the Issuer and/or the relevant Guarantor to be subject to less favourable capital adequacy treatment or suffer increased costs with respect to the Notes, (iv) certain early termination events occur in respect of relevant Underlying(s) or the Notes (see further "*When will an early termination event occur?*" below), (v) certain Events of Default occur, (vi) the Issuer elects to exercise its call option in respect of the Credit Linked Notes (if "Issuer Call" is applicable), (vii) in certain cases and if applicable, following an Administrator/Benchmark Event or certain other benchmark events, (viii) a Realisation Disruption Event occurs, (ix) a RMB Disruption Event occurs, (x) a Merger Event occurs or (xi) if the Reference Obligation (in respect of a Reference Entity to which "Reference Obligation Only" applies) is redeemed in whole prior to its scheduled maturity date (see further "*What will Securityholders receive if the Issuer redeems the Credit Linked Notes early (other than due to a Credit Event or a Risk Event)?*" below).

When will an early termination event occur?

An early termination event may occur where, among other things, (a) certain events have occurred and the Calculation Agent determines that no adjustment or substitution can reasonably be made to the Conditions to account for the effect of such event, (b) the Issuer and/or Guarantors become subject to any withholding or reporting obligations pursuant to Section 871(m) of the Code with respect to the Notes or a hedging disruption early termination event occurs, (c) in respect of certain Notes, certain events relating to Underlying(s) and/or hedging arrangements in respect of the Notes occur, in each case, where applicable in respect of the Notes.

Can Securityholders elect to redeem their Credit Linked Notes early?

The Securityholders do not have a right to require the Issuer to redeem their Notes early.

What are Securityholders expected to receive pursuant to the different payouts contemplated under the Credit Linked Conditions?

The amount of interest, if applicable, and principal which an investor receives will depend on when redemption of the Credit Linked Notes occurs.

(A) *What will Securityholders receive if the Credit Linked Notes are not redeemed early?*

Where the Credit Linked Notes are not otherwise redeemed early or purchased and cancelled, the amount payable in respect of each Credit Linked Note that is redeemed in full on the Scheduled Maturity Date will be an amount equal to par or at a premium (in the case of Credit Linked Notes that are Zero Coupon Notes).

Where "Redemption by Instalments" applies and the Credit Linked Notes are not otherwise redeemed early in full or purchased and cancelled, the amount payable in respect of each Credit Linked Note shall be (i) the related Instalment Redemption Amount on each Instalment Date and (ii) the final Instalment Redemption Amount on the Scheduled Maturity Date, the sum of which shall be an amount equal to par or at a premium (in the case of Credit Linked Notes that are Zero Coupon Notes).

(B) *What will Securityholders receive if "Credit Payment following Credit Event" or "Credit Payment following Risk Event" applies?*

If "Credit Payment following Credit Event" or "Credit Payment following Risk Event", as applicable, apply and an Event Determination Date or Risk Event Determination Date, as applicable, occurs, the Credit Linked Notes will be redeemed at the Credit Event Redemption Amount (see further, *"What is the Credit Event Redemption Amount?"* below), with no further payment of principal or interest, if applicable, on the proportion of the Credit Linked Notes affected by the Credit Event or Risk Event, as applicable (see further *"What interest payments will Securityholders receive after the occurrence of a Credit Event or a Risk Event?"* below). The Credit Event Redemption Amount is likely to be less than the par value of the Credit Linked Notes and may even be zero.

(C) *What will Securityholders receive if "Credit Payment on Maturity" applies?*

If "Credit Payment on Maturity" applies and an Event Determination Date or Risk Event Determination Date, as applicable, occurs, interest will cease to accrue on, or be payable in respect of, such portion of the Credit Linked Notes affected by the Credit Event or Risk Event, as applicable. This will not affect any interest payable on the remaining portion of the Credit Linked Notes unaffected by such Credit Event or Risk Event, as applicable. Further, the Credit Payment on Maturity Amount (which reflects the incurred recoveries to be paid at maturity) will accrue interest based on the funding interest rate specified in the Issue Terms (see further *"What interest payments will Securityholders receive after the occurrence of a Credit Event or a Risk Event?"* below). The Credit Linked Notes will be redeemed only at maturity in an amount equal to the Credit Event Redemption Amount (see further, *"What is the Credit Event Redemption Amount?"* below). The Credit Event Redemption Amount is likely to be less than the par value of the Credit Linked Notes and may even be zero.

(D) *What will Securityholders receive if the Issuer redeems the Credit Linked Notes early (other than due to a Credit Event or a Risk Event)?*

If the Credit Linked Notes are redeemed early in full (other than where a Credit Event, Risk Event, Merger Event or redemption in whole of the Reference Obligation has occurred), the Credit Linked Notes will be redeemed on the Early Termination Date or Optional Redemption Date, as applicable, by payment of an amount equal to the Early Termination Amount or Optional Redemption Amount, as applicable, with no further payment of principal or interest, if applicable, due in respect of such Credit Linked Notes. The Early Termination Amount is an amount determined with respect to the Credit Linked Notes in the Settlement Currency which is typically equal to the fair market value of such notes or the principal amount of such notes (together with any unpaid interest). The Optional Redemption Amount is an amount specified in, or determined in the manner specified in the applicable Issue Terms.

Where applicable, in the case of a Merger Event, the Credit Linked Notes will be redeemed on the Early Termination Date by payment of the Merger Redemption Amount. The Merger Redemption Amount may be equal to either (x) the relevant Early Termination Amount or (y) an amount equal to the outstanding aggregate nominal amount of the relevant Credit Linked Notes less any unwind costs, and will be specified in the applicable Issue Terms, except that where the Notes are redeemed in part, such amounts shall be determined by reference to the proportional principal amount of the Notes being redeemed only.

In the case of redemption in whole of the Reference Obligation (where "Reference Obligation Only" applies), each Credit Linked Note will be redeemed on the Substitution Event Date by payment of the Substitution Event Redemption Amount. The Substitution Event Redemption Amount is an amount determined with respect to the Credit Linked Notes in the Settlement Currency which is typically equal to the fair market value of such notes, less any unwind costs, except that where the Notes are redeemed in part, such amounts shall be determined by reference to the proportional principal amount of the Notes being redeemed only.

REDEMPTION MECHANICS UNDER THE PROGRAMME***What is the Applicable Proportion?***

The Applicable Proportion represents such proportion of the aggregate notional amount of a Credit Linked Note that is affected by a Credit Event or a Risk Event, as applicable, and is used for determining the amounts payable or to be written down and/or redeemed following the occurrence of a Credit Event or a Risk Event, as applicable, as well as for calculating the interest payable on such Credit Linked Notes. The calculation of the Applicable Proportion depends on the nature of the Credit Linked Notes, the type of Credit Event resulting in redemption (including whether the Credit Event is an M(M)R Restructuring or not) and whether the Successor provisions are relevant (see further "*Successors*" below):

(A) *Single Name Credit Linked Notes*

The Applicable Proportion of each Single Name Credit Linked Note will be equal to the product of the Outstanding Nominal Amount of such Credit Linked Note and:

- (i) 100 per cent. (where redemption is not as a result of an M(M)R Restructuring or pursuant to multiple successors being identified);
- (ii) an amount (expressed as a percentage) equal to the Exercise Amount specified in the relevant Credit Event Notice relating to the relevant Reference Entity and Credit Event, divided by the Outstanding Aggregate Nominal Amount of such Credit Linked Notes (where redemption is as a result of an M(M)R Restructuring); or
- (iii) an amount (expressed as a percentage) equal to the Single Name Partial Nominal Amount, divided by the Outstanding Aggregate Nominal Amount of such Credit Linked Notes (where redemption is not pursuant to an M(M)R Restructuring and where partial redemption occurs pursuant to application of the succession provisions).

(B) *Nth-to-Default Basket Credit Linked Notes*

The Applicable Proportion of each Nth-to-Default Basket Credit Linked Notes will be equal to the product of the Specified Denomination of such Credit Linked Note and:

- (i) 100 per cent. (where redemption is not as a result of an M(M)R Restructuring or pursuant to multiple successors being identified);
- (ii) an amount (expressed as a percentage) equal to the Exercise Amount specified in the relevant Credit Event Notice relating to the relevant Reference Entity and Credit Event, divided by the Original Aggregate Nominal Amount of such Credit Linked Notes (where redemption is as a result of an M(M)R Restructuring); or
- (iii) an amount (expressed as a percentage) equal to the Nth-to-Default Partial Nominal Amount, divided by the Original Aggregate Nominal Amount of such Credit Linked Notes (where redemption is not pursuant to an M(M)R Restructuring and where partial redemption occurs pursuant to application of the succession provisions).

(C) *Linear Basket Credit Linked Notes and Index Untranchd Credit Linked Notes*

The Applicable Proportion of each Linear Basket Credit Linked Notes or Index Untranchd Credit Linked Note will be equal to the product of the Specified Denomination of such Credit Linked Note and:

- (i) an amount (expressed as a percentage) equal to the Reference Entity Notional Amount, divided by the Original Aggregate Nominal Amount of the relevant Credit Linked Notes (where redemption is not as a result of an M(M)R Restructuring or pursuant to multiple successors being identified);
- (ii) an amount (expressed as a percentage) equal to the Exercise Amount specified in the relevant Credit Event Notice relating to the relevant Reference Entity and Credit Event,

divided by the Original Aggregate Nominal Amount of such Credit Linked Notes (where redemption is as a result of an M(M)R Restructuring); or

- (iii) an amount (expressed as a percentage) equal to the Linear Basket Partial Nominal Amount or Index Untranch Partial Nominal Amount, as applicable, divided by the Original Aggregate Nominal Amount of such Credit Linked Notes (where redemption is not pursuant to an M(M)R Restructuring and where partial redemption occurs pursuant to the succession provisions).

(D) *Index Tranch Credit Linked Notes and Portfolio Tranch Credit Linked Notes*

The Applicable Proportion of each Index Tranch Credit Linked Note or Portfolio Tranch Credit Linked Note will be equal to the product of the Specified Denomination of such Credit Linked Note and an amount (expressed as a percentage) equal to the relevant Principal Write-down Amount, divided by the Original Aggregate Nominal Amount of such Credit Linked Notes.

(E) *Local Access Single Name Credit Linked Notes*

The Applicable Proportion of each Local Access Single Name Credit Linked Note will be equal to the product of the Outstanding Nominal Amount of such Credit Linked Note and:

- (i) 100 per cent. (where redemption is not pursuant to multiple successors being identified); or
- (ii) an amount (expressed as a percentage) equal to the Local Access Single Name Partial Nominal Amount, divided by the Outstanding Aggregate Nominal Amount of such Credit Linked Notes (where partial redemption occurs pursuant to application of the succession provisions).

(F) *Local Access Basket Credit Linked Notes*

The Applicable Proportion of each Local Access Basket Credit Linked Note will be equal to the product of the Outstanding Nominal Amount of such Credit Linked Note and:

- (i) if "Redemption in Full" applies to such Credit Linked Notes, 100 per cent. (where redemption is not pursuant to multiple successors being identified);
- (ii) if "Redemption in Part" applies to such Credit Linked Notes, an amount (expressed as a percentage) equal to the Reference Entity Notional Amount outstanding in respect of the relevant Affected Reference Entity immediately prior to the Relevant Risk Event, divided by the Outstanding Aggregate Nominal Amount of such Credit Linked Notes (where redemption is not pursuant to multiple successors being identified); or
- (iii) an amount (expressed as a percentage) equal to the Local Access Basket Partial Nominal Amount, divided by the Outstanding Aggregate Nominal Amount of such Credit Linked Notes (where partial redemption occurs pursuant to application of the succession provisions).

What are the different methods of redemption?

The Credit Linked Notes will be redeemed in accordance with the Credit Event Redemption Method elected for by the Issuer (and specified in the Issue Terms), PROVIDED THAT the Fallback Redemption Method, also specified in the applicable Issue Terms, will apply where the elected Credit Event Redemption Method cannot be applied.

(A) *Single Name Credit Linked Notes, Nth-to-Default Basket Credit Linked Notes or Linear Basket Credit Linked Notes*

Auction Redemption, Cash Redemption, Physical Redemption or Fixed Recovery Redemption may be selected as the Credit Event Redemption Method, with a fallback for either Cash Redemption or Physical Redemption. Although a Credit Event Redemption Method may be

specified for Credit Linked Interest Notes, such Securities will not be early redeemed following a Credit Event. No fallback redemption method will be applicable to Credit Linked Interest Notes.

(B) *Index Untranchured Credit Linked Notes, Index Tranchured Credit Linked Notes or Portfolio Tranchured Credit Linked Notes*

Auction Redemption, Cash Redemption or Fixed Recovery Redemption may be selected as the Credit Event Redemption Method, with the only fallback being Cash Redemption. Physical Redemption is not relevant for these types of Credit Linked Notes. Although a Credit Event Redemption Method may be specified for Index Tranchured Credit Linked Notes which are Credit Linked Interest Notes, such Securities will not be early redeemed following a Credit Event. No fallback redemption method will be applicable to Credit Linked Interest Notes.

(C) *Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes*

"LA Cash Redemption", "LA Physical Redemption" or "LA Fixed Recovery Redemption" may be selected as the Risk Event Redemption Method. There is no prescribed fallback for such product. Auction Redemption is not relevant for these types of Credit Linked Notes.

What is the Credit Event Redemption Amount?

The Credit Event Redemption Amount is the cash amount that is payable to the Securityholders on an early redemption of the Credit Linked Notes following the occurrence of a Credit Event or a Risk Event, as applicable, and is broadly indicative of the recoveries in respect of such Credit Linked Notes.

The Credit Event Redemption Amount depends on the applicable Credit Event Redemption Method or Fallback Redemption Method, the nature of the Credit Linked Notes and the timing for payment:

(A) *Single Name Credit Linked Notes which are Credit Linked Principal Notes, Nth-to-Default Basket Credit Linked Notes, Linear Basket Credit Linked Notes and Index Untranchured Credit Linked Notes*

For such Credit Linked Notes, the Credit Event Redemption Amount will be the Auction Redemption Amount (where Auction Redemption is applicable), the Cash Redemption Amount (where Cash Redemption or Fixed Recovery Redemption is applicable) or if "Credit Payment on Maturity" is applicable, the Final Auction Redemption Amount or the Final Cash Redemption Amount.

The Credit Event Redemption Amount is determined based on the recovery price of certain deliverables determined in the relevant auction on the auction final price determination date or eligible obligations ("**Valuation Obligations**") of the Reference Entity on a specified date (being the final price determination date) following the occurrence of a Credit Event with respect to such Reference Entity. With respect to the Credit Linked Notes which are subject to Cash Redemption, the eligible obligations shall be one or more obligations, as selected by the Calculation Agent, that are either a Reference Obligation and/or would constitute a Deliverable Obligation as at the particular observation time in accordance with elections made in the applicable Issue Terms. The price of such eligible obligations will be determined on the basis of bid quotations received by the Calculation Agent from dealers.

(B) *Index Tranchured Credit Linked Notes which are Credit Linked Principal Notes and Portfolio Tranchured Credit Linked Notes*

The Credit Event Redemption Amount in respect of Index Tranchured Credit Linked Notes or Portfolio Tranchured Credit Linked Notes will be the Index Tranchured Redemption Amount or the Portfolio Tranchured Redemption Amount, as applicable, or if "Credit Payment on Maturity" is applicable, the Index Tranchured Final Redemption Amount or the Portfolio Tranchured Final Redemption Amount, as applicable.

The Credit Event Redemption Amount is determined based on the Index Tranchured Incurred Recovery Amount or Portfolio Tranchured Incurred Recovery Amount, as applicable, which in turn, in each case, requires the Recovery Amount to be determined. The Recovery Amount is

based on the recovery price of the Deliverable Obligations which may be determined by an Auction or, where Cash Redemption applies, on the basis of bid quotations for Valuation Obligations received by the Calculation Agent from dealers.

(C) *Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes*

The Credit Event Redemption Amount in respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, will be the LA Cash Redemption Amount (where LA Cash Redemption or LA Fixed Recovery Redemption is applicable) or if "Credit Payment on Maturity" is applicable, the Final LA Cash Redemption Amount.

The Credit Event Redemption Amount is determined based on the price of certain specified eligible assets of the Reference Entity on a specified date following the occurrence of a Risk Event with respect to such Reference Entity. With respect to Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, the eligible assets shall be one or more assets that are either assets issued by the Reference Entity (and as specified in the Issue Terms) or assets selected by the Calculation Agent that would constitute a Deliverable Obligation as at the particular observation time in accordance with elections made in the applicable Issue Terms. The price of such eligible assets shall be determined on the basis of the highest bid quotation received by the Calculation Agent from third party dealers or if no such bid quotation is provided, by the Calculation Agent in its sole discretion.

How is the Credit Event Redemption Amount determined if Auction Redemption applies?

If Auction Redemption applies, the Auction Redemption Amount or the Recovery Amount (which is necessary to determine in order to calculate the Index Tranching Redemption Amount or the Portfolio Tranching Redemption Amount), as applicable, will be determined by reference to a price determined by way of a credit derivatives auction administered by the auction administrators based on the auction settlement terms published by the relevant CDS Information Publisher (an "**Auction**"). The Auction will involve a bidding process by institutions participating in the relevant Auction, pursuant to a bidding procedure set under the relevant auction settlement terms, to establish the value of the eligible obligations (the "**Deliverable Obligations**") of the relevant Reference Entity. Deliverable Obligations mean obligations of the Reference Entity which satisfy certain specified "Deliverable Obligation Categories" and "Deliverable Obligation Characteristics" which are on the Final List as published by the relevant CDS Information Publisher. The Issuer or one or more of its affiliates may act as a participating bidder in any such Auction and may submit bids and offers with respect to the Deliverable Obligations of the Reference Entity.

(A) *Single Name Credit Linked Notes which are Credit Linked Principal Notes, Nth-to-Default Basket Credit Linked Notes, Linear Basket Credit Linked Notes and Index Untranching Credit Linked Notes*

If Auction Redemption applies, the Auction Redemption Amount will be equal to the product of (1) the Applicable Proportion of the Credit Linked Notes being redeemed and (2) the price (expressed as a percentage) determined through the Auction for certain obligations of such Reference Entity, minus each Credit Linked Note's *pro rata* share of any unwind costs.

(B) *Index Tranching Credit Linked Notes which are Credit Linked Principal Notes and Portfolio Tranching Credit Linked Notes*

The Index Tranching Redemption Amount or the Portfolio Tranching Redemption Amount, as applicable, is an amount representing each Credit Linked Note's *pro rata* share of an amount equal to (1) the Index Tranching Incurred Recovery Amount or Portfolio Tranching Incurred Recovery Amount (being the recovery in respect of such Credit Linked Notes which falls within the specified tranche), minus (2) any unwind costs. Accordingly, in order to determine the Index Tranching Redemption Amount or the Portfolio Tranching Redemption Amount, as applicable, the Index Tranching Incurred Recovery Amount or Portfolio Tranching Incurred Recovery Amount, as applicable, needs to be calculated, which in turn, in each case, requires the Recovery Amount to be determined. If Auction Redemption applies, the Recovery Amount will be equal to the product of (1) the Reference Entity Notional Amount of the Affected Reference Entity

(and, in case of an M(M)R Restructuring, the Exercise Amount) and (2) the recovery price (expressed as a percentage) determined through the Auction for certain obligations of such Reference Entity.

The auction price is likely to be lower than the par value of the Deliverable Obligations of the Reference Entity and will be reflective of a loss experienced by the holder of such Deliverable Obligations. Moreover, the price is likely to reflect the lowest prevailing market value of any Deliverable Obligation. The lower the auction price, the greater the amount retained by the Issuer to make whole the loss suffered by it (as buyer of credit protection) and thus the smaller the Credit Event Redemption Amount paid to Securityholders on an early redemption of the Credit Linked Notes.

How is the Credit Event Redemption Amount determined if Cash Redemption or LA Cash Redemption applies?

(A) Cash Redemption

If Cash Redemption applies, the Cash Redemption Amount or the Recovery Amount (which is necessary to determine in order to calculate the Index Tranche Redemption Amount or the Portfolio Tranche Redemption Amount), as applicable, will be determined on the basis of the bid quotations sought by the Calculation Agent from third party dealers for the eligible obligations of the relevant Reference Entity selected by the Calculation Agent and satisfying certain specified obligation categories and obligation characteristics (such obligations being the Valuation Obligations). However, if no quotations are obtained, the Calculation Agent will determine the final price acting in a commercially reasonable manner which may even be zero.

(I) Single Name Credit Linked Notes which are Credit Linked Principal Notes, Nth-to-Default Basket Credit Linked Notes, Linear Basket Credit Linked Notes and Index Untranche Credit Linked Notes

If Cash Redemption applies, the Cash Redemption Amount will be equal to the product of (1) the Applicable Proportion of the Credit Linked Notes being redeemed and (2) the price (expressed as a percentage) determined on the basis of such bid quotations sought by the Calculation Agent from third party dealers for the Deliverable Obligations, minus each Credit Linked Note's pro rata share of any unwind costs.

(II) Index Tranche Credit Linked Notes which are Credit Linked Principal Notes and Portfolio Tranche Credit Linked Notes

The Index Tranche Redemption Amount or the Portfolio Tranche Redemption Amount, as applicable, is an amount representing each Note's *pro rata* share of an amount equal to (1) the Index Tranche Incurred Recovery Amount or Portfolio Tranche Incurred Recovery Amount (being the recovery in respect of such Notes), minus (2) any unwind costs. Accordingly, in order to determine the Index Tranche Redemption Amount or the Portfolio Tranche Redemption Amount, as applicable, the Recovery Amount needs to be calculated. If Cash Redemption applies, the Recovery Amount will be equal to the product of (1) the Reference Entity Notional Amount of the affected Reference Entity (and, in the case of an M(M)R Restructuring, the Exercise Amount) and (2) the price (expressed as a percentage) determined on the basis of such bid quotations sought by the Calculation Agent from third party dealers for the Deliverable Obligations.

(B) LA Cash Redemption

LA Cash Redemption applies only to Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes. If LA Cash Redemption applies, the LA Cash Redemption Amount will be determined on the basis of the highest bid quotation sought by the Calculation Agent from third party dealers for certain specified eligible assets of the relevant Reference Entity which may be assets issued by the Reference Entity (and as specified in the Issue Terms) or assets selected by the Calculation Agent that would constitute a Deliverable Obligation (being the LA Settlement Assets). However, if no quotations are obtained, the Calculation Agent will determine the LA Recovery Amount acting in its sole discretion.

If LA Cash Redemption applies, the LA Cash Redemption Amount will be equal to the product of (1) the Applicable Proportion of the Credit Linked Notes being redeemed and (2) an amount equal to the LA Recovery Amount (plus, where "FX Forward Rate" applies, the Reference Assets FX Forward Termination Value, which may be a positive or a negative amount), minus each Credit Linked Note's *pro rata* share of any unwind costs.

In any case, while determining the Final Price or the LA Recovery Amount, as applicable, the Issuer will be entitled to select the cheapest Valuation Obligations or LA Settlement Assets, as applicable, for valuation. The lower the Final Price or the LA Recovery Amount, as applicable, the greater the amount retained by the Issuer to make whole the loss suffered by it (as buyer of credit protection) and thus the smaller the Credit Event Redemption Amount paid to Securityholders on an early redemption of the Credit Linked Notes.

What will the Securityholder receive if "Physical Redemption" or "LA Physical Redemption" of the Credit Linked Notes applies?

(A) Physical Redemption

If "Physical Redemption" applies in respect of Credit Linked Notes (other than Credit Linked Interest Notes), the Issuer will physically deliver assets to the Securityholders that represent each Credit Linked Note's *pro rata* share of obligations of the Reference Entity which falls within a specified category (i.e. the Deliverable Obligation Category) and have the specified characteristics (i.e. the Deliverable Obligation Characteristics) which will be set out in the Issue Terms and which have an Outstanding Principal Balance or a Due and Payable Amount equal to the outstanding principal amount of the Credit Linked Notes following the occurrence of the Credit Event, minus any unwind costs, any delivery expenses that may be incurred by the Issuer in the physical settlement and any interest suspension shortfall amount.

The Issuer may be required to make a payment in cash to the Securityholders where, for example, the assets to be physically delivered are not a whole integral multiple of the smallest unit of transfer or physical delivery is illegal or impossible or the necessary consents for transfer of the relevant Deliverable Obligation haven't been obtained.

If an Asset Package Credit Event has occurred, in certain circumstances the Physical Redemption Assets may include Assets comprising the Asset Package. The Issuer may elect to pay a cash amount to the Securityholders in lieu of delivering any or all of the Asset Package.

(B) LA Physical Redemption

"LA Physical Redemption" applies only to Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes. If "LA Physical Redemption" applies, the Issuer will physically deliver such assets to the Securityholders (being the LA Settlement Assets) that represent each Credit Linked Note's *pro rata* share of an amount equal to (1) the assets or obligations of the Reference Entity or assets selected by the Calculation Agent which constitute Deliverable Obligations and (2) which have an Outstanding Principal Balance or a Due and Payable Amount equal to the outstanding principal amount of the Credit Linked Notes following the occurrence of the Risk Event, less (3) any unwind costs, any delivery expenses that may be incurred by the Issuer in the physical settlement and any interest suspension shortfall amount.

The Issuer may be required to make a payment in cash to the Securityholders where, for example, physical delivery is illegal or impossible due to circumstances outside the control of the Issuer or within the control of the Securityholders.

What will a Securityholder recover if fixed recovery is applicable?

If "Fixed Recovery Redemption" or "LA Fixed Recovery Redemption" is specified as applicable in respect of Credit Linked Notes (other than Credit Linked Interest Notes), then following the occurrence of a Credit Event or a Risk Event, as applicable, and relevant Event Determination Date, the amount payable on redemption on the relevant Credit Event Redemption Date shall be calculated as set out in "How is the Credit Event Redemption Amount determined if Cash Redemption or LA Cash Redemption applies?" above, PROVIDED THAT instead of the Final Price, the "Fixed Recovery Percentage" set out in the applicable Issue Terms shall apply. The Fixed Recovery Percentage may be specified as zero, in

which case Securityholders will lose all of their investment upon the occurrence of a Credit Event or Risk Event, as applicable.

What is an M(M)R Restructuring Credit Event?

This applies to a Restructuring Credit Event relating to some Transaction Types aimed at reducing the risk occurring with respect to receiving the "cheapest to deliver" assets by imposing complex restrictions on deliverables where a buyer of protection (i.e. the Issuer) triggers the event. The deliverables must additionally have a final maturity date (determined at the time of delivery and effective delivery of Notice of Physical Settlement) or determination which falls within the limitation date of a maturity bucket.

If there is no auction for a bucket, in order to auction settle, the Issuer may elect to exercise a "Movement Option" to settle at a bucket with more restrictive deliverables rather than redeem through the fallback redemption methods.

How much will Securityholders receive if the Credit Linked Notes are partially redeemed following an M(M)R Restructuring Credit Event?

If a Restructuring Credit Event occurs with respect to the Credit Linked Notes (other than Credit Linked Interest Notes), and it constitutes an M(M)R Restructuring, the Issuer may elect to trigger a partial redemption of the Credit Linked Notes in respect of such Restructuring Credit Event. This Credit Event requires a Credit Event Notice to be delivered in order to be triggered (i.e. this can only be triggered bilaterally). The Credit Event Notice will specify the portion of the Credit Linked Notes impacted by such Restructuring Credit Event (the "**Exercise Amount**").

If the Issuer decides to partially redeem the Credit Linked Notes, each Credit Linked Note will be redeemed in part by an amount that is less than the entire credit protection purchased and sold under the Credit Linked Notes in relation to the Reference Entity with respect to which the Restructuring Credit Event occurred. The Credit Event Redemption Amount payable to Securityholders will reflect such partial exercise for the purposes of redemption of the Credit Linked Notes. Subsequent determinations of interest and principal under the Credit Linked Notes will be determined only in respect of the outstanding nominal amount of the Credit Linked Note following such reduction.

How much will Securityholders receive if the Credit Linked Notes are partially redeemed following a determination of multiple successors?

If Credit Linked Notes (other than Credit Linked Interest Notes) are partially redeemed following a determination of multiple successors, the Calculation Agent shall apportion any calculation amounts equally between the number of Successors and the Credit Event Redemption Amount or the amount of Physical Redemption Assets or LA Settlement Assets, as applicable, to be delivered for any Credit Events or Risk Events, as applicable, which occur shall be calculated on the basis of such apportioned amounts. For details on successors, see "*Successors*" below.

Can Credit Linked Notes be redeemed after the Scheduled Maturity Date?

If no Event Determination Date or Risk Event Determination Date, as applicable, occurs then the Credit Linked Notes are scheduled to redeem on the Scheduled Maturity Date.

However, if the Calculation Agent determines that on or prior to the Scheduled Maturity Date, (i) one or more Reference Entities (a) may be subject to a Credit Event or to a Risk Event, (b) if "Grace Period Extension" is applicable, is or may be subject to a Potential Failure to Pay, or (c) if "Potential Repudiation/Moratorium" is applicable, is or may be subject to a Potential Repudiation/Moratorium (d) a Credit Event Notice or Risk Event Notice may be delivered after the Scheduled Maturity Date within an effective delivery period which may result in a Relevant Event Determination Date or a Relevant Risk Event Determination Date occurring (e) a Credit Event Resolution Request Date may occur after the Scheduled Maturity Date but during the Notice Delivery Period which may result in a Relevant Event Determination Date occurring; (f) the final Credit Event Redemption Date or the Final Physical Redemption Cut-Off Date, as applicable, will only occur after the Scheduled Maturity Date (including any final Partial Cash Redemption Date or final Fallback Cash Redemption Date); (g) a Payment Failure Cut-Off Date may occur after the Scheduled Maturity Date where a Payment/Delivery Failure Event has occurred; or (h) a RMB Currency Settlement Cut-Off Date may occur after the Scheduled Maturity Date,

then each Credit Linked Note then outstanding shall not be redeemed on the Scheduled Maturity Date but shall be redeemed on the Extended Maturity Date.

When will the Credit Linked Notes be redeemed if the Scheduled Maturity Date is extended?

If no Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, occurs on or prior to the Notes Extension Date, the Credit Linked Notes will redeem on the latest to occur of (a) the fifth Business Day following the Notes Extension Date; (b) the final Credit Event Redemption Date in relation to any unsettled Relevant Credit Events or Relevant Risk Event, as applicable or if later, any Final Physical Redemption Cut-Off Date (including any final Partial Cash Redemption Date or final Fallback Cash Redemption Date); (c) the fifth Business Day following the Payment Failure Cut-Off Date (if applicable); or (d) the fifth Business Day following the RMB Currency Settlement Cut-Off Date, if applicable.

In respect of Credit Linked Notes (other than Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes), where a Relevant Event Determination Date actually occurs on or prior to the Notes Extension Date, the Credit Linked Notes shall be redeemed on the later to occur of (a) the final Credit Event Redemption Date in relation to any unsettled Relevant Credit Events, as applicable or if later, any Final Physical Redemption Cut-Off Date (including any final Partial Cash Redemption Date or final Fallback Cash Redemption Date) and (b) the fifth Business Day following the Payment Failure Cut-Off Date (if applicable).

In respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, where a Relevant Risk Event Determination Date actually occurs on or prior to the LA Cut-Off Date, the Credit Linked Notes will be redeemed on the latest to occur of (a) the final LA Cash Redemption Date or the final LA Physical Redemption Date, as applicable; (b) the fifth Business Day following the Payment Failure Cut-Off Date (if applicable); and (c) the fifth Business Day following the RMB Currency Settlement Cut-Off Date, if applicable.

INSTALMENT REDEMPTION AMOUNT SPECIFIC PROVISIONS

In respect of Instalment Notes, will Securityholders receive any Instalment Redemption Amounts after the occurrence of a Credit Event or a Risk Event?

Instalment Notes may be Single Name Credit Linked Notes, Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes.

If an Event Determination Date or Risk Event Determination Date, as applicable, occurs, from (and including) the occurrence of a Relevant Event Determination Date, any Instalment Redemption Amount(s) relating to the Applicable Proportion of an Instalment Note (for further information see "*What is the Applicable Proportion?*" above) that is due and payable on any Instalment Date(s) will be disregarded and any future Instalment Redemption Amount(s) relating to the outstanding portion (if any) of such Credit Linked Note shall be proportionately reduced as determined by the Calculation Agent.

If a Credit Event or a Risk Event have not occurred, will Securityholders receive payments of the relevant Instalment Redemption Amount on each Instalment Date?

Where the Calculation Agent determines on or prior to an Instalment Date, in its sole and absolute discretion, that (i) an Applicable DC Credit Event Question has been made on or prior to an Interest Payment Date and no corresponding DC Resolution has been published or (ii) a Relevant Credit Event and related Relevant Event Determination Date or Relevant Risk Event and related Relevant Risk Event Determination Date, as applicable, could occur but no Credit Event Notice or Risk Event Notice, as applicable, has been provided, then following a notification by it to the Issuer, any Instalment Redemption Amounts due and payable in respect of such Instalment Date and each subsequent Instalment Date, in each case in accordance with Credit Linked Condition 1(b) (*Redemption by instalments*) will, until a determination is made by the Calculation Agent to the contrary (as detailed in "*If payments of Instalment Redemption Amounts are suspended, when will the Issuer's obligations to make such payments resume?*" below), be suspended as of such Instalment Date.

If payments of Instalment Redemption Amounts are suspended, when will the Issuer's obligations to make such payments resume?

Suspension of any Instalment Redemption Amounts will continue until certain public announcements by the DC Secretary are made or until the Calculation Agent determines that a Relevant Credit Event or Relevant Risk Event, as applicable, has not occurred and will not occur or if an LA Cut-Off Date in respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, has occurred. Such public announcements may be one of an Applicable DC No Credit Event Announcement, an Applicable DC Credit Event Question Dismissal or an announcement by the DC Secretary that the Credit Derivatives Determinations Committee will not be convening to Resolve the relevant Applicable DC Credit Event Question.

In such case, the Securityholders will be paid the suspended Instalment Redemption Amount(s) 10 Business Days following the date of such announcement or determination by the Calculation Agent or the LA Cut-Off Date, as applicable.

Will Securityholders receive any interest on the Instalment Redemption Amounts that were suspended once the Issuer's obligation to make such principal payments resumes?

No additional amount of interest will be payable to the Securityholders by the Issuer in connection with the delay or postponement in payment of an Instalment Redemption Amount.

ZERO COUPON NOTE SPECIFIC PROVISIONS

Zero Coupon Notes may only be Single Name Credit Linked Notes or Linear Basket Credit Linked Notes in respect of which either Auction Redemption or Cash Redemption applies.

How will the Credit Event Redemption Amount be affected where the Zero Coupon Percentage is specified to be a percentage less than or greater than 100 per cent.?

If an Event Determination Date occurs, the Credit Event Redemption Amount will be determined as described under "*How is the Credit Event Redemption Amount determined if Auction Redemption applies?*" or "*How is the Credit Event Redemption Amount determined if Cash Redemption or LA Cash Redemption applies?*", as applicable, except that the Auction Final Price or Final Price, as applicable, will be multiplied by (i) (a) the Applicable Proportion or (b) if "Premium Accreted Amount" is specified to apply in the applicable Issue Terms, the sum of the Applicable Proportion and the Premium Accreted Amount and (ii) the Zero Coupon Percentage, prior to the deduction of any unwind costs.

The Zero Coupon Percentage is the percentage specified in the applicable Issue Terms and, unless a different amount is so specified, will be a percentage equal to the Issue Price of the Notes.

Where the Notes are issued at a discount to their Original Aggregate Nominal Amount or the Zero Coupon Percentage is specified to be a percentage less than 100 per cent., the Auction Redemption Amount or Cash Redemption Amount, as applicable, will be determined by reference to an amount less than the Outstanding Aggregate Nominal Amount of the Notes and will therefore be less than the amount which would be determined in relation to a Credit Linked Note which is not a Zero Coupon Note.

What premium payments will Securityholders receive after the occurrence of a Credit Event or a Risk Event?

Zero Coupon Notes do not bear interest. Instead of interest which accrues and is paid through the term of the Notes, if no Credit Event occurs, the Notes will redeem at amount which is significantly greater than the issue price of the Notes. The difference between the issue price of the Notes and the amount scheduled to be paid at maturity is the "premium".

If an Event Determination Date occurs, whether any amount in respect of premium is payable shall depend on whether "Premium Accreted Amount" is specified to apply in the applicable Issue Terms.

Where "Premium Accreted Amount" applies, an amount equal to the sum of the Applicable Percentage for the relevant Notes and the Premium Accreted Amount (the "**Total Accreted Amount**") will be used to determine the Auction Redemption Amount or Cash Redemption Amount, as applicable. Where the Auction Final Price or Final Price, as applicable is multiplied by the Total Accreted Amount, then an

amount will be paid to Securityholders with respect to the Premium Accreted Amount which, unless the Auction Final Price or Final Price, as applicable, is equal to 100 per cent., will be less than the amount of interest which would be determined in relation to a Credit Linked Note which is not a Zero Coupon Note but which has an interest rate equal to the Amortisation Yield.

Where the Notes are issued at par and the Zero Coupon Percentage is specified to be a percentage greater than 100 per cent., the Auction Redemption Amount or Cash Redemption Amount, as applicable, will be determined by reference to an amount greater than the Outstanding Aggregate Nominal Amount of the Notes and will therefore be greater than the amount which would be determined in relation to a Credit Linked Note which is not a Zero Coupon Note. The Auction Redemption Amount of Cash Redemption Amount will therefore include an amount in respect of premium which might be more or less than the amount of interest which would have been payable in relation to a Credit Linked Note which is not a Zero Coupon Note but which has an interest rate equal to the Amortisation Yield.

Where "Premium Accreted Amount" is not specified to apply in the applicable Issue Terms, no additional amount in respect of the premium will be payable following the occurrence of an Event Determination Date.

INTEREST SPECIFIC PROVISIONS

What interest payments will Securityholders receive after the occurrence of a Credit Event or a Risk Event?

In respect of Credit Linked Notes other than Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, if an Event Determination Date or Risk Event Determination Date, as applicable, occurs, the date on which interest ceases to accrue on the Applicable Proportion of the relevant Credit Linked Notes (for further information see "What is the Applicable Proportion?" above) shall depend on whether "No Interest Accrual on Default" or "Interest Accrual on Default" applies.

(A) No Interest Accrual on Default

Interest (or, in respect of Credit Linked Interest Notes only, Contingent Interest) shall cease to accrue on the Applicable Proportion from (and including) the Interest Payment Date preceding the Event Determination Date or Risk Event Determination Date or, in respect of the first Interest Period, from (and including) the Issue Date.

(B) Interest Accrual on Default

Interest (or, in respect of Credit Linked Interest Notes only, Contingent Interest) shall cease to accrue on the Applicable Proportion from (and including) the first Business Day immediately following the Event Determination Date or Risk Event Determination Date.

However, (i) in respect of each Credit Linked Note (other than a Local Access Single Name Credit Linked Note or a Local Access Basket Credit Linked Note), interest (or, in respect of Credit Linked Interest Notes only, Contingent Interest) will accrue on the Applicable Proportion from (and including) the Interest Payment Date preceding such Event Determination Date or, in respect of the first Interest Period, the Issue Date to (and including) such Event Determination Date; and (ii) in respect of each Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note, as applicable, the LA Interest Amount shall be payable if, and only if, an Interest Payment Date occurred during the period from (and including) the Interest Payment Date preceding such Risk Event Determination Date, or (if no such Interest Payment Date exists), the Issue Date to (and including) such Risk Event Determination Date.

In respect of Credit Linked Notes (other than Credit Linked Interest Notes), any accrued but unpaid interest shall be paid (i) within 10 Business Days following the relevant Credit Event Redemption Date (if "Credit Payment following Credit Event" or "Credit Payment following Risk Event" applies) or in respect of Index Tranching Credit Linked Notes and Portfolio Tranching Credit Linked Notes only and where there is no incurred recovery, within 10 Business Days following the relevant Auction Final Price Determination Date or Final Price Determination Date, as applicable, (ii) on such date as determined by the Calculation Agent (if "Credit Payment on Maturity" applies), (iii) if the Credit Linked Notes are early redeeming in full, on the Early Termination Date, the Optional Redemption Date or the Substitution Event Date, as applicable or (iv) within 10 Business Days following the first Delivery Date (if "Physical

Redemption" applies), as applicable. In respect of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, such payment of suspended interest shall be made if, and only if, an LA Interest Payment Date has occurred prior to a prescribed date. In respect of Credit Linked Interest Notes, any accrued, but unpaid, Contingent Interest shall be paid on (i) the Scheduled Maturity Date, (ii) such date as determined by the Calculation Agent or (iii) if the Single Name Credit Linked Notes are early redeemed in full, the Early Termination Date, the Optional Redemption Date or the Substitution Event Date, as applicable.

In respect of Credit Linked Interest Notes which are Index Tranching Credit Linked Notes only, if an Event Determination Date occurs, interest shall continue to accrue on the Outstanding Aggregate Nominal Amount of the Credit Linked Notes. However, an adjustment factor shall be applied to the Interest Rate specified in the applicable Issue Terms to be or constitute Contingent Interest on such Index Tranching Credit Linked Notes. Such adjustment factor shall apply, where No Interest Accrual On Default applies, from (and including) the Interest Payment Date preceding the Event Determination Date or, in respect of the first Interest Period, from (and including) the Issue Date or, where Interest Accrual On Default applies, from (and including) the first Business Day immediately following the Event Determination Date. Fixed Recovery Redemption shall apply in respect of Credit Linked Interest Notes which are Index Tranching Credit Linked Notes.

The Credit Payment on Maturity Amount will accrue interest additionally at the funding interest rate where "Credit Payment following Credit Event" applies.

If a Credit Event and Event Determination Date have not occurred, will I receive payments of interest on each Interest Payment Date?

If an Applicable DC Credit Event Question has been made on or prior to an Interest Payment Date and no corresponding DC Resolution has been published or a Relevant Credit Event and related Relevant Event Determination Date or Relevant Risk Event and related Relevant Risk Event Determination Date, as applicable, could occur but no Credit Event Notice or Risk Event Notice, as applicable, has been provided, then any interest payable under the Credit Linked Notes (or, in respect of Credit Linked Interest Notes only, any Contingent Interest) will be suspended to the maximum possible amount (assuming an Event Determination Date or Risk Event Determination Date would occur, as though full exercise of an M(M)R Restructuring had occurred and where relevant, that Fixed Recovery Redemption with Fixed Recovery Percentage at 0 per cent. has occurred) or, in the case of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, the LA Interest Amount relating to the relevant LA Interest Payment Date will be suspended.

If payments of interest are suspended, when will the Issuer's obligations to make such payments resume?

Suspension of interest amount will continue until certain public announcements by the DC Secretary are made or until the Calculation Agent determines that a Relevant Credit Event or Relevant Risk Event, as applicable, has not occurred and will not occur or if an LA Cut-Off Date in respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, has occurred. Such public announcements may be one of an Applicable DC No Credit Event Announcement, an Applicable DC Credit Event Question Dismissal or an announcement by the DC Secretary that the Credit Derivatives Determinations Committee will not be convening to Resolve the relevant Applicable DC Credit Event Question.

In such case, the Securityholders will be paid the suspended interest amount 10 Business Days following the date of such announcement or determination by the Calculation Agent or the LA Cut-Off Date, as applicable or, in respect of Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, the next following Interest Payment Date, at the discretion of the Calculation Agent.

Will Securityholders receive an additional amount of interest once the Issuer's obligation to make interest payments resumes?

No additional amount of interest will be payable to the Securityholders by the Issuer in connection with the delay or postponement in payment of an interest amount. However, if the Calculation Agent determines that the amount of interest suspended pursuant to Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question, a potential Credit Event or a potential*

Risk Event) was greater or lesser than the amount of interest that should have been suspended, the Issuer will be required to calculate the adjustment interest amount due to or from the Securityholders and such adjustment amount will be paid to, or held back from future interest payments owed to, the Securityholders and where there has been a shortfall as at the relevant maturity or early redemption date, such interest shortfall proceeds shall be deducted from the final redemption amounts or the amount of Physical Redemption Assets to be delivered, as applicable.

What are the Index Swaption provisions?

If "Index Swaption" is specified as applicable in the relevant Issue Terms, the Credit Linked Notes will be linked to a hypothetical index swaption, which means that for the purposes of making calculations of interest under the Credit Linked Notes, the Issuer will be deemed on the Issue Date to have entered into the Hypothetical Index Swaption Transaction with the Hypothetical Swap Counterparty.

The value of such Hypothetical Index Swaption Transaction will determine whether a Swaption Interest Amount is payable in respect of the Credit Linked Notes – if it expires at an amount payable to the Swaption Buyer, a Swaption Interest Amount will be payable in respect of each Credit Linked Note and, conversely, if the Hypothetical Index Swaption Transaction expires out of the money for the Swaption Buyer, no Swaption Interest Amount will be payable.

ADDITIONAL PROVISIONS

What are the Financial Reference Entity Terms?

If "Financial Reference Entity Terms" applies, then:

- (a) where the Reference Obligation is a senior obligation and if a Credit Event relating to Governmental Intervention or Restructuring would only affect the subordinated obligations of the relevant obligor, a Credit Event will not be triggered in respect of such Reference Entity;
- (b) where the Reference Obligation is a subordinated obligation and if a Credit Event relating to Governmental Intervention or Restructuring would only affect the further subordinated obligations of the relevant obligor, a Credit Event will not be triggered in respect of such Reference Entity;
- (c) with respect to successions, if the Credit Linked Notes relates to a Senior Obligation, the debt transfer shall be assessed only in relation to Bond or Loans which include the Senior Obligations of the Reference Entity and where the Credit Linked Notes are Subordinated Obligations, the debt transfer shall exclude Senior Obligations and any Further Subordinated Obligations of the Reference Entity which fall within the Obligation Category "Bond or Loan", PROVIDED THAT if no such Bond or Loan exists, the debt transfer shall be assessed only in relation to Bond or Loans which include the Senior Obligations of the Reference Entity;
- (d) PROVIDED THAT if "Governmental Intervention" applies, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic;
- (e) a qualifying guarantee which contains terms permitting or anticipating a Governmental Intervention will not be treated as containing provisions where the principal payment obligations of the Reference Entity can be discharged, released, reduced, assigned or otherwise altered as a result of the occurrence or non-occurrence of such event; or
- (f) an Asset Package Credit Event may occur where (a) a Governmental Intervention occurs or (b) a Restructuring (if applicable) occurs, PROVIDED THAT such Restructuring does not constitute a Governmental Intervention. If an Asset Package Credit Event occurs, Asset Package Delivery is applicable and any Prior Deliverable Obligation shall be a Deliverable Obligation.

What is Asset Package Credit Event and Asset Package Delivery?

If (a) "Financial Reference Entity Terms" applies and a Restructuring Credit Event (which does not constitute a Governmental Intervention) of the Reference Obligation or a Governmental Intervention Credit Event occurs, or (b) a Restructuring Credit Event occurs with respect to a Sovereign, such a Credit Event will constitute an "Asset Package Credit Event".

If such Asset Package Credit Event occurs prior to the relevant Credit Event Backstop Date, then in those circumstances, (unless, in respect of a Sovereign Reference Entity, Asset Package Delivery has been specified not to apply in the applicable Issue Terms), the obligations or assets used to determine the Auction Final Price or recovery of the Valuation Obligations, as the case may be (i.e. the "**Asset Package**"), will be the "Asset Package" comprising those assets received or retained by a Relevant Holder by reference to:

- (a) in respect of (a) above and a Governmental Intervention Credit Event, an obligation of the Reference Entity which existed immediately prior to the Asset Package Credit Event which would have constituted a Deliverable Obligation, or in the case of (a) above and a Restructuring Credit Event, the Reference Obligation (i.e. a "**Prior Deliverable Obligation**"); or
- (b) in respect of (b) above, a benchmark obligation of the relevant Sovereign identified as such and published by the relevant CDS Information Publisher from time to time and which immediately prior to the Asset Package Credit Event would have constituted a Deliverable Obligation (i.e. a "**Package Observable Bond**").

Delivery of a Prior Deliverable Obligation or a Package Observable Bond may be satisfied by Delivery of the related Asset Package, and such Asset Package shall be treated as having the same currency, Outstanding Principal Balance or Due and Payable Amount, as applicable, as the Prior Deliverable Obligation or Package Observable Bond to which it corresponds had immediately prior to the Asset Package Credit Event, and if the Asset Package is zero, the Outstanding Amount of the Prior Deliverable Obligation or Package Observable Bond shall be deemed to have been Delivered in full three Business Days following the date on which the Issuer has notified the Fiscal Agent of the detailed description of the Asset Package that it intends to Deliver in accordance with the definition of "Notice of Physical Settlement".

The Issuer may satisfy its obligation to make Delivery of the Prior Deliverable Obligation or Package Observable Bond in part by Delivery of each Asset in the Asset Package in the correct proportion. If the relevant Asset is a Non-Transferable Instrument or a Non-Financial Instrument, the Asset shall be deemed to be an amount of cash equal to the Asset Market Value by reference to an appropriate specialist valuation or in accordance with the methodology determined by the Credit Derivatives Determinations Committee.

What are Additional Provisions for Senior Non-Preferred Reference Obligations (published on December 8, 2017)?

Where the Issue Terms specify "Additional Provisions for Senior Non-Preferred Reference Obligations (published on December 8, 2017)" as applicable, the Reference Obligation is any obligation of the Reference Entity which is Subordinated only to any unsubordinated Borrowed Money Obligations of the Reference Entity but not further or otherwise, or which would be so Subordinated if any unsubordinated Borrowed Money Obligations of the Reference Entity existed ("**Senior Non-Preferred Obligation**"), and which ranks above "Traditional Subordinated Obligations" or which would so rank if Traditional Subordinated Obligations existed. In such circumstances, the Senior Non-Preferred Obligation shall constitute a Subordinated Obligation and such Traditional Subordinated Obligation (as defined in the Credit Linked Conditions) shall constitute a Further Subordinated Obligation.

What is the 2014 CoCo Supplement to the 2014 ISDA Credit Derivatives Definitions (September 15, 2014) and a CoCo Provision?

Where the Issue Terms specify the "2014 CoCo Supplement to the 2014 ISDA Credit Derivatives Definitions (September 15, 2014)" to be applicable, if with respect to one or more Obligations and in relation to an aggregate amount of not less than a pre-determined amount, the operation of one or more CoCo Provisions results in (a) a permanent or temporary reduction of the amount of principal payable at

redemption or (b) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention.

A Coco Provision requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the capital ratio is at or below a trigger percentage which is specified to be 5.25 per cent., if no other trigger percentage is specified.

What is the Monoline Supplement?

Where the Issue Terms specify that the "Monoline Supplement" is applicable, Obligations and Deliverable Obligations will include certain qualifying financial guarantee insurance policy or similar financial guarantees pursuant to which a Reference Entity irrevocably guarantees or insures certain borrowed money instruments of another party.

What is the impact of the LPN Additional Provisions applicable to LPN Reference Entities?

Where the Issue Terms specify that "LPN Additional Provisions" are applicable, among other things, the scope of Reference Obligation is expanded to cover LPNs which, as of the Trade Date, are issued for the sole purpose of providing funds for the issuer(s) of such LPN to finance a loan or provide alternative finance to the relevant LPN Reference Entity. Accordingly, a Credit Event may occur in respect of obligations that are not direct obligations of the relevant LPN Reference Entity.

What is the impact of additional provisions applicable to the Republic of Ecuador, the Argentine Republic, the Hellenic Republic, the Republic of Ukraine or certain Venezuelan entities?

Where the Issue Terms specify that "2020 Additional Provisions for the Republic of Ecuador: Excluded Obligations and Excluded Deliverable Obligations (December 11, 2020)", "2020 Additional Provisions for the Argentine Republic: Excluded Obligations and Excluded Deliverable Obligations (September 16, 2020)", "Additional Provisions for the Hellenic Republic (May 29, 2012)", "Additional Provisions for the Republic of Ukraine: Excluded Obligations and Excluded Deliverable Obligations (April 11, 2016)" or "Additional Provisions for Certain Venezuelan Entities: Excluded Obligations and Excluded Deliverable Obligations (September 19, 2017)" are applicable, certain Bond or Loan obligations or Restricted Debt (as the case may be) are treated as Excluded Deliverable Obligations, which:

- (a) in respect of an Ecuador Reference Entity means any obligation that is a "Bond" that was issued on or prior to 20 April 2020;
- (b) in respect of an Argentine Reference Entity means any obligation that is a "Bond" that was issued on or prior to 31 August 2020;

- (d) in respect of a Ukraine Reference Entity means any obligation that is a "Bond" that was issued on or prior to 1 November 2015; or
- (e) in respect of a Venezuelan Covered Reference Entity, for so long as sanctions imposed by any and all Venezuelan Orders continue to subsist with respect to such Venezuelan Covered Reference Entity (as determined by the Credit Derivatives Determinations Committee), means any obligation that is Restricted Debt.

What is the impact of additional provisions applicable to the Republic of Hungary?

Where the Issue Terms specify that "Hungary Additional Provisions" are applicable, Obligations and Deliverable Obligations will include certain obligations of the National Bank of Hungary (either directly or as provider of a Relevant Guarantee) and any Successor.

What is the impact of additional provisions applicable to the Russian Federation?

Where the Issue Terms specify that "Additional Provisions for the Russian Federation (August 13, 2004)" are applicable, Obligations and Deliverable Obligations will exclude any obligations that are determined by the Calculation Agent to be IANs, MinFins or PRINs.

What is the impact of the "2020 Limited Recourse Additional Provisions (December 2, 2020)" applicable to Limited Recourse Obligations?

Where the Issue Terms specify that "2020 Limited Recourse Additional Provisions (December 2, 2020)" are applicable, while determining the Outstanding Principal Balance or the Due and Payable Amount of an obligation, the amounts determined will be required to take into account (and will therefore be reduced by) the application of any Limited Recourse Provisions.

REFERENCE OBLIGATIONS***What is a Standard Reference Obligation ?***

A Standard Reference Obligation is the obligation specified as the market standard reference obligation for the relevant Reference Entity for the relevant seniority level, as published on the relevant SRO list.

If "Standard Reference Obligation" applies where there is no Standard Reference Obligation and a Non-Standard Reference Obligation is specified in the Issue Terms, the Reference Obligation will be (a) the Non-Standard Reference Obligation to but excluding the first date of publication of the Standard Reference Obligation and (b) the Standard Reference Obligation with the relevant Seniority Level with be the Reference Obligation from such date onwards, PROVIDED THAT the Standard Reference Obligation that is published would have been eligible to be selected as a Substitute Reference Obligation. The SRO list for selected standard reference obligations selected by the Credit Derivatives Determinations Committee can be obtained at <https://ihsmarkit.com> or any successor webpage. Standard Reference Obligation could also be disappplied in the Issue Terms.

Can a redeemed Reference Obligation be stipulated as a Reference Obligation?

Yes. For the purpose of assessing the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic.

SUCCESSORS***Is it possible to change a Reference Entity?***

The Reference Entity may not be changed unless a "Successor" determination has been made with respect to the Reference Entity on or after the "Successor Backstop Date" (or, in the case of a "Universal Successor", on or after 1 January 2014).

A "Universal Successor" means, with respect to any Reference Entity (not being a sovereign entity), the single entity which assumes all of the obligations (including at least one relevant bond or loan) of the Reference Entity and at the time of the determination either (a) the Reference Entity has ceased to exist, or (b) the Reference Entity is in the process of being dissolved (however described) and the Reference Entity has not issued or incurred any borrowed money obligation at any time since the legally effective date of the assumption.

What is a "Successor" to the Reference Entity and how can succession affect the Credit Linked Notes?

If the relevant CDS Information Publisher publicly announces that a Credit Derivatives Determinations Committee has resolved that a different entity or entities has or have become successor(s) to the original Reference Entity to which the Credit Linked Notes are linked, then such entity/ies may be identified as a "Successor" to the original Reference Entity. The Calculation Agent (being the Issuer or an Affiliate) may also, following a succession event, identify an entity or entities as a successor(s) to the original Reference Entity or in the case of Index Untranchd Credit Linked Notes and Index Tranchd Credit Linked Notes, the Index Sponsor may also following a succession, identify an entity or entities as a successor(s) to the original Reference Entity.

A single entity, or one entity or one or more entities may either directly or as provider of a qualifying guarantee succeed to the Reference Entity based on whether the percentage of debt transferred satisfies certain specified thresholds but where a universal successor applies, the entity need only assume all of the obligations and at least one bond or loan or guarantee obligation in connection with either where at the time of determination certain conditions exist. If there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

An entity shall succeed to another entity if an entity other than the Reference Entity (a) assumes or becomes liable for the relevant obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (b) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a qualifying guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable.

The identity of the original Reference Entity will be treated as having been amended accordingly for the purposes of the Credit Linked Notes so that, following the determination or announcement of a "Successor", the Credit Linked Notes will be linked to the credit risk of the Successor. The credit risk associated with a Successor or Successors may be different from and could be greater than the credit risk associated with the original Reference Entity.

The events which may lead to the determination or announcement of a Successor may occur at any time from and including the "Successor Backstop Date" (or, in the case of a "Universal Successor", on or after 1 January 2014), which is a rolling date that is:

- (a) if a Credit Derivatives Determinations Committee receives a request to resolve whether or not there is one or more Successors to the Reference Entity, 90 calendar days prior to the date of such request; or
- (b) otherwise, 90 calendar days prior to the date on which an effective notice of the occurrence of a succession is delivered by the Issuer to the Fiscal Agent.

Can a succession occur prior to the Issue Date?

Yes. A succession may occur prior to the Issue Date of the Credit Linked Notes and may even occur prior to the Trade Date specified in the applicable Issue Terms. The Successor Backstop Date may fall prior to the Trade Date and accordingly a succession may occur prior to the Trade Date.

Securityholders should conduct their own review of any recent developments with respect to the Reference Entity by consulting publicly available information. If a request has been delivered to convene a Credit Derivatives Determinations Committee prior to the Trade Date to determine whether a succession has occurred with respect to the Reference Entity, details of such request may be found on the ISDA website <https://www.cdsdeterminationscommittees.org/> (or any successor website thereto).

Can a sovereign be subject to a succession ?

Yes, where an annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other similar event occurs and the debt is transferred as described in "*What is a "Successor" to the Reference Entity and how can succession affect the Credit Linked Notes?*" above.

Does the Calculation Agent have unfettered discretion to determine a Successor?

No. Although the Calculation Agent has the right to make a determination as to whether or not a succession event has occurred, its right is limited by the Credit Linked Conditions as follows: the Calculation Agent (a) cannot make such a determination if a Credit Derivatives Determinations Committee has already determined that such an event does not constitute a succession event; (b) is required to act on the basis of Eligible Information and (c) is required to act in a commercially reasonable manner. In the case of the Index Untranchured Credit Linked Notes and Index Tranchured Credit Linked Notes, the Index Sponsor may make a successor determination if the relevant Credit Derivatives Determinations Committee has not identified a Successor.

Can multiple successors be identified with respect to a Reference Entity?

Yes, including the case where the original entity affected by the succession is also identified as a Successor. In such case where there are multiple successors, the Calculation Agent shall apportion any calculation amounts equally between the number of Successors and the Credit Event Redemption Amount for any Credit Events or Risk Events, as applicable, which occur shall be calculated on the basis of such apportioned amounts.

Where multiple successors are identified, multiple Credit Events or Risk Events, as applicable, and multiple Event Determination Dates or Risk Event Determination Dates, as applicable, may occur with respect to each Reference Entity save in the case of Nth-to-Default Basket Credit Linked Notes and the nth Reference Entity (where a Relevant Credit Event and Relevant Event Determination Date may occur only in relation to the nth Reference Entity).

What sort of indices may be referenced by Index Untranching Credit Linked Notes or Index Tranching Credit Linked Notes?

Index Untranching Credit Linked Notes or Index Tranching Credit Linked Notes may reference an index that is either an iTraxx® index or a CDX® index.

DISCRETIONARY POWERS OF THE ISSUER AND THE CALCULATION AGENT

What are some of the key determinations that the Calculation Agent is responsible for making in relation to Credit Linked Notes?

Securityholders should note that the Calculation Agent is responsible for making certain determinations with respect to the Credit Linked Notes.

The Calculation Agent is responsible for, amongst other things:

- (a) in the absence of a resolution by a Credit Derivatives Determinations Committee as to whether a Credit Event has occurred in relation to the relevant Reference Entity, electing whether to deliver a Credit Event Notice and supporting information in order to trigger settlement of the Credit Linked Notes following the occurrence of a Credit Event;
- (b) where the Credit Event Redemption Amount is not determined by an Auction, determining the Final Price on the basis of bid quotations from third party dealers;
- (c) determining successor Reference Entities for the purposes of the Credit Linked Notes;
- (d) determining substitute Reference Obligation(s) for the purposes of the Credit Linked Notes;
- (e) following the occurrence of an M(M)R Restructuring, determining the Exercise Amount of Credit Linked Notes to which such M(M)R Restructuring applies;
- (f) following the occurrence of an Event Determination Date, where an Event Determination Date occurred on a date that is different from the date first determined or that no Event Determination Date occurred or occurred prior to a preceding Interest Payment Date, determining, acting in its sole and absolute discretion, any additional amount payable to the Securityholder(s) or any reduction in any subsequent amount that would otherwise subsequently be payable to the Securityholders and the date on which such adjustment payment is payable; and
- (g) determining whether a Merger Event or Substitution Event Date has occurred.

Securityholders should note that any determination and/or calculation made by the Calculation Agent shall, in the absence of manifest error, be final, conclusive and binding on the Issuer and the Securityholders.

ANNEX: WORKED EXAMPLES IN RESPECT OF CREDIT LINKED NOTES**(2014 REFERENCE ENTITY)**

The worked examples below are in respect of Credit Linked Notes (other than Local Access Credit Linked Notes) for which "2014 Reference Entity" is specified as applicable in the applicable Issue Terms and are included for illustrative purposes only and should not be relied upon. They are not an indication of the likely performance of, or amounts payable in respect of, the Credit Linked Notes. The inclusion or absence of any assumption or any other feature in any worked example in this Annex is not an indication that such assumption or feature will or will not exist in any Credit Linked Note. Prospective investors should conduct their own independent review and obtain such professional advice as they deem appropriate prior to any investment in the Credit Linked Notes.

Unless otherwise expressly indicated, all amounts in this Annex are denominated in EUR.

(i) SINGLE NAME CREDIT LINKED NOTES AND NTH-TO-DEFAULT BASKET CREDIT LINKED NOTES**Scenario 1: This example assumes the following:**

- (a) an investor invests 40,000,000 in a Single Name Credit Linked Note;**
- (b) the Outstanding Nominal Amount of the Note is 40,000,000;**
- (c) the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;**
- (d) no succession event has occurred in respect of R1;**
- (e) a Repudiation/Moratorium Credit Event occurs in respect of R1; and**
- (f) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.**

Based on these assumptions, the Applicable Proportion (Outstanding Nominal Amount (40,000,000) x 100%) would be 40,000,000.

If "Credit Payment following Credit Event" applies:

- (a) Assume that Unwind Costs of 1,000 are determined. The Auction Redemption Amount [(Applicable Proportion (40,000,000) x Auction Final Price (65%)) – the Note's *pro rata* share of Unwind Costs (1,000)] would be 25,999,000.
- (b) 25,999,000 is paid on the Auction Redemption Date. Although the investor receives less than par, as the Applicable Proportion is written down reducing the original investment to zero, nothing remains outstanding.
- (c) As no further Credit Events can occur, the Outstanding Aggregate Nominal Amount (Original investment (40,000,000) – sum of Applicable Proportion(s) (40,000,000)) = 0 on the Scheduled Maturity Date, i.e. the notional is completely wiped out. Nothing remains to be paid to the investor.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (40,000,000) + sum of all Auction Redemption Amounts (in this case, there is only a single Auction

Redemption Amount (26,000,000))) is paid. 26,000,000 will be the Final Auction Redemption Amount.

Scenario 2: This example assumes the following:

- (a) an investor invests 40,000,000 in a Single Name Credit Linked Note;
- (b) the Outstanding Nominal Amount of the Note is 40,000,000;
- (c) the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;
- (d) no succession event has occurred in respect of R1;
- (e) an M(M)R Restructuring Credit Event occurs in respect of R1 with a partial exercise of 5,000,000; and
- (f) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.

Based on these assumptions, the Applicable Proportion (Outstanding Nominal Amount (40,000,000) x Exercise Amount (5,000,000)/Original investment (40,000,000))) would be 5,000,000.

If "Credit Payment following Credit Event" applies:

- (a) Assume that Unwind Costs of 200 are determined. The Auction Redemption Amount $[(\text{Applicable Proportion (5,000,000)} \times \text{Auction Final Price (65\%)}) - \text{the Note's } pro \text{ rata share of Unwind Costs (200)}]$ would be 3,249,800.
- (b) 3,249,800 is paid on the Auction Redemption Date. This would be a partial redemption.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (5,000,000)) = 35,000,000 is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (5,000,000) + sum of all Auction Redemption Amounts (in this case, there is only a single Auction Redemption Amount (3,250,000))) is paid. 38,250,000 will be the Final Auction Redemption Amount.

Scenario 3: This example assumes the following:

- (a) an investor invests 40,000,000 in a Single Name Credit Linked Note;
- (b) the Outstanding Nominal Amount of the Note is 40,000,000;
- (c) Scenario 2 (i.e. partial redemption of 5,000,000 following an M(M)R Restructuring) has occurred;
- (d) the Credit Linked Note has not been previously purchased and cancelled (but has been partially redeemed pursuant to (c) above);
- (e) a succession event has occurred in respect of R1 resulting in multiple successors (i.e. R1A and R1B);
- (f) a second Credit Event (this time, a Failure to Pay) occurs in respect of R1A; and
- (g) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 90%.

Based on these assumptions:

- (a) following a Successor determination, the Calculation Agent would have adjusted the aggregate nominal amount of the Note equally between the Successors, giving each a partial nominal amount of 17,500,000 (original investment of 40,000,000 is reduced to 35,000,000 following the earlier M(M)R Restructuring in respect of R₁, leaving a balance aggregate nominal amount of 35,000,000. This is divided into 2 for each successor); and
- (b) the Applicable Proportion in respect of the Failure to Pay Credit Event (Outstanding Nominal Amount (40,000,000) x Single Name Partial Nominal Amount (17,500,000) / Original investment (40,000,000)) would be 17,500,000.

If "Credit Payment following Credit Event" applies:

- (a) Assume that Unwind Costs of 500 are determined. The Auction Redemption Amount in respect of the Failure to Pay Credit Event [(Applicable Proportion (17,500,000) x Auction Final Price (90%)) – the Note's *pro rata* share of Unwind Costs (500)] would be 15,749,500.
- (b) 15,749,500 is paid on the Auction Redemption Date. This would be a partial redemption.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (40,000,000) – sum of Applicable Proportions (5,000,000 (for M(M)R Restructuring) + 17,500,000 (for Failure to Pay))) = 17,500,000 (Unexercised portion in respect of Reference Entity R_{1B}) is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportions (5,000,000 (for M(M)R Restructuring) + 17,500,000 (for Failure to Pay)) + sum of all Auction Redemption Amounts (3,250,000 (M(M)R Restructuring) + 15,750,000 (Failure to Pay))) is paid. 36,500,000 will be Final Auction Redemption Amount.

Scenario 4: This example assumes the following:

- (a) an investor invests in an EUR-denominated Single Name Credit Linked Note;
- (b) the Outstanding Nominal Amount of the Note is EUR 10,000,000;
- (c) the Credit Linked Note pays interest and principal to the investor in EUR;
- (d) due to the Issuer's funding arrangements, it receives amounts from its funding source only in USD;
- (e) since the Note is denominated in EUR but the Issuer receives funding in USD only, the Issuer enters into a cross-currency swap with a swap counterparty in order to hedge its exposure to fluctuations in the EURUSD exchange rate (the "Cross Currency Swap");
- (f) during the life of the Cross Currency Swap, the Issuer (i) pays amounts it receives from its funding source (in USD) to the swap counterparty, and (ii) in return, receives payments (in EUR) from the swap counterparty in order to pay interest and principal to the investor in EUR;
- (g) the Issuer also enters into a credit default swap (with a notional amount of EUR 10,000,000) to hedge its exposure under the Credit Linked Note;
- (h) the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;
- (i) no succession event has occurred in respect of R1;
- (j) a Bankruptcy Credit Event occurs in respect of R1;
- (k) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%;
- (l) the EURUSD exchange rate as at the Issue Date is 1.179 ("Initial Exchange Rate"); and
- (m) if the Cross Currency Swap is unwound before its scheduled termination, a mark-to-market unwind amount is payable by the party that is out-of-the-money under the Cross Currency Swap to the other party.

Based on these assumptions, the Applicable Proportion would be EUR 10,000,000.

If "Credit Payment following Credit Event" applies:

- (a) The Cross Currency Swap is terminated early. Assume that, on the Credit Event Redemption Date, the Cross Currency Swap is out-of-the-money from the Issuer's perspective by an amount of EUR 2,593,458. This amount is payable by the Issuer to its swap counterparty under the Cross Currency Swap and, therefore, reflects the Unwind Costs to terminate the Cross Currency Swap.
- (b) The Auction Redemption Amount in respect of the Bankruptcy Credit Event $[(\text{Applicable Proportion (EUR 10,000,000)} \times \text{Auction Final Price (65\%)}) - \text{the Note's } \textit{pro rata} \text{ share of Unwind Costs (EUR 2,593,458)}]$ would be EUR 3,906,542.
- (c) EUR 3,906,542 is paid on the Auction Redemption Date. Although the investor receives less than par, as the Applicable Proportion is written down reducing the original investment to zero, nothing remains outstanding.
- (d) As no further Credit Events can occur, the Outstanding Aggregate Nominal Amount (Original investment (EUR 10,000,000) – sum of Applicable Proportion(s) (EUR

10,000,000)) = 0 on the Scheduled Maturity Date, i.e. the notional is reduced to zero. Nothing remains to be paid to the investor.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, the Cross Currency Swap is not terminated on the occurrence of the Credit Event but continues to run to maturity. Accordingly, the Issuer does not incur any Unwind Costs in respect of the Cross Currency Swap and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (EUR 10,000,000) – sum of Applicable Proportion(s) (EUR 10,000,000) + sum of all Auction Redemption Amounts (in this case, there is only a single Auction Redemption Amount (EUR 6,500,000) calculated as (Applicable Proportion (EUR 10,000,000) x Auction Final Price (65%) – Unwind Costs (zero)))) is paid. EUR 6,500,000 will be the Final Auction Redemption Amount.

Scenario 5: This example assumes the following:

- (a) an investor invests 40,000,000 in an Nth-to-Default Basket Credit Linked Note, with the basket comprising three Reference Entities, R1, R2 and R3 (where 'n' = 3);
- (b) the Specified Denomination of the Note is 40,000,000;
- (c) the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;
- (d) an M(M)R Restructuring has occurred in respect of R2;
- (e) a second Credit Event (this time, a Failure to Pay) occurs in respect of R3;
- (f) a third Credit Event (this time, a Bankruptcy) occurs in respect of R1; and
- (g) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.

Based on these assumptions:

- (a) the first Credit Event in respect of R₂ will be disregarded (since it isn't the nth Reference Entity in respect of which a Credit Event has occurred);
- (b) the second Credit Event in respect of R₃ will be disregarded (since it isn't the nth Reference Entity in respect of which a Credit Event has occurred);
- (c) the third Credit Event in respect of R₁ will trigger a Credit Event (since it is the third (i.e. the "nth") Reference Entity in respect of which a Credit Event has occurred); and
- (d) the Applicable Proportion (Specified Denomination (40,000,000) x 100%) would be 40,000,000.

If "Credit Payment following Credit Event" applies:

- (a) Assume that Unwind Costs of 1000 are determined. The Auction Redemption Amount [(Applicable Proportion (40,000,000) x Auction Final Price (65%)) – the Note's *pro rata* share of Unwind Costs (1000)] would be 25,999,000.
- (b) 25,999,000 is paid on the Auction Redemption Date.

SCHEDULE A – CREDIT LINKED CONDITIONS – PART I

- (c) As no further Credit Events can occur, the Outstanding Aggregate Nominal Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (40,000,000)) = 0 on the Scheduled Maturity Date, i.e. the notional is completely wiped out. Nothing remains to be paid to the investor.

If "**Credit Payment on Maturity**" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (40,000,000) + sum of all Auction Redemption Amounts (in this case, there is only a single Auction Redemption Amount (26,000,000))) is paid. 26,000,000 will be the Final Auction Redemption Amount.

(ii) LINEAR BASKET CREDIT LINKED NOTES AND INDEX UNTRANCHED CREDIT LINKED NOTES

Scenario 1: This example assumes the following:

- (a) **an investor invests 40,000,000 in a Linear Basket Credit Linked Note, with the basket comprising four equally weighted Reference Entities, R1, R2, R3 and R4;**
- (b) **the Specified Denomination of the Note is 40,000,000;**
- (c) **the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;**
- (d) **no succession event has occurred in respect of any Reference Entity;**
- (e) **a Bankruptcy Credit Event occurs in respect of R1; and**
- (f) **"Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.**

Based on these assumptions:

- (a) since the four Reference Entities are equally weighted (i.e. 25% each), the Reference Entity Notional Amount = 10,000,000 per Reference Entity; and
- (b) the Applicable Proportion (Specified Denomination (40,000,000) x Reference Entity Notional Amount (10,000,000/original investment (40,000,000))) would be 10,000,000.

If "**Credit Payment following Credit Event**" applies:

- (a) Assume that Unwind Costs of 750 are determined. The Auction Redemption Amount [(Applicable Proportion (10,000,000) x Auction Final Price (65%)) – the Note's *pro rata* share of Unwind Costs (750)] would be 6,499,250.
- (b) 6,499,250 is paid on the Auction Redemption Date. This would be a partial redemption.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (10,000,000)) = 30,000,000 is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportion(s) (10,000,000) + sum of all Auction Redemption Amounts (in this case, there is only a single Auction Redemption Amount (6,500,000))) is paid. 36,500,000 will be the Final Auction Redemption Amount.

Scenario 2: This example assumes the following:

- (a) an investor invests 40,000,000 in a Linear Basket Credit Linked Note, with the basket comprising four equally weighted Reference Entities, R1, R2, R3 and R4;
- (b) the Specified Denomination of the Note is 40,000,000;
- (c) no succession event has occurred in respect of any Reference Entity;
- (d) Scenario 1 (i.e. partial redemption of 10,000,000 following a Bankruptcy Credit Event) has occurred in respect of R1;
- (e) the Credit Linked Note has not been previously purchased and cancelled (but has been partially redeemed pursuant to (d) above);
- (f) a second Credit Event (this time, an M(M)R Restructuring) occurs in respect of R2 with a partial exercise of 5,000,000; and
- (g) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.

Based on these assumptions, the Applicable Proportion in respect of the M(M)R Restructuring Credit Event (Specified Denomination (40,000,000) x Exercise Amount (5,000,000/original investment (40,000,000)) would be 5,000,000.

If "Credit Payment following Credit Event" applies:

- (a) Assume that Unwind Costs of 400 are determined. The Auction Redemption Amount in respect of the M(M)R Restructuring Credit Event [(Applicable Proportion (5,000,000) x Auction Final Price (65%)) – the Note's *pro rata* share of Unwind Costs (400)] would be 3,249,600.
- (b) 3,249,600 is paid on the Auction Redemption Date. This would be a partial redemption.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (40,000,000) – sum of Applicable Proportions (10,000,000 (for Bankruptcy) + 5,000,000 (for M(M)R Restructuring))) = 25,000,000 is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportions (10,000,000 (for Bankruptcy) + 5,000,000 (for M(M)R Restructuring)) + sum of all Auction

Redemption Amounts (6,500,000 (for Bankruptcy) + 3,250,000 (for M(M)R Restructuring))) is paid. 34,750,000 will be the Final Auction Redemption Amount.

Scenario 3: This example assumes the following:

- (a) an investor invests 40,000,000 in a Linear Basket Credit Linked Note, with the basket comprising four equally weighted Reference Entities, R1, R2, R3 and R4;
- (b) the Specified Denomination of the Note is 40,000,000;
- (c) Scenario 1 (i.e. partial redemption of 10,000,000 following a Bankruptcy Credit Event) has occurred in respect of R1;
- (d) Scenario 2 (i.e. partial redemption of 5,000,000 following an M(M)R Restructuring Credit Event) has occurred in respect of R2;
- (e) the Credit Linked Note has not been previously purchased and cancelled (but has been partially redeemed pursuant to (c) and (d) above);
- (f) a succession event has occurred in respect of R2 resulting in multiple successors (i.e. R2A and R2B);
- (g) a third Credit Event (this time, a Failure to Pay) occurs in respect of R2A; and
- (h) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 90%.

Based on these assumptions:

- (a) following a Successor determination, the Calculation Agent would have adjusted the outstanding Reference Entity Notional Amount equally between the Successors, giving each a partial nominal amount of 2,500,000 (original Reference Entity Notional Amount of 10,000,000 is reduced to 5,000,000 following the earlier M(M)R Restructuring in respect of R₂, leaving a balance aggregate nominal amount of 5,000,000. This is divided into 2 for each successor); and
- (b) the Applicable Proportion in respect of the Failure to Pay Credit Event (Specified Denomination (40,000,000) x Partial Nominal Amount (2,500,000/original investment (40,000,000))) would be 2,500,000.

If "Credit Payment following Credit Event" applies:

- (a) Assume that Unwind Costs of 100 are determined. The Auction Redemption Amount in respect of the Failure to Pay Credit Event [(Applicable Proportion (2,500,000) x Auction Final Price (90%)) – the Note's *pro rata* share of Unwind Costs (100)] would be 2,249,900.
- (b) 2,249,900 is paid on the Auction Redemption Date. This would be a partial redemption.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (40,000,000) – sum of Applicable Proportions (10,000,000 (for Bankruptcy) + 5,000,000 (for M(M)R Restructuring) + 2,500,000 (Failure to Pay)) = 22,500,000 (being the total Reference Entity Notional Amounts of unaffected Reference Entities R3 and R4 and the unexercised portion of R2) is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is no redemption at the time of the Credit Event, i.e. the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Final Auction Redemption Date, the Final Auction Redemption Amount (original investment (40,000,000) – sum of Applicable Proportions (10,000,000 (for Bankruptcy) + 5,000,000 (for M(M)R Restructuring) + 2,500,000 (Failure to Pay)) + sum of all Auction Redemption Amounts (6,500,000 (for Bankruptcy) + 3,250,000 (for M(M)R Restructuring) + 2,250,000 (Failure to Pay)) is paid. 34,500,000 will be the Final Auction Redemption Amount.

(iii) **INDEX TRANCHED CREDIT LINKED NOTES AND PORTFOLIO TRANCHED CREDIT LINKED NOTES**

Scenario 1: This example assumes the following:

- (a) an investor invests 10,000,000 in an Index Tranch Credit Linked Note, with the Index comprising 100 equally weighted Reference Entities and the Tranche being 0-5%;
- (b) the Specified Denomination of the Note is 10,000,000;
- (c) the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;
- (d) no succession event has occurred in respect of any Reference Entity;
- (e) a Credit Event (regardless of whether M(M)R Restructuring or not) occurs in respect of Rx; and
- (f) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.

Based on these assumptions:

- (a) the Implicit Portfolio Size (i.e. original investment (10,000,000)/ Tranche Size (5%)) = 200,000,000;
- (b) since the 100 Reference Entities are equally weighted (i.e. 1% each), the Reference Entity Notional Amount (i.e. Implicit Portfolio Size (200,000,000)/ Reference Entity Weighting (1%)) = 2,000,000 per Reference Entity;
- (c) the Loss Threshold Amount (i.e. Implicit Portfolio Size (200,000,000) x Attachment Point (0%)) = 0;
- (d) the Recovery Threshold Amount (i.e. Implicit Portfolio Size (200,000,000) x (100% - Exhaustion Point (5%)) = 190,000,000;
- (e) the Index Tranch Incurred Loss Amount is calculated as the lowest of (x) the Loss Amount; (y) the Aggregate Loss Amount *minus* the Loss Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Loss Amount (i.e. Reference Entity Notional Amount for Rx (2,000,000) x (100% - Auction Final Price (65%)) = 700,000.
 - as the first Credit Event, the Aggregate Loss Amount would be 700,000 and after deducting the Loss Threshold Amount of 0, the calculation for (y) would be 700,000.

- given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (disregarding any reduction in respect of the current Credit Event) would be 10,000,000.

Based on the above, the lowest of (x), (y) and (z) would be 700,000. Therefore, the Index Trunched Incurred Loss Amount would be 700,000.

- (f) the Index Trunched Incurred Recovery Amount is calculated as the lowest of (x) the Recovery Amount; (y) the Aggregate Recovery Amount *minus* the Recovery Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
- the Recovery Amount (i.e. Reference Entity Notional Amount for Rx (2,000,000) x Auction Final Price (65%)) = 1,300,000.
 - as the first Credit Event, the Aggregate Recovery Amount would be 1,300,000. If we deducted the Recovery Threshold Amount of 190,000,000, this would be floored at zero given it is a negative number and the calculation for (y) would be 0.
 - given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (disregarding any reduction in respect of the current Credit Event) would be 10,000,000.

Based on the above, the lowest of (x), (y) and (z) would be 0. Therefore, the Index Trunched Incurred Recovery Amount would be 0.

- (g) the Principal Writedown Amount (i.e. the Index Trunched Incurred Recovery Amount (0) + the Index Trunched Incurred Loss Amount (700,000)) = 700,000.

If "Credit Payment following Credit Event" applies:

- (a) The Outstanding Aggregate Nominal Amount is reduced by 700,000 (i.e. the Principal Writedown Amount) with effect from 1 Business Day following the Event Determination Date. This would be a partial writedown.
- (b) Assume that Unwind Costs of 100 are determined. The Index Trunched Redemption Amount [i.e. max (0, the Note's *pro rata* share of (i) the Index Trunched Incurred Recovery Amount (0) – (ii) Unwind Costs (100))] = 0 and accordingly, no redemption amounts are payable to the investor.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (700,000)) = 9,300,000 is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is a writedown at the time of each Credit Event, but the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Scheduled Maturity Date, the Index Trunched Final Redemption Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (700,000) + sum of all Index Trunched Redemption Amounts (in this case, 0)) is paid. 9,300,000 will be the Index Trunched Final Redemption Amount.

Scenario 2: This example assumes the following:

- (a) an investor invests 10,000,000 in an Index Tranching Credit Linked Note, with the Index comprising 100 equally weighted Reference Entities and the Tranche being 0-5%;
- (b) the Specified Denomination of the Note is 10,000,000;
- (c) no succession event has occurred in respect of any Reference Entity;
- (d) Scenario 1 (i.e. partial writedown of 700,000 following the Credit Event) has occurred;
- (e) the Credit Linked Note has not been previously purchased and cancelled (but has been partially written down pursuant to (d) above);
- (f) five Credit Events occur (with each having the same Event Determination Date) in respect of Rx; and
- (g) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 0%.

Based on these assumptions:

- (a) the Index Tranching Incurred Loss Amount is calculated as the lowest of (x) the Loss Amount; (y) the Aggregate Loss Amount *minus* the Loss Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Loss Amount (i.e. Reference Entity Notional Amount for 5 Reference Entities $(2,000,000 \times 5) \times (100\% - \text{Auction Final Price } (0\%)) = 10,000,000$).
 - the Aggregate Loss Amount (including the loss of 700,000 in respect of the first Credit Event) and after deducting the Loss Threshold Amount of 0 would be 10,700,000.
 - Given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (including the previous writedown of 700,000) would be 9,300,000.

Based on the above, the lowest of (x), (y) and (z) would be 9,300,000. Therefore, the Index Tranching Incurred Loss Amount would be 9,300,000.

- (b) the Index Tranching Incurred Recovery Amount is calculated as the lowest of (x) the Recovery Amount; (y) the Aggregate Recovery Amount *minus* the Recovery Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Recovery Amount (i.e. Reference Entity Notional Amount for 5 Reference Entities $(2,000,000 \times 5) \times \text{Auction Final Price } (0\%) = 0$).
 - the Aggregate Recovery Amount (including the recovery of 1,300,000 in respect of the first Credit Event) would be 0. If we deducted the Recovery Threshold Amount of 190,000,000, this would be floored at zero given it is a negative number and the calculation for (y) would be 0.
 - Given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (including the previous writedown of 700,000) would be 9,300,000.

Based on the above, the lowest of (x), (v) and (z) would be 0. Therefore, the Index Trunched Incurred Recovery Amount would be 0.

- (c) the Principal Writedown Amount (i.e. the Index Trunched Incurred Recovery Amount (0) + the Index Trunched Incurred Loss Amount (9,300,000) = 9,300,000.

If "Credit Payment following Credit Event" applies:

- (a) The Outstanding Aggregate Nominal Amount is further reduced by 9,300,000 (i.e. the Principal Writedown Amount) with effect from 1 Business Day following the Event Determination Date. This would be a further partial writedown.
- (b) Assume that Unwind Costs of 500 are determined. The Index Trunched Redemption Amount [i.e. max (0, the Note's *pro rata* share of (i) the Index Trunched Incurred Recovery Amount (0) – (ii) Unwind Costs (500))] = 0 and accordingly, no redemption amounts are payable to the investor.
- (c) If no other Credit Events occur, the Index Trunched Final Redemption Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (700,000 + 9,300,000) + sum of all Index Trunched Redemption Amounts (in this case, 0)) = 0 on the Scheduled Maturity Date, i.e. the notional is completely wiped out. Nothing remains to be paid to the investor.

If "Credit Payment on Maturity" applies:

- (a) There is a writedown at the time of each Credit Event, but the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Scheduled Maturity Date, the Index Trunched Final Redemption Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (700,000 + 9,300,000) + sum of all Index Trunched Redemption Amounts (in this case, 0)) = 0, i.e. the notional is completely wiped out. Nothing remains to be paid to the investor.

Scenario 3: This example assumes the following:

- (a) **an investor invests 10,000,000 in a Portfolio Trunched Credit Linked Note, with the portfolio comprising 100 equally weighted Reference Entities and the Tranche being 80-100%;**
- (b) **the Specified Denomination of the Note is 10,000,000;**
- (c) **the Credit Linked Note has not been previously redeemed in full or purchased and cancelled;**
- (d) **no succession event has occurred in respect of any Reference Entity;**
- (e) **a Credit Event (regardless of whether M(M)R Restructuring or not) occurs in respect of Rx; and**
- (f) **"Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 65%.**

Based on these assumptions:

- (a) the Implicit Portfolio Size (i.e. original investment (10,000,000)/ Tranche Size (20%)) = 50,000,000;
- (b) since the 100 Reference Entities are equally weighted (i.e. 1% each), the Reference Entity Notional Amount (i.e. Implicit Portfolio Size (50,000,000) x Reference Entity Weighting (1%)) = 500,000 per Reference Entity;

- (c) the Loss Threshold Amount (i.e. Implicit Portfolio Size (50,000,000) x Attachment Point (80%)) = 40,000,000;
- (d) the Recovery Threshold Amount (i.e. Implicit Portfolio Size (200,000,000) x (100% - Exhaustion Point (100%)) = 0;
- (e) the Portfolio Trunched Incurred Loss Amount is calculated as the lowest of (x) the Loss Amount; (y) the Aggregate Loss Amount *minus* the Loss Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Loss Amount (i.e. Reference Entity Notional Amount for Rx (500,000) x (100% - Auction Final Price (65%)) = 175,000.
 - as the first Credit Event, the Aggregate Loss Amount would be 175,000. If we deducted the Loss Threshold Amount of 40,000,000, this would be floored at zero given it is a negative number and the calculation for (y) would be 0.
 - Given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (disregarding any reduction in respect of the current Credit Event) would be 10,000,000.

Based on the above, the lowest of (x), (y) and (z) would be 0. Therefore, the Portfolio Trunched Incurred Loss Amount would be 0.

- (f) the Portfolio Trunched Incurred Recovery Amount is calculated as the lowest of (x) the Recovery Amount; (y) the Aggregate Recovery Amount *minus* the Recovery Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Recovery Amount (i.e. Reference Entity Notional Amount for Rx (500,000) x Auction Final Price (65%)) = 325,000.
 - as the first Credit Event, the Aggregate Recovery Amount would be 325,000 and after deducting the Recovery Threshold Amount of 0, the calculation for (y) would be 325,000.
 - Given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (disregarding any reduction in respect of the current Credit Event) would be 10,000,000.

Based on the above, the lowest of (x), (y) and (z) would be 325,000. Therefore, the Portfolio Trunched Incurred Recovery Amount would be 325,000.

- (g) the Principal Writedown Amount (i.e. the Portfolio Trunched Incurred Recovery Amount (325,000) + the Portfolio Trunched Incurred Loss Amount (0) = 325,000.

If "Credit Payment following Credit Event" applies:

- (a) The Outstanding Aggregate Nominal Amount is reduced by 325,000 (i.e. the Principal Writedown Amount) with effect from 1 Business Day following the Event Determination Date. This would be a partial writedown.
- (b) Assume that Unwind Costs of 200 are determined. The Portfolio Trunched Redemption Amount [i.e. max (0, the Note's *pro rata* share of (i) the Portfolio Trunched Incurred Recovery Amount (325,000) – Unwind Costs (200))] = 324,800 is paid on the Auction Redemption Date.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (325,000)) = 9,675,000 is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is a writedown at the time of each Credit Event, but the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Scheduled Maturity Date, the Portfolio Trunched Final Redemption Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (325,000) + sum of all Portfolio Trunched Redemption Amounts (325,000)) is paid. 10,000,000 will be the Portfolio Trunched Final Redemption Amount.

Scenario 4: This example assumes the following:

- (a) an investor invests 10,000,000 in a Portfolio Trunched Credit Linked Note, with the portfolio comprising 100 equally weighted Reference Entities and the Tranche being 80-100%;
- (b) the Specified Denomination of the Note is 10,000,000;
- (c) no succession event has occurred in respect of any Reference Entity;
- (d) Scenario 3 (i.e. partial writedown of 325,000 following a Credit Event) has occurred in respect of Rx;
- (e) the Credit Linked Note has not been previously purchased and cancelled (but has been partially written down pursuant to (d) above);
- (f) 90 Credit Events occur (with each having the same Event Determination Date) in respect of Rx; and
- (g) "Auction Redemption" is the applicable method of redemption, with an assumed Auction Final Price of 10%.

Based on these assumptions:

- (a) the Portfolio Trunched Incurred Loss Amount is calculated as the lowest of (x) the Loss Amount; (y) the Aggregate Loss Amount *minus* the Loss Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Loss Amount (i.e. Reference Entity Notional Amount for 90 Reference Entities (500,000 x 90) x (100% - Auction Final Price (10%)) = 40,500,000.
 - the Aggregate Loss Amount (including the loss of 175,000 in respect of the first Credit Event) and after deducting the Loss Threshold Amount of 40,000,000 would be 675,000.
 - Given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (including the previous writedown of 325,000) would be 9,675,000.

Based on the above, the lowest of (x), (y) and (z) would be 675,000. Therefore, the Portfolio Trunched Incurred Loss Amount would be 675,000.

- (b) the Portfolio Trunched Incurred Recovery Amount is calculated as the lowest of (x) the Recovery Amount; (y) the Aggregate Recovery Amount *minus* the Recovery Threshold Amount (subject to a minimum of zero); and (z) the Outstanding Aggregate Nominal Amount (before applying any current default reduction). In this case:
 - the Recovery Amount (i.e. Reference Entity Notional Amount for 90 Reference Entities (500,000 x 90) x Auction Final Price (10%)) = 4,500,000.

- the Aggregate Recovery Amount (including the recovery of 325,000 in respect of the first Credit Event) and after deducting the Recovery Threshold Amount of 0 would be 4,825,000.
- given the original investment of 10,000,000, the Outstanding Aggregate Nominal Amount (including the previous writedown of 325,000) would be 9,675,000.

Based on the above, the lowest of (x), (y) and (z) would be 4,500,000. Therefore, the Portfolio Trunched Incurred Recovery Amount would be 4,500,000.

- (c) the Principal Writedown Amount (i.e. the Portfolio Trunched Incurred Recovery Amount 4,500,000) + the Portfolio Trunched Incurred Loss Amount (675,000) = 5,175,000.

If "Credit Payment following Credit Event" applies:

- (a) The Outstanding Aggregate Nominal Amount is further reduced by 5,175,000 (i.e. the Principal Writedown Amount) with effect from 1 Business Day following the Event Determination Date. This would be a further partial writedown.
- (b) Assume that Unwind Costs of 1,500 are determined. The Portfolio Trunched Redemption Amount [i.e. max (0, the Note's *pro rata* share of (i) the Portfolio Trunched Incurred Recovery Amount (4,500,000) – Unwind Costs (1,500))] = 4,498,500 is paid on the Auction Redemption Date.
- (c) If no other Credit Events occur, the Outstanding Aggregate Nominal Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (325,000 + 5,175,000)) = 4,500,000 is paid on the Scheduled Maturity Date.

If "Credit Payment on Maturity" applies:

- (a) There is a writedown at the time of each Credit Event, but the Note redeems at maturity only. In this case, assume that the Issuer does not incur any Unwind Costs and, therefore, the Unwind Costs in such case are zero.
- (b) On the Scheduled Maturity Date, the Portfolio Trunched Final Redemption Amount (original investment (10,000,000) – sum of Principal Writedown Amounts (325,000 + 5,175,000) + sum of all Portfolio Trunched Redemption Amounts (325,000 + 4,500,000)) is paid. 9,325,000 will be the Portfolio Trunched Final Redemption Amount.

Note: *In respect of Index Trunched Credit Linked Notes the examples above assume that no Credit Events have occurred in respect of Reference Entities referenced by the relevant Index at the Trade Date (or prior to the Issue Date). If such Credit Events have occurred the incurred loss amounts and incurred recovery amounts in respect of such Reference Entities (i.e. the Settled Entities) would need to be factored in while calculating the aggregate losses and aggregate recoveries and the Outstanding Aggregate Nominal Amount would need to be reduced by the settled entity incurred loss and settled entity incurred recovery on the Issue Date.*

PART II: CREDIT LINKED CONDITIONS (2014 REFERENCE ENTITY)

The Credit Linked Conditions of the Notes set out the specific terms and conditions that apply to only Credit Linked Notes for which "2014 Reference Entity" is specified as applicable in the applicable Issue Terms. For the avoidance of doubt, where this Part II applies, Part III (Credit Linked Conditions (2003 Reference Entity)) will not apply.

The Credit Linked Conditions set out the economic or 'payout' terms of the Credit Linked Notes. These are optional provisions and only certain of these terms will apply to the relevant Series of Credit Linked Notes. The applicable Issue Terms will specify which of the provisions apply to that Series of Credit Linked Notes.

The provisions in this Part II are the conditions (the "**Credit Linked Conditions**") that will apply to the Notes if the applicable Issue Terms provide that "Credit Linked Notes" are applicable (the "**Credit Linked Notes**") and "2014 Reference Entity" is applicable. These Credit Linked Conditions apply as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable. In the case of any inconsistency between these Credit Linked Conditions, the General Conditions and any other Schedule, these Credit Linked Conditions will prevail. *For the avoidance of doubt, any clarificatory language herein in italicised shall not form part of the Credit Linked Conditions.*

Words and expressions defined or used in the applicable Issue Terms shall have the same meanings where used in these Credit Linked Conditions, General Conditions and any other Schedule unless the context otherwise requires or unless otherwise stated. All capitalised terms that are not defined in these Credit Linked Conditions or elsewhere in the Terms and Conditions which are applicable to the Credit Linked Notes will have the meanings given to them in the applicable Issue Terms. References in these Credit Linked Conditions to "Credit Linked Notes" are to the Credit Linked Notes, as the case may be, of one Series only, not to all Credit Linked Notes that may be issued under the Programme. In respect of Credit Linked Notes which specify more than one Reference Entity in the applicable Issue Terms, all references in these Credit Linked Conditions to "the Reference Entity" shall be construed to refer to "a Reference Entity" or the "relevant Reference Entity" in respect of which the relevant determination is made at any relevant time and all related provisions and determinations will be construed accordingly.

Unless otherwise specified, references in these Credit Linked Conditions to a Credit Linked Condition are to the corresponding provision of these Credit Linked Conditions.

1. Redemption of Credit Linked Notes

(a) *Redemption on the Scheduled Maturity Date where no Relevant Credit Event or Relevant Risk Event has occurred*

Unless the Credit Linked Notes have been previously redeemed in full or purchased and cancelled by the Issuer, PROVIDED THAT a Relevant Event Determination Date or a Relevant Risk Event Determination Date, as applicable, has not occurred and subject to Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), each outstanding Credit Linked Note shall be redeemed on the Scheduled Maturity Date at the Maturity Redemption Amount or, in the case of a Single Name Credit Linked Note, a Local Access Single Name Credit Linked Note or a Local Access Basket Credit Linked Note to which Credit Linked Condition 1(b) (*Redemption by instalments*) applies, its final Instalment Redemption Amount.

(b) *Redemption by instalments*

- (i) Where the Single Name Credit Linked Notes, Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes are Instalment Notes, unless the Credit Linked Notes have been previously redeemed in full or purchased and cancelled by the Issuer, PROVIDED THAT a Relevant Event Determination Date or a Relevant Risk Event Determination Date, as applicable, has not occurred and subject to paragraph (ii) below and Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), such Instalment Notes shall be partially redeemed on each Instalment Date at the related Instalment Redemption Amount. The outstanding nominal amount of

each such Credit Linked Note shall be reduced by the relevant Instalment Redemption Amount (or, if such Instalment Redemption Amount is calculated by reference to a proportion of the nominal amount of such Credit Linked Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Redemption Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the Relevant Due Date relating to such Instalment Redemption Amount.

- (ii) Where the Calculation Agent determines on or prior to an Instalment Date, in its sole and absolute discretion, that one of the circumstances set out in Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question, a potential Credit Event or a potential Risk Event*) has occurred, it shall notify the Issuer and the Fiscal Agent. Following such notification, subject to Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), any Instalment Redemption Amounts due and payable in respect of such Instalment Date and each subsequent Instalment Date in each case in accordance with Credit Linked Condition 1(b) (*Redemption by instalments*) will, until a determination is made by the Calculation Agent to the contrary pursuant to paragraph (iii) below, be suspended as of such Instalment Date. The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 28 (Notices) as soon as reasonably practicable if any payment of Instalment Redemption Amounts on their Notes is suspended pursuant to this Credit Linked Condition 1(b)(ii).
- (iii) If the Calculation Agent determines in its sole and absolute discretion that one of the circumstances set out in Credit Linked Condition 2(d) (*Payment of Suspended Interest following announcement by the relevant CDS Information Publisher or determination by the Calculation Agent*) has occurred, the Credit Linked Notes then outstanding will be partially redeemed in an amount equal to the Instalment Redemption Amounts that were suspended pursuant to paragraph (ii) above no later than 10 Business Days following (I) in the case of Credit Linked Condition 2(d)(i)(A), the relevant announcement by the relevant CDS Information Publisher or (II) otherwise, the date on which the Calculation Agent determines that a Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, can no longer occur (taking into consideration any Notice Delivery Period, Post Dismissal Additional Period, the date of the Applicable DC Credit Event Question Dismissal, the date of the Applicable DC Credit Event Announcement and any Standard Exercise Cut-off Date or Non-Standard Exercise Cut-Off Date, as applicable) or the LA Cut-off Date, as applicable. In such case, no interest or other sum shall be payable in respect of the postponement of the payment of such amount.

(c) *Redemption following the occurrence of a Relevant Credit Event or a Relevant Risk Event*

Unless previously redeemed in full or purchased and cancelled, if a Relevant Credit Event or Relevant Risk Event, as applicable, and a corresponding Relevant Event Determination Date or a Relevant Risk Event Determination Date, as applicable, has occurred:

- (i) if the Credit Linked Notes are Single Name Credit Linked Notes which are also Credit Linked Principal Notes, the Issuer will redeem such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 3 (*Single Name Credit Linked Notes*);
- (ii) if the Credit Linked Notes are Nth-to-Default Basket Credit Linked Notes, the Issuer will redeem such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 4 (*Nth-to-Default Basket Credit Linked Notes*);
- (iii) if the Credit Linked Notes are Linear Basket Credit Linked Notes, the Issuer will redeem such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 5 (*Linear Basket Credit Linked Notes*);

SCHEDULE A – CREDIT LINKED CONDITIONS – PART II

- (iv) if the Credit Linked Notes are Index Untranchured Credit Linked Notes, the Issuer will redeem such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 6 (*Index Untranchured Credit Linked Notes*);
- (v) if the Credit Linked Notes are Index Tranchured Credit Linked Notes which are also Credit Linked Principal Notes, the Issuer will write down such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 7 (*Index Tranchured Credit Linked Notes*);
- (vi) if the Credit Linked Notes are Portfolio Tranchured Credit Linked Notes, the Issuer will write down such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 8 (*Portfolio Tranchured Credit Linked Notes*);
- (vii) if the Credit Linked Notes are Local Access Single Name Credit Linked Notes, the Issuer will redeem such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 9 (*Local Access Single Name Credit Linked Notes*); and
- (viii) if the Credit Linked Notes are Local Access Basket Credit Linked Notes, the Issuer will redeem such Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 10 (*Local Access Basket Credit Linked Notes*),

in each case subject to Credit Linked Conditions 16 (*M(M)R Restructuring*), 23 (*Effect of DC Resolutions*), 24 (*Successor Provisions*) or, in the case of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes only, Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*) or Credit Linked Condition 10(g) (*Adjustment following a Regulatory Change Event*), in each case as applicable.

Upon discharge by the Issuer of its payment or delivery obligations on the relevant Credit Event Redemption Date (or, if the Issuer does not have any payment or delivery obligations, upon the occurrence of the relevant Credit Event Redemption Date) pursuant to Credit Linked Conditions 17 (*Auction Redemption Terms*), 18 (*Cash Redemption Terms*), 19 (*Physical Redemption Terms*) or 20 (*Fixed Recovery Redemption Terms*), as applicable, or otherwise provided herein, the Issuer's obligations in respect of such portion of each Credit Linked Note affected by the Relevant Credit Event or Relevant Risk Event, as applicable, shall be discharged in full.

As a result of one or more Credit Events or Risk Events, as applicable, Securityholders may receive less than the principal amount of a Credit Linked Note (and such amount may be zero). Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.

- (d) *Early redemption other than following the occurrence of a Relevant Credit Event or a Relevant Risk Event*

If the Credit Linked Notes are redeemed early:

- (i) pursuant to the Terms and Conditions;
- (ii) following, if applicable, a Merger Event pursuant to Credit Linked Condition 21 (*Redemption upon Merger Event*); or
- (iii) following, if applicable, the redemption in whole of the Reference Obligation pursuant to Credit Linked Condition 26(c) (*Redemption in respect of Reference Obligation Only Series*),

each outstanding Credit Linked Note shall be redeemed by payment of its Early Termination Amount, Optional Redemption Amount, Merger Redemption Amount or Substitution Event Redemption Amount, as applicable, on the Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable, in each case, in accordance with the applicable Conditions.

Where Single Name Credit Linked Notes or Linear Basket Credit Linked Notes are also Zero Coupon Notes, the Early Termination Amount or Optional Redemption Amount, as applicable,

shall be the Zero Coupon Amortised Face Amount unless otherwise specified in the applicable Issue Terms.

Notwithstanding anything contained in these Credit Linked Conditions, if a Relevant Credit Event or a Relevant Risk Event, as applicable, occurs immediately after an event triggering early redemption of the Credit Linked Notes (as described above), the occurrence of the Relevant Credit Event or Relevant Risk Event, as applicable, will be disregarded (to the extent that the relevant Credit Linked Notes have not already been redeemed in full or purchased and cancelled) and the Early Termination Amount, Optional Redemption Amount, Merger Redemption Amount or Substitution Event Redemption Amount, as applicable, payable to Securityholders will be determined on the basis of the event triggering early redemption of the Credit Linked Notes only.

2. Interest or premium on Credit Linked Notes

(a) *Accrual of Interest where a Relevant Event Determination Date or a Relevant Risk Event Determination Date has not occurred*

Subject to Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question, a potential Credit Event or a potential Risk Event*), and PROVIDED THAT the Credit Linked Notes have not been previously redeemed in full or purchased and cancelled:

- (i) in respect of Credit Linked Notes other than Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, interest (if any) shall accrue on the Outstanding Aggregate Nominal Amount of the Credit Linked Notes in accordance with General Condition 5 (*Interest*) and the Valuation and Settlement Schedule (as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable) to (but excluding) the Scheduled Maturity Date, subject to Credit Linked Conditions 3 (*Single Name Credit Linked Notes*), 4 (*Nth-to-Default Basket Credit Linked Notes*), 5 (*Linear Basket Credit Linked Notes*), 6 (*Index Untranchered Credit Linked Notes*), 7 (*Index Tranchered Credit Linked Notes*) and 8 (*Portfolio Tranchered Credit Linked Notes*); and
- (ii) in respect of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, the LA Interest Amount specified in respect of each Interest Payment Date in the applicable Issue Terms shall be payable in the Settlement Currency on such Interest Payment Date, subject to Credit Linked Condition 9 (*Local Access Single Name Credit Linked Notes*) and 10 (*Local Access Basket Credit Linked Notes*), as applicable.

For the avoidance of doubt, no interest shall accrue on any Credit Linked Note on or after the Scheduled Maturity Date.

(b) *Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*

Notwithstanding anything to the contrary in General Condition 5 (*Interest*) and/or the Valuation and Settlement Schedule, following the occurrence of a Relevant Credit Event or Relevant Risk Event, as applicable, in respect of Credit Linked Notes other than Index Tranchered Credit Linked Notes which are Credit Linked Interest Notes, and a corresponding Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, the payment of interest (if any) or, in respect of Credit Linked Interest Notes only, Contingent Interest, in respect of the Applicable Proportion of each relevant Credit Linked Note (other than a Local Access Single Name Credit Linked Note or a Local Access Basket Credit Linked Note) on the relevant Interest Payment Date or the payment of the LA Interest Amount (if any) in respect of each Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note, as applicable, on the relevant LA Interest Payment Date, as determined in accordance with and subject to Credit Linked Conditions 3 (*Single Name Credit Linked Notes*), 4 (*Nth-to-Default Basket Credit Linked Notes*), 5 (*Linear Basket Credit Linked Notes*), 6 (*Index Untranchered Credit Linked Notes*), 7 (*Index Tranchered Credit Linked Notes*), 8 (*Portfolio*

SCHEDULE A – CREDIT LINKED CONDITIONS – PART II

Tranched Credit Linked Notes), 9 (*Local Access Single Name Credit Linked Notes*) or 10 (*Local Access Basket Credit Linked Notes*), as applicable, will be suspended as of:

- (i) if "No Interest Accrual on Default" applies in the applicable Issue Terms:
 - (x) the Interest Payment Date or LA Interest Payment Date, as applicable, immediately preceding the Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable; or
 - (y) where there is no Interest Payment Date or LA Interest Payment Date, as applicable, immediately preceding the Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, the Issue Date; or
- (ii) if "Interest Accrual on Default" applies in the applicable Issue Terms, the first Business Day immediately following the Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable.

In such case:

- (x) in respect of each relevant Credit Linked Note (other than a Local Access Single Name Credit Linked Note or a Local Access Basket Credit Linked Note), interest (or, in respect of Credit Linked Interest Notes only, Contingent Interest) shall accrue on the Applicable Proportion of such Credit Linked Note:
 - (I) from (and including) the Interest Payment Date immediately preceding the Relevant Event Determination Date, or (where there is no Interest Payment Date immediately preceding the Relevant Event Determination Date), the Issue Date
 - (II) to (and including) the Relevant Event Determination Date; or
 - (y) in respect of each relevant Local Access Single Name Credit Linked Note or a Local Access Basket Credit Linked Note, the LA Interest Amount corresponding to the relevant LA Interest Payment Date shall be payable if, and only if, an LA Interest Payment Date occurs during the period:
 - (I) from (and including) the LA Interest Payment Date immediately preceding the Relevant Risk Event Determination Date, or (where there is no LA Interest Payment Date immediately preceding the Relevant Risk Event Determination Date), the Issue Date;
 - (II) to (and including) the Relevant Risk Event Determination Date.
- (c) *Suspension of Interest following an Applicable DC Credit Event Question, a potential Credit Event or a potential Risk Event*

Subject to Credit Linked Conditions 2(d) (*Payment of Suspended Interest following announcement by the relevant CDS Information Publisher or determination by the Calculation Agent*), 2(e) (*Payment of Suspended Interest and reduction of future Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*) and 15 (*Scheduled Maturity Date Extension*) and subject as provided below in respect of Credit Linked Interest Notes which are Index Tranched Credit Linked Notes, if, on or prior to an Interest Payment Date or an LA Interest Payment Date, as applicable, the Calculation Agent determines that:

- (i) an Applicable DC Credit Event Question has been submitted in respect of which a DC Resolution (including, but not limited to, a DC Credit Event Announcement, a DC No Credit Event Announcement or a DC Credit Event Question Dismissal) has not been published or the Credit Derivatives Determinations Committee has not resolved whether it will convene a meeting to Resolve the Applicable DC Credit Event Question; or

- (ii) a Relevant Credit Event or Relevant Risk Event, as applicable, and corresponding Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, could occur but no Credit Event Notice or Risk Event Notice, as applicable, has been provided to the Issuer and/or the Securityholders,

either:

- (A) in respect of Credit Linked Notes other than Credit Linked Interest Notes which are Index Trunched Credit Linked Notes, the payment of any interest (or, in respect of Credit Linked Interest Notes which are Single Name Credit Linked Notes only, Contingent Interest) in respect of the Applicable Proportion or of the LA Interest Amount, as applicable; or
- (B) in respect of Credit Linked Interest Notes which are Index Trunched Credit Linked Notes, the payment of any Contingent Interest in respect of the Outstanding Aggregate Nominal Amount of the Credit Linked Notes,

will be suspended as of the Interest Payment Date or the LA Interest Payment Date, as applicable, on or immediately preceding the Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, or, where there is no Interest Payment Date or LA Interest Payment Date, as applicable, immediately preceding such Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, the Issue Date, notwithstanding that a Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, has not then occurred, PROVIDED THAT, in respect of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes only, the Calculation Agent will determine whether the payment of the LA Interest Amount for the relevant LA Interest Payment Date need not be suspended (due to such payment being unaffected by the potential Risk Event), in which case such suspension will not apply and the LA Interest Amount will be payable as usual on the relevant LA Interest Payment Date.

In respect of Credit Linked Interest Notes which are Index Trunched Credit Linked Notes, any such suspension shall only occur in the event that the Calculation Agent determines that the aggregate of all loss amounts incurred and calculated with respect to all Reference Entities in the Index would reach the Loss Threshold Amount were the relevant Credit Event to occur.

The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*) as soon as reasonably practicable if any payment of interest on their Notes is suspended pursuant to this Credit Linked Condition 2(c).

The Applicable Proportion of each relevant Credit Linked Note other than any Credit Linked Interest Note which is an Index Trunched Credit Linked Note shall be calculated by the Calculation Agent (i) on the assumption that (x) a Relevant Credit Event would result in a Relevant Event Determination Date, (y) the Relevant Credit Event will not be an M(M)R Restructuring and (z) where any Auction Final Price or Final Price, as applicable, is required to determine the portion of the Credit Linked Notes subject to interest suspension, a Fixed Recovery Percentage of zero per cent. will apply and (ii) in accordance with Credit Linked Conditions 3 (*Single Name Credit Linked Notes*), 4 (*Nth-to-Default Basket Credit Linked Notes*), 5 (*Linear Basket Credit Linked Notes*), 6 (*Index Untrunched Credit Linked Notes*), 7 (*Index Trunched Credit Linked Notes*) and 8 (*Portfolio Trunched Credit Linked Notes*), as applicable.

The loss amounts of each Credit Linked Interest Note which is an Index Trunched Credit Linked Note shall be calculated by the Calculation Agent (i) on the assumption that (x) a Credit Event would result in an Event Determination Date, (y) the relevant Credit Event will not be an M(M)R Restructuring and (z) the Fixed Recovery Percentage of zero per cent. will apply and (ii) in accordance with Credit Linked Condition 7 (*Index Trunched Credit Linked Notes*).

Except for such portion of interest (or, in respect of Credit Linked Interest Notes only, Contingent Interest) that is suspended in respect of each Credit Linked Note, payment of (i) in respect of Credit Linked Notes other than Credit Linked Interest Notes which are Index Trunched Credit Linked Notes, any interest or Contingent Interest, as applicable, on the

remaining portion of the relevant Credit Linked Note (which is unaffected by the Relevant Credit Event or Relevant Risk Event, as applicable) and (ii) any Non-Contingent Interest, in each case, if applicable, will be payable to Securityholders as usual on the relevant Interest Payment Date or LA Interest Payment Date, as applicable.

- (d) *Payment of Suspended Interest following announcement by the relevant CDS Information Publisher or determination by the Calculation Agent*

If:

- (i) in connection with an Applicable DC Credit Event Question:
 - (A) an Applicable DC No Credit Event Announcement occurs; or
 - (B) an Applicable DC Credit Event Question Dismissal occurs or the relevant CDS Information Publisher announces that the Credit Derivatives Determinations Committee will not be convening to Resolve the relevant Applicable DC Credit Event Question;
- (ii) the Calculation Agent determines that a Relevant Event Determination Date or a Relevant Risk Event Determination Date, as applicable, can no longer occur; or
- (iii) the LA Cut-Off Date in respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, has occurred,

as applicable, payment of the suspended interest will be made no later than 10 Business Days following (I) in the case of Credit Linked Condition 2(d)(i)(A) above, the relevant announcement by the relevant CDS Information Publisher or (II) otherwise, the date on which the Calculation Agent determines that a Relevant Event Determination Date or Relevant Risk Event Determination Date, as applicable, can no longer occur (taking into consideration any Notice Delivery Period, Post Dismissal Additional Period, the date of the Applicable DC Credit Event Question Dismissal, the date of the Applicable DC Credit Event Announcement and any Standard Exercise Cut-off Date or Non-Standard Exercise Cut-Off Date, as applicable) or the LA Cut-off Date, as applicable or, in respect of Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, the next following Interest Payment Date, at the discretion of the Calculation Agent.

For the avoidance of doubt, interest (or, in respect of Credit Linked Interest Notes only, Contingent Interest) shall continue to be suspended until a relevant announcement by the relevant CDS Information Publisher (as described above) occurs, the Calculation Agent determines that no Relevant Event Determination Date or Relevant Risk Event Determination Date (as applicable) can occur or an LA Cut-Off Date occurs. In such circumstances, Securityholders may not receive any interest for multiple Interest Periods and no liability shall attach to the Issuer for any such non-payment of interest.

- (e) *Payment of Suspended Interest and reduction of future Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*

If, a Relevant Event Determination Date occurs or a Relevant Risk Event Determination Date occurs on or prior to the LA Cut-Off Date:

- (i) where the Calculation Agent determines that the amount of interest suspended pursuant to Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question, a potential Credit Event or a potential Risk Event*) is greater than the amount of interest that should have been suspended (where relevant, taking into consideration the Applicable Proportion of the relevant Credit Linked Note affected by the Relevant Credit Event or, in the case of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, the relevant LA Interest Amount, as applicable), the Issuer shall pay an amount equal to:
 - (x) the interest amount actually suspended; minus

(y) the interest amount that should have been suspended,

no later than 10 Business Days following the date of such determination by the Calculation Agent or, in respect of Index Tranch Credit Linked Notes which are Credit Linked Interest Notes, the next following Interest Payment Date, at the discretion of the Calculation Agent; or

- (ii) where the Calculation Agent determines that the amount of interest suspended pursuant to Credit Linked Condition 2(c) (*Suspension of Interest following an Applicable DC Credit Event Question, a potential Credit Event or a potential Risk Event*) is less than the amount of interest that should have been suspended (taking into consideration the Applicable Proportion of the relevant Credit Linked Note affected by the Relevant Credit Event or, in the case of Local Access Single Name Credit Linked Notes and Local Access Basket Credit Linked Notes, the relevant LA Interest Amount, as applicable), the Issuer shall deduct the absolute value of (x) the interest amount actually suspended minus (y) the interest amount that should have been suspended (the absolute value of such amount, the "**Interest Suspension Shortfall Amount**") from future payments of Interest Amounts until the Interest Suspension Shortfall Amount is reduced to zero, PROVIDED THAT if there is an outstanding Interest Suspension Shortfall Amount at the time that the Credit Linked Notes are being redeemed or written down in full (whether at maturity or upon early redemption), such interest shall be deducted from any amount payable to Securityholders at such time, or where "Physical Redemption" or "LA Physical Redemption" applies, Delivery of the relevant assets shall take into account any reduction as is required to be effected.

For the avoidance of doubt, where the Interest Suspension Shortfall Amount cannot be deducted in full or in part (on account of the relevant redemption amount being insufficient), the Issuer shall have no further claims against the Securityholders for any amounts not deducted.

- (f) *Calculation of the Auction Redemption Amount or Cash Redemption Amount following the occurrence of a Relevant Credit Event*

This Credit Linked Condition 2(f) applies only in relation to Credit Linked Notes which are Zero Coupon Notes if Premium Accreted Amount applies in the applicable Issue Terms.

Following the occurrence of a Relevant Credit Event, the Calculation Agent shall determine the Premium Accreted Amount up to and including the Relevant Event Determination Date.

- (g) *Accrual of Interest at Funding Interest Rate following the occurrence of a Relevant Credit Event or Relevant Risk Event*

This Credit Linked Condition 2(g) applies only if "Credit Payment on Maturity" applies in the applicable Issue Terms.

Following the occurrence of a Relevant Credit Event or a Relevant Risk Event, as applicable, notwithstanding the suspension of interest pursuant to Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*), the relevant Credit Payment on Maturity Amount shall accrue interest at the Funding Interest Rate in respect of each Interest Period (regardless of whether "No Interest Accrual on Default" or "Interest Accrual on Default" applies), from (and including) the first Business Day immediately following the (x) Relevant Event Determination Date or (y) Relevant Risk Event Determination Date, as applicable, to (but excluding in the case of paragraphs (i) and (ii) below and including in the case of paragraph (iii) below) the earliest to occur of:

- (i) the Scheduled Maturity Date;
- (ii) if the relevant Credit Linked Notes are early redeeming in full, the Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable; and
- (iii) if the relevant Credit Linked Notes are redeeming in full following a Relevant Credit Event or Relevant Risk Event, as applicable, the Relevant Event Determination Date

or Relevant Risk Event Determination Date, as applicable, corresponding to the Credit Event Redemption Date which results in the relevant Credit Linked Notes being redeemed in full,

(b) *Multiple Relevant Credit Events*

There may be more than one Relevant Credit Event and related Relevant Event Determination Date with respect to Index Untranching Credit Linked Notes where Relevant Credit Events and related Relevant Event Determination Dates occur in respect of more than one Reference Entity in the Index.

(a) *Introduction*

Index Tranching Credit Linked Notes are Credit Linked Notes pursuant to which the Issuer purchases credit protection from Securityholders in respect of a specified tranche which is linked to the performance of the component Reference Entities of a specified Index (which will be either an iTraxx® or CDX® index).

For Credit Linked Principal Notes, if a Relevant Credit Event occurs in respect of a Reference Entity, the Index Tranching Credit Linked Notes will be written down and/or partially redeemed, as applicable, to reflect the incurred loss and/or any incurred recovery amount in respect of such Affected Reference Entity (to the extent that such incurred loss/incurred recovery amount falls within the tranche to which the Index Tranching Credit Linked Notes are exposed to), and any incurred recovery amount in respect of such Affected Reference Entity will be payable to Securityholders following the Relevant Credit Event in accordance with Credit Linked Condition 7(f) (*Redemption of Credit Linked Principal Notes following a Credit Event*). Accordingly, Index Tranching Credit Linked Notes are exposed to the credit risk of each Relevant Reference Entity in the Index in proportion to its weighting.

For Credit Linked Interest Notes, if a Relevant Credit Event occurs in respect of a Reference Entity, no portion of the Credit Linked Interest Notes will be redeemed early and interest shall continue to accrue on the Outstanding Aggregate Nominal Amount of the Credit Linked Notes. However, an adjustment factor shall be applied to the Interest Rate specified in the applicable Issue Terms to be or constitute Contingent Interest on such Index Tranching Credit Linked Notes. Accordingly, interest in respect of Index Tranching Credit Linked Notes is exposed to the credit risk of each Relevant Reference Entity in the Index in proportion to its weighting. Fixed Recovery Redemption shall apply in respect of Credit Linked Interest Notes which are Index Tranching Credit Linked Notes.

- (i) the Specified Denomination of such Index Tranching Credit Linked Note; and
- (ii) an amount (expressed as a percentage) equal to (I) the relevant Principal Writedown Amount, divided by (II) the Original Aggregate Nominal Amount of the Index Tranching Credit Linked Notes.

(d) *Impact of Credit Event on Accrual of Interest*

(i) Credit Linked Principal Notes

- (B) if the Calculation Agent determines that there is an Index Tranch Incurred Loss Amount and/or an Index Tranch Incurred Recovery Amount greater than zero with respect to an Affected Reference Entity, for the purpose of calculating the interest due on the Index Tranch Credit Linked Notes going forward, each Index Tranch Credit Linked Note then outstanding shall be reduced by its pro rata share of the Principal Writedown Amount with effect from the Credit Event Writedown Date (notwithstanding, where "Credit Payment on Maturity" applies and there is an Index Tranch Incurred Recovery Amount, that the Index Tranch Final Redemption Amount shall be not be payable until the Final Auction Redemption Date or Final Cash Redemption Date, as applicable) purely for the purposes of determining the interest amount accrued; and
- (C) interest will continue to accrue as usual on any remaining portion of each Index Tranch Credit Linked Note (after, if applicable, any writedown of the Index Tranch Credit Linked Notes by the Principal Writedown Amount in accordance with Credit Linked Condition 7(d)(i)(B) above) unaffected by the Relevant Credit Event in accordance with General Condition 5 (*Interest*) and the Valuation and Settlement Schedule to (but excluding in the case of (x) and (y) and including in the case of (z)) the earliest to occur of (x) the Scheduled Maturity Date, (y) the Early Termination Date, the Optional Redemption Date or the Substitution Event Date, as applicable, which results in the Index Tranch Credit Linked Notes being redeemed in full, and (z) the Relevant Event Determination Date corresponding to the relevant Credit Event Redemption Date which results in the Index Tranch Credit Linked Notes being redeemed in full; and

- (B) any Non-Contingent Interest will continue to accrue on the Outstanding Aggregate Nominal Amount of the Index Tranch Credit Linked Notes; and
- (C) if the Calculation Agent determines that there is an Index Tranch Incurred Loss Amount greater than zero with respect to an Affected Reference Entity,
- (D) any Contingent Interest will continue to accrue on each Index Tranch Credit Linked Note in accordance with General Condition 5 (*Interest*) and the Valuation and Settlement Schedule, except that such Contingent Interest shall be adjusted as provided in Credit Linked Condition 7(d)(iv) below).

If a Relevant Credit Event occurs in respect of a Reference Entity, the Portfolio Tranching Credit Linked Notes will be written down and/or partially redeemed, as applicable, to reflect the incurred loss and/or any incurred recovery amount in respect of such Affected Reference Entity (to the extent that such incurred loss/incurred recovery amount falls within the tranche to which the Portfolio Tranching Credit Linked Notes are exposed to), and any incurred recovery amount in respect of such Affected Reference Entity will be payable to Securityholders following the Relevant Credit Event in accordance with Credit Linked Condition 8(f) (*Redemption following a Credit Event*). Accordingly, Portfolio Tranching Credit Linked Notes are exposed to the credit risk of each Reference Entity in the basket in proportion to its weighting.

(b) *Multiple Relevant Credit Events*

There may be more than one Relevant Credit Event and related Relevant Event Determination Date with respect to Portfolio Tranching Credit Linked Notes where Relevant Credit Events and related Relevant Event Determination Dates occur in respect of more than one Reference Entity in the basket.

- (ii) if the Calculation Agent determines that there is a Portfolio Trunched Incurred Loss Amount and/or a Portfolio Trunched Incurred Recovery Amount greater than zero with respect to an Affected Reference Entity, for the purpose of calculating the interest due on the Portfolio Trunched Credit Linked Notes going forward, each Portfolio Trunched Credit Linked Note then outstanding shall be reduced by its pro rata share of the Principal Writedown Amount with effect from the Credit Event Writedown Date (notwithstanding, where "Credit Payment on Maturity" applies, that the Portfolio Trunched Final Redemption Amount shall be not be payable until the Final Auction Redemption Date or Final Cash Redemption Date, as applicable) purely for the purposes of determining the interest amount accrued; and
- (iii) interest will continue to accrue as usual on any remaining portion of each Portfolio Trunched Credit Linked Note (after, if applicable, any writedown of the Portfolio Trunched Credit Linked Note by the Principal Writedown Amount in accordance with Credit Linked Condition 8(d)(ii) above) unaffected by the Relevant Credit Event in accordance with General Condition 5 (*Interest*) and the Valuation and Settlement Schedule to (but excluding in the case of (x) and (y) and including in the case of (z)) the earliest to occur of (x) the Scheduled Maturity Date, (y) the Early Termination Date, the Optional Redemption Date or the Substitution Event Date, as applicable, which results in the Portfolio Trunched Credit Linked Notes being redeemed in full, and (z) the Relevant Event Determination Date corresponding to the relevant Credit Event Redemption Date which results in the Portfolio Trunched Credit Linked Notes being redeemed in full; and

General Condition 5 (*Interest*) and Valuation and Settlement Conditions 4 to 21 will not be applicable to Local Access Single Name Credit Linked Notes and the provisions of this Credit Linked Condition 9(d) shall apply instead.

Following the occurrence of a Relevant Risk Event Determination Date:

- (i) the payment of the LA Interest Amount corresponding to the LA Interest Payment Date of each Local Access Single Name Credit Linked Note falling after such Relevant Risk Event Determination Date will be suspended in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*), PROVIDED THAT the Calculation Agent shall determine whether the payment of the LA Interest Amount for the relevant LA Interest Payment Date need not be suspended (due to such payment being unaffected by the potential Risk Event), in which case such suspension will not apply and the LA Interest Amount will be payable as usual on the relevant LA Interest Payment Date; and
- (ii) following the occurrence of a Relevant Risk Event Determination Date, if the Outstanding Aggregate Nominal Amount of the Local Access Single Name Credit Linked Note is not reduced to zero, the LA Interest Amount will continue to be payable on each relevant LA Interest Payment Date as usual (but only to the extent of any apportioned amount following any multiple successor determination or other adjustment deemed necessary to give effect to the terms of the Credit Linked Conditions as determined by the Calculation Agent) with respect to each Local Access Single Name Credit Linked Note to (but excluding in the case of (x) and (y) and including in the case of (z)) the earliest to occur of (x) the Scheduled Maturity Date, (y) the Early Termination Date, the Optional Redemption Date or the Substitution Event Date, as applicable, which results in the Local Access Single Name Credit Linked Notes being redeemed in full, and (z) the Relevant Risk Event Determination Date corresponding to the relevant Credit Event Redemption Date which results in the Local Access Single Name Credit Linked Notes being redeemed in full, except that in the case of (y) and (z) interest shall be payable if, and only if, the relevant LA Interest Payment Date has occurred on or prior to the relevant dates referred to in (y) and (z); and

(e) *Payment of Accrued Interest*

Where "Interest Accrual on Default" applies, any interest accrued on the Local Access Single Name Credit Linked Notes in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*) from (and including) the LA Interest Payment Date immediately preceding the Relevant Risk Event Determination Date (or if there is no LA Interest Payment Date, the Issue Date) to (and including) the Relevant Risk Event Determination Date shall be payable on:

- (iv) if "LA Physical Redemption" applies, a date falling no later than 10 Business Days following the first Delivery Date, PROVIDED THAT interest shall be payable if, and only if, the relevant LA Interest Payment Date has occurred prior to the first Delivery Date.

(f) *Redemption following a Risk Event*

Notwithstanding anything to the contrary in General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule and unless previously redeemed in full or purchased and cancelled, following the occurrence of a Relevant Risk Event Determination Date (subject to Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*)), (x) the Issuer will redeem the Applicable Proportion of each Local Access Single Name Credit Linked Note in accordance with the "LA Cash Redemption" Risk Event Redemption Method, the "LA Physical Redemption" Risk Event Redemption Method or the "LA Fixed Recovery Redemption" Risk Event Redemption Method, as specified in the Issue Terms and (y) where a Credit Linked Note is an Instalment Note, from (and including) the occurrence of a Relevant Risk Event Determination Date, any Instalment Redemption Amount(s) relating to such Applicable Proportion that is due and payable on any Instalment Date(s) will be disregarded and any future Instalment Redemption Amount(s) relating to the outstanding portion (if any) of such Credit Linked Note shall be proportionately reduced as determined by the Calculation Agent.

The outstanding portion of such Local Access Single Name Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(B) Credit Payment on Maturity

If each of (i) "Credit Payment on Maturity" and (ii) LA Cash Redemption applies, then following the occurrence of a Relevant Risk Event Determination Date, the Issuer shall redeem each Local Access Single Name Credit Linked Note on the Final LA Cash Redemption Date at the Final LA Cash Redemption Amount in accordance with Credit Linked Condition 18(c) (*LA Cash Redemption Terms*).

(ii) **LA Physical Redemption**

(g) *Adjustment following a Regulatory Change Event*

If the Calculation Agent determines that a Regulatory Change Event has occurred or exists, then:

The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*) of the occurrence of the foregoing event as soon as practicable thereafter.

(h) *Tax Deduction Event – Interest*

Unless "Tax Deduction Event – Interest" is specified as not applicable in the applicable Issue Terms and without duplication to Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*), if the Calculation Agent determines at any time on or prior to the last day of the final Calculation Period that there would be an Interest Tax Deduction Amount in respect of a payment of interest (howsoever described) in respect of the Reference Investor Assets, then any payment(s) of interest due to the Securityholder(s) shall be reduced by an amount that in aggregate is equal in value to the allocable proportion of such Interest Tax Deduction Amount, as determined by the Calculation Agent.

(i) *Tax Deduction Event – Principal*

Unless "Tax Deduction Event – Principal" is specified as not applicable in the applicable Issue Terms and without duplication to Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*) above, if the Calculation Agent determines at any time on or prior to the earlier of (i) the Scheduled Maturity Date or Extended Maturity Date, as applicable and (ii) an Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable, which results in the Local Access Single Name Credit Linked Notes being early redeemed in full, that there would be a Principal Tax Deduction Amount in respect of a payment of principal (howsoever described) in respect of the redemption of the Reference Investor Assets, then any payment(s) of principal due to the Securityholder(s) (including any Early Termination Amount, Merger Redemption Amount or Optional Redemption Amount), or amount of LA Settlement Assets to be delivered to the Securityholder(s) (rounded down to the nearest denomination of the LA Settlement Assets), shall be reduced by an amount that in

(b) *Multiple Relevant Risk Events*

There may be more than one Relevant Risk Event and related Relevant Risk Event Determination Date with respect to Local Access Basket Credit Linked Notes where Relevant Risk Events and related Relevant Risk Event Determination Dates occur in respect of more than one Reference Entity in the basket.

Following the occurrence of a Relevant Risk Event Determination Date:

- (i) the payment of the LA Interest Amount corresponding to the LA Interest Payment Date of each Local Access Basket Credit Linked Note will be suspended in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*), PROVIDED THAT the Calculation Agent shall determine whether the payment of the LA Interest Amount for the relevant LA Interest Payment Date need not be suspended (due to such payment being unaffected by the potential Risk Event), in which case such suspension will not apply and the LA Interest Amount will be payable as usual on the relevant LA Interest Payment Date; and

- (iii) where "Credit Payment on Maturity applies", additional interest shall accrue on the Local Access Basket Credit Linked Notes in respect of the Credit Payment on Maturity Amount in accordance with Credit Linked Condition 2(g) (*Accrual of Interest at Funding Interest Rate following the occurrence of a Relevant Credit Event or Relevant Risk Event*).

Further, if the Scheduled Maturity Date is defined in the applicable Issue Terms by reference to an LA Interest Payment Date, then the Scheduled Maturity Date shall be the date which would have been such LA Interest Payment Date notwithstanding that, due to the occurrence of a Risk Event, interest has ceased to accrue in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*).

(e) *Payment of Accrued Interest*

Where "Interest Accrual on Default" applies, any interest accrued on the Local Access Basket Credit Linked Notes in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*) from (and including) the LA Interest Payment Date immediately preceding the Relevant Risk Event Determination Date (or if there is no LA Interest Payment Date, the Issue Date) to (and including) the Relevant Risk Event Determination Date shall be payable on:

(f) *Redemption following a Risk Event*

Notwithstanding anything to the contrary in General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule and unless previously redeemed in full or purchased and cancelled, following the occurrence of a Relevant Risk Event Determination Date (subject to Credit Linked Condition 10(g) (*Adjustment following a Regulatory Change Event*)), (x) the Issuer will redeem the Applicable Proportion of each Local Access Basket Credit Linked Notes in accordance with the "LA Cash Redemption" Risk Event Redemption Method, the "LA Physical Redemption" Risk Event Redemption Method or the "LA Fixed Recovery Redemption" Risk Event Redemption Method, as specified in the Issue Terms and (y) where a Credit Linked Note is an Instalment Note, from (and including) the occurrence of a Relevant Risk Event Determination Date, any Instalment Redemption Amount(s) relating to such Applicable Proportion that is due and payable on any Instalment Date(s) will be disregarded and any future Instalment Redemption Amount(s) relating to the outstanding portion (if any) of such Credit Linked Note shall be proportionately reduced as determined by the Calculation Agent.

If each of (i) "Credit Payment following Risk Event" and (ii) LA Cash Redemption applies, then following the occurrence of a Relevant Risk Event Determination Date and subject to Credit Linked Condition 10(g) (*Adjustment following a Regulatory Change Event*), the Issuer shall redeem the Applicable Proportion of each Local Access Basket Credit Linked Note on the LA Cash Redemption Date at the LA Cash Redemption Amount in accordance with Credit Linked Condition 18(c) (*LA Cash Redemption Terms*).

The outstanding portion of such Local Access Basket Credit Linked Notes (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(B) Credit Payment on Maturity

If each of (i) "Credit Payment on Maturity" and (ii) LA Cash Redemption applies, then following the occurrence of a Relevant Risk Event Determination Date, the Issuer shall redeem each Local Access Basket Credit Linked Notes on the Final LA Cash Redemption Date at the Final LA Cash Redemption Amount in accordance with Credit Linked Condition 18(c) (*LA Cash Redemption Terms*).

(ii) **LA Physical Redemption**

LA Physical Redemption shall apply where it is specified as the Risk Event Redemption Method in the applicable Issue Terms.

If LA Physical Redemption applies, then following the occurrence of a Relevant Risk Event Determination Date and subject to Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*), the Issuer shall redeem the Applicable Proportion of each Local Access Basket Credit Linked Note by Delivery to each Securityholder of each Local Access Basket Credit Linked Note's pro rata share of the LA Settlement Assets by the LA Physical Redemption Date and payment to each Securityholder of each Local Access Basket Credit Linked Note's pro rata share of the Undeliverable LA Cash Redemption Amount (if any) in accordance with Credit Linked Condition 19(k) (*LA Physical Redemption Terms*).

The outstanding portion of such Local Access Basket Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(iii) **LA Fixed Recovery Redemption**

LA Fixed Recovery Redemption shall apply where it is specified as the Risk Event Redemption Method in the applicable Issue Terms.

If LA Fixed Recovery Redemption applies, then following the occurrence of a Relevant Risk Event Determination Date and subject to Credit Linked Condition 10(g) (*Adjustment following a Regulatory Change Event*), the Issuer shall redeem the Applicable Proportion of each Local Access Basket Credit Linked Note on the LA Cash Redemption Date at the LA Cash Redemption Amount (if "Credit Payment following Risk Event" occurs) or the Final LA Cash Redemption Date at the Final LA Cash Redemption Amount (if "Credit Payment on Maturity" occurs) in accordance with Credit Linked Condition 18(c) (*LA Cash Redemption Terms*), PROVIDED THAT the LA Cash Redemption Amount shall be determined using the Fixed Recovery Percentage specified in the applicable Issue Terms instead of the LA Recovery Amount, as further set out in the definition of "LA Cash Redemption Amount" in Credit Linked Condition 31 (*Definitions*).

If the Fixed Recovery Percentage is zero, following the occurrence of a Relevant Risk Event Determination Date, the occurrence of the LA Cash Redemption Date or the Final LA Cash Redemption Date, as applicable, shall fully and effectively discharge the Issuer's obligation to redeem the Applicable Proportion of the relevant Local Access Basket Credit Linked Note. *For the avoidance of doubt, in such circumstance, the loss amount in respect of the Affected Reference Entity will be deemed to be 100 per cent. and, accordingly, no amounts will be payable or assets deliverable to the Securityholders. The Securityholders will bear the loss of their principal with respect*

to such proportion of the Local Access Basket Credit Linked Notes impacted by the Risk Event and no liability shall attach to the Issuer.

Where "Credit Payment following Risk Event" applies, the outstanding portion of such Local Access Basket Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 15 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(g) *Adjustment following a Regulatory Change Event*

If the Calculation Agent determines that a Regulatory Change Event has occurred or exists, then:

- (i) the Calculation Agent will, in its sole discretion, determine the amount by which any payment due to the Securityholders, or amount of LA Settlement Assets to be Delivered to the Securityholders, shall be reduced (PROVIDED THAT, such reduction amount shall be in the currency of the payment due or an amount of LA Settlement Assets (rounded down to the nearest denomination of the LA Settlement Assets)), as the case may be, and equal to each Local Access Basket Credit Linked Note's *pro rata* share of the Regulatory Change Cost; and
- (ii) thereafter notify the Issuer of such adjustments.

The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*) of the occurrence of the foregoing event as soon as practicable thereafter.

(h) *Tax Deduction Event – Interest*

Unless "Tax Deduction Event – Interest" is specified as not applicable in the applicable Issue Terms and without duplication to Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*), if the Calculation Agent determines at any time on or prior to the last day of the final Calculation Period that there would be an Interest Tax Deduction Amount in respect of a payment of interest (howsoever described) in respect of the Reference Investor Assets, then any payment(s) of interest due to the Securityholder(s) shall be reduced by an amount that in aggregate is equal in value to the allocable proportion of such Interest Tax Deduction Amount, as determined by the Calculation Agent.

(i) *Tax Deduction Event – Principal*

Unless "Tax Deduction Event – Principal" is specified as not applicable in the applicable Issue Terms and without duplication to Credit Linked Condition 9(g) (*Adjustment following a Regulatory Change Event*) above, if the Calculation Agent determines at any time on or prior to the earlier of (i) the Scheduled Maturity Date or Extended Maturity Date, as applicable and (ii) an Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable, which results in the Local Access Basket Credit Linked Notes being early redeemed in full, that there would be a Principal Tax Deduction Amount in respect of a payment of principal (howsoever described) in respect of the redemption of the Reference Investor Assets, then any payment(s) of principal due to the Securityholder(s) (including any Early Termination Amount, Merger Redemption Amount or Optional Redemption Amount), or amount of LA Settlement Assets to be delivered to the Securityholder(s) (rounded down to the nearest denomination of the LA Settlement Assets), shall be reduced by an amount that in aggregate is equal in value to the allocable proportion of such Principal Tax Deduction Amount, as determined by the Calculation Agent.

(j) *RMB Illiquidity*

Where "FX Forward Rate" and "RMB Illiquidity" both apply, all references to "RMB Illiquidity" in the Terms and Conditions will be deemed to refer to "RMB Illiquidity (FX)".

(k) *Reference Registry*

In respect of a Series and the related Reference Registry (setting out the Reference Assets), any reference to the "original face amount" of such Reference Assets shall be read as a reference to the aggregate principal amount of those Reference Assets. Where the relevant context requires, as determined by the Calculation Agent, a reference to the Reference Assets may be a reference to a particular Reference Asset or to the aggregate of all such Reference Assets then referenced in the Reference Registry and none of the Issuer or the Guarantor, nor any of their Affiliates or agents, shall be obliged to hold any Reference Assets or pursue any remedies they may have with respect thereto (even if the Issuer or the Guarantor or any of their Affiliates or agents transfers any Reference Assets to the Securityholder(s) or refers to the market value of the Reference Assets in connection with the satisfaction of the Issuer's obligations in respect of the Notes following the declaration of any Risk Event).

Any reference to a Reference Asset that is immediately followed by a numerical designator (for example, "Reference Asset 1") shall refer to such Reference Asset as so designated in the applicable Issue Terms, with the terms as set out in relation to such Reference Asset in the applicable Issue Terms.

(l) *Additional provisions*

Where, pursuant to General Condition 6 (*Redemption and Purchase*)), some but not all of the Credit Linked Notes are purchased and cancelled or further Credit Linked Notes are issued pursuant to General Condition 14 (*Further Issues*), the Calculation Agent may adjust the Conditions as it determines to be appropriate, acting in good faith and in a commercially reasonable manner, to preserve for the Securityholders the economic equivalent of the payment obligations of the Issuer (if any) in respect of the outstanding Credit Linked Notes after the purchase and cancellation or issue, as the case may be, of such Credit Linked Notes.

Upon the Calculation Agent making such adjustment(s), the Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) giving details thereof.

11. Index Swaption Provisions

The provision of this Credit Linked Condition 11 will apply if "Index Swaption" is specified as applicable in the relevant Issue Terms.

(a) *Hypothetical Index Swaption*

The Credit Linked Notes will be linked to a hypothetical index swaption. For the purposes of making calculations of interest under the Credit Linked Notes, the Issuer will be deemed on the Issue Date to have entered into the Hypothetical Index Swaption Transaction with the Hypothetical Swap Counterparty.

(b) *Swaption Interest Amount*

The value of the Hypothetical Index Swaption Transaction at expiration will determine whether a Swaption Interest Amount is payable in respect of the Credit Linked Notes.

If the Hypothetical Index Swaption Transaction expires at an amount payable to the Swaption Buyer (i.e. there is a positive Hypothetical Swaption Cash Settlement Amount), a Swaption Interest Amount shall be payable in respect of each Credit Linked Note on the Swaption Interest Amount Payment Date.

If the Hypothetical Index Swaption Transaction expires out of the money for the Swaption Buyer (i.e. the Hypothetical Swaption Cash Settlement Amount is zero), no Swaption Interest Amount shall be payable in respect of the Credit Linked Notes.

(c) *Determinations and Discretions*

If the terms of the Hypothetical Index Swaption Transaction provide for the Buyer, the Seller or the Calculation Agent under the Hypothetical Index Swaption Transaction (the "**Swap Calculation Agent**") to make a determination or calculation or exercise a discretion pursuant to the Hypothetical Index Swaption Transaction, such determination, calculation or such exercise of a discretion, as the case may be, shall be made by (i) in the case of the Buyer (subject as provided below), the Calculation Agent acting in good faith and a commercially reasonable manner, (ii) in the case of the Seller, the Calculation Agent acting in its sole and absolute discretion, or (iii) in the case of the Swap Calculation Agent, the Calculation Agent acting in its sole and absolute discretion. In making any determination pursuant to (ii) above in its capacity as Seller under the Hypothetical Index Swaption Transaction, the Calculation Agent shall act in its sole and absolute discretion, is under no obligation to consider the interests of the Securityholders and shall have no duties or responsibilities and shall not be liable to Securityholders or any other party in exercising such discretions and making such determinations and calculations.

If the terms of the Hypothetical Index Swaption Transaction provide for the Buyer, the Seller and/or the Swap Calculation Agent to agree or consult with each other in respect of any calculation or determination in respect of the Hypothetical Index Swaption Transaction, such obligation shall be deemed not to apply and to be replaced by the obligation of the Calculation Agent acting in its sole and absolute discretion to make the relevant calculation or determination.

(d) *Notices under the Hypothetical Index Swaption Transaction*

If the terms of the Hypothetical Index Swaption Transaction oblige the Buyer, the Seller or the Swap Calculation Agent to give or deliver a notice to any person, subject to any confidentiality restrictions as provided below, the Calculation Agent shall give or deliver such notice to the Issuer. Upon such delivery, the relevant notice shall be deemed to be validly given pursuant to the Hypothetical Index Swaption Transaction. As soon as reasonably practicable after delivery of such notice to the Issuer and subject to any confidentiality restrictions as provided below, copies of any such notice shall be made available, upon request by any Securityholder who provides evidence satisfactory to the Principal Paying Agent of their holding of Credit Linked Notes, at the specified office of the Principal Paying Agent.

Where the content of any notice relates to confidential information, (i) the Calculation Agent may require the Issuer and/or any Securityholder to enter into a confidentiality agreement on such terms as the Calculation Agent may specify; or (ii) such notice may not be made available to the Issuer and/or any Securityholder (as applicable).

The failure by the Calculation Agent to give or deliver any notice in relation to the Hypothetical Index Swaption Transaction to the Securityholders (whether or not such failure is attributable to confidentiality restrictions) shall not result in a breach of the Conditions or affect the validity of any notice deemed to have been given pursuant to the Hypothetical Index Swaption Transaction.

(e) *Swaption Adjustment Event*

If a Swaption Adjustment Event occurs, the Issuer in its sole and absolute discretion may, unless otherwise specified in the relevant Issue Terms:

- (i) require the Calculation Agent to (A) make such adjustment(s), if any, to the terms of the Credit Linked Notes as the Calculation Agent determines necessary or appropriate to account for the Swaption Adjustment Event, and (B) determine the effective date(s) of the adjustment(s) to the Credit Linked Notes; or
- (ii) by giving notice to Securityholders in accordance with General Condition 15 (*Notices*), redeem each Note on the Early Termination Date by payment of an amount per Note equal to its Early Termination Amount.

The Calculation Agent shall, as soon as reasonably practicable, notify the Issuer of the existence of a Swaption Adjustment Event and shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) of any determination made by it pursuant to Credit Linked Condition 11(e)(i) above and the action proposed to be taken in relation thereto.

(f) *Additional provisions*

Where, pursuant to General Condition 6 (*Redemption and Purchase*), some but not all of the Credit Linked Notes are purchased and cancelled or further Credit Linked Notes are issued pursuant to General Condition 14 (*Further Issues*), the Calculation Agent may adjust the Conditions (including, without limitation, the Swaption Floating Rate Payer Calculation Amount and/or the Swaption Original Notional Amount under the Hypothetical Index Swaption Transaction) as it determines to be appropriate, acting in good faith and in a commercially reasonable manner, to preserve for the Securityholders the economic equivalent of the payment obligations of the Issuer (if any) in respect of the outstanding Credit Linked Notes after the purchase and cancellation or issue, as the case may be, of such Credit Linked Notes.

Upon the Calculation Agent making such adjustment(s), the Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) giving details thereof.

12. Credit Event Notice, Risk Event Notice and Notice of Publicly Available Information

Securityholders should note that Credit Linked Conditions 12(a) and 12(b) are specific to Credit Linked Notes in respect of which a Credit Event Notice is relevant and will therefore not apply to Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes.

- (a) If a Credit Event Notice and, if "Notice of Publicly Available Information" is specified to be applicable in the applicable Issue Terms, an effective Notice of Publicly Available Information is required to be delivered for an effective Notice Delivery Date and related Event Determination Date to occur, and accordingly, the Calculation Agent shall deliver the Credit Event Notice and, if applicable, a Notice of Publicly Available Information to the Issuer. The Issuer shall, upon receipt of such notice(s), forward them to the Fiscal Agent to make available to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).
- (b) If a Credit Event Notice and where applicable, a Notice of Publicly Available Information is not required to be delivered in order for an Event Determination Date to occur, the Calculation Agent shall give written notice not less than five Business Days prior to the date for redemption or writedown, as applicable, of the Credit Linked Notes (or a portion thereof) containing the same information required to be included in a Credit Event Notice and if applicable, a Notice of Publicly Available Information to the Issuer. The Issuer shall, upon receipt of such notice(s), forward them to the Fiscal Agent for delivery to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).
- (c) The Calculation Agent's determination of a Credit Event or Risk Event, as applicable, will, in the absence of manifest error, be final, conclusive and binding on all persons (including, without limitation, the Fiscal Agent and each Securityholder).
- (d) None of the Issuer, the Calculation Agent, the Fiscal Agent or one or more of their respective affiliates will have any liability whatsoever for the failure of the Calculation Agent for any reason to determine that a Credit Event or Risk Event, as applicable, has occurred or with respect to the Calculation Agent or the Issuer's timing as to when to deliver a Credit Event Notice or Risk Event Notice, as applicable, and where applicable, a Notice of Publicly Available Information nor will they have any duty or responsibility to investigate or check whether any Credit Event or Risk Event, as applicable, has, or may have, occurred or may be continuing.

13. Relevant Time**(a) Event timing**

Subject to Credit Linked Condition 28 (*Notices*) and Credit Linked Condition 13(b) (*Payment timing*), in order to determine the day on which an event occurs for the purposes of these Credit Linked Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or Tokyo time if the Calculation Agent determines that Tokyo time is the market convention with respect to the relevant Reference Entity), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

(b) Payment timing

Notwithstanding the definition of "Credit Event Notice" or "Risk Event Notice" and Credit Linked Condition 13(a) (*Event timing*), if a payment is not made by the relevant Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or Tokyo time if the Calculation Agent determines that Tokyo time is the market convention with respect to the relevant Reference Entity), irrespective of the time zone of its place of payment.

14. Event Determination Date – Adjustment Payment and Ordering of Events**(a) Occurrence of Event Determination Date**

If, following the determination of an Event Determination Date, such Event Determination Date is deemed by the Calculation Agent and/or the Issuer (i) to have occurred on a date that is different from the date that was originally determined to be the Event Determination Date, (ii) not to have occurred, or (iii) to have occurred prior to a preceding Interest Payment Date (or, if applicable, LA Interest Payment Date), then:

- (i) in respect of the event specified at (ii) only, where the Credit Linked Notes have not already been redeemed or written down in full, the redemption or writedown of the Credit Linked Notes shall be cancelled and the Credit Linked Notes shall continue in accordance with their terms as if the relevant Event Determination Date had not occurred; and
- (ii) in respect of any of the events specified at (i), (ii) or (iii) above, the Calculation Agent will, in its sole and absolute discretion, determine (I) the adjustment payment, if any, that is payable to Securityholders to reflect any change that may be necessary to the amount previously calculated and/or paid in respect of the relevant Series; and (II) the date on which such adjustment payment is payable, if any and thereafter notify the Issuer of such adjustments. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment,

and in the case of (iii) above, subject to Credit Linked Condition 2 (*Interest or premium on Credit Linked Notes*).

The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*) of the occurrence of any of the foregoing events as soon as practicable thereafter without the consent of Securityholders being required to make the above adjustments.

(b) Ordering of Event Determination Date or Risk Event Determination Date following multiple Credit Events or Risk Events

If an Event Determination Date or Risk Event Determination Date, as applicable, occurs in respect of more than one Reference Entity, if applicable, on the same day, the occurrence of the Event Determination Date or Risk Event Determination Date, as applicable, will be determined chronologically in the order that either of the following events occurred with respect to such Reference Entity/ies:

SCHEDULE A – CREDIT LINKED CONDITIONS – PART II

- (i) the Credit Event Resolution Request Date (PROVIDED THAT if a Credit Event Resolution Request Date occurs in respect of more than one such Reference Entity on the same day, the first Reference Entity in respect of which the relevant CDS Information Publisher announces that the relevant DC Credit Event Question was effective and the relevant Credit Derivatives Determinations Committee was in possession of the relevant Publicly Available Information with respect to such DC Credit Event Question will be deemed to have satisfied this condition first) (a "**DC-determined EDD**"); or
- (ii) the delivery of the Credit Event Notice or Risk Event Notice, as applicable (PROVIDED THAT if any of the relevant Credit Event Notices or Risk Event Notices, as applicable, are delivered at the same time, in a sequential order determined by the Calculation Agent) (a "**Notice-determined EDD**"),

PROVIDED THAT:

- (A) if a Notice-determined EDD is amended by the occurrence of a DC-determined EDD, the DC-determined EDD will govern;
- (B) if both (x) one or more DC-determined EDDs and (y) one or more Notice-determined EDDs occur on the same day, any such DC-determined EDD shall be deemed to have occurred prior to any such Notice-determined EDD, notwithstanding the exact time of the occurrence of such events on such day; and
- (C) if an M(M)R Restructuring has occurred and a Credit Event Notice is delivered following a DC Credit Event Announcement, the Relevant Credit Event and related Relevant Event Determination Date shall be construed as having occurred under Credit Linked Condition 14(b)(i) instead of Credit Linked Condition 14(b)(ii).

15. Scheduled Maturity Date Extension

Where the Calculation Agent determines on or prior to the Scheduled Maturity Date, in its sole and absolute discretion, that:

- (I) one or more Reference Entities:
 - (x) may be subject to (A) a Credit Event or (B) a Risk Event, as applicable;
 - (y) is or may be subject to a Potential Failure to Pay, if "Grace Period Extension" is specified as being applicable in the applicable Issue Terms; or
 - (z) is or may be subject to a Potential Repudiation/Moratorium, if "Repudiation/Moratorium" is specified as being applicable in the applicable Issue Terms;
- (II) a Credit Event Notice or Risk Event Notice, as applicable, may be delivered after the Scheduled Maturity Date within an effective delivery period which may result in a Relevant Event Determination Date or a Relevant Risk Event Determination Date, as applicable, occurring;
- (III) a Credit Event Resolution Request Date may occur after the Scheduled Maturity Date but during the Notice Delivery Period which may result in a Relevant Event Determination Date occurring;
- (IV) the final Credit Event Redemption Date in relation to any Relevant Credit Event or Relevant Risk Event, as applicable, or the Final Physical Redemption Cut-Off Date in relation to any Physical Redemption, as applicable, will only occur after the Scheduled Maturity Date (including any final Partial Cash Redemption Date or final Fallback Cash Redemption Date, as applicable);
- (V) a Payment Failure Cut-Off Date in relation to a Payment/Delivery Failure Event may occur after the Scheduled Maturity Date; or

- (VI) an RMB Currency Settlement Cut-Off Date may occur after the Scheduled Maturity Date,

it shall notify the Issuer and the Fiscal Agent. The Issuer shall then notify the Securityholders and the Credit Linked Notes then outstanding shall not be redeemed on the Scheduled Maturity Date but shall instead be redeemed on the Extended Maturity Date.

If any amount is payable on the Scheduled Maturity Date of a Credit Linked Note (including any interest payment) to which the provisions of this Credit Linked Condition 15 apply, such amount shall fall due on the Extended Maturity Date and shall be payable without any interest or other sum payable in respect of the postponement of the payment of such amount.

16. M(M)R Restructuring

Securityholders should note that this Credit Linked Condition 16 does not apply to Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes.

For the purposes of this Credit Linked Condition 16, the definitions of "Outstanding Aggregate Nominal Amount" and "Reference Entity Notional Amount" shall be construed in accordance with the provisions set out in Credit Linked Condition 24 (Successor Provisions) where apportionment of calculation amounts as a result of multiple successors being identified is to be applied.

(a) Credit Event Notice after an M(M)R Restructuring

Upon the occurrence of an M(M)R Restructuring, the Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring to the Issuer (who shall forward such notice(s) to the Fiscal Agent for onward delivery to the Securityholders), each such Credit Event Notice specifying either (i) the amount of the Outstanding Aggregate Nominal Amount of the Credit Linked Notes to which such Credit Event Notice applies or (ii) the amount of the Reference Entity Notional Amount of the Affected Reference Entity, to which such Credit Event Notice applies as applicable, as determined by the Calculation Agent which may:

- (I) if the Credit Linked Notes are Single Name Credit Linked Notes or Nth-to-Default Basket Credit Linked Notes, be less than the Outstanding Aggregate Nominal Amount of such Credit Linked Notes; or
- (II) if the Credit Linked Notes are Linear Basket Credit Linked Notes, Index Untranching Credit Linked Notes, Index Tranching Credit Linked Notes or Portfolio Tranching Credit Linked Notes, may be less than the Reference Entity Notional Amount of the Affected Reference Entity,

(such amounts specified in the Credit Event Notice, the "**Exercise Amount**"), PROVIDED THAT if the Credit Event Notice does not specify an Exercise Amount, then:

- (A) if the Credit Linked Notes are Single Name Credit Linked Notes or Nth-to-Default Basket Credit Linked Notes, the Outstanding Aggregate Nominal Amount of the Credit Linked Notes immediately prior to the delivery of such Credit Event Notice; or
- (B) if the Credit Linked Notes are Linear Basket Credit Linked Notes, Index Untranching Credit Linked Notes, Index Tranching Credit Linked Notes or Portfolio Tranching Credit Linked Notes, the relevant Reference Entity Notional Amount outstanding in respect of the Affected Reference Entity immediately prior to the delivery of such Credit Event Notice,

in either case, as determined by the Calculation Agent will be deemed to have been specified as the Exercise Amount.

Accordingly, notwithstanding anything to the contrary in these Credit Linked Conditions, where an M(M)R Restructuring has occurred and a Credit Event Notice has been delivered for an Exercise Amount that is less than (i) the Outstanding Aggregate Nominal Amount of the Credit Linked Notes, or (ii) the Reference Entity Notional Amount outstanding in respect of the

Affected Reference Entity, in each case, as at the date immediately prior to the delivery of such Credit Event Notice, the provisions of these Credit Linked Conditions shall be deemed to apply to a principal amount of the Credit Linked Notes equal to the Exercise Amount only and all the relevant provisions shall be construed accordingly.

(b) *Redemption of Credit Linked Notes following partial exercise*

If a Credit Event Notice has been delivered in respect of an M(M)R Restructuring that specifies an Exercise Amount that (x) in the case of Single Name Credit Linked Notes or Nth-to-Default Basket Credit Linked Notes, is less than the Original Aggregate Nominal Amount of the Credit Linked Notes or, (y) in the case of Linear Basket Credit Linked Notes, Index Untranching Credit Linked Notes, Index Tranching Credit Linked Notes or Portfolio Tranching Credit Linked Notes, specifies an Exercise Amount that is less than the Affected Reference Entity's Reference Entity Notional Amount, then:

- (i) the relevant provisions of Credit Linked Conditions 3 (*Single Name Credit Linked Notes*), 4 (*Nth-to-Default Basket Credit Linked Notes*), 5 (*Linear Basket Credit Linked Notes*), 6 (*Index Untranching Credit Linked Notes*), 7 (*Index Tranching Credit Linked Notes*) and 8 (*Portfolio Tranching Credit Linked Notes*) relating to the redemption or writedown of Credit Linked Notes (or, in respect of Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, the adjustment of any Contingent Interest in respect of such Credit Linked Notes) shall apply to the Exercise Amount, including for the purposes of calculating the relevant Credit Event Redemption Amount or the Physical Redemption Assets to be Delivered to Securityholders or, in the case of Index Tranching Credit Linked Notes or Portfolio Tranching Credit Linked Notes, for the purposes of calculating the relevant Loss Amount, Recovery Amount and corresponding Index Tranching Incurred Loss Amount, Index Tranching Incurred Recovery Amount, Portfolio Tranching Incurred Loss Amount or Portfolio Tranching Incurred Recovery Amount, as applicable. In such circumstances, the Calculation Agent may adjust such provisions of the Credit Linked Conditions and/or applicable Issue Terms as it determines appropriate to take account of this Credit Linked Condition 16, including the basis of the calculation of any Contingent Interest, any Credit Event Redemption Amount, the Principal Writedown Amount or the Physical Redemption Assets to be Delivered to Securityholders;
- (ii) in respect of Credit Linked Notes other than Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, following any payment of a relevant Credit Event Redemption Amount or Delivery of the Physical Redemption Assets to Securityholders or any other determination made in respect of any Exercise Amount, the Outstanding Aggregate Nominal Amount or Reference Entity Notional Amount (as applicable) for the relevant Affected Reference Entity shall (in all cases without double counting) be reduced by an amount equal to the Exercise Amount (and for the avoidance of doubt, where applicable, the aggregate of the Reference Entity Notional Amounts shall be reduced accordingly). The Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount and interest (if applicable) shall accrue on the Outstanding Aggregate Nominal Amount as provided for in General Condition 5 (*Interest*) and the Valuation and Settlement Schedule and the Calculation Agent may thereafter deliver one or more further Credit Event Notices in respect of such Outstanding Aggregate Nominal Amount to which the Credit Linked Conditions shall continue to apply;
- (iii) in respect of Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, no reduction in the Outstanding Aggregate Nominal Amount of the Credit Linked Notes shall be made for any purpose and Contingent Interest shall continue to accrue on the Outstanding Aggregate Nominal Amount of the Index Tranching Credit Linked Notes as provided for in General Condition 5 (*Interest*) and the Valuation and Settlement Schedule, except that such Contingent Interest shall be adjusted as provided in Credit Linked Condition 7(d)(iv) and the Calculation Agent may thereafter deliver one or more further Credit Event Notices in respect of the Outstanding Aggregate Nominal Amount to which the Credit Linked Conditions shall continue to apply; and

- (iv) the Calculation Agent may adjust the provisions of these Credit Linked Conditions and/or the applicable Issue Terms in such manner as it may determine to be appropriate to account for such event.

(c) *Subsequent Credit Events*

For the avoidance of doubt (i) in the case of an Nth-to-Default Basket Credit Linked Note, once an M(M)R Restructuring has occurred in respect of the nth Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Affected Reference Entity that was the subject of the first occurring Restructuring Credit Event; and (ii) in the case of a Credit Linked Note subject to multiple successor determinations or a Linear Basket Credit Linked Note, an Index Untranching Credit Linked Note, an Index Tranching Credit Linked Note or a Portfolio Tranching Credit Linked Note, the fact that a Restructuring Credit Event has occurred in respect of a Reference Entity shall not preclude delivery of a Credit Event Notice in respect of any other Reference Entity.

(d) *Endorsement of Global Registered Note Certificate to reflect partial redemption*

If the provisions of this Credit Linked Condition 16 apply in respect of the Credit Linked Notes, on any redemption of part of each such Credit Linked Note, the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Registered Note Certificate, such Global Registered Note Certificate, shall be endorsed to reflect such part redemption on the relevant Credit Event Redemption Date.

(e) *Exercise Amount*

The Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be (i) an amount that is at least 1,000,000 units of the Settlement Currency (or, if Yen, 100,000,000 units) or an integral multiple thereof; or (ii) the entire Outstanding Aggregate Nominal Amount of the Credit Linked Notes or the entire Reference Entity Notional Amount of the Affected Reference Entity, as applicable.

The Exercise Amount must be an amount that (x) in the case of Single Name Credit Linked Notes or Nth-to-Default Basket Credit Linked Notes, is not greater than the Outstanding Aggregate Nominal Amount, or (y) in the case of Linear Basket Credit Linked Notes, Index Untranching Credit Linked Notes, Index Tranching Credit Linked Notes or Portfolio Tranching Credit Linked Notes, is not greater than the Reference Entity Notional Amount of the Affected Reference Entity.

The Exercise Amount shall be determined in the sole discretion of the Calculation Agent.

17. Auction Redemption Terms

(a) *Fallback Redemption*

Subject to Credit Linked Condition 23(d) (*Redemption Suspension*), if the Calculation Agent determines with respect to a Credit Event and any relevant Applicable DC Credit Event Question, Applicable Resolution and/or Applicable Auction, that:

- (i) an Auction Cancellation Date has occurred;
- (ii) a No Auction Announcement Date has occurred (and, in circumstances where such No Auction Announcement Date occurs pursuant to this Credit Linked Condition 17(a) or sub-paragraphs (b) or (c)(ii) under the definition of "No Auction Announcement Date", the Calculation Agent has not exercised the Movement Option);
- (iii) a No Auction Announcement Date has occurred but the relevant Credit Derivatives Determinations Committee has not determined that one or more Auctions will be held in accordance with any Transaction Auction Settlement Terms or, if applicable, Parallel Auction Settlement Terms;
- (iv) a DC Credit Event Question Dismissal occurs; or

- (v) a Relevant Event Determination Date was determined pursuant to the definition of "Standard Event Determination Date" or pursuant to sub-paragraph (a) of the definition of "Non-Standard Event Determination Date", and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Relevant Event Determination Date, or
- (vi) a Relevant Event Determination Date was determined pursuant to sub-paragraph (b)(ii)(B)(II)(2) of the definition of "Non-Standard Event Determination Date",

then, the Fallback Redemption Method shall apply and the Issuer shall redeem each Credit Linked Note in accordance with Credit Linked Condition 18 (*Cash Redemption Terms*) (if Cash Redemption is specified in the applicable Issue Terms as the Fallback Redemption Method) or in accordance with Credit Linked Condition 19 (*Physical Redemption Terms*) (if "Physical Redemption" is specified in the applicable Issue Terms as the Fallback Redemption Method).

(b) *Movement Option*

If "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" applies and the Calculation Agent determines in respect of an M(M)R Restructuring that a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) or (c)(ii) of the definition of "No Auction Announcement Date", the Calculation Agent may elect in its sole and absolute discretion to deliver a Notice to Exercise Movement Option to the Issuer (who will then send a subsequent notice to the Fiscal Agent for onward delivery to the Securityholders) at any time on or prior to the Movement Option Cut-off Date. If a Notice to Exercise Movement Option is so delivered, then any redemption of the Credit Linked Notes shall be effected by the Issuer by payment of the relevant Auction Redemption Amount on the relevant Auction Redemption Date(or, if "Credit Payment on Maturity" applies, by payment of the Final Auction Redemption Amount on the Final Auction Redemption Date), as applicable, and any such redemption and/or writedown of the Credit Linked Notes shall be determined on the basis of the Auction Final Price determined by reference to the relevant Parallel Auction identified by the Calculation Agent in the Notice to Exercise Movement Option. If a Notice to Exercise Movement Option is delivered by the Calculation Agent, all references in these Credit Linked Conditions to "Applicable Auction", "Applicable Auction Settlement Terms", "Auction Cancellation Date" and "Auction Final Price Determination Date" shall be deemed to be references to the "Parallel Auction", "Parallel Auction Settlement Terms" and "Parallel Auction Cancellation Date" and the terms of these Credit Linked Conditions shall be construed accordingly.

(c) *Auction Final Price of the Asset Package*

If an Asset Package Credit Event has occurred and the Auction Final Price for the Applicable Auction reflects the entire relevant Asset Package in respect of the Prior Deliverable Obligation(s) or Package Observable Bond(s), as applicable (including any cash forming part of the Asset Package and the Asset Market Value of any Non-Financial Instrument or Non-Transferable Instrument), the Auction Redemption Amount, Final Auction Redemption Amount, Loss Amount or Recovery Amount (calculated for the purpose of determining the Index Tranche Incurred Loss Amount, the Index Tranche Incurred Recovery Amount (if any), Portfolio Tranche Incurred Loss Amount or the Portfolio Tranche Incurred Recovery Amount (if any), as applicable), as applicable), shall be determined using such Auction Final Price.

(d) *Delivery of Auction Redemption Amount Notice*

Regardless of whether "Credit Payment on Maturity" or "Credit Payment Following Credit Event" applies, following the Auction Final Price Determination Date, the Calculation Agent shall deliver the Auction Redemption Amount Notice to the Issuer and the Issuer shall deliver the Auction Redemption Amount Notice to the Fiscal Agent no later than five Business Days following the Auction Final Price Determination Date. The Fiscal Agent shall then, as soon as reasonably practicable, deliver the Auction Redemption Amount Notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).

In the case of Index Tranching Credit Linked Notes and Portfolio Tranching Credit Linked Notes, the Calculation Agent will inform the Issuer, for notification to the Fiscal Agent and the Securityholders, as soon as reasonably practicable following the determination thereof of (i) any Loss Amount or Recovery Amount in respect of an Affected Reference Entity, irrespective of whether the Aggregate Loss Amount or Aggregate Recovery Amount (if any), as applicable, is less than or equal to the Loss Threshold Amount or Recovery Threshold Amount, respectively, and (ii) any Index Tranching Incurred Loss Amount and/or Index Tranching Incurred Recovery Amount or Portfolio Tranching Incurred Loss Amount and/or Portfolio Tranching Incurred Recovery Amount in respect of an Affected Reference Entity.

18. Cash Redemption Terms

(a) *Determination of Final Price*

- (i) Subject to Credit Linked Condition 23(d) (*Redemption Suspension*), on the Valuation Date, the Calculation Agent shall commence determination of the Final Price using the Valuation Obligation to be valued.
- (ii) If:
 - (I) "Include Accrued Interest" is specified in the applicable Issue Terms, the Outstanding Principal Balance of the Valuation Obligation shall include accrued but unpaid interest;
 - (II) "Exclude Accrued Interest" is specified in the applicable Issue Terms, the Outstanding Principal Balance of the Valuation Obligation shall not include accrued but unpaid interest; or
 - (III) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the applicable Issue Terms, the Calculation Agent shall determine, based on the then current market practice in the market of the Valuation Obligation whether the Outstanding Principal Balance of the Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof.

(b) *Delivery of Cash Redemption Amount Notice*

Regardless of whether "Credit Payment on Maturity" or "Credit Payment Following Credit Event" applies, the Calculation Agent shall, as soon as reasonably practicable, after obtaining all Quotations for a Valuation Date and determining the Final Price (such date of determination, the "**Final Price Determination Date**"), provide the Issuer with a Cash Redemption Amount Notice. The Issuer shall deliver the Cash Redemption Amount Notice to the Fiscal Agent no later than five Business Days following the Final Price Determination Date. The Fiscal Agent shall then, as soon as reasonably practicable, deliver the Cash Redemption Amount Notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).

In the case of Index Tranching Credit Linked Notes and Portfolio Tranching Credit Linked Notes, the Calculation Agent will inform the Issuer, for notification to the Fiscal Agent and the Securityholders, as soon as reasonably practicable following the determination thereof of (i) any Loss Amount or Recovery Amount in respect of an Affected Reference Entity, irrespective of whether the Aggregate Loss Amount or Aggregate Recovery Amount (if any), as applicable, is less than or equal to the Loss Threshold Amount or Recovery Threshold Amount, respectively, and (ii) any incurred Loss Amount or incurred Recovery Amount in respect of an Affected Reference Entity.

If an Asset Package Credit Event has occurred, (A) valuation of a Prior Deliverable Obligation or Package Observable Bond may be satisfied by valuation of the related Asset Package and such Asset Package shall be treated as having the same currency and Outstanding Principal Balance as that of the Prior Deliverable Obligation or Package Observable Bond, as applicable, to which it corresponds immediately prior to the Asset Package Credit Event and (B) if the Asset Package is zero, a Quotation shall be deemed to have been obtained for the Outstanding

Principal Balance of the Prior Deliverable Obligation or Package Observable Bond, as applicable, equal to zero.

(c) *LA Cash Redemption Terms*

(i) *Provision of Risk Event Notice*

Following the determination of a Relevant Risk Event by the Calculation Agent, the Calculation Agent shall, as soon as reasonably practicable, deliver a Risk Event Notice to the Issuer, who shall thereafter forward such notice to the Fiscal Agent. The Fiscal Agent shall then, as soon as reasonably practicable, but not later than the LA Cash Redemption Date, deliver the Risk Event Notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).

(ii) *Determination of LA Recovery Amount*

The Calculation Agent shall determine the LA Recovery Amount on the LA Valuation Date.

19. Physical Redemption Terms

(i) Subject to Credit Linked Condition 23(d) (*Redemption Suspension*) and notwithstanding anything to the contrary in General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, and unless previously redeemed in full or purchased and cancelled, if (a) Physical Redemption is specified as the Credit Event Redemption Method in the applicable Issue Terms or (b) Physical Redemption is applicable as the Fallback Redemption Method and Credit Linked Condition 17 (*Auction Redemption Terms*) requires that the Issuer redeems the Credit Linked Notes in accordance with this Credit Linked Condition 19 following the occurrence of a Relevant Event Determination Date, the Applicable Proportion of each Credit Linked Note, shall, subject to and in accordance with this Credit Linked Condition 19, be redeemed by, in respect of each Securityholder: (i) Delivery (at the risk of the relevant Securityholder) of the Physical Redemption Assets specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, on or prior to the Physical Redemption Date in accordance with Credit Linked Condition 19(b) (*Physical Redemption Assets*), and (ii) payment of the Partial Cash Redemption Amount or Fallback Cash Redemption Amount (if applicable) in accordance with Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) or any Asset Package Cash Redemption Amount (where applicable) in accordance with Credit Linked Condition 19(j)(iii) (*Asset Package Delivery*), pursuant to which the Issuer's obligations in respect of the redemption of the Applicable Proportion of each Credit Linked Note shall be fully and effectively discharged.

- (B) The Calculation Agent may, at any time, deliver to the Issuer a NOPS Amendment Notice stating that the Issuer would be replacing, in whole or in part, the Deliverable Obligations specified in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, which such notice shall be sent to the Fiscal Agent for onward delivery to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).

 - (iv) Forms of the Deliverable Obligation Notice will be delivered to the Securityholders together with the Notice of Physical Settlement or NOPS Amendment Notice, as applicable.
 - (v) No Deliverable Obligation Notice may be withdrawn after receipt thereof by the Relevant Clearing System, the Issuer, the Fiscal Agent or the Registrar, as the case may be, as provided above. After delivery of a Deliverable Obligation Notice (i) such relevant Securityholder or its designee (on its behalf), as applicable, shall be the only person entitled to delivery of its portion of the Physical Redemption Assets, and as such (ii) the relevant Securityholder may not transfer the Credit Linked Notes which are the subject of such notice.
 - (vi) Failure to properly complete and deliver a Deliverable Obligation Notice may result in such notice being treated as null and void and deemed to not have been provided. Any determination as to whether such notice has been properly completed and delivered as provided in these Credit Linked Conditions shall be made by the Calculation Agent, the Issuer or the Fiscal Agent, on the Issuer's behalf, and shall be conclusive and binding on the relevant Securityholder.
 - (vii) Delivery of the Physical Redemption Assets and payment of the Partial Cash Redemption Amount or Fallback Cash Redemption Amount (in each case, if any) in respect of each Securityholder shall be made by the Issuer in accordance with the details specified in the applicable Deliverable Obligation Notice.
- (b) *Physical Redemption Assets*
- (i) Subject to this Credit Linked Condition 19(b), the Issuer may only Deliver the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable.
 - (A) Until the date on which the Physical Redemption Assets have been fully Delivered, the Issuer or any other person (including the Issuer's Affiliates) will continue to be the legal holder of the Deliverable Obligations comprising the Physical Redemption Assets. None of the Issuer nor any such other person will (A) be under any obligation to deliver or procure delivery to any Securityholder or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by the Issuer or that other person in its capacity as legal holder of such Deliverable Obligations, (B) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Deliverable Obligations comprising the Physical Redemption Assets, (C) be under any liability to such Securityholder or any other person in respect of any loss or damage which such Securityholder or other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other person being the legal holder of such Deliverable Obligations comprising the Physical Redemption Assets, or (D) have any liability whatsoever to any Securityholder or any other person if, as a result of a Payment/Delivery Failure Event or pursuant to any of Credit Linked Conditions 19(c) (*Election to deliver alternative amount of Deliverable Obligations/Hedge Disruption Obligation*) to 19(h) (*Alternative Procedures Relating to Loans not Delivered*) (both inclusive) or Credit Linked Condition 19(j)(v) (*Asset Package Delivery*), it is unable to effect Delivery of any Deliverable Obligations comprising the Physical Redemption Assets and the obligations hereunder shall be satisfied by partial cash settlement or fallback cash redemption (if applicable) or shall cease, and be

deemed to be fully discharged in accordance with the Credit Linked Conditions.

- (ii) If the Calculation Agent determines that all or any part of the Physical Redemption Assets that would be required to be Delivered to a Securityholder is not a whole integral multiple of the smallest unit of transfer for any such Physical Redemption Assets at the relevant time of Delivery, the Issuer will Deliver and such Securityholder will only be entitled to receive such portion of the Physical Redemption Assets specified by the Issuer which is as large a size as possible (as determined by the Calculation Agent, after consideration of such smallest unit or units of transfer and application of rounding to such amount, whether upwards or downwards to the nearest unit of transfer, in its sole discretion). Any portion of the Physical Redemption Assets not so delivered shall be deemed to have a value of zero and the Issuer's obligations to the Securityholders in respect of such portion shall be fully and effectively discharged.

(c) *Election to deliver alternative amount of Deliverable Obligations/Hedge Disruption Obligation*

Notwithstanding anything to the contrary in Credit Linked Condition 19(a) (*Delivery of Physical Redemption Assets*), the Issuer may elect to Deliver to Securityholders Deliverable Obligations with an Outstanding Principal Balance or a Due and Payable Amount, as applicable (or the equivalent Currency Amount of any such amount), that is (i) greater than, or (ii) less than, that which each Securityholder would otherwise have been entitled to receive by way of Physical Redemption Assets.

If:

- (i) the Issuer exercises its election pursuant to this Credit Linked Condition 19(c); or
- (ii) the Calculation Agent determines that the Deliverable Obligations set out in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, cannot be Delivered due to an event (including, without limitation, any delay in settlement of any Applicable Auction) which results in the Issuer and/or its Affiliates not receiving the relevant Deliverable Obligations under its Hedging Positions (such obligations which cannot be Delivered, a "**Hedge Disruption Obligation**"),

the Issuer may attempt to continue to Deliver without prejudice to the provisions set out in Credit Linked Condition 19(a) (*Delivery of Physical Redemption Assets*) and the Calculation Agent may (but is not obliged to) after taking into account costs to the Issuer, including the trading price of any alternative Deliverable Obligation, provide notice to the Issuer (which shall be forwarded to the Fiscal Agent for onward delivery to Securityholders) that alternative Deliverable Obligation(s) will be delivered in lieu of any other Deliverable Obligation specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, satisfying on the Physical Redemption Date and the Delivery Date, each of the Deliverable Obligation Characteristics, if any, specified in the applicable Issue Terms and otherwise satisfying the requirements to constitute a Deliverable Obligation (and such instrument shall be deemed specified in the NOPS Amendment Notice which will be effective notwithstanding the fact that it is deemed specified after the Physical Redemption Date).

If no Delivery has been completed on or prior to the Latest Permissible Physical Settlement Date, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Deliverable Obligations that cannot be Delivered and the Issuer shall pay to each Securityholder each Credit Linked Note's pro rata share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date. For such purpose, the Deliverable Obligations that cannot be Delivered (including the Hedge Disruption Obligations) shall constitute an "Undelivered Deliverable Obligation" for the purposes of the application of Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*).

(d) *Partial Cash Redemption due to Impossibility or Illegality*

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver, or due to an event beyond the control of the Issuer it is impossible or illegal for any Securityholder to accept Delivery of, any of the Deliverable Obligations (other than a Prior Deliverable Obligation or a Package Observable Bond if an Asset Package Credit Event has occurred) specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the Physical Redemption Date (including, without limitation, failure of the relevant clearance system or due to any law, regulation or court order, but excluding market conditions or the failure to obtain any requisite consent with respect to the Delivery of Loans), then on or before such date:

- (i) the Issuer shall Deliver and the Securityholder shall take Delivery of any of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery; and
- (ii) the Calculation Agent shall provide a description in reasonable detail of the facts giving rise to such impossibility or illegality and, as soon as practicable thereafter, the Issuer shall Deliver and the Securityholder shall take Delivery of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice as applicable which were not delivered on the Delivery Date.

The date on which the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, which were not Delivered and are subsequently Delivered shall be the date on which the Issuer is deemed to have completed Delivery of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, relating to the Relevant Credit Event.

If following the occurrence of any such impossibility or illegality, the amount of Deliverable Obligations that are to be Delivered as specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, are not delivered to the Securityholders on or prior to the Latest Permissible Physical Settlement Date, then Cash Redemption in accordance with the partial cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) shall apply with respect to the Deliverable Obligations that cannot be Delivered (the "Undeliverable Obligations").

(e) *Partial Cash Redemption of Consent Required Loans*

If:

- (i) the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice include Consent Required Loans that, due to the non-receipt of any requisite consents, are not, on the Physical Redemption Date, capable of being assigned or novated to the Securityholder or its designee, as applicable, and such consents are not obtained or deemed given by the Latest Permissible Physical Settlement Date; and
- (ii) "Direct Loan Participation" is not specified as a Deliverable Obligation Characteristic in the applicable Issue Terms, or "Direct Loan Participation" is specified as a Deliverable Obligation Characteristic in the applicable Issue Terms and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date,

(f) *Partial Cash Redemption of Assignable Loans*

If:

- (i) the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice include Assignable Loans that, due to the non-receipt of any requisite consents, are not, on the Physical Redemption Date, capable of being assigned or novated to the Securityholder or its designee, as applicable, and such consents are not obtained or deemed given by the Latest Permissible Physical Settlement Date; and
- (ii) "Direct Loan Participation" is not specified as a Deliverable Obligation Characteristic in the applicable Issue Terms, or "Direct Loan Participation" is specified as a Deliverable Obligation Characteristic in the applicable Issue Terms and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date,

Cash Redemption pursuant to the partial cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) shall be deemed to apply to the Credit Linked Notes with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or last NOPS Amendment Notice, as applicable, that consist of Assignable Loans for which consents are not obtained or deemed given (the "**Unassignable Obligations**").

(g) *Partial Cash Redemption of Participations*

If the Deliverable Obligations include Direct Loan Participations and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date, Cash Redemption pursuant to the partial cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) shall be deemed to apply to the Credit Linked Notes with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable that consist of Direct Loan Participations in respect of which the relevant participation is not effected (the "**Undeliverable Participations**").

(h) *Alternative Procedures Relating to Loans not Delivered*

- (ii) If the Issuer has failed to obtain the requisite consents to Deliver a Loan specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, at

any time after the 15th Business Day following the Loan Alternative Procedure Start Date, the Issuer may (but is not obliged to) Deliver, in lieu of all or part of such Loan and after taking into account costs to the Issuer, including the trading price of any alternative Deliverable Obligation, any, subject to "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation", Bond that is Transferable and Not Bearer or any Assignable Loan, and having on both the Physical Redemption Date and the Delivery Date each of the Deliverable Obligation Characteristics (other than Consent Required Loan or Direct Loan Participation), if any, specified in the applicable Issue Terms and otherwise satisfying the requirements to constitute a Deliverable Obligation (and such instrument shall be deemed specified in the NOPS Amendment Notice which will be effective notwithstanding the fact that it is deemed specified after the Physical Redemption Date). In the event that the Deliverable Obligations or other Deliverable Obligations to be delivered in lieu of all or part of such Loan are not Delivered on or prior to the Latest Permissible Physical Settlement Date, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Loans specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, or alternative Deliverable Obligation, as determined by the Calculation Agent and the Issuer shall pay Securityholder each Credit Linked Note's pro rata share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date. If the Calculation Agent is unable to obtain two or more such Full Quotations on the Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers.

(B) If the Calculation Agent is unable to obtain two or more Full Quotations on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day, or, if no Full Quotation is obtained, the Quotations shall be deemed to be zero.

(C) All Quotations shall be obtained in accordance with the specification or determination made pursuant to Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event or Relevant Risk Event*);

(D) The Calculation Agent shall determine based on the then current market practice in the market of the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation, Unassignable Obligation or Undelivered Deliverable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.

(j) *Asset Package Delivery*

(i) If an Asset Package Credit Event occurs then "Asset Package Delivery" will apply unless (A) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to an Event Determination Date, (B) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event, or (C) the Reference Entity is a Sovereign and "2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions (September 15, 2014)" is specified as "Applicable" in the applicable Issue Terms (even if such a Package Observable Bond has been published by the relevant CDS Information Publisher).

(ii) If Asset Package Delivery applies, (A) Delivery of a Prior Deliverable Obligation or a Package Observable Bond forming part of the Physical Redemption Assets which is specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, may be satisfied by Delivery of the related Asset Package, and such Asset Package shall be treated as having the same currency, Outstanding Principal Balance or Due and Payable Amount, as applicable, as the Prior Deliverable Obligation or Package Observable Bond to which it corresponds had immediately prior to the Asset

Package Credit Event, (B) the definition of "Deliver" shall be deemed to apply to each Asset in the Asset Package, PROVIDED THAT if any such Asset is not a Bond, it shall be treated as if it were a Loan for this purpose, (C) if the Asset Package is zero, the Outstanding Amount of the Prior Deliverable Obligation or Package Observable Bond shall be deemed to have been Delivered in full three Business Days following the date on which the Issuer has notified the Fiscal Agent of the detailed description of the Asset Package that it intends to Deliver in accordance with the definition of "Notice of Physical Settlement", (D) the Issuer may satisfy its obligation to make Delivery of the Prior Deliverable Obligation or Package Observable Bond in part by Delivery of each Asset in the Asset Package in the correct proportion and (E) if the relevant Asset is a Non-Transferable Instrument or Non-Financial Instrument, the Asset shall be deemed to be an amount of cash equal to the Asset Market Value, converted if necessary into the currency of denomination of the Credit Linked Notes at the prevailing market rate of exchange determined by the Calculation Agent in good faith.

- (iii) Notwithstanding the preceding sub-paragraphs of this Credit Linked Condition 19(j), the Issuer may elect in lieu of delivering all or any part of the Asset Package (such assets, the "**Non-Deliverable Asset Package**") as Physical Redemption Assets to pay to the Securityholders the Asset Market Value of the Non-Deliverable Asset Package, converted if necessary, into the currency of denomination of the Credit Linked Notes at the prevailing market rate of exchange determined by the Calculation Agent in good faith (such cash payment the "**Asset Package Cash Redemption Amount**"). Payment of the Asset Package Cash Redemption Amount shall be made on or before the tenth Business Day following determination of the Asset Market Value of the Non-Deliverable Asset Package and such date of payment shall be deemed to be the Physical Redemption Date.
- (iv) In determining the Asset Market Value, the Calculation Agent may also deem Cash Redemption to apply pursuant to the fallback cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Asset Package and the Issuer shall pay each Securityholder each Credit Linked Note's pro rata amount of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date in satisfaction of its payment obligation with respect to the Asset Package Cash Redemption Amount. For such purpose, the related Asset Package shall constitute an "Undelivered Deliverable Obligation" for the purposes of the application of Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) and the Latest Permissible Physical Settlement Date shall be the date the Calculation Agent deems Cash Redemption to apply.
- (v) If the Issuer has not satisfied its obligation to make Delivery of the Prior Deliverable Obligation or Package Observable Bond in part by Delivery of each Asset in the Asset Package in the correct proportion on or prior to the Latest Permissible Physical Settlement Date, the Issuer may (but is not obliged to) instead Deliver, after taking into account costs to the Issuer, including the trading price of any alternative Deliverable Obligation, any other Deliverable Obligation selected the Issuer and having on both the Physical Redemption Date and the Delivery Date each of the Deliverable Obligation Characteristics, if any, specified in the applicable Issue Terms and otherwise satisfying the requirements to constitute a Deliverable Obligation (and such Deliverable Obligation shall be deemed specified in a NOPS Amendment Notice which will be effective notwithstanding the fact that it is deemed specified after the Physical Redemption Date). If Delivery of the Asset Package or any other Deliverable Obligation in lieu of the same is not completed on or prior to the Latest Permissible Physical Settlement Date, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Asset Package which has not been Delivered and the Issuer shall pay each Securityholder their Credit Linked Note's pro rata share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date.

SCHEDULE A – CREDIT LINKED CONDITIONS – PART II

- (vi) For such purpose, the entire Asset Package shall constitute an "Undelivered Deliverable Obligation" for the purposes of the application of Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) and the Issuer shall pay the Securityholder the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date.
- (k) *LA Physical Redemption Terms*
 - (i) *Provision of Risk Event Notice*

Following the determination of a Risk Event by the Calculation Agent shall, as soon as reasonably practicable, deliver the Risk Event Notice to the Issuer, who shall thereafter forward such notice to the Fiscal Agent. The Fiscal Agent shall then, as soon as reasonably practicable, but not later than the LA Physical Redemption Date, deliver the Risk Event Notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*).
 - (ii) *Delivery of LA Settlement Assets*
 - (A) Unless previously redeemed in full or purchased and cancelled, if LA Physical Redemption is specified as the Risk Event Redemption Method in the applicable Issue Terms, the Applicable Proportion of each Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note shall be redeemed by: (I) Delivery (at the risk of the relevant Securityholder) of the LA Settlement Assets on or prior to the LA Physical Redemption Date and (II) payment of the Undeliverable LA Cash Redemption Amount (if any) (as set out in Credit Linked Condition 19(k)(iii) (*Payment of the Undeliverable LA Cash Redemption Amount (if any)*)).
 - (B) In order for the Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, to be redeemed in accordance with this Credit Linked Condition 19(k)(ii), the relevant Securityholder shall deliver to the Fiscal Agent (and where the relevant Credit Linked Note is in definitive form, to the Registrar), prior to 3.00 p.m. (London) on the 5th Business Day following the date of effective delivery by the Fiscal Agent of the Risk Event Notice to the Securityholders, a duly completed notice in writing (a "**Deliverable Obligation Notice**"):
 - (I) in the case of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes represented by a Global Registered Note Certificate, specifying the Series number of the Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, which is the subject of the Deliverable Obligation Notice;
 - (II) including such details as are required for the transfer or assignment of the LA Settlement Assets which may include, without limitation, (I) the name, address and/or details of the relevant Securityholder's (or the Securityholder's designee's) account at the Relevant Clearing System, to be debited with such LA Settlement Assets and/or any bank, broker, agent or designee of the Securityholder to whom documents evidencing the transfer of LA Settlement Assets to be delivered; and (II) irrevocably instructing and authorising the Relevant Clearing Systems to debit the relevant Securityholder's account to complete Delivery;
 - (III) specifying the name and details of the account to which the Undeliverable LA Cash Redemption Amount (if any) is to be credited;

- (IV) containing an acknowledgment that an amount equal to (as applicable) each Local Access Single Name Credit Linked Note's or each Local Access Basket Credit Linked Note's *pro rata* share of all Unwind Costs, Delivery Expenses or Interest Suspension Shortfall Amount (in each case, if any) shall be deducted from the Outstanding Principal Balance or Due and Payable Amount;
 - (V) certifying, either (I) in respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes represented by a Regulation S Global Registered Note Certificate, that the beneficial owner of each such Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note is a Permitted Non-U.S. Purchaser (as defined in the Deliverable Obligation Notice), the Note is not being redeemed within the United States or on behalf of a person other than a Permitted Non-U.S. Purchaser and no cash, notes or other property have been or will be delivered within the United States or to, or for the account or benefit of, a person other than a Permitted Non-U.S. Purchaser in connection with any redemption thereof; or (II) in respect of Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes represented by a Rule 144A Global Registered Note Certificate, that the beneficial owner of each such Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note, as applicable, is a Permitted QIB Purchaser;
 - (VI) authorising the production of such certification in any applicable administrative or legal proceedings, as provided in the Fiscal Agency Agreement;

 - (IX) containing a confirmation that the Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, will not be transferred until Delivery is completed, subject in any case to any transfer restrictions.
- (C) Forms of the Deliverable Obligation Notice will be delivered to the Securityholders together with the Risk Event Notice.
- (D) No Deliverable Obligation Notice may be withdrawn after receipt thereof by the Relevant Clearing System, the Issuer, the Fiscal Agent or the Registrar, as the case may be, as provided above. After delivery of a Deliverable Obligation Notice (x) such relevant Securityholder or its designee (on its behalf), as applicable, shall be the only person entitled to delivery of its portion of the LA Settlement Assets, and as such (y) the relevant Securityholder may not transfer the Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes, as applicable, which are the subject of such notice.
- (E) Failure to properly complete and deliver a Deliverable Obligation Notice may result in such notice being treated as null and void and deemed to not have been provided. Any determination as to whether such notice has been properly completed and delivered as provided in these Credit Linked Conditions shall be made by the Calculation Agent, the Issuer or the Fiscal Agent, on the

Issuer's behalf, and shall be conclusive and binding on the relevant Securityholder.

- (F) Delivery of the LA Settlement Assets and payment of the Undeliverable LA Cash Redemption Amount (if any) in respect of each Securityholder shall be made by the Issuer in accordance with the details specified in the applicable Deliverable Obligation Notice.

(iii) *Payment of the Undeliverable LA Cash Redemption Amount (if any)*

Upon Delivery of the LA Settlement Assets, the Issuer's obligations in respect of the redemption of the Applicable Proportion of each Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note, as applicable, shall be fully and effectively discharged, PROVIDED THAT if in the determination of the Issuer:

- (A) due to circumstances beyond the control of the Issuer, it is or would be impossible, illegal or in breach of any restriction (whether regulatory, fiduciary or contractual) to obtain, hold or deliver some or all of the LA Settlement Assets (including any such LA Settlement Assets held by or on behalf of the Issuer and/or any Affiliate) to the Securityholders, including circumstances in which a Market Disruption Event is subsisting; and/or
- (B) due to circumstances beyond the control of the Issuer, it is or would be impracticable (whether on grounds of illiquidity or otherwise) and/or it is not commercially reasonable for the Issuer to obtain, hold or deliver some or all of the LA Settlement Assets (including any such LA Settlement Assets held by or on behalf of the Issuer and/or any Affiliate) to the Securityholders; and/or
- (C) due to circumstances within the control of the Securityholders (including, without limitation, the Securityholders not having opened or notified the Issuer of its specified account, given any required certifications or as a result of limb (b) of the definition of "Payment/Delivery Failure Event" occurring), the Issuer is unable to arrange, or conditions are not fulfilled, for the delivery of some or all LA Settlement Assets,

and such circumstances continue up to and including the LA Physical Redemption Date, then the Issuer shall have no further delivery obligations hereunder to the Securityholders with respect to those LA Settlement Assets which are affected by such circumstances described in paragraphs (A), (B) or (C) above (the "**Undeliverable Assets**") and the Issuer shall, in respect of the Undeliverable Assets in respect of any Local Access Single Name Credit Linked Note or Local Access Basket Credit Linked Note, as applicable, held by a Securityholder, pay to the specified account of that Securityholder on the LA Cash Redemption Date the Undeliverable LA Cash Redemption Amount.

(iv) *Determination of Undeliverable LA Cash Redemption Amount*

The Calculation Agent shall determine the Undeliverable LA Cash Redemption Amount on the LA Valuation Date.

20. Fixed Recovery Redemption Terms

(a) *Redemption Amount*

Subject to Credit Linked Condition 23 (*Effect of DC Resolutions*), unless previously redeemed in full or purchased and cancelled, if Fixed Recovery Redemption is specified as the Credit Event Redemption Method in the applicable Issue Terms, then following the occurrence of a Relevant Event Determination Date, the Applicable Proportion of each Credit Linked Note shall redeem or be written down in accordance with Credit Linked Condition 18 (*Cash Redemption Terms*), PROVIDED THAT:

- (i) the Final Price shall be deemed to be determined at the Fixed Recovery Percentage (specified in the applicable Issue Terms with respect to an Affected Reference Entity and the related Relevant Event Determination Date) and the Cash Redemption Amount or the Final Cash Redemption Amount, as applicable, shall be determined using such Fixed Recovery Percentage, as further set out in the definitions of "Cash Redemption Amount" and "Final Cash Redemption Amount" in Credit Linked Condition 31 (*Definitions*);
 - (ii) the "Final Price Determination Date" shall be the date on which the Final Price is deemed to be determined at the Fixed Recovery Percentage; and
 - (iii) Single Valuation Date will be deemed to have been specified as the applicable Valuation Date on which the Cash Redemption Amount or the Final Cash Redemption Amount, as applicable, shall be determined.
- (b) *Fixed Recovery Percentage of zero*

If the Fixed Recovery Percentage is zero, following the occurrence of a Relevant Event Determination Date, the occurrence of the relevant Cash Redemption Date or Final Cash Redemption Date, as applicable, shall fully and effectively discharge the Issuer's obligation to redeem the Applicable Proportion of the relevant Note.

For the avoidance of doubt, in such circumstance, the loss amount in respect of an Affected Reference Entity will be deemed to be 100 per cent. and, accordingly, no amounts will be payable or assets deliverable to the Securityholders. The Securityholders will bear the loss of their principal with respect to such proportion of the Credit Linked Notes impacted by the Credit Event and no liability shall attach to the Issuer.

21. Redemption upon Merger Event

If "Redemption following Merger" is specified as being applicable in the applicable Issue Terms, in the event that the Issuer and/or the Calculation Agent determines, in its discretion, acting in a commercially reasonable manner, that a Merger Event has occurred, the Issuer may give notice to the Securityholders in accordance with Credit Linked Condition 28 (*Notices*) and redeem each Credit Linked Note in full or in part on the Early Termination Date at the Merger Redemption Amount (PROVIDED THAT if nothing is specified in the applicable Issue Terms, "Redemption following Merger" shall apply).

This Credit Linked Condition 21 shall not apply in respect of Nth-to-Default Basket Credit Linked Notes, Index Untranchured Credit Linked Notes, Index Tranchured Credit Linked Notes or Portfolio Tranchured Credit Linked Notes.

22. Payment/Delivery Failure Event

- (a) *Payment/Delivery Failure Event – failure to pay*

This Credit Linked Condition 22(a) shall not apply where a RMB Disruption Event has occurred (in which case, General Condition 8(j) (*Occurrence of a RMB Disruption Event*) shall apply).

If an event constituting a Payment/Delivery Failure Event under limb (a) of such definition has occurred and exists, subject to Credit Linked Condition 22(c) (*No additional interest*) below, the obligation of the Issuer to pay the relevant amount will be postponed until such time that the Payment/Delivery Failure Event no longer exists or is cured (including, without limitation, where the Securityholder requests the Issuer in writing to make payment of such amount to such other account or to such other person as the Securityholder specifies and represents to the Issuer that such payment to its designee will discharge the Issuer's obligations to the Securityholder in respect of such payment). Where such postponement applies, the Issuer shall give notice of such postponement to the Securityholders ("**Payment Failure Event Notice**") as soon as reasonably practicable in accordance with Credit Linked Condition 28 (*Notices*).

Notwithstanding anything to the contrary in these Credit Linked Conditions, if the Issuer determines (in its discretion, acting in a commercially reasonable manner) that such

Payment/Delivery Failure Event continues to exist for such number of Business Days specified in the Issue Terms or, if no number of Business Days is specified in the Issue Terms, 90 Business Days following the later to occur of (a) any scheduled payment date or the (b) Scheduled Maturity Date or Extended Maturity Date, as applicable (the "**Payment Failure Cut-Off Date**") in respect of an amount required to be paid (including where the Securityholder has not elected for payment to be made to a third party or other account (if applicable) in accordance with Credit Linked Condition 22(c) (*No additional interest*) above, no such payment will be made by the Issuer and the Issuer's obligations to the Securityholder hereunder will be deemed to be fully discharged as of that date.

(b) *Payment/Delivery Failure Event – failure to deliver*

This Credit Linked Condition 22(b) shall not apply to Local Access Single Name Credit Linked Notes or Local Access Basket Credit Linked Notes (instead, Credit Linked Condition 19(k)(iii) (*Payment of the Undeliverable LA Cash Redemption Amount (if any)*) shall apply).

If an event constituting a Payment/Delivery Failure Event under limb (b) of such definition has occurred, the obligations of the Issuer to procure Delivery of the Physical Redemption Assets to such Securityholder shall, subject to Credit Linked Conditions 19(a) (*Delivery of Physical Redemption Assets*) and 23(d) (*Redemption Suspension*) cease and if "Fallback Cash Redemption" is specified to apply in the applicable Issue Terms, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Physical Redemption Assets that cannot be Delivered on or prior to the Latest Permissible Physical Settlement Date and the Issuer shall pay each Securityholder each Credit Linked Note's *pro rata* share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date. For such purpose, the Physical Redemption Assets shall constitute an "Undelivered Deliverable Obligations" for the purposes of application of Credit Linked Condition 19(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*).

If "Fallback Cash Redemption" is not specified to apply in the applicable Issue Terms and if such Payment/Delivery Failure Event continues to exist on the Latest Permissible Physical Settlement Date, the Issuer shall have no further liability or obligation whatsoever in respect of such Credit Linked Note and no obligation to deliver the Physical Redemption Assets on or after the Latest Permissible Physical Settlement Date. However, if the Payment/Delivery Failure Event ceases to exist or is cured prior to the Latest Permissible Physical Settlement Date, the obligation of the Issuer to Deliver the Physical Redemption Assets will be postponed to a date determined by the Issuer to be no later than 10 Business Days following the Latest Permissible Physical Settlement Date (the "**Final Physical Redemption Cut-Off Date**").

(c) *No additional interest*

Any postponement or deemed discharge of payment pursuant to this Credit Linked Condition 22 will not constitute a default hereunder (including for the purpose of the definition of "Events of Default") and will not entitle the relevant Securityholder to any additional interest or other payment as a result thereof.

23. Effect of DC Resolutions

(a) *Binding nature*

Any DC Resolution of the relevant Credit Derivatives Determinations Committee will be binding with respect to the relevant Credit Linked Notes in accordance with these Credit Linked Conditions.

(b) *Event Determination Dates*

(i) *Determinations by the Calculation Agent*

A Relevant Event Determination Date which is determined by the Calculation Agent to apply to the Credit Linked Notes will be binding with respect to the relevant Credit Linked Notes.

(ii) *Reversal of DC Credit Event Announcement*

If a prior DC Resolution or the occurrence of an Event Determination Date is subsequently reversed prior to:

- (A) in respect of Credit Linked Notes (other than Credit Linked Interest Notes), the relevant Auction Final Price Determination Date, a Physical Redemption Date, redemption of the Credit Linked Notes in full, a Valuation Date or a Delivery Date; or
- (B) in respect of Credit Linked Interest Notes only, the earlier of:
 - (1) the relevant Auction Final Price Determination Date, redemption of the Credit Linked Notes in full or a Valuation Date; and
 - (2) the date falling one calendar year from (and including) (x) the Interest Payment Date immediately preceding the Relevant Event Determination Date (if "No Interest Accrual on Default" applies) or (y) the Relevant Event Determination Date (if "Interest Accrual on Default" applies),

a Credit Event shall be deemed not to have occurred with respect to the relevant Reference Entity for the purposes of these Credit Linked Conditions.

In respect of Index Tranching Credit Linked Notes which are Credit Linked Interest Notes, the Issuer shall pay an amount equal to (i) the amount of interest which would have been paid had the Event Determination Date not occurred minus (ii) the amount of interest which was paid and shall pay such amount on the tenth Business Day following the date on which the Credit Event is deemed not to have occurred or, the next following Interest Payment Date, at the discretion of the Calculation Agent.

(iii) *Linear Basket Credit Linked Notes, Index Untranching Credit Linked Notes, Index Tranching Credit Linked Notes and Portfolio Tranching Credit Linked Notes*

Where the Credit Linked Notes are Linear Basket Credit Linked Notes, Index Untranching Credit Linked Notes, Index Tranching Credit Linked Notes, Portfolio Tranching Credit Linked Notes or Local Access Basket Credit Linked Notes, an Event Determination Date may occur in respect of each Reference Entity referenced in the basket or Index, as applicable, PROVIDED THAT, other than in respect of an M(M)R Restructuring (if applicable), an Event Determination Date shall apply only once to each such Reference Entity.

(iv) *Multiple successor determinations*

Where multiple successors have been determined in respect of a Reference Entity in accordance with Credit Linked Condition 24 (*Successor Provisions*), an Event Determination Date may occur in respect of each successor Reference Entity.

(c) *Determinations in respect of Successors and Substitute Reference Obligations*

If a DC Resolution relating to Successors or Substitute Reference Obligations is subsequently reversed after the identification of a Successor or a Substitute Reference Obligation by the Calculation Agent, such prior DC Resolution shall be disregarded for the purposes of these Credit Linked Conditions.

(d) *Redemption Suspension*

If, following the occurrence of a Relevant Event Determination Date but prior to the relevant Credit Event Redemption Date, Delivery Date or, to the extent applicable, a Valuation Date in respect of a Reference Entity, there is an Applicable DC Credit Event Meeting Announcement, all timing requirements in these Credit Linked Conditions that pertain to redemption shall toll and remain suspended until the date of the Applicable DC Credit Event Announcement or

Applicable DC Credit Event Question Dismissal, as applicable. During such suspension period, the Issuer is not obliged to take any action in connection with the settlement of such Credit Event or the redemption, if any, of the Credit Linked Notes. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal has occurred, the relevant timing requirements that pertain to redemption that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the relevant CDS Information Publisher with the Issuer having the benefit of the full day notwithstanding when the tolling or suspension began. The Issuer shall deliver, or cause the Fiscal Agent to deliver, a notice (a "**Redemption Suspension Notice**") in accordance with Credit Linked Condition 28 (*Notices*) to the Securityholders giving notice of any suspension of timing requirements pursuant to this Credit Linked Condition 23.

24. Successor Provisions

(a) *Eligible Successors*

An entity may only be a Successor if:

- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
- (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity;
- (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event; and
- (iv) in respect of Index Untranchured Credit Linked Notes and Index Tranchured Credit Linked Notes, the Successor is an entity identified by the relevant Index Sponsor on or following the earlier of the Effective Date and the Trade Date where the relevant Credit Derivatives Determinations Committee has, in relation to a Successor Resolution Request Date, not identified a Successor in accordance with the DC Rules.

(b) *Successor Determinations*

Subject to the restrictions set out under Credit Linked Condition 6(h) (*Restriction on Delivery of Credit Event Notice or Successor Notice*) and 7(i) (*Restriction on Delivery of Credit Event Notice or Successor Notice*) in relation to Index Untranchured Credit Linked Notes and Index Tranchured Credit Linked Notes only, the Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors in accordance with the definition of "Successor", PROVIDED THAT the Calculation Agent will not make such determination if, at the time of the determination, the relevant CDS Information Publisher has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition on the basis of Eligible Information and will notify the Issuer and the Fiscal Agent of any such calculation or determination as soon as practicable. In calculating the percentages used to determine whether an entity qualifies as a Successor under this Credit Linked Condition 24(b), if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Notwithstanding the above, the Calculation Agent may, but is not obliged to, rely on the determination of any Credit Derivatives Determinations Committee as to whether any Successor has been identified.

(c) *Substitute Reference Obligations following a Successor Event*

Where any one or more Successors have not assumed a Non-Standard Reference Obligation, a Substitute Reference Obligation will be determined, where the Calculation Agent deems appropriate, in accordance with Credit Linked Condition 26(b) (*Substitute Reference Obligation*).

(d) *Transaction Types of Successor Reference Entities*

If the Transaction Type applicable to a Successor differs from the Transaction Type of the Reference Entity in respect of which the Successor has been identified, notwithstanding such difference, the Transaction Type of the Reference Entity in respect of which the Successor has been identified shall, with effect from the Succession Date, continue to apply to the Successor.

(e) *Succession in respect of multiple Reference Entities simultaneously*

If two or more Reference Entities are subject to one or more successions simultaneously or the order of such succession cannot be determined from Eligible Information, then each such Reference Entity shall be deemed to have been subject to a separate succession, with all such successions occurring in the order determined by the Calculation Agent.

(f) *Single Successor*

Where the Calculation Agent determines that there is a single Successor in respect of a Reference Entity, such Successor shall, with effect from the Succession Date, be a Reference Entity for the purpose of the Notes (and, for the avoidance of doubt, the Reference Entity in respect of which the Successor has been identified shall cease to be a Reference Entity with effect from the Succession Date unless it has also been identified as a Successor), PROVIDED THAT, in the case of Nth-to-Default Basket Credit Linked Notes, (a) if the Successor is not an Nth-to-Default Non-Succession Reference Entity (as defined below), the Reference Entity Count will be the Reference Entity Count of the Nth-to-Default Succession Reference Entity (as defined below) and (b) if an Nth-to-Default Succession Reference Entity would be a Successor to an Nth-to-Default Non-Succession Reference Entity, the provisions set out in Credit Linked Condition 24(h)(ii)(F) (*Nth-to-Default Basket Credit Linked Notes*) shall equally apply in the case of a single Successor.

(g) *Joint Potential Successors*

If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee (or, in respect of a Monoline Insurer Reference Entity, a Qualifying Policy), then (a) if the Joint Relevant Obligation was a direct obligation of the relevant Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (b) if the Joint Relevant Obligation was a Relevant Guarantee (or, in respect of a Monoline Insurer Reference Entity, a Qualifying Policy), it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors (or, in respect of a Monoline Insurer Reference Entity, as provider of a Qualifying Policy), if any, or otherwise by each Joint Potential Successor in equal parts.

(h) *Multiple Successors*

(i) *Single Name Credit Linked Notes*

Where the Credit Linked Notes are Single Name Credit Linked Notes and following a succession and related Succession Date in respect of a Reference Entity (such Reference Entity affected by a succession being a "**Single Name Succession Reference Entity**"), more than one Successor has been identified by the Calculation Agent, the Single Name Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding nominal amount or any other relevant calculation amounts equally in relation to each Successor:

SCHEDULE A – CREDIT LINKED CONDITIONS – PART II

- (A) the Single Name Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, a "**Single Name Successor Entity**") and, accordingly, more than one Relevant Event Determination Date (and, accordingly, more than one Relevant Credit Event) may occur in respect of the Single Name Credit Linked Notes but, subject to Credit Linked Condition 16 (*M(M)R Restructuring*), once only in relation to each Successor;
- (C) where a Relevant Credit Event and related Relevant Event Determination Date occurs in respect of a Single Name Successor Entity:
 - (I) the Single Name Credit Linked Notes will not redeem in whole, but instead the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Single Name Successor Entity only after the apportionment described above (the "**Single Name Partial Nominal Amount**");
 - (II) for Credit Linked Principal Notes, such Single Name Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Condition 3(f)(i) (*Auction Redemption*), 3(f)(ii) (*Cash Redemption*), 3(f)(iii) (*Physical Redemption*) or 3(f)(iv) (*Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's *pro rata* share of the Single Name Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date, as applicable)); and
 - (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of an M(M)R Restructuring).

Following the occurrence of such Relevant Credit Event, the Single Name Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Single Name Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Single Name Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor, considered in the aggregate);

- (D) if some but not all of the Single Name Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*), the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Single Name Credit Linked Notes; and
 - (E) the provisions of this Credit Linked Condition 24(h)(i) shall apply in respect of any identification by the Calculation Agent of further Successors.
- (ii) *Nth-to-Default Basket Credit Linked Notes*

Where the Credit Linked Notes are Nth-to-Default Basket Credit Linked Notes and following a succession and a related Succession Date in respect of a Reference Entity (each such Reference Entity, an "**Nth-to-Default Succession Reference Entity**" and the Reference Entities unaffected by such succession or any previous successions, the "**Nth-to-Default Non-Succession Reference Entities**"), more than one Successor has been identified by the Calculation Agent, the Nth-to-Default Basket Credit Linked Notes will be amended without the consent of the Securityholders to reflect the

following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding nominal amount or any other relevant calculation amounts equally in relation to each Nth-to-Default Succession Reference Entity:

- (A) the Nth-to-Default Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, an "**Nth-to-Default Successor Entity**") and the Nth-to-Default Non-Succession Reference Entities will continue to be Reference Entities;
- (C) the occurrence of a Relevant Event Determination Date with respect to any of the Nth-to-Default Non-Succession Reference Entities will, where such Nth-to-Default Non-Succession Reference Entity is the nth Reference Entity to which a Relevant Event Determination Date has occurred, result in the redemption of the Nth-to-Default Basket Credit Linked Notes in full (or, in respect of an M(M)R Restructuring where the Exercise Amount is less than the Outstanding Aggregate Nominal Amount of the Credit Linked Notes, redemption of the Nth-to-Default Basket Credit Linked Notes in part) in accordance with Credit Linked Condition 4 (*Nth-to-Default Basket Credit Linked Notes*);
- (D) where a Relevant Credit Event and related Relevant Event Determination Date has occurred in respect of the nth Reference Entity:
 - (I) such Credit Event shall be a Relevant Credit Event for the purpose of the Nth-to-Default Basket Credit Linked Notes and the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Nth-to-Default Successor Entity only after the apportionment described above is effected (the "**Nth-to-Default Partial Nominal Amount**");
 - (II) the Nth-to-Default Basket Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Condition 4(f)(i) (*Auction Redemption*), 4(f)(ii) (*Cash Redemption*), 4(f)(iii) (*Physical Redemption*) or 4(f)(iv) (*Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's *pro rata* share of the Nth-to-Default Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date, as applicable)); and
 - (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of an M(M)R Restructuring).

Following the occurrence of such Relevant Credit Event, the Nth-to-Default Basket Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Nth-to-Default Basket Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Nth-to-Default Basket Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor, considered in the aggregate);

- (E) if a single entity would be a Reference Entity hereunder more than once, subject to Credit Linked Condition 24(h)(ii)(F) below, that Reference Entity shall be deemed to be specified only once, and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Nth-to-Default Basket Credit Linked Notes;

- (F) where an Nth-to-Default Non-Succession Reference Entity is identified as a Successor to any Nth-to-Default Succession Reference Entity pursuant to a succession:
 - (I) if the Transaction Type and Reference Obligation (including the absence of a Reference Obligation) of the Nth-to-Default Non-Succession Reference Entity is identical to that of the Nth-to-Default Succession Reference Entity, the Reference Entity Count of the Nth-to-Default Non-Succession Reference Entity shall be equal to the sum of (x) the Reference Entity Count of the Nth-to-Default Non-Succession Reference Entity immediately prior to the relevant succession (the "**Surviving Reference Entity Count**") and (y) the Reference Entity Count of the Nth-to-Default Succession Reference Entity immediately prior to the relevant succession (the "**Legacy Reference Entity Count**", and the Legacy Reference Entity Count and the Surviving Reference Entity Count, together, the "**Combined Prior Count**"); or
 - (II) if the Transaction Type and Reference Obligation of the Nth-to-Default Non-Succession Reference Entity is not identical to that of the Nth-to-Default Succession Reference Entity, the Calculation Agent shall apportion as at the Succession Date any outstanding nominal amount or any other relevant calculation amounts into two separate portions where:
 - (i) one portion shall reflect the product of the Outstanding Aggregate Nominal Amount of the Nth-to-Default Basket Credit Linked Notes and the Legacy Reference Entity Count divided by the Combined Prior Count, with the Nth-to-Default Non-Succession Reference Entity having (a) a Transaction Type and Reference Obligation identical to the Nth-to-Default Succession Reference Entity and (b) a Reference Entity Count equal to the Combined Prior Count; and
 - (ii) the other portion shall reflect the product of the Outstanding Aggregate Nominal Amount of the Nth-to-Default Basket Credit Linked Notes and the Surviving Reference Entity Count divided by the Combined Prior Count, with the Nth-to-Default Non-Succession Reference Entity having (a) a Transaction Type and Reference Obligation identical to the Nth-to-Default Non-Succession Reference Entity and (b) a Reference Entity Count equal to the Combined Prior Count;
- (G) if some but not all of the Nth-to-Default Basket Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Nth-to-Default Basket Credit Linked Notes; and
- (H) the provisions of this Credit Linked Condition 24(h)(ii) shall apply in respect of any identification by the Calculation Agent of further Successors;
- (iii) *Linear Basket Credit Linked Notes*

Where the Credit Linked Notes are Linear Basket Credit Linked Notes and following a succession and related Succession Date in respect of a Reference Entity (each such Reference Entity and any Reference Entity in respect of which a Succession Date has previously occurred, a "**Linear Basket Succession Reference Entity**" and the Reference Entities unaffected by such Succession Date or any previous Succession

Dates, the "**Linear Basket Non-Succession Reference Entities**"), more than one Successor has been identified by the Calculation Agent, the Linear Basket Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amount or any other relevant calculation amounts equally in relation to each Linear Basket Succession Reference Entity:

- (A) the Linear Basket Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, a "**Linear Basket Successor Entity**"), and the Linear Basket Non-Succession Reference Entities will continue to be Reference Entities;
- (C) where a Relevant Credit Event and related Relevant Event Determination Date occurs in respect of a Linear Basket Successor Entity:
 - (I) the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Linear Basket Successor Entity only after the apportionment described above is effected (the "**Linear Basket Partial Nominal Amount**");
 - (II) the Linear Basket Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Conditions 5(f)(i) (*Auction Redemption*), 5(f)(ii) (*Cash Redemption*), 5(f)(iii) (*Physical Redemption*) or 5(f)(iv) (*Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's *pro rata* share of the Linear Basket Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date, as applicable)); and
 - (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of an M(M)R Restructuring).

Following such event, the Linear Basket Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Linear Basket Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Linear Basket Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor), considered in the aggregate;

- (D) if, as a result of a succession, a single entity would be a Reference Entity hereunder more than once, that Reference Entity shall be deemed to be a Reference Entity only once and the Reference Entity Notional Amount for such Reference Entity will be the sum of the Reference Entity Notional Amounts otherwise applicable to it (and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Linear Basket Credit Linked Notes);
- (E) if some but not all of the Linear Basket Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Linear Basket Credit Linked Notes; and

- (F) the provisions of this Credit Linked Condition 24(h)(iii) shall apply in respect of any identification by the Calculation Agent of further Successors.

(iv) *Index Untranching Credit Linked Notes*

Where the Credit Linked Notes are Index Untranching Credit Linked Notes and following a succession and related Succession Date in respect of a Reference Entity (each such Reference Entity and any Reference Entity in respect of which a Succession Date has previously occurred, an "**Index Untranching Succession Reference Entity**" and the Reference Entities unaffected by such Succession Date or any previous Succession Dates, the "**Index Untranching Non-Succession Reference Entities**"), more than one Successor has been identified, the Index Untranching Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amount or any other relevant calculation amounts equally in relation to each Index Untranching Succession Reference Entity:

- (A) the Index Untranching Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, an "**Index Untranching Successor Entity**"), and the Index Untranching Non-Succession Reference Entities will continue to be Reference Entities;
- (C) where a Relevant Credit Event and related Relevant Event Determination Date occurs in respect of an Index Untranching Successor Entity:
- (I) the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Index Untranching Successor Entity only after the apportionment described above is effected (the "**Index Untranching Partial Nominal Amount**");
- (II) the Index Untranching Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Condition 6(f)(i) (*Auction Redemption*), 6(f)(ii) (*Cash Redemption*) or 6(f)(iii) (*Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's pro rata share of the Index Untranching Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date, as applicable)); and
- (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of an M(M)R Restructuring).

Following such event, the Index Untranching Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Index Untranching Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Index Untranching Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor), considered in the aggregate;

- (D) if, as a result of a succession, a single entity would be a Reference Entity hereunder more than once, that Reference Entity shall be deemed to be a Reference Entity only once and the Reference Entity Notional Amount for such Reference Entity will be the sum of the Reference Entity Notional

Amounts otherwise applicable to it (and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Index Untranchured Credit Linked Notes);

- (E) if some but not all of the Index Untranchured Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Index Untranchured Credit Linked Notes; and
- (F) the provisions of this Credit Linked Condition 24(h)(B)(I) shall apply in respect of any identification by the Calculation Agent of further Successors.

(v) *Index Tranchured Credit Linked Notes*

Where the Credit Linked Notes are Index Tranchured Credit Linked Notes and following a succession and related Succession Date in respect of a Reference Entity (each, an "**Index Tranchured Succession Reference Entity**" and the Reference Entities unaffected by such succession, the "**Index Tranchured Non-Succession Reference Entities**"), more than one Successor has been identified, the Index Tranchured Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amount, other relevant calculation amounts, the Reference Entity Notional Amount equally in relation to each Successor:

- (A) the Index Tranchured Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, an "**Index Tranchured Successor Entity**"), and the Index Tranchured Non-Succession Reference Entities will continue to be Reference Entities;
- (C) where a Relevant Credit Event and related Relevant Event Determination Date occurs in respect of an Index Tranchured Successor Entity:
 - (I) the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Index Tranchured Successor Entity only after the apportionment described above is effected;
 - (II) for Credit Linked Principal Notes, the Index Tranchured Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Conditions 7(f)(i) (*Auction Redemption*), 7(f)(ii) (*Cash Redemption*) or 7(f)(iii) (*Fixed Recovery Redemption*), as applicable (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date, as applicable); and
 - (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of an M(M)R Restructuring).

Following such event, the Index Tranchured Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Index Tranchured Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Index Tranchured Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor), considered in the aggregate;

- (D) if, as a result of a succession, a single entity would be a Reference Entity hereunder more than once, that Reference Entity shall be deemed to be a Reference Entity only once and the Reference Entity Notional Amount for such Reference Entity will be the sum of (I) the Reference Entity Notional Amount otherwise applicable to it prior to the apportionment referred to above and (II) the Reference Entity Notional Amount allocated to such Successor as a result of the apportionment referred to above (and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Index Tranch Credit Linked Notes);
- (E) for Credit Linked Principal Notes, if some but not all of the Index Tranch Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Index Tranch Credit Linked Notes; and
- (F) the provisions of this Credit Linked Condition 24(h)(v) shall apply in respect of any identification by the Calculation Agent of further Successors.

(vi) *Portfolio Tranch Credit Linked Notes*

Where the Credit Linked Notes are Portfolio Tranch Credit Linked Notes and following a succession and related Succession Date in respect of a Reference Entity (each such Reference Entity and any Reference Entity in respect of which a Succession Date has previously occurred, an "**Portfolio Tranch Succession Reference Entity**" and the Reference Entities unaffected by such Succession Date or any previous Succession Dates, the "**Portfolio Tranch Non-Succession Reference Entities**"), more than one Successor has been identified by the Calculation Agent, the Portfolio Tranch Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amount or any other relevant calculation amounts equally in relation to each Portfolio Tranch Succession Reference Entity:

- (A) the Portfolio Tranch Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, a "**Portfolio Tranch Successor Entity**"), and the Portfolio Tranch Non-Succession Reference Entities will continue to be Reference Entities;
- (C) where a Relevant Credit Event and related Relevant Event Determination Date occurs in respect of a Portfolio Tranch Successor Entity:
 - (I) the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Portfolio Tranch Successor Entity only after the apportionment described above is effected;
 - (II) the Portfolio Tranch Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Conditions 8(f)(i) (*Auction Redemption*), 8(f)(ii) (*Cash Redemption*) or 8(f)(iii) (*Fixed Recovery Redemption*), as applicable (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Cash Redemption Date or Final Auction Redemption Date, as applicable); and
 - (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of an M(M)R Restructuring).

Following such event, the Portfolio Tranching Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Portfolio Tranching Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Portfolio Tranching Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor), considered in the aggregate;

- (D) if, as a result of a succession, a single entity would be a Reference Entity hereunder more than once, that Reference Entity shall be deemed to be a Reference Entity only once and the Reference Entity Notional Amount for such Reference Entity will be the sum of the Reference Entity Notional Amounts otherwise applicable to it (and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Portfolio Tranching Credit Linked Notes);
- (E) if some but not all of the Portfolio Tranching Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Portfolio Tranching Credit Linked Notes; and
- (F) the provisions of this Credit Linked Condition 24(h)(vi) shall apply in respect of any identification by the Calculation Agent of further Successors.

(vii) *Local Access Single Name Credit Linked Notes*

Where the Credit Linked Notes are Local Access Single Name Credit Linked Notes and following a Succession Date in respect of a Reference Entity (the Reference Entity, a "**Local Access Single Name Succession Reference Entity**"), more than one Successor has been identified by the Calculation Agent, the Local Access Single Name Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amount or any other relevant calculation amounts equally in relation to each Local Access Single Name Succession Reference Entity:

- (A) the Local Access Single Name Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, a "**Local Access Single Name Successor Entity**") and, accordingly, more than one Relevant Risk Event Determination Date (and accordingly, more than one Relevant Risk Event) may occur in respect of the Credit Linked Notes but once only in relation to each Successor;
- (C) where a Relevant Risk Event and related Relevant Risk Event Determination Date occurs in respect of the Local Access Single Name Successor Entity after such Succession Date:
 - (I) the Local Access Single Name Credit Linked Notes will not redeem in whole, but instead the provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Local Access Single Name Successor Entity only after the apportionment described above is effected (the "**Local Access Single Name Partial Nominal Amount**");
 - (II) the Local Access Single Name Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Conditions

9(f)(i) (*LA Cash Redemption*), 9(f)(ii) (*LA Physical Redemption*) or 9(f)(iii) (*LA Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's pro rata share of the Local Access Single Name Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final LA Cash Redemption Date)); and

- (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly.

Following such event, the Local Access Single Name Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Local Access Single Name Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Local Access Single Name Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor), considered in the aggregate;

- (D) if some but not all of the Local Access Single Name Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Local Access Single Name Credit Linked Notes; and
- (E) the provisions of this Credit Linked Condition 24(h)(vii) shall apply in respect of any identification by the Calculation Agent of further Successors.

(viii) *Local Access Basket Credit Linked Notes*

Where the Credit Linked Notes are Local Access Basket Credit Linked Notes and following a Succession Date in respect of a Reference Entity (each such Reference Entity and any Reference Entity in respect of which a Succession Date has previously occurred, a "**Local Access Basket Succession Reference Entity**" and the Reference Entities unaffected by such Succession Date or any previous Succession Dates, the "**Local Access Basket Non-Succession Reference Entities**"), more than one Successor has been identified by the Calculation Agent, the Local Access Basket Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amount or any other relevant calculation amounts equally in relation to each Local Access Basket Succession Reference Entity:

- (A) the Local Access Basket Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, a "**Local Access Basket Successor Entity**") and the Local Access Basket Non-Succession Reference Entities will continue to be Reference Entities;
- (C) where a Relevant Risk Event and related Relevant Risk Event Determination Date occurs in respect of a Local Access Basket Successor Entity:
 - (I) the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Local Access Basket Successor Entity only after the apportionment described above is effected (the "**Local Access Basket Partial Nominal Amount**");

- (II) the Local Access Basket Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Conditions 10(f)(i) (*LA Cash Redemption*), 10(f)(ii) (*LA Physical Redemption*) or 10(f)(iii) (*LA Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's *pro rata* share of the Local Access Basket Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final LA Cash Redemption Date)); and
- (III) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly.

Following such event, the Local Access Basket Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Local Access Basket Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Local Access Basket Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor), considered in the aggregate;

- (D) if, as a result of a succession, a single entity would be a Reference Entity hereunder more than once, that Reference Entity shall be deemed to be a Reference Entity only once and the Reference Entity Notional Amount for such Reference Entity will be the sum of the Reference Entity Notional Amounts otherwise applicable to it (and such change shall have no effect on the Outstanding Aggregate Nominal Amount of the Local Access Basket Credit Linked Notes);
- (E) if some but not all of the Local Access Basket Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Local Access Basket Credit Linked Notes; and
- (F) the provisions of this Credit Linked Condition 24(h)(viii) shall apply in respect of any identification by the Calculation Agent of further Successors.

(i) *Exchange Offer*

In the case of an exchange offer, the determination required pursuant to paragraph (a) of the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

25. Deliverable Obligations

(a) *Restructuring Maturity Limitation*

If (i) "Physical Redemption" is specified as the Credit Event Redemption Method and "Mod R" applies and (ii) "Restructuring" is the only Credit Event specified in a Credit Event Notice delivered by the Calculation Agent, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date, in each case, as of the Delivery Date. In respect of a Monoline Insurer Reference Entity and with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in this paragraph shall mean the specified date

by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

(b) *Modified Restructuring Maturity Limitation*

- (i) If (A) "Physical Redemption" is specified as the Credit Event Redemption Method and "Mod Mod R" applies and (B) Restructuring is the only Credit Event specified in a Credit Event Notice delivered by Issuer, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, if it (x) is a Conditionally Transferable Obligation and (y) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date in each case, as of the Delivery Date. Notwithstanding the foregoing, for the purposes of this Credit Linked Condition 25(b)(i), in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring. In respect of a Monoline Insurer Reference Entity and with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in this Credit Linked Condition 25(b)(i) shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (ii) Where a "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" applies and a Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, if applicable) is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer, and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Redemption Date (in which case it shall be deemed to have been refused), the Calculation Agent shall inform the Issuer. The Issuer shall promptly notify the Fiscal Agent (for onward notification to the Securityholder) of such refusal (or deemed refusal). If a Securityholder (x) does not designate a third party; (y) designates a third party in circumstances where it will be illegal due to any applicable law or regulation for the designee to take Delivery or such Delivery would give rise to any tax or any loss or cost to the Issuer; or (z) a Securityholder does not take Delivery on or prior to the Physical Redemption Date, then Credit Linked Condition 19(h) (*Alternative Procedures Relating to Loans not Delivered*) may be applied by the Issuer.

(c) *Determination of Final Maturity Date*

For the purposes of making a determination under paragraph (a) (*Restructuring Maturity Limitation*) or (b)(i) (*Modified Restructuring Maturity Limitation*) of this Credit Linked Condition 25, the relevant final maturity date shall, subject to the definition of "Conditionally Transferable Obligation", be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

(d) *Multiple Holder Obligation*

- (i) Unless "Multiple Holder Obligation" is specified to be not applicable in the applicable Issue Terms, then none of the events described in sub-paragraphs (i) to (iv) of the definition of "Restructuring" shall constitute a Restructuring unless the Obligation is a Multiple Holder Obligation, where "**Multiple Holder Obligation**" means an Obligation that (A) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (B) with respect to which a percentage of holders (determined pursuant to the terms of the

Obligation as in effect on the date of such event) at least equal to sixty-six-and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event (PROVIDED THAT sub-paragraph (B) shall be deemed to be satisfied where the Obligation is a Bond).

- (ii) In respect of a Monoline Insurer Reference Entity, for the purposes of this definition, the term Obligation shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy.
- (iii) In respect of an LPN Reference Entity, Multiple Holder Obligation will be "Not Applicable" with respect to any Reference Obligation (and any Underlying Loan).

26. Reference Obligation

(a) *Standard Reference Obligation and Non-Standard Reference Obligation*

- (i) If "Standard Reference Obligation" applies, then the Reference Obligation for the relevant Reference Entity will be the Standard Reference Obligation which is the obligation of the relevant Reference Entity with the relevant Seniority Level specified from time to time on the SRO List.
- (ii) If "Standard Reference Obligation" does not apply, then the Reference Obligation(s) for the relevant Reference Entity will be the Non-Standard Reference Obligation specified in the applicable Issue Terms for such Reference Entity.
- (iii) If no election is specified in the applicable Issue Terms, "Standard Reference Obligation" shall apply.

(b) *Substitute Reference Obligation*

- (i) If a Substitution Event has occurred with respect to a Non-Standard Reference Obligation, the Calculation Agent may identify a Substitute Reference Obligation in accordance with Credit Linked Condition 26(b)(iii), 26(b)(iv) and 26(b)(v) to replace such Non-Standard Reference Obligation; PROVIDED THAT the Calculation Agent will not identify an Obligation as the Substitute Reference Obligation if, at the time of the determination, such Obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such Obligation has not changed materially since the date of the relevant DC Resolution. In the case of an Index Untranchured Credit Linked Note or an Index Tranchured Credit Linked Note, as applicable, if there is no Standard Reference Obligation and the Index Sponsor publishes a replacement Reference Obligation for such Reference Entity, the Calculation Agent shall select such obligation rather than identify a Substitute Reference Obligation in accordance with Credit Linked Condition 26(b)(iii), 26(b)(iv) and 26(b)(v).
- (ii) If any of the events contained in paragraph (a) or (c) of the definition of "Substitution Event" have occurred with respect to a Non-Standard Reference Obligation, such Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for the purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic and Credit Linked Condition 26(b)(iii)(B). If the event contained in sub-paragraph (b) of the definition of "Substitution Event" has occurred with respect to a Non-Standard Reference Obligation and no Substitute Reference Obligation is available, such Non-Standard Reference Obligation will continue to be a Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under paragraph (a) or (c) of the definition of "Substitution Event" occur with respect to such Non-Standard Reference Obligation.
- (iii) The Substitute Reference Obligation shall be an Obligation that on the Substitution Date:

SCHEDULE A – CREDIT LINKED CONDITIONS – PART II

- (A) is a Borrowed Money obligation of the relevant Reference Entity (either directly or as provider of a Guarantee (or, in respect of a Monoline Insurer Reference Entity, a Qualifying Policy));
- (B) satisfies the Not Subordinated Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change the priority of payment after such date) and on the Substitution Date; and
- (C)
 - (I) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:

in each case, taking into account (without double counting) any partial redemptions, amortisations, cancellations or further issues of the Credit Linked Notes of such Series on or prior to such date.

"Outstanding Amount" has the meaning given to that term in the definition of "Notice of Physical Settlement".

"Outstanding Nominal Amount" means, in respect of a Single Name Credit Linked Note, a Local Access Single Name Credit Linked Note or a Local Access Basket Credit Linked Note, an amount per Note equal to:

- (a) the Outstanding Aggregate Nominal Amount of the Series comprising such Note; divided by
- (b) the number of Credit Linked Notes in such Series.

The "**Outstanding Principal Balance**" of an obligation will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the relevant Reference Entity's principal payment obligations and, where applicable in accordance with the definition of "Accrued Interest", the relevant Reference Entity's accrued but unpaid interest payment obligations, which in the case of a Guarantee (or in respect of a Monoline Insurer Reference Entity, a Qualifying Policy), will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (or Insured Instrument, as applicable) (determined as if references to the relevant Reference Entity were references to the Underlying Obligor (or Insured Obligor, as applicable)) and (ii) the amount of the Fixed Cap, if any); or
- (b) second, by subtracting (I) Unwind Costs, the Delivery Expenses and Interest Suspension Shortfall Amount, in each case, if any (rounded down to the nearest integral authorised denomination of the relevant obligations); plus (II) all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted Contingency) (the amount determined in paragraph (a) above of the definition of "Outstanding Principal Balance" less any amounts subtracted in accordance with this paragraph (b), the "**Non-Contingent Amount**") (PROVIDED THAT, in respect of a Monoline Insurer Reference Entity, any provisions of an Insured Instrument limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument, shall be disregarded for the purposes of this paragraph (b), PROVIDED THAT such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction); and
- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (A) unless otherwise specified, in accordance with the terms of the obligation in effect on (I) the Delivery Date, (II) the Valuation Date or (III) the LA Physical Redemption Date, as applicable; and
- (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purpose of this definition of "Outstanding Principal Balance":

- (i) "**applicable laws**" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject;
- (ii) "**Quantum of the Claim**" means the lowest amount of the claim which could be validly asserted against the relevant Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the relevant determination, PROVIDED THAT the Quantum of the Claim cannot exceed the Non-Contingent Amount; and

If "**2019 NTCE Supplement to the 2014 ISDA Credit Derivatives Definitions (July 15, 2019)**" and "**Fallback Discounting**" apply, then notwithstanding the above, if (x) the Outstanding Principal Balance of an obligation is not reduced or discounted under subparagraph (c)(B) above, (ii) that obligation is either a Bond that has an issue price less than 95

per cent. of the principal redemption amount or a Loan where the amount advanced is less than 95 per cent. of the principal repayment amount and, (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (I) the Non-Contingent Amount; and (II) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than 95 per cent. of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the relevant Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

PART III: CREDIT LINKED CONDITIONS (2003 REFERENCE ENTITY)

The Credit Linked Conditions of the Notes set out the specific terms and conditions that apply to only Credit Linked Notes for which "2003 Reference Entity" is specified as applicable in the applicable Issue Terms. For the avoidance of doubt, where this Part III applies, Part II (Credit Linked Conditions (2014 Reference Entity)) will not apply.

The Credit Linked Conditions set out the economic or 'payout' terms of the Credit Linked Notes. These are optional provisions and only certain of these terms will apply to the relevant Series of Credit Linked Notes. The applicable Issue Terms will specify which of the provisions apply to that Series of Credit Linked Notes.

The provisions in this Part III are the conditions (the "**Credit Linked Conditions**") that will apply to the Notes if the applicable Issue Terms provide that "Credit Linked Notes" are applicable (the "**Credit Linked Notes**") and "2003 Reference Entity" is applicable. These Credit Linked Conditions apply as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable. In the case of any inconsistency between these Credit Linked Conditions, the General Conditions and any other Schedule, these Credit Linked Conditions will prevail. *For the avoidance of doubt, any clarificatory language herein in italicised shall not form part of the Credit Linked Conditions.*

This Part III will apply to Credit Linked Notes in respect of which the Issuer purchases credit protection from Securityholders in respect of one Reference Entity only ("**Single Name Credit Linked Notes**").

Words and expressions defined or used in the applicable Issue Terms shall have the same meanings where used in these Credit Linked Conditions, General Conditions and any other Schedule unless the context otherwise requires or unless otherwise stated. All capitalised terms that are not defined in these Credit Linked Conditions or elsewhere in the Terms and Conditions which are applicable to the Credit Linked Notes will have the meanings given to them in the applicable Issue Terms. References in these Credit Linked Conditions to "Credit Linked Notes" are to the Credit Linked Notes, as the case may be, of one Series only, not to all Credit Linked Notes that may be issued under the Programme.

Unless otherwise specified, references in these Credit Linked Conditions to a Credit Linked Condition are to the corresponding provision of these Credit Linked Conditions.

1. Redemption of Credit Linked Notes

(a) *Redemption on the Scheduled Maturity Date where no Relevant Credit Event has occurred*

Unless the Credit Linked Notes have been previously redeemed in full or purchased and cancelled by the Issuer, PROVIDED THAT a Relevant Event Determination Date has not occurred and subject to Credit Linked Condition 6 (*Scheduled Maturity Date Extension*), each outstanding Credit Linked Note shall be redeemed on the Scheduled Maturity Date at the Maturity Redemption Amount.

(b) *Redemption following the occurrence of a Relevant Credit Event*

Unless previously redeemed in full or purchased and cancelled, if a Relevant Credit Event and a corresponding Relevant Event Determination Date has occurred, the Issuer will redeem the Credit Linked Notes (in whole or in part) in accordance with Credit Linked Condition 3 (*Single Name Credit Linked Notes*), subject to Credit Linked Conditions 7 (*Restructuring*), 14 (*Effect of DC Resolutions*) and 15 (*Successor Provisions*), as applicable.

Upon discharge by the Issuer of its payment or delivery obligations on the relevant Credit Event Redemption Date (or, if the Issuer does not have any payment or delivery obligations, upon the occurrence of the relevant Credit Event Redemption Date) pursuant to Credit Linked Conditions 8 (*Auction Redemption Terms*), 9 (*Cash Redemption Terms*), 10 (*Physical Redemption Terms*) or 11 (*Fixed Recovery Redemption Terms*), as applicable, or otherwise provided herein, the Issuer's obligations in respect of such portion of each Credit Linked Note affected by the Relevant Credit Event shall be discharged in full.

As a result of one or more Credit Events, Securityholders may receive less than the principal amount of a Credit Linked Note (and such amount may be zero). Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.

(c) *Early redemption other than following the occurrence of a Relevant Credit Event*

If the Credit Linked Notes are redeemed early:

- (i) pursuant to the Terms and Conditions;
- (ii) following, if applicable, a Merger Event pursuant to Credit Linked Condition 21 (*Redemption upon Merger Event*); or
- (iii) following, if applicable, the failure to substitute the Reference Obligation in certain events as set out in Credit Linked Condition 17(d) (*Redemption following no substitution*),

each outstanding Credit Linked Note shall be redeemed by payment of its Early Termination Amount, Optional Redemption Amount, Merger Redemption Amount or Substitution Event Redemption Amount, as applicable, on the Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable, in each case, in accordance with the applicable Conditions.

Notwithstanding anything contained in these Credit Linked Conditions, if a Relevant Credit Event occurs immediately after an event triggering early redemption of the Credit Linked Notes (as described above), the occurrence of the Relevant Credit Event will be disregarded (to the extent that the relevant Credit Linked Notes have not already been redeemed in full and cancelled) and the Early Termination Amount, Optional Redemption Amount, Merger Redemption Amount or Substitution Event Redemption Amount, as applicable, payable to Securityholders will be determined on the basis of the event triggering early redemption of the Credit Linked Notes only.

2. Interest on Credit Linked Notes

(a) *Accrual of Interest where a Relevant Event Determination Date has not occurred*

Subject to Credit Linked Condition 2(c) (*Suspension of Interest following a CE Resolution Notice or a potential Credit Event*), and PROVIDED THAT the Credit Linked Notes have not been previously redeemed in full or purchased and cancelled, interest (if any) shall accrue on the Outstanding Aggregate Nominal Amount of the Credit Linked Notes in accordance with General Condition 5 (*Interest*) and the Valuation and Settlement Schedule (as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable) to (but excluding) the Scheduled Maturity Date, subject to Credit Linked Condition 3 (*Single Name Credit Linked Notes*)

For the avoidance of doubt, no interest shall accrue on any Credit Linked Note on or after the Scheduled Maturity Date.

(b) *Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event*

Notwithstanding anything to the contrary in General Condition 5 (*Interest*) and the Valuation and Settlement Schedule, following the occurrence of a Relevant Credit Event and a corresponding Relevant Event Determination Date, the payment of interest (if any) in respect of the Applicable Proportion of each relevant Credit Linked Note on the relevant Interest Payment Date, as determined in accordance with and subject to Credit Linked Condition 3 (*Single Name Credit Linked Notes*), will be suspended as of:

- (i) if "No Interest Accrual on Default" applies in the applicable Issue Terms:
 - (x) the Interest Payment Date immediately preceding the Relevant Event Determination Date; or

- (y) where there is no Interest Payment Date immediately preceding the Relevant Event Determination Date, the Issue Date; or
- (ii) if "Interest Accrual on Default" applies in the applicable Issue Terms, the first Business Day immediately following the Relevant Event Determination Date.
- (iii) In such case, in respect of each relevant Credit Linked Note, interest shall accrue on the Applicable Proportion of such Credit Linked Note:
 - (x) from (and including) the Interest Payment Date immediately preceding the Relevant Event Determination Date, or (where there is no Interest Payment Date immediately preceding the Relevant Event Determination Date), the Issue Date
 - (y) to (and including) the Relevant Event Determination Date.

(c) *Suspension of Interest following a CE Resolution Notice or a potential Credit Event*

Subject to Credit Linked Conditions 2(d) (*Payment of Suspended Interest following announcement by the relevant CDS Information Publisher or determination by the Calculation Agent*), 2(e) (*Payment of Suspended Interest and reduction of future Interest following the occurrence of a Relevant Credit Event*) and 6 (*Scheduled Maturity Date Extension*), if, on or prior to an Interest Payment Date, the Calculation Agent determines that:

- (i) a CE Resolution Notice has been submitted in respect of which a DC Resolution (including, but not limited to, a DC Credit Event Announcement and a DC No Credit Event Announcement) has not been published or the Credit Derivatives Determinations Committee has not resolved whether it will convene a meeting to Resolve the matters described in the CE Resolution Notice; or
- (ii) a Relevant Credit Event and corresponding Relevant Event Determination Date could occur but no Credit Event Notice has been provided to the Issuer and/or the Securityholders,

the payment of any interest in respect of the Applicable Proportion will be suspended as of the Interest Payment Date on or immediately preceding the Relevant Event Determination Date, or, where there is no Interest Payment Date immediately preceding such Relevant Event Determination Date, the Issue Date, notwithstanding that a Relevant Event Determination Date has not then occurred.

The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*) as soon as reasonably practicable if any payment of interest on their Notes is suspended pursuant to this Credit Linked Condition 2(c).

The Applicable Proportion of each relevant Credit Linked Note shall be calculated by the Calculation Agent (i) on the assumption that (x) a Relevant Credit Event would result in a Relevant Event Determination Date, (y) the Relevant Credit Event will not be a Restructuring and (z) where any Auction Final Price or Final Price, as applicable, is required to determine the portion of the Credit Linked Notes subject to interest suspension, a Fixed Recovery Percentage of zero per cent. will apply and (ii) in accordance with Credit Linked Condition 3 (*Single Name Credit Linked Notes*).

Except for such portion of interest that is suspended in respect of each Credit Linked Note, payment of any interest on the remaining portion of the relevant Credit Linked Note (which is unaffected by the Relevant Credit Event), if applicable, will be payable to Securityholders as usual on the relevant Interest Payment Date.

(d) *Payment of Suspended Interest following announcement by the relevant CDS Information Publisher or determination by the Calculation Agent*

If:

- (i) In connection with a CE Resolution Notice: (A) an Applicable DC No Credit Event Announcement occurs; or (B) the relevant CDS Information Publisher publicly announces that the Credit Derivatives Determinations Committee has Resolved not to determine the matters set out in such CE Resolution Notice; or
- (ii) the Calculation Agent determines that a Relevant Event Determination Date can no longer occur,

payment of the suspended interest will be made no later than 10 Business Days following (I) in the case of Credit Linked Condition 2(d)(i)(A) above, the relevant announcement by the relevant CDS Information Publisher or (II) otherwise, the date on which the Calculation Agent determines that a Relevant Event Determination Date can no longer occur (taking into consideration any Notice Delivery Period, the date on which the relevant CDS Information Publisher publicly announces that the Credit Derivatives Determinations Committee has Resolved not to determine the matters set out in the CE Resolution Notice, the date of the Applicable DC Credit Event Announcement and any Exercise Cut-off Date).

For the avoidance of doubt, interest shall continue to be suspended until a relevant announcement by the relevant CDS Information Publisher (as described above) occurs, the Calculation Agent determines that no Relevant Event Determination Date can occur. In such circumstances, Securityholders may not receive any interest for multiple Interest Periods and no liability shall attach to the Issuer for any such non-payment of interest.

- (e) *Payment of Suspended Interest and reduction of future Interest following the occurrence of a Relevant Credit Event*

If, a Relevant Event Determination Date occurs:

- (i) where the Calculation Agent determines that the amount of interest suspended pursuant to Credit Linked Condition 2(c) (*Suspension of Interest following a CE Resolution Notice or a potential Credit Event*) is greater than the amount of interest that should have been suspended (taking into consideration the Applicable Proportion of the relevant Credit Linked Note affected by the Relevant Credit Event), the Issuer shall pay an amount equal to:

- (x) the interest amount actually suspended; minus
- (y) the interest amount that should have been suspended,

no later than 10 Business Days following the date of such determination by the Calculation Agent; or

- (ii) where the Calculation Agent determines that the amount of interest suspended pursuant to Credit Linked Condition 2(c) (*Suspension of Interest following a CE Resolution Notice or a potential Credit Event*) is less than the amount of interest that should have been suspended (taking into consideration the Applicable Proportion of the relevant Credit Linked Note affected by the Relevant Credit Event), the Issuer shall deduct the absolute value of (x) the interest amount actually suspended minus (y) the interest amount that should have been suspended (the absolute value of such amount, the **"Interest Suspension Shortfall Amount"**) from future payments of Interest Amounts until the Interest Suspension Shortfall Amount is reduced to zero, PROVIDED THAT if there is an outstanding Interest Suspension Shortfall Amount at the time that the Credit Linked Notes are being redeemed in full (whether at maturity or upon early redemption), such interest shall be deducted from any amount payable to Securityholders at such time, or where "Physical Redemption" applies, Delivery of the relevant assets shall take into account any reduction as is required to be effected.

For the avoidance of doubt, where the Interest Suspension Shortfall Amount cannot be deducted in full or in part (on account of the relevant redemption amount being

insufficient), the Issuer shall have no further claims against the Securityholders for any amounts not deducted.

(f) *Accrual of Interest at Funding Interest Rate following the occurrence of a Relevant Credit Event*

This Credit Linked Condition 2(f) applies only if "Credit Payment on Maturity" applies in the applicable Issue Terms.

Following the occurrence of a Relevant Credit Event, notwithstanding the suspension of interest pursuant to Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event*), the relevant Credit Payment on Maturity Amount shall accrue interest at the Funding Interest Rate in respect of each Interest Period (regardless of whether "No Interest Accrual on Default" or "Interest Accrual on Default" applies), from (and including) the first Business Day immediately following the Relevant Event Determination Date, to (but excluding in the case of paragraphs (i) and (ii) below and including in the case of paragraph (iii) below) the earliest to occur of:

- (i) the Scheduled Maturity Date;
- (ii) if the relevant Credit Linked Notes are early redeeming in full, the Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable; and
- (iii) if the relevant Credit Linked Notes are redeeming in full following a Relevant Credit Event, the Relevant Event Determination Date corresponding to the Credit Event Redemption Date which results in the relevant Credit Linked Notes being redeemed in full,

such interest, the "*Funding Interest Amount*".

3. Single Name Credit Linked Notes

(a) *Introduction*

Single Name Credit Linked Notes are Credit Linked Notes pursuant to which the Issuer purchases credit protection from Securityholders in respect of any one Reference Entity and, accordingly, Securityholders are exposed to the credit risk of such Reference Entity only (subject to the Successor provisions set out in Credit Linked Condition 15 (*Successor Provisions*)).

(b) *Multiple Relevant Credit Events*

There may be more than one Relevant Credit Event and related Relevant Event Determination Date with respect to Single Name Credit Linked Notes in accordance with Credit Linked Conditions 7 (*Restructuring*) and 15 (*Successor Provisions*).

The Applicable Proportion of a Single Name Credit Linked Note will be equal to the product of:

a Restructuring and partial redemption occurs pursuant to Credit Linked Condition 15 (*Successor Provisions*)).

(d) *Impact of Credit Event on Accrual of Interest*

- (i) interest will cease to accrue on the Applicable Proportion of each Single Name Credit Linked Note in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event*);
- (ii) interest will continue to accrue as usual on any remaining portion of each Single Name Credit Linked Note unaffected by the Relevant Credit Event in accordance with General Condition 5 (*Interest*) and the Valuation and Settlement Schedule to (but excluding in the case of (x) and (y) and including in the case of (z)) the earliest to occur of (x) the Scheduled Maturity Date, (y) the Early Termination Date, the Optional Redemption Date or the Substitution Event Date, as applicable, which results in the Single Name Credit Linked Notes being redeemed in full, and (z) the Relevant Event Determination Date corresponding to the relevant Credit Event Redemption Date which results in the Single Name Credit Linked Notes being redeemed in full; and
- (iii) where "Credit Payment on Maturity applies", additional interest shall accrue on the Single Name Credit Linked Notes in respect of the Credit Payment on Maturity Amount in accordance with Credit Linked Condition 2(f) (*Accrual of Interest at Funding Interest Rate following the occurrence of a Relevant Credit Event or Relevant Risk Event*).

Further, if the Scheduled Maturity Date is defined in the applicable Issue Terms by reference to an Interest Payment Date, then the Scheduled Maturity Date shall be the date which would have been such Interest Payment Date notwithstanding that, due to the occurrence of a Credit Event, interest has ceased to accrue in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event*).

(e) *Payment of Accrued Interest*

Where "Interest Accrual on Default" applies, any interest accrued on the Single Name Credit Linked Notes in accordance with Credit Linked Condition 2(b) (*Suspension of Accrual of Interest following the occurrence of a Relevant Credit Event*) from (and including) the Interest Payment Date immediately preceding the Relevant Event Determination Date (or if there is no Interest Payment Date, the Issue Date) to (and including) the Relevant Event Determination Date shall be payable on:

(f) *Redemption following a Credit Event*

Notwithstanding anything to the contrary in General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule and unless previously redeemed in full or purchased and cancelled, following the occurrence of a Relevant Event Determination Date, the Issuer will

redeem the Applicable Proportion of each Single Name Credit Linked Note in accordance with the "Auction Redemption" Credit Event Redemption Method, the "Cash Redemption" Credit Event Redemption Method, the "Physical Redemption" Credit Event Redemption Method or the "Fixed Recovery Redemption" Credit Event Redemption Method, as specified in the Issue Terms.

(i) **Auction Redemption**

Auction Redemption shall apply where "Auction Redemption" is specified as the Credit Event Redemption Method in the applicable Issue Terms.

(A) Credit Payment following Credit Event

If each of (i) "Credit Payment following Credit Event" and (ii) Auction Redemption applies, then following the occurrence of a Relevant Event Determination Date, the Issuer shall redeem the Applicable Proportion of each Single Name Credit Linked Note on the Auction Redemption Date at the Auction Redemption Amount in accordance with Credit Linked Condition 8 (*Auction Redemption Terms*).

The outstanding portion of such Single Name Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 6 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(B) Credit Payment on Maturity

If each of (i) "Credit Payment on Maturity" and (ii) Auction Redemption applies, then following the occurrence of a Relevant Event Determination Date, the Issuer shall redeem each Single Name Credit Linked Note on the Final Auction Redemption Date at the Final Auction Redemption Amount in accordance with Credit Linked Condition 8 (*Auction Redemption Terms*).

(ii) **Cash Redemption**

Cash Redemption shall apply where (i) "Cash Redemption" is specified as the Credit Event Redemption Method in the applicable Issue Terms, or (ii) Cash Redemption is applicable as the Fallback Redemption Method and Credit Linked Condition 8 (*Auction Redemption Terms*) requires the Issuer to redeem the Single Name Credit Linked Notes as if Cash Redemption had been specified as the Credit Event Redemption Method.

(A) Credit Payment following Credit Event

If each of (i) "Credit Payment following Credit Event" and (ii) Cash Redemption applies, then following the occurrence of a Relevant Event Determination Date, the Issuer shall redeem the Applicable Proportion of each Single Name Credit Linked Note on the Cash Redemption Date at the Cash Redemption Amount in accordance with Credit Linked Condition 9 (*Cash Redemption Terms*).

The outstanding portion of such Single Name Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 6 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(B) Credit Payment on Maturity

If each of (i) "Credit Payment on Maturity" and (ii) Cash Redemption applies, then following the occurrence of a Relevant Event Determination Date, the Issuer shall redeem each Single Name Credit Linked Note on the Final Cash

Redemption Date at the Final Cash Redemption Amount in accordance with Credit Linked Condition 9 (*Cash Redemption Terms*).

(iii) **Physical Redemption**

Physical Redemption shall apply where (i) "Physical Redemption" is specified as the Credit Event Redemption Method in the applicable Issue Terms, or (ii) Physical Redemption is applicable as the Fallback Redemption Method and Credit Linked Condition 8 (*Auction Redemption Terms*) requires the Issuer to redeem the Applicable Proportion of each Single Name Credit Linked Note as if Physical Redemption had been specified as the Credit Event Redemption Method.

If Physical Redemption applies, then following the occurrence of a Relevant Event Determination Date, the Issuer shall redeem the Applicable Proportion of each Single Name Credit Linked Note by Delivery to each Securityholder of the Physical Redemption Assets by the relevant Physical Redemption Date and payment to each Securityholder of any Partial Cash Redemption Amount or any Fallback Cash Redemption Amount (as applicable) in accordance with Credit Linked Condition 10 (*Physical Redemption Terms*).

The outstanding portion of such Single Name Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 6 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

(iv) **Fixed Recovery Redemption**

Fixed Recovery Redemption shall apply where it is specified as the Credit Event Redemption Method in the applicable Issue Terms.

If Fixed Recovery Redemption applies, then following the occurrence of a Relevant Event Determination Date, the Issuer shall redeem the Applicable Proportion of each Single Name Credit Linked Note on the Cash Redemption Date at the Cash Redemption Amount (if "Credit Payment following Credit Event" applies) or the Final Cash Redemption Date at the Final Cash Redemption Amount (if "Credit Payment on Maturity" applies) in accordance with Credit Linked Condition 11 (*Fixed Recovery Redemption Terms*).

Where "Credit Payment following Credit Event" applies, the outstanding portion of such Single Name Credit Linked Note (if any) as at the Scheduled Maturity Date shall, subject to Credit Linked Condition 6 (*Scheduled Maturity Date Extension*), be redeemed at the Maturity Redemption Amount on the Scheduled Maturity Date.

4. Credit Event Notice and Notice of Publicly Available Information

- (a) If (i) a Credit Event Notice and (ii) if "Notice of Publicly Available Information" is specified to be applicable in the applicable Issue Terms, an effective Notice of Publicly Available Information is required to be delivered during one of the periods specified in paragraph (a) of the definition of "Event Determination Date" for an effective Event Determination Date to occur, the Calculation Agent shall deliver the Credit Event Notice and, if applicable, a Notice of Publicly Available Information to the Issuer, PROVIDED THAT sub-paragraph (ii) shall be deemed to be satisfied in circumstances where the relevant CDS Information Publisher publicly announces on or prior to the last day of the Notice Delivery Period (including prior to the Trade Date) that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Credit Event has occurred with respect to the relevant Reference Entity or Obligation thereof. The Issuer shall, upon receipt of such notice(s), forward them to the Fiscal Agent to make available to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*).
- (b) If a Credit Event Notice and, where applicable, a "Notice of Publicly Available Information" is not required to be delivered for an effective Event Determination Date to occur, the Calculation Agent shall give written notice not less than five Business Days prior to the date for redemption

of the Credit Linked Notes (or a portion thereof) containing the same information required to be included in a Credit Event Notice and, if applicable, a Notice of Publicly Available Information to the Issuer. The Issuer shall, upon receipt of such notice(s), forward them to the Fiscal Agent to make available to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*).

- (c) The Calculation Agent's determination of a Credit Event will, in the absence of manifest error, be final, conclusive and binding on all persons (including, without limitation, the Fiscal Agent and each Securityholder).
- (d) None of the Issuer, the Calculation Agent, the Fiscal Agent or one or more of their respective affiliates will have any liability whatsoever for the failure of the Calculation Agent for any reason to determine that a Credit Event has occurred or with respect to the Calculation Agent or the Issuer's timing as to when to deliver a Credit Event Notice, and where applicable, a Notice of Publicly Available Information nor will they have any duty or responsibility to investigate or check whether any Credit Event has, or may have, occurred or may be continuing.

5. Event Determination Dates and Adjustment Payments

If, following the determination of an Event Determination Date, such Event Determination Date is deemed by the Calculation Agent and/or the Issuer (a) to have occurred on a date that is different from the date that was originally determined to be the Event Determination Date, (b) not to have occurred, or (c) to have occurred prior to a preceding Interest Payment Date, then:

- (I) in respect of the event specified at (b) only, where the Credit Linked Notes have not already been redeemed in full, the redemption of the Credit Linked Notes shall be cancelled and the Credit Linked Notes shall continue in accordance with their terms as if the relevant Event Determination Date had not occurred; and
- (II) in respect of any of the events specified at (a), (b) or (c) above, the Calculation Agent will, in its sole and absolute discretion, determine (A) the adjustment payment, if any, that is payable to Securityholders to reflect any change that may be necessary to the amount previously calculated and/or paid in respect of the relevant Series; and (B) the date on which such adjustment payment is payable, if any and thereafter notify the Issuer of such adjustments. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment,

and in the case of (c) above, subject to Credit Linked Condition 2 (*Interest on Credit Linked Notes*).

The Issuer shall endeavour to give notice to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*) of the occurrence of any of the foregoing events as soon as practicable thereafter without the consent of Securityholders being required to make the above adjustments.

6. Scheduled Maturity Date Extension

Where the Calculation Agent determines on or prior to the Scheduled Maturity Date, in its sole and absolute discretion, that:

- (I) one or more Reference Entities:
 - (x) may be subject to a Credit Event;
 - (y) is or may be subject to a Potential Failure to Pay, if "Grace Period Extension" is specified as being applicable in the applicable Issue Terms; or
 - (z) is or may be subject to a Potential Repudiation/Moratorium, if "Repudiation/Moratorium" is specified as being applicable in the applicable Issue Terms;

- (II) a Credit Event Notice may be delivered after the Scheduled Maturity Date within an effective delivery period which may result in a Relevant Event Determination Date occurring;
- (III) a CE Resolution Notice may be delivered after the Scheduled Maturity Date within an effective delivery period which may result in a Relevant Event Determination Date occurring;
- (IV) the final Credit Event Redemption Date in relation to any Relevant Credit Event or the Final Physical Redemption Cut-Off Date in relation to any Physical Redemption, as applicable, will only occur after the Scheduled Maturity Date (including any final Partial Cash Redemption Date or final Fallback Cash Redemption Date, as applicable);
- (V) a Payment Failure Cut-Off Date in relation to a Payment/Delivery Failure Event may occur after the Scheduled Maturity Date; or
- (VI) an RMB Currency Settlement Cut-Off Date may occur after the Scheduled Maturity Date,

it shall notify the Issuer and the Fiscal Agent. The Issuer shall then notify the Securityholders and the Credit Linked Notes then outstanding shall not be redeemed on the Scheduled Maturity Date but shall instead be redeemed on the Extended Maturity Date.

If any amount is payable on the Scheduled Maturity Date of a Credit Linked Note (including any interest payment) to which the provisions of this Credit Linked Condition 6 apply, such amount shall fall due on the Extended Maturity Date and shall be payable without any interest or other sum payable in respect of the postponement of the payment of such amount.

7. Restructuring

For the purposes of this Credit Linked Condition 7, the definition of "Outstanding Aggregate Nominal Amount" shall be construed in accordance with the provisions set out in Credit Linked Condition 15 (Successor Provisions) where apportionment of calculation amounts as a result of multiple successors being identified is to be applied.

(a) Credit Event Notice after a Restructuring

Upon the occurrence of a Restructuring with respect to a Series for which either "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" applies, the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring to the Issuer (who shall forward such notice(s) to the Fiscal Agent for onward delivery to the Securityholders), each such Credit Event Notice specifying the amount of the Original Aggregate Nominal Amount of the Credit Linked Notes to which such Credit Event Notice applies to which such Credit Event Notice applies, as determined by the Calculation Agent which may be less than the Outstanding Aggregate Nominal Amount of such Credit Linked Notes (such amounts specified in the Credit Event Notice, the "**Exercise Amount**"), PROVIDED THAT if (i) the Credit Event Notice does not specify an Exercise Amount or (ii) the Credit Event Notice relates to any Credit Event other than a Restructuring, then, the Outstanding Aggregate Nominal Amount of the Credit Linked Notes immediately prior to the delivery of such Credit Event Notice, as determined by the Calculation Agent will be deemed to have been specified as the Exercise Amount.

Accordingly, notwithstanding anything to the contrary in these Credit Linked Conditions, where a Restructuring has occurred and a Credit Event Notice has been delivered for an Exercise Amount that is less than the Outstanding Aggregate Nominal Amount of the Credit Linked Notes, as at the date immediately prior to the delivery of such Credit Event Notice, the provisions of these Credit Linked Conditions shall be deemed to apply to a principal amount of the Credit Linked Notes equal to the Exercise Amount only and all the relevant provisions shall be construed accordingly.

(b) *Redemption of Credit Linked Notes following partial exercise*

If a Credit Event Notice has been delivered in respect of a Restructuring that specifies an Exercise Amount that is less than the Original Aggregate Nominal Amount of the Credit Linked Notes, then:

- (i) the relevant provisions of Credit Linked Condition 3 (*Single Name Credit Linked Notes*) relating to the redemption of Credit Linked Notes shall apply to the Exercise Amount, including for the purposes of calculating the relevant Credit Event Redemption Amount or the Physical Redemption Assets to be Delivered to Securityholders, as applicable. In such circumstances, the Calculation Agent may adjust such provisions of the Credit Linked Conditions and/or applicable Issue Terms as it determines appropriate to take account of this Credit Linked Condition 7, including the basis of the calculation of any Credit Event Redemption Amount or the Physical Redemption Assets to be Delivered to Securityholders;
- (ii) following any payment of a relevant Credit Event Redemption Amount or Delivery of the Physical Redemption Assets to Securityholders or any other determination made in respect of any Exercise Amount, the Outstanding Aggregate Nominal Amount shall (in all cases without double counting) be reduced by an amount equal to the Exercise Amount. The Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount and interest (if applicable) shall accrue on the Outstanding Aggregate Nominal Amount as provided for in General Condition 5 (*Interest*) and the Valuation and Settlement Schedule and the Calculation Agent may thereafter deliver one or more further Credit Event Notices in respect of such Outstanding Aggregate Nominal Amount to which the Credit Linked Conditions shall continue to apply; and
- (iii) the Calculation Agent may adjust the provisions of these Credit Linked Conditions and/or the applicable Issue Terms in such manner as it may determine to be appropriate to account for such event.

(c) *Subsequent Credit Events*

For the avoidance of doubt, in the case of a Credit Linked Note subject to multiple successor determinations, the fact that a Restructuring Credit Event has occurred in respect of a Reference Entity shall not preclude delivery of a Credit Event Notice in respect of any other Reference Entity.

(d) *Endorsement of Global Registered Note Certificate to reflect partial redemption*

If the provisions of this Credit Linked Condition 7 apply in respect of the Credit Linked Notes, on any redemption of part of each such Credit Linked Note, the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Registered Note Certificate, such Global Registered Note Certificate, shall be endorsed to reflect such part redemption on the relevant Credit Event Redemption Date.

(e) *Exercise Amount*

The Exercise Amount in connection with a Credit Event Notice describing a Restructuring must be (i) an amount that is at least 1,000,000 units of the Settlement Currency (or, if Yen, 100,000,000 units) or an integral multiple thereof; or (ii) the entire Outstanding Aggregate Nominal Amount of the Credit Linked Notes.

The Exercise Amount must be an amount that is not greater than the Outstanding Aggregate Nominal Amount.

The Exercise Amount shall be determined in the sole discretion of the Calculation Agent.

8. Auction Redemption Terms**(a) Fallback Redemption**

Subject to Credit Linked Condition 14(d) (*Redemption Suspension*), if the Calculation Agent determines with respect to a Credit Event and any relevant CE Resolution Notice, Applicable Resolution and/or Applicable Auction, that:

- (i) an Auction Cancellation Date has occurred;
- (ii) a No Auction Announcement Date has occurred (and, in circumstances where such No Auction Announcement Date occurs pursuant to paragraph (b) of the definition of "No Auction Announcement Date", the Calculation Agent has not exercised the Movement Option);
- (iii) a No Auction Announcement Date has occurred but the relevant Credit Derivatives Determinations Committee has not determined that one or more Auctions will be held in accordance with any Transaction Auction Settlement Terms or, if applicable, Parallel Auction Settlement Terms;
- (iv) the relevant CDS Information Publisher publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved, following a Credit Event Resolution Request Date, not to determine the matters described in the relevant CE Resolution Notice; or
- (v) a Relevant Event Determination Date was determined pursuant to paragraph (a) of the definition of "Event Determination Date", and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Relevant Event Determination Date, or
- (vi) a Relevant Event Determination Date was determined pursuant to paragraph (b)(ii)(B) of the definition of "Event Determination Date",

then, the Fallback Redemption Method shall apply and the Issuer shall redeem each Credit Linked Note in accordance with Credit Linked Condition 9 (*Cash Redemption Terms*) (if Cash Redemption is specified in the applicable Issue Terms as the Fallback Redemption Method) or in accordance with Credit Linked Condition 10 (*Physical Redemption Terms*) (if "Physical Redemption" is specified in the applicable Issue Terms as the Fallback Redemption Method).

(b) Movement Option

If "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" applies and the Calculation Agent determines in respect of a Restructuring that a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) or (c) of the definition of "No Auction Announcement Date", the Calculation Agent may elect in its sole and absolute discretion to deliver a Notice to Exercise Movement Option to the Issuer (who will then send a subsequent notice to the Fiscal Agent for onward delivery to the Securityholders) at any time on or prior to the Movement Option Cut-off Date. If a Notice to Exercise Movement Option is so delivered, then any redemption of the Credit Linked Notes shall be effected by the Issuer by payment of the relevant Auction Redemption Amount on the relevant Auction Redemption Date (or, if "Credit Payment on Maturity" applies, by payment of the Final Auction Redemption Amount on the Final Auction Redemption Date), as applicable, and any such redemption of the Credit Linked Notes shall be determined on the basis of the Auction Final Price determined by reference to the relevant Parallel Auction identified by the Calculation Agent in the Notice to Exercise Movement Option. If a Notice to Exercise Movement Option is delivered by the Calculation Agent, all references in these Credit Linked Conditions to "Applicable Auction", "Applicable Auction Settlement Terms", "Auction Cancellation Date" and "Auction Final Price Determination Date" shall be deemed to be references to the "Parallel Auction", "Parallel Auction Settlement Terms" and "Parallel Auction Cancellation Date" and the terms of these Credit Linked Conditions shall be construed accordingly.

(c) *Delivery of Auction Redemption Amount Notice*

Regardless of whether "Credit Payment on Maturity" or "Credit Payment Following Credit Event" applies, following the Auction Final Price Determination Date, the Calculation Agent shall deliver the Auction Redemption Amount Notice to the Issuer and the Issuer shall deliver the Auction Redemption Amount Notice to the Fiscal Agent no later than five Business Days following the Auction Final Price Determination Date. The Fiscal Agent shall then, as soon as reasonably practicable, deliver the Auction Redemption Amount Notice to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*).

9. Cash Redemption Terms

(a) *Determination of Final Price*

(i) Subject to Credit Linked Condition 14(d) (*Redemption Suspension*), following the occurrence of a Relevant Event Determination Date and upon satisfaction of the Conditions to Settlement, on the Valuation Date, the Calculation Agent shall commence determination of the Final Price using the Valuation Obligation to be valued.

(ii) If:

(A) "Include Accrued Interest" is specified in the applicable Issue Terms in respect of Quotations obtained with respect to the Valuation Obligation, such Quotations shall include accrued but unpaid interest;

(B) "Exclude Accrued Interest" is specified in the applicable Issue Terms in respect of Quotations obtained with respect to the Valuation Obligation, such Quotations shall not include accrued but unpaid interest; or

(C) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the applicable Issue Terms in respect of Quotations obtained with respect to the Valuation Obligation, the Calculation Agent shall determine, based on the then current market practice in the market of the Valuation Obligation whether such Quotations shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof.

(iii) All Quotations shall be obtained in accordance with this specification or determination.

(iv) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the outstanding principal balance (as defined in the definition of "Physical Redemption Assets") for purposes of determining the Final Price.

(b) *Delivery of Cash Redemption Amount Notice*

Regardless of whether "Credit Payment on Maturity" or "Credit Payment Following Credit Event" applies, the Calculation Agent shall, as soon as reasonably practicable, after obtaining all Quotations for a Valuation Date and determining the Final Price (such date of determination, the "**Final Price Determination Date**"), provide the Issuer with a Cash Redemption Amount Notice. The Issuer shall deliver the Cash Redemption Amount Notice to the Fiscal Agent no later than five Business Days following the Final Price Determination Date. The Fiscal Agent shall then, as soon as reasonably practicable, deliver the Cash Redemption Amount Notice to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*).

10. Physical Redemption Terms

(a) *Delivery of Physical Redemption Assets*

(i) Subject to Credit Linked Condition 14(d) (*Redemption Suspension*) and notwithstanding anything to the contrary in General Condition 6 (*Redemption and*

Purchase) and the Valuation and Settlement Schedule, and unless previously redeemed in full or purchased and cancelled, if (a) Physical Redemption is specified as the Credit Event Redemption Method in the applicable Issue Terms or (b) Physical Redemption applies as the Fallback Redemption Method and Credit Linked Condition 8 (*Auction Redemption Terms*) requires that the Issuer redeems the Credit Linked Notes in accordance with this Credit Linked Condition 10, following the occurrence of a Relevant Event Determination Date and upon satisfaction of the Conditions to Settlement, the Applicable Proportion of each Credit Linked Note, shall, subject to and in accordance with this Credit Linked Condition 10, be redeemed by, in respect of each Securityholder: (i) Delivery (at the risk of the relevant Securityholder) of the Physical Redemption Assets specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, on or prior to the Physical Redemption Date in accordance with Credit Linked Condition 10(b) (*Physical Redemption Assets*), and (ii) payment of the Partial Cash Redemption Amount or Fallback Cash Redemption Amount (if applicable) in accordance with Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*), pursuant to which the Issuer's obligations in respect of the redemption of the Applicable Proportion of each Credit Linked Note shall be fully and effectively discharged.

- (ii) In respect of Credit Linked Notes that are only partially redeemed, the remaining portion of each Credit Linked Note which is not so redeemed shall be redeemed on the later of (i) the later to occur of (a) the Scheduled Maturity Date and (b) the Extended Maturity Date, as applicable, at the Maturity Redemption Amount, and (ii) where the Credit Linked Notes early redeem in full, the Early Termination Date, Optional Redemption Date or Substitution Event Date, as applicable.
- (iii) In order for the Credit Linked Notes to be redeemed in accordance with this Credit Linked Condition 10:
 - (A) Upon receiving notification of the occurrence of a Relevant Credit Event and a corresponding Notice of Physical Settlement from the Calculation Agent within thirty days from the Relevant Event Determination Date, the Issuer shall forward the relevant Credit Event Notice, the Notice of Physical Settlement and, if applicable, the Notice of Publicly Available Information to the Fiscal Agent for onward delivery to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*) as soon as practicable and, in any case, prior to the relevant Physical Redemption Date.
 - (B) The Calculation Agent may, at any time, deliver to the Issuer a NOPS Amendment Notice stating that the Issuer would be replacing, in whole or in part, the Deliverable Obligations specified in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, which such notice shall be sent to the Fiscal Agent for onward delivery to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*).
 - (C) The relevant Securityholder shall deliver to the Fiscal Agent (and where the relevant Credit Linked Note is in definitive form, to the Registrar), prior to 3.00 p.m. (London) on the 10th Business Day following the date of effective delivery by the Fiscal Agent of the Notice of Physical Settlement to the Securityholders and, if relevant, any NOPS Amendment Notice, a duly completed notice in writing (a "**Deliverable Obligation Notice**"):
 - (1) in the case of Credit Linked Notes represented by a Global Registered Note Certificate, specifying the Series number of the Credit Linked Notes which is the subject of the Deliverable Obligation Notice;
 - (2) including such details as are required for the transfer or assignment of the Physical Redemption Assets which may include, without limitation, (a) the name, address and/or details of the relevant Securityholder's (or the Securityholder's designee's) account at

Clearstream, Luxembourg or Euroclear or DTC, as applicable (the "**Relevant Clearing System**"), to be debited with such Physical Redemption Assets and/or any bank, broker, agent or designee of the Securityholder to whom documents evidencing the transfer of Physical Redemption Assets to be delivered; and (b) irrevocably instructing and authorising the Relevant Clearing Systems to debit the relevant Securityholder's account to complete Delivery;

- (3) specifying the name and details of the account to which the Partial Cash Redemption Amount or Fallback Cash Redemption Amount (in each case, if any) is to be credited;
 - (4) containing an acknowledgment that an amount equal to each Credit Linked Note's *pro rata* share of all Unwind Costs, Delivery Expenses or Interest Suspension Shortfall Amount (in each case, if any) shall be deducted from the outstanding principal balance or Due and Payable Amount;
 - (5) certifying, either (i) in respect of Credit Linked Notes represented by a Regulation S Global Registered Note Certificate, that the beneficial owner of each such Credit Linked Note is not a U.S. person (as defined in the Deliverable Obligation Notice), the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, notes or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof; or (ii) in respect of Credit Linked Notes represented by a Rule 144A Global Registered Note Certificate, that the beneficial owner of each such Credit Linked Note is a Permitted QIB Purchaser;
 - (6) authorising the production of such certification in any applicable administrative or legal proceedings, as provided in the Fiscal Agency Agreement;
 - (7) if the Credit Linked Notes are in definitive form, including the definitive Credit Linked Notes;
 - (8) providing a Euroclear screenshot of each Securityholder's holdings; and
 - (9) containing a confirmation that the Credit Linked Notes will not be transferred until Delivery is completed, subject in any case to any transfer restrictions.
- (iv) Forms of the Deliverable Obligation Notice will be delivered to the Securityholders together with the Notice of Physical Settlement or NOPS Amendment Notice, as applicable.
 - (v) No Deliverable Obligation Notice may be withdrawn after receipt thereof by the Relevant Clearing System, the Issuer, the Fiscal Agent or the Registrar, as the case may be, as provided above. After delivery of a Deliverable Obligation Notice (i) such relevant Securityholder or its designee (on its behalf), as applicable, shall be the only person entitled to delivery of its portion of the Physical Redemption Assets, and as such (ii) the relevant Securityholder may not transfer the Credit Linked Notes which are the subject of such notice.
 - (vi) Failure to properly complete and deliver a Deliverable Obligation Notice may result in such notice being treated as null and void and deemed to not have been provided. Any determination as to whether such notice has been properly completed and delivered as provided in these Credit Linked Conditions shall be made by the Calculation Agent,

the Issuer or the Fiscal Agent, on the Issuer's behalf, and shall be conclusive and binding on the relevant Securityholder.

- (vii) Delivery of the Physical Redemption Assets and payment of the Partial Cash Redemption Amount or Fallback Cash Redemption Amount (in each case, if any) in respect of each Securityholder shall be made by the Issuer in accordance with the details specified in the applicable Deliverable Obligation Notice.

(b) *Physical Redemption Assets*

- (i) Subject to this Credit Linked Condition 10(b), the Issuer may only Deliver the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable.
- (ii) Until the date on which the Physical Redemption Assets have been fully Delivered, the Issuer or any other person (including the Issuer's Affiliates) will continue to be the legal holder of the Deliverable Obligations comprising the Physical Redemption Assets. None of the Issuer nor any such other person will (A) be under any obligation to deliver or procure delivery to any Securityholder or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by the Issuer or that other person in its capacity as legal holder of such Deliverable Obligations, (B) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Deliverable Obligations comprising the Physical Redemption Assets, (C) be under any liability to such Securityholder or any other person in respect of any loss or damage which such Securityholder or other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other person being the legal holder of such Deliverable Obligations comprising the Physical Redemption Assets, or (D) have any liability whatsoever to any Securityholder or any other person if, as a result of a Payment/Delivery Failure Event or pursuant to any of Credit Linked Conditions 10(c) (*Election to deliver alternative amount of Deliverable Obligations/Hedge Disruption Obligation*) to 10(h) (*Alternative Procedures Relating to Loans not Delivered*) (both inclusive), it is unable to effect Delivery of any Deliverable Obligations comprising the Physical Redemption Assets and the obligations hereunder shall be satisfied by partial cash settlement or fallback cash redemption (if applicable) or shall cease, and be deemed to be fully discharged in accordance with the Credit Linked Conditions.
- (iii) If the Calculation Agent determines that all or any part of the Physical Redemption Assets that would be required to be Delivered to a Securityholder is not a whole integral multiple of the smallest unit of transfer for any such Physical Redemption Assets at the relevant time of Delivery, the Issuer will Deliver and such Securityholder will only be entitled to receive such portion of the Physical Redemption Assets specified by the Issuer which is as large a size as possible (as determined by the Calculation Agent, after consideration of such smallest unit or units of transfer and application of rounding to such amount, whether upwards or downwards to the nearest unit of transfer, in its sole discretion). Any portion of the Physical Redemption Assets not so delivered shall be deemed to have a value of zero and the Issuer's obligations to the Securityholders in respect of such portion shall be fully and effectively discharged.

(c) *Election to deliver alternative amount of Deliverable Obligations/Hedge Disruption Obligation*

Notwithstanding anything to the contrary in Credit Linked Condition 10(a) (*Delivery of Physical Redemption Assets*), the Issuer may elect to Deliver to Securityholders Deliverable Obligations with an outstanding principal balance or a Due and Payable Amount, as applicable (or the equivalent Currency Amount of any such amount), that is (i) greater than, or (ii) less than, that which each Securityholder would otherwise have been entitled to receive by way of Physical Redemption Assets.

If:

- (i) the Issuer exercises its election pursuant to this Credit Linked Condition 10(c); or

- (ii) the Calculation Agent determines that the Deliverable Obligations set out in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, cannot be Delivered due to an event (including, without limitation, any delay in settlement of any Applicable Auction) which results in the Issuer and/or its Affiliates not receiving the relevant Deliverable Obligations under its Hedging Positions (such obligations which cannot be Delivered, a "**Hedge Disruption Obligation**"),

the Issuer may attempt to continue to Deliver without prejudice to the provisions set out in Credit Linked Condition 10(a) (*Delivery of Physical Redemption Assets*) and the Calculation Agent may (but is not obliged to) after taking into account costs to the Issuer, including the trading price of any alternative Deliverable Obligation, provide notice to the Issuer (which shall be forwarded to the Fiscal Agent for onward delivery to Securityholders) that alternative Deliverable Obligation(s) will be delivered in lieu of any other Deliverable Obligation specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, satisfying on the Physical Redemption Date and the Delivery Date, each of the Deliverable Obligation Characteristics, if any, specified in the applicable Issue Terms and otherwise satisfying the requirements to constitute a Deliverable Obligation and such instrument shall be deemed specified in the NOPS Amendment Notice which will be effective notwithstanding the fact that it is deemed specified after the Physical Redemption Date).

If no Delivery has been completed on or prior to the Latest Permissible Physical Settlement Date, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Deliverable Obligations that cannot be Delivered and the Issuer shall pay to each Securityholder each Credit Linked Note's pro rata share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date. For such purpose, the Deliverable Obligations that cannot be Delivered (including the Hedge Disruption Obligations) shall constitute an "Undelivered Deliverable Obligation" for the purposes of the application of Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*).

- (d) *Partial Cash Redemption due to Impossibility or Illegality*

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver, or due to an event beyond the control of the Issuer it is impossible or illegal for any Securityholder to accept Delivery of, any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the Physical Redemption Date (including, without limitation, failure of the relevant clearance system or due to any law, regulation or court order, but excluding market conditions or the failure to obtain any requisite consent with respect to the Delivery of Loans), then on or before such date:

- (i) the Issuer shall Deliver and the Securityholder shall take Delivery of any of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery; and
- (ii) the Calculation Agent shall provide a description in reasonable detail of the facts giving rise to such impossibility or illegality and, as soon as practicable thereafter, the Issuer shall Deliver and the Securityholder shall take Delivery of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, which were not delivered on the Delivery Date.

The date on which the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, which were not Delivered and are subsequently Delivered shall be the date on which the Issuer is deemed to have completed Delivery of the Deliverable Obligations specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, relating to the Relevant Credit Event.

If following the occurrence of any such impossibility or illegality, the amount of Deliverable Obligations that are to be Delivered as specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, are not delivered to the Securityholders on or prior to

the Latest Permissible Physical Settlement Date, then Cash Redemption in accordance with the partial cash redemption terms in Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) shall apply with respect to the Deliverable Obligations that cannot be Delivered (the "**Undeliverable Obligations**").

(e) *Partial Cash Redemption of Consent Required Loans*

- (ii) "Direct Loan Participation" is not specified as a Deliverable Obligation Characteristic in the applicable Issue Terms, or "Direct Loan Participation" is specified as a Deliverable Obligation Characteristic in the applicable Issue Terms and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date,

- (ii) "Direct Loan Participation" is not specified as a Deliverable Obligation Characteristic in the applicable Issue Terms, or "Direct Loan Participation" is specified as a Deliverable Obligation Characteristic in the applicable Issue Terms and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date,

Cash Redemption pursuant to the partial cash redemption terms in Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) shall be deemed to apply to the Credit Linked Notes with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or last NOPS Amendment Notice, as applicable, that consist of Assignable Loans for which consents are not obtained or deemed given (the "**Unassignable Obligations**").

(g) *Partial Cash Redemption of Participations*

If the Deliverable Obligations include Direct Loan Participations and the relevant participation is not effected on or before the Latest Permissible Physical Settlement Date, Cash Redemption pursuant to the partial cash redemption terms in Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) shall be deemed to apply to the Credit Linked Notes with respect to the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, that consist of Direct Loan

(ii) If the Issuer has failed to obtain the requisite consents to Deliver a Loan specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, at any time after the 15th Business Day following the Alternative Procedure Start Date, the Issuer may (but is not obliged to) Deliver, in lieu of all or part of such Loan and after taking into account costs to the Issuer, including the trading price of any alternative Deliverable Obligation, any, subject to "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation", Bond that is Transferable and Not Bearer or Loan that is Assignable, and having on both the Physical Redemption Date and the Delivery Date each of the Deliverable Obligation Characteristics (other than Consent Required Loan or Direct Loan Participation), if any, specified in the applicable Issue Terms and otherwise satisfying the requirements to constitute a Deliverable Obligation (and such instrument shall be deemed specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, PROVIDED THAT if the March 2012 Supplement applies, such instrument shall be deemed specified in a NOPS Amendment Notice that is effective on the date immediately prior to the most recent Business Day preceding such Delivery and in which the Replaced Deliverable Obligation Outstanding Amount shall be the Outstanding Amount of the replaced Loan). In the event that the Deliverable Obligations or other Deliverable Obligations to be delivered in lieu of all or part of such Loan are not Delivered on or prior to the Latest Permissible Physical Settlement Date, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Loans specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, or alternative Deliverable Obligation, as determined by the Calculation Agent and the Issuer shall pay Securityholder each Credit Linked Note's pro rata share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date. - (iv) **"Fallback Cash Redemption Amount"** has the same meaning as set out in "Partial Cash Redemption Amount", PROVIDED THAT each reference therein to "Undeliverable Deliverable Obligation" shall be deemed to be a reference to "Undelivered Deliverable Obligation";
- (v) **"Reference Obligation"** means, in respect of the determination of the Partial Cash Redemption Amount, each Undeliverable Deliverable Obligation and in respect of the determination of the Fallback Cash Redemption Amount, each Undelivered Deliverable Obligation;
- (vi) **"Valuation Date"** means the date that is two Business Days after the Latest Permissible Physical Settlement Date;
- (vii) **"Valuation Method"** means Highest or, if fewer than two Full Quotations are obtained, Market Value;
- (viii) **"Quotation Method"** means Bid;
- (ix) **"Quotation Amount"** means, with respect to each type or issue of Undeliverable Deliverable Obligation or Undelivered Deliverable Obligation, an amount equal to the outstanding principal balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency which shall be converted by the Calculation Agent in a commercially reasonable manner by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Deliverable Obligation or Undelivered Deliverable Obligation, as applicable, as the case may be. - (xi) **"Market Value"** means, with respect to an Undeliverable Deliverable Obligation or an Undelivered Deliverable Obligation, as applicable, on a Valuation Date, (A) if more than three Full Quotations are obtained the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the same highest and lowest values (and, if more than one such Full Quotations have the same highest and lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (B) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (C) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (D) if fewer than two Full Quotations are obtained then, subject to sub-paragraph (B) of the definition of "Quotation" below, an amount that the Calculation Agent shall determine on the next Business Day on which two or more Full Quotations are obtained; and (E) if fewer than two Full Quotations are obtained on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the Market Value shall be determined as provided in limbs (B) to (D) of the definition of "Quotation" below;
- (xii) **"Quotation"** means each Full Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

- (E) The Calculation Agent shall determine based on the then current market practice in the market of the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation, Unassignable Obligation or Undelivered Deliverable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.

11. Fixed Recovery Redemption Terms

(a) *Redemption Amount*

Subject to Credit Linked Condition 14 (*Effect of DC Resolutions*), unless previously redeemed in full or purchased and cancelled, if Fixed Recovery Redemption is specified as the Credit Event Redemption Method in the applicable Issue Terms, then following the occurrence of a Relevant Event Determination Date and upon satisfaction of the Conditions to Settlement, the Applicable Proportion of each Credit Linked Note shall redeem in accordance with Credit Linked Condition 9 (*Cash Redemption Terms*), PROVIDED THAT:

- (i) the Final Price shall be deemed to be determined at the Fixed Recovery Percentage and the Cash Redemption Amount or the Final Cash Redemption Amount, as applicable, shall be determined using such Fixed Recovery Percentage, as further set out in the definitions of "Cash Redemption Amount" and "Final Cash Redemption Amount" in Credit Linked Condition 21 (*Definitions*);
- (ii) the "Final Price Determination Date" shall be the date on which the Final Price is deemed to be determined at the Fixed Recovery Percentage; and
- (iii) Single Valuation Date will be deemed to have been specified as the applicable Valuation Date on which the Cash Redemption Amount or the Final Cash Redemption Amount, as applicable, shall be determined.

(b) *Fixed Recovery Percentage of zero*

If the Fixed Recovery Percentage is zero, following the occurrence of a Relevant Event Determination Date, the occurrence of the relevant Cash Redemption Date or Final Cash Redemption Date, as applicable, shall fully and effectively discharge the Issuer's obligation to redeem the Applicable Proportion of the relevant Note.

For the avoidance of doubt, in such circumstance, the loss amount will be deemed to be 100 per cent. and, accordingly, no amounts will be payable or assets deliverable to the Securityholders. The Securityholders will bear the loss of their principal with respect to such proportion of the Credit Linked Notes impacted by the Credit Event and no liability shall attach to the Issuer.

12. Redemption upon Merger Event

If "Redemption following Merger" is specified as being applicable in the applicable Issue Terms, in the event that the Issuer and/or the Calculation Agent determines, in its discretion, acting in a commercially reasonable manner, that a Merger Event has occurred, the Issuer may give notice to the Securityholders in accordance with Credit Linked Condition 19 (*Notices*) and redeem each Credit Linked Note in full or in part on the Early Termination Date at the Merger Redemption Amount (PROVIDED THAT if nothing is specified in the applicable Issue Terms, "Redemption following Merger" shall apply).

13. Payment/Delivery Failure Event

This Credit Linked Condition shall not apply where a RMB Disruption Event has occurred (in which case, General Condition 8(j) (*Occurrence of a RMB Disruption Event*) shall apply).

(a) *Payment/Delivery Failure Event – failure to pay*

If an event constituting a Payment/Delivery Failure Event under limb (a) of such definition has occurred and exists, subject to Credit Linked Condition 13(c) (*No additional interest*) below, the obligation of the Issuer to pay the relevant amount will be postponed until such time that the

Payment/Delivery Failure Event no longer exists or is cured (including, without limitation, where the Securityholder requests the Issuer in writing to make payment of such amount to such other account or to such other person as the Securityholder specifies and represents to the Issuer that such payment to its designee will discharge the Issuer's obligations to the Securityholder in respect of such payment). Where such postponement applies, the Issuer shall give notice of such postponement to the Securityholders ("**Payment Failure Event Notice**") as soon as reasonably practicable in accordance with Credit Linked Condition 19 (*Notices*).

Notwithstanding anything to the contrary in these Credit Linked Conditions, if the Issuer determines (in its discretion, acting in a commercially reasonable manner) that such Payment/Delivery Failure Event continues to exist for such number of Business Days specified in the Issue Terms or, if no number of Business Days is specified in the Issue Terms, 90 Business Days following the later to occur of (a) any scheduled payment date or the (b) Scheduled Maturity Date or Extended Maturity Date, as applicable (the "**Payment Failure Cut-Off Date**") in respect of an amount required to be paid (including where the Securityholder has not elected for payment to be made to a third party or other account (if applicable) in accordance with Credit Linked Condition 13(c) (*No additional interest*) below, no such payment will be made by the Issuer and the Issuer's obligations to the Securityholder hereunder will be deemed to be fully discharged as of that date.

(b) *Payment/Delivery Failure Event – failure to deliver*

If an event constituting a Payment/Delivery Failure Event under limb (b) of such definition has occurred, the obligations of the Issuer to procure Delivery of the Physical Redemption Assets to such Securityholder shall, subject to Credit Linked Conditions 10(a) (*Delivery of Physical Redemption Assets*) and 14(d) (*Redemption Suspension*) cease and if "Fallback Cash Redemption" is specified to apply in the applicable Issue Terms, Cash Redemption shall be deemed to apply instead pursuant to the fallback cash redemption terms in Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*) with respect to the Physical Redemption Assets that cannot be Delivered on or prior to the Latest Permissible Physical Settlement Date and the Issuer shall pay each Securityholder each Credit Linked Note's pro rata share of the Fallback Cash Redemption Amount on the Fallback Cash Redemption Date. For such purpose, the Physical Redemption Assets shall constitute an "Undelivered Deliverable Obligations" for the purposes of application of Credit Linked Condition 10(i) (*Partial Cash Redemption Terms and Fallback Cash Redemption Terms*).

If "Fallback Cash Redemption" is not specified to apply in the applicable Issue Terms and if such Payment/Delivery Failure Event continues to exist on the Latest Permissible Physical Settlement Date, the Issuer shall have no further liability or obligation whatsoever in respect of such Credit Linked Note and no obligation to deliver the Physical Redemption Assets on or after the Latest Permissible Physical Settlement Date. However, if the Payment/Delivery Failure Event ceases to exist or is cured prior to the Latest Permissible Physical Settlement Date, the obligation of the Issuer to Deliver the Physical Redemption Assets will be postponed to a date determined by the Issuer to be no later than 10 Business Days following the Latest Permissible Physical Settlement Date (the "**Final Physical Redemption Cut-Off Date**").

(c) *No additional interest*

Any postponement or deemed discharge of payment pursuant to this Credit Linked Condition 13 will not constitute a default hereunder (including for the purpose of the definition of "Events of Default") and will not entitle the relevant Securityholder to any additional interest or other payment as a result thereof.

14. Effect of DC Resolutions

(a) *Binding nature*

Any DC Resolution of the relevant Credit Derivatives Determinations Committee will be binding with respect to the relevant Credit Linked Notes in accordance with these Credit Linked Conditions.

(b) *Event Determination Dates*

(i) *Determinations by the Calculation Agent*

A Relevant Event Determination Date which is determined by the Calculation Agent to apply to the Credit Linked Notes will be binding with respect to the relevant Credit Linked Notes.

(ii) *Reversal of DC Credit Event Announcement*

If a prior DC Resolution or the occurrence of an Event Determination Date is subsequently reversed prior to the relevant Auction Final Price Determination Date, a Physical Redemption Date, redemption of the Credit Linked Notes in full, a Valuation Date or a Delivery Date, a Credit Event shall be deemed not to have occurred with respect to the relevant Reference Entity for the purposes of these Credit Linked Conditions.

(iii) *Multiple successor determinations*

Where multiple successors have been determined in respect of a Reference Entity in accordance with Credit Linked Condition 15 (*Successor Provisions*), an Event Determination Date may occur in respect of each successor Reference Entity.

(c) *Determinations in respect of Successors and Substitute Reference Obligations*

If a DC Resolution relating to Successors or Substitute Reference Obligations is subsequently reversed after the identification of a Successor or a Substitute Reference Obligation by the Calculation Agent, such prior DC Resolution shall be disregarded for the purposes of these Credit Linked Conditions.

(d) *Redemption Suspension*

If, following the determination of a Relevant Event Determination Date but prior to the relevant Credit Event Redemption Date, Delivery Date or, to the extent applicable, a Valuation Date in respect of a Reference Entity, the relevant CDS Information Publisher publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in the relevant CE Resolution Notice are satisfied in accordance with the Rules, all timing requirements in these Credit Linked Conditions that pertain to redemption shall toll and remain suspended until such time as the relevant CDS Information Publisher subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved (a) the matters described in such CE Resolution Notice or (b) not to determine such matters. During such suspension period, the Issuer is not obliged to take any action in connection with the settlement of such Credit Event or the redemption, if any, of the Credit Linked Notes. Once the relevant CDS Information Publisher has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved (a) the matters described in the CE Resolution Notice or (b) not to determine such matters, the relevant timing requirements that pertain to redemption that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the relevant CDS Information Publisher with the Issuer having the benefit of the full day notwithstanding when the tolling or suspension began. The Issuer shall deliver, or cause the Fiscal Agent to deliver, a notice (a "**Redemption Suspension Notice**") in accordance with Credit Linked Condition 19 (*Notices*) to the Securityholders giving notice of any suspension of timing requirements pursuant to this Credit Linked Condition 14.

15. Successor Provisions

(a) *Successor Determinations*

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than 14 calendar days after the legally effective date of such Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set forth in the definition

of "Successor" have been met, or which entity qualifies as a Successor pursuant to paragraph (f) of the definition thereof, as applicable, PROVIDED THAT the Calculation Agent will not make such determination if, at such time, either:

- (i) the relevant CDS Information Publisher has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in the definition of "Successor" and paragraphs (a) or (b)(ii) of the definition of "Succession Event Resolution Request Date" are satisfied in accordance with the Rules (until such time, if any, as the relevant CDS Information Publisher subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor); or
- (ii) the relevant CDS Information Publisher has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event constituting a Succession Event for the purposes of the Credit Linked Conditions has occurred.

In calculating the percentages used to determine whether the relevant thresholds set forth in the definition of "Successor" have been met, or which entity qualifies as a Successor pursuant to paragraph (f) of the definition thereof, as applicable, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such Relevant Obligation listed in the Best Available Information and shall notify the Issuer and Fiscal Agent of such calculation.

(b) *Substitute Reference Obligations following a Succession Event*

Where a Reference Obligation has been specified, one or more Successors to the Reference Entity have been identified and any one or more such Successors have not assumed the Reference Obligation, a Substitute Reference Obligation will be determined in accordance with Credit Linked Condition 17 (Substitute Reference Obligation).

(c) *Transaction Types of Successor Reference Entities*

If the Transaction Type applicable to a Successor differs from the Transaction Type of the Reference Entity in respect of which the Successor has been identified, notwithstanding such difference, the Transaction Type of the Reference Entity in respect of which the Successor has been identified shall continue to apply to the Successor.

(d) *Single Successor*

Where the Calculation Agent determines that there is a single Successor in respect of a Reference Entity, such Successor shall be a Reference Entity for the purpose of the Notes (and, for the avoidance of doubt, the Reference Entity in respect of which the Successor has been identified shall cease to be a Reference Entity unless it has also been identified as a Successor).

(e) *Multiple Successors*

(i) *Single Name Credit Linked Notes*

Where the Credit Linked Notes are Single Name Credit Linked Notes and following a Succession Event in respect of a Reference Entity (such Reference Entity affected by a succession being a "**Single Name Succession Reference Entity**"), more than one Successor has been identified by the Calculation Agent, the Single Name Credit Linked Notes will be amended without the consent of the Securityholders to reflect the following terms and, to the extent applicable, the Calculation Agent shall apportion any outstanding nominal amount or any other relevant calculation amounts equally in relation to each Successor:

- (A) the Single Name Succession Reference Entity will no longer be a Reference Entity unless it is also a Successor;
- (B) each Successor will be a Reference Entity (each, a "**Single Name Successor Entity**") and, accordingly, more than one Relevant Event Determination Date

(and, accordingly, more than one Relevant Credit Event) may occur in respect of the Single Name Credit Linked Notes but, subject to Credit Linked Condition 7 (*Restructuring*), once only in relation to each Successor;

- (C) where a Relevant Credit Event and related Relevant Event Determination Date occurs in respect of a Single Name Successor Entity:
- (1) the Single Name Credit Linked Notes will not redeem in whole, but instead the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the nominal amount represented by such Single Name Successor Entity only after the apportionment described above (the "**Single Name Partial Nominal Amount**");
 - (2) the Single Name Credit Linked Notes shall, thereafter, be redeemed in part in accordance with Credit Linked Condition 3(f)(i) (*Auction Redemption*), 3(f)(ii) (*Cash Redemption*), 3(f)(iii) (*Physical Redemption*) or 3(f)(iv) (*Fixed Recovery Redemption*), as applicable (such redeemed part being equal to a Securityholder's pro rata share of the Single Name Partial Nominal Amount (PROVIDED THAT if "Credit Payment on Maturity" applies such partial redemption shall occur only on the Final Auction Redemption Date or Final Cash Redemption Date, as applicable)); and
 - (3) the Credit Linked Conditions and/or the Issue Terms shall be construed accordingly (including, for the avoidance of doubt, any interpretation in respect of a Restructuring).

Following the occurrence of such Relevant Credit Event, the Single Name Credit Linked Notes shall remain outstanding in an amount equal to the Outstanding Aggregate Nominal Amount of the Single Name Credit Linked Notes and interest shall accrue on the Outstanding Aggregate Nominal Amount of the Single Name Credit Linked Notes only (in accordance with these Credit Linked Conditions, adjusted in such manner as the Calculation Agent in its discretion, acting in a commercially reasonable manner, determines to be appropriate to reflect the economic effects of the identification of more than one Successor, considered in the aggregate);

- (D) if some but not all of the Single Name Credit Linked Notes are early redeeming in accordance with General Condition 6 (*Redemption and Purchase*) and the Valuation and Settlement Schedule, the relevant provisions of these Credit Linked Conditions shall continue to apply to the Outstanding Aggregate Nominal Amount of the Single Name Credit Linked Notes; and
- (E) the provisions of this Credit Linked Condition 15(e)(i) shall apply in respect of any identification by the Calculation Agent of further Successors.

(f) *Exchange Offer*

The determinations required pursuant to the definition of "Successor" shall be made, in the case of an exchange offer, on the basis of the outstanding principal balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the outstanding principal balance of Bonds for which the Relevant Obligations have been exchanged.

(g) *Sovereign*

With respect to a Sovereign Reference Entity, "Successor" means each entity which becomes a direct or indirect successor to such Reference Entity by way of Succession Event, irrespective of whether any such successor assumes any of the obligations of such Reference Entity. Where the March 2012 Supplement applies, notwithstanding the foregoing, in the event that "Revenue Obligation Liability" is specified as an Obligation Characteristic or Deliverable Obligation Characteristic, "Successor" shall mean an entity or public official that (i) succeeds to the principal functions of, or powers and duties granted to, the Reference Entity with respect to the

project, program or other enterprise from which revenues are derived for the payment, in whole or in part, of the Reference Obligation, and (ii) assumes the Reference Obligation.

16. **Deliverable Obligations**

(a) *Restructuring Maturity Limitation*

If (i) each of "Physical Redemption" and "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" applies and (ii) "Restructuring is the only Credit Event specified in a Credit Event Notice delivered by the Calculation Agent, then, a Deliverable Obligation may be specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date.

(b) *Modified Restructuring Maturity Limitation*

(i) If (A) each of "Physical Redemption" and "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" applies and (B) Restructuring is the only Credit Event specified in a Credit Event Notice delivered by Issuer, then a Deliverable Obligation may be specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, if it (x) is a Conditionally Transferable Obligation and (y) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

(ii) Where each of "Physical Redemption" and "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" applies and a Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, if applicable) is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer, then if the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Redemption Date (in which case it shall be deemed to have been refused), the Calculation Agent shall inform the Issuer. The Issuer shall promptly notify the Fiscal Agent (for onward notification to the Securityholder) of such refusal (or deemed refusal). If a Securityholder (x) does not designate a third party; (y) designates a third party in circumstances where it will be illegal due to any applicable law or regulation for the designee to take Delivery or such Delivery would give rise to any tax or any loss or cost to the Issuer; or (z) a Securityholder does not take Delivery on or prior to the Physical Redemption Date, then Credit Linked Condition 10(h) (*Alternative Procedures Relating to Loans not Delivered*) may be applied by the Issuer.

(c) *Multiple Holder Obligation*

If "Multiple Holder Obligation" applies, then none of the events described in sub-paragraphs (a) to (e) of the definition of "Restructuring" shall constitute a Restructuring unless the Obligation is a Multiple Holder Obligation, where "**Multiple Holder Obligation**" means an Obligation that (A) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (B) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six-and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event (PROVIDED THAT sub-paragraph (B) shall be deemed to be satisfied where the Obligation is a Bond).

17. **Substitute Reference Obligation**

(a) *Substitution events*

In the event that the Calculation Agent determines that:

(i) a Reference Obligation is redeemed in whole (or, where the March 2012 Supplement applies, a Reference Obligation is redeemed or defeased in whole in accordance with its terms);

- (ii) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortization or prepayments);
- (iii) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding obligation of such Reference Entity enforceable in accordance with its terms; or
- (iv) for any other reason, other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an obligation of a Reference Entity,

the Calculation Agent may identify one or more Obligations to replace such Reference Obligation.

(b) *Eligible substitution*

Any Substitute Reference Obligation(s) shall be an Obligation that:

- (i) ranks *pari passu* in priority of payment with the ranking in priority of payment of each of the Substitute Reference Obligation and such Reference Obligation (with the ranking in priority of payment of such Reference Obligation being determined as of the date as of which such Reference Obligation was issued or incurred and not reflecting any change to such ranking in priority of payment after such date) (or, where the March 2012 Supplement applies, satisfies the "Not Subordinated" Obligation Characteristic);

- (f) if one or more entities directly or indirectly succeeds to a portion of the Relevant Obligations of the relevant Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the relevant Reference Entity and the relevant Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor.

For the purposes of this definition, "succeed" means, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than the Reference Entity (A) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (B) issues Bonds that are exchanged for Relevant Obligations, and in either case such Reference Entity is no longer an obligor (primarily or secondarily) or guarantor with respect to such Relevant Obligations (or obligations).

SCHEDULE B – INDEX SKEW CONDITIONS**PART I: INTRODUCTION TO THE INDEX SKEW CONDITIONS****FREQUENTLY ASKED QUESTIONS**

For the avoidance of doubt, this introduction to the Index Skew Conditions (including the worked examples set out in the Annex (Worked Examples in respect of Index Skew Notes) to this Part I) shall not form part of the Index Skew Conditions.

The questions and answers set out below and the worked examples set out in the Annex (*Worked Examples in respect of Index Skew Notes*) to this Part I highlight selected information and provide practical examples to help prospective investors understand specific commercial considerations in respect of the Index Skew Notes. However, any decision to invest in the Index Skew Notes should only be made after careful consideration of the Base Prospectus and the relevant General Conditions in their entirety, particularly the terms and conditions of the Index Skew Notes set out in the Index Skew Conditions, as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable. This section should be treated as an introduction to certain terms of the Index Skew Notes. It is not intended to be a substitute for, nor a summary of, the Index Skew Conditions.

Unless otherwise defined in the Base Prospectus, capitalised terms in relation to the following questions and answers shall have the meanings given to them in the Index Skew Conditions.

What are Index Skew Notes?

Index Skew Notes are debt securities referencing a package skew position comprising (a) a Hypothetical Index Untranchured Transaction and (b) a Hypothetical Single Name Set where (a) and (b) have equal and offsetting positions with any payments resulting from a Credit Event in respect of a Reference Entity referenced by both Hypothetical Skew Transactions intended to be zero due to the application of payment netting (see further "*What are the Hypothetical Skew Transactions?*" below).

Accordingly, the amount of interest, if applicable, and principal which investors will receive on the Index Skew Notes does not depend on whether certain Credit Events occur in respect of any Reference Entity referenced under both Hypothetical Skew Transactions, but will instead be impacted by the occurrence of an early redemption event. The value of the combined positions reflects the difference or the "skew" between the value of the Hypothetical Index Untranchured Transaction and the aggregate value of its component single name credit derivative transactions which comprise the index.

What is the difference between the Index Skew Notes and Credit Linked Notes?

Index Skew Notes may appear similar to Credit Linked Notes as they both give an investor exposure to underlying credit derivative transactions which are linked to the credit risk of the Reference Entity without having to own a bond, loan or other type of borrowed money obligation of such Reference Entity. An investment in Index Skew Notes or Credit Linked Notes is, therefore, not equivalent to an investment in the obligations of a Reference Entity.

However, unlike Credit Linked Notes, if a Credit Event occurs in relation to a Reference Entity referenced under both Hypothetical Skew Transactions, the Index Skew Notes will not redeem early. Index Skew Notes are exposed to the value of the underlying hypothetical credit derivative transactions only where they are early redeemed (and not otherwise during the term of such Notes). As such, an investor in an Index Skew Note is not a seller of credit protection and, accordingly, Index Skew Notes are not Credit Linked Notes.

What are the Hypothetical Skew Transactions?

Each Series of Index Skew Notes will reference two Hypothetical Skew Transactions, namely, a Hypothetical Index Untranchured Transaction (i.e. an index untranchured credit derivative transaction) and a Hypothetical Single Name Set (i.e. a set of single name credit derivative transactions, with each single name transaction corresponding to an underlying Reference Entity constituent of the corresponding Hypothetical Index Untranchured Transaction). The Hypothetical Skew Transactions are credit derivative transactions that are deemed to be entered into by the Issuer and a hypothetical swap counterparty and

intended to be traded on the basis of the 2014 ISDA Definitions (subject to certain amendments as set out in the Index Skew Conditions) and other standard terms for similar over-the-counter credit derivative transactions.

The Issuer will be the buyer of credit protection under one Hypothetical Skew Transaction (for which the hypothetical swap counterparty will be the seller of credit protection) and the seller of credit protection under the other Hypothetical Skew Transaction (for which the hypothetical swap counterparty will be the buyer of credit protection). The hypothetical payment obligations of the Issuer and the Hypothetical Swap Counterparty, where applicable, in connection with a Fixed Rate Payer Payment Date and related Fixed Amounts, the Auction Settlement Date or Cash Settlement Date, as applicable, with respect to the occurrence of a Credit Event and related Event Determination Date in respect of a Hypothetical Index Untranchured Transaction and an off-setting Hypothetical Single Name Transaction will be equal and opposite. Accordingly, payment netting will apply to such hypothetical payment obligations resulting in no net amount being hypothetically payable by the Issuer to the Hypothetical Swap Counterparty or vice versa under or in connection with the Index Skew Notes.

What are the different timings for, and nature of, payouts that are contemplated under the Index Skew Conditions?

The amount of interest, if applicable, and principal which an investor receives will depend on whether redemption of the Index Skew Notes occurs (a) at maturity in the ordinary course (see further "*When will the Index Skew Notes be ordinarily redeemed at maturity?*" below), or (b) pursuant to the occurrence of an event (other than a Credit Event) triggering early redemption (see further "*When may the Issuer redeem the Index Skew Notes early?*" below).

When will the Index Skew Notes be ordinarily redeemed at maturity?

In the ordinary course and PROVIDED THAT the Index Skew Notes are not otherwise redeemed early or purchased and cancelled, each Index Skew Note will be redeemed in full on the Scheduled Maturity Date at par.

What happens if a Credit Event occurs?

If one or more Credit Events and related Event Determination Dates occur in respect of the Reference Entities referenced by both Hypothetical Skew Transactions, this will not result in an early redemption of the Index Skew Notes.

Under the Index Skew Conditions, an Event Determination Date will only occur in relation to a Hypothetical Skew Transaction where a Credit Event Resolution Request Date has occurred and a DC Credit Event Announcement is made in relation to any Reference Entity under such Hypothetical Skew Transaction. Depending on the Settlement Method elected under the terms of the Hypothetical Skew Transactions, following the occurrence of a Credit Event, an Auction Settlement Amount or a Cash Settlement Amount, as applicable, will be calculated under each Hypothetical Skew Transaction. However, the payment under each Hypothetical Skew Transaction is intended to be equal to zero due to the application of payment netting and, accordingly, there will be no amount payable by the Issuer (where it is seller of credit protection) or to the Issuer (where it is buyer of credit protection). In such case, the Index Skew Note will not redeem early and, PROVIDED THAT the Index Skew Notes are not otherwise redeemed early or repurchased and cancelled, each Index Skew Note will be redeemed in full on the Scheduled Maturity Date at par.

The occurrence of one or more Credit Events in respect of the Reference Entities referenced by both Hypothetical Skew Transactions will not impact the accrual of interest on the Index Skew Notes or result in any writedown of its outstanding aggregate nominal amount. Accordingly, interest will continue to be paid to investors as per usual until maturity.

If the the relevant CDS information publisher publicly announces that a Credit Derivatives Determinations Committee has resolved that a different entity or entities has or have become successor(s) to the original Reference Entity referenced by both Hypothetical Skew Transactions, then such entity/ies may be identified as a "Successor" to the original Reference Entity. The Index Sponsor may also identify one or more Successors in relation to any Reference Entity under the Hypothetical Index Untranchured Transaction, the identification of such Successor will also be deemed to apply to the relevant

Hypothetical Single Name Transaction relating to such Reference Entity. In such circumstances, the identification of Successors or the occurrence of any Credit Event in respect of such Successors shall not impact the payment of interest, if any, and principal under the Index Skew Notes or result in early redemption of such Index Skew Notes.

When may the Issuer redeem the Index Skew Notes early?

Following the occurrence of certain events (see further "*Which events may trigger an early redemption of the Index Skew Notes?*"), the Issuer may early redeem each Index Skew Note in full on the Early Termination Date or Optional Redemption Date, as applicable, by payment of an amount equal to its pro rata share of the Index Skew Early Termination Amount with no further payment of principal or interest, if applicable, due in respect of such Index Skew Notes. The Index Skew Early Termination Amount is an amount determined with respect to the Index Skew Notes in the Settlement Currency and which reflects the par value of the Index Skew Notes (together with accrued, but unpaid, interest up to, but excluding the date for early redemption), plus or minus the Hypothetical Swap Termination Value, less any unwind costs.

The Hypothetical Swap Termination Value reflects the termination payment that is determined to be payable in respect of each Hypothetical Skew Transaction following an early termination of the Hypothetical Skew Transactions due to an early redemption of the Index Skew Notes. Such amount shall be negative where the termination payment is hypothetically owed by the hypothetical swap counterparty to the Issuer and shall be positive where the termination payment is hypothetically owed by the Issuer to the hypothetical swap counterparty. The market value of the Index Skew Notes may be volatile since the Notes are exposed to the Hypothetical Skew Transactions which typically have a larger aggregate notional amount than the aggregate notional amount of the Index Skew Notes. Accordingly, any Index Skew Early Termination Amount will be linked to, among other things, the difference between the pricing of credit protection on the relevant Index referenced by the Hypothetical Index Untranchured Transaction and the constituent single name Reference Entities that comprise such Index. The value of the Index Skew Early Termination Amount will account for interest that has accrued up to (but excluding) the Early Termination Date or Optional Redemption Date, as applicable, and there will be no further payments of interest to investors after such date.

Which events may trigger an early redemption of the Index Skew Notes?

The Index Skew Notes may be early redeemed by the Issuer following the occurrence of (a) certain tax events with respect to the Index Skew Notes, (b) certain events which make it unlawful for the Issuer and/or the relevant Guarantor to perform certain obligations or comply with material provisions of agreements entered into in connection with the Index Skew Notes, (c) certain events occur which materially restrict the Issuer's and/or relevant Guarantor's ability to perform certain obligations in connection with the Index Skew Notes or cause the Issuer and/or the relevant Guarantor to be subject to less favourable capital adequacy treatment or suffer increased costs with respect to the Notes, (d) certain early termination events occur in respect of relevant Underlying(s) or the Notes (see below), (e) certain Events of Default, (f) an exercise by the Issuer of its call option in respect of the Index Skew Notes (if "Issuer Call" is applicable), (g) in certain cases and if applicable an Administrator/Benchmark Event or certain other benchmark events, (h) a Realisation Disruption Event or (i) a RMB Disruption Event.

An early termination event may occur where, among other things, (a) certain events have occurred and the Calculation Agent determines that no adjustment or substitution can reasonably be made to the Conditions to account for the effect of such event, (b) the Issuer and/or Guarantors become subject to any withholding or reporting obligations pursuant to Section 871(m) of the Code with respect to the Notes or a hedging disruption early termination event occurs, (c) in respect of certain Notes, certain events relating to Underlying(s) and/or hedging arrangements in respect of the Notes occur, in each case, where applicable in respect of the Notes.

Unless otherwise specified in the applicable Issue Terms, the Securityholders do not have a right to require the Issuer to redeem their Index Skew Notes early.

ANNEX: WORKED EXAMPLES IN RESPECT OF INDEX SKEW NOTES

The worked examples below are in respect of Index Skew Notes and are included for illustrative purposes only and should not be relied upon. They are not an indication of the likely performance of, or amounts

payable in respect of, the Index Skew Notes. The inclusion or absence of any assumption or any other feature in any worked example in this Annex is not an indication that such assumption or feature will or will not exist in any Index Skew Note. Prospective investors should conduct their own independent review and obtain such professional advice as they deem appropriate prior to any investment in the Index Skew Notes.

All amounts in this Annex are denominated in EUR.

General assumptions: *All examples below assume that an investor invests 10,000 in a single Index Skew Note with a face value of 10,000, which is linked to two hypothetical credit derivative transactions, being (i) a "**Hypothetical Index Untranching Transaction**" which references an Eligible Index comprising 100 equally weighted Reference Entities, R1 to R100 and (ii) a "**Hypothetical Single Name Set**" comprising 100 hypothetical single name transactions in respect of the same 100 Reference Entities (R1 to R100), with each single name transaction corresponding to one Reference Entity constituent of the corresponding Hypothetical Index Untranching Transaction (together, the "**hypothetical transactions**").*

(i) REDEMPTION AT MATURITY IN THE ORDINARY COURSE

Scenario: In addition to the general assumptions above, this example assumes the following:

- (a) the Issuer is the buyer of credit protection under the Hypothetical Index Untranching Transaction and the seller of credit protection under the Hypothetical Single Name Set;**
- (b) no Credit Event has occurred in respect of any Reference Entity;**
- (c) no succession event has occurred in respect of any Reference Entity;**
- (d) the Index Skew Note has not been previously redeemed in full or purchased and cancelled; and**
- (e) there are no unwind costs.**

Based on the assumptions above:

- (a) on the Issue Date, there will be no initial payment under the hypothetical transactions;**
- (b) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000); and**
- (c) on the Maturity Date, the Index Skew Note will be redeemed in full at its Index Skew Outstanding Aggregate Nominal Amount (Original investment (10,000), minus any adjustments, amortisations, cancellations or further issues of the Index Skew Note of such Series on or prior to such date (0)).**

An amount equal to 10,000 will be payable to the investor.

(ii) REDEMPTION AT MATURITY (OCCURRENCE OF A CREDIT EVENT OTHER THAN AN M(M)R RESTRUCTURING)

Scenario: In addition to the general assumptions above, this example assumes the following:

- (a) the Issuer is the seller of credit protection under the Hypothetical Index Untranching Transaction and the buyer of credit protection under the Hypothetical Single Name Set;**
- (b) Auction Settlement is the applicable Settlement Method under the hypothetical transactions;**
- (c) a Bankruptcy Credit Event occurs in respect of R15;**
- (d) no succession event has occurred in respect of any Reference Entity;**
- (e) the Index Skew Note has not been previously redeemed in full or purchased and cancelled; and**

(f) there are no unwind costs.

Based on the assumptions above:

- (a) on the Issue Date, there will be no initial payment under the hypothetical transactions;
- (b) following the occurrence of the Bankruptcy Credit Event in respect of R₁₅:
 - (i) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000) (i.e. there will be no writedown of the notional amount or suspension in interest payment);
 - (ii) an Auction Settlement Amount will be calculated under each hypothetical transaction in respect of R₁₅ in accordance with its terms and on the Auction Settlement Date, payment of such Auction Settlement Amount by the Issuer under the Hypothetical Index Untranch Transaction will be fully netted against the payment of the Auction Settlement Amount due to it under the Hypothetical Single Name Set;
 - (iii) the Index Skew Note will not early redeem; and
- (c) on the Maturity Date, the Index Skew Note will be redeemed in full at the Index Skew Outstanding Aggregate Nominal Amount (Original investment (10,000), minus any adjustments, amortisations, cancellations or further issues of the Index Skew Note of such Series on or prior to such date (0)).

An amount equal to 10,000 will be payable to the investor.

(iii) REDEMPTION AT MATURITY (OCCURRENCE OF AN M(M)R RESTRUCTURING)

Scenario: In addition to the general assumptions above, this example assumes the following:

- (a) the Issuer is the buyer of credit protection under the Hypothetical Index Untranch Transaction and the seller of credit protection under the Hypothetical Single Name Set;
- (b) Cash Settlement is the applicable Settlement Method under the hypothetical transactions;
- (c) an M(M)R Restructuring Credit Event occurs in respect of part of R₈;
- (d) no succession event has occurred in respect of any Reference Entity;
- (e) the Index Skew Note has not been previously redeemed in full or purchased and cancelled; and
- (f) there are no unwind costs.

Based on these assumptions:

- (a) on the Issue Date, there will be no initial payment under the hypothetical transactions;
- (b) following the occurrence of the M(M)R Restructuring Credit Event in respect of R₈:
 - (i) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000) (i.e. there will be no writedown of the notional amount or suspension in interest payment);
 - (ii) although the M(M)R Restructuring may have occurred only in respect of part of the Floating Rate Payer Calculation Amount of R₈, it will be deemed that that the M(M)R Restructuring occurred in respect of the full Floating Rate Payer Calculation Amount of R₈;
 - (iii) a Cash Settlement Amount will be calculated under each hypothetical transaction in respect of R₈ in accordance with its terms and on the Cash Settlement Date, payment of such Cash Settlement Amount by the Issuer under the Hypothetical Single Name

SCHEDULE B – INDEX SKEW CONDITIONS – PART I

Set will be fully netted against the payment of the Auction Settlement Amount due to it under the Hypothetical Index Untranching Transaction;

- (iv) the Index Skew Note will not early redeem; and
- (c) on the Maturity Date, the Index Skew Note will be redeemed in full at the Index Skew Outstanding Aggregate Nominal Amount (Original investment (10,000), minus any adjustments, amortisations, cancellations or further issues of the Index Skew Note of such Series on or prior to such date (0)).

An amount equal to 10,000 will be payable to the investor.

(iv) REDEMPTION AT MATURITY (OCCURRENCE OF MULTIPLE CREDIT EVENTS)

Scenario: In addition to the general assumptions above, this example assumes the following:

- (a) the Issuer is the seller of credit protection under the Hypothetical Index Untranching Transaction and the buyer of credit protection under the Hypothetical Single Name Set;
- (b) Auction Settlement is the applicable Settlement Method under the hypothetical transactions;
- (c) a Failure to Pay Credit Event occurs in respect of R₆₇;
- (d) a second Credit Event (i.e. an M(M)R Restructuring) occurs in respect of part of R₉₅;
- (e) a third Credit Event (i.e. an Obligation Acceleration) occurs in respect of R₂;
- (f) no succession event has occurred in respect of any Reference Entity;
- (g) the Index Skew Note has not been previously redeemed in full or purchased and cancelled; and
- (h) there are no unwind costs.

Based on the assumptions above:

- (a) on the Issue Date, there will be no initial payment under the hypothetical transactions;
- (b) following the occurrence of the Credit Events in respect of R₆₇, R₉₅ and R₂, in each case:
 - (i) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000) (i.e. there will be no writedown of the notional amount or suspension in interest payment);
 - (ii) an Auction Settlement Amount will be calculated under each hypothetical transaction in respect of R₆₇, R₉₅ (and, for such purpose, although the M(M)R Restructuring may have occurred only in respect of part of the Floating Rate Payer Calculation Amount of R₉₅, it will be deemed that that the M(M)R Restructuring occurred in respect of the full Floating Rate Payer Calculation Amount of R₉₅) in accordance with its terms and on the Auction Settlement Date, payment of such Auction Settlement Amount by the Issuer under the Hypothetical Index Untranching Transaction will be fully netted against the payment of the Auction Settlement Amount due to it under the Hypothetical Single Name Set;
 - (iii) the Index Skew Note will not early redeem; and
- (c) on the Maturity Date, the Index Skew Note will be redeemed in full at the Index Skew Outstanding Aggregate Nominal Amount (Original investment (10,000), minus any adjustments, amortisations, cancellations or further issues of the Index Skew Note of such Series on or prior to such date (0)).

An amount equal to 10,000 will be payable to the investor.

(v) REDEMPTION ON THE EARLY TERMINATION DATE (OCCURRENCE OF EARLY TERMINATION EVENT ONLY)

Scenario: In addition to the general assumptions above, this example assumes the following:

- (a) the Issuer is the buyer of credit protection under the Hypothetical Index Untranchured Transaction and the seller of credit protection under the Hypothetical Single Name Set;
- (b) no Credit Event has occurred in respect of any Reference Entity;
- (c) no succession event has occurred in respect of any Reference Entity;
- (d) an early termination event (e.g. an Obligor Regulatory Event) occurs in respect of the Index Skew Note;
- (e) the Index Skew Note has not been previously redeemed in full or purchased and cancelled; and
- (f) unwind costs of 100 are determined.

Based on the assumptions above:

- (a) on the Issue Date, there will be no initial payment under the hypothetical transactions; and
- (b) following the occurrence of the early termination event:
 - (i) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000) only up to (but excluding) the Early Termination Date and such unpaid interest amount will constitute 'x';
 - (ii) the hypothetical transactions will also terminate early and, in this case, we assume that an amount of 'y' (expressed as a positive number) is payable by the Issuer to the hypothetical swap counterparty as a result of such early termination;
 - (iii) on the Early Termination Date, the Index Skew Note will be early redeemed in full at the Index Skew Early Termination Amount (Original Investment (10,000), plus accrued, but unpaid, interest (x), minus Hypothetical Swap Termination Value, if payable by Issuer (y), plus absolute value of Hypothetical Swap Termination Value, if payable to Issuer (0), minus unwind costs (100)).

An amount equal to $(10,000 + x - y - 100)$ will be payable to the investor.

(vi) REDEMPTION ON THE EARLY TERMINATION DATE (OCCURRENCE OF EARLY TERMINATION EVENT AND CREDIT EVENT)

Scenario: In addition to the general assumptions above, this example assumes the following:

- (a) the Issuer is the buyer of credit protection under the Hypothetical Index Untranchured Transaction and the seller of credit protection under the Hypothetical Single Name Set;
- (b) Cash Settlement is the applicable Settlement Method under the hypothetical transactions;
- (c) an Obligation Default Credit Event occurs in respect of R77;
- (d) a Governmental Intervention Credit Event occurs in respect of R100;
- (e) no succession event has occurred in respect of any Reference Entity;
- (f) an early termination event (e.g. a Section 871(m) Event) occurs in respect of the Index Skew Note;
- (g) the Index Skew Note has not been previously redeemed in full or purchased and cancelled; and

(h) unwind costs of 100 are determined.

Based on the assumptions above:

- (a) on the Issue Date, there will be no initial payment under the hypothetical transactions;
- (b) following the occurrence of the Credit Events in respect of R_{77} and R_{100} , in each case:
 - (i) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000) (i.e. there will be no writedown of the notional amount or suspension in interest payment);
 - (ii) a Cash Settlement Amount will be calculated under each hypothetical transaction in respect of R_{77} and R_{100} in accordance with its terms and on the Cash Settlement Date, payment of such Cash Settlement Amount by the Issuer under the Hypothetical Single Name Set will be fully netted against the payment of the Auction Settlement Amount due to it under the Hypothetical Index Untranching Transaction;
 - (iii) the Index Skew Note will not early redeem; and
- (c) following the occurrence of the early termination event:
 - (i) interest will continue to accrue on the aggregate nominal amount of the Index Skew Note (10,000) only up to (but excluding) the Early Termination Date and such unpaid interest amount will constitute 'x';
 - (ii) the hypothetical transactions will also terminate early and, in this case, we assume that an amount of 'y' (expressed as a negative number) is payable to the Issuer by the hypothetical swap counterparty as a result of such early termination;
 - (iii) on the Early Termination Date, the Index Skew Note will be early redeemed in full at the Index Skew Early Termination Amount (Original Investment (10,000), plus accrued, but unpaid, interest (x), minus Hypothetical Swap Termination Value, if payable by Issuer (0), plus absolute value of Hypothetical Swap Termination Value, if payable to Issuer (y), minus unwind costs (100)).

An amount equal to $(10,000 + x + y - 100)$ will be payable to the investor.

PART II: INDEX SKEW CONDITIONS

The provisions set out in this Part II are the conditions (the "**Index Skew Conditions**") that will apply to the Notes if the applicable Issue Terms provide that "Index Skew Notes" are applicable (the "**Index Skew Notes**"). These Index Skew Conditions apply as completed by the applicable Final Terms or as completed, modified and/or supplemented by the applicable Pricing Supplement, as applicable. In the case of any inconsistency between these Index Skew Conditions and the General Conditions, these Index Skew Conditions will prevail. *For the avoidance of doubt, any clarificatory language herein in bold and italicised shall not form part of the Index Skew Conditions.*

Words and expressions defined or used in the applicable Issue Terms shall have the same meanings where used in these Index Skew Conditions or General Conditions unless the context otherwise requires or unless otherwise stated. The definitions and provisions contained in the 2014 ISDA Definitions are incorporated into and will apply to these Index Skew Conditions. All capitalised terms that are not defined in these Index Skew Conditions or elsewhere in the General Conditions applicable to the Index Skew Notes will have the meanings given to them in the applicable Issue Terms. References in these Index Skew Conditions to "Index Skew Notes" are to the Index Skew Notes, as the case may be, of one Series only, not to all Index Skew Notes that may be issued under the Programme.

Unless otherwise specified, references in these Index Skew Conditions to an Index Skew Condition are to the corresponding provision of these Index Skew Conditions.

1. Principal and Interest Payouts on Index Skew Notes**(a) Introduction**

Index Skew Notes are Notes pursuant to which the Issuer is deemed to have hypothetically entered into two separate Hypothetical Skew Transactions (together referred to as an Index Skew Position) under which the Issuer is a buyer of credit protection under one Hypothetical Skew Transaction and the seller of credit protection under the other Hypothetical Skew Transaction, such that following the occurrence of a Credit Event in respect of a Reference Entity referenced under both Hypothetical Skew Transactions, the Issuer's exposure under both Hypothetical Skew Transactions taken together offset each other. As a result, the payments required to be made by or to the Issuer under such Hypothetical Skew Transactions are intended to be zero due to the application of payment netting.

However, if the Hypothetical Skew Transactions were to terminate early due to an early redemption of the Index Skew Notes, a termination payment would be determined in respect of each Hypothetical Skew Transaction and this may result in an amount being payable either to or by the Issuer. Such amount, less any unwind costs, will be reflected in the amount payable to Securityholders upon the early redemption of the Index Skew Notes.

(b) Accrual of Interest

If the applicable Issue Terms specify that interest is payable in respect of Index Skew Notes, then interest shall accrue on the Index Skew Outstanding Aggregate Nominal Amount in accordance with General Condition 5 (*Interest*) from (and including) the Interest Commencement Date to (but excluding) the earlier of (a) the Scheduled Maturity Date; and (b) an Early Termination Date or Optional Redemption Date, as applicable, which results in the Index Skew Notes being redeemed in full, and payment of the relevant interest amount shall be made on such date. The occurrence of an Event Determination Date in respect of a Reference Entity referenced by the relevant Hypothetical Skew Transactions shall not result in a writedown of the Index Skew Outstanding Aggregate Nominal Amount.

For the avoidance of doubt, interest shall continue to accrue and be payable on the Index Skew Notes as above regardless of the occurrence of an Event Determination Date in respect of a Reference Entity referenced by the relevant Hypothetical Skew Transactions. No interest shall accrue on any Index Skew Note on or after the Scheduled Maturity Date.

SCHEDULE B – INDEX SKEW CONDITIONS – PART II

(c) *Redemption on the Maturity Date*

Unless the Index Skew Notes have been previously redeemed in full or purchased and cancelled by the Issuer, each outstanding Index Skew Note shall be redeemed in accordance with General Condition 6(a) (*Final Redemption or Termination*).

(d) *Early termination of the Index Skew Notes*

The Early Termination Amount or Optional Redemption Amount expressed to be payable in respect of any early redemption of the Notes pursuant to the General Conditions or the Valuation and Settlement Schedule shall be the Index Skew Early Termination Amount.

For the avoidance of doubt, the occurrence of one or more Credit Events in respect of the Reference Entities referenced by each Hypothetical Skew Transaction will not result in the early redemption of the Index Skew Notes and no actual amounts will be payable to the Securityholders under or in connection with the Index Skew Notes. In such circumstance, the payment under each Hypothetical Skew Transaction is intended to be equal to zero due to the application of payment netting.

2. Entry into an Index Skew Position

(a) On the Issue Date, the Issuer is deemed to have entered into an Index Skew Position with the Hypothetical Swap Counterparty.

(b) An **"Index Skew Position"** will be constituted by the following Hypothetical Skew Transactions:

(i) a Hypothetical Index Untranching Transaction; and

(ii) a Hypothetical Single Name Set,

PROVIDED THAT the Issuer shall be the buyer of credit protection under one Hypothetical Skew Transaction and the seller of credit protection under the other Hypothetical Skew Transaction.

(c) In each Index Skew Position, the Hypothetical Index Untranching Transaction and Hypothetical Single Name Set will be referred to as "related" or "corresponding" to each other, and the relevant Hypothetical Index Untranching Transaction and Hypothetical Single Name Transactions will be the **"constituent Hypothetical Skew Transactions"** in respect of such Index Skew Position.

(d) In order to preserve the equal and opposite effect of each Hypothetical Skew Transaction, save in the case of any calculation relating to the Hypothetical Swap Termination Value, any determination or action taken by the Calculation Agent and/or the Issuer under any Hypothetical Skew Transaction **shall** be deemed to be a determination or action taken under the other Hypothetical Skew Transaction and where relevant, in equal amounts.

3. Initial Payment and Offsetting Settlements

(a) No Initial Payment Amount will be made by the Issuer or the Hypothetical Swap Counterparty on the Issue Date.

(b) (The hypothetical payment obligations of the Issuer and the Hypothetical Swap Counterparty (where applicable) in connection with a Fixed Rate Payer Payment Date and related Fixed Amounts, the Auction Settlement Date or Cash Settlement Date (as applicable) with respect to the occurrence of a Credit Event and related Event Determination Date in respect of a Hypothetical Index Untranching Transaction and an off-setting Hypothetical Single Name Transaction will be equal and opposite, and therefore no net amount in respect thereof would be hypothetically payable by the Issuer to the Hypothetical Swap Counterparty or vice versa under or in connection with the Index Skew Notes as a result thereof due to the application of payment netting.

4. Applicable Event Determination Date

Notwithstanding the 2014 ISDA Credit Derivatives Definitions or anything to the contrary contained in the Hypothetical Skew Confirmation, an Event Determination Date will only occur in relation to the constituent Hypothetical Skew Transaction where:

- (a) a Credit Event Resolution Request Date has occurred and a DC Credit Event Announcement is made in relation to any Reference Entity under the constituent Hypothetical Skew Transaction; or
- (b) a Credit Event Notice is delivered, or deemed to have been delivered, by the Calculation Agent to the Issuer (and, in turn, the Issuer will be deemed to have delivered such Credit Event Notice to the Hypothetical Swap Counterparty).

5. Cash Settlement

Where "Fallback Settlement" applies, the Calculation Agent may (but shall not be obliged to) apply Cash Settlement to determine the Final Price for the relevant component of the Hypothetical Index Untranchured Transaction and the corresponding Hypothetical Single Name Transaction referencing the same Reference Entity. In such circumstances, the Cash Settlement Amount relating to the relevant component of the Hypothetical Index Untranchured Transaction and the corresponding Hypothetical Single Name Transaction referencing the same Reference Entity shall be determined on the basis of the same quotation resulting in the same Final Price.

6. Merger of Reference Entity and Seller

Section 11.4 (*Merger of Reference Entity and Seller*) of the 2014 ISDA Credit Derivatives Definitions will not apply to any Hypothetical Skew Transaction.

7. M(M)R Restructuring

Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity referenced by the constituent Hypothetical Skew Transaction, the Calculation Agent and/or the Issuer under each Hypothetical Skew Transaction may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring. Where the relevant Reference Entity is subject to a partial M(M)R Restructuring, the Calculation Agent will be required to deliver to the Issuer a Credit Event Notice for the portion of the Floating Rate Payer Calculation Amount in respect of such Reference Entity with respect to each Hypothetical Skew Transaction and such amount shall be deemed to be the Exercise Amount, PROVIDED THAT where a full M(M)R Restructuring has occurred, the Exercise Amount will be the total Floating Rate Payer Calculation Amount in respect of such Reference Entity (and not a portion thereof) with respect to each Hypothetical Skew Transaction, and in such case, a single Credit Event Notice for the total Floating Rate Payer Calculation Amount will be deemed to have been delivered by the Calculation Agent to the Issuer (and, in turn, in each case, the Issuer will be deemed to have delivered such Credit Event Notice to the Hypothetical Swap Counterparty).

8. Successors

- (a) Following a succession, if more than one Successor has been identified in relation to any Reference Entity under each Hypothetical Skew Transaction pursuant to Section 2.2 (Provisions for Determining a Successor) of the Credit Derivatives Definitions, each such Successor will be a Reference Entity (a "**Successor Reference Entity**") for the purposes of the constituent Hypothetical Skew Transactions referencing such Reference Entity (and, for the avoidance of doubt, the original Reference Entity shall cease to be a Reference Entity except where it is a Successor Reference Entity).
- (b) In the case where the Credit Derivatives Determinations Committee does not identify any Successor in relation to any Reference Entity under a relevant Hypothetical Single Name Transaction and the Index Sponsor identifies one or more Successors in relation to any Reference Entity under the Hypothetical Index Untranchured Transaction, the identification of such Successor will also be deemed to apply to the relevant Hypothetical Single Name Transaction relating to such Reference Entity.

9. Reference Obligations

Where there is no Standard Reference Obligation and the Index Sponsor publishes a replacement Reference Obligation in relation to any Reference Entity under the Hypothetical Index Untranching Transaction, the identification of such Reference Obligation will also be deemed to apply to the relevant Hypothetical Single Name Transaction. Where a Non-Standard Reference Obligation applies to the constituent Hypothetical Skew Transactions, the same Non-Standard Reference Obligation will apply with respect to the relevant Reference Entity for the Hypothetical Index Untranching Transaction and each Hypothetical Single Name Transaction in the related Hypothetical Single Name Set.

10. Changes in determination

If any matter to be determined by a party hereunder has also been determined by the relevant Credit Derivatives Determinations Committee then such party may, in its sole discretion, make its determination or change any determination previously made by it so as to be consistent with the relevant determination of such Credit Derivatives Determinations Committee, PROVIDED THAT any such determination or change in determination shall be applied equally to the constituent Hypothetical Skew Transactions in order to achieve the same economic effect under each such Hypothetical Skew Transaction.

11. Deemed changes to the Index Annex

If there are deemed changes to the Index Annex with respect to the Eligible Index, the same changes shall be applied equally to the constituent Hypothetical Skew Transactions in order to achieve the same economic effect under each such Hypothetical Skew Transaction.

12. Optional Early Redemption

If the Issuer exercises its option to early redeem the Index Skew Notes in accordance with General Condition 6(f) (*Redemption at the Option of the Issuer*), then notwithstanding anything to the contrary in the Conditions, the Optional Redemption Amount shall be the Index Skew Early Termination Amount.

- (a) an Additional Termination Event had occurred in respect of which the Issuer is the sole Affected Party and all Transactions are Affected Transactions;
- (b) in connection with such Additional Termination Event, the Hypothetical Swap Counterparty had validly designated a day during the period on and from the date of the event or circumstance giving rise to the early redemption of the Index Skew Notes pursuant to the Terms and Conditions to but excluding the Early Termination Date or the Optional Redemption Date, as applicable, as an Early Termination Date; and
- (c) there were no Unpaid Amounts as of such Early Termination Date or Optional Redemption Date, as applicable.

The Hypothetical Swap Termination Value will be expressed as (x) a negative number if it would be hypothetically payable by the Hypothetical Swap Counterparty to the Issuer, and (y) a positive number if it would hypothetically be payable by the Issuer to the Hypothetical Swap Counterparty. Automatic Exercise shall apply in respect of Credit Warrants relating to an Index Swaption.

3. Determinations and Discretions

The Warrants are linked to a hypothetical credit default swap or index swaption. For the purposes of making calculations under the Warrants, the Issuer is deemed on the Issue Date to have entered into the Notional Transaction with the Swap Counterparty on the Notional Transaction Terms. For the purposes of the Warrants, the Notional Transaction shall be construed as if it had been entered into on its terms.

In the event that the terms of the Notional Transaction provide for Buyer, Seller or the Calculation Agent under the Notional Transaction (the Swap Calculation Agent) to make a determination or calculation or exercise a discretion pursuant to the Notional Transaction (including, without limitation to the generality of the foregoing, in respect of the valuation of Reference Obligations and the selection of Dealers for such purposes, the identification of any Successors (including, for the avoidance of doubt, the giving of any Successor Notice) and Substitute Reference Obligations and the occurrence of any Event Determination Date, in each case in accordance with the terms of the Notional Transaction), such determination, calculation or such exercise of a discretion, as the case may be, shall be made by (a) in respect English Law Warrants and Irish Law Warrants (i) in the case of Buyer (subject as provided in below), the Calculation Agent acting in good faith and a commercially reasonable manner, (ii) in the case of Seller, the Calculation Agent acting in its sole and absolute discretion, or (iii) in the case of the Swap Calculation Agent, the Calculation Agent acting in its sole and absolute discretion or (b) in respect of German Law Warrants, in the case of each of Buyer, Seller or the Swap Calculation Agent, the Calculation Agent acting in its reasonable discretion (§ 317 BGB), in each case, in good faith and in a commercially reasonable manner. In making any determination pursuant to (a)(ii) above in its capacity as Seller under the Notional Transaction, the Calculation

Agent shall act in its sole and absolute discretion, is under no obligation to consider the interests of the Warrantholders and shall have no duties or responsibilities and shall not be liable to Warrantholders or any other party in exercising such discretions and making such determinations and calculations.

4. Notices under the Notional Transaction

- (a) In relation to a Notional Transaction where the Notional Transaction is specified to be a Single Name CDS or an Index CDS in the applicable Pricing Supplement, the Calculation Agent will deliver a Credit Event Notice and a Notice of Publicly Available Information on behalf of Buyer pursuant to the Notional Transaction in accordance with sub-paragraph (g) below with respect to the Credit Event the subject of a Trigger Notice if:
