1. GENERAL DESCRIPTION OF THE OFFERING PROGRAMME

Under the programme, Société Générale Effekten GmbH (the "**Issuer**") may, in its sole discretion, publicly offer and/or list on a regulated market in the European Economic Area the securities described in this Securities Note (the "**Securities**" or "**Tracker Certificates**").

General information on this Securities Note can be found in section 3.

1.1. Overview of the Issuer

The Issuer is a limited liability company established under German law with its registered office in Frankfurt am Main, Federal Republic of Germany. The business address is: Neue Mainzer Straße 46-50, 60311 Frankfurt am Main, Federal Republic of Germany.

The Issuer is a wholly owned subsidiary of Société Générale Frankfurt, Federal Republic of Germany, which is a branch of Société Générale, Paris, French Republic.

The Issuer's legal entity identifier (LEI) is 529900W18LQJJN6SJ336.

Further information on the Issuer and specific risks related to the Issuer can be found in the Registration Document.

1.2. Overview of the Guarantor

The Securities are unconditionally and irrevocably guaranteed by Société Générale, Paris, French Republic (the "**Guarantor**" or "**Société Générale**") in accordance with the guarantee issued as of 2 June 2026 (the "**Guarantee**"). The Guarantor is a public limited company (*société anonyme*) under French law and has the status of a bank. The registered office of the Guarantor is 29 boulevard Haussmann, 75009 Paris, French Republic, and the administrative office is 7 cours Valmy, 92972 Paris-La Défense, French Republic.

The Guarantor's legal entity identifier (LEI) is O2RNE8IBXP4R0TD8PU41.

Further information on the Guarantor can be found in particular in section 4.2. Specific risks relating to the Guarantor can be found in section 2.1.

For more information about the Guarantee, see section 4.1.

1.3. Overview of the Securities

The Securities are bearer bonds under German law within the meaning of § 793 of the German Civil Code (BGB).

The Securities grant the investor, subject to the occurrence of a particular event, the right to require the Issuer to pay a Redemption Amount.

In this context, the payment or occurrence of certain events depends to a large extent on an underlying to which the Securities relate. Under this programme, the following assets are considered as underlyings: shares, ETF shares, indices, precious metals, futures contracts and currency exchange rates.

The Securities hardly differ in their structure and functioning. In principle, Securityholders participate during the term of the Securities in positive as well as negative price developments of the respective underlying.

The Securities could be issued with limited term (the "**Limited Tracker Certificates**") or unlimited term (the "**Unlimited Tracker Certificates**").

In particular, the Redemption Amount of the Securities depends on the market value, level or price of the relevant underlying on the relevant Valuation Date. Depending on the performance of the underlying, an investor may lose all or part of its invested Capital Amount.

The occurrence of certain events may result in an early termination of the Security and a partial or total loss to the investor.

There is no interest on the Securities. In any case, the Securities will be paid out in cash. There is no physical delivery of the Underlying.

The conditions applicable to a Security on a case-by-case basis shall be determined by the Issuer in the Final Terms of the Securities.

Further information on the Securities can be found in section 5. and, specifically, on their functioning, in section 6. Specific risks related to the securities can be found in section 2.2.

An investment in these Securities is only suitable for investors if they are familiar with the nature of those Securities. Interested investors should be aware of all the risks associated with the purchase of the Securities. Investors should therefore have sufficient knowledge and/or experience with the Securities, their functioning and dependence on the Underlying.

1.4. Overview of the Offer and Trading

The Securities issued by the Issuer will be underwritten by Société Générale (the "**Offeror**") based on a general underwriting agreement. The Offeror will offer the Securities to potential investors.

For the Securities, admission to trading on a regulated market and/or a multilateral trading facility within the European Economic Area may be applied for. However, the Securities may also be offered without being admitted to trading.

Further information on the offer can be found in particular in section 5.7.; more information on trading the Securities can be found in section 5.8.

2. RISK FACTORS

The following section is divided into risk factors related to the Guarantor (section 2.1.) and risks arising from the nature of the Securities (section 2.2.). Each of these sections lists the risk factors in categories and subcategories.

The Issuer assessed each risk taking into account the negative effects and the likelihood of occurrence and used this assessment as a measure of the materiality of the risks.

The two most important risks for each category are highlighted by a grey frame. The risk factors listed below in a category are not listed according to their materiality.

The measure of the materiality of the risks in relation to the Guarantor is set out in the Registration Document of the Guarantor incorporated by reference into this Securities Note. For the risks associated with the Security, materiality depends to a large extent on the parameters set out in the Final Terms. Examples of such parameters are the Underlying, the Redemption Date and the Calculation Fee. These parameters determine both the probability of occurrence of a particular event and the associated risk, as well as the extent of the impact on the security upon occurrence of the risk. In each case, the Issuer makes a statement below, which puts the probability of occurrence in relation to possible effects. The probability of occurrence is compared to the respective risk event in the individual risk factors (e.g., the greater... the more likely it is). The impact of the occurrence of the described risk is then assessed by the Issuer, for example, by describing a possible partial or even total loss of the capital amount used by the investor or an expiration of the Security.

The risks described below may occur individually or together. They can mutually reinforce their effects.

Important Note: Both here and in the following sections, the "**Capital Amount**" (purchase price) paid for the purchase includes all other costs associated with the purchase.

2.1. Risk Factors relating to the Guarantee

The risks relating to the Guarantor are incorporated by reference and forms part of this Securities Note (see section "3.7.1. Guarantor"). The risks may affect the Guarantor's ability to meet its obligations under the Guarantee to the Securityholders.

2.2. Risks arising from the nature of the Securities

2.2.1. Risks relating directly to the structure of the Securities

This section sets out the specific risks associated with the purchase of Securities.

A feature common to all of the Securities issued under this Securities Note is that the Securityholder may incur a **total loss** of the purchase price paid. The Securityholders of all Securities also bear the **risk of loss**, because the Securities are **not capital-protected** and do **provide for no or only a small minimum repayment**.

(a) *Risk factors relating to the Underlying Component*

Investors should note in particular that the daily changes in the Underlying (meaning the change between two immediately consecutive Reference Prices of the Underlying) influence the Underlying Component and thus the net present value (the "**NPV**") and the value of the Security, i.e. the stronger the price of an Underlying falls on a trading day, the lower the NPV on that trading day and vice versa. If the price of the Underlying of the Security falls significantly, the value of the Underlying Component and thus the NPV fall to a very low value. This can lead to **losses** for the investor.

(b) *Risk factors relating to the Fee Component*

The Calculation Fee reflects the hypothetical costs that would be incurred in tracking the performance of the NPV. The Calculation Agent shall determine the Calculation Fee in its reasonable discretion (§ 317 BGB (German Civil Code)). The investor should note that a Calculation Fee for the administration

and calculation of the NPV for each calendar day is deducted from the value of the NPV when calculating the NPV. **In general, the deduction of the Calculation Fee leads to a reduction of the NPV and the value of the Securities.**

(c) Risks relating to the Interest Component (Underlying Futures Contract)

In addition, the investor must bear in mind that, in the case of Tracker Certificates on Futures Contracts, in addition to the Underlying Component and the Fee Component, an Interest Component also influences the amount of the NPV. The Interest Component contains an interest rate that is subject to certain fluctuations that can have a negative effect on the NPV. In particular, a negative interest would lead to interest losses instead of expected interest gains and **the NPV and thus the value of the Securities would be reduced.**

(d) Risks relating to the call for redemption

The effectiveness of the call for redemption depends on the submission of a Redemption Notice and the delivery of the Securities to the Paying Agent. The exact conditions for calling for redemption effectively are laid down in the terms and conditions. Risk: If these conditions are met at a later point in time, the Valuation Date will also be postponed and, if the call for a redemption is only possible on specific dates, the Securityholder must wait until the next date for a call of redemption. Where the number of Securities to be called for redemption exceeds the figure specified in the Redemption Notice, the excess Securities shall be transferred back at the expense of the Securityholder.

If a certain minimum number of Securities needs to be called for redemption, holders who do not have the required minimum number are either forced to sell their securities or buy more, with transaction costs in both cases incurred.

(e) Risks relating to a missing term in the case of Unlimited Tracker Certificates

The Unlimited Tracker Certificates do not have a limited term. Securityholders must therefore sell or call for redemption their Tracker Certificates in order to realise their financial value. Market participants must be found who are prepared to purchase the Tracker Certificates at an appropriate price. If there are no such market participants, the value of the Securities may not be realized. In this case the investor may suffer a **loss**.

(f) Limitation of term for Tracker Certificates on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The terms and conditions may provide that, if the company that issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, the term of the Security automatically ends prematurely. In this case, the Redemption Date will be the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The monetary amount paid in these circumstances may be lower than the amount that the Securityholders would have received upon regular redemption. Investors should also note that early redemption due to a dividend payment will take place at a time that is unfavourable from the point of view of the Securityholders, because they will be expecting a further increase in the price of the Securities precisely at that time. This risk depends on the probability of the occurrence of an ex-day or dividend cut-off date during the term of the Tracker Certificate. The amount of an investor's loss is essentially dependent on the price of the Underlying.

Investors also face the risk that it may only be possible to invest the amounts they receive in the event of early expiry at a return which is lower than the anticipated return from the Securities redeemed early.

(g) Discontinuation of the calculation in the case of Tracker Certificates relating to Futures Contracts

The calculation of the NPV is discontinued if an Observation Price of the relevant Futures Contract falls to or below 0 (zero). The **lower** an Observation Price, the **greater** the probability that the calculation will be discontinued. In this case, the NPV is 0 (zero) and the investor suffers a **total loss**.

2.2.2. Exchange rate risks in connection with the Securities

(a) *Impairment of the Security due to exchange rate changes*

Securityholders may face currency risks if the price or Underlying is expressed in a different currency than the Issue Currency and the amounts payable have to be converted into the Issue Currency on an exchange rate which is not already predetermined at issue (non quanto). Exchange rates are determined by supply and demand on the international foreign exchange markets. Exchange rates are affected by general economic factors, speculative activity and actions by governments and central banks. These may even include legal controls and restrictions on foreign exchange transactions. Exchange rates are therefore subject to significant fluctuations. Securityholders bear the risk, where applicable, that unfavourable developments on the foreign exchange market may reduce the value of the Securities and increase the **risk of loss** for the investor.

(b) *Impairment of the price of the Underlying due to exchange rate changes*

Securityholders may also be exposed to currency risks if the price of the Underlying is expressed in a currency (the "**Foreign Currency**") other than the Issue Currency and then converted into the Issue Currency. Thus, the Reference Price is subject not only to the price risk of the Underlying, but also to exchange rate risk. Thus, an unfavourable performance of the Foreign Currency against the Issue Currency could cancel out a positive performance of the Underlying. Result: Although the price of the Underlying in the Foreign Currency has risen, the value of the price of the Underlying in the Issue Currency decreases and thus also the value of the Security due to an unfavourable development on the foreign exchange market. The more negative the currency ratio develops, the greater the investor's loss (assuming that the Underlying does not change in the exchange rate in Foreign Currency). This can lead to losses **up to total losses** at the investor.

2.2.3. Risks arising from the Underlying to which the Securities are linked

The performance of the Securities depends to a large degree on the expected and actual performance of the Underlying.

The link to an Underlying entails risks that may have an adverse effect on the value of the Securities. In particular, the choice of Underlying by the Issuer is not based on its estimates of the future performance of the Underlying selected.

(a) *Risk of fluctuations in the value of the Underlying*

(aa) *Dependence of payments under the security on the Underlying*

Securityholders are affected by fluctuations in the value of the Underlying. These may have an adverse impact on the value of the Securities.

If investors purchase a Security with an Underlying, they also bear the risks associated with the Underlying as Securityholders. In particular, they bear the risk of fluctuations in the value of the Underlying. The fluctuations in the value of the Underlying depend on a variety of factors: Corporate actions or economic events relating to the business of the Underlying (e.g., deterioration of the results of a stock corporation), general economic factors and speculative activities. It is therefore not possible to make reliable statements about the future performance of the Underlying for the Securities. In particular, the performance of an Underlying in the past does not represent a guarantee of its future performance. The selection of an Underlying is not based on the expectations or estimates of the Issuer with respect to the future performance of the Underlying selected. Securityholders are therefore not able to predict in advance the repayment for the Securities that they can expect in the future.

If the value of the Underlying has fallen, Securityholders may suffer substantial losses (up to a **total loss**) on the repayment of the Securities or the early termination of the Securities.

(bb) *Dependence of the value of the security on the underlying (in the case of a sale)*

The same applies to sales of the Securities. The critical factor in this case is the NPV at the time of sale. If the NPV has fallen due to fluctuations of the Underlying between the purchase and sale of the

Securities, the Securityholders may incur a significant loss. If the NPV is worthless on the sale of the Security, the Securityholders may even suffer a **total loss or almost a total loss**.

(cc) Risks relating to limited information with respect to the Underlying

Information about the Underlying may not be publicly available or available only to a limited extent. Securityholders may therefore have no access or only limited access to detailed information about the respective Underlying. This may apply to the current price of the Underlying as well as the past and future performance of the Underlying and of its volatility. Due to such a lack of information, investors may anticipate negative developments too late or not at all. The less information an investor has about an Underlying, the higher the probability that this risk will materialise. For Securityholders, this can lead to a **total or partial loss** of the Capital Amount invested.

(b) Risks relating to Shares as the Underlying

(aa) Dependence on the company's share price

If investors invest in Securities with a Share as the Underlying, they bear similar risks as in the case of a direct investment in that Share.

These include risks arising from the fluctuations in the company's share price. This includes the risk of the company becoming insolvent and of insolvency proceedings or a similar proceeding according to the applicable law of the company, being initiated with respect to the company's assets. The risk exists for the Securityholders in all cases that the relevant share may become **worthless** as the Underlying of their Security, thereby realising the risks presented in section 2.2.1. resulting from the nature of the security. The Securityholders will then suffer a **total loss**.

(bb) Lower level of legal stability in the country of the registered office of the company

Additional risks apply to shares of companies with a registered office or business activity in countries with a low level of legal stability. The risk could consist, for example, of governments taking unpredictable measures or of nationalisation. This could result in a total or partial loss of the value of the share. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.

(cc) Risks relating to dividend payments or distributions

Unlike direct investments in shares, investors in Securities with Shares as Underlying will not receive a dividend or other distributions. Accordingly, an investor in the Securities bears the risk that the more the success of a company is reflected in dividends or distributions, the Securities with shares of that entity as Underlying do not or only insufficiently reflect that company's success. This can lead to a **loss** in relation to the Securities.

(dd) Volatility and Illiquidity of the Share

Shares of companies with a low to medium market capitalisation may be subject to greater risks than the shares of larger companies. Such risks relate in particular to the volatility of the shares and the possible insolvency of the companies. In addition, shares of companies with a low market capitalisation may be highly illiquid due to low trading volumes. This volatility and illiquidity may have a negative impact on the share price and therefore the risks associated with the securities and shown in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ee) Adjustment measures in the case of Shares

Securities with a share as the Underlying are also subject to adjustment measures, that may arise as a result of events relating to the company issuing the shares. Such adjustment measures become necessary in the event of corporate actions (e.g., capital increases) by the company concerned. The possibility cannot be ruled out that an adjustment measure may subsequently prove to be inappropriate or disadvantageous for the Securityholders. It may also be the case that an adjustment measure places a Securityholder in a worse financial position than before the adjustment measure was carried out. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ff) Shares in the form of depositary receipts

If the Underlying consists of depositary receipts rather than shares (e.g., American depositary receipts ("**ADRs**") or global depositary receipts ("**GDRs**"), referred to together as "**Depositary Receipts**"), additional risks may arise. Each Depositary Receipt represents one or more shares or a fraction of a security of a foreign company. For Depositary Receipt, the legal owner of the underlying shares is the depositary bank of the Depositary Receipts, which also acts as the issuing agent.

In the event of the insolvency of the depositary bank and/or the initiation of enforcement proceedings with respect to it, the underlying shares in question may be subject to restrictions on their disposal and/or their economic value may be realised in connection with enforcement measures against the depositary bank. This means that the Depositary Receipt will lose its value as an Underlying and the Securities linked to the Depositary Receipt could become worthless. The investor will be faced with a risk of **total loss** in such a scenario.

*(c) Risks relating to ETF Shares as the Underlying**(aa) Dependence on the performance of an index, basket or specific individual assets*

The purpose of an index-based ETF (Exchange Traded Fund) is to replicate the performance of an index, a basket or specific individual assets as closely as possible. The value of the ETF therefore depends in particular on the price performance of the individual index or basket constituents or of the individual asset. If the ETF or the index, basket or specific individual asset underlying the ETF falls in value, there is therefore the risk of an unlimited fall in the price of the ETF, which may have an adverse effect on the value of the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This may result in a **loss** in relation to the Securities.

(bb) Use of derivative financial instruments

Index-based ETFs whose performance is linked to an index or basket will normally invest in securities that are not included in the index or basket. In addition, derivative financial instruments and techniques are used in order to link the value of the ETF Share to the performance of the index or basket. The use of these derivative financial instruments and techniques involves risks for the ETF which may be greater in certain cases than the risks of traditional forms of investment. The ETF may also incur losses due to the default of the counterparty in a transaction involving the use of derivatives, e.g., in the case of OTC swap transactions. This may then negatively affect the value of the ETF Share and thus on the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This may result in a **loss** in relation to the Securities.

(cc) Liquidation risks for collateral provided

The statutory and regulatory provisions apply to collateral provided by counterparties to the investment company for index-based ETFs in connection with securities lending, repurchase and OTC transactions for the purpose of minimising the risk of counterparty default. However, the possibility cannot be ruled out that individual items of collateral may be worthless when the liquidation event occurs or may lose all of their value by the date of liquidation. Consequently, the risks identified in section 2.2.1. may be more likely to occur. To that extent, there is a risk that the ETF Share may lose all of its value and therefore a risk of **total loss** in respect of the Securities.

(dd) Risk of replacement of the index

In certain circumstances (e.g., there are no exchange prices available for the components), the calculation or publication of the index replicated by the index-based ETF or basket may be suspended or even discontinued. Furthermore, the index constituents or basket constituents may be changed, or the index or basket may be replaced by a different index or basket. The investor therefore faces the risk that the index or individual constituents may be replaced. This may have a negative impact on the value of the ETF share and, consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ee) Costs of an ETF

The performance of the ETF whose shares form the Underlying for the Securities is affected among other things by costs charged to the ETF directly or indirectly. Investors are exposed to the risk that these costs may have a negative impact on the performance of the ETF. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ff) Market risk

Since price falls or losses of value in the securities acquired by the ETF or its other investments are reflected in the price of the individual ETF Shares, there is a general risk that ETF Share prices may fall. Even if the ETF investments are widely spread and highly diversified, the risk exists that a general downward trend on particular markets or exchanges could be reflected in a decline in ETF Share prices. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(gg) Illiquid investments

The ETF may invest in assets that are illiquid or subject to a minimum holding period. For this reason, it may be difficult for the ETF to sell the relevant assets at an appropriate price or at all, if it is forced to do so in order to generate liquidity. The ETF may suffer significant losses if it has to sell illiquid assets to enable it to redeem ETF Shares, and it may be that the illiquid assets can only be sold at a low price. This may have an adverse effect on the value of the ETF and therefore on the value of the Securities. Investments in illiquid assets may also result in difficulties in calculating the net asset value of the ETF. This may in turn lead to delays affecting payments to investors in connection with the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(hh) Delayed publication of the net asset value

In certain circumstances (e.g., exchange prices for the components are not or not available in time), it may be the case that an ETF is late in publishing its net asset value. This may result in a delay in redeeming the Securities and, if there is a negative movement in the market for example, may have an adverse impact on the value of the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. In the event of a delay in the redemption of the Securities, investors also bear the risk that their reinvestment of the relevant proceeds will firstly be delayed and may only be possible on less favourable terms. This can lead to a **loss** in relation to the Securities.

(ii) Liquidation of a fund

The possibility that an ETF may be liquidated during the term of the Securities cannot be ruled out. In this event, the Issuer is entitled, subject to the respective terms and conditions, to make adjustments with respect to the Securities. Adjustments of this nature may provide in particular for the replacement of the relevant ETF by a different ETF. In such cases, the possibility also exists that the Issuer may terminate the Securities prematurely. The Redemption Amount to be paid as a result may be less than the investor's Capital Amount and may result in losses, up to and end with a **total loss**, with the investor.

(d) Risks relating to Indices as the Underlying*(aa) Dependence of the value fluctuation of the Index*

If investors invest in Securities with an Index as the Underlying, they bear similar risks as in the case of a direct investment in that Index or a direct investment in the constituents of the relevant Index.

The value of an index is calculated on the basis of the value of its constituents. Changes in the prices of the index constituents, the composition of the index and other factors affecting the index constituents are reflected in the level of the index. Changes in the level of the index in turn directly affect the value of the Securities. Securityholders therefore bear the risk that changes in the index level may have an adverse impact on the return on an investment in these Securities. Fluctuations in the value of one index constituent may be reinforced by fluctuations in the value other index constituents. This may trigger or intensify a for the investor negative development in the level of the index. In such cases, there is a risk

that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.

(bb) Termination of an Index

An Index used as an Underlying may not be available for the entire term of the Securities. The Securityholder therefore bears the risk, that the index may be discontinued, replaced or may be calculated in future by the Calculation Agent. In these or other circumstances specified in the Final Terms, the Securities may also be terminated by the Issuer. In such cases, the Redemption Amount may be less than the capital invested and a **risk of loss** for investors may arise.

(cc) Concentration risk

The index serving as the Underlying may only replicate the performance of assets in particular countries or particular sectors. In this event, Securityholders are exposed to concentration risk. This will be the case, for example, if the constituents of an index consist solely of shares from a particular country. Generally, unfavourable economic performance in that country may have a negative impact on the level of the index. The same applies if an index is composed of shares of companies in the same industry sector. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.

(dd) No influence of the Issuer on the Index

The Issuer has no influence on the index serving as the Underlying for the Securities issued by the Issuer. The index is compiled and calculated by the respective Index Administrator regardless of the Securities. The Issuer therefore has no influence on the method of calculating, determining and publishing the index. It is also not involved in decisions about possible changes in the index or on a possible cessation of the index. The Securityholder bears the risk that the methods of calculation applied to the index may be altered or modified by the index administrator in a way which (unfavourably) affects the payment to the Securityholders. In addition, the issuer may make adjustments in accordance with the terms and conditions or, if necessary, terminate the Securities in an extraordinary manner. The Securityholder is at risk that the measures described may disadvantageously affect the value of the securities and that the risks associated with the securities and indicated in section 2.2.1. may occur with a higher probability. This can lead to a **loss** in relation to the Securities.

(ee) Currency risk contained in the Index

The Securityholder bears the risk that index constituents may be traded in different currencies and therefore be subject to differing currency effects. This applies in particular to indices focusing on more than one country or industry sector. It may also be the case that index constituents are first of all translated from one currency into the relevant currency for the calculation of the index. This applies, for example, if an index is calculated in euros but the index constituents consist of shares traded in euros, Swiss francs and US dollars. The Securityholders are exposed to different currency and exchange-rate risks in these circumstances. An unfavourable development in the exchange rates of a currency in this context may have an adverse effect on the index constituent traded in that currency. This means that the unfavourable development of this exchange rate can have a negative effect on the index used as the underlying. The Securityholder thus bears the risk that a lower or higher index level may make the risks associated with the securities and indicated in section 2.2.1. more likely to occur. This can lead to a **loss** in relation to the Securities.

(ff) Adverse effects of fees on the index level

Index concepts for the calculation of an index may provide that fees are payable to the index administrator for the calculation of the index or in the event of changes to the composition of the index. Fees of this nature are normally provided for if the functions of the Issuer and of the index administrator are performed by the same company. Most of the indices are in any event designed by the Issuer and replicate an investment strategy developed by the Issuer. They then generally serve as the Underlying for a single issue or a limited number of issues of Securities.

Fees of this sort reduce the level of the index used as the Underlying. Securityholders therefore bear the risk that these negative effects may be reflected in the performance of the relevant Security. Consequently, there is a higher probability that the risks associated with the securities and indicated in section 2.2.1. will occur. This can lead to a **loss** in relation to the Securities.

(gg) Risks relating to indices that are new or not generally recognised

The following should be noted in the case of indices that are new developed and do not have historical data or are not generally recognised or indices which serve as the Underlying only for a specific Security: Their composition and calculation may be subject to a lower degree of transparency than in the case of generally recognised and established indices. In some cases, information about the index may also not be available to the same extent. Moreover, subjective criteria may play a significantly greater role in the composition of such indices. This may lead to higher fluctuations in the value of the index level and therefore the risk listed in section 2.2.3 (d) (aa) is more likely to arise. This can lead to a **loss** in relation to the Securities.

(e) Risks relating to Precious Metals as the Underlying

(aa) Dependence on the development of the price of the Precious Metals

If investors invest in Securities with a Precious Metal as the Underlying, they bear similar risks as in the case of a direct investment in that Precious Metal.

The performance of Securities linked to Precious Metals (e.g., gold, silver) depends on the development of the price of the respective Precious Metal. The development of the price of a Precious Metal may be affected by the following factors: supply and demand, speculation, production bottlenecks, delivery difficulties, insufficient market participants, political unrest, economic crises, political risks (export restrictions, war, terrorism), unfavourable weather conditions and natural disasters. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(bb) Volatility and Illiquidity

Prices of precious metals are subject to greater fluctuations and precious metal markets may be less liquid than, for instance, equities markets. Changes in supply and demand may therefore have a greater impact on prices and volatilities. Another characteristic of markets for precious metals is that they have only a small number of active market participants. This increases the risk of speculative activity and price distortions. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(cc) Political risks

Precious metals are frequently extracted in emerging markets to meet demand from industrial nations. However, the political and economic situation in emerging markets is usually considerably less stable than in the industrialised countries. Emerging markets are more exposed to the risks of rapid political change and economic setbacks. Investor confidence may be shaken by political crises. This can negatively affect the prices of precious metals in turn. War or armed conflict in particular may change the supply of and demand for certain precious metals. In addition, it is possible that industrialised countries may impose an embargo on the export and import of precious metals. This may have a direct or indirect negatively impact on the price of the precious metal used as the Underlying. The value of the Securities may also be unfavourably affected as a result and the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(f) Risks relating to Futures Contracts as the Underlying

(aa) Dependency of price fluctuations of the reference value underlying the Futures-Contract

If investors invest in Securities with a Futures Contract as the Underlying, they bear similar risks as in the case of a direct investment in that futures contract.

The value of the futures contract usually depends directly on the price of the reference value underlying the futures contract. In particular, commodities (so-called commodity futures), indices, bonds or virtual

currencies can be used as reference values. Individual risks with regard to the reference values are mentioned below:

In the case of commodity futures as Underlying, specific risks associated with the relevant commodities (e.g., oil, gas, aluminium, coffee, orange juice, copper or uranium) may arise which are often related to the risks presented in section 2.2.3. (e) on precious metals. In the case of agricultural raw materials as commodities, cyclical pattern of supply and demand can result in significant fluctuations in prices. Unfavourable weather conditions and natural disasters can have a negative impact over the long term on the delivery of specific commodities for the whole year. A supply crisis of this nature may result in significant and unpredictable fluctuations in prices.

In the case of futures contracts on indices, the risks listed in section 2.2.3. (d) of indices may occur and negatively affect the price of the futures contract as the Underlying of a Security.

In the case of futures contracts on bonds, the Securityholders are also exposed to the risk of insolvency of the issuer of the respective bond(s) underlying the futures contract. If the issuer of a bond underlying a futures contract fails to fulfil its obligations in connection with the relevant bond, the price for the futures contracts falls.

In the case of futures contracts on virtual currencies, the Securityholders are exposed to the risk of the respective futures specifications (e.g., price limits to curtail volatility of the virtual currency) and the risk associated with the relevant virtual currency. Virtual currencies are currently mainly stateless digital currencies and unregulated entities whose prices are subject to volatile spikes and crashes. It cannot be ruled out that the regulatory treatment of virtual currencies by national authorities and courts or international standard setting bodies could be subject to changes in the future. As a result, the purchase and/or direct or indirect investment in specific virtual currencies may be prohibited or otherwise restricted.

The realisation of the risks associated with these reference values may have a negative impact on the price of the futures contract. As a result, the value of the securities can be unfavourably affected and the risks shown in section 2.2.1. may occur with a higher probability. This can lead to a **loss** in relation to the Securities.

(bb) Expiry dates and Roll-over

Since every futures contract has a specific expiry date, the terms and conditions may provide that (especially for Securities with longer terms) the Issuer will replace the futures contract stipulated as the Underlying in the terms and conditions at a time specified in the terms and conditions, with a futures contract that, apart from a later expiry date, has the same contract specifications as the original Underlying futures contract (so called "**Roll-over**"). This can lead to a **loss** in relation to the Securities.

(cc) Futures price may differ significantly from the cash price of the reference value underlying the futures contract

As a result of the particular characteristics of futures trading, market phases may occur in trading in futures contracts, during which (against the expectation of the investors) there is **no** close correlation between the development of the price of the futures contract and the development of the cash price of the reference value underlying the futures contract. Moreover, there may be market phases in which the price behaviour of the futures contract on the futures market is **uncorrelated** with the price behaviour of the asset on the cash market. There is therefore a risk that (contrary to the investor's expectations) the price of the futures contract does not develop in the same way as the cash price of the reference value underlying the futures contract. If the price of the futures contract develops negatively as a result, the risks identified in section 2.2.1. may occur. This can lead to a **loss** in relation to the Securities.

(g) Risks relating to Currency Exchange Rates as the Underlying

If investors invest in Securities with a Currency Exchange Rate as the Underlying, they bear similar risks as in the case of a direct investment in that currency exchange rate.

Currency exchange rates are derived from supply and demand for currencies on the international currency markets which are subject to a variety of economic factors, such as the rate of inflation in the

particular country, differences in interest rates compared with other countries, the expected performance of the relevant economy, the global political situation, the convertibility of one currency into another, the security of monetary deposits in the respective currency and actions taken by governments and central banks (e.g., exchange controls and restrictions). In addition to these factors which can be assessed, however, other factors which are difficult to predict may be relevant, for example factors of a psychological nature such as crises of confidence in the political leadership of the country or other speculative considerations. Psychological elements of this nature can also have a significant effect on the value of the particular currency. These factors may be reflected accordingly in currency exchange rates and therefore have an unfavourable impact on the value of Securities with currency exchange rates as the Underlying. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

2.2.4. Risks relating to the pricing and tradability of the Securities

(a) *Market price risks*

During the term of the Securities, the price of the Securities may vary significantly, because the price of the Securities depends not only on the creditworthiness of the Issuer and of the Guarantor, but also essentially on the value of the Underlying and the design of the Security (see in particular the 2.2.1. and 2.2.2.). This may result in the value of the Securities falling below the Capital Amount paid by for the purchase of the Securities.

If Securityholders sell their Securities, they must take account that the sale proceeds generated in any particular case may be substantially lower than the Capital Amount paid by the Securityholder for the purchase of the Securities.

As the performance of the Securities is not certain at the time of their purchase due to their dependence on the performance of the Underlying and the structure of the Security, investors will have to bear any **losses** in value during the term. The more negative the value of the securities, the greater the investor's loss.

(b) *Liquidity risks*

Investors bear the risk that there will not be a liquid market for trading in the Securities, due to the structured component of the Securities and their dependence on the Underlying. This means that they may not be able to sell the Securities at a time of their choosing or are forced to sell at a later date at potentially lower prices.

A listing of the Securities on an exchange can never be guaranteed. If a listing does not exist, purchases and sales of the Securities are significantly difficult or in practice impossible. Even if the Securities are listed, the derivative structure of the Securities may result in low turnover on the respective exchange, which makes it difficult to sell the Securities at a favourable price and, as a result, create an illiquid market for the Securities.

If investors are forced to sell the Securities in an illiquid market, there is a risk of a small value for them to be redeemed and to suffer a corresponding **loss**. The more illiquid the market, the more likely it is that the prices raised do not reflect the actual value of the Securities.

(c) *Determination of secondary market prices for the Securities / pricing risks*

Securityholders bear the risk that they may not be able to sell the Securities at a particular time or at a particular price, since the Securities are structured securities and, as a result, the formation of prices in the secondary market is different compared to plain bonds.

Thus, in normal market conditions, Société Générale (the "**Market Maker**") regularly quotes buying and selling prices for the Securities (the "**Market Making**"). The Market Maker may also be an affiliated company of Société Générale or another financial institution. However, the Market Maker does not guarantee that the prices it quotes are appropriate. Equally, the Market Maker provides no guarantee that prices will be available for the Securities at all times during their entire term. The prices set by the market maker may therefore differ significantly from the fair or economically expected value of the Securities.

The Market Maker may also change the method it uses to determine the prices quoted at any time in its discretion. For example, the Market Maker may modify its calculation model and/or increase or reduce the bid/offer spread. Moreover, in the event of market disruptions or technical problems, the availability of the electronic trading system used may be restricted or suspended. In the case of abnormal market conditions or extreme price fluctuations on the securities markets, the Market Maker will not generally provide bid and offer prices. Securityholders therefore bear the risk that in some circumstances they will have no quoted price for their Securities. This means that Securityholders will not be able to sell their Securities in the market at an appropriate price in all situations.

The opening hours of the market for the Securities may differ from the opening hours of the market for the respective Underlying. If the market for the Underlying is closed while the Securities are tradable, it may be necessary for the Market Maker to estimate the relevant price of the Underlying in order to determine the price of the relevant Security. Such estimates may deviate from the actual market price later established and may adversely affect the value of the Securities.

Conversely, the market for the Securities may be closed while the Underlying is being traded. Outside the opening hours of the market for the Securities, already placed client orders will not be executed (regardless of any changes in the Underlying or other price-relevant parameters).

Investors should also note: The issue size of the Securities specified in the Final Terms merely refers to the number of Securities offered (offer volume) and cannot be used as an indication of the volume of Securities actually issued or outstanding. In consequence, no conclusions can be drawn from the issue size specified about the liquidity of the Securities for the purposes of possible trading transactions.

Due to the specific structure of the Securities and the resulting complex pricing, an investor is highly dependent on the price formed by the Market Maker in the event of a sale of the Securities. In all these cases described in this section, there may be a **loss** on the part of the investor.

(d) Risks from potential conflicts of interest

(aa) Further transactions

The Issuer and its affiliated companies may pursue interests that do not take into account the interests of the Securityholders or may conflict with them. This may occur in connection with carrying out further transactions, business relationships with the issuer of the Underlying or the exercise of other functions.

The Issuer and its affiliated companies are active on a daily basis in the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions directly or indirectly related to the Securities for their own account or for the account of clients. In addition, the Issuer may conclude transactions relating to the respective Underlying. This applies in particular to the conclusion of so-called hedging transactions in relation to the Securities, in particular the hedging of the risk to Issuer from the derivative component of the Securities (i.e. the dependence of the securities on the underlying). Such transactions or hedging transactions may have a negative impact on the performance of the Underlying. They may also adversely affect the value and/or the tradability of the Securities. In this context, the Issuer may pursue economic interests that conflict with the interests of the investors.

The value of the Securities may also be affected by the unwinding of some or all of these transactions and hedging transactions, respectively.

The Issuer and its affiliated companies may buy and sell Securities for its own account or for the account of third parties and may issue additional Securities. These transactions may reduce the value of the Securities. The launching of further, competing products on the market may adversely affect the value of the Securities. Due to the impairment of the Securities, the investor may suffer a **loss** on the sale of the Securities. The greater the impairment of the Securities, the greater the loss of the investor.

(bb) Business relationships

The Issuer and its affiliated companies may have a business relationship with the issuer of the Underlying. A business relationship of this kind may consist of advisory and trading activities, for

example. The Issuer may take actions in this context which it considers appropriate to safeguard its own interests arising from this business relationship. In so doing, the Issuer is not obliged to have regard to the impact on the Securities or on the Securityholders.

The Issuer may enter into or participate in transactions which influence the value of the Underlying. Since the value of the Securities is materially dependent on the fluctuations in the value of the Underlying, such business relationships with the issuer of the Underlying may adversely affect the value of the Securities and the investor may suffer a **loss**. The greater the impairment of the Securities, the greater the loss of the investor.

(cc) Information relating to the Underlying

The Issuer and its affiliated companies may possess or obtain material, non-public information about the Underlying. The Issuer and its affiliated companies are under no obligation to disclose information of this nature to the Securityholders. Securityholders could therefore make wrong decisions in relation to the Securities which could result in a loss, up to and including the **total loss** of the Capital Amount invested, as a result of missing, incomplete or false information about the Underlying. The greater the impairment of the Underlying, the greater the investor's loss.

2.2.5. Risks arising from the taxation of the Securities or the Underlying

(a) Risks relating to taxation of the Securities

Tax laws and practice are subject to changes, which may take effect retroactively. This can have a negative effect on the value of the Securities and/or the market price of the Securities. The tax treatment of the Securities may change in comparison with their tax treatment at the date of purchase of the Securities, for example. Therefore, due to the specific dependence of the Securities on the performance of the Underlying, Securityholders therefore bear the risk that they may make an incorrect assessment of the taxation of the income resulting from the purchase of the Securities. But there is also a possibility that the taxation of the income resulting from the purchase of the Securities may change to the disadvantage of the Securityholders.

Securityholders bear the risk of changes in the specific tax treatment of the Securities. This may negatively affect the value of the Securities and the investor may suffer a corresponding **loss**. The stronger this negative effect, the greater the loss.

(b) Risks relating to the retention of U.S. withholding tax (FATCA)

It is not expected that the reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") will affect the amount of any payment received by an applicable clearing system. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It may also affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. To the extent any withholding tax under FATCA applies, Securityholders will not receive any payment in respect of this deduction to **compensate** for the deduction. This is because neither the Issuer nor any paying agent or any other person is under an obligation to make any such compensatory payment to the Securityholders. The Securityholders may therefore receive lower payments than expected in such circumstances.

(c) Risks relating to the retention of U.S. withholding tax (Section 871(m) IRC)

U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "**Section 871(m) Regulations**") generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a "**Non-U.S. Holder**") with respect to certain financial instruments linked to U.S. equities, ETFs, or indices that reference U.S. equities (the "**U.S. Underlying Equities**"). Certain Securities under this Base Prospectus are therefore potentially subject to U.S. withholding tax when referencing U.S. Underlying Equities.

For such Securities, if U.S. source dividend payments are made in respect of U.S. Underlying Equities, the Issuer intends to take any applicable tax obligation under Section 871(m) of the U.S. Internal Revenue Code of 1986 ("**IRC**") into account in its ongoing adjustment of the price of the Underlying by withholding at a rate of 30 percent on any dividend equivalents. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any such Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.

2.2.6. Risks arising from adjustments and terminations**(a) Adjustments**

Securityholders bear the risk that the Securities may be adjusted.

The terms and conditions specify certain events on the occurrence of which the terms and conditions may be adjusted.

Such so-called extraordinary events or adjustment events arise in particular with regard to events which have a specific impact on the underlying of the securities. For example, the following events should be mentioned: the determination of the listing of Underlying, the elimination of the Underlying or the elimination of the possibility for the Issuer to enter into the necessary hedging transactions in relation to the Underlying. However, adjustments to the security itself may also occur, such as legislative changes or tax events that have a negative impact on security. In the event that the terms and conditions are adjusted, the Securities continue to exist. These measures may result in a **loss** for the investor. The more negative the impact of the adjustments, the higher the potential loss for the investor.

(b) Termination risk

Securityholders bear the risk that the Securities may be terminated.

An ordinary termination can be exercised by the Issuer at its own discretion. An extraordinary termination may arise in particular where an adjustment of the terms and conditions as a result of an extraordinary event is not appropriate in relation to the Underlying (see the execution of this risk in section (a)). This risk arises in particular from the derivative structure of the Securities and the dependence of the Securities on the Underlying.

In the event of an ordinary or extraordinary termination of the Securities, the termination amount may be very low in some cases. It could be lower than the amount the Securityholders would have received if the termination of the Securities had not taken place. Securityholders will incur a loss if the termination amount is less than the Capital Amount used to acquire the Securities. A **total loss** is also possible. The worse the performance of the security, the greater the risk of an investor's loss in the event of the termination of the Security.

(c) Reinvestment risk

Furthermore, Securityholders bear the risk that the Securities may be terminated at a time that is unfavourable from their point of view and therefore repaid early (reinvestment risk). This risk arises as

a result of the termination risk presented in section (b). If the Securityholders may be expecting a further increase in the price of the Securities at precisely that time, this expectation may therefore no longer be fulfilled due to the ending of its term. In addition, in the event of such an extraordinary termination, the amount to be paid by the issuer may be reinvested on less favourable market terms than applied at the date the Securities were purchased. This may mean that the overall return to be achieved may be significantly lower than the return expected on the Securities terminated. The investor may therefore suffer a **loss** in the reinvestment of the amount paid under the Securities. The less favourable the conditions of a reinvestment, the greater the loss.

3.4. Final Terms

3.4.1. New Securities

For Securities that are offered publicly and/or admitted to trading on a regulated or other comparable market for the first time under this Base Prospectus (the "**New Securities**"), the Final Terms are prepared using the form of the Final Terms (see section "10. Form of Final Terms"). These Final Terms contains the terms and conditions of the issue completed accordingly (see section "8. Terms and Conditions"), omitting those conditions not relevant to these Securities and filling in the placeholders or replacing the conditions with the appropriate content.

In the event of an increase of the issue size of New Securities, the additional Securities, as described in the previous paragraph, will be documented using the form of the Final Terms and the terms and conditions of this Securities Note. The additional Securities will form a single series economically with the Securities already issued (corresponding to the increased issue size), i.e. they have the same ISIN and the same features.

3.4.2. Former Securities

For Securities that (i) were offered publicly and/or admitted to trading on a regulated or other comparable market for the first time under a Former Base Prospectus (see section "3.7.2. Former Base Prospectuses"), (ii) whose characteristics are covered by the present Base Prospectus and (iii) which are not subject to a continuation of the public offering in accordance with section 3.5. (the "**Former Securities**"), the Final Terms are documented using the form of the Final Terms (see section "10. Form of Final Terms"). These Final Terms contain the product description completed accordingly (see section

"9. Product Description for Former Securities"). The terms and conditions of this Securities Note (see section "8. Terms and Conditions") are not applicable.

In the event of an increase of the issue size of Former Securities, the additional Securities, as described in the previous paragraph, will be documented using the form of the Final Terms and the product description. The additional Securities will form a single series economically with the Securities already issued (corresponding to the increased issue size), i.e. they have the same ISIN and the same features.

3.5. Continuation of the public offering of Securities

The Form of Final Terms for the purposes of the continuation of the public offering is contained in the Former Base Prospectuses. This information is incorporated by reference and forms part of this Base Prospectus (see section "3.7.2. Former Base Prospectuses").

In addition, Securities issued under the Former Base Prospectuses and for which the public offer is to be continued under this Base Prospectus are identified by the mention of their ISIN in section "11. ISIN List". The Final Terms of the Securities mentioned are published on the website www.warrants.com (here after entering the relevant ISIN in the search field of the country-specific website and then under "Documentation").

3.6. Third-Party Information

The Issuer confirms that information provided by third parties included in this Securities Note has been reproduced correctly and that - as far as the Issuer is aware and was able to deduce from the information published by that third party - no facts have been omitted that would render the information reproduced incorrect or misleading.

In addition, reference may be made in the respective Final Terms to third-party websites with respect to information relating to the Underlying. As a source of information for the description of the Underlying, these websites may then refer in turn to websites whose contents may be used as a source of information for the description of the Underlying and as information about the development of the price of the Underlying. 4. DESCRIPTION OF THE GUARANTEE

4.1. Nature and scope of the Guarantee provided for the Securities

Société Générale (the "**Guarantor**") irrevocably and unconditionally guarantees to each Securityholder that, if for any reason, the Issuer does not pay any sum or amount payable by it to such Securityholder in respect of any Security (including any premium or other amounts of whatever nature or additional amounts which may become payable under any Security), as and when the same shall become due under any of the foregoing, the Guarantor will pay to such Securityholder on demand the amount payable by the Issuer to such Securityholder as if such payment was made by the Issuer in accordance with the Terms and Conditions of the Securities.

If the Relevant Resolution Authority (as defined in the Terms and Conditions (Product-Specific Terms)) exercises its Bail-in Power (as defined in the Terms and Conditions (Product-Specific Terms)) on liabilities pursuant to Article L. 613-30-3 I 3 of the French Monetary and Financial Code (*Code monétaire et financier*, "**M&F Code**"), of Société Générale, ranking junior to liabilities of Société Générale that benefits from statutorily preferred exceptions pursuant to Article L. 613-30-3 I 1° and 2° M&F Code, and senior to liabilities as defined in Article L. 613-30-3 I 4 M&F Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of the Guarantor or another person, including by means of a variation of the terms and conditions to give effect to such exercise of such Bail-in Power, then the Guarantor's payment or delivery obligations under the present Guarantee shall be identical to the amounts or delivery that would be due if the Guarantor was itself the issuer of the Securities.

This Guarantee is a separate obligation and independent of the validity and enforceability of the obligations of the Issuer under the Securities. The intent and purpose of this Guarantee is to ensure that the Securityholders, under all circumstances and regardless of any factual and legal circumstances, motivations and considerations on the basis of which the Issuer may fail to effect payment, shall receive principal and interest and all other amounts payable pursuant to the Terms and Conditions of the relevant Securities on the due dates in accordance with the relevant Terms and Conditions.

All payments in respect of the Securities or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction (as defined in the Terms and Conditions (General Terms)), unless such withholding or deduction is required by law. In the event that any amounts are required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the Issuer or, as the case may be, the Guarantor shall (except in certain circumstances), to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Securityholder after deduction or withholding of such taxes, duties, assessments or governmental charges, will receive the full amount then due and payable, as more fully described in the Terms and Conditions. No additional amounts shall be paid for any withholding or deduction made pursuant to FATCA or Section 871(m) IRC.

The Guarantor's obligations under this Guarantee are and will remain in full force and effect until no sums remain payable under any Security. Any amendments to this Guarantee prejudicial to the interests of the Securityholders shall only apply to Securities issued after the date of such amendments. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Securityholder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

The Guarantee obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking senior preferred obligations, as provided for in Article L. 613-30-3 I 3° M&F Code).

Such Guarantee obligations rank and will rank equally and rateably without any preference or priority among themselves and:

- (a) *pari passu* with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the law no. 2016-1691 ("**Law**") on 11 December 2016;

- (b) *pari passu* with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° M&F Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;
- (c) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and
- (d) senior to all present and future senior non-preferred obligations (as provided for in Article L. 613-30-3 I 4° M&F Code) and all present or future subordinated obligations and deeply subordinated obligations, of the Guarantor.

The Guarantor may deposit with the local court (*Amtsgericht*) in Frankfurt am Main principal or interest not claimed by the Securityholders within twelve months after the relevant date, even though such Securityholders may not be in default of acceptance of payment. If and to the extent that the deposit is effected, and the right of withdrawal is waived, the respective claims of such Securityholders against the Issuer shall cease. Relevant date in this context means the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been dully received by the Paying Agent (or, in the case of uncertificated securities, the Securityholders) on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with the Terms and Conditions.

This Guarantee is governed by and shall be construed in accordance with German law.

Place of performance shall be Frankfurt am Main, Federal Republic of Germany.

The Guarantor hereby appoints Société Générale, Frankfurt Branch as its authorised recipient (*Zustellungsbevollmächtigter*), the "**Authorised Recipient**") in Germany in respect of any proceedings and undertakes that in the event of Société Générale, Frankfurt Branch ceasing so to act, it will appoint another person as its Authorised Recipient for this purpose.

To the extent permitted by law, the regional court (*Landgericht*) in Frankfurt am Main shall have exclusive jurisdiction over all actions or other legal proceedings arising as a result of or in connection with this Guarantee.

2 June 2026 Société Générale

4.2. Information about the Guarantor

The description and the financial information of the Guarantor for the purpose of this Securities Note were incorporated by reference and form part of this Securities Note (see section "3.7.1. Guarantor").

5. GENERAL INFORMATION ON THE SECURITIES

5.1. Information about the Securities

5.1.1. General

(a) Type and class of the Securities

The Securities are bearer bonds in accordance with German law within the meaning of § 793 of the German Civil Code (*Bürgerliches Gesetzbuch*, "**BGB**").

The Securities and the rights and duties of the investors and of the Issuer shall be based on the laws of the Federal Republic of Germany.

The Securities may be structured in different variants. An explanation of the functionality of the different variants can be found in section "6. Description of the Securities" of this Securities Note. This section describes in particular how the value of the Securities is affected by the value of the Underlying.

The features of the Securities and further information on the individual issues can only be determined shortly prior to publication of the Final Terms. They will be specified and published in the Final Terms.

This includes the following information, for example:

- International Securities Identification Number (ISIN), other securities identification numbers and/or exchange codes;
- issue date (payment date);
- issue size;
- issue currency; and
- Underlying

A Form of the Final Terms can be found in section "10. Form of Final Terms" of this Securities Note.

(b) Form of the Securities / Transferability

The Securities will be either issued in dematerialised form or represented by a global bearer security (the "**Global Security**"). In the case of Securities in dematerialized form the Final Terms will provide the name and the address of the entity in charge for keeping the records. The restrictions set out in section "7. Selling Restrictions" must be observed.

(aa) German Global Security

German Global Security will be represented by a Global Security. If so provided in the Final Terms, the Securities will be initially represented by a temporary global bearer security (the "**Temporary Global Security**"). This will then be exchanged for a permanent global bearer security (the "**Permanent Global Security**") following the presentation of certificates of non-U.S. ownership. The Temporary Global Security and the Permanent Global Security are referred to in the following as the Global Security.

The Global Security will be deposited with either

- C.I.K. NV/SA, Avenue de Schiphol 6, 1140 Brussels, Kingdom of Belgium (Euroclear Belgium);
- Clearstream Europe AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany; or
- Clearstream Banking S.A., 42 Avenue JF Kennedy, 1855 Luxembourg, Grand Duchy of Luxembourg, together with Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, 1210 Brussels, Kingdom of Belgium; (each a "**Clearing System**").

The Clearing System is specified in the Final Terms. Definitive securities for the Securities will not be issued.

The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.

The Issuer reserves the right to convert the form of the securitisation into German Central Register Securities during the term.

(bb) German Central Register Security

If so provided in the Final Terms, the Securities will be evidenced as electronic securities (the "**Central Register Securities**") pursuant to § 4 (2) of the German Electronic Securities Act (*Gesetz über elektronische Wertpapiere*, "**eWpG**").

Generally, Clearstream Europe AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany, in its function as central securities depository, will maintain the central register for the Central Register Securities. Also, to the extent permitted by the provisions of the eWpG, another central securities depository may be selected as the registrar of Central Register Securities in the Final Terms. The relevant central securities depository shall be specified in the Final Terms (in each case a "**Clearing System**" or a "**Central Securities Depository**").

Central Register Securities are issued by entering them in the electronic central register maintained by the register-keeping agent and by previously depositing the Terms and Conditions for the Security with the register-keeping agent as a permanent electronic instrument. The central register is maintained by a register-keeping agent acting in the capacity of a Central Securities Depository. As a result of the maintenance of the central register by a Central Securities Depository, the Central Register Securities are entered into the book-entry system.

The Central Register Security is registered with the Central Securities Depository. The Central Securities Depository is entered in the central register as the holder (collective entry) and administers the Securities on a fiduciary basis for the respective creditors (beneficiaries (*Berechtigte*), as defined by the eWpG)). Central Register Securities in collective entry are deemed by law to be collective securities holdings. There is no right to individual entry in the name of a creditor. The Securities shall be transferred as a co-ownership interest in the collective securities holding in accordance with applicable law and the rules and regulations of the Clearing System.

The Issuer reserves the right to convert the form of the securitisation into a German Global Security during the term.

The Securityholders shall receive ownership participations in or rights with respect to the Book-Entry Securities which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.

(c) Status of the Securities

The Securities will constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, unsecured and unsubordinated obligations of the Issuer, present and future.

(d) Guarantee

The payment obligations of the Issuer under the Terms and Conditions are guaranteed by an unconditional and irrevocable Guarantee of Société Générale.

(e) Limited Recourse

In the event of a payment default by the Issuer, of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Redemption Amount) on any such Security(ies) whenever such payment falls due (such payment defaults, a "**Defaulted Payments**"), the Securityholder cannot institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the Issuer (the "**Limited Recourse**").

For the avoidance of doubt the Limited Recourse is without prejudice to the Securityholder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments subject in all cases to the terms of the Guarantee.

(f) Bail-in

(aa) If the Relevant Resolution Authority (as defined in the Terms and Conditions (Product-Specific Terms)) exercises its Bail-in Power (as defined in the Terms and Conditions (Product-Specific

Terms)) on liabilities pursuant to Article L. 613-30-3 I 3° M&F Code of Société Générale ranking junior to liabilities of Société Générale that benefits from statutorily preferred exceptions pursuant to Article L. 613-30-3 I 1° and 2° M&F Code, and senior to liabilities as defined in Article L. 613-30-3 I 4° M&F Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Société Générale or another person, including by means of a variation of the terms and conditions to give effect to such exercise of Bail-in Power, then

- (1) the Issuer's obligations to the Securityholders under the Securities shall be limited and reduced to the amounts of principal and/or interest that would be recoverable by the Securityholders and/or the value of the shares or other securities or other obligations of Société Générale or another person that would be delivered to the Securityholders if the Securities had been directly issued by Société Générale itself, and any obligations under the Securities had accordingly been directly subject to the Bail-in Power, and
- (2) the Issuer shall be entitled to, in lieu of payment, request the Securityholders to seek payment, in whole or in part, of any amounts due under the Securities subsequent to the reduction and/or delivery of any shares or other securities or other obligations of Société Générale subsequent to conversion provided for at (1) above, directly from Société Générale under Société Générale's obligations.

If and to the extent that the Issuer requests the Securityholders to directly seek payment and/or delivery from Société Générale under Société Générale's Guarantee for the Issuer's obligations, the Issuer's liabilities under the Securities shall be deemed extinguished.

- (bb) No repayment of the principal amount of the Securities or the payment of interest thereon (to the extent of the portion thereof affected by the exercise of the Bail-in Power) shall become due and payable after the exercise of any Bail-in Power by the Relevant Resolution Authority, unless such repayment or payment would be permitted to be made by Société Générale under the laws and regulations then applicable to Société Générale under its senior unsecured liabilities if Société Générale itself was the issuer of the Securities, and the Terms and Conditions shall be deemed to be modified accordingly.
- (cc) Upon the Issuer becoming aware of the exercise of the Bail-in Power by the Relevant Resolution Authority on senior unsecured liabilities of Société Générale, the Issuer shall notify the Securityholders in accordance with § 7 of the General Terms (and other parties that should be notified, if applicable). Any delay or failure by the Issuer to give notice shall not affect the effects on the Securities described in (aa).
- (dd) The reduction or modification described in (aa) and (bb) above with respect to the Securities shall not constitute an event of default and the Terms and Conditions shall continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of the Securities, subject to any modification of the amount of interest payable to reflect the reduction of the principal amount and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or other investment firms domiciled in the French Republic.

(g) Payments under the Securities

Payments of amounts to the Securityholders shall be made on the relevant due date via the Clearing System specified in the Final Terms.

All taxes or charges that may be incurred in connection with the payment of the redemption amount shall be borne by the Securityholders. By making the payment to the Clearing System, the Issuer shall be released from its obligation under the Terms and Conditions.

(h) Calculation Agent

All calculations under the Securities shall be made by the calculation agent in accordance with the Terms and Conditions.

(i) Paying Agent

All payments under the Securities shall be made by the paying agent in accordance with the Terms and Conditions.

(j) Information about the Benchmarks Regulation

Amounts payable under these securities may be calculated with reference to one or more reference values (also referred to respectively as "**Benchmarks**") within the meaning of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, as amended (the "**Benchmarks Regulation**"). In accordance with the first subparagraph of Article 29 (2) Benchmarks Regulation, the Final Terms will specify, for each relevant benchmark, whether it is provided by an administrator (the "**Administrator**") that is included in the register of administrators and benchmarks (the "**Benchmarks Register**") established and maintained by the European Securities and Markets Authority (the "**ESMA**") pursuant to Article 36 Benchmarks Regulation.

Benchmarks in scope of the Benchmarks Regulation provided by Administrators that applied to ESMA by 31 December 2025 for recognition or endorsement can continue to be used in the EU unless such application is refused by ESMA.

5.1.2. Term and Termination

The term of the Securities can be either limited or unlimited.

The Issuer may terminate the Securities ordinarily in accordance with the Terms and Conditions.

The Issuer may terminate the Securities extraordinarily in accordance with the Terms and Conditions (e.g., on the occurrence of certain extraordinary events).

5.1.3. Description of the rights arising from the Securities

A description of the rights of the Securityholders under the Securities can be found in section "6. Description of the Securities".

In the event of so-called Adjustment Events or Extraordinary Events, however, the Issuer is entitled to adjust the Terms and Conditions and thus the rights of the Securityholders arising from the Securities. The adjustment shall be made in such a way as to maintain, as far as possible, the economic situation of the Securityholders under the Securities. The events are specified in the respective Terms and Conditions.

5.2. Interests of natural and legal persons involved in the issue/offer of the Securities

5.2.1. Further Transactions

The Issuer and companies affiliated to it are active on a daily basis in the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions directly or indirectly related to the Securities for their own account or for the account of clients. In addition, the Issuer and companies affiliated to it may conclude transactions relating to the respective Underlying. When concluding these transactions, the Issuer and companies affiliated to it may act as if the Securities had not been issued.

In addition, the Issuer and companies affiliated to it may conclude transactions relating to the respective Underlying. Such transactions may have a negative impact on the performance of the Underlying. For the purpose of these transactions, the Issuer and companies affiliated to it may pursue economic interests which conflict with the interests of the investors.

They also include transactions entered into by the Issuer and companies affiliated to it in order to hedge their obligations arising from the Securities. The value of the Securities may also be affected by the unwinding of some or all of these hedging transactions.

The Issuer and companies affiliated to it may buy and sell Securities for their own account or for the account of third parties and may issue additional Securities.

5.2.2. Business Relationships

The Issuer and its affiliated companies may have a business relationship with the issuer of the Underlying. Examples of a business relationship of this kind include:

- the granting of a loan;
- custodian activities;
- activities in connection with managing risks; or
- advisory and trading activities.

This may adversely affect the value of the Securities.

The following applies in relation to the Securities: The Issuer and companies affiliated to it may take actions which they consider appropriate to safeguard their own interests arising from this business relationship. In so doing, the Issuer and companies affiliated to it are not obliged to have regard to the impact on the Securities or on the Securityholders.

The Issuer and companies affiliated to it may enter into or participate in transactions which influence the value of the Underlying. Such business relationships with the issuer of the Underlying may adversely affect the value of the Securities. This may result in a conflict of interest on the part of the Issuer.

5.2.3. Information relating to the Underlying

The Issuer and its affiliated companies may possess or obtain material, non-public information about the Underlying. The Issuer and its affiliated companies are under no obligation to disclose information of this nature to the Securityholders. Interested investors are therefore dependent on publicly available information for the purpose of analysing the respective Underlying.

5.2.4. Pricing

Société Générale or a company affiliated to it may act as Market Maker for the Securities.

The Market Maker is responsible for quoting prices for the Securities. The prices are then not formed directly by supply and demand. This distinguishes pricing for the Securities from trading on an exchange where prices are based on supply and demand. However, the Securities may be admitted to trading on trading venues on which the prices are based on supply and demand and on the quotes made by the Market Maker.

Société Générale or its affiliated companies may also act as Market Maker for the Underlying.

Market Making may have a significant effect on the price of the Underlying and therefore also on the value of the Securities. The prices quoted by the Market Maker will not always be the same as the prices that would have developed from liquid trading on an exchange. Prices quoted by the Market Maker in the secondary market are determined on the basis of the fair value of the Securities. The fair value of the Securities depends on the value of the Underlying, among other factors.

The Market Maker sets the spread between the bid and offer prices. The bid price is the price at which the Market Maker buys the Securities. The offer price is the price at which the Market Maker sells the Securities. The spread depends both on supply and demand for the Securities and also on particular income considerations. Certain costs are deducted when pricing the Securities over their term. The costs are not always distributed equally over the term, however. Costs may be deducted from the fair value of the Securities in their entirety at an early date specified by the Market Maker. The prices quoted by the Market Maker may therefore differ significantly from the fair value or expected economic value of the Securities. Furthermore, the Market Maker may at any time modify the method it uses to determine the prices quoted. For example, it may increase or reduce the spread between the bid and offer prices.

Its function as Market Maker both for the Securities and possibly also for the Underlying does not constitute an obligation on the part of the Issuer towards the Securityholders. In both cases, the Issuer or its affiliated companies may therefore cease to act as Market Maker at any time.

5.3. Reasons for the offer of the Securities and use of proceeds

The Securities are being offered and the proceeds will be used solely for the purpose of generating profits in the context of the Issuer's general business activities. To the extent quantifiable, the estimated total costs of the respective issue/offer of the Securities and the estimated net proceeds will be published in the relevant Final Terms.

The Redemption Amounts will be calculated on the basis of a price of the Underlying defined in the Terms and Conditions, but the Issuer has no obligation to the investors to invest the proceeds from the issue of the Securities in the Underlying. Securityholders have no ownership rights in the Underlyings or their constituents. The Issuer is free to determine how the proceeds from the issue of the Securities are used.

5.4. Disclosure of resolutions relating to the Securities

Each issue of the Securities forms part of the normal business activities of the Issuer in accordance with its Articles of Association and does not require the passing of any internal resolutions.

5.5. Factors affecting the tax treatment of any income from the Securities

The tax legislation of the investor's member state and the Issuer's country of incorporation may have an impact on the income from the Securities.

The Issuer accepts no responsibility for the deduction or payment of taxes at source. **Interested investors are urgently recommended to consult their tax advisers about taxation in particular cases.**

5.6. Information about the Underlying

The rate, level or price of the respective Underlying of the Securities is the primary factor affecting the value of the Securities.

During the term of the Securities, Securityholders participate in principle in both positive and negative movements in the price of the respective Underlying.

In particular, the level of the Redemption Amount of the Securities normally depends on the rate, level or price of the Underlying on the relevant Valuation Date.

5.6.1. General description of the Underlying

The Securities described in the Base Prospectus may be linked to the performance of shares, ETF shares, indices, precious metals, futures contracts or currency exchange rates.

The Securities are linked for this purpose to a single Underlying, as specified in the Final Terms, for example a single share or a single index.

The respective Underlying is published in the relevant Final Terms. Sources of further information, including whether or not that information is available free of charge, can also be found in the relevant Final Terms.

If the Securities are linked to the performance of an Index provided by a legal entity, or by a natural person acting in association with, or on behalf of, the Issuer, and such legal entity or natural person is not included in the Benchmarks Register as Administrator

- the complete set of rules of the index and information on the performance of the index are freely accessible on the dedicated website www.sgindex.com or on the index provider's website; and

- the governing rules (including methodology of the index for the selection and the re-balancing of the components of the index, description of market disruption events and adjustment rules) are based on pre-determined and objective criteria.

The Issuer does not intend to provide any further information about the Underlying or Underlyings after the issue of the Securities.

5.6.2. Disruption Events relating to the Underlying

Suspensions or restrictions of trading or other disruptions relating to the Underlying (as described in detail in the Final Terms in relation to the respective Underlying; respectively a "**Disruption Event**") may affect the price of the Underlying. A Disruption Event may also affect the calculation of the level of the Redemption Amount as a result. A Disruption Event occurs, for example, if the price of the Underlying cannot be determined on a Valuation Date. The consequence of such a Disruption Event may be that a substitute price is calculated for the relevant Underlying, for example. The specific provisions applicable to an Underlying to correct the effects of a Disruption Event are specified in the Terms and Conditions.

5.6.3. Adjustments to the Terms and Conditions due to events affecting the Underlying

Certain events may have a material impact on the determination of the price of the Underlying specified in the Terms and Conditions.

The following represent examples of adjustment events:

- capital increases for capital contributions;
- the final discontinuation of the exchange listing of the Underlying;
- the discontinuation of the calculation or publication of an index; or
- other events which make it impossible to determine the Reference Price. They also include e.g., events which mean that the Underlying is no longer determined and published on a regular basis (respectively an "**Adjustment Event**").

If an Adjustment Event occurs, the adjustment rules provided for in the Terms and Conditions are applied. The definitions of Adjustment Events are specified in the Terms and Conditions.

5.7. Conditions for the offer of Securities

5.7.1. Offer of Securities

The Securities issued by the Issuer will be underwritten by Société Générale (legal entity identifier (LEI): O2RNE8IBXP4R0TD8PU41), telephone: +33 (0)1 42 14 20 00, domiciled in Paris, French Republic) (the "**Offeror**") subject to a general underwriting agreement dated 15 January 2015. The Offeror will offer the Securities to potential investors.

The applicable Final Terms will state whether or not the Securities will be publicly offered. The details of the offer and sale, in particular the relevant payment date, start of the offering, the relevant offer/issue size as well as the relevant initial issue price with regard to each issue hereunder will be set out in the relevant Final Terms.

In the case of an offer of Securities during a subscription period which will be specified in the Final Terms any details of the offer (e.g., issue size) that will be determined at the end of the subscription period shall be published by the Issuer without delay at the end of the subscription period on the website as set out in the Final Terms. The Issuer may further provide for an offer and sale after the subscription period at a price which is subject to change. In this case the issue price will be determined continuously.

5.7.2. Potential Investors, Categories of Investor

The Securities may be offered to retail investors, institutional investors and/or other qualified investors, subject to the restrictions presented in section "7. Selling Restrictions" of this Securities Note.

The countries where the offer take place (each an "**Offer Country**") will be stated in the respective Final Terms.

5.7.3. Issue Price of the Securities, Pricing

(a) Disclosure of the price at which the Securities are offered (Initial Issue Price)

The initial issue price per Security is normally stated in the Final Terms. The selling price or, in the case of continuous public offers, the continuous offer prices of the Securities are subsequently determined on an ongoing basis.

The initial offer price and, in the case of continuous public offers, the continuous offer prices of the Securities are based on the internal pricing models of Société Générale. In addition to a front-end fee and placement commission, the initial offer price may also include an expected margin that is not apparent to investors. This margin will be collected by Société Générale. In principle, this margin may include costs that Société Générale has incurred or is yet to incur, in particular costs for structuring the Securities, hedging risk, and selling the Securities. The Final Terms state the amount of the Issuer's costs included in the initial issue price for the Securities, where known to the Issuer.

Contractual partners of the persons or entities purchasing the Securities issued by the Issuer may receive benefits for selling those Securities. Such contractual partners may also receive any front-end fee charged. In addition, the contractual partners of the purchaser may receive benefits in the form of payments in kind for selling the Securities.

(b) Other costs and taxes that may be charged to the subscriber or purchaser

The Issuer and/or Offeror will not charge purchasers any costs other than the above issue, subscription and/or selling prices. Information on other costs and taxes that may be charged or levied by online banks, investors' own banks or the given trading venue must be obtained from those sources.

5.7.4. Delivery of the Securities

The Securities will be delivered by depositing them in the Clearing System on the Payment Date specified in the respective Final Terms. Upon purchase after the Payment Date, the Securities will be delivered in accordance with applicable local market practice.

Definitive certificates for the Securities will not be issued.

5.8. Admission of the Securities to trading and trading rules

Application may be made to have the Securities admitted to trading on a regulated market or a multilateral trading facility (a "MTF") in the European Economic Area (a "EEA Trading Venue").

However, the Securities may be offered without being admitted to trading on an EEA Trading Venue.

5.8.1. Admission of the Securities to trading

The Final Terms will disclose any application or intention to apply for the Securities to be admitted to trading on an EEA Trading Venue. The Final Terms will also state the first date on which the Securities are or are expected to be admitted to trading, if known.

In addition, the Final Terms will disclose all EEA Trading Venues on which Securities of the same category are already admitted to trading.

The Final Terms will state any application or intention to apply for the Securities to be admitted to trading on another EEA Trading Venue, even as a potential secondary listing. In this case, the Final Terms will also name the respective trading venue and, if known, the date on which the Securities were or are expected to be included in trading on such market or trading system.

The Securities may be admitted to trading on the following EEA Trading Venues:

- Barcelona Stock Exchange
- Euronext Access Paris
- Euronext Amsterdam N.V.
- Euronext Brussels N.V./S.A.

- Euronext Paris S.A.
- Frankfurt Stock Exchange - Open Market (*Freiverkehr*)
- Hi-MTF
- Madrid Stock Exchange
- MTF SeDeX
- Nordic MTF
- Spectrum MTF
- Stuttgart Stock Exchange (*Baden-Württembergischen Wertpapierbörse*) - Regulated Unofficial Market (*Freiverkehr*)
- Hannover Stock Exchange (*Freiverkehr* - Electronic Trading)

Even if the Offeror files the application for admission to trading, there is no guarantee that it will be granted. Nor is there a guarantee of active trading in the Securities. The Issuer is under no obligation to ensure that the Securities remain admitted to trading over their term.

5.8.2. Name and address of intermediaries in secondary trading

If the Issuer or a third party engaged by it can act as market maker for the Securities, that market maker will quote bid (buy) and ask (sell) prices under normal market conditions during the normal trading hours of the Securities in accordance with the rules and regulations of the given trading venue(s) for the purposes of securing liquidity for the respective Security. If the Issuer appoints intermediaries in secondary trading on a regulated market, the name and address of the respective institutions acting as intermediaries in secondary trading pursuant to a binding commitment will be published in the Final Terms, giving a description of the primary provisions of their commitment.

5.9. Post-Issuance Information

The Issuer does not intend to provide post-issuance information in relation to the Securities, unless the Terms and Conditions expressly provide for notices to be published in specific cases. This applies, for example, if adjustments are made. In such cases, the information will be published on the website(s) specified in the Final Terms or any respective successor website.

5.10. Credit Ratings of the Securities

The Securities described in the Base Prospectus are not rated.

6. DESCRIPTION OF THE SECURITIES

This section details the operation of the Securities that may be issued under the Base Prospectus.

6.1. General Information on Tracker Certificates

The following descriptions of the Securities outline the functionality of the Tracker Certificates. The relevant features of the Securities are given in the Terms and Conditions set out in the Final Terms.

6.1.1. Effect of the Underlying on the Performance of the Securities

The Tracker Certificates are linked to an Underlying, which can be a share, an ETF share, an index, a precious metal, a futures contract or a currency exchange rate. The Underlying is specified in the Final Terms.

During their term, the price of the Securities depends on the performance of the respective Underlying.

However, a number of other factors influence the price of the Securities (for details see 6.2.2.).

6.1.2. Redemption of the Tracker Certificates

In the case of Unlimited Tracker Certificates, the Securities, at no point in time, provide for automatic payment of the Redemption Amount evidenced by the Securities. In principle, payment of the Redemption Amount is subject to the condition that the Security in question has previously been called for redemption by the holder in accordance with the Terms and Conditions. The Redemption Date(s) are specified in the Final Terms and could be limited to specific dates (e.g., 1st day of each month, quarter or year). The Terms and Conditions also detail the procedure for effective call for redemption.

In the case of Limited Tracker Certificates, the Securities are called for redemption automatically on the last day of their call period. Beside this, payment of the Redemption Amount is subject to the condition that the Security in question has previously been called for redemption by the holder in accordance with the Terms and Conditions. The Redemption Date(s) are specified in the Final Terms and could be limited to specific dates (e.g., 1st day of each month, quarter or year). The Terms and Conditions also detail the procedure for effective call for redemption.

What the Securityholder receives upon call for redemption depends on the NPV on the relevant Valuation Date, which is essentially determined by the Reference Price of the Underlying on the Valuation Date and any previously determined Reference Price, and any Calculation Fee applied.

The payment of the Redemption Amount is usually made within a period of between two and five Business Days after the Valuation Date. If on a Valuation Date no Reference Price of the Underlying is determined, the Valuation Date is postponed. The day may then also be postponed, on which the Redemption Amount is paid to the Securityholder.

There may be an exception in the cases disrobed in 6.2.3.

6.1.3. Reference Price and Price of the Underlying

Each Reference Price determined during the term of the Security is the deciding factor in determining the amount of payments to Securityholders. The Final Terms specify which price of the Underlying is used as the Reference Price. For example, they may provide for the relevant Reference Price to be determined as the closing price of a share on a stock exchange specified in the Terms and Conditions.

6.1.4. Adjustments, Ordinary Termination and Extraordinary Termination

The Terms and Conditions of all Securities specify certain adjustment events whose occurrence may trigger an adjustment to the Terms and Conditions. The Issuer will adjust the Terms and Conditions in such manner that the economic position of the Securityholder is the same as before the adjustment event to the extent possible. The adjustment events depend on the type of Underlying.

Examples of adjustment events include the cessation of the Underlying or the discontinuation of its listing, changes in laws or taxation events. Another adjustment event may arise if the Issuer is no longer able to enter into the necessary hedges.

In the case of "termination events", the Issuer is also entitled to terminate the Securities extraordinarily and to redeem them at the termination amount determined in accordance with the Terms and Conditions. The termination events are specified in the respective Terms and Conditions. These extraordinary termination rights will be exercised, for example if changes occur to the relevant underlying of the Securities which make it impossible in the opinion of the Calculation Agent to adjust the Terms and Conditions in a way which makes sense from a financial point of view or if the price quotation of the Underlying was cancelled without replacement.

In the event of extraordinary termination, the Securityholders lose all of their rights arising from the Securities, except for their claim to payment of the termination amount determined in accordance with the Terms and Conditions. There is even a risk that the termination amount paid will be equal to 0 (zero). In this event, the Securityholders will incur a total loss of the Capital Amount paid for the purchase of the Securities. The following is an example of such a case: The company whose shares form the underlying for the respective Security becomes insolvent. The share becomes worthless as a result. There is no question of making an adjustment to the Terms and Conditions in this case. The Issuer will therefore terminate the Security extraordinarily in this event. The Securityholders will suffer a total loss.

In addition, the Terms and Conditions provide for the possibility of an ordinary termination by the Issuer.

6.1.5. Currency Conversion

The Terms and Conditions of the Securities may contain provisions governing currency conversion. For example, the amounts payable in the Terms and Conditions may initially be expressed in a foreign currency and not the issue currency. In this event, these amounts are then converted into the issue currency on a Valuation Date at the relevant conversion rate specified in the Final Terms. The same applies to all other amounts payable in accordance with the Terms and Conditions that are initially expressed in a foreign currency (non quanto).

However, the Terms and Conditions may specify a 1:1 conversion rate (e.g., EUR 1.00/USD 1.00) (quanto). In this case, the issue currency/foreign currency exchange rate on the Valuation Date is irrelevant.

6.2. Detailed Information on Tracker Certificates

6.2.1. Features

The Unlimited Tracker Certificates do not have a fixed term. That means, Tracker Certificates are **not** called for redemption automatically on a defined date. Securityholders must call for redemption their Securities or sell them in order to realise their financial value.

The Limited Tracker Certificates have a fixed term and are automatically called for redemption on the last day of the Call Period. Prior to this, the Securityholders must call for redemption their Securities or sell them in order to realise their financial value.

6.2.2. Redemption

The Redemption Amount paid out to the Securityholder upon call for redemption depends on the NPV on the respective Valuation Date. The NPV is calculated on the basis of an Underlying Component and a Fee Component, whereby the Underlying Component is in turn determined by the Reference Price of the Underlying underlying the Security and each previously determined Reference Price. In the case of Tracker Certificates on Futures Contract, an Interest Component is included in the calculation of the NPV.

(a) Underlying Component

In the NPV calculation, the Underlying Component reflects the purchase of the Underlying (long position). Thus, an increase in the price of the Underlying leads to an increase in the Underlying Component on a daily basis and vice versa.

(b) Additional influence on the Underlying Component for Tracker Certificates with FXopt

In the case of a Tracker Certificate with FXopt (FX optimised), the daily change in the Underlying underlying the Security results in a change in the Underlying Component **divided by the daily exchange rate change**, i.e. divided by the quotient of the current exchange rate and the previous exchange rate determined, where the daily exchange rate is expressed as the amount of underlying currency for each unit of the issue currency.

Taking the daily exchange rate change into account when calculating the Underlying Component increases the effect of the daily change in the Underlying if the issue currency depreciates against the underlying currency or decreases it if the issue currency appreciates against the underlying currency.

However, the investor should note that each daily change in the exchange rate has a corresponding effect on the calculation during the entire term of the Securities since their issue.

(c) Fee Component

The Fee Component results from an annual rate (Calculation Fee), which includes the hypothetical costs that would be incurred in tracking the performance of the NPV. The Calculation Fee shall be determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB (German Civil Code)) by taking into account prevailing market conditions on each Business Day.

(d) Interest Component (Underlying Futures Contract)

The Interest Component results from an investment in a money market instrument at an overnight rate. A negative Reference Interest Rate leads to interest losses instead of the expected interest gains. In this case, the Interest Component would be negative and would have a value-reducing effect on the NPV on such a day.

6.2.3. Limitation of term for Tracker Certificates on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The Terms and Conditions may contain the following clause: if the Underlying is a U.S. Share or a certain U.S. ETF Share or Index that reference U.S. equities, and the company that issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, the term of the Security automatically ends prematurely. In this case, the Redemption Date is the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The Issuer intends to take the view that payments made in respect of such Securities are not subject to the tax withholding obligation in accordance with Section 871(m) IRC. However, this is not an uncontested view and the Inland Revenue Service (IRS) may assert that certain payments made in respect of such Securities are subject to the withholding obligation under Section 871(m). If it transpires that the view taken by the IRS is correct, Securityholders may be subject to tax in accordance with Section 871(m) IRC. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors. Investors must contact their custodian regarding any potential tax refund in accordance with the respective U.S. laws. In addition, the mandatory uniform pricing for all investors means that the maximum applicable tax rate is routinely applied.

6.2.4. Tax withheld by the Issuer in the case of Tracker Certificates on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities ("Issuer Solution")

In the case of Structured Warrants Long that (i) are linked to the performance of a U.S. Share or a certain U.S. ETF Share or Index that reference U.S. equities, and (ii) were not terminated before the Business Day prior to the ex-dividend date or before the dividend record date, in the event that dividend

payments are made in respect of the Underlying the Issuer intends to take the tax obligation under Section 871(m) IRC into account in its ongoing adjustment of the price of the Underlying, and to ensure compliance with the tax withholding obligation by means of internal rules to be determined accordingly. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors.

To the extent withholding under Section 871(m) IRC is required, the Issuer intends to withhold at a rate of 30 percent on any dividend equivalents. This withholding is in addition to any withholding applicable to the Issuer's hedge. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any U.S. equity-linked Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.

Aside from publishing and filing this Prospectus, any supplements and/or the respective Final Terms in the Federal Republic of Germany and in those countries where the Prospectus has been notified, the Issuer has not taken and will not take any action to permit the public offer of the Securities or their possession or the distribution of offering documents in relation to the Securities in a jurisdiction that requires specific action to be taken for that purpose.

The distribution of this Prospectus and the offer of the Securities may be subject to legal restrictions in certain jurisdictions. This may relate primarily to the offer, sale, holding and/or delivery of Securities as well as the distribution, publication and possession of the Prospectus. Persons who gain access to the Securities and/or the Prospectus are required to independently seek information on and comply with such restrictions.

The Securities and the Prospectus may only be distributed in a given jurisdiction if this complies with the laws of such jurisdiction and does not give rise to obligations on the part of the Issuer. In particular, the Prospectus may not be used by any person or entity for the purposes of an offer or advertisement (a) in a jurisdiction in which the offer or advertisement is not approved but where such approval is required, and/or (b) to or with respect to a person for whom such offer or advertisement is not lawful.

Neither the Base Prospectus nor any supplements nor the respective Final Terms represent an offer or an invitation to any person for the purchase of Securities and can in no way be regarded as a recommendation by the Issuer to purchase Securities.

7.2. European Economic Area

A public offer of the Securities may be made in a member state of the European Economic Area (the "EEA") in accordance with the following terms and conditions:

- after the date of publication of the Base Prospectus approved by the competent authority of that member state or approved in another member state and notified to the competent authority in that member state, provided that
 - the Base Prospectus has been supplemented by the Final Terms providing for an offer subject to the obligation to publish a prospectus (non-exempt offer), in accordance with the Prospectus Regulation,
 - the non-exempt offer is only made in the period whose beginning and end are specified in the Base Prospectus or in the Final Terms, and
 - the Issuer has consented in writing to their use for the purposes of the non-exempt offer;
- at any time to persons who are qualified investors within the meaning of the Prospectus Regulation;
- at any time in any member state to fewer than 150 natural or legal persons per member state (who are not qualified investors within the meaning of the Prospectus Regulation); or
- at any time under any of the other circumstances specified in Article 1 (4) of the Prospectus Regulation.

None of the offers under the last three points may require the Issuer to publish a prospectus in accordance with Article 6 of the Prospectus Regulation or a supplement to a prospectus in accordance with Article 23 of the Prospectus Regulation.

For the purposes of these selling restrictions, the term "public offer of the Securities", when used in relation to Securities in a member state, means a communication to persons in any form and by any means, presenting sufficient information on the terms of the offer and the securities to be offered, so as to enable an investor to decide to purchase or subscribe for those securities.

Unless specified otherwise in the Terms and Conditions all payments and deliveries in respect of Securities and, if applicable, under the Guarantee, shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction (the "**Taxes**") unless such withholding or deduction is required by law.
2. Notwithstanding any other provision of these Terms and Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of Securities for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 ("**IRC**") or otherwise imposed pursuant to Sections 1471 through 1474 IRC, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto or (ii) imposed pursuant to the Section 871(m) Regulations (the "**871(m) Withholding**") or (iii) imposed

by any other law of the United States of America. In addition, in determining the amount of Section 871(m) withholding imposed, the Issuer shall be entitled to withhold on any "**dividend equivalent**" (as defined for purposes of Section 871(m) IRC) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

With respect to Specified Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e., a security that pays U.S. source dividends), or an ETF or an index that includes U.S. securities, all payments on the Securities that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) IRC) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) IRC amount deemed withheld.

3. For the purpose of this condition:

"Section 871(m) Regulations" means the U.S. Treasury regulations issued under Section 871(m) IRC.

"Specified Securities" means, subject to special rules from 2017 through 2022 set out in Notice 2020-2 (the "**Notice**"), Securities issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Securities as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations (for the purposes of the Notice, such Securities are deemed "delta-one" instruments).

"Tax Jurisdiction" means Germany or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by the Issuer) or the French Republic or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Société Générale).

§ 4 STATUS, GUARANTEE, LIMITED RECOURSE

1. Securities will constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, unsecured and unsubordinated obligations of the Issuer, present and future.
2. The due and punctual payment of any amounts due by the Issuer in respect of any [Series] [series] of Securities issued by the Issuer is unconditionally and irrevocably guaranteed by Société Générale, Paris, French Republic (the "**Guarantor**") as provided in the guarantee ("**Guarantee**" and each such amount payable under the Guarantee, a "**Guarantee Obligation**") as set out in the respective base prospectus, provided that in the case of any delivery obligations in respect of which the relevant guaranteed obligation of the Issuer is an obligation to transfer the deliverable asset(s), the Guarantor shall, in lieu of such transfer, be obliged to pay cash amount in the Issue Currency equal to the fair market value (as determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) on or about the due date for transfer of the relevant deliverable asset(s) in respect of the number) of the number of deliverable asset(s).

The Guarantee Obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking senior preferred obligations, as provided for in Article L. 613-30-3 I 3° of the French Monetary and Financial Code (*Code monétaire et financier*, "**M&F Code**").

Such Guarantee Obligations rank and will rank equally and rateably without any preference or priority among themselves and:

- (a) *pari passu* with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the law no. 2016-1691 ("**Law**") on 11 December 2016;
 - (b) *pari passu* with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° M&F Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;
 - (c) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and
 - (d) senior to all present and future senior non-preferred obligations (as provided for in Article L. 613-30-3 I 4° M&F Code) and all present or future subordinated obligations and deeply subordinated obligations, of the Guarantor.
3. In the event of a payment default by the Issuer, of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Redemption Amount) on any such Security(ies) whenever such payment falls due (such payment defaults, a "**Defaulted Payments**"), the Securityholder cannot institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the Issuer (the "**Limited Recourse**").

For the avoidance of doubt these Securityholder's rights under the Guarantee do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments subject in all cases to the terms of the Guarantee.

§ 5 BAIL-IN

1. Exercise of the Bail-in Power by the Relevant Resolution Authority on liabilities of Société Générale:
 - (a) If the Relevant Resolution Authority exercises its Bail-in Power on liabilities pursuant to Article L. 613-30-3 I 3° M&F Code of Société Générale, ranking junior to liabilities of Société Générale that benefits from statutorily preferred exceptions pursuant to Article L. 613-30-3 I 1° and 2° M&F Code, and senior to liabilities as defined in Article L. 613-30-3 I 4° M&F Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Société Générale or another person, including by means of a variation of the terms and conditions to give effect to such exercise of Bail-in Power, then
 - (i) the Issuer's obligations to the Securityholders under the Securities shall be limited and reduced to the amounts of principal and/or interest that would be recoverable by the Securityholders and/or the value of the shares or other securities or other obligations of Société Générale or another person that would be delivered to the Securityholders if the Securities had been directly issued by Société Générale itself, and any obligations under the Securities had accordingly been directly subject to the Bail-in Power, and
 - (ii) the Issuer shall be entitled to, in lieu of payment, request the Securityholders to seek payment, in whole or in part, of any amounts due under the Securities subsequent to the reduction and/or delivery of any shares or other securities or other obligations

of Société Générale subsequent to a conversion provided for at (i) above, directly from Société Générale under Société Générale's obligations.

If and to the extent that the Issuer requests the Securityholders to directly seek payment and/or delivery from Société Générale under Société Générale's Guarantee for the Issuer's obligations, the Issuer's liabilities under the Securities shall be deemed extinguished.

"Bail-in Power" means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including, but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled and/or converted into shares or other securities or obligations of the obligor or any other person.

The **"Relevant Resolution Authority"** is any authority with the ability to exercise the Bail-in Power.

- (b) No repayment of the principal amount of the Securities or the payment of interest thereon (to the extent of the portion thereof affected by the exercise of the Bail-in Power) shall become due and payable after the exercise of any Bail-in Power by the Relevant Resolution Authority, unless such repayment or payment would be permitted to be made by Société Générale under the laws and regulations then applicable to Société Générale under its senior unsecured liabilities if Société Générale itself was the issuer of the Securities, and the Terms and Conditions shall be deemed to be modified accordingly.
- (c) Upon the Issuer becoming aware of the exercise of the Bail-in Power by the Relevant Resolution Authority on senior unsecured liabilities of Société Générale, the Issuer shall notify the Securityholders in accordance with § 7 of the General Terms (and other parties that should be notified, if applicable). Any delay or failure by the Issuer to give notice shall not affect the effects on the Securities described in (a).
- (d) The reduction or modification described in (a) and (b) above with respect to the Securities shall not constitute an event of default and the Terms and Conditions shall continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of the Securities, subject to any modification of the amount of interest payable to reflect the reduction of the principal amount and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or other investment firms domiciled in the French Republic.

2. Acknowledgement of bail-in and write-down or conversion powers

Acknowledgement of bail-in and write-down or conversion powers on the relevant Issuer's liabilities and of the write-down and conversion of Securities of the Issuer following the bail-in and write-down and conversion of some Société Générale's liabilities

By the acquisition of Securities, each Securityholder (which, for the purposes of this § 5 of the General Terms, includes any current or future holder of a beneficial interest in the Securities) acknowledges, accepts, consents and agrees:

- (a) to be bound by the effect of the exercise of the Bail-in Power by the Relevant Resolution Authority on the relevant Issuer's liabilities under the Securities, which may include and result in any of the following, or some combination thereof:
 - (i) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;

- (ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person (and the issue to the Securityholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Securities, in which case the Securityholder agrees to accept in lieu of its rights under the Securities any such shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person;
- (iii) the cancellation of the Securities; and/or
- (iv) the amendment or alteration of the maturity of the Securities or amendment of the amount of interest payable on the Securities, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and

that terms of the Securities are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-in Power by the Relevant Resolution Authority or the regulator (the "**Statutory Bail-in**") and

- (b) if the Relevant Resolution Authority exercises its Bail-in Power on liabilities of Société Générale, pursuant to Article L. 613-30-3 I 3° M&F Code:
 - (i) ranking:
 - (aa) junior to liabilities of Société Générale benefitting from statutorily preferred exceptions pursuant to Article L. 613-30-3 I 1° and 2° M&F Code;
 - (bb) *pari passu* with liabilities of Société Générale as defined in Article L. 613-30-3 I 3° M&F Code; and
 - (cc) senior to liabilities of Société Générale as defined in Article L. 613-30-3 I 4° M&F Code; and
 - (ii) which are not *titres non structures* as defined under Article R. 613-28 M&F Code, and
 - (iii) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of Société Générale

and such exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Société Générale or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-in Power, then the Issuer's obligations under the Securities will be limited to (i) payment of the amounts of principal and/or interest as reduced or cancelled that would be recoverable by the Securityholders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of Société Générale or another person that would be paid or delivered to the Securityholders as if, in either case, the Securities had been directly issued by Société Générale itself, and any Amount Due under the Securities had accordingly been directly subject to the exercise of the Bail-in Power (the "**Contractual Bail-in**").

3. Consequences of the Statutory Bail-in and Contractual Bail-in

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-in with respect to the Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the Issuer or the Guarantor under the applicable laws and regulations in effect in the French Republic or the Grand Duchy of Luxembourg and the European Union applicable to the Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Securities issued by the Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Securities, the Issuer or the Guarantor will provide a written notice to the Securityholders in accordance with § 7 of the General Terms as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The Issuer or the Guarantor will also deliver a copy of such notice to the Paying Agent for informational purposes, although the Paying Agent shall not be required to send such notice to Securityholders. Any delay or failure by the Issuer or the Guarantor (if any) to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Securities described above.

Neither a cancellation of the Securities, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Securities will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Securityholder to any remedies (including equitable remedies) which are hereby expressly waived.

Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the Issuer, the Guarantor and each Securityholder (including each holder of a beneficial interest in the Securities) hereby agree that (a) the Paying Agent shall not be required to take any directions from Securityholders, and (b) the agency agreement shall impose no duties upon the Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in, any Securities remain outstanding (for example, if the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Securities), then the Paying Agent's duties under the agency agreement shall remain applicable with respect to the Securities following such completion to the extent that the relevant Issuer, the Guarantor and the Paying Agent shall agree pursuant to an amendment to the agency agreement.

If in a Statutory Bail-In the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Paying Agent is otherwise instructed by the Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Securities will be (in the case of a Contractual Bail-In) or may be (in the case of a Statutory Bail-in) made on a prorata basis.

The matters set forth in this § 5 of the General Terms shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor and each Securityholder.

No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Paying Agent, shall be borne by any Securityholder.

For the purpose of this § 5 of the General Terms:

"Amounts Due" means the prevailing outstanding amounts of the Securities issued by the Issuer, and any accrued and unpaid interest on such Securities that have not been previously cancelled or otherwise are no longer due.

"MREL" means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

§ 6
SUBSTITUTION OF THE ISSUER

1. At any time during the life of the Securities and subject to paragraph 2, the Issuer is entitled to substitute any other company (hereinafter called a "**New Issuer**") for itself as Issuer without the consent of any Securityholder. In such case, the New Issuer may assume all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the respective effective date shall be notified by the Issuer in accordance with § 7 of the General Terms.

Upon any such substitution, the New Issuer shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 6 of the General Terms, each previous issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on refer to the New Issuer.

2. No such assumption shall be permitted unless
 - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
 - (b) the Issuer or the Guarantor has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities **[German Central Register Security]** [and, to the extent permissible, the Guarantee is entered in the central register as main content of the right in accordance with § 13 (1) No. 1 eWpG]; [and]
 - (c) the New Issuer has obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the New Issuer is domiciled or the country under the laws of which it is organised[.] [and]
 - (d) Euroclear Sweden has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed).]
3. Upon any substitution of the Issuer for a New Issuer, this § 6 of the General Terms shall apply again.

§ 7
NOTICES

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website [\[www.warrants.com\]](http://www.warrants.com) **[[website]]** (or on another website notified at least six weeks in advance by the Issuer in accordance with this section in the Federal Gazette (*Bundesanzeiger*)) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

[Other publications with regard to the Securities are published on the website www.societegenerale.com (or any successor website).]

§ 8
ISSUANCE OF ADDITIONAL SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.

2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

§ 9
**LIMITATION OF LIABILITY,
PRESENTATION PERIODS, PRESCRIPTIONS**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent and the Calculation Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period. [German Central Register Security][The presentation is made by express request for performance, with credible proof of the entitlement (§ 29 (2) eWpG).]

§ 10
PARTIAL INVALIDITY, CORRECTIONS

1. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 7 of the General Terms. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
2. The Issuer may combine the declaration of rescission pursuant to paragraph 1 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 7 of the General Terms. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 7 of the General Terms by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 1. The Issuer shall refer to this effect in the notification.
3. "**Issue Price**" within the meaning of paragraph 1 and 2 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) of the traded prices of the Securities on the Business Day preceding the declaration of rescission pursuant to paragraph 1. If a Market Disruption Event exists on the Business Day preceding the declaration of rescission pursuant to paragraph 1, the last Business Day preceding the declaration of rescission pursuant to paragraph 1 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

4. Contradictory or incomplete provisions in the [German Central Register Security][recorded] Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 7 of the General Terms.
5. If a Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 1 - 4, such Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
6. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 1 - 4 above.

The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.

 - (b) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:

All Underlyings

- [•]** Upon the occurrence, as determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB), of an Administrator/Benchmark Event to a Benchmark (the "**Affected Benchmark**") on or after the Launch Date the following shall apply:
- (a) the Calculation Agent shall, using reasonable discretion (*billiges Ermessen*) (§ 317 BGB), determine the Benchmark that is the successor to or replacement of the Affected Benchmark which is formally recommended by any Relevant Nominating Body (the "**Successor Benchmark**"); or
 - (b) if no Successor Benchmark is available, the Calculation Agent shall, using reasonable discretion (*billiges Ermessen*) (§ 317 BGB), determine the Benchmark which is customarily

applied in international [debt] capital markets transactions for the purposes of determining the Affected Benchmark (the "**Alternative Benchmark**" and together with the Successor Benchmark, the "**New Benchmark**").

If the Calculation Agent determines a New Benchmark as described above, then such New Benchmark shall subsequently be used in place of the Affected Benchmark as of the relevant effective date notified by the Issuer to the Securityholders or, at the latest, for the immediately following period for which the Benchmark is to be determined (the "**Determination Period**") and subsequently for all following Determination Periods.

In the case of a New Benchmark, the Issuer shall in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) make any such additional adjustments to the Terms and Conditions in order to follow market practice in relation to the New Benchmark or

- (a) as are necessary to reflect any increased costs of the Issuer providing such exposure to the New Benchmark;

and/or

- (b) in the case of more than one New Benchmark, making provision for allocation of exposure between the New Benchmarks;

and/or

- (c) as are necessary to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to the Issuer as a result of the replacement of the Benchmark.

Where:

"Administrator/Benchmark Event" means, in relation to any Benchmark, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event all as determined by the Calculation Agent.

"Benchmark" means any figure which is a benchmark as defined in the Benchmarks Regulation and where any amount payable under the Securities, or the value of the Securities, is determined by reference in whole or in part to such figure, all as determined by the Calculation Agent.

"Benchmark Modification or Cessation Event" means, in respect of the Benchmark any of the following has occurred or will occur:

- (a) any material change in such Benchmark;
- (b) the permanent or indefinite cancellation or cessation in the provision of such Benchmark;
- (c) a regulator or other official sector entity prohibits the use of such Benchmark for the Issuer or any other entity generally or in respect of the Securities.

"Non-Approval Event" means, in respect of the Benchmark:

- (a) any authorisation, registration, recognition, endorsement, equivalence or approval in respect of the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be obtained;
- (b) the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be included in an official register; or

- (c) the Benchmark or the administrator or sponsor of the Benchmark does not or will not fulfil any legal or regulatory requirement applicable to the Securities, the Issuer or the Benchmark,

in each case, as required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities. For the avoidance of doubt, a Non-Approval Event shall not occur if the Benchmark or the administrator or sponsor of the Benchmark is not or will not be included in an official register because its authorisation, registration, recognition, endorsement, equivalence or approval is suspended if, at the time of such suspension, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension.

"Relevant Nominating Body" means, in respect of the replacement of the Affected Benchmark:

- (a) [the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (b) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (i) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (ii) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (iii) a group of the aforementioned central banks or other supervisory authorities or (iv) the Financial Stability Board or any part thereof][●].

"Rejection Event" means, in respect of the Benchmark, the relevant competent authority or other relevant official body rejects or refuses or will reject or refuse any application for authorisation, registration, recognition, endorsement, equivalence, approval or inclusion in any official register which, in each case, is required in relation to the Securities, the Benchmark or the administrator or sponsor of the Benchmark under any applicable law or regulation for the Issuer or any other entity to perform its obligations in respect of the Securities.

"Suspension/Withdrawal Event" means, in respect of the Benchmark:

- (a) the relevant competent authority or other relevant official body suspends or withdraws or will suspend or withdraw any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Benchmark or the administrator or sponsor of the Benchmark which is required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities; or
- (b) the Benchmark or the administrator or sponsor of the Benchmark is or will be removed from any official register where inclusion in such register is or will be required under any applicable law in order for the Issuer or any other entity to perform its obligations in respect of the Securities.
- (c) For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is or will be suspended or where inclusion in any official register is or will be withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension or withdrawal.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Calculation Agent shall determine which terms shall apply in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB).

Any amendments made by the Issuer pursuant to this § 5 [paragraph •] of the Product-Specific Terms shall be notified by the Issuer pursuant to § 7 of the General Terms as soon as practicable following the determination thereof. Such notice shall be irrevocable and shall specify the date on which the relevant adjustments become effective.

In the case of the occurrence of an Administrator/Benchmark Event due to the Benchmarks Regulation, the provisions of this § 5 [paragraph •] of the Product-Specific Terms shall take precedent over any other provisions in these Terms and Conditions under which the Issuer may make adjustments to the Terms and Conditions due to the occurrence of the same event; the Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case.

§ 6 EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case.

Underlying Index

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification in accordance with § 5 paragraph 9 of the Product-Specific Terms.

Underlying Futures Contracts

The Issuer may also freely elect to terminate the Securities prematurely in the case of a discontinuation of the calculation of the NPV in accordance with § 2 paragraph 3 of the Product-Specific Terms.

The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether a Hedging Disruption has occurred.]

[The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (a) it has become illegal to hold, acquire or dispose of [Share][any Shares] [ETF Share][any ETF Shares] [Index][any Index Components] [Precious Metal][the Precious Metal] [Futures Contract][the Futures Contract] [Currency Exchange Rate][one of the currencies underlying the Currency Exchange Rate] or (b) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether a Change in Law has occurred.]

Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, "EU PRIIPS Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering, or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.] <i>[other provisions]</i></p>

Because many central securities depositories do not provide identifying information regarding the beneficial owners of any U.S. equity-linked Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.] <i>[other provisions]</i></p>
